(c) In all cases where measurements taken in accordance with the requirements are not available, the groundwave intensity must be determined by means of the pertinent map of ground conductivity and the groundwave curves of field intensity versus distance. The conductivity of a given terrain may be determined by measurements of any broadcast signal traversing the terrain involved. Figures M3 and R3 of § 3.190 show the conductivity throughout the United States by general areas of reasonably uniform conductivity. When it is clear that only one conductivity value is involved, Figure R3 of § 3.190, which is a replica of Figure M3 and contained in these standards, may be used; in all other situations Figure M3 must be employed. It is recognized that in areas of limited size or over a particular path, the conductivity may vary widely from the values given; therefore, these maps are to be used only when accurate and acceptable measurements have not been made. Figure 4 of § 3.190 is a map of ground conductivity in Canada prepared by the Canadian Department of Transport. It is to be noted that at some locations there are differences in conductivity on either side of the border, which cannot be explained by geophysical cleavages. Pending adjustment of the maps for such inconsistencies, all variations at the border will be treated as real.

NOTE: Figure M3 which is incorporated in these Standards by reference, was derived by indicating ground conductivity values in the United States on the United States Albers equal area projection map (based on standard parallels 29½° and 45½°; North American datum; scale 1/2,500,000). Figure M3, consisting of two sections, an eastern and a western half, may be obtained from the Superintendent of Documents, Washington, D. C.

(d) Example of determining interference by the graphs in § 3.184:

It is desired to find whether objectionable interference exists between a 5 kw Class III station on 990 kc and a 1 kw Class III station on 1000 kc, the stations being separated by 190 miles; both stations use nondirectional antennas having such height as to produce an effective field for 1 kw of 175 mv/m. (See § 3.185 in case of use of directional antennas.) The conductivity at each station and of the intervening terrain is determined as 6 mmhos/m. The protection to Class III stations during daytime is to the 500 uv/m contour. The distance to the 500 uv/m groundwave contour of the 1 kw station is determined by the use of the appropriate curve in § 3.184, Graph 12. Since the curve is plotted for 100 mv/m at a mile, to find the distance to the 500 uv/m contour of the 1 kw station, it is necessary to determine the distance to the 285 uv/m contour ($\frac{100\times 500}{175}=285$). From the appropriate curve, the estimated radius of the service area for the desired station is found to be 39.5 miles. Subtracting this distance from the distance between the two stations leaves 90.5 miles for the interfering signal to travel. From the above curve it is found that the signal from the 5 kw station at this distance would be 158 uv/m. Since a one to one ratio applies for stations separated by 10 kc, the undesired signal at that point can have a value up to 500 uv/m without objectionable interference. If the undesired signal had been found to be greater than 500 uv/m, then objectionable interference would exist. For other channel separations, the appropriate ratio of desired to undesired signal should be used.

(e) Where a signal traverses a path over which different conductivities exist, the distance to a particular groundwave field intensity contour shall be determined by the use of the equivalent distance method. Reasonably accurate results may be expected in determining field intensities at a distance from the antenna by application of the equivalent distance method when the unattenuated field of the antenna, the various ground conductivities and the location of discontinuities are known. This method considers a wave to be propagated across a given conductivity according to the curve for a homogeneous earth of that conductivity. When the wave crosses from a region of one conductivity into a region of a second conductivity, the equivalent distance of the receiving point from the transmitter changes abruptly but the field intensity does not. From a point just inside the second region the transmitter appears to be at that distance where, on the curve for a homogeneous earth of the second conductivity, the field intensity equals the value that occurred just across the boundary in the first region. Thus the equivalent distance from the receiving point to the transmitter may be either greater or less than the actual distance. An imaginary transmitter is considered to exist at that equivalent distance. This technique is not intended to be used as a means of evaluating unattenuated field or ground conductivity by the analysis of measured data. The method to be employed for such determinations is set out in § 3.186.

(f) An example of the use of the equivalent distance method follows:

It is desired to determine the distance to the 0.5 mv/m and 0.025 mv/m contours of a station on a frequency of 1000 kc with an inverse distance field of 100 mv/m at one mile being radiated over a path having a conductivity of 10 mmhos/m for a distance of 15 miles, 5 mmhos/m for the next 20 miles and 15 mmhos/m thereafter. By the use of the appropriate curves in § 3.184—Graph 12, it is seen that at a distance of 15 miles on the curve for 10 mmhos/m the field is 3.45 mv/m. The equivalent distance to this field intensity for a conductivity of 5 mmhos/m is 11 miles. Continuing on the propagation curve for the second conductivity, the 0.5 mv/m contour is encountered at a distance of 27.9 miles from the imaginary transmitter. Since the imaginary transmitter was 4 miles nearer (15−11 miles) to the 0.5 mv/m contour, the distance from the contour to the actual transmitter is 31.9 miles (27.9+4 miles). The distance to the 0.025 mv/m contour is determined by continuing on the propagation curve for the second conductivity to a distance of 31 miles (11+20 miles), at which point the field is read to be 0.39 mv/m. At this point the conductivity changes to 15 mmhos/m and from the curve relating to that conductivity, the equivalent distance is determined to be 58 miles—27 miles more distant than would obtain had a conductivity of 5 mmhos/m prevailed. Using the curve representing the conductivity of 15 mmhos/m the 0.025 mv/m contour is determined to be at an equivalent distance of 172 miles. Since the imaginary transmitter was considered to be 4 miles closer at the first boundary and 27 miles farther at the second boundary, the net effect is to consider the imaginary transmitter 23 miles (27−4 miles) more distant than the actual transmitter; thus the actual distance to the 0.025 mv/m contour is determined to be 149 miles (172−23 miles).

§ 3.184 *Groundwave field intensity charts.* (a) Graphs 1–19A show the computed values of groundwave field intensity as a function of the distance from the transmitting antenna. The groundwave field intensity is here considered to be that part of the vertical component of the electric field received on the ground which has not been reflected from the ionosphere nor the troposphere. These 20 charts were computed for 20 different frequencies, a dielectric constant of the ground equal to 15 for land and 80 for sea water (referred to air as unity) and for the ground conductivities (expressed in mmhos/m) given on the curves. The curves show the variation of the groundwave field intensity with distance to be expected for transmission from a short vertical antenna at the surface of a uniformly conducting spherical earth with the ground constants shown on the curves; the curves are for an antenna power and efficiency such that the inverse distance field is 100 mv/m at 1 mile. The curves are valid at distances large compared to the dimensions of the antenna for other than short vertical antennas.

(b) The inverse distance field (100 mv/m divided by the distance in miles) corresponds to the groundwave field intensity to be expected from an antenna with the same radiation efficiency when it is located over a perfectly conducting earth. To determine the value of the groundwave field intensity corresponding to a value of inverse distance field other than 100 mv/m at 1 mile, simply multiply the field intensity as given on these charts by the desired value of inverse distance field at 1 mile divided by 100; for example, to determine the groundwave field intensity for a station with an inverse distance field of 1700 mv/m at 1 mile, simply multiply the values given on the charts by 17. The value of the inverse distance field to be used for a particular antenna depends upon the power input to the antenna, the nature of the ground in the neighborhood of the antenna, and the geometry of the antenna. For methods of calculating the interrelations between these variables and the inverse distance field, see "The Propagation of Radio Waves Over the Surface of the Earth and in the Upper Atmosphere," Part II, by Mr. K. A. Norton, Proc. I. R. E., Vol. 25, September 1937, pp. 1203–1236.

(c) At sufficiently short distances (say less than 35 miles), such that the curvature of the earth does not introduce an additional attenuation of the waves, the graphs were computed by means of the plane earth formulas given in the paper, "The Propagation of Radio Waves Over the Surface of the Eartth and in the Upper Atmosphere," Part I, by Mr. K. A. Norton, Proc. I. R. E., Vol. 24, October 1936, pp. 1367–1387. At larger distances the additional attenuation of the waves which is introduced by the effect of the curvature of the earth was introduced by the methods outlined in the papers, "The Diffraction of Electromagnetic Waves from an Electrical Point Source round a Finitely Conducting Sphere, with Applications to Radiotelegraphy and the Theory of the Rainbow," by Balth van der Pol and H. Bremmer, Part I, Phil. Mag., Vol. 24, p. 141, July 1937, Part II, Phil. Mag., Vol. 24, p. 825, Suppl., November 1937, "Ergebrisse einer Theorie uber die Fortpflanzung elektromagnetischer Wellen uber eine Kugel endlicher Leitfahigkeit," by Balth van der Pol and H. Bremmer, Hochfrequenztechnik und Elektroakustik, Band 51, Heft 6, June 1938, "Further Note on the Propagation of Radio Waves over a Finitely Conducting Spherical Earth," by Balth van der Pol and H. Bremmer, Phil. Mag., Vol. 27, p. 261, March 1939. In order to allow for the refraction of the radio waves in the lower atmosphere due to the variation of the dielectric constant of the air with height above the earth, a radius of the earth equal to 4/3 the actual radius was used in the computations for the effect of the earth's curvature in the manner suggested by C. R. Burrows, "Radio Propagation over Spherical Earth," Proc. I. R. E., May 1935; i. e., the distance corresponding to a given value of attenuation due to the curvature of the earth in the absence of air refraction was multiplied by the factor $(4/3)^{\frac{1}{3}}=1.21$. The amount of this refraction varies from day to day and from season to season, depending on the air mass conditions in the lower atmosphere. If k denotes the ratio between the equivalent radius of the earth and the true radius, the following table gives the values of k for several typical air masses encountered in the United States.

Air mass type	k	
	Summer	Winter
Tropical Gulf—T_c	1.53	1.43
Polar Continental—P_c	1.21	1.25
Superior—S	1.25	1.25
Average	1.33	

It is clear from this table that the use of the average value of $k=4/3$ is justified in obtaining a single correction for the systematic effects of atmospheric refraction.

(d) Provided the value of the dielectric constant is near 15, the curves of Graphs 1–19A may be compared with experimental data to determine the appropriate values of the ground conductivity and of the inverse distance field intensity at 1 mile. This is accomplished simply by plotting the measured fields on transparent log-log graph paper similar to that used for Graphs 1–19A and superimposing this chart over the graph corresponding to the frequency involved. The log-log graph sheet is then shifted vertically until the best fit is obtained with one of the curves on the graph; the intersection of the inverse distance line on the graph with the 1-mile abscissa on the chart determines the inverse distance field intensity at 1 mile. For other values of dielectric constant, the following procedure may be used for a determination of the dielectric constant of the ground, conductivity of the ground and the inverse distance field intensity at 1 mile. Graph 20 gives the relative values of groundwave field intensity over a plane earth as a function of the numerical distance p and phase angle b. On graph paper with coordinates similar to those of Graph 20, plot the measured values of field intensity as ordinates versus the corresponding distances from the antenna expressed in miles as abscissae. The data should be plotted only for distances greater than one wavelength (or, when this is greater, five times the vertical height of the antenna in the case of a single element, i. e., nondirectional antenna or 10 times the spacing between the elements of a directional antenna) and for distances less than $50/f_{mc}^{\frac{1}{3}}$ miles (i. e., 50 miles at 1 mc). Then, using a light box, place the sheet with the data plotted on it over the sheet with the curves of Graph 20 and shift the data sheet vertically and horizontally (making sure that the vertical lines on both sheets are parallel) until the best fit with the data is obtained with one of the curves on Graph 20. When the two sheets are properly lined up, the value of the field intensity corresponding to the intersection of the inverse distance line of Graph 20 with the 1 mile abscissa on the data sheet is the inverse distance field intensity at 1 mile, and the values of the numerical distance at 1 mile, p_1, and of b are also determined. Knowing the values of b and p_1 (the numerical distance at 1 mile), we may substitute in the following approximate formulas to determine the appropriate values of the ground conductivity and dielectric constant.

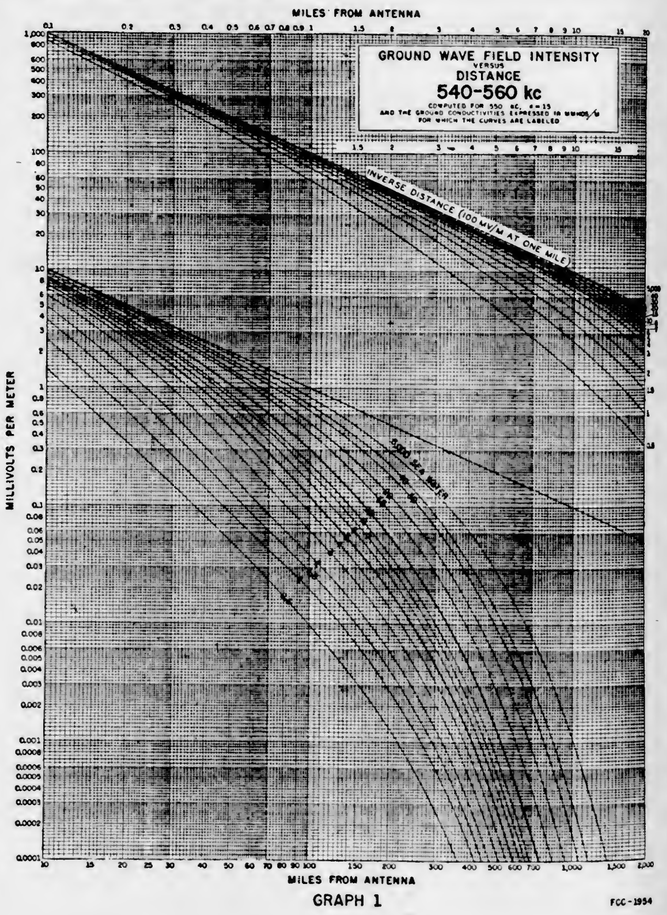
$$x \simeq \frac{\pi}{p_1} \cdot (R/\lambda)_1 \cdot \cos b \qquad (1)$$

$(R/\lambda)_1$ = Number of wavelengths in 1 mile.

$$\sigma_{e.\ m.\ u.} = \frac{x f_{mc}}{17.9731} \cdot 10^{-14} \qquad (2)$$

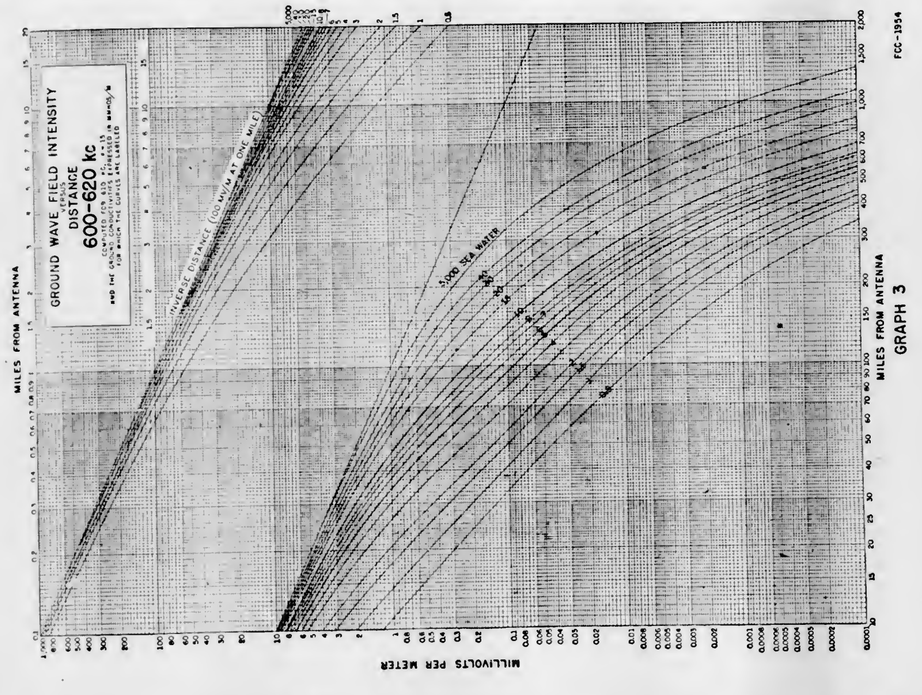
$\sigma_{e.\ m.\ u.}$ = Conductivity of the ground expressed in electromagnetic units.

f_{mc} = frequency expressed in megacycles.



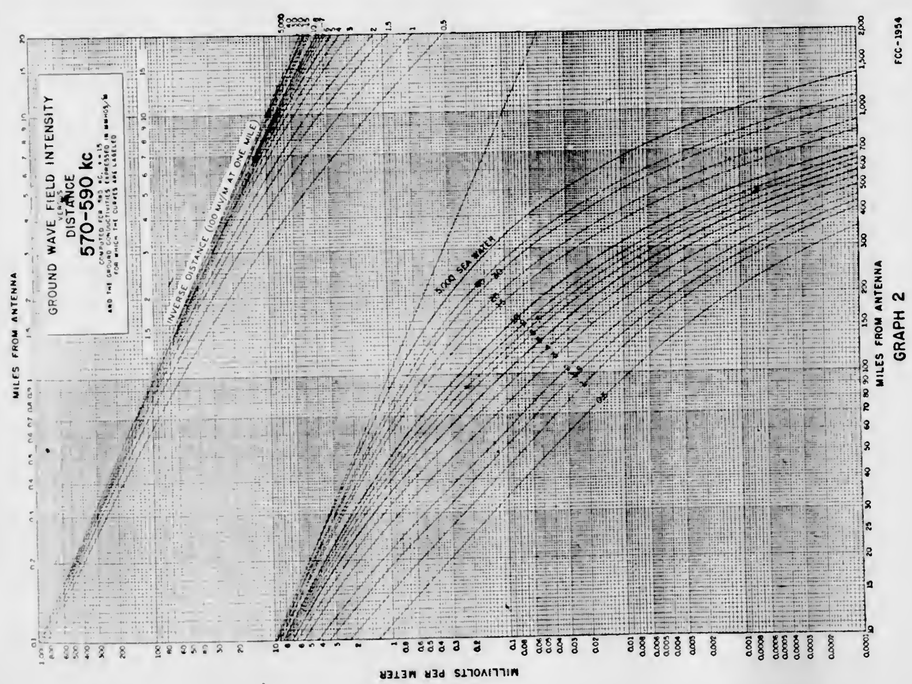
$$\epsilon \simeq x \tan b - 1 \qquad (3)$$

ϵ = dielectric constant of the ground referred to air as unity.



First solve for x by substituting the known values of p_1, $(R/\lambda)_1$, and cos b in equation (1). Equation (2) may then be solved for σ and equation (3) for ϵ. At distances greater than $50/f_{mc}^{\frac{1}{3}}$ miles the curves of Graph 20 do not give the correct relative values of field intensity since the curvature of the earth weakens the field more rapidly than these plane earth curves would indicate. Thus, no attempt should be made to fit experimental data to these curves at the larger distances.

(e) At sufficiently short distances (say less than 35 miles at broadcast frequencies), such that the curvature of the earth does not introduce an additional attenuation of the waves, the curves of Graph 20 may be used for determining the ground wave field intensity for transmitting and receiving antennas at the surface of the earth for any radiated power, frequency, or set of ground constants in the following manner: First, lay off the straight inverse distance line corresponding to the power radiated on transparent log-log graph paper similar to that of Graph 20, labelling the ordinates of the chart in terms of field intensity, and the abscissae in terms of distance. Next, by means of the formulas given on Graph 20, calculate the value of the numerical distance, p, at 1 mile, and the value of b. Then superimpose the log-log chart over Graph 20, shifting it vertically until the inverse distance lines on both charts coincide and shifting it horizontally until the numerical distance at 1 mile on Graph 20 coincides with 1 mile on the log-log graph paper. The curve of Graph 20 corresponding to the calculated value of b is then traced on the log-log graph paper giving the field intensity versus distance in miles.



NOTE: The graphs as reproduced herein, due to the small scale are not to be used in connection with material submitted to the F. C. C.

§ 3.185 *Computation of interfering signal from a directional antenna.* (a) In case of an antenna directional in the horizontal plane, the groundwave interference can be readily computed from the calculated horizontal pattern by determining the vectors toward the service area of the station to be protected and apply these values to the groundwave curves set out in § 3.183.

(b) For signals from stations operating on clear channels, in case of determining skywave interference from an antenna with a vertical pattern different from that on which Figure 1 of § 3.190 is predicated (the basis of the night mileage separation tables), it is necessary to compare the appropriate vectors in the vertical plane.

(c) The skywave curves entitled "Average Skywave Field Intensity" (corresponding to the second hour after sunset at the recording station) as shown in Figure 1 of § 3.190 are based on antenna systems having height of 0.311 wave length (112°) and producing a vertical pattern as shown in Figure 5 of § 3.190. A nondirectional antenna system, as well as a directional antenna system having vertical patterns other than essentially the same as shown, must be converted to the pattern of a 0.311 wave length antenna having the same field intensity at the critical angle as does the pattern of the antenna involved.

(d) Example of the use of skywave curves:

Figure 6 of § 3.190 is a graph entitled "Variation With Distance of Two Important Parameters in the Theory of Sky Wave Propagation." The curve for θ showing the angle above the horizon at which radiation occurs plotted against distance, must be used for this purpose. For instance, assuming the station with which interference may be expected is located at a distance of 450 miles from a proposed station, the critical angle of radiation as determined from this curve is approximately 15°. Therefore, if the vertical pattern of the proposed station in the direction of the other station is such that at 15° above the horizon the radiation is 1.3 times that from an antenna having a vertical pattern as shown in Figure 5 of § 3.190 and producing the same field intensity at 1 mile in the horizontal plane, the interfering signal would be 1.3 times that determined from Figure 1 of § 3.190 for an antenna having the same field intensity in the horizontal plane. That is, if the field intensity in the horizontal plane of the proposed station is 124 mv/m the interfering field intensity exceeded 10 percent of the time at the other station would be

$$140 \times 1.30 \times \frac{124}{100} \text{ or } 225 \text{ uv/m}$$

and would cause interference to the 4.5 mv/m ground wave contour of the existing station.

(e) For signals from stations on regional and local channels, in computing the 10% skywave (interference) field intensity values of Class III and Class IV stations, Fig. 2 of § 3.190 is to be used in place of Figure 1 of § 3.190. (Certain simplifying assumptions may be made in the case of Class IV stations on local channels: See note to § 3.182 (a) (4)) Since Figure 2 of § 3.190 is predicated upon a radiated field of 100 mv/m at one mile in the pertinent direction, no comparison with the vertical pattern of a 0.311 wavelength antenna is to be made. Instead the appropriate radiated field in the vertical plane corresponding to the distance to the receiving station, divided by 100, is multiplied into the value of 10% skywave field intensity determined from Figure 2 of § 3.190. There are two new factors to be considered, however, namely the variation of received field with latitude of the path and the variation of pertinent vertical angle due to variations of ionosphere height and ionosphere scattering.

(f) Figure 2 of § 3.190, "10% Skywave Signal Range Chart," shows the 10% skywave signal as a function of the latitude of the transmission path and the distance from a transmitting antenna with a radiated field of 100 mv/m at the pertinent angle for the distance. The latitude of the transmission path is defined as the geographic latitude of the midpoint between the transmitter and the receiver. Latitude 35° should be used in case the midpoint of the path lies below 35° North and latitude 50° should be used in case the midpoint of the path lies above 50° North.

(g) Figure 6–A of § 3.190, entitled "Angles of Departure vs. Transmission Range," is to be used in determining the angles in the vertical pattern of the antenna of an interfering station to be considered as pertinent to transmission by one reflection. Corresponding to any

given distance, the curves 4 and 5 indicate the upper and lower angles within which the radiated field is to be considered. The maximum value of field intensity occurring between these angles will be used to determine the multiplying factor for the 10% skywave field intensity determined from Figure 2 of § 3.190. (Curves 2 and 3 are considered to represent the variation due to the variation of the effective height of the E-layer while Curves 4 and 5 extend the range of pertinent angles to include a factor which allows for scattering. The dotted lines are included for information only.)

(h) In the case of non-directional vertical antennas, the vertical distribution of relative fields for several heights, assuming sinusoidal distribution of current along the antenna, is shown in Figure 5 of § 3.190. In the case of directional antennas the vertical pattern in the great circle direction toward the point of reception in question must first be calculated. Then for the distance to the points, the upper and lower pertinent angles are determined from Figure 6-A of § 3.190. The ratio of the largest value of radiated field occurring between these angles, to 100 mv/m (for which Figure 2 of § 3.190 is drawn) is then used as the multiplying factor for the value of the field read from the curves of Figure 2 of § 3.190. Note that while the accuracy of the curves is not as well established by measurements for distances less than 250 miles as for distances in excess of 250 miles, the curves represent the most accurate data available today. Pending accumulation of additional data to establish firm standards for skywave calculations in this range, the curves may be used. In cases where the radiation in the vertical plane, in the pertinent azimuth, contains a large lobe at a higher angle than the pertinent angle for one reflection the method of calculating interference will not be restricted to that described above, but each such case will be considered on the basis of the best knowledge available.

(i) Example, suppose it is desired to determine the amount of interference to a Class III station at Portland, Oregon, caused by another Class III station at Los Angeles, California, which is radiating a signal of 560 mv/m unattenuated at one mile in the great circle direction of Portland, using a 0.5 wavelength antenna. The distance is 825 miles. From Figure 6-A of § 3.190 the upper and lower pertinent angles are 7° and 3.5° and, from Figure 5 of § 3.190 the maximum radiation within these angles is 99% of the horizontal radiation or 554 mv/m at 1 mile. The latitude of the path is 39.8° N and from Figure 2 of § 3.190, the 10% skywave field at 825 miles is 0.050 mv/m for 100 mv/m radiated. Multiplying by $55\frac{1}{100}$ to adjust the value to the actual radiation gives 0.277 mv/m. At 20 to 1 ratio the limitation to the Portland station is to the 5.5 mv/m contour.

(j) When the distance is large, more than one reflection may be involved and due consideration must be given each appropriate vector in the vertical pattern, as well as the constants of the earth where reflection takes place between the transmitting station and the service area to which interference may be caused.

§ 3.186 *Field intensity measurements in allocation; establishment of effective field at one mile.* (a) Section 3.45 provides that certain minimum field intensities are acceptable in lieu of the required minimum physical vertical heights of the antennas proper. Also in other allocation problems, it is necessary to determine the effective field at 1 mile. The following requirements shall govern the taking and submission of data on the field intensity produced:

(1) Beginning as near to the antenna as possible without including the induction field and to provide for the fact that a broadcast antenna not being a point source of radiation (not less than one wave length or 5 times the vertical height in the case of a single element, i. e., nondirectional antenna or 10 times the spacing between the elements of a directional antenna), measurements shall be made on eight or more radials, at intervals of approximately one-tenth mile up to 2 miles from the antenna, at intervals of approximately one-half mile from 2 miles to 6 miles from the antenna, at intervals of approximately 2 miles from 6 miles to 15 or 20 miles from the antenna, and a few additional measurements if needed at greater distances from the antenna. Where the antenna is rurally located and unobstructed measurements can be made, there shall be as many as 18 or 20 measurements on each radial. However, where the antenna is located in a city where unobstructed measurements are difficult to make, measurements shall be made on each radial at as many unobstructed locations as possible, even though the intervals are considerably less than stated above, particularly within 2 miles of the antenna. In cases where it is not possible to obtain accurate measurements at the closer distances (even out to 5 or 6 miles due to the character of the intervening terrain), the measurements at greater distances should be made at closer intervals. (It is suggested that "wave tilt" measurements may be made to determine and compare locations for taking field intensity measurements, particularly to determine that there are no abrupt changes in ground conductivity or that reflected waves are not causing abnormal intensities.)

(2) The data required by subparagraph (1) of this paragraph should be plotted for each radial in accordance with either of the two methods set forth below:

(i) Using log-log coordinate paper, plot field intensities as ordinate and distance as abscissa.

(ii) Using semi-log coordinate paper, plot field intensity times distance as ordinate on the log scale and distance as abscissa on the linear scale.

(3) However, regardless of which of the methods in subparagraph (2) of this paragraph is employed, the proper curve to be drawn through the points plotted shall be determined by comparison with the curves in § 3.184 as follows: Place the sheet on which the actual points have been plotted over the appropriate Graph in § 3.184, hold to the light if necessary and adjust until the curve most closely matching the points is found. This curve should then be drawn on the sheet on which the points were plotted, together with the inverse distance curve corresponding to that curve. The field at 1 mile for the radial concerned shall be the ordinate on the inverse distance curve at 1 mile.

(4) When all radials have been analyzed in accordance with subparagraph (3) of this paragraph, a curve shall be plotted on polar coordinate paper from the fields obtained, which gives the inverse distance field pattern at 1 mile. The radius of a circle, the area of which is equal to the area bounded by this pattern, is the effective field. (See § 3.14.)

(5) While making the field intensity survey, the output power of the station shall be maintained at the licensed power as determined by the direct method. To do this it is necessary to determine accurately the total antenna resistance (the resistance variation method, the substitution method or bridge method is acceptable) and to measure the antenna current by means of an ammeter of acceptable accuracy. (See §§ 3.39 and 3.54.)

(b) Complete data taken in conjunction with the field intensity measurements shall be submitted to the Commission in affidavit form including the following:

(1) Tabulation by number of each point of measurement to agree with the map required in (2) below and the field intensity meter reading, the attenuation constant, the field intensity (*E*), the distance from the antenna (*D*) and the product of the field intensity and distance (*ED*) (if data for each radial are plotted on semi-logarithmic paper, see above) for each point of measurement.

(2) Map showing each point of measurement numbered to agree with tabulation required above.

(3) Description of method used to take field intensity measurements.

(4) The family of theoretical curves used in determining the curve for each radial properly identified by conductivity and dielectric constants.

(5) The curves drawn for each radial and the field intensity pattern.

(6) Antenna resistance measurement:

(i) Antenna resistance at operating frequency.

(ii) Description of method employed.

(iii) Tabulation of complete data.

(iv) Curve showing antenna resistance versus frequency.

(7) Antenna current or currents maintained during field intensity measurements.

(8) Description, accuracy, date, and by whom each instrument was last calibrated.

(9) Name, address, and qualifications of the engineer making the measurements.

(10) Any other pertinent information.

§ 3.187 [Reserved.]

§ 3.188 *Location of transmitters.* (a) The four primary objectives to be obtain in the selection of a site for a transmitter of a broadcast station are as follows:

(1) To serve adequately the center of population in which the studio is located and to give maximum coverage to adjacent areas.

(2) To cause and experience minimum interference to and from other stations.

(3) To present a minimum hazard to air navigation consistent with objectives (1) and (2).

(4) To fulfill certain other requirements given below.

(b) The site selected should meet the following conditions:

(1) A minimum field intensity of 25 to 50 mv/m will be obtained over the business or factory areas of the city.

(2) A minimum field intensity of 5 to 10 mv/m will be obtained over the most distant residential section.

(3) The absorption of the signal is the minimum for any obtainable sites in the area. As a guide in this respect the absorption of the signals from other stations in that area should be followed, as well as the results of tests on other sites.

(4) The population within the blanket contour does not exceed that specified by § 3.24 (g).

(c) In selecting a site in the center of a city it is usually necessary to place the radiating system on the top of a building. This building should be large enough to permit the installation of a satisfactory ground and/or counterpoise system. Great care must be taken to avoid selecting a building surrounded by taller buildings or where any nearby building higher than the antenna is located in the direction which it is desired to serve. Such a building will tend to cast "radio shadows" which may materially reduce the coverage of the station in that direction. Irrespective of the height of surrounding buildings, the building on which the antenna is located should not have height of approximately one-quarter wavelength. A study of antenna systems located on buildings tends to indicate that where the building is approximately a quarter wavelength in height, the efficiency of radiation may be materially reduced.

(d) Particular attention must be given to avoiding cross-modulation. In this connection, attention is invited to the fact that it has been found very unsatisfactory to locate broadcast stations so that high signal intensities occur in areas with overhead electric power or telephone distribution systems and sections where the wiring and plumbing are old or improperly installed. These areas are usually found in the older or poorer sections of a city. These conditions give rise to cross-modulation interference due to the nonlinear conductivity characteristics of contacts between wiring, plumbing, or other conductors. This type of interference is independent of the selectivity characteristics of the receiver and normally can be eliminated only by correction of the condition causing the interference. Cross-modulation tends to increase with frequency and in some areas it has been found impossible to eliminate all sources of cross-modulation, resulting in an unsatisfactory condition for both licensee and listeners. The Commission will not authorize, (1) new stations (2) increased facilities to existing stations, or (3) auxiliary transmitters, for use with other than the authorized antenna system of the main transmitter, located in such areas or utilizing roof-top antennas, when the operating power would be in excess of 500 watts.

(e) If it is determined that a site should be selected removed from the city, there are several general conditions to be followed in determining the exact site. Three maps should be given consideration if available:

(1) Map of the density of population and number of people by sections in the area. (See Bureau of Census series P-D and H-E available from Superintendent of Documents, Washington 25, D. C.)

(2) Geographical contour map with contour intervals of 20 to 50 feet.

(3) Map showing the type, nature and depth of the soil in the area with special reference to the condition of the moisture throughout the year.

From these maps a site should be selected with a minimum number of intervening hills between it and the center of the city. In general, because of ground conditions, it is better to select a site in a low area rather than on top of a hill, and the only condition under which a site on top of a hill should be selected is that it is only possible by this means to avoid a substantial number of hills, between the site and the center of a city with the resulting radio shadows. If a site is to be selected to serve a city which is on a general sloping area, it is generally better to select a site below the city than above the city.

(f) If a compromise must be made between probable radio shadows from intervening hills and locating the transmitter on top of a hill, it is generally better to compromise in favor of the low area, where an efficient radiating system may be installed which will more than compensate for losses due to shadows being caused by the hills, if not too numerous or too high. Several transmitters have been located on top of hills, but so far as data has been supplied not a single installation has given superior efficiency of propagation and coverage.

(g) The ideal location of a broadcast transmitter is in a low area of marshy or "crawfishy" soil or area which is damp the maximum percentage of time and from which a clear view over the entire center of population may be had and the tall buildings in the business section of the city would cast a shadow across the minimum residential area.

(h) The type and condition of the soil or earth immediately around a site is very important. Important, to an equal extent, is the soil or earth between the site and the principal area to be served. Sandy soil is considered the worst type, with glacial deposits and mineral-ore areas next. Alluvial, marshy areas and salt-water bogs have been found to have the least absorption of the signal. One is fortunate to have available such an area and, if not available, the next best condition must be selected.

(i) Figures M3 and R3 of § 3.190 indicate effective conductivity values in the United States and are to be used for determining the extent of broadcast station coverage when adequate field intensity measurements over the path in question are not available. Since the values specified are only for general areas and since conductivity values over particular paths may vary widely from those shown, caution must be exercised in using the maps for selection of a satisfactory transmitter site. Where the submission of field intensity measurements is deemed necessary or advisable, the Commission, in its discretion, may require an applicant for new or changed broadcast facilities to submit such data in support of its application.

(j) In general, broadcast transmitters operating with approximately the same power can be grouped in the same approximate area and thereby reduce the interference between them. If the city is of irregular shape, it is often possible to take advantage of this in selecting a suitable location that will give a maximum coverage. The maps giving the density of population will be a key to this. The map giving the elevation by contours will be a key to the obstructing hills between the site and city. The map of the soil conditions will assist in determining the efficiency of the radiating system that may be erected and the absorption of the signal encountered in the surrounding area.

(k) Another factor to be considered is the relation of the site to airports and airways. Procedures and standards with respect to the Commission's consideration of proposed antenna structures which will serve as a guide to persons intending to apply for radio station licenses are contained in Part 17 of this chapter (Rules Concerning the Construction, Marking and Lighting of Antenna Structures).

(l) In finally selecting the site, consideration must be given to the required space for erecting an efficient radiating system, including the ground or counterpoise. It is the general practice to use direct grounds consisting of a radial buried wire system. If the area is such that it is not possible to get such ground system in soil that remains moist throughout the year, it probably will be found better to erect a counterpoise. (Such a site should be selected only as a last resort.) It, like the antenna itself, must of course be designed properly for the operating frequency and other local conditions.

(m) While an experienced engineer can sometimes select a satisfactory site for a 100-watt station by inspection, it is necessary for a higher power station to make a field-intensity survey to determine that the site selected will be entirely satisfactory. There are several facts that cannot be determined by inspection that make a survey very desirable for all locations removed from the city. Often two or more sites may be selected that appear to be of equal promise. It is only by means of field-intensity surveys taken with a transmitter at the different sites or from measurements on the signal of nearby stations traversing the terrain involved that the most desirable site can be determined. There

are many factors regarding site efficiency that cannot be determined by any other method. When making the final selection of a site, the need for a field-intensity survey to establish the exact conditions cannot be stressed too strongly. The selection of a proper site for a broadcast station is an important engineering problem and can only be done properly by experienced radio engineers.

§ 3.189 *Minimum antenna heights or field intensity requirements.* (a) Section 3.45 requires that all applicants for new, additional, or different broadcast facilities and all licensees requesting authority to move the transmitter of an existing station, shall specify a radiating system, the efficiency of which complies with the requirements of good engineering practice for the class and power of the station.

(b) The specifications deemed necessary to meet the requirements of good engineering practice at the present state of the art are set out in detail below.

(1) The licensee of a standard broadcast station requesting a change in power, time of operation, frequency, or transmitter location must also request authority to install a new antenna system or to make changes in the existing antenna system which will meet the minimum height requirements, or submit evidence that the present antenna system meets the minimum requirements with respect to field intensity, before favorable consideration will be given thereto. (See § 3.186.) In the event it is proposed to make substantial changes in an existing antenna system, the changes shall be such as to meet the minimum height requirements or will be permitted subject to the submission of field intensity measurements showing that it meets the minimum requirements with respect to effective field intensity.

(2) These minimum actual physical vertical heights of antennas permitted to be installed are shown by curves A, B, and C of Figure 7 of § 3.190 as follows:

(i) Class IV stations, 150 feet or a minimum effective field intensity of 150 mv/m for 1 kilowatt (100 watts 47.5 mv/m, and 250 watts 75 mv/m). (This height applies to a Class IV station on a local channel only. In the case of a Class IV station assigned to a regional channel Curve A shall apply.)

(ii) Class II and III stations, or a minimum effective field intensity of 175 mv/m for 1 kilowatt.

(iii) Class I stations, or a minimum effective field intensity of 225 mv/m for 1 kilowatt.

(3) The heights given on the graph for the antenna apply regardless of whether the antenna is located on the ground or on a building. Except for the reduction of shadows, locating the antenna on a building does not necessarily increase the efficiency and where the height of the building is in the order of a quarter wave the efficiency may be materially reduced.

(4) To obtain the maximum efficiency of which any antenna is capable a good ground system must be employed (a counterpoise may be substituted under certain conditions).

(5) At the present development of the art, it is considered that where a vertical radiator is employed with its base on the ground, the ground system should consist of buried radial wires at least one-fourth wave length long. There should be as many of these radials evenly spaced as practicable and in no event less than 90. (120 radials of 0.35 to 0.4 of a wave length in length and spaced 3° is considered an excellent ground system and in case of high base voltage, a base screen of suitable dimensions should be employed.)

(6) It should be borne in mind that the above specifications are the minimum and where possible better antenna and ground systems should be installed.

(7) In case it is contended that the required antenna efficiency can be obtained with an antenna of height or ground system less than the minimum specified, a complete field intensity survey must be supplied to the Commission showing that the field intensity at a mile without absorption fulfills the minimum requirements. (See § 3.186.) This field survey must be made by a qualified engineer using equipment of acceptable accuracy.

(8) The main element or elements of a directional antenna system shall meet the above minimum requirements with respect to height or effective field intensity. No directional antenna system will be approved which is so designed that the effective field of the array is less than the minimum prescribed for the class of station concerned, or in case of a Class I station less than 90 percent of the ground wave field which would be obtained from a perfect antenna of the height specified by Figure 7 of § 3.190 for operation on frequencies below 1000 kilocycles, and in the case of a Class II or III station less than 90 percent of the ground wave field which would be obtained from a perfect antenna of the height specified by Figure 7 of § 3.190 for operation on frequencies below 750 kilocycles.

(9) Before any changes are made in the antenna system, it is necessary to submit full details to the Commission for approval. These data may be submitted by letter.

§ 3.190 *Engineering charts.*

NOTE: The charts as reproduced herein, due to their small scale, are not to be used in connection with material submitted to the F. C. C.

SUBPART B—FM BROADCAST STATIONS

CLASSIFICATION OF FM BROADCAST STATIONS AND ALLOCATION OF FREQUENCIES

§ 3.201 *Numerical designation of FM broadcast channels.* For convenience, the frequencies available for FM broadcasting (including those assigned to noncommercial educational broadcasting) are given numerical designations which are shown in the table below:

Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.
88.1	201	91.7	219	95.3	237	101.7	269
88.3	202	91.9	220	95.5	238	101.9	270
88.5	203	92.1	221	95.7	239	102.1	271
88.7	204	92.3	222	95.9	240	102.3	272
88.9	205	92.5	223	96.1	241	102.5	273
89.1	206	92.7	224	96.3	242	102.7	274
89.3	207	92.9	225	96.5	243	102.9	275
89.5	208	93.1	226	96.7	244	103.1	276
89.7	209	93.3	227	96.9	245	103.3	277
89.9	210	93.5	228	97.1	246	103.5	278
90.1	211	93.7	229	97.3	247	103.7	279
90.3	212	93.9	230	97.5	248	103.9	280
90.5	213	94.1	231	97.7	249	104.1	281
90.7	214	94.3	232	97.9	250	104.3	282
90.9	215	94.5	233	98.1	251	104.5	283
91.1	216	94.7	234	98.3	252	104.7	284
91.3	217	94.9	235	98.5	253	104.9	285
91.5	218	95.1	236	98.7	254	105.1	286
				98.9	255	105.3	287
				99.1	256	105.5	288
				99.3	257	105.7	289
				99.5	258	105.9	290
				99.7	259	106.1	291
				99.9	260	106.3	292
				100.1	261	106.5	293
				100.3	262	106.7	294
				100.5	263	106.9	295
				100.7	264	107.1	296
				100.9	265	107.3	297
				101.1	266	107.5	298
				101.3	267	107.7	299
				101.5	268	107.9	300

§ 3.202 *Areas of the United States.* For the purpose of allocation the United States is divided into two areas. The first area—area I—includes southern New Hampshire; all of Massachusetts, Rhode Island, and Connecticut; southeastern New York as far north as Albany-Troy-Schenectady; all of New Jersey, Delaware, and the District of Columbia; Maryland as far west as Hagerstown; and eastern Pennsylvania as far west as Harrisburg. The second area—area II—comprehends the remainder of the United States not included in area I.

NOTE: In some of the territory contiguous to area I, the demand for frequencies requires that applications be given careful study and consideration to insure an equitable distribution of facilities throughout the region. This region includes the remainder of Maryland, Pennsylvania, and New York (except the northeastern corner) not included in area I; Virginia, West Virginia, North Carolina, South Carolina, Ohio, and Indiana; southern Michigan as far north as Saginaw; eastern Illinois as far west as Rockford-Decatur; and southeastern Wisconsin as far north as Sheboygan. Other regions may be added as required.

§ 3.203 *Class A stations.* (a) A Class A station is a station which operates on a Class A channel and is designed to render service primarily to a community or to a city or town other than the principal city of an area, and the surrounding rural area. The coverage of a Class A station shall be not more than the equivalent of 1 kilowatt effective radiated power and antenna height of 250 feet above average terrain, as determined by the methods prescribed in the Technical Standards of this subpart. (For the purpose of determining equivalent coverage, the 1 mv/m contour should be used.) A Class A station will not be licensed with more than 1 kilowatt effective radiated power. The power rating of the transmitter used for a Class A station shall be not less than 250 watts nor more than 1 kilowatt. The signal intensity requirements of § 3.311 shall determine the minimum coverage of a Class A station. Class A stations will normally be protected to the 1 mv/m contour; however, assignments will be made in a manner to insure, insofar as possible, a maximum of service to all listeners, whether urban or rural, giving consideration to the minimum signal capable of providing service.

(b) The following frequencies, except as provided in paragraphs (c) and (d) of this section, are designated as Class A channels and are assigned for use by Class A stations:

Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.
92.1	221	100.1	261
92.7	224	100.9	265
93.5	228	101.7	269
94.3	232	102.3	272
95.3	237	103.1	276
95.9	240	103.9	280
96.7	244	104.9	285
97.7	249	105.5	288
98.3	252	106.3	292
99.3	257	107.1	296

These channels are available for assignment (1) in cities which are not the central city or cities of a metropolitan district, and (2) in central cities of metropolitan districts which have fewer than six Class B stations.

(c) In the Territory of Hawaii, the frequency band 98–108 Mc is allocated for nonbroadcast use. The frequencies 98.1 through 107.9 Mc, inclusive (Channels 251 through 300 inclusive) will not be assigned in the Territory of Hawaii for use by FM broadcast stations.

(d) In the Territory of Alaska the frequency band 88–100 Mc is allocated to Government radio services and the non-Government fixed service only. The frequencies 88.1 Mc through 99.9 Mc (Channels 201 through 260 inclusive) will not be assigned in the Territory of Alaska for use by FM Broadcast stations.

§ 3.204 *Class B stations.* (a) A Class B station is a station which operates on a Class B channel and is designed to render service primarily to a metropolitan district or principal city and the surrounding rural area, or to rural areas removed from large centers of population. The service area of a Class B station will not be protected beyond the 1 mv/m contour; however, Class B assignments will be made in a manner to insure, insofar as possible, a maximum of service to all listeners, whether urban or rural, giving consideration to the minimum signal capable of providing service. Standard power ratings of transmitters used for Class B stations shall be 1 kw. or greater. The signal intensity requirements of § 3.311 shall determine the minimum coverage of a Class B station. In the following subparagraphs antenna height above average terrain and effective radiated power are to be determined by the methods prescribed in the Technical Standards of this subpart.

(1) The coverage of a Class B station in Area I shall be not more than the equivalent of 20 kilowatts effective radiated power and antenna height of 500 feet above average terrain. (For the purpose of determining equivalent coverage, the 1 mv/m contour should be used.) A class B station in Area I will not be licensed with an effective radiated power greater than 20 kilowatts.

(2) The coverage of a Class B station in Area II shall normally be not more than the equivalent of 20 kilowatts effective radiated power and antenna height of 500 feet above average terrain. (For the purpose of determining equivalent coverage, the 1 mv/m contour should be used.) The use of greater power and antenna height will be encouraged in those portions of Area II where such use would not result in undue interference to stations already authorized or to probable assignments insofar as can be determined at the time of the grant. In such case, the power, antenna height, and area will be determined on the merits of each application with particular attention being given to rural areas which would not otherwise receive service.

(b) The following frequencies, except as provided in paragraphs (c) and (d) of this section, are designated as Class B channels and are assigned for use by Class B stations:

Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.
92.3	222	96.3	242	100.3	262	104.3	282
92.5	223	96.5	243	100.5	263	104.5	283
92.9	225	96.9	245	100.7	264	104.7	284
93.1	226	97.1	246	101.1	266	105.1	286
93.3	227	97.3	247	101.3	267	105.3	287
93.7	229	97.5	248	101.5	268	105.7	289
93.9	230	97.9	250	101.9	270	105.9	290
94.1	231	98.1	251	102.1	271	106.1	291
94.5	233	98.5	253	102.5	273	106.5	293
94.7	234	98.7	254	102.7	274	106.7	294
94.9	235	98.9	255	102.9	275	106.9	295
95.1	236	99.1	256	103.3	277	107.3	297
95.5	238	99.5	258	103.5	278	107.5	298
95.7	239	99.7	259	103.7	279	107.7	299
96.1	241	99.9	260	104.1	281	107.9	300

(c) In the Territory of Hawaii the frequency band 98–108 Mc is allocated for nonbroadcast use. The frequencies 98.1 through 107.9 Mc inclusive (Channels 251 through 300, inclusive) will not be assigned in the Territory of Hawaii for use by FM broadcast stations.

(d) In the Territory of Alaska the frequency band 88–100 Mc is allocated exclusively to Government radio services and the non-Government fixed service. The frequencies 88.1 through 99.9 Mc (Channels 201 through 260 inclusive) will not be assigned in the Territory of Alaska for use by FM Broadcast stations.

§ 3.205 *Station location and program origination.* (a) Except as provided in paragraph (b) of this section, each FM broadcast station will be licensed to serve primarily a particular city, town, or other political subdivision which will be specified in the station license and the station will be considered to be located in such place. Each station shall maintain a studio, which will be known as the main studio, in the place where the station is located provided that the main studio may be located at the transmitter site whether or not the transmitter site is in the place where the station is located. A majority (computed on the basis of duration and not number) of a station's programs or in the case of a station affiliated with a network, two-thirds of such station's non-network programs, whichever is smaller, shall originate from the main studio or from other studios or remote points situated in the place where the station is located.

(b) Stations will be licensed to serve more than one city, town, or other political subdivision, only where a satisfactory showing is made that each such place meets all the requirements of the rules and Technical Standards of this subpart with respect to the location of main studios; that the station can and will originate a substantial number of local live programs from each such place; and that the requirements as to origination of programs contained in paragraph (a) of this section would place an unreasonable burden on the station if it were licensed to serve only one city, town or other political subdivision. A station licensed to serve more than one place shall be considered to be located in and shall maintain main studios in each such place. With respect to such station the requirements as to origination of programs contained in paragraph (a) of this section shall be satisfied by the origination of programs from any or all of the main studios or from other studios and remote points situated in any or all of the places in which the main studios are located.

(c) The transmitter of each FM broadcast station shall be so located that satisfactory service is delivered to the city where the main studio is located, in accordance with the Technical Standards of this subpart: *Provided, however,* Upon special showing of need, authorization may be granted to locate the transmitter so that adequate service is not rendered to this city, but in no event shall this city be beyond the 50 uv/m contour.

ADMINISTRATIVE PROCEDURE

§ 3.211 *Application for FM broadcast stations.* If the application is for a construction permit or for modification of an existing authorization, FCC Form 301 shall be filed; if for a license, FCC Form 302 shall be filed; if for a renewal of license, FCC Form 303 shall be filed.

§ 3.212 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial, and other qualifications, and as to all matters and things required to be disclosed by the application forms.

§ 3.213 *Installation of apparatus.* Applications for construction permits or modification thereof involving the installation of new transmitting apparatus should be filed at least 60 days prior to the contemplated installation.

§ 3.214 *Period of construction.* Each construction permit will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of 6 months thereafter as the time within which construction shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

§ 3.215 *Forfeiture of construction permits: extension of time.* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) Any application for extension of time (FCC Form 701) within which to

construct a station shall be filed at least 30 days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

(c) If a construction permit has been allowed to expire for any reason, application may be made for a new permit on FCC Form 321, "Application for Construction Permit to Replace Expired Permit."

§ 3.216 *Equipment tests.* (a) During the process of construction of an FM broadcast station, the permittee, after notifying the Commission and Engineer in Charge of the radio district in which the station is located, may without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations, and the applicable engineering standards.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Equipment tests may be continued so long as the construction permit shall remain valid.

(d) Inspection of a station will ordinarily be required during the equipment test period and before the commencement of the program test. After construction and after adjustments and measurements have been completed to show compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations and the applicable engineering standards, the permittee should notify the Engineer in Charge of the radio district in which the station is located that it is ready for inspection.

(e) The authorization for tests embodied in this section shall not be construed as constituting a license to operate but as a necessary part of construction.

§ 3.217 *Program tests.* (a) Upon completion of construction of an FM broadcast station in accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations and the applicable engineering standards, and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee may request authority to conduct program tests: *Provided*, That such request shall be filed with the Commission at least ten (10) days prior to the date on which it is desired to begin such operation and that the Engineer in Charge of the radio district in which the station is located is notified. (All data necessary to show compliance with the terms and conditions of the construction permit must be filed with the license application.)

(b) Program tests shall not commence until specific Commission authority is received. The Commission reserves the right to change the date of the beginning of such tests or to suspend or revoke the authority for program tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked program test authority continues valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) All operation under program test authority shall be in strict compliance with the rules governing FM broadcast stations and in strict accordance with representations made in the application for license pursuant to which the tests were authorized.

(e) The granting of program test authority shall not be construed as approval by the Commission of the application for station license.

§ 3.218 *Normal license period.* (a) All FM broadcast station licenses will be issued for a normal license period of three years. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t. in accordance with the following schedule and at three-year intervals thereafter.

(1) For stations located in Delaware and Pennsylvania, August 1, 1957.

(2) For stations located in Maryland, District of Columbia, Virginia, West Virginia, October 1, 1957.

(3) For stations located in North Carolina, South Carolina, December 1, 1957.

(4) For stations located in Florida, Puerto Rico and Virgin Islands, February 1, 1958.

(5) For stations located in Alabama and Georgia, April 1, 1958.

(6) For stations located in Arkansas, Louisiana and Mississippi, June 1, 1958.

(7) For stations located in Tennessee, Kentucky and Indiana, August 1, 1958.

(8) For stations located in Ohio and Michigan, October 1, 1958.

(9) For stations located in Illinois and Wisconsin, December 1, 1958.

(10) For stations located in Iowa and Missouri, February 1, 1956.

(11) For stations located in Minnesota, North Dakota, South Dakota, Montana and Colorado, April 1, 1956.

(12) For stations located in Kansas, Oklahoma, Nebraska, June 1, 1956.

(13) For stations located in Texas, August 1, 1956.

(14) For stations located in Wyoming, Nevada, Arizona, Utah, New Mexico and Idaho, October 1, 1956.

(15) For stations located in California, December 1, 1956.

(16) For stations located in Washington, Oregon, Alaska and Hawaii, February 1, 1957.

(17) For stations located in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island and Vermont, April 1, 1957.

(18) For stations located in New Jersey and New York, June 1, 1957.

§ 3.219 *License, simultaneous modification and renewal.* When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license shall be issued to conform to the combined action of the Commission.

§ 3.220 *Renewal of license.* (a) Unless otherwise directed by the Commission, each application for renewal of an FM broadcast station license shall be filed at least 90 days prior to the expiration date of the license sought to be renewed (FCC Form 303). No application for renewal of license of an FM broadcast station will be considered unless there is on file with the Commission, the information currently required by §§ 1.341 to 1.344 of this chapter, reference to which by date and file number shall be included in the application.

(b) Whenever the Commission regards an application for a renewal of an FM broadcast station license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 3.221 [Reserved.]

§ 3.222 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new FM broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such appeal.

§ 3.223 *Assignment or transfer of control*—(a) *Voluntary.* Application for consent to voluntary assignment of an FM broadcast station construction permit or license or for consent to voluntary transfer of control of a corporation holding an FM broadcast station construction permit or license shall be filed with the Commission on FCC Form 314 (Assignment of Licensee), FCC Form 315 (Transfer of Control) or FCC Form 316 (Short Form) at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) *Pro forma.* Assignment or transfer applications shall be filed on FCC Form 316 where:

(1) There is an assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;

(2) There is an assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;

(3) There is an assignment or transfer by which certain partners or stockholders retire but no new ones are brought in, provided that the interest transferred is not a controlling one;

(4) There is a corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;

(5) There is an involuntary transfer to an Executor, Administrator or other court appointed officer caused by death or legal disability except that this form does not cover assignments (or transfers) from the Executor, Administrator or other court appointed officers to the ultimate beneficiary;

(6) There is an assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests.

(7) There is an assignment of less than a controlling interest in a partnership.

(c) *Involuntary.* In the event of the death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(1) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(2) Within 30 days after the occurrence of such death or legal disability, application on FCC Form 316 shall be filed for consent to involuntary assignment of such FM broadcast station permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

LICENSING POLICIES

§ 3.231 *Exclusive affiliation of station.* No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, broadcasting the programs of any other network organization. (The term "network organization" as used herein includes national and regional network organizations. See ch. VII, J of Report on Chain Broadcasting.)

§ 3.232 *Territorial exclusivity.* No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which prevents or hinders another broadcast station serving substantially the same area from broadcasting the network's programs not taken by the former station, or which prevents or hinders another broadcast station serving a substantially different area from broadcasting any program of the network organization. This section shall not be construed to prohibit any contract, arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its primary service area upon the programs of the network organization.

§ 3.233 *Term of affiliation.* No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which provides, by original terms, provisions for renewal, or otherwise for the affiliation of the station with the network organization for a period longer than 2 years: *Provided*, That a contract, arrangement, or understanding for a period up to 2 years, may be entered into within 6 months prior to the commencement of such period.

§ 3.234 *Option time.* No license shall be granted to an FM broadcast station which options for network programs any time subject to call on less than 56 days' notice, or more time than a total of 3 hours within each of four segments of the broadcast day, as herein described. The broadcast day is divided into four segments, as follows: 8 a. m. to 1 p. m.; 1 p. m. to 6 p. m.; 6 p. m. to 11 p. m.; 11 p. m. to 8 a. m. (These segments are to be determined for each station in terms of local time at the location of the station but may remain constant throughout the year regardless of shifts from standard to daylight saving time or vice versa.) Such options may not be exclusive as against other network organizations and may not prevent or hinder the station from optioning or selling any or all of the time covered by the option, or other time, to other network organizations.

NOTE 1: As used in this section, an option is any contract, arrangement, or understanding, express or implied, between a station and a network organization which prevents or hinders the station from scheduling programs before the network agrees to utilize the time during which such programs are scheduled, or which requires the station to clear time already scheduled when the network organization seeks to utilize the time.

NOTE 2: All time options permitted under this section must be specified clock hours, expressed in terms of any time system set forth in the contract agreed upon by the station and network organization. Shifts from daylight saving to standard time or vice versa may or may not shift the specified hours correspondingly as agreed by the station and network organization.

§ 3.235 *Right to reject programs.* No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which (a), with respect to programs offered pursuant to an affiliation contract, prevents or hinders the station from rejecting or refusing network programs which the station reasonably believes to be unsatisfactory or unsuitable; or which (b), with respect to network programs so offered or already contracted for, prevents the station from rejecting or refusing any program which, in its opinion, is contrary to the public interest, or from substituting a program of outstanding local or national importance.

§ 3.236 *Network ownership of stations.* No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control of a network organization, for an FM broadcast station in any locality where the existing FM broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing. (The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.)

§ 3.237 *Dual network operation.* No license shall be issued to an FM broadcast station affiliated with a network organization which maintains more than one network of FM broadcast stations: *Provided*, That this section shall not be applicable if such networks are not operated simultaneously, or if there is no substantial overlap in the territory served by the group of stations comprising each such network.

§ 3.238 *Control by networks of station rates.* No license shall be granted to an FM broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, fixing or altering its rates for the sale of broadcast time for other than the network's programs.

§ 3.239 *Use of common antenna site.* No FM broadcast station license or renewal of FM broadcast station license will be granted to any person who owns, leases, or controls a particular site which is peculiarly suitable for FM broadcasting in a particular area and (a) which is not available for use by other FM broadcast station licensees; and (b) no other comparable site is available in the area; and (c) where the exclusive use of such site by the applicant or licensee would unduly limit the number of FM broadcast stations that can be authorized in a particular area or would unduly restrict competition among FM broadcast stations.

§ 3.240 *Multiple ownership.* No license for an FM broadcast station shall be granted to any party (including all parties under common control) if:

(a) Such party directly or indirectly owns, operates, or controls another FM broadcast station which serves substantially the same service area; or

(b) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other FM broadcast station if the grant of such license would result in a concentration of control of FM broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of areas served, the number of people served, classes of stations involved, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven FM broadcast stations.

NOTE 1: The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

NOTE 2: In applying the foregoing provisions to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

§ 3.241 *Special rules relating to contracts providing for reservation of time upon sale of a station.* (a) No license, renewal of license, assignment of license, or transfer of control of a corporate licensee shall be granted or authorized to a FM broadcast station which has a contract, arrangement or understanding, express or implied, pursuant to which, as consideration or partial consideration for the assignment of license or transfer of control, the assignor of a station license or the transferor of stock, where transfer of a corporate licensee is involved, or the nominee of such assignor or transferor retains any right of reversion of the license or any right to the reassignment of the license in the future, or reserves the right to use the facilities of the station for any period whatsoever.

(b) In the case of assignment of license or transfer of control of a corporate licensee approved by the Commission before the effective date of this section, February 15, 1949, involving a contract, arrangement or understanding of the type covered by paragraph (a) of this section and the existence and terms of which were fully disclosed to the Commission at the time of execution, the Commission will give consideration to the issuance of a license despite the existence of such contract, arrangement or understanding, if the parties thereto modify such contract within 6 months from the effective date of this section. Such modification will be considered on the facts of each case but no such modification will be approved unless the modified contract contains at least the following provisions:

(1) A maximum limitation of the time subject to reservation so that no more than 12 hours per week shall be subject to reservation, of which no more than 4 hours shall be on any given day.

(2) A clause providing that the licensee reserves the right to reject or refuse programs which he reasonably believes to be unsatisfactory or unsuitable or for which, in his opinion, a program of outstanding local or national importance should be substituted, but provision may be made for the substitution of other radio time for programs so rejected or for the payment at the station card rate for the time made unavailable.

(3) A prohibition against the resale or reassignment of any of the broadcast time reserved by such modified contract.

(4) An express negation of any right with respect to reversion or reassignment of license.

(5) An express provision setting forth a definite expiration date of the contract arrangement or understanding. Such expiration date shall not extend beyond February 15, 1964, and shall in no event extend beyond the expiration date originally provided for in any such contract, agreement or understanding, in the event that such expiration date is a date prior to February 15, 1964.

(6) An express provision giving to the licensee the right to terminate the contract, arrangement or understanding for substantial cause, including, but not limited to, the assignment of license or the transfer of control of a corporate licensee, consistent disagreement over programs between the parties, or the acquisition of a network affiliation by the licensee, upon the payment of a lump sum or periodic payments, and providing that the amount initially fixed shall thereafter decrease as the amount of time reserved is decreased by performance of the contract. Any such payment should not be so unduly large as to constitute in practice an effective deterrent to the licensee exercising the right. In determining whether the amount is unduly large, the Commission will consider the amount by which consideration in return for the transfer of the station was decreased by reason of the reservation of time or the present value of the radio time still reserved and unused as of the date of the exercise of the right of termination.

§ 3.250 *Acceptability of broadcast transmitters for licensing.* (a) In order to facilitate the filing of, and action on applications for station authorizations, transmitters will be accepted for licensing by the Commission under one of the following conditions:

(1) A transmitter may be type-accepted upon the request of any manufacturer of transmitters built in quantity by following the type acceptance procedure set forth in Part 2 of this chapter, provided that the data and information submitted indicates that the transmitter meets the requirements of § 3.317. If accepted, such transmitter will be included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Applicants specifying transmitters included on such a list need not submit detailed descriptions and diagrams where the correct type number is specified, provided that the equipment proposed is identical with that accepted. Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(2) An application specifying a transmitter not included on the Radio Equipment List, Part B, may be accepted upon the request of a prospective licensee submitting with the application for construction permit a complete description of the transmitter, including the circuit diagram, listing of all tubes used, function of each, multiplication in each stage, plate current and voltage applied to each tube, a description of the oscillator circuit together with any devices installed for the purpose of frequency stabilization and the means of varying output power to compensate for power supply voltage variations. However, if this data has been filed with the Commission by a manufacturer in connection with a request for type acceptance, it need not be submitted with the application for construction permit but may be referred to as "on file". Measurement data for type acceptance made in accordance with subparagraph (1) of this paragraph shall be submitted with the license application.

(3) A transmitter shown on an instrument of authorization by manufacturer and type number, or as a composite, and which was in use prior to June 30, 1955 may continue to be used by the licensee, his successors or assignees, provided such transmitter continues to comply with the rules and regulations.

(b) Additional rules with respect to withdrawal of type-acceptance, modification of type-accepted equipment and limitations on the findings upon which type acceptance is based are set forth in Part 2 of this chapter.

§ 3.251 *Transmitter power.* The standard power rating and operating power range of transmitters shall be in accordance with § 3.317.

§ 3.252 *Frequency monitor.* (a) The licensee of each station shall have in operation, either at the transmitter or at the place where the transmitter is controlled, a frequency monitor of a type approved by the Commission which shall be independent of the frequency control of the transmitter.

NOTE: Approved frequency monitors are included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event that the frequency monitor becomes defective the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the monitor was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the monitor is found to be defective and immediately after the repaired or replacement monitor has been installed and is functioning properly.

(3) The frequency of the station shall be compared with an external frequency source of known accuracy at sufficiently frequent intervals to insure that the frequency is maintained within the tolerance prescribed in § 3.269. An entry shall be made in the station log as to the method used and the results thereof.

(c) If conditions beyond the control of the licensee prevent the restoration of the monitor to service within the above allowed period, informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

§ 3.253 *Modulation monitor.* (a) The licensee of each station shall have in operation, either at the transmitter or at the place where the transmitter is controlled, a modulation monitor of the type approved by the Commission.

NOTE. Approved modulation monitors are included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment." Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event that the modulation monitor becomes defective the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the monitor was removed from and restored to service.

(2), The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the monitor is found to be defective and immediately after the repaired or replacement monitor has been installed and is functioning properly.

(3) During the period when the station is operated without the modulation monitor the licensee shall provide other suitable means for insuring that the modulation is maintained within the tolerance prescribed in § 3.268.

(c) If conditions beyond the control of the licensee prevent the restoration of the monitor to service within, the above allowed period, informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

§ 3.254 *Required transmitter performance.* (a) The construction, installation, operation and performance of the FM broadcast transmitting system shall be in accordance with § 3.317.

(b) The licensee of each FM broadcast station shall make the following equipment performance measurements at least at yearly intervals. (One such set of measurements shall be made during the four-month period preceding the date of filing application for renewal of station license.)

(1) Audio frequency response from 50 to 15,000 cycles for approximately 25, 50 and 100 percent modulation. Measurements shall be made on at least the following audio frequencies: 50, 100, 400, 1000, 5000, 10,000 and 15,000 cycles. The frequency response measurements should normally be made without deemphasis; however, standard 75 microsecond deemphasis may be employed in the measuring equipment or system provided the accuracy of the deemphasis circuit is sufficient to insure that the measured response is within the prescribed limits.

(2) Audio frequency harmonic distortion for 25, 50 and 100 percent modulation for the fundamental frequencies of 50, 100, 400, 1000, and 5000 cycles. Audio frequency harmonics for 100 percent modulation for fundamental frequencies of 10,000 and 15,000 cycles. Measurements shall normally include harmonics to 30,000 cycles. The distortion measurements shall be made employing 75 microsecond deemphasis in the measuring equipment or system.

(3) Output noise level (frequency modulation) in the band of 50 to 15,000 cycles in decibels below the audio frequency level representing a frequency swing of 75 kilocycles. The noise measurements shall be made employing 75 microsecond deemphasis in the measuring equipment or system.

(4) Output noise level (amplitude modulation) in the band of 50 to 15,000 cycles in decibels below the level representing 100 percent amplitude modulation. The noise measurements shall be made employing 75 microsecond deemphasis in the measuring equipment or system. All measurements shall be made with the equipment adjusted for normal program operation and shall include all circuits between the main studio microphone terminals and the antenna output, including telephone lines, preemphasis circuits and any equalizers employed except for microphones, and without compression if a compression amplifier is installed.

(c) The data required by paragraph (b) of this section together with a description of instruments and procedure signed by the engineer making the measurements shall be kept on file at the transmitter and retained for a period of two years and shall be made available during that time upon request to any duly authorized representative of the Federal Communications Commission.

§ 3.255 *Auxiliary transmitter.* Upon showing that a need exists for the use of an auxiliary transmitter in addition to the regular transmitter of an FM broadcast station, a license therefor may be issued: *Provided,* That:

(a) An auxiliary transmitter may be installed either at the same location as the main transmitter or at another location.

(b) A licensed operator shall be in control whenever an auxiliary transmitter is placed in operation.

(c) The auxiliary transmitter shall be maintained so that it may be put into immediate operation at any time for the following purposes:

(1) The transmission of the regular programs upon the failure of the main transmitter.

(2) The transmission of regular programs during maintenance or modification work on the main transmitter, necessitating discontinuance of its operation for a period not to exceed 5 days. (This includes the equipment changes which may be made without authority as set forth elsewhere in the rules and regulations or as authorized by the Commission by letter or by construction permit. Where such operation is required for periods in excess of 5 days, request therefor shall be in accordance with § 1.324 of this chapter.)

(3) Upon request by a duly authorized representative of the Commission.

(d) The auxiliary transmitter shall be tested at least once each week to determine that it is in proper operating condition and that it is adjusted to the proper frequency, except that in the case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) of this section is satisfactory. Tests shall be conducted only between midnight and 6 a. m., local standard time. A record shall be kept of the time and result of each test. Such records shall be retained for a period of two years.

(e) The auxiliary transmitter shall be equipped with satisfactory control equipment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by the regulations in this part.

(f) The operating power of an auxiliary transmitter may be less than the authorized power of the main transmitter, but in no event shall it be greater than such power.

§ 3.256 *Alternate main transmitters.* The licensee of an FM broadcast station may be licensed for alternate main transmitters provided that a technical need for such alternate transmitters is shown (such as licensees maintaining 24-hour schedule and needing alternate operation for maintenance, or where developmental work requires alternate operation) and that the following conditions are met:

(a) Both transmitters are located at the same place.

(b) Both transmitters shall have the same power rating.

(c) Both transmitters shall meet the construction, installation, operation, and performance requirements of § 3.317.

§ 3.257 *Changes in equipment and antenna system.* Licensees of FM broadcast stations shall observe the following provisions with regard to changes in equipment and antenna system:

(a) No changes in equipment shall be made:

(1) That would result in the emission of signals outside of the authorized channel.

(2) That would result in the external performance of the transmitter being in disagreement with that prescribed in § 3.317.

(b) Specific authority, upon filing formal application (FCC Form 301) therefor, is required for a change in service area or for any of the following changes:

(1) Changes involving an increase or decrease in the power rating of the transmitter.

(2) A replacement of the transmitter as a whole.

(3) Change in the location of the transmitting antenna.

(4) Change in antenna system, including transmission line.

(5) Change in location of main studio, if it is proposed to move the main studio to a different city from that specified in the license.

(6) Change in the power delivered to the antenna.

(7) Change in frequency control and/or modulation system.

(8) Change in the authorized transmitter remote control point(s).

(c) Other changes, except as above provided for in this section or in the Technical Standards of this subpart may be made at any time without the authority of the Commission: *Provided*, That the Commission shall be promptly notified thereof and such changes shall be shown in the next application for renewal of license.

§ 3.258 *Indicating instruments.* (a) Each FM broadcast station shall be equipped with indicating instruments, which conform with the specifications set forth in § 3.320, for measuring the direct plate voltage and current of the last radio stage and the transmission line radio frequency current, voltage or power.

(b) In the event that any one of these indicating instruments becomes defective when no substitute which conforms with the required specifications is available, the station may be operated without the defective instrument pending its repair or replacement for a period not in excess of 60 days: *Provided*, That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the meter was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified immediately after the instrument is found to be defective and immediately after the repaired or replaced instrument has been installed and functioning properly.

(3) If the defective instrument is a plate voltmeter or plate ammeter in the last radio stage, the operating power shall be maintained by means of the radio frequency transmission line meter.

(c) If conditions beyond the control of the licensee prevent the restoration of the meter to service within the above allowed period, informal request may be filed in accordance with § 1.332 (d) of this chapter with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

TECHNICAL OPERATION

§ 3.261 *Time of operation.* All FM broadcast stations will be licensed for unlimited time operation. A minimum of 36 hours per week during the hours of 6:00 a. m. to midnight, consisting of not less than 5 hours in any one day, must be devoted to the FM broadcast operation; time devoted to operations conducted pursuant to a Subsidiary Communications Authorization (see §§ 3.293–3.295) shall not be included in meeting this 36-hour broadcast requirement. In an emergency when, due to causes beyond the control of a licensee, it becomes impossible to continue operation, the station may cease operation for a period not to exceed 10 days, provided that the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops.

§ 3.262 *Experimental operation.* The period between 1:00 a. m., and 6:00 a. m., local standard time, may be used for experimental purposes in testing and maintaining apparatus by the licensee of any FM broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization by the Commission.

§ 3.263 *Station inspection.* The licensee of any FM broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 3.264 *Station and operator licenses; posting of.* (a) The station license and any other instrument of station authorization shall be posted in a conspicuous place and in such manner that all terms are visible, at the place the licensee considers to be the principal control point of the transmitter. At all other control points listed on the station authorization, a photocopy of the station license and other instruments of station authorization shall be posted.

(b) The original operator license, or FCC Form 759, of each station operator shall be posted at the place where he is on duty as an operator.

§ 3.265 *Operator requirements.* (a) One or more radio operators holding a valid radiotelephone first-class operator license, except as provided in this section, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

(b) A station which is authorized with transmitter power output of 10 kilowatts or less may be operated by persons holding commercial radio operator license of any class, except an aircraft radiotelephone operator authorization or a temporary limited radiotelegraph second-class operator license, when the equipment is so designed that the stability of the frequency is maintained by the transmitter itself within the limits of tolerance specified, and none of the operations, except those specified in subparagraphs (1), (2) and (3) of this paragraph, necessary to be performed during the course of normal operation may cause off-frequency operation or result in any unauthorized radiation. Adjustments of transmitting equipment by such operators, except when under the immediate supervision of a radiotelephone first-class operator shall be limited to the following:

(1) Those necessary to commence or terminate transmitter emissions as a routine matter.

(2) Those external adjustments that may be required as a result of variations of primary power supply.

(3) Those external adjustments which may be necessary to insure modulation within the limits required.

Should the transmitting apparatus be observed to be operating in a manner inconsistent with the station's instrument of authorization and none of the above adjustments are effective in bringing it into proper operation, a person holding other than a radiotelephone first-class operator license and not acting under the immediate supervision of a radiotelephone first-class operator, shall be required to terminate the station's emissions.

(c) The licensee of a station which is operated by one or more operators holding other than a radiotelephone first-class operator license shall have one or more operators holding a radiotelephone first-class operator license in regular full-time employment at the station whose primary duties shall be to effect and insure the proper functioning of the transmitting equipment. In the event that the licensee also operates a standard broadcast station in the same community, a regular full-time radiotelephone first-class operator or operators employed in connection with the FM broadcast station may concurrently be employed to satisfy the requirements of § 3.93 (c): *Provided*, That the duties of such operator or operators concerning the standard broadcast transmitting equipment shall in nowise interfere with the proper performance of his duties with respect to the FM broadcast transmitter.

(d) The licensed operator on duty and in charge of an FM broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another radio station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such other stations: *Provided, however*, That such duties shall in nowise interfere with the proper operation of the FM broadcast transmitter.

§ 3.266 *Facsimile broadcasting and multiplex transmission.* (a) FM broadcast stations may transmit simplex facsimile in accordance with transmission standards set forth in § 3.318 during periods not devoted to FM aural broadcasting. Such transmissions may not exceed one hour during the period between 7 a. m. and midnight (no limit for the hours between midnight and 7 a. m.) and may not be counted toward the minimum operation required by § 3.261. The Commission shall be notified by the licensee of the FM broadcast station of its intent to transmit such facsimile.

(b) FM broadcast stations may, upon securing authorization from the Commission, transmit multiplex facsimile in accordance with transmission standards set forth in § 3.318: *Provided*, That the transmission of such facsimile does not reduce the quality of aural programs simultaneously transmitted by the licensee below that required by the Technical Standards of this subpart and that no degradation of such aural programs will result from such facsimile transmissions when received on FM receivers not equipped with filter or other additional equipment.

§ 3.267 *Operating power; determination and maintenance of.* (a) The operating power of each station shall be determined by the indirect method. This is the product of the plate voltage (E_p) and the plate current (I_p) of the last radio stage, and an efficiency factor, F; that is:

$$\text{Operating power} = E_p \times I_p \times F$$

The efficiency factor, F, shall be established by the transmitter manufacturer for each type of transmitter for which Commission approval is requested, and shall be specified in the instruction books supplied to the customer with each transmitter. In the case of composite equipment the factor, F, shall be furnished to the Commission along with a statement of the basis used in determining such factor.

(b) The operating power of each station shall be maintained as near as practicable to the authorized operating power, and shall not exceed the limits of 5 percent above and 10 percent below the authorized power, except that in an emergency when it becomes impossible to operate with the authorized power, the station may be operated with reduced power for a period not to exceed 10 days, provided the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified immediately after the emergency develops, and also upon the resumption of normal operating power.

§ 3.268 *Modulation.* The percentage of modulation of FM broadcast stations shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice and in no case less than 85 percent nor more than 100 percent on peaks of frequent recurrence during any selection which normally is transmitted at the highest level of the program under consideration.

§ 3.269 *Frequency tolerance.* The center frequency of each FM broadcast station shall be maintained within 2000 cycles of the assigned center frequency.

§ 3.270 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.29, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40 *Time when lights shall be exhibited;* § 17.41 *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.271 *Discontinuance of operation.* The licensee of each station shall notify the Commission in Washington, D. C., and the Engineer in Charge of the radio district where such station is located of permanent discontinuance of operation at least two days before operation is discontinued. The licensee shall, in addition, immediately forward the station license and other instruments of authorization to the Washington, D. C., office of the Commission for cancellation.

§ 3.272 *Field intensity measurements.* The Commission may require field intensity measurements in connection with applications and in other cases where such measurements are found to be necessary. For example, any application which asserts that interference predicted under the Technical Standards of this subpart would not be realized may require supplementary data including appropriate field intensity measurements. Furthermore, in order that FM broadcast station coverage data may be accumulated it is desirable that existing FM broadcast stations make such measurements where feasible and file the data with the Commission.

§ 3.273 *Emergency antenna.* In the event it becomes impossible to operate with the regularly authorized antenna, the station may, without further authority, be operated with an emergency antenna for a period of 10 days or less pending necessary repairs: *Provided*, That the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately upon the beginning of such operation and upon the resumption of normal operation.

§ 3.274 *Remote control operation.* A station which is authorized with transmitter power output of 10 kilowatts or less may, upon prior authorization from the Commission, be operated by remote control at the point(s) which shall be specified in the station license. An application for authorization to operate by remote control may be made as a part of an application for construction permit or license or modification thereof by specifying the proposed remote control point(s). Operation by remote control shall be subject to the following conditions:

(a) The equipment at the operating and transmitting positions shall be so installed and protected that it is not accessible to or capable of operation by persons other than those duly authorized by the licensee.

(b) The control circuits from the operating position to the transmitter shall provide positive on and off control and shall be such that open circuits, short circuits, grounds or other line faults will not actuate the transmitter and any fault causing loss of such control will automatically place the transmitter in an inoperative condition.

(c) Control and monitoring equipment shall be installed so as to allow the licensed operator either at the remote control point or at the transmitter to perform all of the functions in a manner required by the Commission's rules and Standards.

OTHER OPERATING REQUIREMENTS

§ 3.281 *Logs.* The licensee or permittee of each FM broadcast station shall maintain separate program and operating logs for such station: *Provided, however*, If the same licensee or permittee operates an FM broadcast station and a standard broadcast station and simultaneously broadcasts the same programs over the facilities of both such stations, one program log may be maintained for both stations for such periods as both stations simultaneuosly broadcast the same programs. Such licensee or permittee shall require entries to be made as follows:

(a) In the program log:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof and the sponsor's name, with the time of the beginning and ending of the complete program. If a mechanical record is used, the entry shall show the exact nature thereof, such as "record," "transcription," etc., and the time it is announced as a mechanical reproduction. If a speech is made by a political candidate, the name and political affiliations of such speaker shall be entered.

(3) An entry showing that each sponsored program broadcast has been announced as sponsored, paid for, or furnished by the sponsor.

(4) An entry showing, for each program of network origin, the name of the network originating the program.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time is stops.

(2) An entry of the time the program begins and ends.

(3) An entry of each interruption to the carrier wave, its cause, and duration.

(4) An entry of the following each 30 minutes:

(i) Operating constants of last radio stage (total plate current and plate voltage).

(ii) RF transmission line meter reading.

(iii) Frequency monitor reading.

(5) Log of experimental operation during experimental period (if regular operation is maintained during this period, the above logs shall be kept).

(i) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

(c) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record*, of Part 17 of this chapter, (Construction, Marking and Lighting of Antenna Structures).

§ 3.282 *Logs; retention of.* Logs of FM broadcast stations shall be retained by the licensee or permittee for a period of two years: *Provided, however*, That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and

concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

§ 3.283 *Logs; by whom kept.* Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commission.

§ 3.284 *Log form.* The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

§ 3.285 *Correction of logs.* No log or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

§ 3.286 *Rough logs.* Rough logs may be transcribed into condensed form, but in such case the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.287 *Station identification.* (a) A licensee of an FM broadcast station shall make separate station identification announcement (call letters and location) for such station: *Provided, however,* That, if the same licensee operates an FM broadcast station and a standard broadcast station and simultaneously broadcasts the same programs over the facilities of both such stations, station identification announcements may be made jointly for both stations for periods of such simultaneous operation. If the call letters of the FM station do not clearly reveal that it is an FM station, the joint announcement shall state that one of the stations is an FM station. Station identification announcement shall be made at the beginning and ending of each time of operation and during operation (1) on the hour and (2) either on the half hour or at the quarter hour following the hour and at the quarter hour preceding the next hour: *Provided,*

(b) Such identification announcement need not be made on the hour when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production of longer duration than 30 minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the entertainment continuity, and at the conclusion of the program.

(c) Such identification announcement need not be made on the half hour or quarter hours when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or operatic production. In such cases an identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion of the program: *Provided,* That an announcement within 5 minutes of the times specified in paragraph (a) (2) of this section will satisfy the requirements of identification announcements.

(d) In the case of variety show programs, baseball game programs or similar programs of longer duration than 30 minutes, the identification announcement shall be made within 5 minutes of the hour and of the times specified in paragraph (a) (2) of this section.

(e) In the case of all other programs, the identification announcement shall be made within 2 minutes of the hour and of the times specified in paragraph (a) (2) of this section.

(f) In making the identification announcement the call letters shall be given only on the channel of the station identified thereby except as otherwise provided herein.

§ 3.288 *Mechanical records.* Each program broadcast which consists in whole or in part of one or more mechanical reproductions shall be announced in the manner and to the extent set out in paragraphs (a) to (e) of this section.

(a) Each such program of longer duration than 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by appropriate announcement at the beginning of the program, at each 30-minute interval and at the conclusion of the program: *Provided, however,* That the identifying announcement at each 30-minute interval is not required in case of a mechanical reproduction consisting of a continuous uninterrupted speech, play, religious service, symphony concert, or operatic production of longer than 30 minutes.

(b) Each such program of a longer duration than 5 minutes and not in excess of 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by an appropriate announcement at the beginning and end of the program.

(c) Each such program of duration of 5 minutes or less, consisting in whole or in part of mechanical reproductions, shall be identified by appropriate announcement immediately preceding the use thereof: *Provided, however,* That each such program of one minute or less need not be announced as such.

(d) In case a mechanical reproduction is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of the sponsorship of the program proper, no announcement of the mechanical reproduction is required.

(e) The exact form of identifying announcement is not prescribed, but the language shall be clear and in terms commonly used and understood. A licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

§ 3.289 *Sponsored programs; announcement of.* (a) In the case of each program for the broadcasting of which money, services, or other valuable consideration is either directly or indirectly paid or promised to, or charged or received by, any radio broadcast station, the station broadcasting such program shall make, or cause to be made, an appropriate announcement that the program is sponsored, paid for, or furnished, either in whole or in part.

(b) In the case of any political program or any program involving the discussion of public controversial issues for which any records, transcriptions, talent, scripts, or other material or services of any kind are furnished, either directly or indirectly, to a station as an inducement to the broadcasting of such program, an announcement shall be made both at the beginning and conclusion of such program on which such material or services are used that such records, transcriptions, talent, scripts, or other material or services have been furnished to such station in connection with the broadcasting of such program: *Provided, however,* That only one such announcement need be made in the case of any such program of 5 minutes' duration or less, which announcement may be made either at the beginning or conclusion of the program.

(c) The announcement required by this section shall fully and fairly disclose the true identity of the person or persons by whom or in whose behalf such payment is made or promised, or from whom or in whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (b) of this section are furnished. Where an agent or other person contracts or otherwise makes arrangements with a station on behalf of another, and such fact is known to the station, the announcement shall disclose the identity of the person or persons in whose behalf such agent is acting instead of the name of such agent.

(d) In the case of any program, other than a program advertising commercial products or services, which is sponsored, paid for, or furnished, either in whole or in part, or for which material or services referred to in paragraph (b) of this section are furnished, by a corporation, committee, association or other unincorporated group, the announcement required by this section, shall disclose the name of such corporation, committee, association or other unincorporated group. In each such case the station shall require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association or other unincorporated group shall be made available for public inspection at one of the radio stations carrying the program.

(e) In the case of programs advertising commercial products or services, an announcement stating the sponsor's corporate or trade name or the name of the sponsor's product, shall be deemed sufficient for the purposes of this section and only one such announcement need be made at any time during the course of the program.

§ 3.290 *Broadcasts by candidates for public office*—(a) *Definitions.* A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who—

(1) Has qualified for a place on the ballot or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method, and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) *General requirements.* No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities: *Provided,* That such licensee shall have no power of censorship over the material broadcast by any such candidate.

(c) *Rates and practices.* (1) The rates, if any, charged all such candidates for the same office shall be uniform and shall not be rebated by any means direct or indirect. A candidate shall, in each case, be charged no more than the rate the station would charge if the candidate were a commercial advertiser whose advertising was directed to promoting its business within the same area as that encompassed by the particular office for which such person is a candidate. All discount privileges otherwise offered by a station to commercial advertisers shall be available upon equal terms to all candidates for public office.

(2) In making time available to candidates for public office no licensee shall make any discrimination between candidates in charges, practices, regulations, facilities, or services for or in connection with the service rendered pursuant to this part, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) *Inspection of records.* Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests, and the charges made, if any, if request is granted. Such records shall be retained for a period of two years.

§ 3.291 *Rebroadcast.* (a) The term "rebroadcast" means reception by radio of the program of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station.

NOTE 1: As used in this section, program includes any complete program or part thereof.

NOTE 2: In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast.

(b) The licensee of an FM broadcast station may, without further authority of the Commission, rebroadcast the program of a United States standard, FM or noncommercial educational FM broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.

NOTE: The notice and certification of consent shall be given within 3 days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of a standard or FM broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

(c) (1) The licensee of an FM broadcast station located within a State or the District of Columbia may, without further authority of the Commission, rebroadcast on a noncommercial basis a noncommercial program of a United States international broadcast station.

(2) The licensee of an FM broadcast station located in any territory or insular possession of the United States may, without further authority of the Commission, rebroadcast any program of a United States international broadcast station.

(3) In the case of any rebroadcast under the provisions of this paragraph, the Commission shall be notified of the call letters of each station whose program is rebroadcast and the licensee shall certify that express authority has been received from the licensee of the station originating the program.

(d) No licensee of an FM broadcast station shall rebroadcast the program of any United States radio station not designated in paragraph (b) or (c) of this section without written authority having first been obtained from the Commission upon application (informal) accompanied by written consent or certification of consent of the licensee of the station originating the program.

NOTE 1: The broadcasting of a program relayed by a remote pickup broadcast station or an ST broadcast station is not considered a rebroadcast.

NOTE 2: By Order No. 82, dated and effective June 24, 1941, until further order of the Commission, § 3.291 (d) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for that express purpose by United States Government radio stations.

§ 3.292 *Lotteries.* (a) An application for construction permit, license, renewal of license, or any other authorization for the operation of a broadcast station, will not be granted where the applicant proposes to follow or continue to follow a policy or practice of broadcasting or permitting "the broadcasting of, any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes." (See 18 U. S. C. 1304.)

(b) The determination whether a particular program comes within the provisions of paragraph (a) of this section depends on the facts of each case. However, the Commission will in any event consider that a program comes within the provisions of paragraph (a) of this section if in connection with such program a prize consisting of money or thing of value is awarded to any person whose selection is dependent in whole or in part upon lot or chance, if as a condition of winning or competing for such prize, such winner or winners are required to furnish any money or thing of value or are required to have in their possession any product sold, manufactured, furnished or distributed by a sponsor of a program broadcast on the station in question.

§ 3.293 *Subsidiary communications authorization.* An FM broadcast licensee or permittee may apply for a Subsidiary Communications Authorization (SCA) to engage in a limited type of non-broadcast service. These services are restricted to those involving programming consisting of news, music, time, weather, and other similar programming categories. (The functional music services whereby FM stations undertake to supply programs of a predominantly musical nature to commercial establishments is an example of such an SCA service.) FCC Form 318—Application for Subsidiary Communications Authorization shall be submitted; the applicant for the SCA shall there specify the particular nature or purposes of the SCA operation or operations sought, and whether it will be conducted on a simplex or multiplex basis, or both. If on a multiplex basis, it may be carried on without restriction as to time; if on a simplex basis, the SCA operation shall be conducted during those times not devoted to the 36 hours required under § 3.261 for FM broadcast operation. (Subsidiary Communications Authorizations on a simplex basis will be issued to expire July 1, 1956.)

§ 3.294 *Nature of the SCA.* (a) The SCA is of a subsidiary or secondary nature and shall not exist apart from the

FM license or permit. No transfer or assignment of it shall be made separate from the FM broadcast license, and failure to transfer the SCA (through application on FCC Form 318) with the FM license or permit renders the SCA void. The licensee or permittee must seek renewal of the SCA (on FCC Form 318) at the same time it applies for its renewal of FM license or permit; failure to renew the latter automatically terminates the SCA.

(b) The grant or renewal of an FM license or permit shall not be furthered or promoted by the proposed or past operation under an SCA; the licensee must establish that his broadcast operation is in the public interest wholly apart from the SCA activities. (Violation of rules applicable to the SCA operation would, of course, reflect on the licensee's qualifications to hold its broadcast license or permit.)

§ 3.295 *Operation under the SCA.* (a) The SCA holder must restrict its operation to the uses or purposes granted by the Commission in acting upon his application; prior permission to engage in any additional or new activity must be obtained from the Commission.

(b) Supersonic tones or other similar devices may be employed with respect to material transmitted during the SCA operation in order to promote or maintain its commercial marketability, with the station using appropriate actuating devices with the subscribers' receivers.

(c) In all arrangements entered into under the SCA with outside parties, the licensee or permittee must pass on all material to be transmitted over the station's facilities, with the right to reject any material which it deems inappropriate or undesirable; when the SCA operation is conducted on a simplex basis, the licensee must be able, through appropriate contractual arrangement, to substitute a broadcast program at any time it deems it in the public interest to do so.

(d) The requirements of §§ 3.290 and 3.291 are equally applicable when the FM licensee or permittee is engaged in operations pursuant to the SCA.

(e) The requirements of § 3.287 with respect to station identification announcements must be met by identification on the main carrier when a station is engaged in SCA operations. The licensee may prevent their reception on subscribers' receivers through the use of supersonic tones capable of deactivating these specialized receivers.

(f) The requirements of §§ 3.288 and 3.289 are applicable to the SCA operation when the latter is conducted on a simplex basis; provided that the station may employ supersonic tones or other devices to prevent the reception of such announcements over subscribers' receivers. The requirement of § 3.289 shall be deemed to have been met by the SCA operator by the latter's announcement that the program is being transmitted for a fee to commercial subscribers.

(g) The FM licensee or permittee shall maintain logs for the SCA operations. In the program log, the following entries shall be made:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry describing the material transmitted in each hour segment. If a speech is made by a political candidate, the name and political affiliations of such speaker shall be entered.

(3) An entry showing that sponsorship and mechanical record announcements, when required under paragraph (f) of this section, have been made, and the time of the latter announcements.

(h) The requirements of § 3.281 (b), (1)–(4), inclusive and (c), and §§ 3.282 to 3.286, inclusive, are equally applicable to logs to be maintained during the SCA operation.

(i) The requirements of § 3.265 with respect to operators and the provisions of § 3.274 relating to remote control operation are equally applicable to operation during the SCA period.

(j) The licensee must observe all technical rules and standards applicable to FM broadcast stations when conducting the SCA operation. (For criteria applicable to the multiplex SCA operation, see § 3.318.)

FM TECHNICAL STANDARDS

§ 3.301 *Introduction.* (a) There are presented herein the Commission's engineering standards relating to the allocation and operation of FM broadcast stations. These standards also apply to noncommercial educational FM broadcast stations, except as noted herein. The Commission's rules and regulations contain references to these standards, which have been approved by the Commission and thus are considered as reflecting its opinion in all matters involved.

(b) The standards set forth herein are those deemed necessary for the construction and operation of FM broadcast stations to meet the requirements of technical regulations and for operation in the public interest along technical lines not otherwise enunciated. These standards are based upon the best engineering data available, including evidence at hearings, conferences with radio engineers, and data supplied by manufacturers of radio equipment and by licensees of FM broadcast stations. These standards are complete in themselves and supersede previous engineering standards or policies of the Commission concerning FM broadcast stations. While these standards provide for flexibility and indicate the conditions under which they are applicable, it is not expected that material deviation from the fundamental principles will be recognized unless full information is submitted as to the need and reasons therefor.

(c) These standards will necessarily be revised from time to time as progress is made in the art. The Commission will accumulate and analyze engineering data available as to the progress of the art so that these standards may be kept current with technical developments.

§ 3.310 *Definitions.*—(a) *FM broadcast station.* The term "FM broadcast station" means a station employing frequency modulation in the FM broadcast band and licensed primarily for the transmission of radiotelephone emissions intended to be received by the general public.

(b) *Frequency modulation.* The term "frequency modulation" means a system of modulation where the instantaneous radio frequency varies in proportion to the instantaneous amplitude of the modulating signal (amplitude of modulating signal to be measured after pre-emphasis, if used) and the instantaneous radio frequency is independent of the frequency of the modulating signal.

(c) *FM broadcast band.* The term "FM broadcast band" means the band of frequencies extending from 88 to 108 megacycles, which includes those assigned to noncommercial educational broadcasting.

(d) *Center frequency.* The term "center frequency" means:

(1) The average frequency of the emitted wave when modulated by a sinusoidal signal.

(2) The frequency of the emitted wave without modulation.

(e) *Frequency swing.* The term "frequency swing" means the instantaneous departure of the frequency of the emitted wave from the center frequency resulting from modulation.

(f) *FM broadcast channel.* The term "FM broadcast channel" means a band of frequencies 200 kilocycles wide and is designated by its center frequency. Channels for FM broadcast stations begin at 88.1 megacycles and continue in successive steps of 200 kilocycles to and including 107.9 megacycles.

(g) *Antenna field gain.* The term "antenna field gain" of an FM broadcast antenna means the ratio of the effective free space field intensity produced at one mile in the horizontal plane expressed in millivolts per meter for 1 kilowatt antenna input power to 137.6 mv/m.

(h) *Free space field intensity.* The term "free space field intensity" means the field intensity that would exist at a point in the absence of waves reflected from the earth or other reflecting objects.

(i) *Multiplex transmission.* The term "multiplex transmission" means the simultaneous transmission of two or more signals within a single channel. Multiplex transmission as applied to FM broadcast stations means the transmission of facsimile or other signals in addition to the regular broadcast signals.

(j) *Percentage modulation.* The term "percentage modulation" as applied to frequency modulation means the ratio of the actual frequency swing to the frequency swing defined as 100 percent modulation, expressed in percentage. For FM broadcast stations a frequency swing of ±75 kilocycles is defined as 100 percent modulation.

(k) *Effective radiated power.* The term "effective radiated power" means the product of the antenna power (transmitter output power less transmission line loss) times (1) the antenna power gain, or (2) the antenna field gain squared. Where circular or elliptical polarization is employed the term effective radiated power is applied separately

to the horizontal and vertical components of radiation. For allocation purposes, the effective radiated power authorized is the horizontally polarized component of radiation only.

(l) *Service area.* The term "service area" as applied to FM broadcasting means the service resulting from an assigned effective radiated power and antenna height above average terrain.

(m) *Antenna height above average terrain.* (1) The term "antenna height above average terrain" means the height of the radiation center of the antenna above the terrain 2 to 10 miles from the antenna. (In general a different antenna height will be determined for each direction from the antenna. The average of these various heights is considered as the antenna height above average terrain.)

(2) Where circular or elliptical polarization is employed the antenna height above average terrain shall be based upon the height of the radiation center of the antenna which transmits the horizontal component of radiation.

(n) *Field intensity.* The term "field intensity" as used in these standards shall mean the electric field intensity in the horizontal direction.

(o) *Index of cooperation.* The index of cooperation as applied to facsimile broadcasting is the product of the number of lines per inch, the available line length in inches, and the reciprocal of the line-use ratio (e. g., $105 \times 8.2 \times 8/7 = 984$).

(p) *Line-use ratio.* The term "line-use ratio" as applied to facsimile broadcasting is the ratio of the available line to the total length of scanning line.

(q) *Available line.* The term "available line" means the portion of the total length of scanning line that can be used specifically for picture signals.

(r) *Rectilinear scanning.* The term "rectilinear scanning" means the process of scanning an area in a predetermined sequence of narrow straight parallel strips.

(s) *Optical density.* The term "optical density" means the logarithm (to the base 10) of the ratio of incident to transmitted or reflected light.

§ 3.311 *Engineering standards of allocation.* (a) Sections 3.202 to 3.205 inclusive of the rules and regulations describe the basis for allocation of FM broadcast stations, including the division of the United States into Areas I and II.

(b) FM broadcast stations shall determine the extent of their 1 mv/m and 50 uv/m contours in accordance with the methods prescribed in these Standards.

(c) Although some service is provided by tropospheric waves, the service area is considered to be only that served by the ground wave. The extent of service is determined by the point at which the ground wave is no longer of sufficient intensity to provide satisfactory broadcast service. The field intensity considered necessary for service is as follows:

Area:	*Median field intensity*
City business or factory areas	1 mv/m
Rural areas	50 uv/m

A median field intensity of 3 to 5 mv/m should be placed over the principal city to be served and for class B stations, a median field intensity of 1 mv/m should be placed over the business district of cities of 10,000 or greater within the metropolitan district served. A field intensity of 5 mv/m should be provided over the main studio of a class B station except as otherwise provided in § 3.205. These figures are based upon the usual noise levels encountered in the several areas and upon the absence of interference from other FM stations.

(d) A basis for allocation of satellite stations has not yet been determined. For the present, applications will be considered on their individual merits.

(e) The service area is predicted as follows: Profile graphs must be drawn for at least eight radials from the proposed antenna site. These profiles should be prepared for each radial beginning at the antenna site and extending to 10 miles therefrom. Normally the radials are drawn for each 45° of azimuth; however, where feasible the radials should be drawn for angles along which roads tend to follow. (The latter method may be helpful in obtaining topographical data where otherwise unavailable, and is particularly useful in connection with mobile field intensity measurements of the station and the correlation of such measurements with predicted field intensities.) In each case one or more radials must include the principal city or cities to be served, particularly in cases of rugged terrain, even though the city may be more than 10 miles from the antenna site. The profile graph for each radial should be plotted by contour intervals of from 40 to 100 feet and, where the data permits, at least 50 points of elevation (generally uniformly spaced) should be used for each radial. In instances of very rugged terrain where the use of contour intervals of 100 feet would result in several points in a short distance, 200- or 400-foot contour intervals may be used for such distances. On the other hand, where the terrain is uniform or gently sloping the smallest contour interval indicated on the topographic map (see below) should be used, although only a relatively few points may be available. The profile graph should accurately indicate the topography for each radial, and the graphs should be plotted with the distance in miles as the abscissa and the elevation in feet above mean sea level as the ordinate. The profile graphs should indicate the source of the topographical data employed. The graph should also show the elevation of the center of the radiating system. The graph may be plotted either on rectangular coordinate paper or on special paper which shows the curvature of the earth. It is not necessary to take the curvature of the earth into consideration in this procedure, as this factor is taken care of in the chart showing signal intensities (Fig. 1 of § 3.333).

(f) The average elevation of the 8-mile distance between 2 and 10 miles from the antenna site should then be determined from the profile graph for each radial. This may be obtained by averaging a large number of equally spaced points, by using a planimeter, or by obtaining the median elevation (that exceeded for 50 percent of the distance) in sectors and averaging these values.

(g) To determine the distance to a particular contour, Figure 1 of § 3.333 concerning the range of FM broadcast stations should be used. This chart has been prepared for a frequency in the center of the band and is to be used for all FM broadcast channels, since little change results over this frequency range. The distance to a contour is determined by the effective radiated power and the antenna height. The height of the antenna used in connection with Figure 1 of § 3.333 should be the height of the center of the proposed antenna radiator above the average elevation obtained by the preceding method. The distances shown by Figure 1 of § 3.333 are based upon an effective radiated power of 1 kilowatt; to use the chart for other powers, the sliding scale associated with the chart should be trimmed and used as the ordinate scale. This sliding scale is placed on the chart with the appropriate graduation for power in line with the lower line of the top edge of the chart. The right edge of the scale is placed in line with the appropriate antenna height graduations and the chart then becomes direct reading for this power and antenna height. Where the antenna height is not one of those for which a scale is provided, the signal strength or distance is determined by interpolation between the curves connecting the equidistant points.

(h) The foregoing process of determining the extent of the required contours shall be followed in determining the boundary of the proposed service area. The areas within the required contours must be determined and submitted with each application for an FM broadcast station. Each application shall include a map showing these contours, and for this purpose sectional aeronautical charts or other maps having a convenient scale may be used. The map shall show the radials along which the profile charts and expected field strengths have been determined. The area within each contour should then be measured (by planimeter or other approximate means) to determine the number of square miles therein. In computing the area within the contours, exclude (1) areas beyond the borders of the United States, and (2) large bodies of water, such as ocean areas, gulfs, sounds, bays, large lakes, etc., but not rivers.

(i) In cases where the terrain in one or more directions from the antenna site departs widely from the average elevation of the 2 to 10 mile sector, the application of this prediction method may indicate contour distances that are different from those which may be expected in practice. In such cases the prediction method should be followed, but a showing may be made if desired concerning the distance to the contour as determined by other means. Such showing should include data concerning the procedure employed and sample calculations. For example, a mountain ridge may indicate the practical limit of service although the prediction method may indicate the contour elsewhere. In cases of such limitation, the map of predicted coverage should show both the regular predicted

area and the area as limited or extended by terrain. Both areas should be measured as previously described; the area obtained by the regular prediction method should be given in the application form, with a supplementary note giving the limited or extended area. In special cases the Commission may require additional information as to the terrain in the proposed service area.

(j) In determining the population served by FM broadcast stations, it is considered that the built-up city areas and business districts in cities having over 10,000 population and located beyond the 1 mv/m contour do not receive adequate service. Minor civil division maps (1950 census) should be used in making population counts, excluding cities not receiving adequate service. Where a contour divides a minor division, uniform distribution of population within the division should be assumed in order to determine the population included within the contour unless a more accurate count is available.

§ 3.312 *Topographic data.* (a) In the preparation of the profile graphs previously described, and in determining the location and height above mean sea level of the antenna site, the elevation or contour intervals shall be taken from United States Geological Survey Topographic Quadrangle Maps, United States Army Corps of Engineers Maps or Tennessee Valley Authority maps, whichever is the latest, for all areas for which such maps are available. If such maps are not published for the area in question, the next best topographic information should be used. Topographic data may sometimes be obtained from state and municipal agencies. The data from the Sectional Aeronautical Charts (including bench marks) or railroad depot elevations and highway elevations from road maps may be used where no better information is available. In cases where limited topographic data can be obtained, use may be made of an altimeter in a car driven along roads extending generally radially from the transmitter site.

(b) The Commission will not ordinarily require the submission of topographical maps for areas beyond 15 miles from the antenna site, but the maps must include the principal city or cities to be served. If it appears necessary, additional data may be requested.

(c) The United States Geological Survey Topography Quadrangle Sheets may be obtained from the United States Geological Survey Department of the Interior, Washington, D. C., for 20 cents each. The Sectional Aeronautical Charts are available from the United States Coast and Geodetic Survey, Department of Commerce, Washington, D. C., for 25 cents each. These maps may also be secured from branch offices and from authorized agents or dealers in most principal cities.

§ 3.313 *Interference standard.* (a) Field intensity measurements are preferable in predicting interference between FM broadcast stations and should be used, when available, in determining the extent of interference. (For methods and procedure, see § 3.314.) In lieu of measurements, the interference should be predicted in accordance with the method described herein.

(b) Objectionable interference is considered to exist when the interfering signal exceeds that given by the following ratios. (The desired signal is median field and the undesired signal is the tropospheric signal intensity exceeded for 1 percent of the time.)

Channel separation:	*Ratio of desired to undesired signals*
Same channel	10:1.
200 kc	2:1.
400 kc	1:10.
600 kc	1:100.
800 kc and above	No restriction.[1]

[1] Intermediate frequency amplifiers of most FM broadcast receivers are designed to operate on 10.7 megacycles. For this reason the assignment of two stations in the same area, one with a frequency 10.6 or 10.8 megacycles removed from that of the other, should be avoided if possible.

(c) Stations normally will not be authorized to operate in the same city or in nearby cities with a frequency separation of less than 800 kc.: *Provided,* That stations may be authorized to operate in nearby cities with a frequency separation of not less than 400 kc. where necessary in order to provide an equitable and efficient distribution of facilities: *And provided further,* That class B stations will not be authorized in the same metropolitan district with a frequency separation of less than 800 kc. In the assignment of FM broadcast facilities the Commission will endeavor to provide the optimum use of the channels in the band, and accordingly may assign a channel different from that requested in an application.

(d) In predicting the extent of interference within the ground wave service area of a station, use should be made of the groundwave chart. (Figure 1 of § 3.333.)

(e) In determining the points at which the interference ratio is equal to the values shown in paragraph (b) of this section, the field intensities for the two interfering signals under consideration should be computed for a considerable number of points along the line between the two stations. Using this data, field intensity versus distance curves should be plotted (e. g., cross-curves on graph paper) in order to determine the points on this path where the interference ratios exist. The points established by this method together with the points along the contours where the same ratios are determined, are considered to be generally sufficient to predict the area of interference. Additional points may be required in the case of irregular terrain or the use of directional antenna systems.

(f) The area of interference, if any, shall be shown in connection with the map of predicted coverage required by the application form, together with the basic data employed in computing such interference. The map shall show the interference within the 50 uv/m contour.

§ 3.314 *Field intensity measurements in allocation.* (a) When field intensity measurements are required by the Commission's rules or when employed in determining the extent of service or interference of existing stations, such measurements should be made in accordance with the procedure outlined herein.

(b) Measurements made to determine the service and interference areas of FM broadcast stations should be made with mobile equipment along roads which are as close and similar as possible to the radials showing topography which were submitted with the application for construction permit. Suitable measuring equipment and a continuous recording device must be employed, the chart of which is either directly driven from the speedometer of the automobile in which the equipment is mounted or so arranged that distances and identifying landmarks may be readily noted. The measuring equipment must be calibrated against recognized standards of field intensity and so constructed that it will maintain an acceptable accuracy of measurement while in motion or when stationary. The equipment should be so operated that the recorder chart can be calibrated directly in field intensity in order to facilitate analysis of the chart. The receiving antenna shall be primarily responsive to the horizontal electric field and should be nondirectional unless otherwise authorized. Authorization to use a half-wave dipole may be requested by filing application with the Commission prior to the making of measurements. The application may be filed by letter describing the proposed antenna, the method of installation and operation, and calibration procedures. Such authorization will remain in effect throughout the series of measurements for which granted.

(c) Mobile measurements should be made with a minimum chart speed of 3 inches per mile and preferably 5 or 6 inches per mile. Locations shall be noted on the recorder chart as frequently as necessary to definitely fix the relation between the measured field intensity and the location. The time constant of the equipment should be such to permit adequate analysis of the charts, and the time constant employed shall be shown. Measurements should be made to a point on each radial well beyond the particular contour under investigation. The transmitter power shall be maintained as close as possible to the authorized power throughout the survey.

(d) After the measurements are completed, the recorder chart shall be divided into not less than 15 sections on each equivalent radial from the station. The field intensity in each section of the chart shall be analyzed to determine the field intensity received 50 percent of the distance (median field) throughout the section, and this median field intensity associated with the corresponding sector of the radial. The field intensity figures must be corrected for a receiving antenna elevation of 30 feet and for any directional effects of the automobile not otherwise compensated. This data should be plotted for each radial, using log-log coordinate paper with distance as the abscissa and field intensity as the ordinate. A smooth curve should be drawn through these points (of median fields for all sectors), and this curve used to determine the distance to the desired contour. The distances obtained for each radial may then be plotted on the map of predicted coverage or on polar coordinate paper (excluding water areas, etc.) to determine the service and interference areas of a station.

(e) In making measurements to establish the field intensity contours of a station, mobile recordings should be made along each of the radials drawn in § 3.311 (e). Measurements should extend from the vicinity of the station out to the 1 mv/m measured contour and somewhat beyond (at the present time it is not considered practical to conduct mobile measurements far beyond this contour due to the fading ratio at weak fields, which complicates analysis of the charts). These measurements would be made for the purpose of determining the variation of the measured contours from those predicted, and it is expected that initially the correlation of the measured 1 mv/m with the predicted 1 mv/m contour will be used as a basis in determining adherence to authorized service areas within the 50 uv/m contour.

(f) In addition to the 1 mv/m contour, the map of measured coverage shall show the 50 uv/m contour as determined by employing Figure 1 of § 3.333 and the distance to the 1 mv/m contour along each radial. The sliding scale shall be placed on the figure at the appropriate antenna height for the radial in question and then moved so the distance to the 1 mv/m contour (as measured) and the 1 mv/m mark are opposite. The distance to the 50 uv/m contour is then given opposite the 50 uv/m mark on the scale.

(g) In certain cases the Commission may desire more information or recordings and in these instances special instructions will be issued. This may include fixed location measurements to determine tropospheric propagation and fading ratios.

(h) Complete data taken in conjunction with field intensity measurements shall be submitted to the Commission in affidavit form including the following:

(1) Map or maps showing the roads or points where measurements were made, the service and/or interference areas determined by the prediction method and by the measurements, and any unusual terrain characteristics existing in these areas. (This map may preferably be of a type showing topography in the area.)

(2) If a directional transmitting antenna is employed, a diagram on polar coordinate paper showing the predicted free space field intensity in millivolts per meter at one mile in all directions. (See § 3.316.)

(3) A full description of the procedures and methods employed including the type of equipment, the method of installation and operation, and calibration procedures.

(4) A representative sample of the recording tape, including calibration.

(5) Antenna system and power employed during the survey.

(6) Name, address, and qualifications of the engineer or engineers making the measurements.

(i) All data shall be submitted to the Commission in triplicate.

§ 3.315 *Transmitter location.* (a) The transmitter location should be as near the center of the proposed service area as possible consistent with the applicant's ability to find a site with sufficient elevation to provide service throughout the area. Location of the antenna at a point of high elevation is necessary to reduce to a minimum the shadow effect on propagation due to hills and buildings which may reduce materially the intensity of the station's signals in a particular direction. The transmitting site should be selected consistent with the purpose of the station, i. e., whether it is intended to serve a small city, a metropolitan area, or a large region. Inasmuch as service may be provided by signals of 1 mv/m or greater field intensities in metropolitan areas, and inasmuch as signals as low as 20 uv/m may provide service in rural areas, considerable latitude in the geographical location of the transmitter is permitted; however, the necessity for a high elevation for the antenna may render this problem difficult. In general, the transmitting antenna of a station should be located at the most central point at the highest elevation available. In providing the best degree of service to an area, it is usually preferable to use a high antenna rather than a lower antenna with increased transmitter power. The location should be so chosen that line-of-sight can be obtained from the antenna over the principal city or cities to be served; in no event should there be a major obstruction in this path.

(b) The transmitting location should be selected so that the 1 mv/m contour encompasses the urban population within the area to be served and the 50 uv/m or the interference free contour coincides generally with the limits of the area to be served. It is recognized that topography, shape of the desired service area, and population distribution may make the choice of a transmitter location difficult. In such cases consideration may be given to the use of a directional antenna system, although it is generally preferable to choose a site where a nondirectional antenna may be employed.

(c) In cases of questionable antenna locations it is desirable to conduct propagation tests to indicate the field intensity expected in the principal city or cities to be served and in other areas, particularly where severe shadow problems may be expected. In considering applications proposing the use of such locations, the Commission may require site tests to be made. Such tests should be made in accordance with the measurement procedure previously described, and full data thereon must be supplied to the Commission. Test transmitters should employ an antenna having a height as close as possible to the proposed antenna height, using a balloon or other support if necessary and feasible. Information concerning the authorization of site tests may be obtained from the Commission upon request.

(d) Present information is not sufficiently complete to establish "blanket areas" of FM broadcast stations, which are defined as those areas adjacent to the transmitters in which the reception of other stations is subject to interference due to the strong signal from the stations. Where it is found necessary to locate the transmitter in a residential area where blanketing problems may appear to be excessive, the application must include a showing concerning the availability of other sites. The authorization of station construction in areas where blanketing problems appear to be excessive will be on the basis that the applicant will assume full responsibility for the adjustment of reasonable complaints arising from excessively strong signals of the applicant's station. As a means of minimizing interference problems it is expected that stations adjacent in location will generally be assigned frequencies that are generally adjacent. Insofar as is feasible, frequency assignments for stations at separated locations will also be separated.

(e) Cognizance must of course be taken regarding the possible hazard of the proposed antenna structure to aviation and the proximity of the proposed site to airports and airways. Procedures and standards with respect to the Commission's consideration of proposed antenna structures which will serve as a guide to persons intending to apply for radio station licenses are contained in Part 17 of this chapter (Rules Concerning the Construction, Marking and Lighting of Antenna Structures).

§ 3.316 *Antenna systems.* (a) It shall be standard to employ horizontal polarization; however, circular or elliptical polarization may be employed if desired. Clockwise or counterclockwise rotation may be used. The supplemental vertically polarized effective radiated power required for circular or elliptical polarization shall in no event exceed the effective radiated power authorized.

(b) The antenna must be constructed so that it is as clear as possible of surrounding buildings or objects that would cause shadow problems.

(c) Applications proposing the use of directional antenna systems must be accompanied by the following:

(1) Complete description of the proposed antenna system.

(2) Orientation of array with respect to true north; time phasing of fields from elements (degrees leading or lagging); space phasing of elements (in feet and in degrees); ratio of fields from elements.

(3) Calculated field intensity pattern (on letter-size polar coordinate paper) giving the free space field intensity in millivolts per meter at one mile in the horizontal plane, together with the formula used, constants employed, sample calculations and tabulation of calculation data.

(4) Name, address, and qualifications of the engineer making the calculations.

(d) Applications proposing the use of FM broadcast antennas in the immediate vicinity (i. e., 200 feet or less) of (1) other FM broadcast antennas, or (2) television broadcast antennas for frequencies adjacent to the FM broadcast band, must include a showing as to the expected effect, if any, of such proximate operation.

(e) In cases where it is proposed to use a tower of a standard broadcast station as a supporting structure for an FM broadcast antenna, an application for construction permit (or modification of construction permit) for such station must be filed for consideration with the FM application. Applications may be required for other classes of stations when their towers are to be used in connection with FM broadcast stations.

(f) When an FM broadcast antenna is mounted on a nondirectional standard broadcast antenna, new resistance measurements must be made of the standard broadcast antenna after installation and testing of the FM broadcast antenna. During the installation and until the new resistance determination is approved, the standard broadcast station licensee should apply for authority (informal application) to operate by the indirect method of power determination. The FM broadcast license application will not be considered until the application form concerning resistance measurements is filed for the standard broadcast station.

(g) When an FM broadcast antenna is mounted on an element of a standard broadcast directional antenna, a full engineering study concerning the effect of the FM broadcast antenna on the directional pattern must be filed with the application concerning the standard broadcast station. Depending upon the individual case, the Commission may require readjustment and certain field intensity measurements of the standard broadcast station following the completion of the FM broadcast antenna system.

(h) When the proposed FM broadcast antenna is to be mounted on a tower in the vicinity of a standard broadcast directional array and it appears that the operation of the directional antenna system may be affected, an engineering study must be filed with the FM broadcast application concerning the effect of the FM broadcast antenna on the directional pattern. Readjustment and field intensity measurements of the standard broadcast station may be required following construction of the FM broadcast antenna.

(i) Information regarding data required in connection with standard broadcast directional antenna systems may be found in § 3.150 of this chapter. (See also Standard Broadcast Technical Standards.)

(j) In the event a common tower is used by two or more licensees for antenna and/or antenna supporting purposes, the licensee who is owner of the tower shall assume full responsibility for the installation and maintenance of any painting or lighting requirements. In the event of shared ownership, one licensee shall assume such responsibility and advise the Commission accordingly.

(k) It is recommended that an emergency FM broadcast antenna be installed, or, alternately, an auxiliary transmission line or lines if feasible in the particular circumstances. Data thereon should be supplied with the application for construction permit; if proposed after station construction, an informal application should be submitted to the Commission.

(l) When necessary for the protection of air navigation, the antenna and supporting structure shall be painted and illuminated in accordance with the specifications supplied by the Commission pursuant to section 303 (q) of the Communications Act of 1934, as amended.

§ 3.317 *Transmitters and associated equipment*—(a) *Electrical performance standards.* The general design of the FM broadcast transmitting system (from input terminals of microphone preamplifier, through audio facilities at the studio, through lines or other circuits between studio and transmitter, through audio facilities at the transmitter, and through the transmitter, but excluding equalizers for the correction of deficiencies in microphone response) shall be in accordance with the following principles and specifications:

(1) Standard power ratings and operating power range of FM broadcast transmitters shall be in accordance with the following table:

Standard power rating:	Operating power range
10 watts [1]	10 watts or less.
250 watts	250 watts or less.
1 kw	250 watts–1 kw.
3 kw	1–3 kw.
5 kw	1–5 kw.
10 kw	3–10 kw.
25 kw	10–25 kw.
50 kw	10–50 kw.
100 kw	50–100 kw.

[1] For noncommercial educational FM stations.

(i) Composite transmitters may be authorized with a power rating different from the above table, provided full data is supplied in the application concerning the basis employed in establishing the rating and the need therefor. The operating range of such transmitters shall be from one-third of the power rating to the power rating.

(ii) The transmitter shall operate satisfactorily in the operating power range with a frequency swing of ±75 kilocycles, which is defined as 100 percent modulation.

(2) The transmitting system shall be capable of transmitting a band of frequencies from 50 to 15,000 cycles. Preemphasis shall be employed in accordance with the impedance-frequency characteristic of a series inductance-resistance network having a time constant of 75 microseconds. (See Fig. 2 of § 3.333.) The deviation of the system response from the standard preemphasis curve shall lie between two limits as shown in Figure 2 of § 3.333. The upper of these limits shall be uniform (no deviation) from 50 to 15,000 cycles. The lower limit shall be uniform from 100 to 7,500 cycles, and 3 db. below the upper limit; from 100 to 50 cycles the lower limit shall fall from the 3 db. limit at a uniform rate of 1 db. per octave (4 db. at 50 cycles); from 7,500 to 15,000 cycles the lower limit shall fall from the 3 db. limit at a uniform rate of 2 db. per octave (5 db. at 15,000 cycles).

(3) At any modulation frequency between 50 and 15,000 cycles and at modulation percentages of 25, 50, and 100 percent, the combined audio frequency harmonics measured in the output of the system shall not exceed the root-mean-square values given in the following table:

Modulating frequency:	Distortion percent
50 to 100 cycles	3.5
100 to 7,500 cycles	2.5
7,500 to 15,000 cycles	3.0

(i) Measurements shall be made employing 75 microsecond deemphasis in the measuring equipment and 75 microsecond prcemphasis in the transmitting equipment, and without compression if a compression amplifier is employed. Harmonics shall be included to 30 kc.

(ii) It is recommended that none of the three main divisions of the system (transmitter, studio to transmitter circuit, and audio facilities) contribute over one-half of these percentages since at some frequencies the total distortion may become the arithmetic sum of the distortions of the divisions.

(4) The transmitting system output noise level (frequency modulation) in the band of 50 to 15,000 cycles shall be at least 60 decibels below 100 percent modulation (frequency swing of ±75 kilocycles). The measurement shall be made using 400 cycle modulation as a reference. The noise-measuring equipment shall be provided with standard 75 microsecond deemphasis; the ballistic characteristics of the instrument shall be similar to those of the standard VU meter.

(5) The transmitting system output noise level (amplitude modulation) in the band of 50 to 15,000 cycles shall be at least 50 decibels below the level representing 100 percent amplitude modulation. The noise-measuring equipment shall be provided with standard 75-microsecond deemphasis; the ballistic characteristics of the instrument shall be similar to those of the standard VU meter.

(6) Automatic means shall be provided in the transmitter to maintain the assigned center frequency within the allowable tolerance (±2000 cycles).

(7) The transmitter shall be equipped with suitable indicating instruments for the determination of operating power and with other instruments as are necessary for proper adjustment, operation, and maintenance of the equipment (see § 3.320).

(8) Adequate provision shall be made for varying the transmitter output power to compensate for excessive variations in line voltage or for other factors affecting the output power.

(9) Adequate provision shall be provided to avoid overheating at the rated maximum output power.

(10) Means should be provided for connection and continuous operation of approved frequency and modulation monitors.

(11) If a limiting or compression amplifier is employed, precaution should be maintained in its connection in the circuit due to the use of preemphasis in the transmitting system.

(b) *Construction.* In general, the transmitter shall be constructed either on racks and panels or in totally enclosed frames protected as required by article 810 of the National Electrical Code and set forth below:

NOTE: The pertinent sections of article 810 of the National Electrical Code read as follows:

"8191. *General.* Transmitters shall comply with the following:

"a. *Enclosing.* The transmitter shall be enclosed in a metal frame or grille, or separated from the operating space by a barrier or other equivalent means, all metallic parts of which are effectually connected to ground.

"b. *Grounding of controls.* All external metallic handles and controls accessible to the operating personnel shall be effectually grounded. No circuit in excess of 150 volts shall have any parts exposed to direct contact. A complete dead-front type of switchboard is preferred.

"c. *Interlocks on doors.* All access doors shall be provided with interlocks which will disconnect all voltages in excess of 350 volts when any access door is opened."

(1) Means shall be provided for making all tuning adjustments, requiring voltages in excess of 350 volts to be applied to the circuit, from the front of the panels with all access doors closed.

(2) Proper bleeder resistors or other automatic means shall be installed across all capacitor banks to lower any voltage which may remain accessible with access door open to less than 350 volts within 2 seconds after the access door is opened.

(3) All plate supply and other high voltage equipment, including transformers, filters, rectifiers and motor generators, shall be protected so as to prevent injury to operating personnel.

(i) Commutator guards shall be provided on all high voltage rotating machinery. Coupling guards should be provided on motor generators.

(ii) Power equipment and control panels of the transmitter shall meet the above requirements (exposed 220 volt AC switching equipment on the front of the power control panels is not recommended but is not prohibited).

(iii) Power equipment located at a broadcast station but not directly associated with the transmitter (not purchased as part of same), such as power distribution panels, are not under the jurisdiction of the Commission; therefore § 3.254 does not apply.

(4) Metering equipment:

(i) All instruments having more than 1,000 volts potential to ground on the movement shall be protected by a cage or cover in addition to the regular case. (Some instruments are designed by the manufacturer to operate safely with voltages in excess of 1,000 volts on the movement. If it can be shown by the manufacturer's rating that the instrument will operate safely at the applied potential, additional protection is not necessary.)

(ii) In case the plate voltmeter is located on the low potential side of the multiplier resistor with the potential of the high potential terminal of the instrument at or less than 1,000 volts above ground, no protective case is required. However, it is good practice to protect voltmeters subject to more than 5,000 volts with suitable over-voltage protective devices across the instrument terminals in case the winding opens.

(iii) Transmission line meters and any other radio frequency instrument which may be necessary for the operator to read shall be so installed as to be easily and accurately read without the operator having to risk contact with circuits carrying high potential radio frequency energy.

(5) It is recommended that component parts comply as much as possible with the component specifications designated by the Army-Navy Electronics Standards Agency.

(c) *Wiring and shielding.* (1) The transmitter panels or units shall be wired in accordance with standard switchboard practice, either with insulated leads properly cabled and supported or with rigid bus bar properly insulated and protected.

(2) Wiring between units of the transmitter, with the exception of circuits carrying radio frequency energy, shall be installed in conduits or approved fiber or metal raceways for protection from mechanical injury.

(3) Circuits carrying radio frequency energy between units shall be coaxial, two wire balanced lines, or properly shielded.

(4) All stages or units shall be adequately shielded and filtered to prevent interaction and radiation.

(5) The frequency and modulation monitors and associated radio frequency lines to the transmitter shall be thoroughly shielded.

(d) *Installation.* (1) The installation shall be made in suitable quarters.

(2) Since an operator must be on duty at the transmitter control point during operation, suitable facilities for his welfare and comfort shall be provided at the control point.

(e) *Spare tubes.* A spare tube of every type employed in the transmitter and frequency and modulation monitors shall be kept on hand at the equipment location. When more than one tube of any type are employed, the following table determines the number of spares of that type required:

Number of each type employed:	Spares required
1 or 2	1
3 to 5	2
6 to 8	3
9 or more	4

An accurate circuit diagram and list of required spare tubes, as furnished by the manufacturer of the equipment, shall be retained at the transmitter location.

(f) *Operation.* In addition to specific requirements of the rules governing FM broadcast stations, the following operating requirements are specified:

(1) The maximum percentage of modulation shall be maintained in accordance with § 3.268. However, precautions shall be taken so as not to substantially alter the dynamic characteristics of musical programs.

(2) Spurious emissions, including radio frequency harmonics, shall be maintained at as low a level as practicable at all times in accordance with good engineering practice.

(3) If a limiting or compression amplifier is employed, care should be maintained in its use due to preemphasis in the transmitting system.

(g) *Studio equipment.* (1) Studio equipment shall be subject to all the above requirements where applicable except as follows:

(i) If properly covered by an underwriter's certificate, it will be considered as satisfying safety requirements.

(ii) Section 8191 of article 810 of the National Electrical Code shall apply for voltages only in excess of 500 volts.

(2) No specific requirements are made with regard to the microphones to be employed. However, microphone performance (including compensating networks, if employed) shall be compatible with the required performance of the transmitting system.

(3) No specific requirements are made relative to the design and acoustical treatement of studios. However, the design of studios, particularly the main studio, shall be compatible with the required performance characteristics of FM broadcast stations.

§ 3.318 *Facsimile: engineering standards.* The following standards apply to facsimile broadcasting under § 3.266:

(a) Rectilinear scanning shall be employed, with scanning spot progressing from left to right and scanned lines progressing from top to bottom of subject copy.

(b) The standard index of cooperation shall be 984.

(c) The number of scanning lines per minute shall be 360.

(d) The line-use ratio shall be ⅞, or 315° of the full scanning cycle.

(e) The ⅛ cycle or 45° not included in the available scanning line shall be divided into 3 equal parts, the first 15° being used for transmission at approximately white level, the second 15° for transmission at approximately black level, and the third 15° for transmission at approximately white level.

(f) An interval of not more than 12 seconds shall be available between two pages of subject copy, for the transmission of a page-separation signal and/or other services.

(g) Amplitude or frequency (frequency-shift) modulation of the subcarrier shall be used.

(h) Subcarrier modulation shall normally vary approximately linearly with the optical density of the subject copy.

(i) Negative modulation shall be used, i. e., for amplitude modulation of subcarrier, maximum subcarrier amplitude and maximum radio frequency swing on black; for frequency modulation of subcarrier, highest instantaneous frequency of subcarrier on black.

(j) Subcarrier noise level shall be maintained at least 30 db. below maximum (black) picture modulation level, at the radio transmitter input.

(k) The facsimile subcarrier transmission shall be conducted in the frequency range between 22 and 28 kilocycles. Should amplitude modulation of the subcarrier be employed the subcarrier frequency shall be 25 kilocycles with sidebands extending not more than 3 kilocycles in either direction from the subcarrier frequency. Should frequency modulation of the subcarrier be employed the total swing of the subcarrier shall be within the range from 22 to 28 kilocycles, with 22 kilocycles corresponding to white and 28 kilocycles corresponding to black on the transmitted copy. In multiplex operation the modulation of the FM carrier by the modulated subcarrier shall not exceed 5 percent. In simplex operation the modulation of the FM carrier by the

modulated subcarrier shall not exceed 30 percent.

(l) During periods of multiplex facsimile transmission, frequency modulation of the FM carrier caused by the aural signals shall, in the frequency range from 20 to 30 kilocycles, be at least 60 db. below 100 percent modulation. Frequency modulation of the FM carrier caused by the facsimile signals shall, in the frequency range from 50 to 15,000 cycles, be at least 60 db. below 100 percent modulation.

§ 3.319 *Subsidiary communications multiplex operations: engineering standards.* The following standards apply to subsidiary communications multiplex operations under §§ 3.293 to 3.295.

(a) Frequency modulation of subcarrier shall be used.

(b) The instantaneous frequency of the subcarriers shall at all times lie within the range 20 to 75 kilocycles.

(c) The arithmetic sum of the modulation of the main carrier by the subcarriers shall not exceed 30 percent.

NOTE: Inasmuch as presently approved FM modulation monitors have been designed to meet requirements for modulation frequencies of from 50 to 15,000 cycles, the use of such monitors for reading the modulation percentages during multiplex operation may not be appropriate since the subcarriers utilized are above 20,000 cycles.

(d) The total modulation of the main carrier, including the subcarriers, shall meet the requirements of § 3.268.

(e) Frequency modulation of the main carrier caused by the subcarrier operation shall, in the frequency range 50 to 15,000 cycles, be at least 60 db. below 100 percent modulation.

§ 3.320 *Indicating instruments—specifications.* The following requirements and specifications shall apply to indicating instruments used by FM broadcast stations:

(a) Instruments indicating the plate current or plate voltage of the last radio stage (linear scale instruments) shall meet the following specifications:

(1) Length of scale shall be not less than 2 3/10 inches.

(2) Accuracy shall be at least 2 percent of the full scale reading.

(3) Scale shall have at least 40 divisions.

(4) Full scale reading shall not be greater than five times the minimum normal indication.

(b) Instruments indicating transmission line current or voltage shall meet the following specifications:

(1) Instruments having linear scales shall meet the requirements of paragraph (a) (1), (2), (3), and (4) of this section.

(2) Instruments having logarithmic or square law scales:

(i) Shall meet the requirements of paragraph (a) (1) and (2) of this section for linear scale instruments.

(ii) Full scale reading shall not be greater than three times the minimum normal indication.

(iii) No scale division above one-third full scale reading shall be greater than one-thirtieth of the full scale reading.

(c) Radio frequency instruments having expanded scales:

(1) Shall meet the requirements of paragraph (a) (1), (2), and (4) of this section for linear scale instruments.

(2) No scale division above one-fifth full scale reading shall be greater than one-fiftieth of the full scale reading.

(3) The meter face shall be marked with the words "Expanded scale" or the abbreviation thereof (E. S.).

(d) No required instrument, the accuracy of which is questionable, shall be employed. Repairs and recalibration of instruments shall be made by the manufacturer, or by an authorized instrument repair service of the manufacturer, or by some other properly qualified and equipped instrument repair service. In any event the repaired instrument must be supplied with a certificate of calibration.

(e) Recording instruments may be employed in addition to the indicating instruments to record the transmission line current or voltage and the direct plate current and/or direct plate voltage of the last radio stage, provided that they do not affect the operation of the circuits or accuracy of the indicating instruments. If the records are to be used in any proceeding before the Commission as representative of operation, the accuracy must be the equivalent of the indicating instruments and the calibration shall be checked at such intervals as to insure the retention of the accuracy.

(f) The function of each instrument used in the equipment shall be clearly and permanently shown on the instrument itself or on the panel immediately adjacent thereto.

§ 3.321 *Auxiliary transmitters.* Auxiliary transmitters may not exceed the power rating or operating power range of the main transmitter, but need not conform to the performance characteristics specified by § 3.317 (a) (2) to (a) (5) inclusive. The subsequent portions of § 3.317 apply to auxiliary transmitters.

§ 3.330 *Frequency and modulation monitors at auxiliary transmitters.* (a) The following shall govern the installation of approved frequency and modulation monitors at auxiliary transmitters of FM broadcast stations in compliance with these rules:

(1) In case the auxiliary transmitter location is at a site different from that of the main transmitter, an approved frequency monitor shall be installed at the auxiliary transmitter except when the frequency of the auxiliary transmitter can be monitored by means of the frequency monitor at the main transmitter. When the auxiliary transmitter is operated without a frequency monitor under this exemption, it shall be monitored by means of the frequency monitor at the main transmitter.

(2) The licensee will be held strictly responsible for any center frequency deviation of the auxiliary transmitter in excess of 2,000 cycles from the assigned frequency, even though exempted by the above from installing an approved frequency monitor.

(3) Installation of an approved modulation monitor at the location of the auxiliary transmitter, when different from that of the main transmitter, is optional with the licensee. However, when it is necessary to operate the auxiliary transmitter beyond two calendar days, a modulation monitor shall be installed and operated at the auxiliary transmitter. The monitor (if taken from the main transmitter) shall be reinstalled at the main transmitter immediately upon resumption of operation of the main transmitter.

(4) In all cases where the auxiliary transmitter and the main transmitter have the same location, the same frequency and modulation monitors may be used for monitoring both transmitters, provided they are so arranged as to be readily switched from one transmitter to the other.

§ 3.331 *Requirements for type approval of frequency monitors.* (a) *General requirements.* In general a frequency monitor for FM broadcast stations requires a stable source of radio frequency energy whose frequency is accurately known and a means of comparing the transmitter center frequency with this stable source. The visual indicator is calibrated to indicate the deviation of the transmitter center frequency from the frequency assigned.

(1) Approval of a frequency monitor for FM broadcast stations will be considered on the basis of data submitted by the manufacturer. Any manufacturer desiring to submit a monitor for approval shall supply the Commission with full details (two sworn copies).

(2) In approving a frequency monitor based on these tests and specifications, the Commission merely recognizes that the type of monitor has the inherent capability of functioning in compliance with § 3.252, if properly constructed, maintained and operated. The Commission accepts no responsibility beyond this and further realizes that monitors may have a limited range over which the visual indicator will determine deviations. Accordingly, it may be necessary that adjunct equipment be used to determine major deviations.

(3) No change whatsoever will be permitted in the monitors sold under approval number issued by the Commission except when the licensee or the manufacturer is specifically authorized to make such changes. When it is desired to make any change, either mechanical or electrical, the details shall be submitted to the Commission for its consideration.

(4) Approval is given subject to withdrawal if the unit proves defective in service and cannot be relied upon under usual conditions of maintenance and operation encountered in the average FM broadcast station. Withdrawal of approval means that no further units may be installed by FM broadcast stations for the purpose of complying with § 3.252; however, this will not affect units already sold unless it is found that there has been an unauthorized change in design or construction or that the material or workmanship is defective.

(b) *General specifications.* The general specifications that frequency monitors shall meet before they will be approved by the Commission are as follows: (In connection with its type approval of FM equipment, the Commission may send a representative to observe tests made of such equipment by the manufacturer.)

(1) The unit shall have an accuracy of at least ±1000 cycles under ordinary conditions (temperature, humidity, power supply variations and other conditions which may affect its accuracy) encountered in FM broadcast stations throughout the United States, for any channel within the FM broadcast band.

(2) The range of the indicating device shall be at least from 2000 cycles below to 2000 cycles above the assigned center frequency.

(3) The scale of the indicating device shall be so calibrated as to be accurately read within at least 100 cycles.

(4) Means shall be provided for adjustment of the monitor indication to agree with an external standard.

(5) The monitor shall be capable of continuous operation and its circuit shall be such as to permit continuous monitoring of the transmitter center frequency.

(6) Operation of the monitor shall have no deleterious effect on the operation of the transmitter or the signal emitted therefrom.

(c) *Tests to be made for approval of FM broadcast frequency monitors.* The manufacturer of a monitor shall submit data on the following at the time of requesting approval:

(1) Constancy of oscillator frequency as measured several times in 1 month.

(2) Contancy of oscillator frequency when subjected to vibration tests which would correspond to the treatment received in shipping, handling and installing the instrument.

(3) Accuracy of readings of the frequency deviation instrument.

(4) Functioning of frequency adjustment device.

(5) Effects on frequency and readings, of the changing of tubes, of voltage variations, and of variations of room temperature through a range not to exceed 10° to 40° C.

(6) Response of indicating instrument to small changes of frequency.

(7) General information on the effect of tilting or tipping or other tests to determine ability of equipment to withstand shipment.

(d) Various other tests may be made or required, such as effects of variation of input from the transmitter depending upon the character of the apparatus.

(e) Tests shall be conducted in such a manner as to approximate actual operating conditions as nearly as possible. The equipment under test shall be operated on any channel in the FM broadcast band.

§ 3.332 *Requirements for type approval of modulation monitors.* (a) The modulation monitors may be a part of the frequency monitor. Approval of a modulation monitor for FM broadcast stations will be considered on the basis of data submitted by the manufacturer. Any manufacturer desiring to submit a monitor for approval shall supply the Commission with full details (two sworn copies).

(b) The specifications that the modulation monitor shall meet before it will be approved by the Commission are as follows: (In connection with its type approval of FM equipment, the Commission may send a representative to observe tests made of such equipment by the manufacturer.)

(1) A means for insuring that the transmitter input to the modulation monitor is proper.

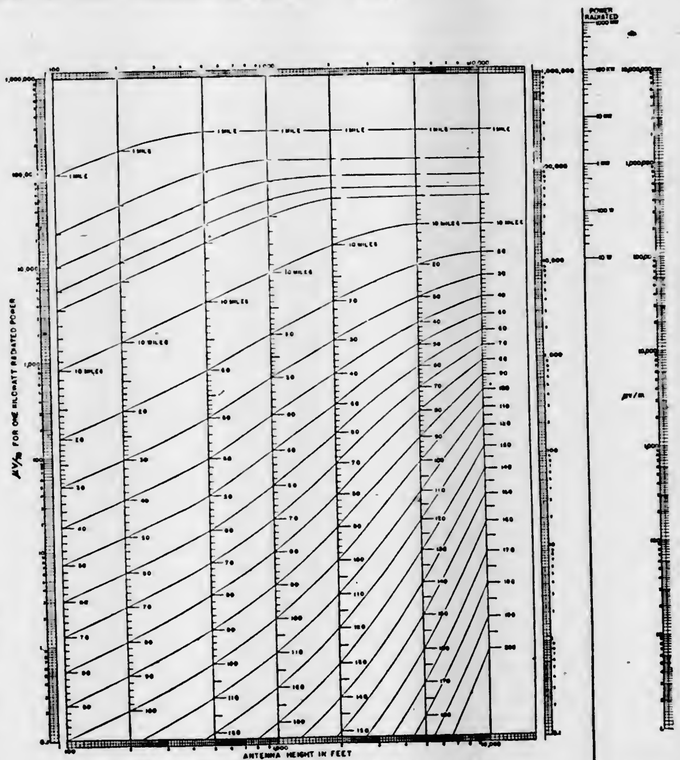
(2) A modulation peak indicating device that can be set at any predetermined value from 50 to 120 percent modulation (±75 kc swing is defined as 100 percent modulation) and for either positive or negative swings (i. e., either above or below transmitter center frequency).

(3) A semi-peak indicator with a meter having the characteristics given below shall be used with a circuit such that peaks of modulation of duration between 40 and 90 milliseconds are indicated to 90 percent of full value and the discharge rate adjusted so that the pointer returns from full reading to 10 percent of zero within 500 to 800 milliseconds. A switch shall be provided so that this meter will read either positive or negative swings.

(i) The characteristics of the indicating meter are: (*a*) *Speed.* The time for one complete oscillation of the pointer shall be 260 to 350 milliseconds. The damping factor shall be between 16 and 200. (*b*) *Scale.* The meter scale shall be similar in appearance to that of a standard VU meter. The scale length between 0 and 100 percent modulation markings should be at least 2.3 inches. In addition to other markings a small mark for 133 percent modulation and designated as such should be included for the purpose of testing transmitters with 100 kc swing.

(4) The accuracy of reading of percentage of modulation shall be within ±5 percent modulation percentage at any percentage of modulation up to 100 percent modulation.

(5) The frequency characteristic curve shall not depart from a straight line more than ±½ db. from 50 to 15,000 cycles. Distortion shall be kept to a minimum.



(6) The monitor shall not absorb appreciable power from the transmitter.

(7) Operation of the monitor shall have no deleterious effect on the operation of the transmitter.

(8) General design, construction, and operation shall be in accordance with good engineering practice.

§ 3.333 *Engineering charts.*

NOTE: Figures 1 and 2 as reproduced herein, due to their small scale, are not to be used in connection with material submitted to the F. C. C.

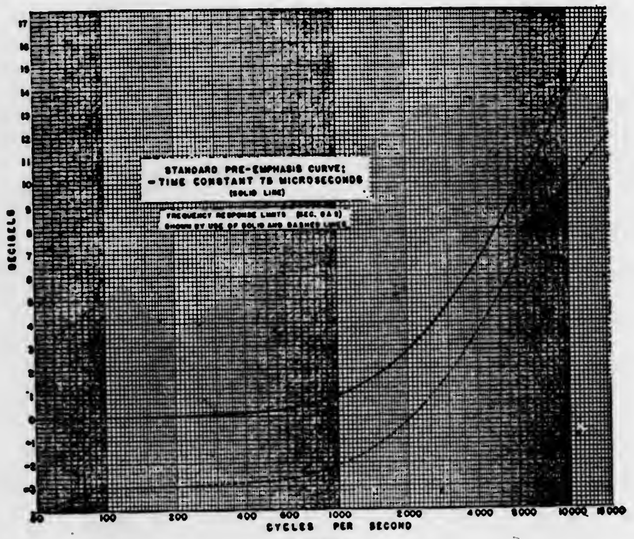

FIGURE 2.

SUBPART C—NONCOMMERCIAL EDUCATIONAL FM BROADCAST STATIONS

CLASSIFICATION OF STATIONS AND ALLOCATION OF FREQUENCIES

§ 3.501 *Channels available for assignment.* The channels available for noncommercial educational FM broadcasting are listed in the table below, together with numerical designations for convenience:

Frequency (Mc):	Channel No.	Frequency (Mc):	Channel No.
88.1	201	90.1	211
88.3	202	90.3	212
88.5	203	90.5	213
88.7	204	90.7	214
88.9	205	90.9	215
89.1	[1] 266	91.1	216
89.3	207	91.3	217
89.5	208	91.5	218
89.7	209	91.7	219
89.9	210	91.9	220

[1] The frequency 89.1 Mc., Channel No. 206 in the New York City metropolitan area is reserved for the use of the United Nations with the equivalent of an antenna height of 500 feet above average terrain and effective radiated power of 20 kw., and the Commission will make no assignments which would cause objectionable interference with such use.

§ 3.502 *State-wide plans.* In considering the assignment of a channel for a noncommercial educational FM broadcast station, the Commission will take into consideration the extent to which each application meets the requirements of any state-wide plan for noncommercial educational FM broadcast stations filed with the Commission, provided that such plans afford fair treatment to public and private educational institutions, urban and rural, at the primary, secondary, higher, and adult educational levels, and appear otherwise fair and equitable.

§ 3.503 *Licensing requirements and service.* The operation of, and the service furnished by noncommercial educational FM broadcast stations shall be governed by the following:

(a) A noncommercial educational FM broadcast station will be licensed only to a nonprofit educational organization and upon showing that the station will be used for the advancement of an educational program.

(1) In determining the eligibility of publicly supported educational organizations, the accreditation of their respective state departments of education shall be taken into consideration.

(2) In determining the eligibility of privately controlled educational organizations, the accreditation of state departments of education and/or recognized regional and national educational accrediting organizations shall be taken into consideration.

(b) Each station may transmit programs directed to specific schools in a system or systems for use in connection with the regular courses as well as routine and administrative material pertaining thereto and may transmit educational, cultural, and entertainment programs to the public.

(c) Each station shall furnish a nonprofit and noncommercial broadcast service. No sponsored or commercial program shall be transmitted nor shall commercial announcements of any character be made. A station shall not transmit the programs of other classes of broadcast stations unless all commercial announcements and commercial references in the continuity are eliminated.

§ 3.504 *Frequency, power and service area.* (a) In the assignment of frequency and power to a noncommercial educational FM broadcast station the Commission will consider with the application: (1) the area served by applicant's existing educational facilities; and (2) the provisions of any statewide plan on file with the Commission which meets the requirements of § 3.502. A station licensed for transmitter power output of 10 watts or less normally will be licensed to operate on the frequency 88.1 megacycles; however, should it appear that operation on this frequency would cause objectionable interference, such station may be licensed to operate on the next higher frequency that would not cause objectionable interference.

(b) The license of each noncommercial educational FM broadcast station licensed for transmitter power output of 10 watts or less shall specify the maximum authorized operating power output of the transmitter. The license of each noncommercial educational FM broadcast station licensed for transmitter power output above 10 watts shall specify the authorized effective radiated power of the station and the authorized operating power output of the transmitter.

(c) Each application for a new noncommercial educational FM broadcast station or increase in facilities of an existing station which proposes transmitter power output above 10 watts shall contain a determination of the antenna height above average terrain and the extent of the 1 mv/m and 50 uv/m contours of the proposed station by the methods prescribed in the FM Technical Standards in Subpart B of this part.

§ 3.505 *Standards of good engineering practice.* The definitions and interference standards contained in the FM Technical Standards in Subpart B of this part shall be applicable to noncommercial educational FM broadcast stations. Other portions of such Standards shall be applicable to the extent specifically prescribed by this part.

ADMINISTRATIVE PROCEDURE

§ 3.511 *Application for noncommercial educational FM broadcast stations.* Each applicant for a construction permit for a new noncommercial educational FM broadcast station, change in facilities of any existing noncommercial educational FM broadcast station, or noncommercial educational FM broadcast station license or modification of license shall file with the Commission in Washington, D. C., two copies of applications and a like number of exhibits and other papers incorporated therein and made a part thereof. Only the original copy need be sworn to. If the application is for authority to construct or make changes in a noncommercial educational FM broadcast station, FCC Form 340 should be filed; for a noncommercial educational FM license, FCC Form 341 should be filed.

§ 3.512 *Full disclosures.* Each application shall contain full and complete disclosures with regard to all matters and things required to be disclosed by the application forms.

§ 3.513 *Installation of apparatus.* Applications for construction permits or modification thereof involving the installation of new transmitting apparatus

should be filed at least 60 days prior to the contemplated installation.

§ 3.514 *Period of construction.* Each construction permit will specify a maximum of 8 months from the date of granting thereof as the time within which construction of the station shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case. Each construction permit shall bear the date of the Commission's action authorizing the issuance of the construction permit. Where a conditional grant is ordered, the construction permit shall be dated as of the time when all conditions have been satisfied.

§ 3.515 *Forfeiture of construction permits; extension of time.* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) Any application for extension of time (FCC Form 701) within which to construct a station shall be filed at least 30 days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

(c) If a construction permit has been allowed to expire for any reason, application may be made for a new permit on FCC Form 321 "Application for a Construction Permit to Replace Expired Permit".

§ 3.516 *Equipment tests.* (a) During the process of construction of a noncommercial educational FM broadcast station, the permittee, after notifying the Commission and Engineer in Charge of the radio district in which the station is located, may without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations, and the applicable engineering standards.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Equipment tests may be continued so long as the construction permit shall remain valid.

(d) Inspection of a station will ordinarily be required during the equipment test period and before the commencement of the program test. After construction and after adjustments and measurements have been completed to show compliance with the terms of the construction permit, the technical provisions of the application therefor, the rules and regulations and the applicable engineering standards, the permittee should notify the Engineer in Charge of the radio district in which the station is located that it is ready for inspection.

(e) The authorization for tests embodied in this section shall not be construed as constituting a license to operate but as a necessary part of construction.

§ 3.517 *Program tests.* (a) Upon completion of construction of a noncommercial educational FM broadcast station in accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations and applicable engineering standards, and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee may request authority to conduct program tests: *Provided,* That such request shall be filed with the Commission at least ten (10) days prior to the date on which it is desired to begin such operation and that the Engineer in Charge of the radio district in which the station is located is notified. (All data necessary to show compliance with the terms and conditions of the construction permit must be filed with the license application.)

(b) Program tests shall not commence until specific Commission authority is received. The Commission reserves the right to change the date of the beginning of such tests, or to suspend or revoke the authority for program tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked program test authority continues valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) All operation under program test authority shall be in strict compliance with the rules governing noncommercial educational FM broadcast stations and in strict accordance with representations made in the application for license pursuant to which the tests were authorized.

(e) The grant of program test authority shall not be construed as approval by the Commission of the application for station license.

§ 3.518 *Normal license period.* (a) All noncommercial educational FM broadcast station licenses will be issued for a normal license period of three years. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t., in accordance with the following schedule and at three-year intervals thereafter.

(1) For stations located in Delaware and Pennsylvania, August 1, 1957.

(2) For stations located in Maryland, District of Columbia, Virginia, West Virginia, October 1, 1957.

(3) For stations located in North Carolina, South Carolina, December 1, 1957.

(4) For stations located in Florida, Puerto Rico, and Virgin Islands, February 1, 1958.

(5) For stations located in Alabama and Georgia, April 1, 1958.

(6) For stations located in Arkansas, Louisiana, and Mississippi, June 1, 1958.

(7) For stations located in Tennessee, Kentucky, and Indiana, August 1, 1958.

(8) For stations located in Ohio and Michigan, October 1, 1958.

(9) For stations located in Illinois and Wisconsin, December 1, 1958.

(10) For stations located in Iowa and Missouri, February 1, 1956.

(11) For stations located in Minnesota, North Dakota, South Dakota, Montana, and Colorado, April 1, 1956.

(12) For stations located in Kansas, Oklahoma, Nebraska, June 1, 1956.

(13) For stations located in Texas, August 1, 1956.

(14) For stations located in Wyoming, Nevada, Arizona, Utah, New Mexico, and Idaho, October 1, 1956.

(15) For stations located in California, December 1, 1956.

(16) For stations located in Washington, Oregon, Alaska, and Hawaii, February 1, 1957.

(17) For stations located in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, and Vermont, April 1, 1957.

(18) For stations located in New Jersey and New York, June 1, 1957.

NOTE: Renewals of licenses will be granted for the period specified in the rule: *Provided, however,* That if as a result of the transition from the previous schedule to the above schedule the period for which a license is renewed is 6 months or less, the licensee may within the period 60 days to 30 days before the expiration date of such renewed license file, in lieu of renewal application (FCC Form 342), a written application under oath for the next renewal of license which shall consist of (1) a request that its license be renewed; (2) a statement that no substantial changes have been made in its operations or in its plans for future operations since its last renewal application, or if changes have been made or proposed, a statement specifying such changes; and (3) a statement that the applicant waives any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise. Upon review of such statements the Commission may grant a renewal of license for the full period provided for in the rule; or if the Commission requires additional information, it may require the filing of renewal application (FCC Form 342).

§ 3.519 *License, simultaneous modification and renewal.* When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license

shall be issued to conform to the combined action of the Commission.

§ 3.520 *Renewal of license.* (a) Unless otherwise directed by the Commission, each application for renewal of a noncommercial educational FM broadcast station license shall be filed at least 90 days prior to the expiration date of the license sought to be renewed (FCC Form 342).

§ 3.521 [Reserved.]

§ 3.522 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new noncommercial educational FM broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until after the final disposition of such appeal.

§ 3.523 *Assignment or transfer of control.* (a) Application for consent to assignment of a noncommercial educational FM construction permit or license or for consent to voluntary transfer of control of a corporation holding a noncommercial education FM construction permit or license shall be filed with the Commission on FCC Form 314 (Assignment of License), FCC Form 315 (Transfer of Control) or FCC Form 316 (Short Form) at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) *Pro forma* assignment or transfer applications shall be filed on FCC Form 316. Such cases are defined as cases in which:

(1) There is an assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;

(2) There is an assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;

(3) There is an assignment or transfer by which certain partners or stockholders retire but no new ones are brought in, provided that the interest transferred is not a controlling one;

(4) There is a corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;

(5) There is an involuntary transfer to an Executor, Administrator or other court appointed officer caused by death or legal disability except that this form does not cover assignments (or transfers) from the Executor, Administrator or other court appointed officers to the ultimate beneficiary;

(6) There is an assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests.

(7) There is an assignment of less than a controlling interest in a partnership.

EQUIPMENT

§ 3.550 *Acceptability of broadcast transmitters for licensing.* (a) In order to facilitate the filing of, and action on, applications for station authorizations, transmitters will be accepted for licensing by the Commission under one of the following conditions:

(1) A transmitter may be type-accepted upon the request of any manufacturer of transmitters built in quantity by following the type acceptance procedure set forth in Part 2 of this chapter, provided that the data and information submitted indicates that the transmitter meets the requirements of § 3.317. If accepted, such transmitter will be included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Applicants specifying transmitters included on such a list need not submit detailed descriptions and diagrams where the correct type number is specified, provided that the equipment proposed is identical with that accepted. Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(2) An application specifying a transmitter not included on the Radio Equipment List, Part B, may be accepted upon the request of a prospective licensee submitting with the application for construction permit a complete description of the transmitter, including the circuit diagram, listing of all tubes used, function of each, multiplication in each stage, plate current and voltage applied to each tube, a description of the oscillator circuit together with any devices installed for the purpose of frequency stabilization and the means of varying output power to compensate for power supply voltage variations. However, if this data has been filed with the Commission by a manufacturer in connection with a request for type acceptance, it need not be submitted with the application for construction permit but may be referred to as "on file". Measurement data for type acceptance made in accordance with subparagraph (1) of this paragraph shall be submitted with the license application.

(3) A transmitter shown on an instrument of authorization by manufacturer and type number, or as a composite, and which was in use prior to June 30, 1955 may continue to be used by the licensee, his successors or assignees, provided such transmitter continues to comply with the rules and regulations.

(b) Additional rules with respect to withdrawal of type-acceptance, modification of type-accepted equipment and limitations on the findings upon which type acceptance is based are set forth in Part 2 of this chapter.

§ 3.551 *Transmitter power.* (a) The standard power rating of the transmitter of a noncommercial educational FM broadcast station licensed for transmitter power output above 10 watts shall be in accordance with § 3.317.

(b) The standard power rating of the transmitter of a noncommercial educational FM broadcast station licensed for transmitter power output of 10 watts or less shall be not less than the authorized operating power and not more than 10 watts.

§ 3.552 *Frequency monitor.* (a) The licensee of each station licensed for transmitter power output above 10 watts shall have in operation, either at the transmitter or at the place where the transmitter is controlled, a frequency monitor of a type approved by the Commission which shall be independent of the frequency control of the transmitter.

NOTE: Approved frequency monitors are included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event that the frequency monitor becomes defective the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the monitor was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the monitor is found to be defective and immediately after the repaired or replacement instrument has been installed and is functioning properly.

(3) The frequency of the station shall be compared with an external frequency source of known accuracy at sufficiently frequent intervals to insure that the frequency is maintained within the tolerance prescribed in § 3.568. An entry shall be made in the station log as to the method used and the results thereof.

(c) If conditions beyond the control of the licensee prevent the restoration of the monitor to service within the above-allowed period, informal request may be filed in accordance with § 1.332 (d) of this chapter with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

(d) The licensee of each non-commercial educational FM broadcast station licensed for transmitter power output of 10 watts or less shall provide for the measurement of the station frequency by a means independent of the frequency control of the transmitter. The station frequency shall be measured (1) when the transmitter is initially installed, (2) at any time the frequency determining elements are changed, and (3) at any time the licensee may have reason to believe the frequency has shifted beyond the tolerance specified by the Commission's rules.

§ 3.553 *Modulation monitor.* (a) The licensee of each station licensed for transmitter power output above 10 watts shall have in operation, either at the transmitter or at the place where the transmitter is controlled, a modulation monitor of a type approved by the Commission.

NOTE: Approved modulation monitors are included on the Commission's "Radio Equipment List, Part B, Aural Broadcast Equipment". Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event that the modulation monitor becomes defective the station may be operated without the monitor pending its repair or replacement for a period not in excess of 60 days: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the monitor was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the monitor is found to be defective and immediately after the repaired or replacement monitor has been installed and is functioning properly.

(3) During the period when the station is operated without the modulation monitor the licensee shall provide other suitable means for insuring that the modulation is maintained within the tolerance prescribed in § 3.568.

(c) If conditions beyond the control of the licensee prevent the restoration of the monitor to service within the above allowed period, informal request may be filed in accordance with § 1.332 (d) of this chapter with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

(d) The licensee of each non-commercial educational FM broadcast station licensed for transmitter power output of 10 watts or less shall provide a percentage modulation indicator or a calibrated program level meter from which a satisfactory indication of the percentage of modulation of the transmitter can be determined.

§ 3.554 *Transmitter performance.* (a) The transmitter proper and associated transmitting equipment of each noncommercial educational FM broadcast station licensed for transmitter power output above 10 watts shall be designed, constructed and operated in accordance with § 3.317.

(b) The transmitter proper and associated transmitting equipment of each noncommercial educational FM broadcast station licensed for transmitter power output of 10 watts or less, although not required to meet all requirements of § 3.317 shall be constructed with safety features in accordance with the specifications of article 810 of the current National Electrical Code as approved by the American Standards Association and shall be so operated, tuned, and adjusted that emissions are not radiated outside the authorized band which cause or which are capable of causing interference to the communications of other stations. The audio distortion, audio frequency range, carrier hum, noise level, and other essential phases of the operation which control the external effects, shall at all times be capable of providing satisfactory broadcast service. Studio equipment properly covered by an underwriter's certificate will be considered as satisfying safety requirements.

§ 3.555 *Auxiliary transmitter.* Upon showing that a need exists for the use of an auxiliary transmitter in addition to the regular transmitter of a broadcast station, a license therefor may be issued: *Provided,* That:

(a) An auxiliary transmitter may be installed either at the same location as the main transmitter or at another location.

(b) A licensed operator shall be in control whenever an auxiliary transmitter is placed in operation.

(c) The auxiliary transmitter shall be maintained so that it may be placed into immediate operation at any time for the following purposes:

(1) The transmission of the regular programs upon the failure of the main transmitter.

(2) The transmission of regular programs during maintenance or modification work on the main transmitter, necessitating discontinuance of its operation for a period not to exceed 5 days. (This includes the equipment changes which may be made without authority as set forth elsewhere in the rules and regulations or as authorized by the Commission by letter or by construction permit. Where such operation is required for periods in excess of 5 days, request therefor shall be in accordance with § 1.324 of this chapter.)

(3) Upon request by a duly authorized representative of the Commission.

(d) The auxiliary transmitter shall be tested at least once each week to determine that it is in proper operating condition and that it is adjusted to the proper frequency, except that in case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) is satisfactory. A record shall be kept of the time and result of each test. Such records shall be retained for a period of two years.

(e) The auxiliary transmitter shall be equipped with satisfactory control equipment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by the regulations in this part.

(f) The operating power of an auxiliary transmitter may be less than the authorized power of the main transmitter, but in no event shall it be greater than such power.

§ 3.556 *Alternate main transmitters.* The licensee of a noncommercial educational FM broadcast station may be licensed for alternate main transmitters provided that a technical need for such alternate transmitters is shown (such as licensees maintaining 24-hour schedule and needing alternate operation for maintenance, or where developmental work requires alternate operation) and that the following conditions are met:

(a) Both transmitters are located at the same place.

(b) Both transmitters shall have the same power rating.

(c) Both transmitters shall meet the requirements of § 3.554.

§ 3.557 *Changes in equipment and antenna system.* Licenses of noncommercial educational FM broadcast stations shall observe the following provisions with regard to changes in equipment and antenna system:

(a) No changes in equipment shall be made:

(1) That would result in the emission of signals outside of the authorized channel.

(2) That would result in the external performance of the transmitter being in disagreement with § 3.554.

(b) Specific authority, upon filing formal application (FCC Form 340) therefor, is required for a change in service area or for any of the following changes:

(1) Changes involving an increase or decrease in the power rating of the transmitter.

(2) A replacement of the transmitter as a whole.

(3) Change in the location of the transmitting antenna.

(4) Change in antenna system, including transmission line.

(5) Change in location of main studio, if it is proposed to move the main studio to a different city from that specified in the license.

(6) Change in the power delivered to the antenna.

(7) Change in frequency control and/or modulation system.

(8) Change in the authorized transmitter remote control point(s).

(c) Other changes, except as above provided for in this section, may be made at any time without the authority of the Commission, provided that the Commission shall be promptly notified thereof and such changes shall be shown in the next application for renewal of license.

§ 3.558 *Indicating instruments.* (a) Each noncommercial FM broadcast station licensed for transmitter power above 10 watts shall be equipped with indicating instruments, which conform with the specifications set forth in § 3.320 for measuring the direct plate voltage and current of the last radio stage and the transmission line radio frequency current, voltage, or power.

(b) In the event that any one of these indicating instruments becomes defective when no substitute which conforms with the required specifications is available, the station may be operated without the defective instrument pending its repair or replacement for a period not in excess of 60 days: *Provided,* That:

(1) Appropriate entries shall be made in the operating log of the station showing the date and time the meter was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the instrument is found to be defective and immediately after the repaired or replaced instrument has been installed and functioning properly.

(3) If the defective instrument is a plate voltmeter or plate ammeter in the last radio stage, the operating power shall be maintained by means of the radio frequency transmission line meter.

(c) If conditions beyond the control of the licensee prevent the restoration of the meter to service within the above allowed period, informal request may be filed in accordance with § 1.332 (d) of this chapter with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

TECHNICAL OPERATION

§ 3.561 *Operating schedule.* Noncommercial educational FM broadcast stations are not required to operate on a regular schedule and no minimum number of hours of operation is specified; but the hours of actual operation during a license period shall be taken into consideration in considering the renewal of noncommercial educational FM broadcast licenses wherever it appears that the channels available for such stations are insufficient to meet the demand.

§ 3.562 *Experimental operation.* The period between 1:00 a. m., and 6:00 a. m., local standard time, may be used for experimental purposes in testing and maintaining apparatus by the licensee of any noncommercial educational FM broadcast station on its assigned frequency and not in excess of its authorized power, without specific authorization from the Commission.

§ 3.563 *Station inspection.* The licensee of any noncommercial educational FM broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 3.564 *Station and operator licenses; posting of.* (a) The station license and any other instrument of station authorization shall be posted in a conspicuous place and in such manner that all terms are visible, at the place the licensee considers to be the principal control point of the transmitter. At all other control points listed on the station authorization, a photocopy of the station license and other instruments of station authorization shall be posted.

(b) The original operator license, or FCC Form 759, of each station operator shall be posted at the place where he is on duty as an operator.

§ 3.565 *Operator requirements.* (a) One or more radio operators holding a valid radiotelephone first-class operator license, except as provided in this section, shall be in actual charge of the transmitting apparatus and shall be on duty either at the transmitter location or remote control point.

(b) A station which is authorized with transmitter power output of 10 kilowatts or less may be operated by persons holding commercial radio operator license of any class, except an aircraft radiotelephone operator authorization or a temporary limited radiotelegraph second-class operator license, when the equipment is so designed that the stability of the frequency is maintained by the transmitter itself within the limits of tolerance specified, and none of the operations, except those specified in subparagraphs (1), (2) and (3) of this paragraph, necessary to be performed during the course of normal operation may cause off-frequency operation or result in any unauthorized radiation. Adjustments of transmitting equipment by such operators, except when under the immediate supervision of radiotelephone first-class operator, shall be limited to the following:

(1) Those necessary to commence or terminate transmitter emissions as a routine matter.

(2) Those external adjustments that may be required as a result of variations of primary power supply.

(3) Those external adjustments which may be necessary to insure modulation within the limits required.

Should the transmitting apparatus be observed to be operating in a manner inconsistent with the station's instrument of authorization and none of the above adjustments are effective in bringing into proper operation, a person holding other than a radiotelephone first-class operator license and not acting under the immediate supervision of a radiotelephone first-class operator, shall be required to terminate the station's emissions.

(c) The licensee of a station which is operated by one or more operators holding other than a radiotelephone first-class operator license shall have one or more operators holding a radiotelephone first-class operator license in regular full-time employment at the station, whose primary duties shall be to effect and insure the proper functioning of the transmitting equipment. In the event that the licensee also operates a standard broadcast station in the same community, a regular full-time radiotelephone first-class operator or operators employed in connection with the FM broadcast station may concurrently be employed to satisfy the requirements of § 3.93 (c): *Provided*, That the duties of such operator or operators concerning the standard broadcast transmitting equipment shall in nowise interfere with the proper performance of his duties with respect to the FM broadcast transmitter: Except, that (1) if the transmitter power output is in excess of 10 watts but not greater than 1 kw, an operator holding radiotelephone second-class operator license may be on duty and perform the functions required of the radiotelephone first-class operator, or (2) if the transmitter power output is 10 watts or less, a radiotelephone second-class or radiotelegraph first- or second-class operator may be on duty and perform the functions of the radiotelephone first-class operator but need not be in regular full-time employment at the station.

(d) The licensed operator on duty and in charge of a non-commercial educational FM broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another radio station or stations in accordance with the class of operator's license which he holds and the rules and regulations governing such other stations: *Provided, however*, That such duties shall in nowise interfere with the proper operation of the FM broadcast transmitter.

§ 3.566 *Facsimile broadcasting and multiplex transmission.* (a) Noncommercial educational FM broadcast stations may transmit simplex facsimile in accordance with transmission standards set forth in § 3.318 during periods not devoted to FM aural broadcasting. Such transmissions may not exceed one hour during the period between 7 a. m. and midnight (no limit is placed upon the hours between midnight and 7 a. m.). The Commission shall be notified by the licensee of the noncommercial educational FM broadcast station of its intent to transmit such facsimile.

(b) Noncommercial educational FM broadcast stations may, upon securing authorization from the Commission, transmit multiplex facsimile in accordance with transmission standards set forth in § 3.318: *Provided*, That the transmission of such facsimile does not reduce the quality of the aural program simultaneously transmitted by the licensee below that required by the FM Technical Standards in Subpart B of this part and that no degradation of such aural programs will result from such facsimile transmissions when received on FM receivers not equipped with filters or other additional equipment.

§ 3.567 *Operating power; determination and maintenance of.* (a) The operating power of each station shall be determined by the indirect method. This is the product of the plate voltage (E_p) and the plate current (I_p) of the last radio stage, and an efficiency factor, F; that is:

$$\text{Operating power} = E_p \times I_p \times F$$

The efficiency factor, F, shall be established by the transmitter manufacturer for each type of transmitter for which Commission approval is requested, and shall be specified in the instruction books supplied to the customer with each transmitter. In the case of composite equipment the factor, F, shall be furnished to the Commission along with a statement of the basis used in determining such factor.

(b) The operating power of each station licensed for transmitter power output above 10 watts shall be maintained as near as practicable to the authorized power, and shall not exceed the limits of 5 percent above and 10 percent below the authorized power, except that in an emergency when it becomes impossible to operate with the authorized power, the station may be operated with reduced power for a period not to exceed 10 days provided the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified immediately after the emergency develops and also upon the resumption of normal operating power. With respect to each station licensed for transmitter power output of 10 watts or less, the power at which the station is operated may be less than the licensed power, but shall in no event be more than 5 percent above the licensed power. The transmitter of each station shall be so maintained as to be capable of operation at a maximum licensed power.

§ 3.568 *Modulation.* The percentage of modulation of all stations shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice and in no case less than 85 percent or more than 100 percent on peaks of frequent recurrence during any selection which normally is transmitted at the highest level of the program under consideration.

§ 3.569 *Frequency tolerance.* (a) The center frequency of each noncommercial educational FM broadcast station licensed for transmitter power output of 10 watts or less shall be maintained within 3,000 cycles of the assigned center frequency.

(b) The center frequency of each noncommercial educational FM broadcast station licensed for transmitter power output above 10 watts shall be maintained within 2,000 cycles of the assigned center frequency.

§ 3.570 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.571 *Discontinuance of operation.* The licensee of each station shall notify the Commission in Washington, D. C., and the Engineer in Charge of the radio district in which the station is located of permanent discontinuance of operation at least two days before operation is discontinued. The licensee shall, in addition, immediately forward the station license and other instruments of authorization to the Washington, D. C., office of the Commission for cancellation.

§ 3.572 *Remote control operation.* A station which is authorized with transmitter power output of 10 kilowatts or less may, upon prior authorization from the Commission, be operated by remote control at the point(s) which shall be specified in the station license. An application for authorization to operate by remote control may be made as a part of an application for construction permit or license or modification thereof by specifying the proposed remote control point(s). Operation by remote control shall be subject to the following conditions:

(a) The equipment at the operating and transmitting positions shall be so installed and protected that it is not accessible to or capable of operation by persons other than those duly authorized by the licensee.

(b) The control circuits from the operating position to the transmitter shall provide positive on and off control and shall be such that open circuits, short circuits, grounds or other line faults will not actuate the transmitter and any fault causing loss of such control will automatically place the transmitter in an inoperative condition.

(c) Control and monitoring equipment shall be installed so as to allow the licensed operator either at the remote control point or at the transmitter to perform all of the functions in a manner required by the Commission's rules and Standards: Except, that in the case of a station licensed for a transmitter output power of 10 watts or less the monitoring equipment shall be installed at the remote control point so as to continuously monitor the actual FM carrier and audibly indicate the nature and quality of the program being broadcast.

OTHER OPERATING REQUIREMENTS

§ 3.581 *Logs.* The licensee or permittee of each noncommercial educational FM broadcast station shall maintain program and operating logs and shall require entries to be made as follows:

(a) In the program log:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof, with the time of the beginning and ending of the complete program. If a mechanical record is used, the entry shall show the exact nature thereof, such as "record," "transcription," etc., and the time it is announced. If the program is of network origin, its source shall be indicated. If the broadcast is under the auspices of an institution or organization other than the licensee, its name shall be noted.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time it stops.

(2) An entry of the time the program service begins and ends.

(3) An entry of each interruption to the carrier wave, its cause and duration.

(4) For each station licensed for transmitter power output above 10 watts, an entry of the following each 30 minutes:

(i) Operating constants of last radio stage (total plate current and plate voltage).

(ii) Radio frequency transmission line meter reading.

(iii) Frequency monitor reading.

(5) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

(c) Where an antenna structure(s) is required to be illuminated see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.582 *Logs; retention of.* Logs of noncommercial, educational FM broadcast stations shall be retained by the licensee or permittee for a period of two years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

§ 3.583 *Logs; by whom kept.* Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commission.

§ 3.584 *Log form.* The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

§ 3.585 *Correction of logs.* No log or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

§ 3.586 *Rough logs.* Rough logs may be transcribed into condensed form, but in such case the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.587 *Station identification.* (a) A licensee of a noncommercial educational FM broadcast station shall make at least the following station identification announcements (call letters and location): (1) at the beginning and ending of each time of operation; and (2) within 2 minutes of each hour and each half hour during operation: *Provided,*

(b) Such identification announcement need not be made on the hour or half hour when to make such announcement would interrupt a single continuous program of longer duration than 30 minutes. In such cases the identification announcement shall be made at the beginning of the program, at the first interruption of the continuity, and at the conclusion of the program.

(c) In making the identification announcement, the call letters shall be

given only on the channel of the station identified thereby.

§ 3.588 *Mechanical records.* Each program broadcast, except when designed specifically for in-school listening, which consists in whole or in part of one or more mechanical reproductions shall be announced in the manner and to the extent set out below.

(a) Each such program of longer duration than 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by appropriate announcement at the beginning of the program, at each 30-minute interval and at the conclusion of the program: *Provided, however,* That the identifying announcement at each 30-minute interval is not required in case of a mechanical reproduction consisting of a continuous uninterrupted speech, play, religious service, symphony concert, or operatic production of longer than 30 minutes.

(b) Each such program of a longer duration than 5 minutes and not in excess of 30 minutes, consisting in whole or in part of one or more mechanical reproductions, shall be identified by an appropriate announcement at the beginning and end of the program.

(c) Each such program of 5 minutes or less, consisting in whole or in part of mechanical reproductions, shall be identified by appropriate announcement immediately preceding the use thereof: *Provided, however,* That each such program of one minute or less need not be announced as such.

(d) In case a mechanical reproduction is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of the sponsorship of the program proper, no announcement of the mechanical reproduction is required.

(e) The exact form of identifying announcement is not prescribed, but the language shall be clear and in terms commonly used and understood. A licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

§ 3.589 [Reserved.]

§ 3.590 *Broadcasts by candidates for public office*—(a) *Definitions.* A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he may be voted for by the electorate directly or by means of delegates or electors, and who—

(1) Has qualified for a place on the ballot or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) *General requirements.* No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities: *Provided,* That such licensee shall have no power of censorship over the material broadcast by any such candidate.

(c) *Practices.* No licensee shall make any discrimination in practices, regulations, facilities, or services for or in connection with the service rendered pursuant to this part, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) *Records; inspection.* Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests. Such records shall be retained for a period of two years.

§ 3.591 *Rebroadcast.* (a) The term "rebroadcast" means reception by radio of the program of a radio station, and the simultaneous or subsequent retransmission of such program by a broadcast station. The broadcasting of a program relayed by a remote pick-up broadcast station or studio transmitter link is not considered a rebroadcast. In case a program is transmitted from its point of origin to a broadcast station entirely by telephone facilities in which a section of such transmission is by radio, the broadcasting of this program is not considered a rebroadcast.

NOTE: As used in this section, program includes any complete program or part thereof.

(b) The licensee of a noncommercial educational FM broadcast station may, without further authority of the Commission, rebroadcast the program of a United States standard, FM, noncommercial educational, or international broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.

NOTE 1: The notice and certification of consent shall be given within 3 days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

NOTE 2: See § 3.503 (c).

(c) No licensee of a noncommercial educational FM broadcast station shall rebroadcast the program of any United States radio station not designated in paragraph (b) of this section without written authority having first been obtained from the Commission upon application (informal) accompanied by written consent or certification of consent of the licensee of the station originating the program.

NOTE: By Order No. 82, dated and effective June 24, 1941, until further order of the Commission, § 3.591 (c) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for the express purpose by U. S. Government radio stations.

SUBPART D—[RESERVED]

SUBPART E—TELEVISION BROADCAST STATIONS

GENERAL

§ 3.601 *Scope of subpart.* This subpart contains the rules and regulations (including engineering standards) governing television broadcast stations, including noncommercial educational television broadcast stations, in the United States, its Territories and possessions.

§ 3.602 *Other pertinent rules.* Other pertinent provisions of the Commission's rules and regulations relating to the television broadcast service are included in the following parts of this chapter:

Part 1—Practice and procedure.
Part 2—Frequency allocations and radio treaty matters; general rules and regulations.
Part 4—Experimental and auxiliary broadcast services.
Part 17—Construction, marking, and lighting of antenna towers and/or their supporting structures.

§ 3.603 *Numerical designation of television channels.*

(a)

Channel No.	Frequency band (megacycles)	Channel No.	Frequency band megacycles)
2	54–60	43	644–650
3	60–66	44	650–656
4	66–72	45	656–662
5	76–82	46	662–668
6	82–88	47	668–674
7	174–180	48	674–680
8	180–186	49	680–686
9	186–192	50	686–692
10	192–198	51	692–698
11	198–204	52	698–704
12	204–210	53	704–710
13	210–216	54	710–716
14	470–476	55	716–722
15	476–482	56	722–728
16	482–488	57	728–734
17	488–494	58	734–740
18	494–500	59	740–746
19	500–506	60	746–752
20	506–512	61	752–758
21	512–518	62	758–764
22	518–524	63	764–770
23	524–530	64	770–776
24	530–536	65	776–782
25	536–542	66	782–788
26	542–548	67	788–794
27	548–554	68	794–800
28	554–560	69	800–806
29	560–566	70	806–812
30	566–572	71	812–818
31	572–578	72	818–824
32	578–584	73	824–830
33	584–590	74	830–836
34	590–596	75	836–842
35	596–602	76	842–848
36	602–608	77	848–854
37	608–614	78	854–860
38	614–620	79	860–866
39	620–626	80	866–872
40	626–632	81	872–878
41	632–638	82	878–884
42	638–644	83	884–890

(b) In the Territories of Alaska and Hawaii the frequency bands 76–82 Mc and 82–88 Mc are allocated for non-Broadcast use. These frequency bands (Channels 5 and 6) will not be assigned in the Territories of Alaska or Hawaii for use by television broadcast stations.

CHANNEL UTILIZATION

§ 3.606 *Table of assignments*—(a) *General.* The following table of assignments contains the channels assigned to the listed communities in the United States, its Territories, and possessions. Channels designated with an asterisk are assigned for use by noncommercial educational broadcast stations only. A station on a channel identified by a plus or minus mark is required to operate with its carrier frequencies offset 10 kc above or below, respectively, the normal carrier frequencies.

(b) *Table of assignments.*

§ 3.607 *Availability of channels.* (a) Subject to the provisions of paragraph (b) of this section, applications may be filed to construct television broadcast stations only on the channels assigned in the Table of Assignments (§ 3.606 (b)) and only in the communities listed therein. Applications which fail to comply with this requirement, whether or not accompanied by a petition to amend the table, will not be accepted for filing.

(b) A channel assigned to a community listed in the Table of Assignments is available upon application in any unlisted community which is located within 15 miles of the listed community. In addition, a channel assigned to a community listed in the Table of Assignments and not designated for use by noncommercial educational stations only, is available upon application in any other community within 15 miles thereof which, although listed in the Table, is assigned only a channel designated for use only by noncommercial educational stations. Where channels are assigned to two or more communities listed in combination in the Table of Assignments the provisions of this paragraph shall apply separately to each community so listed. The distance between communities shall be determined by the distance between the respective coordinates thereof as set forth in the publication of the United States Department of Commerce entitled "Air Line Distance Between Cities in the United States." (This publication may be purchased from the Government Printing Office, Washington, D. C.) If said publication does not contain the coordinates of either or both communities, the coordinates of the main post office in either or both of such communities shall be used. The method to be followed in making the measurements is set forth in § 3.611 (d).

§ 3.608 *International agreements.* Authorizations issued by the Commission for television broadcast facilities will be subject to the provisions of any agreements entered into by the United States with Canada and Mexico concerning television assignments and authorizations. Where, pursuant to such an agreement, timely objection is received from the foreign country involved to an authorization granted by the Commission, the Commission may, on its own motion, set aside such authorization pending consideration of such objection. Upon receipt of such objection, the Commission will notify the person to whom such authorization has been issued.

§ 3.609 *Zones.* (a) For the purpose of allocation and assignment, the United States is divided into three zones as follows:

(1) Zone I consists of that portion of the United States located within the confines of the following lines drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29½° and 45½°; North American datum): Beginning at the most easterly point on the State boundary line between North Carolina and Virginia; thence in a straight line to a point on the Virginia, West Virginia boundary line located at North Latitude 37° 49' and West Longitude 80° 12' 30"; thence westerly along the southern boundary lines of the States of West Virginia, Ohio, Indiana and Illinois to a point at the junction of the Illinois, Kentucky, and Missouri State boundary lines; thence northerly along the western boundary line of the State of Illinois to a point at the junction of the Illinois, Iowa, and Wisconsin State boundary lines; thence easterly along the northern State boundary line of Illinois to the 90th meridian; thence north along this meridian to the 43.5° parallel; thence east along this parallel to the 71st meridian; thence in a straight line to the intersection of the 69th meridian and the 45th parallel; thence east along the 45th parallel to the Atlantic Ocean. When any of the above lines pass through a city, the city shall be considered to be located in Zone I. (See Figure 1 of § 3.699.)

(2) Zone II consists of that portion of the United States which is not located in either Zone I or Zone III, and Puerto Rico, Alaska, Hawaiian Islands and the Virgin Islands.

(3) Zone III consists of that portion of the United States located south of a line, drawn on the United States Albers Equal Area Projection Map (based on standard parallels 29½° and 45½°; North American datum), beginning at a point on the east coast of Georgia and the 31st parallel and ending at the United States-Mexican border, consisting of arcs drawn with a 150 mile radius to the north from the following specified points:

	North latitude	West longitude
(a)	29°40'00"	83°24'00"
(b)	30°07'00"	84°12'00"
(c)	30°31'00"	86°30'00"
(d)	30°48'00"	87°58'30"
(e)	30°05'00"	90°38'30"
(f)	30°04'30"	93°19'00"
(g)	29°46'00"	95°05'00"
(h)	28°43'00"	96°30'30"
(i)	27°52'30"	97°32'00"

When any of the above arcs pass through a city, the city shall be considered to be located in Zone II. (See Figure 2 of § 3.699.)

§ 3.610 *Separations.* (a) The provisions of this section relate to assignment separations and station separations. Petitions to amend the Table of Assignments (§ 3.606 (b)) (other than those also expressly requesting amendment of this section or § 3.609) will be dismissed and all applications for new television broadcast stations or for changes in the transmitter sites of existing stations will not be accepted for filing if they fail to comply with the requirements specified in paragraphs (b), (c) and (d) of this section:

NOTE: Licensees and permittees of television broadcast stations which were operating on April 14, 1952 pursuant to one or more separations below those set forth in § 3.610 may continue to so operate, but in no event may they further reduce the separations below the minimum. As the existing separations of such stations are increased, the new separations will become the required minimum separations until separations are reached which comply with the requirements of § 3.610. Thereafter, the provisions of said section shall be applicable.

(b) Minimum co-channel assignment and station separations:

(1)

Zone	Channels 2–13	Channels 14–83
	Miles	*Miles*
I	170	155
II	190	175
III	220	205

(2) The minimum co-channel mileage separation between a station in one zone and a station in another zone shall be that of the zone requiring the lower separation.

(c) Minimum assignment and station adjacent channel separations applicable to all zones:

(1) Channels 2–13	Channels 14–83
60 miles	55 miles

(2) Due to the frequency spacing which exists between Channels 4 and 5, between Channels 6 and 7, and between Channels 13 and 14, the minimum adjacent channel separations specified above shall not be applicable to these pairs of channels (see § 3.603).

(d) In addition to the requirements of paragraphs (a), (b) and (c) of this section, the minimum assignment and station separations between stations on Channels 14–83, inclusive, as set forth in Table IV of § 3.698 must be met in either rule-making proceedings looking towards the amendment of the Table of Assignments (§ 3.606 (b)) or in licensing proceedings. No channel listed in column (1) of Table IV of § 3.698 will be assigned to any city, and no application for an authorization to operate on such a channel will be granted unless the mileage separations indicated at the top of columns (2)–(7), inclusive, are met with respect to each of the channels listed in those columns and parallel with the channel in column (1).

(e) The zone in which the transmitter of a television station is located or proposed to be located determines the applicable rules with respect to co-channel mileage separations where the transmitter is located in a different zone from that in which the channel to be employed is located.

§ 3.611 *Reference points and distance computations.* (a) In considering petitions to amend the Table of Assignments (§ 3.606 (b)), the following reference points shall be used by the Commission in determining assignment separations between communities:

(1) Where transmitter sites for the pertinent channels have been authorized in communities involved in a petition to amend the Table of Assignments, separations between such communities shall be determined by the distance between the coordinates of the authorized transmitter sites in the respective communities as set forth in the Commission's authorizations therefor.

(2) Where an authorized transmitter site is available for use as a reference point in one community but not in the other for the pertinent channels, separations shall be determined by the distance between the coordinates of the transmitter site as set forth in the Commission's authorization therefor and the coordinates of the other community as set forth in the publication of the United States Department of Commerce entitled "Air Line Distances Between Cities in the United States." If said publication does not contain the coordinates for said other community, the coordinates of the main post office thereof shall be used.

(3) Where no authorized transmitter sites are available for use as reference points in both communities for the pertinent channels, the distance between the two communities listed in the above publication shall be used. If said publication does not contain such distance, the separation between the two communities shall be determined by the distance between the coordinates thereof as set forth in said publication. Where such coordinates are not contained in said publication, the coordinates of the main post offices of said communities shall be used.

(b) Station separations in licensing proceedings shall be determined by the distance between the coordinates of the proposed transmitter site in one community and

(1) The coordinates of an authorized transmitter site for the pertinent channel in the other community; or, where such transmitter site is not available for use as a reference point,

(2) The coordinates of the other community as set forth in the above-described publication of the United States Department of Commerce; or, if not contained therein,

(3) The coordinates of the main post office of such other community.

(4) In addition, where there are pending applications in other communities which, if granted, would have to be considered in determining station separations, the coordinates of the transmitter sites proposed in such applications must be used to determine whether the requirements with respect to minimum separations between the proposed stations in the respective cities have been met.

(c) In measuring assignment and station separations involving cities listed in the Table in combination, where there is no authorized transmitter site in any of the combination cities on the channel involved, separation measurements shall be made from the reference point which will result in the lowest separation.

(d) The distance between reference points is considered to be the length of the hypotenuse of a right triangle, one side of which is the difference in latitude of the reference points and the other side the difference in longitude of the two reference points, and shall be computed as follows: (This method is appropriate for determining distances up to 220 miles, and for such distances will normally be more accurate than using spherical trigonometry without correction for the spheroidal shape of the earth. However, its accuracy deteriorates rapidly at distances beyond 300 miles and this method should not be used to compute greater distances.)

(1) Determine the difference in latitude and the difference in longitude between the two reference points. Convert these two differences into degrees and decimal parts of a degree in accordance with Table I of § 3.698.

(2) Determine the middle latitude of the two reference points to the nearest second of latitude (average the latitudes of the two points).

(3) Multiply the difference in latitude by the number of miles per degree of latitude difference obtained from Table II of § 3.698 for the appropriate middle latitude (interpolate linearly). This determines the North-South distance in statute miles.

NOTE: In determining necessary distance computations for the Territories, the appropriate mileage per degree may be obtained by linear interpolation of the data given on pages 122 and 123 of the tables in publication H. O. No. 9 (Bowditch-American Practical Navigator—1943 Edition) of the U. S. Navy Dept., Hydrographic Office. This publication may be purchased from the Government Printing Office, Washington, D. C.

(4) Multiply the difference in longitude by the number of miles per degree of longitude difference obtained from Table III of § 3.698, for the appropriate middle latitude (interpolate linearly). This determines the East-West distance in statute miles.

(5) Determine the distance between the two reference points by the square root of the sum of the squares of the distances obtained in subparagraphs (3) and (4) of this paragraph, i. e.

$$D=(L_a^2+L_o^2)^{1/2}$$

where:

D = Distance in statute miles
L_a = North-South distance in miles from (3) above
L_o = East-West distance in miles from (4) above

In computing the above, sufficient decimal figures shall be used to determine the distance to the nearest mile.

§ 3.612 *Protection from interference.* Permittees and licensees of television broadcast stations are not protected from any interference which may be caused by the grant of a new station or of authority to modify the facilities of an existing station in accordance with the provisions of this subpart. The nature and extent of the protection from interference accorded to television broadcast stations is limited solely to the protection which results from the minimum assignment and station separation requirements and the rules with respect to maximum powers and antenna heights set forth in this subpart.

NOTE: The nature and extent of the protection from interference accorded to television broadcast stations which were authorized prior to April 14, 1952, and which were operating on said date is limited not only as specified above but is further limited by any smaller separations existing between such stations on said date. Where, as a result of the adoption of the Table of Assignments, or of changes in transmitter sites made by such stations after said date, separations smaller than the required minimum are increased but still remain lower than the required minimum, protection accorded such stations will be limited to the new separations.

§ 3.613 *Main studio location.* (a) The main studio of a television broadcast station shall be located in the principal community to be served. Where the principal community to be served is a city, town, village or other political subdivision, the main studio shall be located within the corporate boundaries of such city, town, village or other political sub-

division. Where the principal community to be served does not have specifically defined political boundaries, applications will be considered on a case-to-case basis in the light of the particular facts involved to determine whether the main studio is located within the principal community to be served.

(b) In cases where an adequate showing is made that there is good cause for locating a main studio outside the principal community to be served and that to do so would not be inconsistent with the operation of the station in the public interest, the Commission will permit the use of a main studio location other than that specified in paragraph (a) of this section. The licensee or permittee of a television broadcast station shall not move his main studio outside the principal community in which it is located without first securing a modification of construction permit or license. Such licensee or permittee shall notify the Commission promptly of any change of the location of the main studio within the community. In any case where the main studio is located outside the principal community to be served, the licensee or permittee of a television broadcast station shall not move his main studio without first securing a modification of construction permit or license.

§ 3.614 *Power and antenna height requirements*—(a) *Minimum requirements.* Applications will not be accepted for filing if they specify less than —10 dbk (100 watts) visual effective radiated power in any horizontal direction. No minimum antenna height above average terrain is specified.

(b) *Maximum power.* Applications will not be accepted for filing if they specify a power in excess of that provided for in this paragraph. Except as provided in subparagraph (1) of this paragraph, the maximum effective radiated powers of television broadcast stations operating on the channels set forth below with antenna heights not in excess of 2,000 feet above average terrain shall be as follows:

Channel Nos.	Maximum visual effective radiated power in db, above one kilowatt (dbk.)
2–6	20 dbk. (100 kw.).
7–13	25 dbk. (316 kw.).
14–83	30 dbk. (1000 kw.).

(1) In Zone I, on Channels 2–13, inclusive, the maximum powers specified above for these channels may be used only with antenna heights not in excess of 1,000 feet above average terrain. Where antenna heights exceeding 1,000 feet above average terrain are used on Channels 2–13, or antenna heights exceeding 2,000 feet above average terrain are used on Channels 14–83, the maximum power shall be based on the chart designated as Figure 3 of § 3.699.

(2) In Zones II and III, the maximum powers which may be used by television broadcast stations operating on the respective channels set forth in the above table with antenna heights exceeding 2,000 feet above average terrain shall be based on the chart designated as Figure 4 of § 3.699.

(3) The effective radiated power in any horizontal or vertical direction may not exceed the maximum values permitted by this section and Figures 3 and 4 of § 3.699.

(4) The maximum effective radiated power in any direction above the horizontal plane shall be as low as the state of the art permits and may not exceed the effective radiated power in the horizontal direction in the same vertical plane.

(c) *Determination of applicable rules.* The zone in which the transmitter of a television station is located or proposed to be located determines the applicable rules with respect to maximum antenna heights and powers for VHF stations when the transmitter is located in Zone I and the channel to be employed is located in Zone II, or the transmitter is located in Zone II and the channel to be employed is located in Zone I.

§ 3.615 *Administrative changes in authorizations.* In the issuance of television broadcast station authorizations, the Commission will specify the transmitter output power and effective radiated power to the nearest 0.1 dbk. Powers specified by kilowatts shall be obtained by converting dbk to kilowatts to 3 significant figures. Antenna heights above average terrain will be specified to the nearest 10 feet. Midway figures will be authorized in the lower alternative.

APPLICATIONS AND AUTHORIZATIONS

§ 3.621 *Noncommercial educational stations.* In addition to the other provisions of this subpart, the following shall be applicable to noncommercial educational television broadcast stations:

(a) Except as provided in paragraph (b) of this section, noncommercial educational broadcast stations will be licensed only to nonprofit educational organizations upon a showing that the proposed stations will be used primarily to serve the educational needs of the community; for the advancement of educational programs; and to furnish a nonprofit and noncommercial television broadcast service.

(1) In determining the eligibility of publicly supported educational organizations, the accreditation of their respective state departments of education shall be taken into consideration.

(2) In determining the eligibility of privately controlled educational organizations, the accreditation of state departments of education or recognized regional and national educational accrediting organizations shall be taken into consideration.

(b) Where a municipality or other political subdivision has no independently constituted educational organization such as, for example, a board of education having autonomy with respect to carrying out the municipality's educational program, such municipality shall be eligible for a noncommercial educational television broadcast station. In such circumstances, a full and detailed showing must be made that a grant of the application will be consistent with the intent and purpose of the Commission's Rules relating to such stations.

(c) Noncommercial educational television broadcast stations may transmit educational, cultural and entertainment programs, and programs designed for use by schools and school systems in connection with regular school courses, as well as routine and administrative material pertaining thereto.

(d) An educational station may not broadcast programs for which a consideration is received, except programs produced by or at the expense of or furnished by others than the licensee for which no other consideration than the furnishing of the program is received by the licensee. The payment of line charges by another station or network shall not be considered as being prohibited by this paragraph.

(e) To the extent applicable to programs broadcast by a noncommercial educational station produced by or at the expense of or furnished by others than the licensee of said station, the provisions of § 3.654 relating to announcements regarding sponsored programs shall be applicable, except that no announcements (visual or aural) promoting the sale of a product or service shall be transmitted in connection with any program: *Provided, however,* That where a sponsor's name or product appears on the visual image during the course of a simultaneous or rebroadcast program either on the backdrop or in similar form, the portions of the program showing such information need not be deleted.

§ 3.622 *Applications for television stations.* Applications for new stations or for modifications of existing authorizations shall be filed on FCC Form 301; for licenses, on FCC Form 302; for renewal of licenses, on FCC Form 303. Separate applications shall be filed by each applicant for the voluntary sharing of television channels. Such applications shall be accompanied by copies of the time-sharing agreements under which the applicants propose to operate.

§ 3.623 *Full disclosures.* Applications shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial, and other qualifications, and as to all matters and things required to be disclosed thereby.

§ 3.624 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new television broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another

application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such appeal.

§ 3.625 *Installation of apparatus.* Applications for construction permits or modification thereof involving the installation of new transmitting apparatus should be filed at least 60 days prior to the contemplated installation.

§ 3.626 *Period of construction.* Each construction permit will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of 6 months thereafter as the time within which construction shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

§ 3.627 *Forfeiture of construction permits; extension of time.* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) An application (FCC Form 701) for extension of time within which to construct a station shall be filed at least 30 days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases, such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

(c) If a construction permit has been allowed to expire for any reason, application may be made for a new permit on FCC Form 321, "Application for Construction Permit to Replace Expired Permit."

§ 3.628 *Equipment tests.* (a) During the process of construction of a television broadcast station, the permittee, after notifying the Commission and Engineer in Charge of the radio district in which the station is located may, without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Equipment tests may be continued so long as the construction permit shall remain valid.

(d) Inspection of a station will ordinarily be required during the equipment test period and before the commencement of program tests. After construction and after adjustments and measurements have been completed to show compliance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations, the permittee should notify the Engineer in Charge of the radio district in which the station is located that it is ready for inspection.

(e) The authorization for tests embodied in this section shall not be construed as constituting a license to operate but as a necessary part of construction.

§ 3.629 *Program tests.* (a) Upon completion of construction of a television broadcast station in accordance with the terms of the construction permit, the technical provisions of the application therefor, and the rules and regulations, and when an application for station license has been filed showing the station to be in satisfactory operating condition, the permittee may request authority to conduct program tests: *Provided,* That such request shall be filed with the Commission at least ten (10) days prior to the date on which it is desired to begin such operation and that the Engineer in Charge of the radio district in which the station is located is notified. (All data necessary to show compliance with the terms and conditions of the construction permit must be filed with the license application.)

(b) Program tests shall not commence until specific Commission authority is received. The Commission reserves the right to change the date of the beginning of such tests or to suspend or revoke the authority for program tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Unless sooner suspended or revoked, the program test authority continues valid during Commission consideration of the application for license and during this period further extension of the construction permit is not required. Program test authority shall be automatically terminated by final determination upon the application for station license.

(d) All operation under program test authority shall be in strict compliance with the rules governing television broadcast stations and in strict accordance with representations made in the application for license pursuant to which the tests were authorized.

(e) The granting of program test authority shall not be construed as approval by the Commission of the application for station license.

§ 3.630 *Normal license period.* (a) All television broadcast station licenses will be issued for a normal license period of three years. Licenses will be issued to expire at the hour of 3:00 a. m., e. s. t., in accordance with the following schedule and at three-year intervals thereafter.

(1) For stations located in Delaware and Pennsylvania, August 1, 1957.

(2) For stations located in Maryland, District of Columbia, Virginia, West Virginia, October 1, 1957.

(3) For stations located in North Carolina, South Carolina, December 1, 1957.

(4) For stations located in Florida, Puerto Rico, and Virgin Islands, February 1, 1958.

(5) For stations located in Alabama and Georgia, April 1, 1958.

(6) For stations located in Arkansas, Louisiana, and Mississippi, June 1, 1958.

(7) For stations located in Tennessee, Kentucky, and Indiana, August 1, 1958.

(8) For stations located in Ohio and Michigan, October 1, 1958.

(9) For stations located in Illinois and Wisconsin, December 1, 1958.

(10) For stations located in Iowa and Missouri, February 1, 1956.

(11) For stations located in Minnesota, North Dakota, South Dakota, Montana, and Colorado, April 1, 1956.

(12) For stations located in Kansas, Oklahoma, Nebraska, June 1, 1956.

(13) For stations located in Texas, August 1, 1956.

(14) For stations located in Wyoming, Nevada, Arizona, Utah, New Mexico, and Idaho, October 1, 1956.

(15) For stations located in California, December 1, 1956.

(16) For stations located in Washington, Oregon, Alaska, and Hawaii, February 1, 1957.

(17) For stations located in Connecticut, Maine, Massachusetts, New Hampshire, Rhode Island, Vermont, April 1, 1957.

(18) For stations located in New Jersey and New York, June 1, 1957.

NOTE: Renewals of licenses will be granted for the period specified in the rule: *Provided, however,* That if as a result of the transition from the previous schedule to the above schedule the period for which a license is renewed is 6 months or less, the licensee may within the period 60 days to 30 days before the expiration date of such renewed license file, in lieu of renewal application (FCC Form 303), a written application under oath for the next renewal of license which shall consist of (1) a request that its license be renewed; (2) a statement that no substantial changes have been made in its operations or in its plans for future operations since its last renewal application; or if changes have been made or proposed, a statement specifying such changes; and (3) a statement that the applicant waives any claim to the use of any particular frequency or of the ether as against the regulatory power of the United States because of the previous use of the same, whether by license or otherwise. Upon review of such statements, the Commission may grant a renewal of license for the full period provided for in the rule; or if the Commission requires additional information, it may require the filing of renewal application (FCC Form 303).

§ 3.631 *Renewal of license.* (a) Unless otherwise directed by the Commission, each application for renewal of a television station license shall be filed at least 90 days prior to the expiration date of the license sought to be renewed (FCC Form 303). No application for

renewal of a television broadcast station will be considered unless there is on file with the Commission the information currently required by §§ 1.341–1.344 of this chapter, reference to which by date and file number shall be included in the application.

(b) Whenever the Commission regards an application for a renewal of a television station license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a certain date, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 3.632 [Reserved.]

§ 3.633 *License, simultaneous modification and renewal.* When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license), the modified license as well as the renewal license shall be issued to conform to the combined action of the Commission.

§ 3.634 *Assignment or transfer of control*—(a) *Voluntary.* Application for consent to voluntary assignment of a television station construction permit or license or for consent to voluntary transfer of control of a corporation holding a television station construction permit or license shall be filed with the Commission on FCC Form 314 (Assignment of License), FCC Form 315 (Transfer of Control) or FCC Form 316 (Short Form) at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) *Pro forma.* Assignment or transfer application shall be filed on FCC Form 316 where:

(1) There is an assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;

(2) There is an assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;

(3) There is an assignment or transfer by which certain partners or stockholders retire but no new ones are brought in, provided that the interest transferred is not a controlling one;

(4) There is a corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;

(5) There is an involuntary transfer to an Executor, Administrator or other court appointed officer caused by death or legal disability, except that this form does not cover assignments (or transfers) from the Executor, Administrator or other court appointed officers to the ultimate beneficiary;

(6) There is an assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests;

(7) There is an assignment of less than a controlling interest in a partnership.

(c) *Involuntary.* In the event of the death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(1) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(2) Within 30 days after the occurrence of such death or legal disability, application on FCC Form 316 shall be filed for consent to involuntary transfer of control of such corporation to a person or entity qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

§ 3.635 *Use of common antenna site.* No television license or renewal of a television license will be granted to any person who owns, leases, or controls a particular site which is peculiarly suitable for television broadcasting in a particular area and (a) which is not available for use by other television licensees; and (b) no other comparable site is available in the area; and (c) where the exclusive use of such site by the applicant or licensee would unduly limit the number of television stations that can be authorized in a particular area or would unduly restrict competition among television stations.

§ 3.636 *Multiple ownership.* (a) No license for a television broadcast station shall be granted to any party (including all parties under common control) if:

(1) Such party directly or indirectly owns, operates, or controls another television broadcast station which serves substantially the same area; or

(2) Such party, or any stockholder, officer or director of such party, directly or indirectly owns, operates, controls, or has any interest in, or is an officer or director of any other television broadcast station if the grant of such license would result in a concentration of control of television broadcasting in a manner inconsistent with public interest, convenience, or necessity. In determining whether there is such a concentration of control, consideration will be given to the facts of each case with particular reference to such factors as the size, extent and location of area served, the number of people served, and the extent of other competitive service to the areas in question. The Commission, however, will in any event consider that there would be such a concentration of control contrary to the public interest, convenience or necessity for any party or any of its stockholders, officers or directors to have a direct or indirect interest in, or be stockholders, officers, or directors of, more than seven television broadcast stations, no more than five of which may be in the VHF band.

(b) Paragraph (a) of this section is not applicable to non-commercial educational stations.

NOTE 1: The word "control" as used herein is not limited to majority stock ownership, but includes actual working control in whatever manner exercised.

NOTE 2: In applying the provisions of paragraph (a) of this section to the stockholders of a corporation which has more than 50 voting stockholders, only those stockholders need be considered who are officers or directors or who directly or indirectly own 1 percent or more of the outstanding voting stock.

§ 3.637 *Alternate main transmitters.* The licensee of a television broadcast station may be licensed for alternate main transmitters provided that a technical need for such alternate transmitters is shown and that the following conditions are met:

(a) Both transmitters are located at the same place.

(b) Both transmitters shall have the same power rating.

(c) Both transmitters shall meet the construction, installation, operation and performance requirements of this subpart.

§ 3.638 *Auxiliary transmitter.* Upon showing that a need exists for the use of auxiliary transmitters in addition to the regular transmitters of a television station, a license therefor may be issued: *Provided,* That:

(a) Auxiliary transmitters may be installed either at the same location as the main transmitters or at another location.

(b) A licensed operator shall be in control whenever auxiliary transmitters are placed in operation.

(c) The auxiliary transmitters shall be maintained so that they may be put into immediate operation at any time for the following purposes:

(1) The transmission of the regular programs upon the failure of the main transmitters.

(2) The transmission of regular programs during maintenance or modification work on the main transmitters necessitating discontinuance of their operation for a period not to exceed 5 days.

NOTE: This includes the equipment changes which may be made without authority as set forth elsewhere in the rules and regulations or as authorized by the Commission by letter or by construction permit. Where such operation is required for periods in excess of 5 days, request therefor shall be in accordance with § 1.324 of the Commission's rules.

(3) Upon request by a duly authorized representative of the Commission.

(d) The auxiliary transmitters shall be tested at least once each week to determine that they are in proper operating condition and that they are adjusted to the proper frequency, except that in the case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) of this section is satisfactory. A record shall be kept of the time and result of each test. Such records shall be retained for a period of two years.

(e) The auxiliary transmitters shall be equipped with satisfactory control equipment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by the regulations in this subpart.

(f) The operating power of an auxiliary transmitter may be less than the authorized power of the main transmitters, but in no event shall it be greater than such power.

§ 3.639 *Changes in equipment and antenna system.* Licensees of television broadcast stations shall observe the following provisions with regard to changes in equipment and antenna system:

(a) No changes in equipment shall be made:

(1) That would result in the emission of signals outside of the authorized channel.

(2) That would result in the external performance of the transmitter being in disagreement with that prescribed in this subpart.

(b) Specific authority, upon filing formal application therefor (FCC Form 301 or such other form as is provided therefor), is required for any of the following changes:

(1) Changes involving an increase or decrease in the power rating of the transmitters.

(2) A replacement of the transmitters as a whole.

(3) Change in the location of the transmitting antenna.

(4) Change in antenna system, including transmission line.

(5) Change in the power delivered to the antenna.

(6) Change in frequency control and/or modulation system.

(c) Other changes, except as above provided for in this section or in the provisions of this subpart, may be made at any time without the authority of the Commission, provided that the Commission shall be promptly notified thereof and such changes shall be shown in the next application for renewal of license.

§ 3.640 *Acceptability of broadcast transmitters for licensing.* (a) In order to facilitate the filing of, and action on, applications for station authorizations, transmitters will be accepted for licensing by the Commission under one of the following conditions:

(1) A transmitter may be type-accepted upon the request of any manufacturer of transmitters built in quantity by following the type acceptance procedure set forth in Part 2 of this chapter, provided that the data and information submitted indicates that the transmitter meets the requirements of § 3.687. If accepted, such transmitter will be included on the Commission's "Radio Equipment List, Part A, Television Broadcast Equipment." Applicants specifying transmitters included on such a list need not submit detailed descriptions and diagrams where the correct type number is specified, provided that the equipment proposed is identical with that accepted. Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(2) An application specifying a transmitter not included on the Radio Equipment List, Part A, may be accepted upon the request of a prospective licensee submitting with the application for construction permit a complete description of the transmitter, including the circuit diagram, listing of all tubes used, function of each, multiplication in each stage, plate current and voltage applied to each tube, a description of the oscillator circuit together with any devices installed for the purpose of frequency stabilization and the means of varying output power to compensate for power supply voltage variations. However, if this data has been filed with the Commission by a manufacturer in connection with a request for type acceptance, it need not be submitted with the application for construction permit but may be referred to as "on file." Measurement data for type acceptance made in accordance with subparagraph (1) of this paragraph shall be submitted with the license application.

(3) A transmitter shown on an instrument of authorization by manufacturer and type number, or as a composite, and which was in use prior to June 30, 1955, may continue to be used by the licensee, his successors or assignees, provided such transmitter continues to comply with the rules and regulations.

(b) Additional rules with respect to withdrawal of type-acceptance, modification of type-accepted equipment and limitations on the findings upon which type acceptance is based are set forth in Part 2 of this chapter.

GENERAL OPERATING REQUIREMENTS

§ 3.651 *Time of operation.* (a) All television broadcast stations will be licensed for unlimited time operation. Each such station shall maintain a regular program operating schedule as follows: not less than 2 hours daily in any five broadcast days per week and not less than a total of 12 hours per week during the first 18 months of the station's operation; not less than 2 hours daily in any 5 broadcast days per week and not less than a total of 16 hours, 20 hours and 24 hours per week for each successive 6-month period of operation, respectively; and not less than 2 hours in each of the 7 days of the week and not less than a total of 28 hours per week thereafter. "Operation" includes the period during which a station is operated pursuant to special temporary authority or during program tests, as well as during the license period. Time devoted to test patterns, or to aural presentations accompanied by the incidental use of fixed visual images which have no substantial relationship to the subject matter of such aural presentations, shall not be considered in computing periods of program service. If, in the event of an emergency due to causes beyond the control of a licensee, it becomes impossible to continue operation, the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops and immediately after the emergency ceases and operation is resumed.

(b) Noncommercial educational television broadcast stations are not required to operate on a regular schedule and no minimum number of hours of operation is specified; but the hours of actual operation during a license period shall be taken into consideration in considering the renewal of noncommercial educational television broadcast licenses.

(c) (1) The aural transmitter of a television station shall not be operated separately from the visual transmitter except for the following purposes:

(i) For actual tests of station equipment or actual experimentation in accordance with § 3.666; and

(ii) For emergency "fills" in case of visual equipment failure or unscheduled and unavoidable delays in presenting visual programs. In such situations the aural transmitter may be used to advise the audience of difficulties and to transmit for a short period program material of such nature that the audience will be enabled to remain tuned to the station; for example, music or news accompanying a test pattern or other visual presentation.

(2) During periods of transmission of a test pattern on the visual transmitter of a television station, aural transmission shall consist only of a single tone or series of variable tones. During periods when still pictures or slides are employed to produce visual transmissions which are accompanied by aural transmissions, the aural and visual transmissions shall be integral parts of a program or announcement and shall have a substantial relationship to each other: *Provided,* That nothing herein shall preclude the transmission of a test pattern, still pictures or slides for the following purposes and periods:

(i) To accompany aural announcements of the station's program schedule and aural news broadcasts or news commentaries, for a total period not to exceed one hour in any broadcast day.

(ii) To accompany aural transmissions for a period of time not to exceed fifteen minutes immediately prior to the commencement of a programming schedule.

Examples. (1) Duplication of AM or FM programs on the aural transmitter of a television station while the same program is broadcast on the visual transmitter (i. e., a "simulcast") is consistent with this paragraph.

(2) Duplication of AM or FM programs on the aural transmitter of a television station while a test pattern is broadcast on the visual transmitter is not consistent with this paragraph, except for the specific purposes and periods specified in paragraph (c) (2).

(3) A travel lecture in which the words of the lecturer are broadcast simultaneously with still pictures or slides of scenes illustrating the lecture, and a newscast in which the words of the newscaster are broadcast simultaneously with still pictures or slides of the news events, are examples of programs in which the aural and visual transmissions are integral parts of the same program having a substantial relationship to each other, within the meaning of paragraph (c) (2). Mood music unrelated to the visual transmission is not consistent with this paragraph.

(4) The broadcast of a test pattern accompanied by a musical composition for the purpose of demonstration, sale, installation or orientation of television receivers, or re-

ceiving antennas is not consistent with this paragraph.

(5) Music accompanying the transmission of a test pattern upon which is visually imposed a moving text consisting of continuous program material, such as a running newscast or news commentary, is consistent with this paragraph.

(6) Music accompanying the transmission of a test pattern upon which is visually imposed a clock indicating the time of day, or a text that is changed at spaced intervals, is not consistent with this paragraph.

§ 3.652 *Station identification.* (a) A licensee of a television broadcast station shall make station identification announcement (call letters and location) at the beginning and ending of each time of operation and during the operation on the hour. The announcement at the beginning and ending of each time of operation shall be by both aural and visual means. Other announcements may be by either aural or visual means.

(b) Identification announcements during operation need not be made when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or any type of production. In such cases, the identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion thereof.

§ 3.653 *Mechanical reproductions.* (a) Each program which consists in whole or in part of one or more mechanical reproductions, either visual or aural, shall be accompanied by an appropriate announcement to that effect either at the beginning or end of such reproduction or at the beginning or end of the program in which such reproduction is used. No such announcement shall be required where a mechanical reproduction is used for background music, sound effects, station identification, program identification (theme music of short duration) or identification of sponsorship of the program proper.

(b) The exact form of identifying announcement is not prescribed but the language shall be clear and in terms commonly used and understood. The licensee shall not attempt affirmatively to create the impression that any program being broadcast by mechanical reproduction consists of live talent.

§ 3.654 *Sponsored programs, announcement.* (a) In the case of each program for the broadcasting of which money, services, or other valuable consideration is either directly or indirectly paid or promised to, or charged or received by, any television broadcast station, the station broadcasting such program shall make, or cause to be made, an appropriate announcement that the program is sponsored, paid for, or furnished, either in whole or in part.

(b) In the case of any political program or any program involving the discussion of public controversial issues for which any films, records, transcriptions, talent, scripts, or other material or services of any kind are furnished, either directly or indirectly, to a station as an inducement to the broadcasting of such program, an announcement shall be made both at the beginning and conclusion of such program on which such material or services are used that such films, records, transcriptions, talent, scripts, or other material or services have been furnished to such station in connection with the broadcasting of such program: *Provided, however,* That only one such announcement need be made in the case of any such program of 5 minutes' duration or less, which announcement may be made either at the beginning or conclusion of the program.

(c) The announcement required by this section shall fully and fairly disclose the true identity of the person or persons by whom or in whose behalf such payment is made or promised, or from whom or in whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (b) of this section are furnished. Where an agent or other person contracts or otherwise makes arrangements with a station on behalf of another, and such fact is known to the station, the announcement shall disclose the identity of the person or persons in whose behalf such agent is acting instead of the name of such agent.

(d) In the case of any program, other than a program advertising commercial products or services, which is sponsored, paid for or furnished, either in whole or in part, or for which material or services referred to in paragraph (b) of this section are furnished, by a corporation, committee, association or other unincorporated group, the announcement required by this section shall disclose the name of such corporation, committee, association or other unincorporated group. In each such case the station shall require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association or other unincorporated group shall be made available for public inspection at one of the television broadcast stations carrying the program.

(e) In the case of programs advertising commercial products or services, an announcement stating the sponsor's corporate or trade name or the name of the sponsor's product, shall be deemed sufficient for the purposes of this section and only one such announcement need be made at any time during the course of the program.

§ 3.655 *Rebroadcast.* (a) The term "rebroadcast" as used below means reception by radio of the program of a television broadcast station, and the simultaneous or subsequent retransmission of such program by a broadcast station. The broadcasting of a program relayed by an auxiliary broadcast station licensed to the television broadcast station is not considered a rebroadcast. (As used in this section, program includes any complete program or part thereof.)

(b) The licensee of a television broadcast station may, without further authority of the Commission, rebroadcast the program of a United States television broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program.

NOTE: The notice and certification of consent shall be given within 3 days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of a television broadcast station several times during a license period, notice and certification of consent shall be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

(c) No licensee of a television broadcast station shall rebroadcast the program of any United States radio station not designated in paragraph (b) of this section without written authority having first been obtained from the Commission upon application (informal) accompanied by written consent or certification of consent of the licensee of the station originating the program.

NOTE: By Order No. 82, dated and effective June 24, 1941, until further order of the Commission, § 3.655 (c) is suspended only insofar as it requires prior written authority of the Commission for the rebroadcasting of programs originated for that express purpose by U. S. Government radio stations.

§ 3.656 *Lotteries.* (a) An application for construction permit, license, renewal of license, or any other authorization for the operation of a broadcast station, will not be granted where the applicant proposes to follow or continue to follow a policy or practice of broadcasting or permitting "the broadcasting of, any advertisement of or information concerning any lottery, gift enterprise, or similar scheme, offering prizes dependent in whole or in part upon lot or chance, or any list of the prizes drawn or awarded by means of any such lottery, gift enterprise, or scheme, whether said list contains any part or all of such prizes." (See 18 U. S. C. 1304.)

(b) The determination whether a particular program comes within the provisions of paragraph (a) of this section depends on the facts of each case. However, the Commission will in any event consider that a program comes within the provisions of paragraph (a) of this section if in connection with such program a prize consisting of money or thing of value is awarded to any person whose selection is dependent in whole or in part upon lot or chance, if as a condition of winning or competing for such prize, such winner or winners are required to furnish any money or thing of value or are required to have in their possession any product sold, manufactured, furnished or distributed by a sponsor of a program broadcast on the station in question.

§ 3.657 *Broadcasts by candidates for public office*—(a) *Legally qualified candidate.* A "legally qualified candidate" means any person who has publicly announced that he is a candidate for nomination by a convention of a political party or for nomination or election in a primary, special, or general election, municipal, county, state or national, and who meets the qualifications prescribed by the applicable laws to hold the office for which he is a candidate, so that he

may be voted for by the electorate directly or by means of delegates or electors, and who:

(1) Has qualified for a place on the ballot, or

(2) Is eligible under the applicable law to be voted for by sticker, by writing in his name on the ballot, or other method, and (i) has been duly nominated by a political party which is commonly known and regarded as such, or (ii) makes a substantial showing that he is a bona fide candidate for nomination or office, as the case may be.

(b) *General requirements.* No station licensee is required to permit the use of its facilities by any legally qualified candidate for public office, but if any licensee shall permit any such candidate to use its facilities, it shall afford equal opportunities to all other such candidates for that office to use such facilities: *Provided,* That such licensee shall have no power of censorship over the material broadcast by any such candidate.

(c) *Rates and practices.* (1) The rates, if any, charged all such candidates for the same office shall be uniform and shall not be rebated by any means direct or indirect. A candidate shall, in each case, be charged no more than the rate the station would charge if the candidate were a commercial advertiser whose advertising was directed to promoting its business within the same area as that encompassed by the particular office for which such person is a candidate. All discount privileges otherwise offered by a station to commercial advertisers shall be available upon equal terms to all candidates for public office.

(2) In making time available to candidates for public office no licensee shall make any discrimination between candidates in charges, practices, regulations, facilities, or services for or in connection with the service rendered pursuant to this part, or make or give any preference to any candidate for public office or subject any such candidate to any prejudice or disadvantage; nor shall any licensee make any contract or other agreement which shall have the effect of permitting any legally qualified candidate for any public office to broadcast to the exclusion of other legally qualified candidates for the same public office.

(d) *Inspection of records.* Every licensee shall keep and permit public inspection of a complete record of all requests for broadcast time made by or on behalf of candidates for public office, together with an appropriate notation showing the disposition made by the licensee of such requests, and the charges made, if any, if request is granted. Such records shall be retained for a period of two years.

§ 3.658 *Affiliation agreements*—(a) *Exclusive affiliation of station.* No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, broadcasting the programs of any other network organization. (The term "network organization" as used herein includes national and regional network organizations. See ch. VII, J, of Report on Chain Broadcasting.)

(b) *Territorial exclusivity.* No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which prevents or hinders another broadcast station located in the same community from broadcasting the network's programs not taken by the former station, or which prevents or hinders another broadcast station located in a different community from broadcasting any program of the network organization. This section shall not be construed to prohibit any contract, arrangement, or understanding between a station and a network organization pursuant to which the station is granted the first call in its community upon the programs of the network organization. As employed in this paragraph, the term "community" is defined as the community specified in the instrument of authorization as the location of the station.

(c) *Term of affiliation.* No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which provides, by original terms, provisions for renewal, or otherwise for the affiliation of the station with the network organization for a period longer than 2 years: *Provided,* That a contract, arrangement, or understanding for a period up to 2 years may be entered into within 6 months prior to the commencement of such period.

(d) *Option time.* No license shall be granted to a television broadcast station which options for network programs any time subject to call on less than 56 days' notice, or more time than a total of 3 hours within each of four segments of the broadcast day, as herein described. The broadcast day is divided into four segments, as follows: 8 a. m. to 1 p. m.; 1 p. m. to 6 p. m.; 6 p. m. to 11 p. m.; 11 p. m. to 8 a. m. (These segments are to be determined for each station in terms of local time at the location of the station but may remain constant throughout the year regardless of shifts from standard to daylight saving time or vice versa.) Such options may not be exclusive as against other network organizations and may not prevent or hinder the station from optioning or selling any or all of the time covered by the option, or other time, to other network organizations.

NOTE 1: As used in this section, an option is any contract, arrangement, or understanding, express or implied, between a station and a network organization which prevents or hinders the station from scheduling programs before the network agrees to utilize the time during which such programs are scheduled, or which requires the station to clear time already scheduled when the network organization seeks to utilize the time.

NOTE 2: All time options permitted under this section must be specified clock hours, expressed in terms of any time system set forth in the contract agreed upon by the station and network organization. Shifts from daylight saving to standard time or vice versa may or may not shift the specified hours correspondingly as agreed by the station and network organization.

(e) *Right to reject programs.* No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization which (1), with respect to programs offered pursuant to an affiliation contract, prevents or hinders the station from rejecting or refusing network programs which the station reasonably believes to be unsatisfactory or unsuitable; or which (2) with respect to network programs so offered or already contracted for, prevents the station from rejecting or refusing any program which, in its opinion, is contrary to the public interest, or from substituting a program of outstanding local or national importance.

(f) *Network ownership of stations.* No license shall be granted to a network organization, or to any person directly or indirectly controlled by or under common control of a network organization, for a television broadcast station in any locality where the existing television broadcast stations are so few or of such unequal desirability (in terms of coverage, power, frequency, or other related matters) that competition would be substantially restrained by such licensing. (The word "control" as used in this section, is not limited to full control but includes such a measure of control as would substantially affect the availability of the station to other networks.)

(g) *Dual network operation.* No license shall be issued to a television broadcast station affiliated with a network organization which maintains more than one network of television broadcast stations: *Provided,* That this section shall not be applicable if such networks are not operated simultaneously, or if there is no substantial overlap in the territory served by the group of stations comprising each such network.

(h) *Control by networks of station rates.* No license shall be granted to a television broadcast station having any contract, arrangement, or understanding, express or implied, with a network organization under which the station is prevented or hindered from, or penalized for, fixing or altering its rates for the sale of broadcast time for other than the network's programs.

§ 3.659 *Special rules relating to contracts providing for reservation of time upon sale of a station.* (a) No license, renewal of license, assignment of license, or transfer of control of a corporate licensee shall be granted or authorized to a television broadcast station which has a contract, arrangement or understanding, express or implied, pursuant to which, as consideration or partial consideration for the assignment of license or transfer of control, the assignor of a station license or the transferor of stock, where transfer of a corporate licensee is involved, or the nominee of such assignor or transferor retains any right of reversion of the license or any right to the reassignment of the license in the future, or reserves the right to use the facilities of the station for any period whatsoever.

(b) In the case of assignment of license or transfer of control of a corpo-

rate licensee approved by the Commission before the effective date of this section, February 15, 1949, involving a contract, arrangement or understanding of the type covered by paragraph (a) of this section and the existence and terms of which were fully disclosed to the Commission at the time of execution, the Commission will give consideration to the issuance of a license despite the existence of such contract, arrangement or understanding, if the parties thereto modify such contract within 6 months from the effective date of this section. Such modifications will be considered on the facts of each case but no such modification will be approved unless the modified contract contains at least the following provisions:

(1) A maximum limitation of the time subject to reservation so that no more than 12 hours per week shall be subject to reservation, of which no more than 4 hours shall be on any given day.

(2) A clause providing that the licensee reserves the right to reject or refuse programs which he reasonably believes to be unsatisfactory or unsuitable or for which, in his opinion, a program of outstanding local or national importance should be substituted, but provision may be made for the substitution of other television time for programs so rejected or for the payment at the station card rate for the time made unavailable.

(3) A prohibition against the resale or reassignment of any of the broadcast time reserved by such modified contract.

(4) An express negation of any right with respect to reversion or reassignment of license.

(5) An express provision setting forth a definite expiration date of the contract, arrangement or understanding. Such expiration date shall not extend beyond February 15, 1964, and shall in no event extend beyond the expiration date originally provided for in any such contract, agreement or understanding, in the event that such expiration date is a date prior to February 15, 1964.

(6) An express provision giving to the licensee the right to terminate the contract, arrangement or understanding for substantial cause, including, but not limited to, the assignment of license or the transfer of control of a corporate licensee, consistent disagreement over programs between the parties, or the acquisition of a network affiliation by the licensee, upon the payment of a lump sum or periodic payments, and providing that the amount initially fixed shall thereafter decrease as the amount of time reserved is decreased by performance of the contract. Any such payment should not be so unduly large as to constitute in practice an effective deterrent to the licensee exercising the right. In determining whether the amount is unduly large, the Commission will consider the amount by which consideration in return for the transfer of the station was decreased by reason of the reservation of time or the present value of the television time still reserved and unused as of the date of the exercise of the right of termination.

§ 3.660 *Station license, posting of.* The original of each station license shall be posted in the transmitter room.

§ 3.661 *Operator requirements.* One or more licensed radio-telephone first class operators shall be on duty at the place where the transmitting apparatus of each station is located and in actual charge thereof whenever it is being operated. The original license (or FCC Form 759) of each station operator shall be posted at the place where he is on duty. The licensed operator on duty and in charge of a television broadcast transmitter may, at the discretion of the licenseee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and by the rules and regulations governing such stations. However, such duties shall in nowise interfere with the operation of the broadcast transmitter.

§ 3.662 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40, *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.663 *Logs; maintenance of.* The licensee or permittee of each television station shall maintain program and operating logs and shall require entries to be made as follows:

(a) In the program log:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music," "drama," "speech," etc., together with the name or title thereof and the sponsor's name, with the time of the beginning and ending of the complete program. If a mechanical reproduction, either visual or aural, is used, the entry shall show the exact nature thereof and the time it is announced as a mechanical reproduction. If a speech is made by a political candidate, the name and political affiliations of such speaker shall be entered.

(3) An entry showing that each sponsored program broadcast has been announced as sponsored, paid for, or furnished by the sponsor; or that the broadcast is under the auspices of a nonprofit educational organization other than the licensee or permittee.

(4) An entry showing, for each program of network origin, the name of the network originating the program.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time it stops.

(2) An entry of the time the program begins and ends.

(3) An entry of each interruption to the carrier wave, its cause, and duration.

(4) An entry of the following each 30 minutes:

(i) Operating constants of last radio stage of the aural transmitter (total plate current and plate voltage).

(ii) Transmission line meter readings for both transmitters.

(iii) Frequency monitor readings.

(5) Log of experimental operation during experimental period (if regular operation is maintained during this period, the above logs shall be kept).

(i) A log must be kept of all operation during the experimental period. If the entries required above are not applicable thereto, then the entries shall be made so as to describe the operation fully.

(c) Where an antenna structure(s) is required to be illuminated see § 17.36, *Recording the tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.664 *Logs; retention of, etc.*—(a) *Logs; retention of.* Logs of television broadcast stations shall be retained by the licensee or permittee for a period of two years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

(b) *Logs, by whom kept.* Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commission.

(c) *Log form.* The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

(d) *Correction of logs.* No log or portion thereof shall be erased, obliterated, or wilfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

(e) *Rough logs.* Rough logs may be transcribed into condensed form, but in such case the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.665 *Station inspection.* The licensee of a television broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 3.666 *Experimental operation.* Television broadcast stations may (upon informal application) conduct technical experimentation directed to the improvement of technical phases of operation and for such purposes may utilize a signal other than the standard television signal subject to the following conditions:

(a) That the licensee complies with the provisions of § 3.651 with regard to the minimum number of hours of transmission with a standard television signal.

(b) That no transmissions are radiated outside of the authorized channel and subject to the condition that no interference is caused to the transmissions of a standard television signal by other television broadcast stations.

(c) No charges either direct or indirect shall be made by the licensee of a television broadcast station for the production or transmission of programs when conducting technical experimentation.

§ 3.667 *Discontinuance of operation.* The licensee of each station shall notify the Commission in Washington, D. C., and the Engineer in Charge of the radio district where such station is located of permanent discontinuance of operation at least two days before operation is discontinued. The licensee shall, in addition, immediately forward the station license and other instruments of authorization to the Washington, D. C., office of the Commission for cancellation.

§ 3.668 *Frequency tolerance.* (a) The carrier frequency of the visual transmitter shall be maintained within ±1000 cycles of the authorized carrier frequency.

(b) The center frequency of the aural transmitter shall be maintained 4.5 megacycles, ±1000 cycles, above the visual carrier frequency.

TV TECHNICAL STANDARDS

§ 3.681 *Definitions.*

Amplitude modulation (AM). A system of modulation in which the envelope of the transmitted wave contains a component similar to the wave form of the signal to be transmitted.

Antenna height above average terrain. The average of the antenna heights above the terrain from two to ten miles from the antenna for the eight directions spaced evenly for each 45 degrees of azimuth starting with True North. (In general, a different antenna height will be determined in each direction from the antenna. The average of these various heights is considered the antenna height above the average terrain. In some cases less than 8 directions may be used. See § 3.684 (d)).

Antenna power gain. The square of the ratio of the root-mean-square free space field intensity produced at one mile in the horizontal plane, in millivolts per meter for one kilowatt antenna input power to 137.6 mv/m. This ratio should be expressed in decibels (db). (If specified for a particular direction, antenna power gain is based on the field strength in that direction only.)

Aspect ratio. The ratio of picture width to picture height as transmitted.

Aural transmitter. The radio equipment for the transmission of the aural signal only.

Aural center frequency. (1) The average frequency of the emitted wave when modulated by a sinusoidal signal; (2) the frequency of the emitted wave without modulation.

Blanking level. The level of the signal during the blanking interval, except the interval during the scanning synchronizing pulse and the chrominance subcarrier synchronizing burst.

Chrominance. The colorimetric difference between any color and a reference color of equal luminance, the reference color having a specific chromaticity.

Chrominance subcarrier. The carrier which is modulated by the chrominance information.

Color transmission. The transmission of color television signals which can be reproduced with different values of hue, saturation, and luminance.

Effective radiated power. The product of the antenna input power and the antenna power gain. This product should be expressed in kilowatts and in decibels above one kilowatt (dbk). (If specified for a particular direction, effective radiated power is based on the antenna power gain in that direction only. The licensed effective radiated power is based on the average antenna power gain for each horizontal plane direction.)

Field. Scanning through the picture area once in the chosen scanning pattern. In the line interlaced scanning pattern of two to one, the scanning of the alternate lines of the picture area once.

Frame. Scanning all of the picture area once. In the line interlaced scanning pattern of two to one, a frame consists of two fields.

Free space field intensity. The field intensity that would exist at a point in the absence of waves reflected from the earth or other reflecting objects.

Frequency modulation (FM). A system of modulation where the instantaneous radio frequency varies in proportion to the instantaneous amplitude of the modulating signal (amplitude of modulating signal to be measured after pre-emphasis, if used) and the instantaneous radio frequency is independent of the frequency of the modulating signal.

Frequency swing. The instantaneous departure of the frequency of the emitted wave from the center frequency resulting from modulation.

Interlaced scanning. A scanning process in which successively scanned lines are spaced an integral number of line widths, and in which the adjacent lines are scanned during successive cycles of the field frequency.

Luminance. Luminous flux emitted, reflected, or transmitted per unit solid angle per unit projected area of the source.

Monochrome transmission. The transmission of television signals which can be reproduced in gradations of a single color only.

Negative transmission. Where a decrease in initial light intensity causes an increase in the transmitted power.

Peak power. The power over a radio frequency cycle corresponding in amplitude to synchronizing peaks.

Percentage modulation. As applied to frequency modulation, the ratio of the actual frequency swing to the frequency swing defined as 100 percent modulation, expressed in percentage. For the aural transmitter of television broadcast stations, a frequency swing of ±25 kilocycles is defined as 100 percent modulation.

Polarization. The direction of the electric field as radiated from the transmitting antenna.

Reference black level. The level corresponding to the specified maximum excursion of the luminance signal in the black direction.

Reference white level of the luminance signal. The level corresponding to the specified maximum excursion of the luminance signal in the white direction.

Scanning. The process of analyzing successively, according to a predetermined method, the light values of picture elements constituting the total picture area.

Scanning line. A single continuous narrow strip of the picture area containing highlights, shadows, and half-tones, determined by the process of scanning.

Standard television signal. A signal which conforms to the television transmission standards.

Synchronization. The maintenance of one operation in step with another.

Television broadcast band. The frequencies in the band extending from 54 to 890 megacycles which are assignable to television broadcast stations. These frequencies are 54 to 72 megacycles (channels 2 through 4), 76 to 88 megacycles (channels 5 and 6), 174 to 216 megacycles (channels 7 through 13), and 470 to 890 megacycles (channels 14 through 83).

Television broadcast station. A station in the television broadcast band transmitting simultaneous visual and aural signals intended to be received by the general public.

Television channel. A band of frequencies 6 megacycles wide in the television broadcast band and designated either by number or by the extreme lower and upper frequencies.

Television transmission standards. The standards which determine the characteristics of a television signal as radiated by a television broadcast station.

Television transmitter. The radio transmitter or transmitters for the transmission of both visual and aural signals.

Vestigial sideband transmission. A system of transmission wherein one of the generated sidebands is partially attenuated at the transmitter and radiated only in part.

Visual carrier frequency. The frequency of the carrier which is modulated by the picture information.

Visual transmitter. The radio equipment for the transmission of the visual signal only.

Visual transmitter power. The peak power output when transmitting a standard television signal.

§ 3.682 *Transmission standards and changes.*—(a) *Transmission standards.* (1) The width of the television broadcast channel shall be six megacycles per second.

(2) The visual carrier frequency shall be nominally 1.25 mc above the lower boundary of the channel.

(3) The aural center frequency shall be 4.5 mc higher than the visual carrier frequency.

(4) The visual transmission amplitude characteristic shall be in accordance with the chart designated as Fig. 5 of § 3.699.

(5) The chrominance subcarrier frequency shall be 3.579545 mc ± 10 cycles per second with a maximum rate of change not to exceed one tenth cycle per second per second.

(6) For monochrome and color transmissions the number of scanning lines per frame shall be 525, interlaced two to one in successive fields. The horizontal scanning frequency shall be $^{2}/_{455}$ times the chrominance subcarrier frequency; this corresponds nominally to 15,750 cycles per second (with an actual value of 15,734.264 ± 0.044 cycles per second). The vertical scanning frequency is $^{2}/_{525}$ times the horizontal scanning frequency; this corresponds nominally to 60 cycles per second (the actual valuc is 59.94 cycles per second). For monochrome transmissions only, the nominal values of line and field frequencies may be used.

(7) The aspect ratio of the transmitted television picture shall be 4 units horizontally to 3 units vertically.

(8) During active scanning intervals, the scene shall be scanned from left to right horizontally and from top to bottom vertically, at uniform velocities.

(9) A carrier shall be modulated within a single television channel for both picture and synchronizing signals. For monochrome transmission, the two signals comprise different modulation ranges in amplitude, in acordance with the charts designated as Figures 5 and 7 of § 3.699. For color transmission, the two signals comprise different modulation ranges in amplitude except where the chrominance penetrates the synchronizing region and the burst penetrates the picture region, in accordance with the charts designated as Figures 5 and 6 of § 3.699.

(10) A decrease in initial light intensity shall cause an increase in radiated power (negative transmission).

(11) The reference black level shall be represented by a definite carrier level, independent of light and shade in the picture.

(12) The blanking level shall be transmitted at 75±2.5 percent of the peak carrier level.

(13) The reference white level of the luminance signal shall be 12.5±2.5 percent of the peak carrier level.

(14) The signals radiated shall have horizontal polarization.

(15) An effective radiated power of the aural transmitter not less than 50 percent nor more than 70 percent of the peak radiated power of the visual transmitter shall be employed.

(16) The peak-to-peak variation of transmitter output within one frame of video signal due to all causes, including hum, noise, and low-frequency response, measured at both scanning synchronizing peak and blanking level, shall not exceed 5 percent of the average scanning synchronizing peak signal amplitude. This provision is subject to change but is considered the best practice under the present state of the art. It will not be enforced pending a further determination thereof.

(17) The reference black level shall be separated from the blanking level by the setup interval, which shall be 7.5±2.5 percent of the video range from blanking level to the reference white level.

(18) For monochrome transmission, the transmitter output shall vary in substantially inverse logarithmic relation to the brightness of the subject. No tolerances are set at this time. This provision is subject to change but is considered the best practice under the present state of the art. It will not be enforced pending a further determination thereof.

(19) The color picture signal shall correspond to a luminance component transmitted as amplitude modulation of the picture carrier and a simultaneous pair of chrominance components transmitted as the amplitude modulation sidebands of a pair of suppressed subcarriers in quadrature.

(20) Equation of complete color signal.

(i) The color picture signal has the following composition:

$$E_M = E_Y' + \{E_Q' \sin(\omega t + 33°) + E_I' \cos(\omega t + 33°)\}$$

Where:

$E_Q' = 0.41(E_B' - E_Y') + 0.48(E_R' - E_Y')$.

$E_I' = -0.27(E_B' - E_Y') + 0.74(E_R' - E_Y')$.

$E_Y' = 0.30E_R' + 0.59E_G' + 0.11E_B'$.

For color-difference frequencies below 500 kc (see (iii) below), the signal can be represented by:

$$E_M = E_Y' + \left\{\frac{1}{1.14}\left[\frac{1}{1.78}(E_B' - E_Y')\sin\omega t + (E_R' - E_Y')\cos\omega t\right]\right\}$$

(ii) The symbols in subdivision (i) of this subparagraph have the following significance:

E_M is the total video voltage, corresponding to the scanning of a particular picture element, applied to the modulator of the picture transmitter.

E_Y' is the gamma-corrected voltage of the monochrome (black-and-white) portion of the color picture signal, corresponding to the given picture element.

NOTE: Forming of the high frequency portion of the monochrome signal in a different manner is permissible and may in fact be desirable in order to improve the sharpness on saturated colors.

E_Q' and E_I' are the amplitudes of two orthogonal components of the chrominance signal corresponding respectively to narrow-band and wide-band axes.

E_R', E_G', and E_B' are the gamma-corrected voltages corresponding to red, green, and blue signals during the scanning of the given picture element.

ω is the angular frequency and is 2π times the frequency of the chrominance subcarrier.

The portion of each expression between brackets in (i) represents the chrominance subcarrier signal which carries the chrominance information.

The phase reference in the E_M equation in (i) is the phase of the burst+180°, as shown in Figure 8 of § 3.699. The burst corresponds to amplitude modulation of a continuous sine wave.

(iii) The equivalent bandwidth assigned prior to modulation to the color difference signals E_Q' and E_I' are as follows:

Q-channel bandwidth:
- At 400 kc less than 2 db down.
- At 500 kc less than 6 db down.
- At 600 kc at least 6 db down.

I-channel bandwidth:
- At 1.3 mc less than 2 db down.
- At 3.6 mc at least 20 db down.

(iv) The gamma corrected voltages E_R', E_G', and E_B' are suitable for a color picture tube having primary colors with the following chromaticities in the CIE system of specification:

	x	y
Red (R)	0.67	0.33
Green (G)	0.21	0.71
Blue (B)	0.14	0.08

and having a transfer gradient (gamma exponent) of 2.2 associated with each primary color. The voltages E_R', E_G', and E_B' may be respectively of the form $E_R^{1/\gamma}$, $E_G^{1/\gamma}$, and $E_B^{1/\gamma}$ although other forms may be used with advances in the state of the art.

NOTE: At the present state of the art it is considered inadvisable to set a tolerance on the value of gamma and correspondingly this portion of the specification will not be enforced.

(v) The radiated chrominance subcarrier shall vanish on the reference white of the scene.

NOTE: The numerical values of the signal specification assume that this condition will be reproduced as CIE Illuminant C (x=0.310, y=0.316).

(vi) E_Y', E_Q', E_I', and the components of these signals shall match each other in time to 0.05 μsecs.

(vii) The angles of the subcarrier measured with respect to the burst phase, when reproducing saturated primaries and their complements at 75 percent of full amplitude, shall be within ±10° and their amplitudes shall be within ±20 percent of the values specified above. The ratios of the measured amplitudes of the subcarrier to the luminance signal for the same saturated primaries and their complements shall fall between the limits of 0.8 and 1.2 of the values specified for their ratios. Closer tolerances may prove to be practicable and desirable with advance in the art.

(b) *Changes in transmission standards.* The Commission will consider the question whether a proposed change or modification of transmission standards adopted for television would be in the public interest, convenience and necessity, upon petition being filed by the person proposing such change or modification, setting forth the following:

(1) The exact character of the change or modification proposed;

(2) The effect of the proposed change or modification upon all other transmission standards that have been adopted by the Commission for television broadcast stations;

(3) The experimentation and field tests that have been made to show that the proposed change or modification accomplishes an improvement and is technically feasible;

(4) The effect of the proposed change or modification in the adopted standards upon operation and obsolescence of receivers;

(5) The change in equipment required in existing television broadcast stations for incorporating the proposed change or modification in the adopted standards; and

(6) The facts and reasons upon which the petitioner bases his conclusion that the proposed change or modification would be in the public interest, convenience, and necessity.

Should a change or modification in the transmission standards be adopted by the Commission, the effective date thereof will be determined in the light of the considerations mentioned in subparagraph (4) of this paragraph.

§ 3.683 *Field intensity contours.* (a) In the authorization of television broadcast stations, two field intensity contours are considered. These are specified as Grade A and Grade B and indicate the approximate extent of coverage over average terrain in the absence of interference from other television stations. Under actual conditions, the true coverage may vary greatly from these estimates because the terrain over any specific path is expected to be different from the average terrain on which the field strength charts were based. The required field intensities, F (50, 50), in decibels above one microvolt per meter (dbu) for the Grade A and Grade B contours are as follows:

NOTE: It should be realized that the F (50, 50) curves when used for Channels 14–83 are not based on measured data at distances beyond about 30 miles. Theory would indicate that the field intensities for Channels 14–83 should decrease more rapidly with distance beyond the horizon than for Channels 2–6, and modification of the curves for Channels 14–83 may be expected as a result of measurements to be made at a later date. For these reasons, the curves should be used with appreciation of their limitations in estimating levels of field intensity. Further, the actual extent of service will usually be less than indicated by these estimates due to interference from other stations. Because of these factors, the predicted field intensity contours give no assurance of service to any specific percentage of receiver locations within the distances indicated. In licensing proceedings these variations will not be considered.

	Grade A (dbu)	Grade B (dbu)
Channels 2–6	68	47
Channels 7–13	71	56
Channels 14–83	74	64

(b) The field intensity contours provided for herein shall be considered for the following purposes only:

(1) In the estimation of coverage resulting from the selection of a particular transmitter site by an applicant for a television station.

(2) In connection with problems of coverage arising out of application of § 3.636.

(3) In connection with problems of coverage arising out of application of § 3.658 (b).

(4) In determining compliance with § 3.685 (a) concerning the minimum field intensity to be provided over the principal community to be served.

§ 3.684 *Prediction of coverage.* (a) All predictions of coverage made pursuant to this paragraph shall be made without regard to interference and shall be made only on the basis of estimated field intensities. The peak power of the visual signal is used in making predictions of coverage.

(b) Predictions of coverage shall be made only for the same purposes as relate to the use of field intensity contours as specified in § 3.683 (b).

(c) In predicting the distance to the field intensity contours, the F (50, 50) field intensity charts (Figures 10 and 11 of § 3.699) shall be used. If the 50 percent field intensity is defined as that value exceeded for 50 percent of the time, these F (50, 50) charts give the estimated 50 percent field intensities exceeded at 50 percent of the locations in decibels above one microvolt per meter. The charts are based on an effective power of one kilowatt radiated from a half-wave dipole in free space, which produces an unattenuated field strength at one mile of about 103 db above one microvolt per meter (137.6 millivolts per meter). To use the charts for other powers, the sliding scale associated with the charts should be trimmed and used as the ordinate scale. This sliding scale is placed on the charts with the appropriate gradation for power in line with the horizontal 40 db line on the charts. The right edge of the scale is placed in line with the appropriate antenna height gradations, and the charts then become direct reading (in uv/m and in db above 1 uv/m) for this power and antenna height. Where the antenna height is not one of those for which a scale is provided, the signal strength or distance is determined by interpolation between the curves connecting the equidistant points. Dividers may be used in lieu of the sliding scale. In predicting the distance to the Grade A and Grade B field intensity contours, the effective radiated power to be used is that in the horizontal plane in the pertinent direction. In predicting other field intensities over areas not in the horizontal plane, the effective radiated power to be used is the power in the direction of such areas; the appropriate vertical plane radiation pattern must, of course, be considered in determining this power.

(d) The antenna height to be used with these charts is the height of the radiation center of the antenna above the average terrain along the radial in question. In determining the average elevation of the terrain, the elevations between 2 and 10 miles from the antenna site are employed. Profile graphs shall be drawn for 8 radials beginning at the antenna site and extending 10 miles therefrom. The radials should be drawn for each 45 degrees of azimuth starting with True North. At least one radial must include the principal community to be served even though such community may be more than 10 miles from the antenna site. However, in the event none of the evenly spaced radials include the principal community to be served and one or more such radials are drawn in addition to the 8 evenly spaced radials, such additional radials shall not be employed in computing the antenna height above average terrain. Where the 2 to 10 mile portion of a radial extends in whole or in part over large bodies of water as specified in paragraph (e) of this section or extends over foreign territory but the Grade B intensity contour encompasses land area within the United States beyond the 10 mile portion of the radial, the entire 2 to 10 mile portion of the radial shall be included in the computation of antenna height above average terrain. However, where the Grade B contour does not so encompass United States land area and (1) the entire 2 to 10 mile portion of the radial extends over large bodies of water or foreign territory, such radial shall be completely omitted from the computation of antenna height above average terrain, and (2) where a part of the 2 to 10 mile portion of a radial extends over large bodies of water or over foreign territory, only that part of the radial extending from the 2 mile sector to the outermost portion of land area within the United States covered by the radial shall be employed in the computation of antenna height above average terrain. The profile graph for each radial should be plotted by contour intervals of from 40 to 100 feet and, where the data permits, at least 50 points of elevation (generally uniformly spaced) should be used for each radial. In instances of very rugged terrain where the use of contour intervals of 100 feet would result in several points in a short distance, 200- or 400-foot contour intervals may be used for such distances. On the other hand, where the terrain is uniform or gently sloping the smallest contour interval indicated on the topographic map (see paragraph (g) of this section) should be used, although only relatively few points may be available. The profile graphs should indicate the topography accurately for each radial, and the graphs should be plotted with the distance in miles as the abscissa and the elevation in feet above mean sea level as the ordinate. The profile graphs should indicate the source of the topographical data employed. The graph should also show the elevation of the center of the radiating system. The graph may be plotted either on rectangular coordinate paper or on special paper which shows the curvature of the earth. It is not necessary to take the curvature of the earth into consideration in this procedure, as this factor is taken care

of in the charts showing signal intensities. The average elevation of the 8-mile distance between 2 and 10 miles from the antenna site should then be determined from the profile graph for each radial. This may be obtained by averaging a large number of equally spaced points, by using a planimeter, or by obtaining the median elevation (that exceeded for 50 percent of the distance) in sectors and averaging those values.

NOTE 1: This paragraph does not apply to any application designated for hearing in which the engineering portions have been heard or the engineering exhibits exchanged prior to June 1, 1953, the effective date of the amendment of this subsection unless the subsection as amended would materially affect the outcome of the hearing.

NOTE 2: The Commission will, upon a proper showing by an existing station that the application of this rule will result in an unreasonable power reduction in relation to other stations in close proximity, consider requests for adjustment in power on the basis of a common average terrain figure for the stations in question as determined by the Commission.

(e) In instances where it is desired to determine the area in square miles within the Grade A and Grade B field intensity contours, the area may be determined from the coverage map by planimeter or other approximate means; in computing such areas, exclude (1) areas beyond the borders of the United States, and (2) large bodies of water, such as ocean areas, gulfs, sounds, bays, large lakes, etc., but not rivers.

(f) In cases where the terrain in one or more directions from the antenna site departs widely from the average elevation of the 2 to 10 mile sector, the prediction method may indicate contour distances that are different from what may be expected in practice. For example, a mountain ridge may indicate the practical limit of service although the prediction method may indicate otherwise. In such cases the prediction method should be followed, but a supplemental showing may be made concerning the contour distances as determined by other means. Such supplemental showing should describe the procedure employed and should include sample calculations. Maps of predicted coverage should include both the coverage as predicted by the regular method and as predicted by a supplemental method. When measurements of area are required, these should include the area obtained by the regular prediction method and the area obtained by the supplemental method. In directions where the terrain is such that negative antenna heights or heights below 100 feet for the 2 to 10 mile sector are obtained, a supplemental showing of expected coverage must be included together with a description of the method employed in predicting such coverage. In special cases, the Commission may require additional information as to terrain and coverage.

(g) In the preparation of the profile graphs previously described, and in determining the location and height above sea level of the antenna site, the elevation or contour intervals shall be taken from the United States Geological Survey Topographic Quadrangle Maps, United States Army Corps of Engineers maps or Tennessee Valley Authority maps, whichever is the latest, for all areas for which such maps are available. If such maps are not published for the area in question, the next best topographic information should be used. Topographic data may sometimes be obtained from State and municipal agencies. Data from Sectional Aeronautical Charts (including bench marks) or railroad depot elevations and highway elevations from road maps may be used where no better information is available. In cases where limited topographic data is available, use may be made of an altimeter in a car driven along roads extending generally radially from the transmitter site. Ordinarily the Commission will not require the submission of topographical maps for areas beyond 15 miles from the antenna site, but the maps must include the principal community to be served. If it appears necessary, additional data may be requested. United States Geological Survey Topographic Quadrangle Maps may be obtained from the Department of the Interior, Geological Survey, Washington, D. C. Sectional Aeronautical Charts are available from the Department of Commerce, Coast and Geodetic Survey, Washington, D. C.

§ 3.685 *Transmitter location and antenna system.* (a) The transmitter location shall be chosen so that, on the basis of the effective radiated power and antenna height above average terrain employed, the following minimum field intensity in decibels above one microvolt per meter (dbu) will be provided over the entire principal community to be served:

Channels 2-6	Channels 7-13	Channels 14-83
74 dbu	77 dbu	80 dbu

(b) Location of the antenna at a point of high elevation is necessary to reduce to a minimum the shadow effect on propagation due to hills and buildings which may reduce materially the intensity of the station's signals. In general, the transmitting antenna of a station should be located at the most central point at the highest elevation available. To provide the best degree of service to an area, it is usually preferable to use a high antenna rather than a low antenna with increased transmitter power. The location should be so chosen that line-of-sight can be obtained from the antenna over the principal community to be served; in no event should there be a major obstruction in this path. The antenna must be constructed so that it is as clear as possible of surrounding buildings or objects that would cause shadow problems. It is recognized that topography, shape of the desired service area, and population distribution may make the choice of a transmitter location difficult. In such cases, consideration may be given to the use of a directional antenna system, although it is generally preferable to choose a site where a nondirectional antenna may be employed.

(c) In cases of questionable antenna locations it is desirable to conduct propagation tests to indicate the field intensity expected in the principal community to be served and in other areas, particularly where severe shadow problems may be expected. In considering applications proposing the use of such locations, the commission may require site tests to be made. Such tests should be made in accordance with the measurement procedure hereafter described, and full data thereon must be supplied to the Commission. Test transmitters should employ an antenna having a height as close as possible to the proposed antenna height, using a balloon or other support if necessary and feasible. Information concerning the authorization of site tests may be obtained from the Commission upon request.

(d) Present information is not sufficiently complete to establish "blanket areas" of television broadcast stations. A "blanket area" is that area adjacent to a transmitter in which the reception of other stations is subject to interference due to the strong signal from this station. The authorization of station construction in areas where blanketing is found to be excessive will be on the basis that the applicant will assume full responsibility for the adjustment of reasonable complaints arising from excessively strong signals of the applicant's station or take other corrective action.

(e) A directional antenna is considered to be an antenna that is designed or altered for the purpose of obtaining a noncircular radiation pattern. Directional antennas may not be used for the purpose of reducing minimum mileage separation requirements but may be employed for the purpose of improving service or for the purpose of using a particular site; however, directional antennas with a ratio of minimum to maximum radiation in the horizontal plane of more than 10 decibels will not be permitted.

(f) Applications proposing the use of directional antenna systems must be accompanied by the following:

(1) Complete description of the proposed antenna system.

(2) Orientation of array with respect to true north; time phasing of fields from elements (degrees leading or lagging); space phasing of elements (in feet and degrees); and ratio of fields from elements.

(3) Horizontal and vertical plane radiation patterns showing the free space field intensity in millivolts per meter at 1 mile and the effective radiated power, in dbk, for each direction. The method by which the radiation patterns were computed or measured shall be fully described, including formulas used, equipment employed, sample calculations and tabulations of data. Sufficient vertical plane patterns shall be included to indicate clearly the radiation characteristics of the antenna above and below the horizontal plane. The horizontal plane pattern shall be plotted on polar coordinate paper with reference to true north. The vertical plane patterns shall be plotted on rectangular coordinate paper with reference to the horizontal plane.

(4) Name, address, and qualifications of the engineer making the calculations.

(g) Applications proposing the use of television broadcast antennas within 200 feet of other television broadcast antennas operating on a channel within 20 percent in frequency of the proposed channel, or proposing the use of television broadcast antennas on Channels 5 or 6 within 200 feet of FM broadcast antennas, must include a showing as to the expected effect, if any, of such proximate operation.

(h) Where simultaneous use of antennas or antenna structures is proposed, the following provisions shall apply:

(1) In cases where it is proposed to use a tower of a standard broadcast station as a supporting structure for a television broadcast antenna, an appropriate application for changes in the radiating system of the standard broadcast station must be filed by the licensee thereof. A formal application (FCC Form 301) will be required if the proposal involves substantial change in the physical height or radiation characteristics of the standard broadcast antennas; otherwise an informal application will be acceptable. (In case of doubt, an informal application (letter) together with complete engineering data should be submitted.) An application may be required for other classes of stations when the tower is to be used in connection with a television station.

(2) When the proposed television antenna is to be mounted on a tower in the vicinity of a standard broadcast directional array and it appears that the operation of the directional antenna system may be affected, an engineering study must be filed with the television application concerning the effect of the television antenna on the directional pattern. Readjustment and field intensity measurements of the standard broadcast station may be required following construction of the television antenna.

(i) The provisions of Part 17 of this chapter shall govern the construction, marking and lighting requirements of antenna structures used by television broadcast stations. In the event a common tower is used by two or more licensees or permittees for antenna and/or antenna supporting purposes, the licensee or permittee who is owner of the tower shall assume full responsibility for the installation and maintenance of any painting and/or lighting requirements. In the event of shared ownership, one licensee or permittee shall assume such responsibility and advise the Commission accordingly.

§ 3.686 *Measurements for rule making purposes and upon request of the Commission.* (a) Except as provided for in § 3.612, television broadcast stations shall not be protected against any type of interference or propagation effect. Persons desiring to submit testimony, evidence, or data to the Commission for the purpose of showing that the technical standards contained in this subpart do not properly reflect any given types of interference or propagation effects may do so only in appropriate rule making proceedings to amend such technical standards. Persons making field intensity measurements for formal submission to the Commission in rule making proceedings, or making such measurements upon the request of the Commission, should comply with the procedure for making such measurements as outlined below.

(b) Measurements made to determine field intensities of television broadcast stations should be made with mobile equipment along roads which are as close and similar as possible to the radials showing topography which were submitted with the application for construction permit. Cluster and spot measurements may also be submitted, if accompanied by a complete showing of the procedures employed. Suitable measuring equipment and a continuous recording device must be employed, the chart of which is either directly driven from the speedometer of the automobile in which the equipment is mounted or so arranged that distances and identifying landmarks can be readily noted. The measuring equipment must be calibrated against recognized standards of field intensity and so constructed that it will maintain an acceptable accuracy of measurement while in motion or when stationary. The equipment should be so operated that the recorder chart can be calibrated directly in field intensity in order to facilitate analysis of the chart. The receiving antenna must be horizontally polarized and should be nondirectional.

(c) Mobile measurements should be made with a minimum chart speed of 3 inches per mile and preferably 5 or 6 inches per mile. Locations shall be noted on the recorder chart as frequently as necessary to fix definitely the relation between the measured field intensity and the location. The time constant of the equipment should be such as to permit adequate analysis of the charts, and the time constant employed shall be shown. Measurements should be made to a point on each radial well beyond the particular contour under investigation.

(d) While making field intensity measurements either the visual or the aural transmitter may be used. If the visual transmitter is used, it is recommended that a black picture be transmitted or that the transmitter be operated at black level without synchronization peaks. Operation at a power somewhat less than black level is permissible but too great a reduction in power is not recommended due to the difficulty of recording weak signals. In any event, an appropriate factor shall be used to convert the readings obtained to the field strength that would exist on synchronization peaks while operating at the authorized power.

(e) After the measurements are completed, the recorder chart should be divided into not less than 15 sections on each equivalent radial from the station. The field intensity in each section of the chart should be analyzed to determine the field intensity received 50 percent of the distance (median field) throughout the section, and this median field intensity associated with the corresponding sector of the radial. The field intensity figures must be corrected for a receiving antenna elevation of 30 feet and for any directional effects of the automobile and receiving antenna not otherwise compensated. This data should be plotted for each radial, using log-log coordinate paper with distance as the abscissa and field intensity as the ordinate. A smooth curve should be drawn through these points (of median fields for all sectors) and this curve used to determine the distance to the desired contour. The distances obtained for each radial may then be plotted on the map of predicted coverage or on polar coordinate paper (excluding water areas, etc.) to determine the service and interference areas of a station.

(f) In certain cases the Commission may desire more information or recordings and in these instances special instructions will be issued.

(g) Data obtained in conjunction with field intensity measurements shall be submitted to the Commission in affidavit form in triplicate, including the following:

(1) Map or maps showing the roads or points where measurements were made, the service and/or interference areas determined by the prediction method and by the measurements, and any unusual terrain characteristics existing in these areas. The maps, preferably of a type showing topography in the area, should show the Grade A and Grade B field intensity contours.

(2) If a directional transmitting antenna is employed, a diagram on polar coordinate paper showing the predicted free space field intensity in millivolts per meter at 1 mile in all directions.

(3) A full description of the procedures and methods employed, including the type of equipment, the method of installation and operation, and calibration procedures.

(4) Complete data obtained during the survey, including calibration. (Only the original or one photostatic copy of the recording tapes, or representative samples, need be submitted.)

(5) Antenna system and power employed during the survey.

(6) Name, address, and qualifications of the engineer or engineers making the measurements.

§ 3.687 *Transmitters and associated equipment*—(a) *Visual transmitter.* (1) For monochrome transmission only, the overall attenuation characteristics of the transmitter, measured in the antenna transmission line after the vestigial sideband filter (if used), shall not be greater than the following amounts below the ideal demodulated curve. (See Figure 11 of § 3.699.)

2 db at 0.5 mc.
2 db at 1.25 mc.
3 db at 2.0 mc.
6 db at 3.0 mc.
12 db at 3.5 mc.

The curve shall be substantially smooth between these specified points, exclusive of the region from 0.75 to 1.25 mc. Output measurement shall be made with the transmitter operating into a dummy load of pure resistance and the demodulated voltage measured across this load. The ideal demodulated curve is that shown in Figure 11 of § 3.699.

(2) For color transmission, the standard given by subparagraph (1) of this

paragraph applies except as modified by the following: A sine wave of 3.58 mc introduced at those terminals of the transmitter which are normally fed the composite color picture signal shall produce a radiated signal having an amplitude (as measured with a diode on the R. F. transmission line supplying power to the antenna), which is down 6±2 db with respect to a signal produced by a sine wave of 200 kc. In addition, the amplitude of the signal shall not vary by more than ±2 db between the modulating frequencies of 2.1 and 4.18 mc.

(3) The field strength or voltage of the lower sideband, as radiated or dissipated and measured as described in subparagraph (4) of this paragraph, shall not be greater than −20 db for a modulating frequency of 1.25 mc or greater and in addition, for color, shall not be greater than −42 db for a modulating frequency of 3.579545 mc (the color subcarrier frequency). For both monochrome and color, the field strength or voltage of the upper sideband as radiated or dissipated and measured as described in subparagraph (4) of this paragraph shall not be greater than −20 db for a modulating frequency of 4.75 mc or greater.

NOTE: Field strength measurements are desired. It is anticipated that these may not yield data which are consistent enough to prove compliance with the attenuation standards prescribed above. In that case, measurements with a dummy load of pure resistance, together with data on the antenna characteristics, shall be taken in place of over-all field measurements.

(4) The attenuation charactertistics of a visual transmitter shall be measured by application of a modulating signal to the transmitter input terminals in place of the normal composite television video signal. The signal applied shall be a composite signal composed of a synchronizing signal to establish peak output voltage plus a variable frequency sine wave voltage occupying the interval between synchronizing pulses. (The "synchronizing signal" referred to in this section means either a standard synchronizing wave form or any pulse that will properly set the peak.) The axis of the sine wave in the composite signal observed in the output monitor shall be maintained at an amplitude 0.5 of the voltage at synchronizing peaks. The amplitude of the sine wave input shall be held at a constant value. This constant value should be such that at no modulating frequency does the maximum excursion of the sine wave, observed in the composite output signal monitor, exceed the value 0.75 of peak output voltage. The amplitude of the 200 kilocycle sideband shall be measured and designated zero db as a basis for comparison. The modulation signal frequency shall then be varied over the desired range and the field strength or signal voltage of the corresponding sidebands measured. As an alternate method of measuring, in those cases in which the automatic d-c insertion can be replaced by manual control, the above characteristic may be taken by the use of a video sweep generator and without the use of pedestal synchronizing pulses. The d-c level shall be set for midcharacteristic operation.

(5) A sine wave, introduced at those terminals of the transmitter which are normally fed the composite color picture signal, shall produce a radiated signal having an envelope delay, relative to the average envelope delay between 0.05 and 0.20 mc, of zero microseconds up to a frequency of 3.0 mc; and then linearly decreasing to 4.18 mc so as to be equal to −0.17 μsecs at 3.58 mc. The tolerance on the envelope delay shall be ±0.05 μsecs at 3.58 mc. The tolerance shall increase linearly to ±0.1 μsec down to 2.1 mc, and remain at ±0.1 μsec down to 0.2 mc. (Tolerances for the interval of 0.0 to 0.2 mc are not specified at the present time.) The tolerance shall also increase linearly to ±0.1 μsec at 4.18 mc.

(6) The radio frequency signal, as radiated, shall have an envelope as would be produced by a modulating signal in conformity with Figures 6 or 7 of § 3.699, as modified by vestigial sideband operation specified by Figure 5 of § 3.699.

(7) The time interval between the leading edges of successive horizontal pulses shall vary less than one half of one percent of the average interval. However, for color transmissions, § 3.682 (a) (5) and § 3.682 (a) (6) shall be controlling.

(8) The rate of change of the frequency of recurrence of the leading edges of the horizontal synchronizing signals shall be not greater than 0.15 percent per second, the frequency to be determined by an averaging process carried out over a period of not less than 20, nor more than 100 lines, such lines not to include any portion of the blanking interval. However, for color transmissions, § 3.682 (a) (5) and § 3.682 (a) (6) shall be controlling.

(9) For color transmission the transfer characteristic (that is the relationship between the transmitter RF output and video signal input) shall be substantially linear between the reference black and reference white levels.

(b) *Aural transmitter.* (1) The transmitter shall operate satisfactorily with a frequency swing of ±25 kilocycles, which is considered 100 percent modulation. It is recommended, however, that the transmitter be designed to operate satisfactorily with a frequency swing of at least ±40 kilocycles.

(2) The transmitting system (from input terminals of microphone pre-amplifier, through audio facilities at the studio, through telephone lines or other circuits between studio and transmitter, through audio facilities at the transmitter, and through the transmitter, but excluding equalizers for the correction of deficiencies in microphone response) shall be capable of transmitting a band of frequencies from 50 to 15,000 cycles. Pre-emphasis shall be employed in accordance with the impedance-frequency characteristic of a series inductance-resistance network having a time constant of 75 microseconds. (See Figure 12 of § 3.699.) The deviation of the system response from the standard pre-emphasis curve shall lie between two limits as shown by Figure 12 of § 3.699. The upper of these limits shall be uniform (no deviation) from 50 to 15,000 cycles. The lower limit shall be uniform from 100 to 7,500 cycles, and three db below the upper limit; from 100 to 50 cycles the lower limit shall fall from three db limit at a uniform rate of one db per octave (4 db at 50 cycles); from 7,500 to 15,000 cycles the lower limit shall fall from three db limit at a uniform rate of two db per octave (5 db at 15,000 cycles).

(3) At any modulating frequency between 50 and 15,000 cycles and at modulation percentages of 25 percent, 50 percent, and 100 percent, the combined audio frequency harmonics measured in the output of the system shall not exceed the root-mean-square values given in the following table:

Modulation frequency	*Distortion (percent)*
50 to 100 cycles	3.5
100 to 7,500 cycles	2.5
7,500 to 15,000 cycles	3.0

(i) Measurement shall be made employing 75 microsecond de-emphasis in the measuring equipment and 75 microsecond pre-emphasis in the transmitting equipment, and without compression if a compression amplifier is employed. Harmonics shall be included to 30 kc.

NOTE: Measurements of distortion using de-emphasis in the measuring equipment are not practical at the present time for the range 7,500 to 15,000 cycles for 25 and 50 percent modulation. Therefore, measurements should be made at 100 percent modulation and on at least the following modulating frequencies: 50, 100, 400, 1,000, 5,000, 10,000, and 15,000 cycles. At 25 and 50 percent modulation, measurements should be made on at least the following modulating frequencies: 50, 100, 400, 1,000 and 5,000 cycles.

(ii) It is recommended that none of the three main divisions of the system (transmitter, studio to transmitter circuit, and audio facilities) contribute over one-half of these percentages, since at some frequencies the total distortion may become the arithmetic sum of the distortions of the divisions.

(4) The transmitting system output noise level (frequency modulation) in the band of 50 to 15,000 cycles shall be at least 55 db below the audio frequency level representing a frequency swing of ±25 kc.

NOTE: For the purpose of these measurements, the visual transmitter should be inoperative since the exact amount of noise permissible from that source is not known at this time.

(5) The transmitting system output noise level (amplitude modulation) in the band of 50 to 15,000 cycles shall be at least 50 db below the level representing 100 percent amplitude modulation.

NOTE: For the purpose of these measurements, the visual transmitter should be inoperative since the exact amount of noise permissible from that source is not known at this time.

(6) If a limiting or compression amplifier is employed, precaution should be maintained in its connection in the circuit due to the use of pre-emphasis in the transmitting system.

(7) The percentage of modulation of the aural transmissions shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice and in no case less than 85 percent nor more than 100 percent on peaks of frequent recurrence during any selection which normally is transmitted at the highest level of the program under consideration.

(c) *Requirements applicable to both visual and aural transmitters.* (1) Automatic means shall be provided in the visual transmitter to maintain the carrier frequency within ±one kilocycle of the authorized frequency; automatic means shall be provided in the aural transmitter to maintain the carrier frequency 4.5 megacycles above the actual visual carrier frequency within ±one kilocycle.

(2) The transmitters shall be equipped with suitable indicating instruments for the determination of operating power and with other instruments necessary for proper adjustment, operation, and maintenance of the equipment.

(3) Adequate provision shall be made for varying the output power of the transmitters to compensate for excessive variations in line voltage or for other factors affecting the output power.

(4) Adequate provisions shall be provided in all component parts to avoid overheating at the rated maximum output powers.

(d) *Construction.* In general, the transmitters shall be mounted either on racks and panels or in totally enclosed frames protected as required by article 810 of the National Electrical Code, and as set forth below:

NOTE: The pertinent sections of article 810 of the National Electrical Code read as follows: "8191. General; Transmitters shall comply with the following:

"a. *Enclosing.* The transmitter shall be enclosed in a metal frame or grille, or separated from the operating space by a barrier or other equivalent means, all metallic parts of which are effectually connected to ground.

"b. *Grounding of controls.* All external metallic handles and controls accessible to the operating personnel shall be effectually grounded. No circuit in excess of 150 volts shall have any parts exposed to direct contact. A complete dead-front type of switchboard is preferred.

"c. *Interlocks on doors.* All access doors shall be provided with interlocks which will disconnect all voltages in excess of 350 volts when any access door is opened."

(1) Means shall be provided for making all tuning adjustments, requiring voltages in excess of 350 volts to be applied to the circuit, from the front of the panels with all access doors closed.

(2) Proper bleeder resistors or other automatic means shall be installed across all the capacitor banks to lower any voltage which may remain accessible with access door open to less than 350 volts within two seconds after the access door is opened.

(3) All plate supply and other high voltage equipment, including transformers, filters, rectifiers and motor generators, shall be protected so as to prevent injury to operating personnel.

(i) Commutator guards shall be provided on all high voltage rotating machinery. Coupling guards should be provided on motor generators.

(ii) Power equipment and control panels of the transmitters shall meet the above requirements (exposed 220-volt A. C. switching equipment on the front of the power control panels is not recommended but is not prohibited).

(iii) Power equipment located at a television broadcast station not directly associated with the transmitters (not purchased as part of same), such as power distribution panels, are not subject to the provisions of this subpart.

(4) The following provisions shall be applicable to metering equipment:

(i) All instruments having more than 1,000 volts potential to ground on the movement shall be protected by a cage or cover in addition to the regular case. (Some instruments are designed by the manufacturers to operate safely with voltages in excess of 1,000 volts on the movement. If it can be shown by the manufacturer's rating that the instrument will operate safely at the applied potential, additional protection is not necessary.)

(ii) In case the plate voltmeters are located on the low potential side of the multiplier resistors with the high potential terminal of the instruments at or less than 1,000 volts above ground, no protective case is required. However, it is good practice to protect voltmeters subject to more than 5,000 volts with suitable over-voltage protective devices across the instrument terminals in case the winding opens.

(iii) Transmission line meters and any other radio frequency instrument which may be necessary for the operator to read shall be so installed as to be read easily and accurately without the operator having to risk contact with circuits carrying high potential radio frequency energy.

(e) *Wiring and shielding.* (1) The transmitter panels or units shall be wired in accordance with standard practice, such as insulated leads properly cabled and supported, coaxial cables, or rigid bus bar properly insulated and protected.

(2) Wiring between units of the transmitters, with the exception of circuits carrying radio frequency energy or video energy, shall be installed in conduits or approved fiber or metal raceways to protect it from mechanical injury.

(3) Circuits carrying radio frequency or video energy between units shall be coaxial cables, two wire balanced lines, or property shielded lines.

(4) All stages or units shall be adequately shielded and filtered to prevent interaction and radiation.

(5) The frequency and modulation monitors and associated radio frequency lines to the transmitter shall be thoroughly shielded.

(f) *Auxiliary transmitters.* Auxiliary transmitters may not exceed the power rating of the main transmitters. As a general guide, specifications for auxiliary transmitters should conform as much as possible to those of the main transmitters. No requirements are set forth at this time.

(g) *Installation.* (1) The installation of transmitting equipment shall be made in suitable quarters.

(2) Suitable facilities shall be provided for the welfare and comfort of the operator.

(h) *Spare tubes.* (1) A spare tube of every type employed in the transmitters and the frequency and modulation monitors shall be kept on hand at the equipment location. When more than one tube of any type is employed, the following table determines the number of spares of that type required:

Number of each type employed:	*Spares required*
1 or 2	1
3 to 5	2
6 to 8	3
9 or more	4

(2) An accurate circuit diagram and list of required spare tubes, as furnished by the manufacturer of the equipment, shall be supplied and retained at the transmitter location.

(i) *Operation.* (1) Spurious emissions, including radio frequency harmonics, shall be maintained at as low a level as the state of the art permits. As measured at the output terminals of the transmitter (including harmonic filters, if required) all emissions removed in frequency in excess of 3 Mc above or below the respective channel edge shall be attenuated no less than 60 db. below the visual transmitted power. (The 60 db. value for television transmitters specified in this rule should be considered as a temporary requirement which may be increased at a later date, especially when more higher-powered equipment is utilized. Stations should, therefore, give consideration to the installation of equipment with greater attenuation than 60 db.) In the event of interference caused to any service greater attenuation will be required.

(2) If a limiting or compression amplifier is used in conjunction with the aural transmitter, due operating precautions should be maintained because of pre-emphasis in the transmitting system.

(j) *Studio equipment.* Studio equipment shall be subject to all the above requirements where applicable, except as follows:

(1) If properly covered by an underwriter's certificate, it will be considered as satisfying safety requirements.

(2) Section 8191 of article 810 of the National Electrical Code shall apply for voltages only in excess of 500 volts.

(3) No specific requirements are made relative to the design and acoustical treatment of studios. However, the design of studios, particularly the main studio, shall be compatible with the required performance characteristics of television broadcast stations.

§ 3.688 *Indicating instruments.* (a) Each television broadcast station shall be equipped with indicating instruments for measuring the direct plate voltage and current of the last radio stage of the visual and aural transmitters and the transmission line radio frequency current, voltage, or power of both transmitters; such instruments shall conform to the specifications therefor set forth in this subpart.

(b) The following requirements and specifications shall apply to indicating instruments used by television broadcast stations in compliance with paragraph (a) of this section:

(1) Length of scale shall be not less than 2⅜ inches.

(2) Accuracy shall be at least 2 percent of the full scale reading.

(3) Scale shall have at least 40 divisions.

(4) Full scale reading shall be not greater than five times the minimum normal indication.

(5) No specifications are prescribed at this time regarding the peak indicating device required by § 3.689 (b).

(c) Any required instrument, the accuracy of which is questionable, shall not be employed. Repairs and calibration of instruments shall be made by the manufacturer, or by an authorized instrument repair service of the manufacturer, or by some other properly qualified or equipped instrument repair service. In any case, the repaired instrument must be supplied with a certificate of calibration.

(d) Recording instruments may be employed in addition to the indicating instruments to record the direct plate current and/or voltage to the last radio stage provided that they do not affect the operation of the circuits or accuracy of the indicating instruments. If the records are to be used in any proceeding before the Commission, as representative of operation, the accuracy must be the equivalent of the indicating instruments and the calibration shall be checked at such intervals as to insure the retention of such accuracy.

(e) The function of each instrument used in the equipment shall be clearly and permanently shown on the instrument itself or on the panel immediately adjacent thereto.

(f) In the event that any one of the indicating instruments required by paragraph (a) of this section becomes defective when no substitute which conforms with the required specifications is available, the station may be operated without the defective instrument pending its repair or replacement for a period not in excess of 60 days: *Provided*, That—

(1) Appropriate entries shall be made in the operating log of the station, showing the date and time the meter was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the instrument is found to be defective and immediately after the repaired or replacement instrument has been installed and is functioning properly.

(3) If the defective instrument is a plate voltmeter or plate ammeter in the last radio stage, the operating power shall be maintained by means of the radio frequency transmission line meter.

(4) If conditions beyond the control of the licensee prevent the restoration of the meter to service within the above allowed period, informal request may be filed in accordance with § 1.332 (d) of this chapter with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument.

§ 3.689 *Operating power*—(a) *Determination*—(1) *Visual transmitter.* The operating power of the visual transmitter shall be determined at the output terminal of the vestigial sideband filter, if such filter is used; otherwise, at the transmitter output terminal. The average power shall be measured while operating into a dummy load of substantially zero reactance and a resistance equal to the transmission line surge impedance, while transmitting a standard black television picture. The peak power shall be the power obtained by this method, multiplied by the factor 1.68. During this measurement the direct plate voltage and current of the last radio stage and the peak output voltage or current shall be read for use below.

(2) *Aural transmitter.* The operating power of the aural transmitter shall be determined by the indirect method. This is the product of the plate voltage (*Ep*) and the plate current (*Ip*) of the last radio stage, and an efficiency factor, *F*; that is:

$$\text{Operating power} = Ep \times Ip \times F$$

(i) The efficiency factor, *F*, shall be established by the transmitter manufacturer for each type of transmitter for which he submits data to the Commission, and shall be shown in the instruction books supplied to the customer with each transmitter. In the case of composite equipment, the factor *F* shall be furnished to the Commission by the applicant along with a statement of the basis used in determining such factor.

(b) *Maintenance*—(1) *Visual transmitter.* The peak power shall be monitered by a peak reading device which reads proportionally to voltage, current, or power in the radio frequency transmission line, the meter to be calibrated during the measurement described in paragraph (a) (1) of this section. The operating power as so monitored shall be maintained as near as practicable to the authorized operating power and shall not exceed the limits of 10 percent above and 20 percent below the authorized power except in emergencies. As a further check, both the plate voltage and plate current of the output stage shall be measured with a standard black television picture with the transmitter operating into the antenna. These values must agree substantially with corresponding readings taken under paragraph (a) (1) of this section.

(2) *Aural transmitter.* The operating power of the aural transmitter shall be maintained as near as practicable to the authorized operating power, and shall not exceed the limits of 10 percent above and 20 percent below the authorized power except in emergencies.

(3) *Reduced power.* In the event it becomes impossible to operate with the authorized power, the station may be operated with reduced power for a period of 10 days or less provided the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately thereafter and also upon the resumption of the normal operating power.

MONITORING EQUIPMENT

§ 3.690 *Frequency monitors.* (a) The licensee of each television broadcast station shall have in operation at the transmitter approved frequency monitors independent of the frequency control of the transmitters.

NOTE: Approved frequency monitors are included on the Commission's "Radio Equipment List, Part A, Television Broadcast Equipment." Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event the visual or aural frequency monitor becomes defective, the station may be operated without such equipment pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided*, That:

(1) Appropriate entries shall be made in the operating log of the station to show the date and time the equipment was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the equipment is found to be defective and immediately after the repaired or replacement equipment has been installed and is functioning properly.

(3) During the period when the station is operated without the visual or aural frequency monitor, the respective carrier frequency shall be compared with an external frequency source of known accuracy at sufficiently frequent intervals to insure that the frequency is maintained within the tolerance prescribed in § 3.687 (c) (1). An entry shall be made in the station log as to the method used and the results thereof.

(4) If conditions beyond the control of the licensee or permittee prevent the restoration of the monitor or monitoring equipment to service within the period specified above, an informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument or equipment.

§ 3.691 *Modulation monitors.* (a) The licensee of each television broadcast station shall have in operation at the transmitter an approved modulation monitor for the aural transmitter. There shall also be employed sufficient monitoring equipment for the visual signal to determine that the signal complies with the requirements of this subpart.

NOTE: Approved aural modulation monitors are included on the Commission's "Radio Equipment List, Part A, Television Broadcast Equipment." Copies of this list are available for inspection at the Commission's office in Washington, D. C., and at each of its field offices.

(b) In the event the visual monitoring equipment or the aural modulation monitor becomes defective, the station may be operated without such equipment pending its repair or replacement for a period not in excess of 60 days without further authority of the Commission: *Provided*, That:

(1) Appropriate entries shall be made in the operating log of the station to show the date and time the equipment was removed from and restored to service.

(2) The Engineer in Charge of the radio district in which the station is located shall be notified both immediately after the equipment is found to be defective and immediately after the repaired or replacement equipment has been installed and is functioning properly.

(3) During the period when the station is operated without the aural modulation monitor or the visual monitoring equipment, the licensee shall provide other suitable means for insuring that the aural modulation is maintained within the tolerance prescribed in § 3.687 (b) (7) and that the visual signal is maintained in accordance with the requirements of this subpart.

(4) If conditions beyond the control of the licensee or permittee prevent the restoration of the monitor or monitoring equipment to service within the period specified above, an informal request in accordance with § 1.332 (d) of this chapter may be filed with the Engineer in Charge of the radio district in which the station is located for such additional time as may be required to complete repairs of the defective instrument or equipment.

§ 3.692 *General requirements for type approval of frequency and modulation monitors.* (a) Any manufacturer desiring to submit a monitor for type approval shall supply the Commission with full specification details (two sworn copies) as well as the test data specified in §§ 3.693 and 3.694. If this information appears to meet the requirements of the rules, shipping instructions will be issued to the manufacturer. The shipping charges to and from the Laboratory at Laurel, Maryland, shall be paid for by the manufacturer. Approval of a monitor will only be given on the basis of the data obtained from the sample monitor submitted to the Commission for test.

(b) In approving a monitor upon the basis of the tests conducted by the Laboratory, the Commission merely recognizes that the type of monitor has the inherent capability of functioning in compliance with the rules, if properly constructed, maintained, and operated. The Commission realizes that the frequency monitor may have limited range over which the visual indicator will determine deviations. Accordingly, it is necessary that adjunct equipment be used to determine major deviations.

(c) Additional rules with respect to withdrawal of type approval, modification of type approved equipment and limitations on the findings upon which type approval is based are set forth in Part 2, Subpart F, of this chapter.

(d) A monitor which is not included on the Commission's Radio Equipment List, Part A, Television Broadcast Equipment, but is in use at a television station prior to December 12, 1955, may continue to be used by the licensee, his successors or assignees in business until June 1, 1957.

§ 3.693 *Requirements for type approval of frequency monitors.* (a) The specifications that frequency monitors shall meet before they will be approved by the Commission are as follows:

(1) The monitors shall have an accuracy of better than 500 cycles for 30 days under ordinary conditions (ambient, temperature from 10° centigrade to 40° centigrade above zero, humidity from 10 percent to 95 percent relative humidity, power supply variations from 90 percent to 110 percent, and other conditions which may affect its accuracy) encountered in television broadcast stations throughout the United States.

(2) The range of the indicating device for the aural monitor shall be at least 3000 cycles below to 3000 cycles above the assigned center frequency. Alternatively, the aural monitor may use an indicating device with a similar scale to indicate the difference-frequency between the aural and visual carriers. The range of the indicating device for the visual monitor shall be at least 1500 cycles below to 1500 cycles above the assigned carrier frequency.

(3) The scale of the indicating device shall be calibrated in divisions of not more than 100 cycles.

(4) Means shall be provided for adjustment of the monitor indication to agree with an external standard.

(5) The monitors shall be capable of continuous operation and the circuits shall be such as to permit continuous monitoring of the transmitter carrier frequencies, and the difference-frequency between the visual and aural carriers if this method of measurement is used.

(6) Operation of the monitors shall have no adverse effect on the operation of either the aural or visual transmitters or the signals emitted therefrom and shall be independent of the frequency control of the transmitters.

(7) Means shall be provided for insuring power input level.

(8) General design, construction and operation shall be in accordance with good engineering practice.

(b) Tests to be made for approval of television broadcast frequency monitors. The manufacturer of a monitor shall submit data on the following at the time of requesting approval:

(1) Constancy of oscillator frequency, as measured daily for one month, or more.

(2) Constancy of oscillator frequency when subject to vibration tests which would correspond to the treatment received in shipping, handling and installing the instrument.

(3) Accuracy of reading of the frequency deviation instrument.

(4) Functioning of frequency adjustment device.

(5) Effects on frequency readings, of the changing of tubes, of voltage variations, and of variations of room temperature through a range from 10° to 40° C.

(6) Response of indicating instrument to small changes of frequency.

(7) General information on the effect of tilting or tipping or other tests to determine ability of equipment to withstand shipment.

(c) Various other tests may be made or required, such as effects of variation of input from the transmitter depending upon the character of the apparatus.

(d) Tests shall be conducted in such a manner as to approximate actual operating conditions as nearly as possible. The equipment shall be tested on the highest channel for which it is designed.

§ 3.694 *Requirements for type approval of aural modulation monitors.* (a) The required aural modulation monitor may or may not be a part of the frequency monitor.

(b) The specifications that the aural modulation monitor shall meet before it will be approved by the Commission are as follows:

(1) Means shall be provided for indicating that the signal input to the modulation monitor is in the range required for proper operations.

(2) A modulation peak indicating device shall be provided that can be set at any pre-determined value from 50 to 120 percent modulation (±25 kc swing is defined as 100 percent modulation) and for either positive or negative swings (i. e. either above or below transmitter center frequency).

(3) A quasi-peak indicator with a meter having the characteristics given below shall be used with a circuit such that peaks of modulation of duration between 40 and 90 milliseconds are indicated to 90 percent of full value and the discharge rate adjusted so that the pointer returns from full reading to within 10 percent of zero within 500 to 800 milliseconds. A switch shall be provided so that this meter will read either positive or negative swings. Until June 1, 1957, however, monitors having meters which read either positive or negative swings will be eligible for type approval.

(4) When modulation of a magnitude necessary to produce a deflection equivalent to 100 percent modulation is suddenly applied and left on, the indicating instrument shall not deflect beyond 110 percent on the first passage of the 100 percent mark and shall have excursion from the final value of less than 1 percent after one second or more.

(5) The meter scale shall be similar in appearance to that of a standard VU meter. The scale length between 0 and 100 percent modulation markings shall be at least 2.3 inches. In addition to other markings a small marker for 133 percent modulation, designated as such, should be included for the purpose of testing the transmitter with 33.3 kc swing.

(6) The indicated reading in percentage shall be accurate within ±5 (based on 100 percent modulation) at any percentage of modulation up to 100.

(7) The frequency characteristic curve as measured at 50 percent modulation shall not depart from a straight line more than ± ½ db from 50 to 15,000 cycles. Distortion shall be kept to a minimum.

(8) The monitor shall not absorb appreciable power from the transmitter.

(9) Operation of the monitor shall have no adverse effect on the operation of the transmitter.

(10) General design, construction, and operation shall be in accordance with good engineering practice.

(c) Tests to be made for approval of television broadcast aural modulation monitors. The manufacturer of a monitor shall submit data on the following at the time of requesting approval:

(1) Audio frequency response of the monitor from 50 to 15,000 cycles in db from the response at 400 cycles.

(2) Distortion in the response.

(3) Input signal power required.

(4) Permissible tolerance on input signal power to keep the meter reading correct within 5 percent units.

(5) Ballistic characteristics of the monitor indicator.

(d) Various other tests may be made or required depending on the character of the apparatus.

(e) Tests shall be conducted in such a manner as to approximate actual operating conditions as nearly as possible. The equipment shall be tested on the highest channel for which it is designed.

§§ 3.695–3.697 [Reserved.]

83	75	78–81	82	76	69	68

NOTE: The parenthetical reference beneath the mileage figures in columns 2 through 7, inclusive, indicate, in abbreviated form, the bases for the required mileage separations. For a discussion of these bases, see the "Sixth Report and Order" of the Commission (FCC 52-294). The hyphenated numbers listed in column (3) are both inclusive.

§ 3.699 *Engineering charts.*

NOTE: The charts as reproduced herein, due to their small scale, are not to be used in connection with material submitted to the F. C. C.

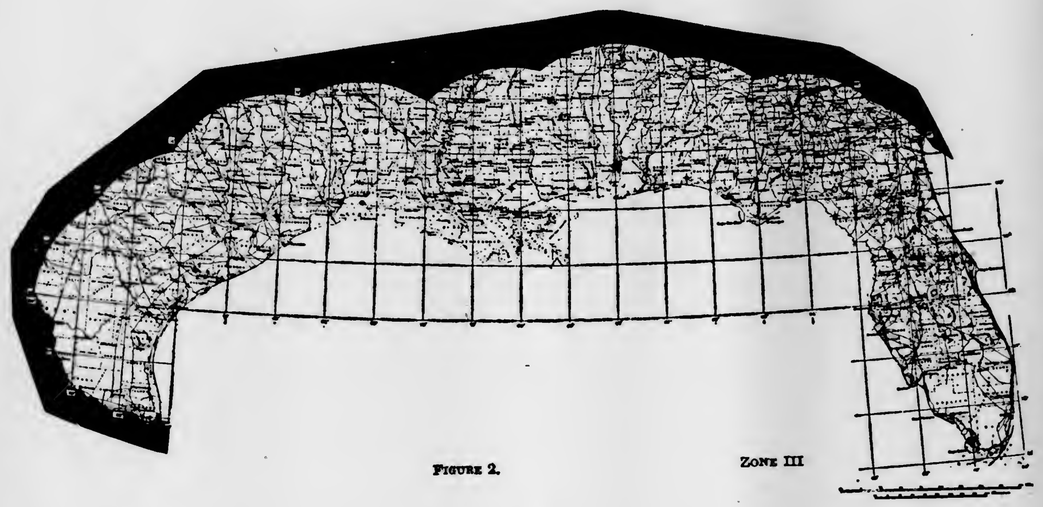

FIGURE 2.

ZONE III

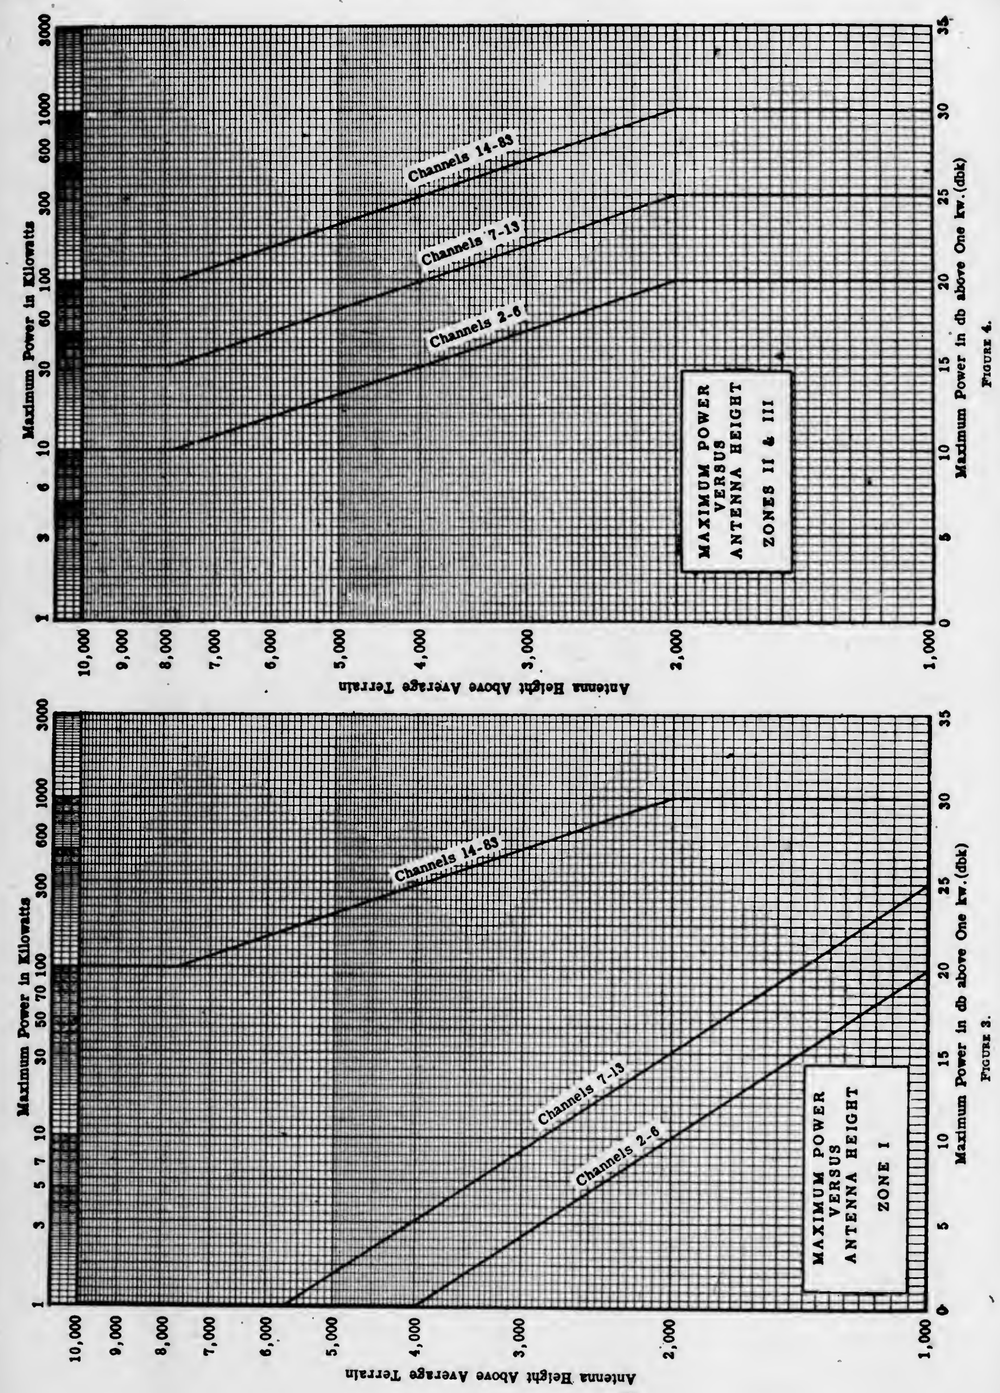

FIGURE 4.

FIGURE 3.

IDEALIZED PICTURE TRANSMISSION
AMPLITUDE CHARACTERISTIC

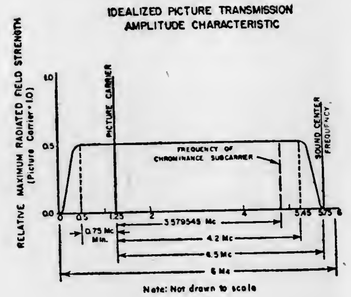

FIGURE 5.

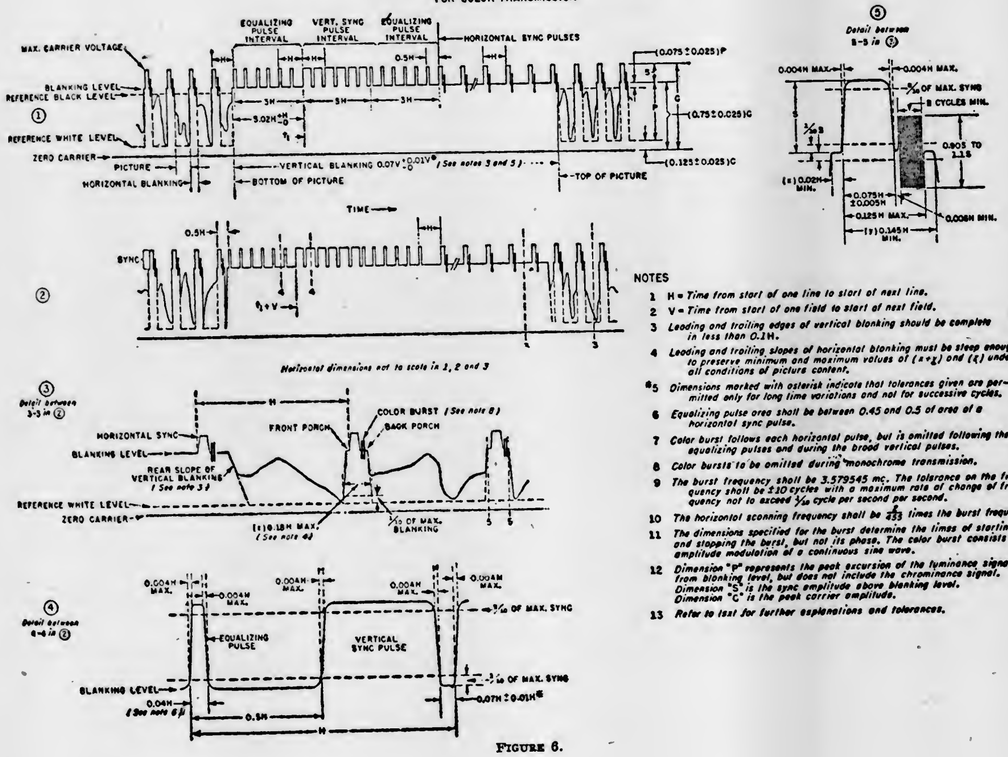
TELEVISION SYNCHRONIZING WAVEFORM
FOR COLOR TRANSMISSION



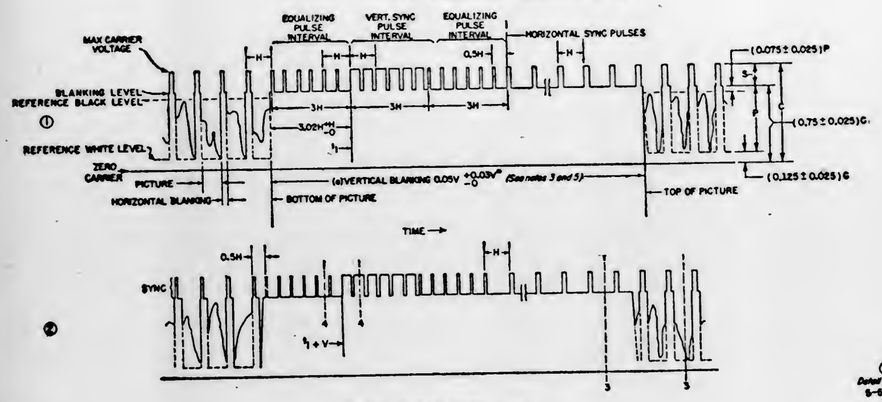


FIGURE 6.

NOTES

1 H = Time from start of one line to start of next line.
2 V = Time from start of one field to start of next field.
3 Leading and trailing edges of vertical blanking should be complete in less than 0.1H.
4 Leading and trailing slopes of horizontal blanking must be steep enough to preserve minimum and maximum values of (a+g) and (g) under all conditions of picture content.
*5 Dimensions marked with asterisk indicate that tolerances given are permitted only for long time variations and not for successive cycles.
6 Equalizing pulse area shall be between 0.45 and 0.5 of area of a horizontal sync pulse.
7 Color burst follows each horizontal pulse, but is omitted following the equalizing pulses and during the broad vertical pulses.
8 Color bursts to be omitted during monochrome transmission.
9 The burst frequency shall be 3.579545 mc. The tolerance on the frequency shall be ±10 cycles with a maximum rate of change of frequency not to exceed 1/10 cycle per second per second.
10 The horizontal scanning frequency shall be 2/455 times the burst frequency.
11 The dimensions specified for the burst determine the times of starting and stopping the burst, but not its phase. The color burst consists of amplitude modulation of a continuous sine wave.
12 Dimension "P" represents the peak excursion of the luminance signal from blanking level, but does not include the chrominance signal. Dimension "S" is the sync amplitude above blanking level. Dimension "C" is the peak carrier amplitude.
13 Refer to text for further explanations and tolerances.

TELEVISION SYNCHRONIZING WAVEFORM
FOR MONOCHROME TRANSMISSION ONLY

NOTES
1 H = Time from start of one line to start of next line.
2 V = Time from start of one field to start of next field.
3 Leading and trailing edges of vertical blanking should be complete in less than 0.1 H.
4 Leading and trailing slopes of horizontal blanking must be steep enough to preserve minimum and maximum values of (1+y) and (2) under all conditions of picture content.
*5 Dimensions marked with asterisk indicate that tolerances given are permitted only for long time variations and not for successive cycles.
6 Equalizing pulse area shall be between 0.45 and 0.5 of area of a horizontal sync pulse.
7 Refer to text for further explanations and tolerances.

DEFINITIONS AND ALLOCATION OF FACILITIES

§ 3.701 *Definitions.* The following definitions apply to terminology employed in this subpart:

(a) *International broadcast station.* A broadcasting station employing frequencies allocated to the broadcasting service between 5950 and 26100 kc, whose transmissions are intended to be received directly by the general public in foreign countries.

(b) *Frequency-hour.* One frequency used for one hour.

(c) *Day.* Any twenty-four hour period beginning 0000 EST and ending 2400 EST.

(d) *Sunspot number.* The predicted 12 month running average of the number of sunspots for any month as indicated in the National Bureau of Standards CRPL Series D publications.

(e) *Vernal equinox season.* That period of any calendar year starting at 0000 EST on 1 February and ending at 2400 EST on 30 April.

(f) *Summer season.* That period of any calendar year starting at 0000 EST on 1 May and ending at 2400 EST on 31 July.

(g) *Autumnal equinox season.* That period of any calendar year starting at 0000 EST on 1 August and ending at 2400 EST on 31 October.

(h) *Winter season.* That period of any calendar year starting at 0000 EST on 1 November and ending at 2400 EST on 31 January.

(i) *Maximum usable frequency (MUF).* The highest frequency which is returned to the surface of the earth for a particular path and time of day on 50 percent of the days of the reference month.

(j) *Optimum working frequency (OWF).* The frequency which is returned to the surface of the earth for a particular path and time of day on 90 percent of the days of the reference month.

(k) *Reference month.* The middle month of any season listed in § 3.704 "Daily Frequency Hour Availability Table."

(l) *Delivered median field intensity or field intensity.* The field intensity incident upon the target area expressed in microvolts per meter, or decibels above one mircovolt per meter, which is exceeded by the hourly median value on 50 percent of the days of the reference month.

(m) *Target area.* Geographic area in which the reception of particular programs is specifically intended and in which adequate broadcast coverage is contemplated.

(n) *Contract operation.* Any non-Government operation of an international broadcast station pursuant to a contract with an agency of the United States Government and subject to Governmental control as to program content, target areas to be covered, and time of broadcast.

(o) *Private operation.* Any non-Government operation of an International Broadcast station which is not contract operation.

§ 3.702 *Assignment and use of frequencies.*

NOTE: Paragraphs (c) through (k) do not apply to stations when engaged in contract operations as defined in § 3.701.

(a) Frequencies will be assigned by the Commission from time to time and in accordance with the provisions of this section, to authorized international broadcast stations for use at specified hours and for transmission to specified target areas. Licensees may request the assignment of specific frequencies for transmission during given hours of operation to specified target areas by filing informal requests in triplicate with the Commission no less than 15 days prior to the start of a new season. Such requests will be honored to the extent that interference and propagation conditions permit and that they are otherwise in accordance with the provisions of this section. Requests for changes in frequency or hour assignments at other times during the year or which are received less than 15 days before the start of a new season will be processed as rapidly as practical. All specific frequency authorizations will be made only on the express understanding that they are subject to immediate cancellation or change without hearing whenever the Commission determines that interference or propagation conditions so require and that each assignment of frequency hours for a given season is unique unto itself and not subject to renewal, with the result that completely new assignments must be secured for the forthcoming season. Where a station is simultaneously engaged in both private and contract broadcasting, as defined in § 3.701, it must receive separate frequency hour authorizations for each of these operations.

(b) Any foreign standard target areas shown in Figure 1 of § 3.792 may be specified by the licensee, in which case field intensity calculations should be based on the transmission path between the corresponding reference points listed in § 3.703. In the event a broadcast is to be directed to more than one target area in the same region, the *primary* target area should be specified and the reasons for selecting that particular target area given, with special reference to the nature and special suitability, if any, of the programming proposed. Field intensity calculations should be based on the transmission path to the standard reference point in § 3.703 for the primary target area. In the event a licensee wishes to specify target areas other than those shown in Figure 1 of § 3.792, adequate justification must be given to show that the use of standard target areas is inappropriate, with special reference given to any specialized programming proposed which appears suitable only for the nonstandard target areas designated. When nonstandard target areas are proposed, special reference points must be specified (by geographical coordinates) and reasonably chosen so as to insure complete and adequate coverage of the target areas.

(c) Frequencies assigned by the Commission will be within the following bands:

	Kilocycles
Band A	5950–6200
Band B	9500–9775
Band C	11700–11975
Band D	15100–15450
Band E	17700–17900
Band F	21450–21750
Band G	25600–26100

(d) No frequency will be assigned which would provide a Delivered Median Field Intensity, either measured or calculated, of less than 150 uv/m—50 percent or 43.5 decibels above one uv/m at the distant foreign target area. (This value of Delivered Median Field Intensity is expected to provide protection against atmospheric and industrial noise for at least 90 percent of each hour during 90 percent of the days of the month.) With each request for frequency assignment, licensees must submit computations which adequately show that this requirement would be met.

NOTE: Standard OWF propagation curves and Delivered Median Field Intensity curves for the various hours and seasons throughout the eleven year sunspot cycle have been computed for transmission paths between standard reference points listed in § 3.703 for the standard target areas shown in Figure 1 of § 3.792. These curves, which were developed and used at the Mexico City High Frequency Broadcasting Conference (1948–1949), are available at the Commission's Washington offices and may be used in calculating the propagation data which licensees are required to provide under these Rules. The methods used in computing these data are described in Chapter 7, paragraph 7.7 of the National Bureau of Standards Circular 462. In lieu of that data, and in all cases where nonstandard target areas are specified as provided in paragraph (b) of this section, licensees must develop their own propagation curves for use in computing values of OWF and Delivered Median Field Intensity for the particular transmission paths involved. In doing so, use may be made of the published propagation data of the National Bureau of Standards known as CRPL Series D, "Basic Radio Propagation Predictions", published monthly in conjunction with National Bureau of Standards Circular 465, "Instructions for the use of Basic Radio Propagation Predictions." These publications are available from the Superintendent of Documents, Washington 25, D. C. A typical example of a computation for a transmission path between standard target areas is from New York (Area 8) to Buenos Aires (Area 15). The Delivered Median Field Intensity for the equinox season, sunspot 5, and for the 6 Mc band for the hours 0200 to 0400 GMT is indicated by the appropriate propagation curve as 24 decibels above one microvolt per meter for 1 kw radiated power. The transmitter power output of 20 decibels (100 kw) is added. The transmitting antenna gain of 12 decibels is added. The resultant total (56 decibels) exceeds the level of 43.5 decibels required to deliver a median field intensity of 150 uv/m at the distant target area.

(e) Frequencies assigned will be as near as possible to the Optimum Working Frequency. In no case will they exceed the Maximum Usable Frequency for more than a total of 15 minutes during any period of transmission. With each request for frequency assignment, licensees must submit computations which adequately show that this requirement would be met. (See note in paragraph (d) of this section regarding methods for computation.)

(f) Not more than one frequency will be authorized for use at any one time for any one program transmission except in instances where a program is intended for reception in more than one target area and the intended target areas cannot be served by a single frequency.

(g) No authorization for use of a particular frequency will be issued which fails to provide a minimum co-channel Delivered Median Field Intensity protection ratio of 40 db to the transmissions of other broadcasting stations at the reference point in the target area being served by such stations which, in the opinion of the Commission, have priority of assignment.

(h) Authorization for use of a particular frequency will not be issued which does not provide a minimum adjacent channel Delivered Median Field Intensity protection ratio of 11 db to the transmissions of other international broadcasting stations at the reference points in the target areas being served by such stations which, in the opinion of the Commission, have priority of assignment.

(i) Any frequency authorized to an international broadcast station shall also be available for assignment to other international broadcast stations.

(j) Not more than one frequency shall be used simultaneously under the same authorization and call letter and equipment installation number designation.

(k) Subject to all other pertinent provisions of this subpart, the total maximum number of frequency-hours which will be authorized to all licensees of private international broadcast stations for private operation combined in any frequency band for any pertinent season during any one day will be those in § 3.704 less the number of frequency-hours in these bands scheduled for use by both (1) government international broadcasting stations, and (2) international broadcast stations licensed by the Commission to use frequencies in these bands for contract operations.

(l) In the event the total number of frequency hours in any band scheduled for both (1) government international broadcasting stations, and (2) international broadcast stations licensed by the

Commission to use frequencies in these bands for contract operations equals or exceeds 75 percent of the frequency hour figures given in § 3.704, the maximum number of frequency-hours which will be authorized to all licensees of international broadcast stations for private operation in any frequency band for any pertinent season during any one day will be 25 percent of the frequency hours shown in § 3.704.

(m) If the requests for international broadcasting frequency-hours for private operation in any band or bands exceed those available under the terms of these Rules, in the absence of any voluntary agreement for reduction of frequency-hours requested, the Commission will designate all requests for frequency-hours in the band or bands in question for hearing. Pending such hearing the Commission will temporarily assign the available frequency-hours equally among the several applicants: *Provided, however,* That with respect to such temporary allocation:

(1) An existing license shall not, to the extent such frequency hours are available, receive less than the number of frequency-hours utilized during the preceding season or requested for the forthcoming season, whichever is lesser.

(2) Where the number of frequency-hours available for private international broadcasting during a forthcoming season are insufficient to permit existing licensees to secure a temporary allocation equal to that previously utilized or requested, whichever is lesser, the allocation shall be pro-rated among such persons in a manner which will give them a share of the available frequency-hours proportionate to that utilized in the preceding season.

(3) In any event, where an applicant's share of the available frequency hours would be more than requested, the surplus shal be divided among the remaining applicants in the manner herein prescribed.

§ 3.703 *Latitude and longitude of areas used for field intensity calculations.*

ADMINISTRATIVE PROCEDURE

§ 3.711 *Application for international broadcast stations.* (a) If the application is for a construction permit or for modification of an existing authorization, FCC Form 309 shall be filed; if for a license, FCC Form 310 shall be filed; if for a renewal of license, FCC Form 311 shall be filed.

NOTE: Until these forms are revised, information required by these Rules and not required by the forms shall be submitted as a supplement to the application and will be considered a part thereof.

(b) Authorizations issued to international broadcast stations by the Commission will not specify the frequencies or hours of use, but will be authorizations to permit the construction or use of a particular transmitting equipment combination and related antenna systems for international broadcasting.

NOTE: Requests for the use of frequencies and frequency hours for transmissions to specific target areas should be submitted separately as provided in § 3.702.

(c) In the case of applications for authorizations to permit contract operations, as defined in § 3.701 (n), the contracting agency and contract number should be indicated for each operation.

§ 3.712 *Full disclosures.* Each application shall contain full and complete disclosures with regard to the real party or parties in interest, and their legal, technical, financial, and other qualifications, and as to all matters and things required to be disclosed by the application forms.

§ 3.713 *Installation of apparatus.* Applications for construction permit or modification thereof, involving the installation of new transmitting apparatus, shall be filed at least 60 days prior to the contemplated installation.

§ 3.714 *Period of construction.* Each construction permit will specify a maximum of 60 days from the date of granting thereof as the time within which construction of the station shall begin, and a maximum of six months thereafter as the time within which construction shall be completed and the station ready for operation, unless otherwise determined by the Commission upon proper showing in any particular case.

§ 3.715 *Forfeiture of construction permits; extension of time.* (a) A construction permit shall be automatically forfeited if the station is not ready for operation within the time specified therein or within such further time as the Commission may have allowed for completion, and a notation of the forfeiture of any construction permit under this provision will be placed in the records of the Commission as of the expiration date.

(b) An application (FCC Form 701) for extension of time within which to construct a station shall be filed at least 30 days prior to the expiration date of such permit if the facts supporting such application for extension are known to the applicant in time to permit such filing. In other cases such applications will be accepted upon a showing satisfactory to the Commission of sufficient reasons for filing within less than 30 days prior to the expiration date. Such applications will be granted upon a specific and detailed showing that the failure to complete was due to causes not under the control of the grantee, or upon a specific and detailed showing of other matters sufficient to justify the extension.

(c) If a construction permit has been allowed to expire for any reason, application may be made for a new permit on FCC Form 321, "Application for Construction Permit to Replace Expired Permit."

§ 3.716 *Equipment tests.* (a) During the process of construction of an international broadcast station, the permittee after notifying the Commission and Engineer in Charge of the radio district in which the station is located may, without further authority of the Commission, conduct equipment tests for the purpose of such adjustments and measurements as may be necessary to assure compliance with the terms of the construction permit, the technical provisions of the application therefore, and the rules and regulations. No programming shall be conducted during equipment tests.

(b) The Commission may notify the permittee to conduct no tests or may cancel, suspend, or change the date for the beginning of equipment tests as and when such action may appear to be in the public interest, convenience, and necessity.

(c) Equipment tests may be continued so long as the construction permit shall remain valid.

(d) Inspection of a station will ordinarily be required during the equipment test period. After construction and after adjustments and measurements have been completed to show compliance with the terms of the construction permit, the technical provisions of the application therefore, and the rules and regulations, the permittee should notify the Engineer in Charge of the radio district in which the station is located that it is ready for inspection.

(e) The authorization for tests embodied in this section shall not be construed as constituting a license to operate but as a necessary part of construction.

§ 3.717 [Reserved.]

§ 3.718 *Normal license period.* All international broadcast station licenses will be issued so as to expire at the hour of 3 a. m. eastern standard time and will be issued for a normal license period of 1 year expiring November 1.

§ 3.719 *License; simultaneous modification and renewal.* When an application is granted by the Commission necessitating the issuance of a modified license less than 60 days prior to the expiration date of the license sought to be modified, and an application for renewal of said license is granted subsequent or prior thereto (but within 30 days of expiration of the present license) the modified license as well as the renewal license shall be issued to conform to the combined action of the Commission.

§ 3.720 *Renewal of license.* (a) Unless otherwise directed by the Commission, each application for renewal of an international broadcast station license shall be filed at least 90 days prior to the expiration date of the license sought to be renewed (FCC Form 311). No application for renewal of license of an international broadcast station will be considered unless there is on file with the Commission, the information currently required by §§ 1.341–1.344 of this chapter reference to which by date and file number shall be included in the application.

(b) Whenever the Commission regards an application for a renewal of an international broadcast station license as essential to the proper conduct of a hearing or investigation, and specifically directs that it be filed by a date certain, such application shall be filed within the time thus specified. If the licensee fails to file such application within the prescribed time, the hearing or investigation shall proceed as if such renewal application had been received.

§ 3.721 [Reserved.]

§ 3.722 *Repetitious applications.* (a) Where an applicant has been afforded an opportunity to be heard with respect to a particular application for a new international broadcast station, or for change of existing service or facilities, and the Commission has, after hearing or default, denied the application or dismissed it with prejudice, the Commission will not consider another application for a station of the same class to serve in whole or in part the same area, by the same applicant or by his successor or assignee, or on behalf of or for the benefit of the original parties in interest, until after the lapse of 12 months from the effective date of the Commission's order.

(b) Where an appeal has been taken from the action of the Commission in denying a particular application, another application for the same class of broadcast station and for the same area, in whole or in part, filed by the same applicant or by his successor or assignee, or on behalf or for the benefit of the original parties in interest, will not be considered until the final disposition of such appeal.

§ 3.723 *Assignment or transfer of control*—(a) *Voluntary.* Application for consent to voluntary assignment of an international station construction permit or license or for consent to voluntary transfer of control of a corporation holding an international station construction permit or license shall be filed with the Commission on FCC Form 314 (Assignment of License), FCC Form 315 (Transfer of Control) or FCC Form 316 (Short Form) at least 60 days prior to the contemplated effective date of assignment or transfer of control.

(b) *Pro forma.* Assignment or transfer applications shall be filed on FCC Form 316 where:

(1) There is an assignment from an individual or individuals (including partnerships) to a corporation owned and controlled by such individuals or partnerships without any substantial change in their relative interests;

(2) There is an assignment from a corporation to its individual stockholders without effecting any substantial change in the disposition of their interests;

(3) There is an assignment or transfer by which certain partners or stockholders retire but no new ones are brought in, provided that the interest transferred is not a controlling one;

(4) There is a corporate reorganization which involves no substantial change in the beneficial ownership of the corporation;

(5) There is an involuntary transfer to an Executor, Administrator or other court appointed officer caused by death or legal disability except that this form does not cover assignments (or transfers) from the Executor, Administrator or other court appointed officers to the ultimate beneficiary;

(6) There is an assignment or transfer from a corporation to a wholly owned subsidiary thereof or vice versa, or where there is an assignment from a corporation to a corporation owned or controlled by the assignor stockholders without substantial change in their interests;

(7) There is an assignment of less than a controlling interest in a partnership.

(c) *Involuntary.* In the event of the death or legal disability of a permittee or licensee, or a member of a partnership, or a person directly or indirectly in control of a corporation, which is a permittee or licensee:

(1) The Commission shall be notified in writing promptly of the occurrence of such death or legal disability, and

(2) Within thirty days after the occurrence of such death or legal disability, application on FCC Form 316 shall be filed for consent to involuntary assignment of such international station permit or license or for involuntary transfer of control of such corporation to a person or entity legally qualified to succeed to the foregoing interests under the laws of the place having jurisdiction over the estate involved.

LICENSING POLICIES

§ 3.731 *Licensing requirements; necessary showing.* A license for an international broadcast station will be issued only after a satisfactory showing has been made in regard to the following, among others:

(a) That there is a need for the international broadcast service proposed to be rendered.

(b) That the necessary program sources are available to the applicant to render an effective international service.

(c) That directive antennas and other technical facilities will be employed to deliver maximum signals to the target area or areas for which the service is designed.

(d) That the production of the program service and the technical operation of the proposed station will be conducted by qualified persons.

(e) That the applicant is technically and financially qualified and possesses adequate technical facilities to carry forward the service proposed.

(f) That the public interest, convenience and necessity will be served through the operation of the proposed station.

EQUIPMENT

§ 3.751 *Power requirement.* No international broadcast station will be authorized to install equipment or licensed for operation with a power less than 50 kilowatts.

§ 3.752 *Frequency control.* The transmitter of each international broadcast station shall be equipped with automatic frequency control apparatus so designed and constructed that it is capable of maintaining the operating frequency within the following limits:

(a) Until July 1, 1956, the frequency tolerance will be plus or minus 0.005 percent.

(b) After July 1, 1956, the frequency tolerance will be plus or minus 0.003 percent.

§ 3.753 *Antenna.* The antenna shall be so designed and operated that the signal (field intensity) toward the specific foreign country or countries served shall be at least 3.16 times the average effective signal from the station (power gain of 10).

§ 3.754 *Frequency monitors.* (a) The licensee of each international broadcast station shall operate at the transmitter a frequency monitor independent of the frequency control of the transmitter.

(b) The frequency monitor shall be designed and constructed in accordance with good engineering practice and shall have an accuracy sufficient to determine that the operating frequency is within one-half of the allowed tolerance.

§ 3.755 *Modulation monitors.* The licensee of each international broadcast station shall have in operation at the transmitter a modulation monitor.

§ 3.756 *Required transmitter performance.* (a) The construction, installation, operation, and performance of the international broadcast transmitter system shall be in accordance with good engineering practice.

NOTE: The establishment of specific levels of attenuation for spurious emissions will be the subject of further Rule Making in Docket 10962 pending the completion of additional studies of this matter.

(b) In addition to the requirements of paragraph (a) of this section in the event spurious emissions cause harmful interference, such additional steps as may be necessary to eliminate the interference must be taken immediately by the licensee.

§ 3.757 *Auxiliary transmitters.* Upon showing that a need exists for the use of auxiliary transmitters in addition to the regular transmitters of an international broadcast station, a license therefor may be issued provided that:

(a) Auxiliary transmitters may be installed either at the same location as the main transmitters or at another location.

(b) A licensed operator shall be in control whenever auxiliary transmitters are placed in operation.

(c) The auxiliary transmitters shall be maintained so that they may be put into immediate operation at any time for the following purposes:

(1) The transmission of the regular programs upon the failure of the main transmitters.

(2) The transmission of regular programs during maintenance or modification work on the main transmitter, necessitating discontinuance of its operation for a period not to exceed 5 days. (This includes the equipment changes which may be made without authority as set forth elsewhere in the Rules and Regulations or as authorized by the Commission by letter or by construction permit. Where such operation is required for periods in excess of 5 days, request therefor shall be in accordance with § 1.324 of this chapter.)

(3) Upon request by a duly authorized representative of the Commission.

(d) The auxiliary transmitters shall be tested at least once each week to determine that they are in proper operating condition and that they are adjusted to the proper frequency except that in the case of operation in accordance with paragraph (c) of this section during any week, the test in that week may be omitted provided the operation under paragraph (c) of this section is satisfactory. A record shall be kept of the time and result of each test. Such records shall be retained for a period of two years.

(e) The auxiliary transmitters shall be equipped with satisfactory control equipment which will enable the maintenance of the frequency emitted by the station within the limits prescribed by the regulations in this part.

(f) The operating power of an auxiliary transmitter may be less than the authorized power of the main transmitters, but in no event shall it be greater than such power.

§ 3.758 *Alternate main transmitters.* The licensee of an international broadcast station may be licensed for alternate main transmitters provided that a technical need for such alternate transmitters is shown and that the following conditions are met:

(a) Both transmitters are located at the same place.

(b) Both transmitters shall have the same power rating.

(c) Both transmitters shall meet the construction, installation, operation, and performance requirements of good engineering practice.

§ 3.759 *Changes in equipment and antenna system.* Licensees of international broadcast stations shall observe the following provisions with regard to changes in equipment and antenna system:

(a) No changes in equipment shall be made:

(1) That would result in the emission of signals outside of the authorized channel.

(b) Specific authority, upon filing formal application (FCC Form 309) therefor, is required for any of the following changes:

(1) Changes involving an increase or decrease in the power rating of the transmitters.

(2) A replacement of the transmitters as a whole.

(3) Change in the location of the transmitting antenna

(4) Change in location of main studio, if it is proposed to move the main studio to a different city from that specified in the license.

(5) Change in the power delivered to the antenna.

(6) Change in frequency control and/or modulation system.

(c) Other changes, except as above provided for in this section may be made at any time without the authority of the Commission, provided that the Commission shall be promptly notified thereof and such changes shall be shown in the next application for renewal of license.

TECHNICAL OPERATION

§ 3.761 *Time of operation.* (a) All international broadcast stations will be licensed for unlimited time operation except as may be directed by the Commission from time to time. In an emergency however, when, due to causes beyond the control of the licensee, it becomes impossible to continue operation, the station may cease operation for a period not to exceed 10 days, provided that the Commission and the Engineer in Charge of the radio district in which the station is located shall be notified in writing immediately after the emergency develops.

(b) Persons desiring to enter into a voluntary sharing arrangement of an international channel may file application therefor with the Commission. Copies of the time-sharing agreement should be filed with the application.

§ 3.762 *Station inspection.* The licensee of any international broadcast station shall make the station available for inspection by representatives of the Commission at any reasonable hour.

§ 3.763 *Station license, posting of.* The original of each station license shall be posted in the transmitter room.

§ 3.764 *Operator requirements.* One or more licensed radiotelephone first class operators shall be on duty at the place where the transmitting apparatus of each station is located and in actual charge thereof whenever it is being operated. The original license (or FCC Form 759) of each station operator shall be posted at the place where he is on duty. The licensed operator on duty and in charge of an international broadcast transmitter may, at the discretion of the licensee, be employed for other duties or for the operation of another station or stations in accordance with the class of operator's license which he holds and by the rules and regulations governing such stations. However, such duties shall in nowise interfere with the operation of the broadcast transmitter.

§ 3.765 *Operating power; how determined.* The operating power, and its maintenance, of each international broadcast station shall be in conformity with good engineering practice.

§ 3.766 *Modulation.* The percentage of modulation of the transmissions shall be maintained as high as possible consistent with good quality of transmission and good broadcast practice and in no case less than 50 percent nor more than 100 percent on peaks of frequent recurrence during any selection which normally is transmitted at the highest level of the program under consideration.

§ 3.767 *Frequency tolerance.* The operating frequencies of international broadcast station transmitters shall, at all times, be maintained within the frequency tolerances specified in § 3.752.

§ 3.768 *Antenna structure, marking and lighting.* Where an antenna structure(s) is required to be painted or lighted see § 17.37, *Inspection of tower lights and associated control equipment;* § 17.39, *Cleaning and repainting;* § 17.40 *Time when lights shall be exhibited;* § 17.41, *Spare lamps;* and § 17.42, *Lighting equipment;* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.769 *Discontinuance of operation.* The licensee of each station, except stations operating in Alaska, shall notify the Engineer in Charge of the radio district in which the station is located of any of the following changes in the status of such station at least two days before such change:

(a) Temporary discontinuance of operation for a period of ten days or more;

(b) The date of resumption of operation after temporary discontinuance of operation for a period of ten days or more;

(c) Permanent discontinuance of operation.

In all cases of permanent discontinuance of operation the licensee shall, in addition to notifying the Engineer in Charge of the radio district in which the station is located of intention to discontinue operation, immediately forward the station license to the Washington, D. C., office of the Commission for cancellation.

OTHER OPERATION

§ 3.781 *Logs.* The licensee or permittee of each international broadcast station shall maintain program and operating logs in the following manner:

(a) In the program log:

(1) An entry of the time each station identification announcement (call letters and location) is made.

(2) An entry briefly describing each program broadcast, such as "music", "drama", "speech", etc., together with the name or title thereof, language, and the sponsor's name, with the time of the beginning and ending of the complete program.

(3) An entry showing, for each program of network origin, the name of the network originating the program.

(b) In the operating log:

(1) An entry of the time the station begins to supply power to the antenna, and the time it stops.

(2) An entry of the time the program begins and ends.

(3) An entry of each interruption to the carrier wave, its cause, and duration.

(4) An entry of the following each 30 minutes:

(i) Operating constants of last radio stage of the transmitter (total plate current and plate voltage).

(ii) Frequency monitor reading.

(5) A log must be kept of all experimental operation. If the entries required above are not applicable thereto, then the entries shall be made so as to fully describe the operation.

(c) Where an antenna structure(s) is required to be illuminated, see § 17.38, *Recording of tower light inspections in the station record,* of Part 17 of this chapter (Construction, Marking and Lighting of Antenna Structures).

§ 3.782 *Logs; retention of.* Logs of international broadcast stations shall be retained by the licensee or permittee for a period of two years: *Provided, however,* That logs involving communications incident to a disaster or which include communications incident to or involved in an investigation by the Commission and concerning which the licensee or permittee has been notified, shall be retained by the licensee or permittee until he is specifically authorized in writing by the Commission to destroy them: *Provided, further,* That logs incident to or involved in any claim or complaint of which the licensee or permittee has notice shall be retained by the licensee or permittee until such claim or complaint has been fully satisfied or until the same has been barred by statute limiting the time for the filing of suits upon such claims.

§ 3.783 *Logs; by whom kept.* Each log shall be kept by the person or persons competent to do so, having actual knowledge of the facts required, who shall sign the log when starting duty and again when going off duty. The logs shall be made available upon request by an authorized representative of the Commission.

§ 3.784 *Log form.* The log shall be kept in an orderly manner, in suitable form, and in such detail that the data required for the particular class of station concerned are readily available. Key letters or abbreviations may be used if proper meaning or explanation is contained elsewhere in the log.

§ 3.785 *Correction of logs.* No log or portion thereof shall be erased, obliterated, or willfully destroyed within the period of retention provided by the rules. Any necessary correction may be made only by the person originating the entry who shall strike out the erroneous portion, initial the correction made, and indicate the date of correction.

§ 3.786 *Rough logs.* Rough logs may be transcribed into condensed form, but in such case, the original log or memoranda and all portions thereof shall be preserved and made a part of the complete log.

§ 3.787 *Station identification.* (a) A licensee of an international broadcast station shall make station identification announcement (call letters and location), at the beginning and ending of each time of operation and during the operation on the hour.

(b) Station identification, program announcements, and oral continuity shall be made with international significance (language particularly) which is designed for the foreign country or countries for which the service is primarily intended.

(c) Identification announcements during operation need not be made when to make such announcement would interrupt a single consecutive speech, play, religious service, symphony concert, or any type of production. In such cases the identification announcement shall be made at the first interruption of the entertainment continuity and at the conclusion thereof.

§ 3.788 *Service; commercial or sponsored programs.* (a) A licensee of an international broadcast station shall render only an international broadcast service which will reflect the culture of this country and which will promote international goodwill, understanding, and cooperation. Any program solely intended for, and directed to an audience in the continental United States does not meet the requirements for this service.

(b) Such international broadcast service may include commercial or sponsored programs: *Provided,* That:

(1) Commercial program continuities give no more than the name of the sponsor of the program and the name and general character of the commodity, utility or service, or attraction advertised.

(2) In case of advertising a commodity, the commodity is regularly sold or is being promoted for sale on the open market in the foreign country or countries to which the program is directed in accordance with paragraph (c) of this section.

(3) In case of advertising an American utility or service to prospective tourists or visitors to the United States, the advertisement continuity is particularly directed to such persons in the foreign country or countries where they reside and to which the program is directed in accordance with paragraph (c) of this section.

(4) In case of advertising an international attraction (such as a world fair, resort, spa, etc.) to prospective tourists or visitors to the United States, the oral continuity concerning such attraction is consistent with the purpose and intent of this section.

(5) In case of any other type of advertising, such advertising is directed to the foreign country or countries to which the program is directed and is consistent with the purpose and intent of this section.

(c) The geographic areas to be served by international broadcast stations are the foreign standard target areas shown in Figure 1 of § 3.792, or foreign nonstandard target areas as provided in § 3.702 (d), and directive antennas shall be employed to direct the transmission to these specific target areas.

(d) An international broadcast station may transmit the program of a standard

broadcast station or network system: *Provided*, The conditions in paragraph (b) of this section in regard to any commercial continuities are observed and when station identifications are made, only the call letter designation of the international station is given on its assigned frequency: *And provided further*, That in the case of chain broadcasting the program is not carried simultaneously by another international station (except another station owned by the same licensee operated on a frequency in a different group to obtain continuity of signal service), the signals from which are directed to the same area. (See section 3 (p) of the Communications Act of 1934 for the definition of "chain broadcasting.")

§ 3.789 *Sponsored programs; announcement of.* (a) In the case of each program for the broadcasting of which money, services, or other valuable consideration is either directly or indirectly paid or promised to, or charged or received by, any radio broadcast station, the station broadcasting such program shall make, or cause to be made, an appropriate announcement that the program is sponsored, paid for, or furnished, either in whole or in part.

(b) In the case of any political program or any program involving the discussion of public controversial issues for which any films, records, transcriptions, talent, scripts, or other material or services of any kind are furnished, either directly or indirectly, to a station as an inducement to the broadcasting of such program, an announcement shall be made both at the beginning and conclusion of such program on which such material or services are used that such films, records, transcriptions, talent, scripts, or other material or services have been furnished to such station in connection with the broadcasting of such program: *Provided, however*, That only one such announcement need be made in the case of any such program of 5 minutes' duration or less, which announcement may be made either at the beginning or conclusion of the program.

(c) The announcement required by this section shall fully and fairly disclose the true identity of the person or persons by whom or in whose behalf such payment is made or promised, or from whom or in whose behalf such services or other valuable consideration is received, or by whom the material or services referred to in paragraph (b) of this section are furnished. Where an agent or other person contracts or otherwise makes arrangements with a station on behalf of another, and such fact is known to the station, the announcement shall disclose the identity of the person or persons in whose behalf such agent is acting instead of the name of such agent.

(d) In the case of any program, other than a program advertising commercial products or services, which is sponsored, paid for or furnished, either in whole or in part, or for which material or services referred to in paragraph (b) of this section are furnished, by a corporation, committee, association or other unincorporated group, the announcement required by this section, shall disclose the name of such corporation, committee, association, or other unincorporated group. In each such case the station shall require that a list of the chief executive officers or members of the executive committee or of the board of directors of the corporation, committee, association, or other unincorporated group shall be made available for public inspection at one of the international broadcast stations carrying the program.

(e) In the case of programs advertising commercial products or services, an announcement stating the sponsor's corporate or trade name or the name of the sponsor's product, shall be deemed sufficient for the purposes of this section and only one such announcement need be made at any time during the course of the program.

§ 3.790 *Rebroadcast.* (a) The licensee of an international broadcast station may, without further authority of the Commission, rebroadcast the program of a United States standard, FM non-commercial educational, or FM broadcast station, provided the Commission is notified of the call letters of each station rebroadcast and the licensee certifies that express authority has been received from the licensee of the station originating the program. The notice and certification of consent must be given within 3 days of any single rebroadcast, but in case of the regular practice of rebroadcasting certain programs of another broadcast station several times during a license period, notice and certification of consent must be given for the ensuing license period with the application for renewal of license, or at the beginning of such rebroadcast practice if begun during a license period.

NOTE: The broadcasting of a program relayed by a remote pickup broadcast station is not considered a rebroadcast.

(b) No licensee of an international broadcast station shall rebroadcast the programs of any other class of United States radio station without written authority having first been obtained from the Commission.

(c) A licensee of an international broadcast station may authorize the rebroadcast of its programs by any station outside the limits of the North American continent without permission from the Commission: *Provided*, That the station rebroadcasting the programs cannot be received consistently in the United States.

§ 3.791 *Supplemental report with renewal application.* A supplemental report shall be filed with and made a part of each application for renewal of license and shall include statements of the following:

(a) The number of hours operated on each frequency, listing contract operations and private operations separately.

(b) Outline of reports of reception and interference and conclusions with regard to propagation characteristics of assigned frequencies. (If such information is not available to the applicant in the case of contract operations, a statement to this effect will be considered adequate.)

§ 3.792 *Engineering chart.*

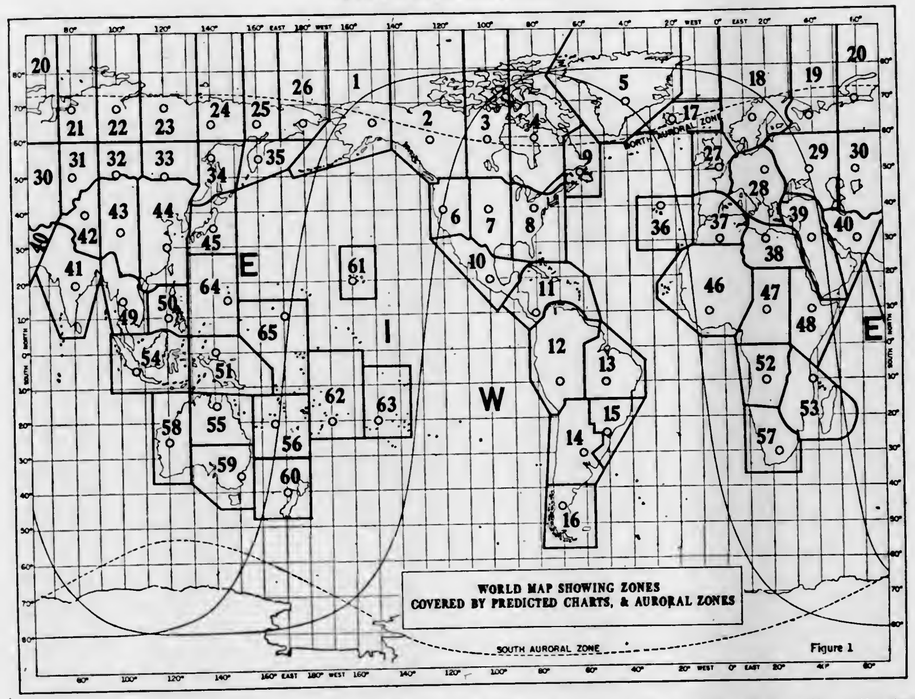

Figure 1

SUBPART G—CONELRAD

SCOPE AND OBJECTIVE

§ 3.901 *Scope of subpart.* This subpart applies to all standard, FM and TV broadcast stations and is for the purpose of providing for operation of certain stations located within the Continental United States during periods of enemy air attack or imminent threat thereof.

§ 3.902 *Object of plan.* The aim of this plan is to minimize the navigational aid that may be obtained from the continued operation of broadcast stations while at the same time providing for transmission of civil defense information to the public. During CONELRAD radio alert periods, when not broadcasting civil defense programs or alert or all-clear notification messages, these stations may, on their own responsibility, broadcast such other programs as they may desire.

DEFINITIONS

§ 3.910 *CONELRAD.* The word CONELRAD is a contraction of the words Control of Electromagnetic Radiation and is the general name given to required procedures under authority of Executive Order 10312 dated December 10, 1951 (3 CFR, 1951 Supp.)

§ 3.911 *Air Defense Control Center (ADCC).* An air operations center from which an air division (defense) commander supervises and coordinates air defense activities within an air defense sector, including dissemination of warnings, identification and security control of air traffic and utilization of available combat forces in support of the national air defense effort.

§ 3.912 *Basic key station.* A station that receives the radio alert by telephone directly from the ADCC. Basic key stations relay radio alerts to other stations by radio and by telephone.

§ 3.913 *Relay key station.* A station that receives the radio alert by telephone or radio broadcast from a basic key station or other relay key station. Relay key stations pass the radio alert on to other stations by radio broadcast or telephone.

§ 3.914 *Skywave key station.* A station designated to disseminate a radio alert by broadcast primarily during the experimental period as an alternate for local key stations which may not be in operation. It will normally be capable of disseminating the alert over a wide area by means of skywave transmission.

§ 3.915 *Radio alert.* The radio alert is the Department of Defense order to operate stations in accordance with CONELRAD requirements for a period of time, as determined by the Air Division Commander or higher military authority.

§ 3.916 *Radio all clear.* The radio all clear is the Department of Defense order to discontinue CONELRAD requirements, as imposed by an outstanding radio alert, with authorization to return to normal operation. It is initiated by the Air Division Commander or higher military authority.

§ 3.917 *Cluster.* A cluster is a group of broadcast stations serving a single area, all operating on the same CONELRAD system frequency. All stations in a cluster will be inter-connected by wire lines and will carry a common program.

§ 3.918 *Sequential control lines.* Sequential control lines are the wire lines inter-connecting the several stations in a cluster. By means of a mechanical, manual or electronic device at a central control point, the stations in a cluster are turned on and off in sequence over the circuits provided by the sequential control lines. In some cases these lines may also carry the cluster program.

§ 3.919 *CONELRAD manual.* The CONELRAD manual is the document containing the detailed description of how broadcast stations will be alerted and operated in the CONELRAD system. The manual will be subject to modification from time to time as experience indicates a need for such changes.

SUPERVISION

§ 3.920 *Zones.* CONELRAD activities under the authority of FCC are under the immediate supervision of three FCC Zone Supervisors whose respective zones are coextensive with the three Air Defense Force Areas. (Each broadcast

station will be furnished the name and address of the Zone Supervisor of its Zone.)

§ 3.921 *Divisions.* Each zone is divided into several divisions corresponding to the USAF Air Divisions. An FCC Coordinating Engineer is assigned to each Air Division and has responsibility under the Zone Supervisor for all CONELRAD activities under the authority of FCC in his division.

RADIO ALERTS

§ 3.930 *Notification of a radio alert.* (a) All notifications of radio alerts and all clears shall be issued by the Air Defense Control Center(s) (ADCC) under the authority of the Air Division Commander or his duly authorized representative, to all basic key stations. All relay key stations will, in turn be notified by the basic key stations or other relay key stations. The remaining stations will then be notified by basic key stations or relay key stations. These notifications will be accomplished either by telephone messages or by radio broadcast.

(b) During the experimental period many of the regular key stations may be off the air. All standard, FM and TV stations will be supplied with the list of skywave key stations at least one of which must be monitored during any period of operation when the regularly used key station is not on the air.

§ 3.931 *Reception of a radio alert.* All standard, FM and TV broadcast stations, including basic key and relay key stations, must install the necessary equipment to receive notifications of radio alerts and radio all clears by means of reception of radio broadcast messages, and must maintain this equipment in a state of readiness for reception, including arrangements for human listening watch or automatic alarm devices or both. Such equipment should have its termination at the transmitter control location.

§ 3.932 *Operation during a radio alert.* (a) Immediately upon receipt of a radio alert, either by radio broadcast or telephone, all standard, FM and TV broadcast stations, including such stations operating under equipment or program test authority, will follow the prescribed procedure and transmit an approved sign-off message as set forth in the CONELRAD Manual For Broadcast Stations, then remove the transmitter from the air.

(b) Those stations which are authorized to participate in the operating system will immediately take necessary steps and begin operations on assigned frequencies in accordance with the terms of their CONELRAD authorizations and current operating instructions. All other broadcast stations will observe radio silence until the radio all clear.

(c) No identification may be broadcast between the time the radio alert is received and the time the radio all clear is announced, unless expressly authorized by the FCC. The transmission of any information which would serve to identify the geographical location of the station is prohibited.

(d) A station operating in the CONELRAD system may transmit in accordance with its CONELRAD authorization during a radio alert beyond its normal hours and nothing in its regular license or other instrument of authorization shall prevent such operation in the CONELRAD system.

(e) Prior to commencing routine operation or originating any emissions under program test, equipment test, experimental or other authorization or for any other purpose, licensees or permittees shall first ascertain whether a state of radio alert exists and if so shall refrain from operation or operate in the CONELRAD system whichever is appropriate.

RADIO ALL CLEAR

§ 3.940 *Notification of a radio all clear.* The radio all clear notification will be transmitted through the same channels as the radio alert. Stations operating in the CONELRAD system will transmit the radio all clear message on the CONELRAD system frequency. Key stations will, as soon as possible thereafter, follow the prescribed procedure and broadcast the radio all clear message on their regular operating frequency. All stations, including FM and TV stations, upon resuming regular operation will follow the prescribed procedure and immediately broadcast the radio all clear message.

SYSTEM OPERATION

§ 3.950 *Procedure.* Each broadcast station permitted to operate during a radio alert must observe operating procedures for the mode of operation to which it is assigned, as set forth in detail in the CONELRAD Manual For Broadcast Stations.

§ 3.951 *Participation.* (a) Any standard broadcast station desiring to participate in a CONELRAD operating system should contact the Zone Supervisor, indicate the station's willingness to make such technical modification of the station equipment as might be necessary to permit operation on a system frequency and with such power limitations as might be necessary. The Commission will then issue a CONELRAD authorization to the station specifying the frequency to be used by the station. Stations which have indicated a willingness to participate in CONELRAD on a voluntary basis prior to the effective date of this rule need not take any further steps.

(b) At such time as technical consideration may warrant the inclusion of FM and TV broadcast stations within the operating CONELRAD system, appropriate announcement will be made by the Commission and application for participation made as above set forth.

(c) Any station participating in CONELRAD system operations may withdraw from the system by giving thirty days' notice to the FCC Zone Supervisor in writing and by submitting its CONELRAD authorization for cancellation.

(d) Broadcast stations are specifically exempt from complying with § 3.57 while operating under their CONELRAD authorization.

TESTS

§ 3.960 *Alerting system.* Tests of the alerting system will be conducted periodically.

§ 3.961 *Sequential control lines.* Sequential control and program lines must be tested at frequent intervals and results reported in the prescribed manner to the FCC Zone Supervisor.

§ 3.962 *Entire system.* Tests of the entire system will be conducted from time to time. During such tests, all stations which are authorized to operate in the CONELRAD system will operate in accordance with terms of the CONELRAD authorization. Other stations will not be required to go off the air during such tests but will be subject to any interference which might result from the CONELRAD operation. Such tests will be scheduled to take place during the experimental period. Industry representatives will be consulted prior to conducting CONELRAD system tests to obtain views relative to the action and to coordinate the activity.

§ 3.963 *Equipment.* The licensee of each station authorized to participate in CONELRAD system operation shall make such tests of his equipment as may be necessary to assure it is ready for instant use.

§ 3.964 *Log entries.* Appropriate entries of all tests shall be made in the station log.

DRILLS

§ 3.970 *Notification of a drill.* At some time it may be necessary to conduct an Air Defense Drill under conditions of simulated attack. Industry representatives will be consulted prior to conducting CONELRAD drills to obtain views relative to the action and to coordinate the activity. Such drills will only be called when the Department of Defense, the Office of Defense Mobilization, and the Federal Communications Commission concurrently agree that the drill is necessary. All stations will be notified well in advance of such a drill.

§ 3.971 *Operation during a drill.* During a drill, all standard, FM and TV broadcast stations will take the same steps as such stations would be required to take in the event of an actual radio alert under this part of the rules and current operating instructions as set forth in the CONELRAD Manual For Broadcast Stations, except for special drill messages.

[F. R. Doc. 55-9821; Filed, Dec. 8, 1955; 8:45 a. m.]

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter II—National Bureau of Standards, Department of Commerce

PART 235—TRANSCRIPT SERVICES

In accordance with the public information requirements of the Administrative Procedure Act, Information regarding Transcript Services provided by the National Bureau of Standards (13 F. R. 8371) is hereby amended. Notice and hearing on the fees indicated are unnecessary for the reason that such procedure, because of the nature of these rules, serves no useful purpose (5 U. S. C. 1003a). This document becomes effective upon publication in the FEDERAL REGISTER.

Note: The fee for item 31–2.1 is a composite fee which includes a charge of $0.50 made since April 1, 1954, to include the Department of Commerce completion of certificate and seal.

1. Former §§ 235.1, 235.2, and 235.3 are hereby deleted.

2. Former § 235.4 is redesignated § 235.1 and amended to indicate a change in the procedure to be employed for obtaining motion picture films and to add new titles to the list.

3. Former § 235.99 is redesignated § 235.2 and amended to indicate a change in the fee.

Sec.
235.1 Motion pictures.
235.2 Certification of publications.

AUTHORITY: §§ 235.1 and 235.2 issued under R. S. 161; 5 U. S. C. 22. Interpret or apply sec. 1, 49 Stat. 292; 15 U. S. C. 189a.

§ 235.1 *Motion pictures.* The following films are available for loan upon payment of express charges both ways. Copies may also be purchased by writing to the Office of Technical Information, National Bureau of Standards, for authorization-to-purchase forms. Completed forms, upon approval by the National Bureau of Standards, may be used to authorize duplication of the film by a commercial firm who will bill the purchaser direct.

All films are 16 mm sound and color.

Item and description	*Cost*
34–1.1—"Silicate Cement", 657 feet, running time 18 minutes	$60.00
34–1.2—"Dental Amalgam: Failure Caused by Moisture Contamination", 502 feet, running time 13 minutes	47.00
34–1.3—"Denture Resin", 657 feet, running time 18 minutes	60.00
34–1.4—"The Casting of Dental Gold Alloys: Thermal Expansion Technique", 632 feet, running time 16½ minutes	58.00
34–1.5—"A Method of Mixing Silicate Cement", 329 feet, running time 8½ minutes	30.00
34–1.6—"Hazards of Dental Radiography", 505 feet, running time 13 minutes	47.00
34–1.7—"Dental Materials: Specification and Certification", 766 feet, running time 21 minutes	70.00
34–1.8—"Dental Burs in Action", 365 feet, running time 10 minutes	42.00
34–1.9—"Four Experiments in Hydraulics", 607 feet, running time 16½ minutes	56.00
34–1.10—"A True Standard", 438 feet, running time 12 minutes	41.00

Prices listed are approximate current costs, not including shipment charges, and are indicated for informational purposes only. Actual charges billed are subject to agreement between the purchaser and the firm performing the work.

§ 235.2 *Certification of publications.*

Item and description	*Fee*
31–2.1—Certification of any Bureau publication whether printed or processed (not including cost of the publication)	$1.50

For information concerning titles and prices of Bureau publications address inquiries to the Office of Publications, National Bureau of Standards, Washington 25, D. C.

A. V. ASTIN,
Director,
National Bureau of Standards.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 64]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.364 *Navel Orange Regulation 64.*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 1, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such navel oranges; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date hereof.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., December 11, 1955, and ending at 12:01 a. m., P. s. t., July 29, 1956, no handler shall handle any navel oranges, grown in District 2, which are of a size smaller than 2.31 inches in diameter, which shall be the largest measurement at a right angle to a straight line running from the stem to the blossom end of the fruit: *Provided,* That not to exceed 5 percent, by count, of the oranges contained in any type of container may measure smaller than 2.31 inches in diameter.

(2) As used in this section, "handle," "handler," and "District 2," shall have the same meaning as to when used in said amended order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 6, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

505.203 Dividends received by addressee not actual owner.
505.204 Interest.
505.205 Patent and copyright royalties.
505.206 Private pensions and life annuities.

Sec.
505.207 Beneficiaries of a domestic estate or trust.
505.208 Release of excess tax withheld at source.
505.209 Information to be furnished in ordinary course.
505.210 Effective date.

AUTHORITY: §§ 505.201 to 505.210 issued under sec. 7805, 68A Stat. 917; 26 U. S. C. 7805.

§ 505.201 *Introductory*—(a) *Pertinent provisions.* The income tax convention of April 29, 1948, between the United States and the Netherlands, as supplemented by the protocol of June 15, 1955, between such Governments, was extended to the Netherlands Antilles subject to the limitations expressed in the notification of June 24, 1952, given by the Government of the Netherlands in accordance with Article XXVII of the convention. The convention as so extended to the Netherlands Antilles, hereinafter referred to as the convention, provides in part as follows, effective on and after January 1, 1955. For that purpose all references in the convention to the Netherlands or to one or the other Contracting State, as the case may be, shall be construed to refer to the Netherlands Antilles.

ARTICLE I

(1) The taxes which are the subject of the present Convention are:

(a) In the case of the United States: the Federal income taxes.

(b) In the case of the Netherlands:

(i) For the application of the provisions of the Convention other than Article XX, the income tax and the Netherlands taxes credited against it, the corporation tax and the Netherlands taxes credited against it, • • • and the tax on fees of directors and managers of corporations; and

(ii) For the application of Articles XX to XXVIII inclusive (except Articles XXIV and XXVII), the capital accretions tax and the extraordinary capital tax.

(2) The present Convention shall apply also to any other taxes of a substantially similar character imposed by either Contracting State subsequently to the date of signature of the present Convention, or, by the government of any overseas part of the Kingdom (in the case of the Netherlands) or overseas territory (in the case of the United States) to which the present Convention is extended under Article XXVII, subsequently to the date of the notification of extension.

(3) In the event of appreciable changes in the fiscal laws of either of the Contracting States the competent authorities of the Contracting States will consult together.

ARTICLE II

(1) In the present Convention, unless the context otherwise requires:

(a) The term "United States" means the United States of America, and when used in a geographical sense means the States, the Territories of Alaska and of Hawaii, and the District of Columbia.

(b) The term "Netherlands" means only the Kingdom of the Netherlands in Europe.

(c) The term "United States corporation" means a corporation, association or other organiation or juridical entity created in the United States or under the laws of the United States or of any State or territory of the United States.

(d) The term "Netherlands corporation" means a corporation, association or other organization or juridical entity created in the Netherlands or under the laws of the Netherlands.

(e) The terms "corporation of one Contracting State" and "corporation of the other Contracting State" means a United States corporation or a Netherlands corporation, as the context requires.

(f) The term "United States enterprise" means an industrial or commercial enterprise or undertaking carried on in the United States by a citizen or resident of the United States or by a United States corporation.

(g) The term "Netherlands enterprise" means an industrial or commercial enterprise or undertaking carried on in the Netherlands by a citizen or resident of the Netherlands or by a Netherlands corporation.

(h) The terms "enterprise of one of the Contracting States" and "enterprise of the other Contracting State" mean a United States enterprise or a Netherlands enterprise, as the context requires.

(i) The term "permanent establishment", when used with respect to an enterprise of one of the Contracting States, means a branch, factory, or other fixed place of business, but does not include an agency unless the agent has, and habitually exercises, a general authority to negotiate and conclude contracts on behalf of such enterprise or has a stock of merchandise from which he regularly fills orders on behalf of such enterprise. An enterprise of one of the Contracting States shall not be deemed to have a permanent establishment in the other Contracting State merely because it carries on business dealings in such other Contracting State through a bona fide commission agent, broker or custodian acting in the ordinary course of his business as such. The fact that an enterprise of one of the Contracting States maintains in the other Contracting State a fixed place of business exclusively for the purchase of goods or merchandise shall not of itself constitute such fixed place of business a permanent establishment of such enterprise. When a corporation of one Contracting State has a subsidiary corporation which is a corporation of the other Contracting State or which is engaged in trade or business in such other Contracting State, such subsidiary corporation shall not, merely because of that fact, be deemed to be a permanent establishment of its parent corporation.

(j) The term "competent authority" or "competent authorities" means, in the case of the United States, the Commissioner of Internal Revenue or his duly authorized representative; in the case of the Netherlands, the Directeur-Generaal der Belastingen or his duly authorized representative; and, in the case of any part or territory to which provisions of the present Convention are extended under Article XXVII, the competent authority for the administration in such part or territory of the taxes to which such provisions apply.

(2) In the application of the provisions of the present Convention by either of the Contracting States, any term which is not defined in the present Convention shall, unless the context otherwise requires, have the meaning which that term has under the laws of such Contracting State relating to the taxes which are the subject of the present Convention.

• • • • • •

ARTICLE V

Income of whatever nature derived from real property and interest from mortgages secured by real property shall be taxable only in the Contracting State in which the real property is situated.

• • • • • •

ARTICLE VII

(1) The rate of United States tax on dividents derived from a United States corporation by a resident or corporation of the Netherlands not engaged in trade or business in the United States through a permanent establishment shall not exceed 15 percent: *Provided*, That such rate of tax shall not exceed 5 percent if such Netherlands corporation controls, directly or indirectly, at least 95 percent of the entire voting power in the corporation paying the dividend, and not more than 25 percent of the gross income of such paying corporation is derived from interest and dividends, other than interest and dividends from its own subsidiary corporation. Such reduction of the rate to 5 percent shall not apply if the relationship of the two corporations has been arranged or is maintained primarily with the intention of securing such reduced rate.

(2) Dividends derived from sources within the Netherlands by a resident or corporation of the United States not engaged in trade or business in the Netherlands through a permanent establishment shall be exempt from Netherlands tax.

(3) Either of the Contracting States may terminate this Article, by giving written notice of termination to the other Contracting State through diplomatic channels, on or before the thirtieth day of June in any year after the first year for which the present Convention becomes effective. In such event this Article shall cease to be effective on and after the first day of January in the year next following that in which such notice is given.

ARTICLE VIII

(1) Interest (on bonds, securities, notes, debentures, or on any other form of indebtedness), other than interest referred to in Article V of the present Convention, derived from sources within the United States by a resident or corporation of the Netherlands not engaged in trade or business in the United States through a permanent establishment, shall be exempt from United States tax; but such exemption shall not apply to such interest paid by a United States corporation to a Netherlands corporation controlling, directly or indirectly, more than 50 percent of the entire voting power in the paying corporation.

• • • • • •

ARTICLE IX

Royalties for the right to use copyrights, patents, designs, secret processes and formulae, trade marks, and other analogous property, and royalties, including rentals, in respect of motion picture films or for the use of industrial, commercial or scientific equipment, derived from sources within one of the Contracting States by a resident or corporation of the other Contracting State not engaged in trade or business in the former State through a permanent establishment, shall be exempt from tax imposed by the former State.

• • • • • •

ARTICLE XII

Dividends and interest paid by a Netherlands corporation shall be exempt from United States tax except where the recipient is a citizen, resident, or corporation of the United States.

• • • • • •

ARTICLE XV

• • • • • •

(2) Private pensions and life annuities derived from within one of the Contracting States and paid to individuals in the other Contracting State shall be exempt from taxation in the former State.

(3) The term "pensions" as used in this Article means periodic payments made in consideration for services rendered or by way of compensation for injuries received.

(4) The term "life annuities" as used in this Article means a stated sum payable periodically at stated times during life, or during a specified number of years, under an obligation to make the payments in return for adequate and full consideration in money or money's worth.

• • • • • •

ARTICLE XXI

The competent authorities of the Contracting States shall exchange such information (being information which such authorities have in proper order at their disposal) as is necessary for carrying out the provisions of the present convention or for the prevention of fraud or the administration of statutory provisions against legal avoidance in relation to the taxes which are the subject of the present Convention. Any information so exchanged shall be treated as secret and shall not be disclosed to any person other than those concerned with the assessment and collection of the taxes which are the subject of the present Convention. No information as aforesaid shall be exchanged which would disclose any trade, business, industrial or professional secret or trade process.

ARTICLE XXII

(1) The Contracting States undertake to lend assistance and support to each other in the collection of the taxes which are the subject of the present Convention, together with interest, costs, and additions to the taxes and fines not being of a penal character.

(2) In the case of applications for enforcement of taxes, revenue claims of each of the Contracting States which have been finally determined may be accepted for enforcement by the other Contracting State and collected in that State in accordance with the laws applicable to the enforcement and collection of its own taxes. The State to which application is made shall not be required to enforce executory measures for which there is no provision in the law of the State making the application.

(3) Any application shall be accompanied by documents establishing that under the laws of the State making the application the taxes have been finally determined.

(4) The assistance provided for in this Article shall not be accorded with respect to the citizens, corporations, or other entities of the State to which application is made, except as is necessary to insure that the exemption or reduced rate of tax granted under the convention to such citizens, corporations or other entities shall not be enjoyed by persons not entitled to such benefits.

ARTICLE XXIII

(1) In no case shall the provisions of Article XXI and XXII be construed so as to impose upon either of the Contracting States the obligation.

(a) To carry out administrative measures at variance with the regulations and practice of either Contracting State, or

(b) To supply particulars which are not procurable under its own legislation or that of the State making application.

(2) The State to which application is made for information or assistance shall comply as soon as possible with the request addressed to it. Nevertheless, such State may refuse to comply with the request for reasons of public policy or if compliance would involve violation of a trade, business, industrial or professional secret or trade process. In such case it shall inform, as soon as possible, the State making the application.

• • • • • •

ARTICLE XXV

(1) The provisions of the present Convention shall not be construed to restrict in any manner any exemption, deduction, credit or other allowance accorded by the laws of one of the Contracting States in the determination of the tax imposed by such State.

(2) Should any difficulty or doubt arise as to the interpretation or application of the present Convention, the competent authorities of the Contracting States shall undertake to settle the question by mutual agreement.

(3) The citizens or subjects of one of the Contracting States shall not, while resident in the other Contracting State, be subjected therein to other or more burdensome taxes than are the citizens or subjects of such other Contracting State residing in its territory. The term "citizens" or "subjects" as used in this Article includes all legal persons, partnerships and associations deriving their status from, or created or organized under the laws in force in, the respective Contracting States. In this Article the word "taxes" means taxes of every kind or description whether national, federal, state, provincial or municipal.

ARTICLE XXVI

(1) The authorities of each of the Contracting States, in accordance with the practices of that State, may prescribe regulations necessary to carry out the provisions of the present Convention.

(2) With respect to the provisions of the present Convention relating to exchange of information and mutual assistance in the collection of taxes, the competent authorities may, by common agreement, prescribe rules concerning matters of procedure, forms of application and replies thereto, conversion of currency, disposition of amounts collected, minimum amounts subject to collection, and related matters.

ARTICLE XXVII

(1) Either of the Contracting States may, at the time of exchange of instruments of ratification or thereafter while the present Convention continues in force, by a written notification of extension given to the other Contracting State through diplomatic channels, declare the desire of the government of any overseas part of the Kingdom (in the case of the Netherlands) or overseas territory (in the case of the United States), which imposes taxes substantially similar in character to those which are the subject of the present Convention, that the operation of the present Convention, either in whole or as to such provisions thereof as may be deemed to have special application, shall extend to such part or territory.

(2) In the event that a notification is given by one of the Contracting States in accordance with paragraph (1) of this Article, the present Convention, or such provisions thereof as may be specified in the notification, shall apply to any part or territory named in such notification on and after the first day of January [immediately preceding] the date of a written communication through diplomatic channels addressed to such Contracting State by the other Contracting State, after such action by the latter State as may be necessary in accordance with its own procedures, stating that such notification is accepted in respect of such part or territory. In the absence of such acceptance, none of the provisions of the present Convention shall apply to such part or territory.

(3) At any time after the expiration of one year from the effective date of an extension made by virtue of paragraphs (1) and (2) of this Article, either of the Contracting States may, by a written notice of termination given to the other Contracting State through diplomatic channels, terminate the application of the present Convention to any part or territory to which the Convention, or any of its provisions, has been extended. In that case, the present Convention, or the provisions thereof specified in the notice of termination, shall cease to be applicable to the part or territory named in such notice of termination on and after the first day of January following the expiration of a period of six months after the date of such notice; provided, however, that this shall not affect the continued application of the Convention, or any of the provisions thereof, to the United States, to the Netherlands, or to any part or territory (not named in the notice of termination) to which the Convention, or such provision thereof, applies.

(4) For the application of the present Convention in relation to any part or territory to which it is extended by notification given by the United States or the Netherlands, references to "the United States" or to "the Netherlands" or to one or the other Contracting State, as the case may be, shall be construed to refer to such part or territory.

• • • • • •

(b) *Definitions*—(1) *In general.* Any term defined in the convention or this subpart shall have the meaning so assigned to it; any term not so defined shall, unless the context otherwise requires, have the meaning which such term has under the internal revenue laws of the United States.

(2) *Antilles.* As used in this subpart, the term "Antilles" means the Netherlands Antilles which, when used in a geographical sense, includes only the following islands off the coast of Venezuela: Aruba, Bonaire, Curacao, Saba, St. Eustalius, and St. Martin (Netherlands part). The term does not include Dutch Guiana (Surinam).

§ 505.202 *Dividends*—(a) *Paid by Antilles corporation.* Dividends paid on or after January 1, 1955, by an Antilles corporation are exempt from United States tax under the provisions of Article XII of the convention if the recipient is not a citizen, resident, or corporation of the United States. Dividends so paid are not subject to the withholding of United States tax at source.

(b) *Derived from domestic corporation*—(1) *Rate of 15 percent.* The rate of United States tax upon dividends (other than dividends falling within the scope of paragraph (c) (1) of this section) derived from a domestic corporation on or after January 1, 1955, by a nonresident alien individual who is a resident of the Antilles, or by an Antilles corporation, shall not exceed 15 percent under the provisions of Article VII of the convention if such alien or corporation at no time during the taxable year in which such dividends are derived has engaged in trade or business within the United States through a permanent establishment situated therein.

(2) *Personal services.* If a nonresident alien individual who is a resident of the Antilles performs personal services within the United States during the taxable year, but has at no time during such year a permanent establishment in the United States, he is entitled to the reduced rate of tax prescribed by subparagraph (1) of this paragraph, even though under the provisions of section 871 (c) of the Internal Revenue Code of 1954 he has engaged in trade or business within the United States during such year by reason of his having performed personal services therein.

(c) *Derived from a domestic subsidiary*—(1) *Rate of 5 percent.* Under the proviso of Article VII (1) of the convention, dividends derived from a domestic corporation on or after January 1, 1955, by an Antilles corporation which controls, directly or indirectly, at the

time the dividend is paid 95 percent or more of the entire voting power in the corporation paying the dividend are subject to United States tax at a rate not in excess of 5 percent if (i) not more than 25 percent of the gross income of the paying corporation for the three-year period immediately preceding the taxable year in which the dividend is paid consists of dividends and interest (other than dividends and interest received by such paying corporation from its own subsidiary corporations, if any), (ii) the relationship between the paying corporation and the Antilles corporation has not been arranged or maintained primarily with the intention of securing the reduced rate of 5 percent, and (iii) the Antilles corporation at no time during the taxable year in which such dividends are derived has engaged in trade or business within the United States through a permanent establishment situated therein.

(2) *Information to be filed with Commissioner.* Any domestic corporation which claims or contemplates claiming that dividends paid or to be paid by it are subject to a rate not in excess of 5 percent shall file the following information with the Commissioner of Internal Revenue as soon as practicable: (i) The date and place of its organization; (ii) the number of outstanding shares of stock of the domestic corporation having voting power and the voting power thereof; (iii) the person or persons beneficially owning such stock of the domestic corporation and their relationship to the Antilles corporation; (iv) the amounts by years (for the three-year period immediately preceding the taxable year in which the dividend is paid) of the gross income of the domestic corporation, of the interest and dividends included in such gross income, and of the interest and dividends received by the domestic corporation from its own subsidiary corporations, if any; and (v) the relationship between the domestic corporation and the Antilles corporation deriving the dividend.

(3) *Notification by Commissioner.* As soon as practicable after such information is filed, the Commissioner will determine whether the dividends concerned fall within the scope of the proviso of Article VII (1) of the convention and will notify the domestic corporation of his determination. If the dividends fall within the scope of the proviso, this notification may also authorize the release, pursuant to § 505.208 (a) (2), of excess tax withheld from the dividends concerned.

(d) *Effect of address in the Antilles.* For the purpose of paragraph (e) (1) of this section, every nonresident alien (including a nonresident alien individual, fiduciary, and partnership) whose address is in the Antilles shall be deemed by United States withholding agents to be a nonresident alien individual who is a resident of the Antilles not engaged in trade or business within the United States through a permanent establishment situated therein; and every foreign corporation whose address is in the Antilles shall be deemed by such withholding agents to be an Antilles corporation not engaged in trade or business within the United States through a permanent establishment situated therein.

(e) *Withholding of United States tax from dividends—(1) Rate of 15 percent.* Withholding at source, as required under the internal revenue laws, in the case of dividends (other than dividends falling within the scope of subparagraph (2) of this paragraph) derived from a domestic corporation by nonresident aliens (including a nonresident alien individual, fiduciary, and partnership) and by foreign corporations, having addresses in the Antilles, shall be at the rate of 15 percent in every case except that in which, prior to the date of payment of such dividends, the Commissioner of Internal Revenue has notified the withholding agent that the reduced rate of withholding shall not apply. This provision is based upon the assumption that the payee of the dividend is the actual owner of the capital stock from which the dividend is derived. As to action by a recipient who is not the owner of the dividend, see § 505.203.

(2) *Rate of 5 percent.* If, in accordance with paragraph (c) (3) of this section, the Commissioner of Internal Revenue has notified the domestic corporation that the dividends fall within the scope of the proviso of Article VII (1) of the convention, the reduced withholding rate of 5 percent, to the extent withholding of United States tax is required, shall apply to any dividends subsequently paid by such corporation and derived by the Antilles corporation, unless the stock ownership of the domestic corporation, or the character of its income, materially changes; or unless the Commissioner determines that the relationship between the two corporations concerned is being maintained primarily with the intention of securing the reduced rate of tax. In such instance, if such change in stock ownership or character of income occurs, the domestic corporation shall promptly notify the Commissioner of the then existing facts with respect thereto. The continued application of the rate not in excess of 5 percent is also dependent upon the continued fulfillment of paragraph (c) (1) (iii) of this section.

(3) *Evidence of tax withheld.* The rate at which United States tax has been withheld from any dividend paid at any time after the expiration of the thirtieth day after the date on which this subpart is published in the FEDERAL REGISTER to any person whose address is in the Antilles at the time the dividend is paid shall be shown either in writing or by appropriate stamp on the check, draft, or other evidence of payment, or on an accompanying statement.

§ 505.203 *Dividends received by addressee not actual owner—(a) Additional tax to be withheld—(1) Nominee or representative.* The recipient in the Antilles of any dividend from which United States tax at the reduced rate of 15 percent has been withheld at source pursuant to § 505.202 (e) (1), who is a nominee or representative through whom the dividend is received by a person other than one described in § 505.202 (b) as being entitled to the reduced rate, shall withhold an additional amount of United States tax equivalent to the United States tax which would have been withheld if the convention had not been in effect (30 percent as of the date of approval of this subpart) minus the 15 percent which has been withheld at the source.

(2) *Fiduciary or partnership.* A fiduciary or a partnership with an address in the Antilles which receives, otherwise than as a nominee or representative, a dividend from which United States tax at the reduced rate of 15 percent has been withheld at source pursuant to § 505.202 (e) (1) shall withhold an additional amount of United States tax from the portion of the dividend included in the gross income from sources within the United States of any beneficiary or partner, as the case may be, who is not entitled to the reduced rate of tax in accordance with § 505.202 (b). The amount of the additional tax is to be calculated in the same manner as under subparagraph (1) of this paragraph.

(3) *Released amounts of tax.* If any amount of United States tax is released pursuant to § 505.208 (a) (1) by the withholding agent in the United States with respect to a dividend paid to such a person (nominee, representative, fiduciary, or partnership) with an address in the Antilles, the latter shall withhold from such released amount any additional amount of United States tax, otherwise required to be withheld from the dividend by the provisions of subparagraphs (1) and (2) of this paragraph, in the same manner as if at the time of payment of the dividend United States tax at the rate of only 15 percent had been withheld at source therefrom.

(b) *Returns filed by Antilles withholding agents.* The amounts withheld pursuant to paragraph (a) of this section by any withholding agent in the Antilles shall be deposited, without converting the amounts into United States dollars, with the Administrateur van Financien of the Netherlands Antilles on or before the 15th day after the close of the quarter of the calendar year in which the withholding in the Antilles occurs. The withholding agent making the deposit shall render therewith such appropriate Antilles form as may be prescribed by the Administrateur van Financien. The amounts so deposited should be remitted by the Administrateur van Financien by draft in United States dollars to the District Director of Interal Revenue, Baltimore 2, Maryland, U. S. A., on or before the end of the calendar month in which the deposit is made, and should be accompanied by such Antilles form as may be required to be rendered by the withholding agent in the Antilles in connection with the deposit.

§ 505.204 *Interest—(a) Paid by Antilles corporation.* Interest paid on or after January 1, 1955, by an Antilles corporation is exempt from United States tax under the provisions of Article XII of the convention if the recipient is not a citizen, resident, or corporation of the United States. Interest so paid is not subject to the withholding of United States tax at source.

(b) *Received from domestic payers.* Interest on bonds, securities, notes, debentures, or on any other form of indebtedness, which is paid by a person other than an Antilles corporation and which is derived from sources within the United States on or after January 1, 1955, by a nonresident alien individual who is a resident of the Antilles, or by an Antilles corporation, is exempt from United States tax under the provisions of Article VIII (1) of the convention if the alien or corporation at no time during the taxable year in which the interest is derived has engaged in trade or business within the United States through a permanent establishment situated therein. This paragraph applies to interest on obligations of the United States and instrumentalities thereof. It does not apply to interest from mortgage notes (not including bonds) secured by real property or to the interest falling within the scope of paragraph (c) of this section.

(c) *Paid by domestic subsidiary.* Under the exception contained in Article VIII (1) of the convention, any interest derived from sources within the United States and paid by a domestic corporation to an Antilles corporation is not exempt from United States tax if the Antilles corporation controls, directly or indirectly, at the time the interest is paid more than 50 percent of the entire voting power of all classes of stock of the domestic corporation. The exemption from United States tax granted by Article VIII (1) of the convention does not apply in such instance.

(d) *Exemption from withholding of United States tax—(1) Coupon bond interest—(i) Form to use.* To avoid withholding of United States tax at source in the case of coupon bond interest to which paragraph (b) of this section applies, the nonresident alien who is a resident of the Antilles, or the Antilles corporation, shall for each issue of bonds file Form 1001–NA in duplicate when presenting the interest coupons for payment. This form shall be signed by the owner of the interest, trustee, or agent and shall show the name and address of the obligor, the name and address of the owner of the interest, and the amount of the interest. It shall contain a statement (*a*) that the owner is a resident of the Antilles, or is an Antilles corporation, (*b*) that the owner is not engaged in trade or business within the United States through a permanent establishment situated therein, and, in the case of interest paid by a domestic corporation to an Antilles corporation, (*c*) that the owner does not control, directly or indirectly, more than 50 percent of the entire voting power of all classes of stock of the United States domestic corporation. If there is uncertainty as to the degree of stock ownership, see paragraph (e) of this section.

(ii) *Exemption applicable only to owner.* The exemption from United States tax contemplated by Article VIII (1) of the convention, insofar as it concerns coupon bond interest, is applicable only to the owner of the interest. The person presenting the coupon or on whose behalf it is presented shall, for the purpose of the exemption from tax, be deemed to be the owner of the interest only if he is, at the time the coupon is presented for payment, the owner of the bond from which the coupon has been detached. If the person presenting the coupon or on whose behalf it is presented is not the owner of the bond, Form 1001, and not Form 1001–NA, shall be executed.

(iii) *Disposition of form.* The original and duplicate of Form 1001–NA shall be forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Allen Returns Section, Baltimore 2, Maryland, with the quarterly return on Form 1012. Form 1001–NA need not be listed on Form 1012.

(2) *Interest on noncoupon bonds—(i) Notification by letter.* To avoid withholding of United States tax at source in the case of noncoupon bond interest to which paragraph (b) of this section applies, the nonresident alien who is a resident of the Antilles, or the Antilles corporation, shall notify the withholding agent by letter in duplicate that the interest is exempt from United States tax under the provisions of Article VIII (1) of the convention. The letter of notification shall be signed by the owner of the interest, trustee, or agent and shall show the name and address of the obligor and the name and address of the owner of the interest. It shall contain a statement (*a*) that the owner is neither a citizen nor a resident of the United States but is a resident of the Antilles, or, in the case of a corporation, that the owner is an Antilles corporation, (*b*) that the owner has at no time during the current taxable year engaged in trade or business within the United States through a permanent establishment situated therein, and, in the case of interest paid by a domestic corporation to an Antilles corporation, (*c*) that the owner does not control, directly or indirectly, more than 50 percent of the entire voting power of all classes of stock of the United States domestic corporation. If there is uncertainty as to the degree of stock ownership, see paragraph (e) of this section.

(ii) *Use of letter for release of tax.* If the letter is also to be used as authorization for the release, pursuant to § 505.208 (a) (5) and (6), of excess tax withheld from interest, it shall also contain a statement (*a*) that, at the time when the interest was derived from which the excess tax was withheld, the owner was neither a citizen nor a resident of the United States but was a resident of the Antilles, or, in the case of a corporation, the owner was an Antilles corporation, (*b*) that the owner at no time during the taxable year in which the interest was derived was engaged in trade or business within the United States through a permanent establishment situated therein, and, in the case of interest paid by a domestic corporation to an Antilles corporation, (*c*) that the owner did not control, directly or indirectly, at the time when the interest was paid, more than 50 percent of the entire voting power of all classes of stock of the United States domestic corporation.

(iii) *Manner of filing letter.* The letter of notification, which shall constitute authorization for the payment of the interest without withholding of United States tax at source, shall be filed with the withholding agent for each successive three-calendar-year period during which the interest is paid. For this purpose, the first period shall commence with the beginning of the calendar year in which the interest is first paid on or after January 1, 1955. Each letter filed with any withholding agent shall be filed not later than 20 days preceding the date of the first payment within each successive period, or, if that is not possible because of special circumstances, as soon as possible after such first payment. Once a letter has been filed in respect of any three-calendar-year period, no additional letter need be filed in respect thereto unless the Commissioner of Internal Revenue notifies the withholding agent that an additional letter shall be filed by the taxpayer. If, after filing a letter of notification, the taxpayer ceases to be eligible for the exemption from United States tax granted by Article VIII (1) of the convention, he shall promptly notify the withholding agent by letter in duplicate. When any change occurs in the ownership of the interest as recorded on the books of the payer, the exemption from withholding of United States tax shall no longer apply unless the new owner of record is entitled to and does properly file a letter of notification with the withholding agent.

(iv) *Disposition of letter.* Each letter of notification, or the duplicate thereof, shall be immediately forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Alien Returns Section, Baltimore 2, Maryland.

(e) *Interest paid by domestic subsidiary where degree of stock ownership is uncertain—(1) Request for ruling in case of anticipated payments.* If an Antilles corporation anticipates the receipt of interest from a domestic corporation and the relationship existing between the Antilles corporation and the domestic corporation is such as to render uncertain whether, by reason of the exception contained in Article VIII (1) of the convention, the exemption will apply, the Antilles corporation shall not file Form 1001–NA or the letter of notification prescribed by paragraph (d) of this section unless it has, prior to such filing, applied for and received from the Commissioner of Internal Revenue, Washington 25, D. C., a determination that it does not control, directly or indirectly, more than 50 percent of the entire voting power in the paying corporation. The application to the Commissioner shall contain a full statement of all the facts pertinent to a determination of the question.

(2) *Notification of taxpayer.* As soon as practicable after the application has been filed, the Commissioner of Internal Revenue will determine whether the Antilles corporation has such control of the domestic corporation as to render the exemption granted by Article VIII (1) of the convention inapplicable to interest paid by the domestic corporation to the Antilles corporation and shall notify the Antilles corporation of his determination. The Antilles corporation shall forthwith file with the domestic corporation a copy of the Commissioner's letter of notification.

(3) *Period during which determination is effective.* A determination of the Commissioner that the Antilles corporation does not have such control of the domestic corporation as to render the exemption granted by Article VIII (1) of the convention inapplicable will apply until such time as the stock ownership of the domestic corporation has changed to the extent that interest to be received from the domestic corporation by the Antilles corporation is no longer exempt from United States tax under that article. If such a change in stock ownership occurs, the Antilles corporation shall promptly notify both the Commissioner of Internal Revenue and the domestic corporation.

(4) *Exemption from withholding of United States tax.* If the Commissioner's determination is that the Antilles corporation does not control, directly or indirectly, more than 50 percent of the entire voting power of all classes of stock of the domestic corporation, the Antilles corporation may thereafter avoid withholding of tax at the source with respect to subsequent payments of interest by complying with the provisions of paragraph (d) of this section, that is, by submitting Form 1001–NA in the case of coupon bond interest, or the letter of notification in the case of interest on noncoupon bonds.

(5) *Prior payments.* If an Antilles corporation has received on or after January 1, 1955, interest from a domestic corporation and the relationship existing between the Antilles corporation and the domestic corporation was at the time the interest was paid such as to render uncertain whether, by reason of the exception contained in Article VIII (1) of the convention, the interest was exempt from United States tax, the Antilles corporation shall apply to the Commissioner of Internal Revenue for a determination as to the degree of control at the time the interest was paid. If the Commissioner's determination is that at such time the degree of control was such as to permit the application of the exemption granted by Article VIII (1) of the convention, his letter of notification may, subject to the provisions of § 505.208 (a) (5), authorize the release of excess tax withheld from the exempt interest.

§ 505.205 *Patent and copyright royalties*—(a) *Exemption from tax.* Royalties for the right to use copyrights, patents, designs, secret processes and formulae, trade marks, and other analogous property, and royalties and rentals in respect of motion picture films or for the use of industrial, commercial, or scientific equipment, which are derived from sources within the United States on or after January 1, 1955, by a nonresident alien individual who is a resident of the Antilles, or by an Antilles corporation, are exempt from United States tax under the provisions of Article IX of the convention if such alien or corporation at no time during the taxable year in which such income is derived has engaged in trade or business within the United States through a permanent establishment situated therein.

(b) *Exemption from withholding of United States tax*—(1) *Notification by letter.* To avoid withholding of United States tax at source in the case of the items of income to which this section applies, the nonresident alien who is a resident of the Antilles, or the Antilles corporation, shall notify the withholding agent by letter in duplicate that the income is exempt from United States tax under the provisions of Article IX of the convention.

(2) *Manner of filing letter.* The provisions of § 505.204 (d) (2) (other than those pertaining to the degree of control of voting power) relating to the execution, filing, effective period, and disposition of the letter of notification prescribed therein, including its use for the release of excess tax withheld, are equally applicable with respect to the income falling within the scope of this section.

§ 505.206 *Private pensions and life annuities*—(a) *Exemption from tax.* Private pensions and life annuities, as defined in paragraph (c) of this section, derived from sources within the United States on or after January 1, 1955, and paid to a nonresident alien individual who is a resident of the Antilles are exempt from United States tax under the provisions of Article XV (2) of the convention.

(b) *Exemption from withholding of United States tax*—(1) *Notification by letter.* To avoid withholding of United States tax at source in the case of the items of income to which this section applies, the nonresident alien individual who is a resident of the Antilles shall notify the withholding agent by letter in duplicate that the income is exempt from United States tax under the provisions of Article XV (2) of the convention. The letter of notification shall be signed by the owner of the income, shall show the name and address of both the payer and the owner of the income, and shall contain a statement that the owner, an individual, is neither a citizen nor a resident of the United States but is a resident of the Antilles.

(2) *Use of letter for release of tax.* If the letter is also to be used as authorization for the release, pursuant to § 505.208 (a) (6), of excess tax withheld from such items of income, it shall also contain a statement that the owner was, at the time when the income was derived from which the excess tax was withheld, neither a citizen nor a resident of the United States but was a resident of the Antilles.

(3) *Manner of filing letter.* The letter of notification shall constitute authorization for the payment of such items of income without withholding of United States tax at source unless the Commissioner of Internal Revenue subsequently notifies the withholding agent that the tax shall be withheld with respect to payments of such items of income made after receipt of such notice. If, after filing a letter of notification, the owner of the income ceases to be eligible for the exemption from United States tax granted by the convention in respect to such income, he shall promptly notify the withholding agent by letter in duplicate. When any change occurs in the ownership of the income as recorded on the books of the payer, the exemption from withholding of United States tax shall no longer apply unless the new owner of record is entitled to and does properly file a letter of notification with the withholding agent.

(4) *Disposition of letter.* Each letter of notification, or the duplicate thereof, shall be immediately forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Alien Returns Section, Baltimore 2, Maryland.

(c) *Definitions.* As used in this section, the term "pensions" means periodic payments made in consideration for services rendered or by way of compensation for injuries received, and the term "life annuities" means a stated sum payable periodically at stated times during life, or during a specified number of years, under an obligation to make the payments in return for adequate and full consideration in money or money's worth. Neither term includes retired pay or pensions paid by the United States or by any State or Territory of the United States.

§ 505.207 *Beneficiaries of a domestic estate or trust*—(a) *Entitled to benefits of convention.* If he otherwise satisfies the requirements of the respective articles concerned, a nonresident alien individual who is a resident of the Antilles and who is a beneficiary of a domestic estate or trust shall be entitled to the exemption from, or reduction in the rate of, United States tax granted by Articles VII, VIII, IX, and XII of the convention with respect to dividends, interest, and patent royalties and other like amounts, to the extent that (1) any amount paid, credited, or required to be distributed by such estate or trust to such beneficiary is deemed to consist of such items, and (2) such items would, without regard to the convention, be includible in his gross income.

(b) *Withholding of United States tax.* In order to be entitled in such instances to the exemption from, or reduction in rate of, withholding of United States tax the beneficiary must otherwise satisfy such requirements and shall, where applicable, execute and submit to the fiduciary of the estate or trust in the United States the appropriate letter of notification prescribed in §§ 505.204 (d) (2) and 505.205 (b).

(c) *Amounts otherwise includible in gross income of beneficiary.* For the determination of amounts which, without regard to the convention, are includible in the gross income of the beneficiary, see subchapter J of chapter 1 of the Internal Revenue Code of 1954, and the regulations thereunder.

§ 505.208 *Release of excess tax withheld at source*—(a) *Amounts to be released*—(1) *Dividends divided from domestic corporation.* If United States tax has been withheld at the statutory rate on or after January 1, 1955, from dividends described in § 505.202 (b) and derived from a domestic corporation by a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) or by a foreign corporation, whose address at the time of payment was in the Antilles, the withholding agent shall release and pay over to the person from whom the tax was withheld an amount which is equal to the difference between the tax so withheld and the tax required to be withheld pursuant to § 505.202 (e) (1).

(2) *Dividends derived from a domestic subsidiary.* If United States tax has been withheld at the statutory rate on or after January 1, 1955, from dividends which fall within the scope of the proviso of Article VII (1) of the convention, the withholding agent shall, if so authorized in accordance with § 505.202 (c) (3), release and pay over to the corporation from which the tax was withheld an amount which is equal to the difference between the tax so withheld and the tax required to be withheld pursuant to § 505.202 (e) (2).

(3) *Dividends and interest paid by Antilles corporation.* If United States tax has been withheld at the statutory rate on or after January 1, 1955, from dividends and interest paid by an Antilles corporation to a recipient other than a citizen, resident, or corporation of the United States, the withholding agent shall release and pay over to the person from whom the tax was withheld an amount which is equal to the tax so withheld.

(4) *Coupon bond interest*—(i) *Substitute form.* In the case of every taxpayer who furnishes to the withholding agent Form 1001–NA clearly marked "Substitute" and executed in accordance with § 505.204 (d) (1) (i), where United States tax has been withheld at the statutory rate on or after January 1, 1955, from coupon bond interest, the withholding agent shall release (except as provided in subparagraphs (3) and (5) of this paragraph) and pay over to the person from whom the tax was withheld an amount which is equal to the tax so withheld, if the taxpayer also attaches to such form a letter in duplicate, signed by the owner, trustee, or agent and containing the following:

(a) The name and address of the obligor;

(b) The name and address of the owner of the interest from which the excess tax was withheld;

(c) A statement that, at the time when the interest was derived from which the excess tax was withheld, the owner was neither a citizen nor a resident of the United States but was a resident of the Antilles, or, in the case of a corporation, the owner was an Antilles corporation;

(d) A statement that the owner at no time during the taxable year in which the interest was derived was engaged in trade or business within the United States through a permanent establishment situated therein; and

(e) In the case of interest paid by a domestic corporation to an Antilles corporation, a statement that the owner did not control, directly or indirectly, at the time when the interest was paid, more than 50 percent of the entire voting power of all classes of stock of the United States domestic corporation.

One such substitute form shall be filed in duplicate with respect to each issue of bonds and will serve with respect to that issue to replace all Forms 1001 previously filed by the taxpayer in the calendar year in which the excess tax was withheld and with respect to which such excess is released.

(ii) *Disposition of form.* The original and duplicate of substitute Form 1001–NA (and letter) shall be forwarded by the withholding agent to the District Director of Internal Revenue, Audit Division, Alien Returns Section, Baltimore 2, Maryland, with the quarterly return on Form 1012. Substitute Form 1001–NA need not be listed on Form 1012.

(5) *Interest paid where degree of stock ownership is determined.* If United States tax has been withheld at the statutory rate on or after January 1, 1955, from interest paid by a domestic corporation to an Antilles corporation, and if the relationship existing between the Antilles corporation and the domestic corporation was, at the time the interest was paid, such as to render uncertain whether, by reason of the exception contained in Article VIII (1) of the convention, the interest was exempt from United States tax, the withholding agent shall release and pay over to the Antilles corporation an amount which is equal to the tax so withheld, provided that the Antilles corporation (i) furnishes to the domestic corporation a copy of the Commissioner's authorization of release prescribed in § 505.204 (e) (5) and (ii) files the letter of notification prescribed in § 505.204 (d) (2) (ii), or the substitute Form 1001–NA prescribed in subparagraph (4) of this paragraph, whichever is applicable.

(6) *Interest on noncoupon bonds, royalties, private pensions, and life annuities.* If a taxpayer furnishes to the withholding agent the authorization of release prescribed in §§ 505.204 (d) (2) (ii), 505.205 (b) (2), or 505.206 (b) (2) and United States tax has been withheld at the statutory rate on or after January 1, 1955, from the interest, copyright royalties or other like amounts, private pensions, or life annuities in respect of which such authorization is prescribed, the withholding agent shall release (except as provided in subparagraph (5) of this paragraph) and pay over to the person from whom the tax was withheld an amount which is equal to the tax so withheld.

(b) *Amounts not to be released.* The provisions of this section do not apply to excess tax withheld at source which has been paid by the withholding agent to the district director of internal revenue.

(c) *Statutory rate.* As used in this section, the term "statutory rate" means the rate prescribed by chapter 3 of the Internal Revenue Code of 1954 and the regulations thereunder, as though the convention had not come into effect.

§ 505.209 *Information to be furnished in ordinary course*—(a) *Documents to the Antilles.* In compliance with the provisions of Article XXI of the convention, the Commissioner of Internal Revenue will transmit to the Administrateur van Financien of the Netherlands Antilles, as soon as practicable after the close of the calendar year 1955 and of each subsequent calendar year during which the convention is in effect, the following information relating to such preceding calendar year:

(1) The duplicate copy of each available Form 1042 Supplement filed pursuant to paragraph (b) of this section; and

(2) The duplicate copy of each available ownership certificate, Form 1001–NA, filed pursuant to § 505.204 (d) (1), and substitute Form 1001–NA, filed pursuant to § 505.208 (a) (4) and (5), in connection with coupon bond interest.

(b) *Information return by withholding agent*—(1) *Form to use.* To facilitate compliance with Article XXI of the convention, every United States withholding agent shall make and file in duplicate with the District Director of Internal Revenue, Baltimore 2, Maryland, an information return on Form 1042 Supplement, with respect to persons having addresses in the Antilles, which shall be filed for the calendar year 1956 and subsequent calendar years. This return shall be filed simultaneously with Form 1042.

(2) *Information to be given.* There shall be reported on such Form 1042 Supplement all items of fixed or determinable annual or periodical income (and amounts described in section 402 (a) (2), section 631 (b) and (c), and section 1235 of the Internal Revenue Code of 1954, which are considered to be gains from the sale or exchange of capital assets) derived from sources within the United States and paid to nonresident aliens (including nonresident alien individuals, fiduciaries, and partnerships) and to nonresident foreign corporations, whose addresses at the time of payment were in the Antilles, including such items of income upon which, in accordance with this subpart, no withholding of United States tax is required; except that any of such items which constitutes interest in respect of which Form 1001–NA or substitute Form 1001–NA has been filed in duplicate with the withholding agent is not required to be reported on such Form 1042 Supplement.

§ 505.210 *Effective date*—(a) *Payments on or after January 1, 1955.* In order to give the convention effective application at the earliest practicable date, the exemptions from, and reductions in the rate of, withholding of United States tax at source granted by this subpart are hereby made effective beginning January 1, 1955, contingent upon compliance with the applicable provisions hereof.

(b) *Taxable years beginning in 1954 and ending in 1955.* If, in the case of a taxable year beginning in 1954 and ending in 1955, a taxpayer is not engaged in trade or business in the United States through a permanent establishment at any time during that part of the taxable year which follows December 31, 1954, then he shall, for purposes of this subpart be deemed not to have been engaged in trade or business within the

United States at any time during the taxable year through a permanent establishment situated therein.

Because it is necessary to bring into effect at the earliest practicable date the rules of this Treasury decision respecting release of excess tax withheld, and exemption from, or reduction in the rate of, withholding of tax, it is hereby found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that Act.

[SEAL] O. GORDON DELK,
Acting Commissioner of Internal Revenue.

Approved: December 5, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

[F. R. Doc. 55-9905; Filed, Dec. 8, 1955; 8:45 a. m.]

TITLE 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration

PART 3—VETERANS CLAIMS

MISCELLANEOUS AMENDMENTS

1. Section 3.1003 is revised to read as follows:

§ 3.1003 *Indian Wars.* (See also §§ 3.1009 and 3.1021.) All campaigns recognized by the Department of the Army, including those cited in the act of March 4, 1917, as amended by the act of March 3, 1944, between January 1, 1817, and December 31, 1898.

(Sec. 1, 44 Stat. 1361, as amended; 38 U. S. C. 381)

2. The centerhead immediately preceding § 3.1006 is amended to read as follows: "Persons Included in the Acts in Addition to Commissioned Officers and Enlisted Men".

3. The centerhead "Persons not Included" immediately preceding § 3.1013 is revoked.

4. The folowing sections are revoked:

§ 3.1013 *Public Law 141, 73d Congress, and Public Law 269, 74th Congress, and Veterans Regulation 1 (f) (38 U. S. C. ch. 12A).* [Revoked.]

§ 3.1014 *Indian Wars.* [Revoked.]

§ 3.1015 *Civil War; service pension.* [Revoked.]

5. Section 3.1018 is revised to read as follows:

§ 3.1018 *Spanish-American War, Boxer Rebellion, or Philippine Insurrection; Public Law 269, 74th Congress, as amended.* Service is exclusive of unauthorized leaves of absence and furloughs enumerated in § 3.59, except that leave under G. O. 130, War Department, is included as pensionable service. Time under arrest, in the absence of acquittal or permission to resign without trial and conviction (time for which the soldier or sailor was determined to have forfeited pay by reason of absence without leave), time spent in desertion or while undergoing sentence of court martial, should be deducted. Time in a hospital, on sick furlough, or as a prisoner by the enemy is included. Records of the Department of the Army or Navy are conclusive with respect to military or naval service as the basis of a pension claim, unless changed by special act of Congress. Under Public Law 108, 82d Congress, and for periods after September 30, 1951, in computing active service there shall be counted continuous active service which commenced prior to and extended into the applicable period specified in § 3.1000 (b) or which commenced within such applicable period. Fragmentary periods of active service within such applicable period may be added together to meet the statutory requirements as to length of service (sec. 1 (b), Public Law 108, 82d Congress.)

(Sec. 1, 44 Stat. 382, as amended, sec. 1, 46 Stat. 492, as amended, sec. 1, 49 Stat. 614, sec. 1, 65 Stat. 174; 38 U. S. C. 364, 365, 368, 370g)

6. Section 3.1021 is revised to read as follows:

§ 3.1021 *Indian Wars.* For service pension pursuant to the act of March 3, 1927, as amended, service of 30 days or more or the duration of a campaign cited in the act of March 4, 1917, even though such campaign was of less than 30 days' duration, is required in any military organization whether such person was regularly mustered into the service of the United States or not but whose service was under the authority or by the approval of the United States or any State or Territory in any Indian war or campaign, or in connection with, or in the zone of any active Indian hostilities in any of the States or Territories of the United States from January 1, 1817, to December 31, 1898, inclusive, the determination as to what constitutes the zone of active Indian hostilities to be made by the Administrator of Veterans Affairs. The expression "active Indian hostilities" means actual hostilities, such as necessitated the employment of the military arm of the State, Territory, or the United States in their suppression, and service in a military organization against Indians, without authority or even against orders of its Government, if subsequently approved either tacitly or openly, if pensionable. Service in an organization against Indian or white outlaws is not pensionable, but service against Indians rendered by troops of any of the States that seceded from the Union is included. Where the Department of the Army is unable to locate a record of alleged service, other evidence may be admitted to prove that the requisite service was rendered, but a purported list of members, not filed with the Adjutant General of a State until a date remote from the period of the hostilities may not be accepted as genuine and a sufficient finding that a claimant rendered the required service.

(Sec. 1, 44 Stat. 1361, as amended; 38 U. S. C. 381)

7. Section 3.1023 is revised to read as follows:

§ 3.1023 *Special act.* A special act of Congress, reciting that a person is considered to have been mustered into the service on a named date and honorably discharged on a subsequently named date, is sufficient regardless of whether the Department of Defense has any record of such service. A special act in specifying actual periods of presumed service, in the absence of a Department of Defense record, is pensionable only at the rate provided therein.

8. In § 3.1025, a new paragraph (o) is added and former paragraph (o) is redesignated paragraph (p), so that the added and redesignated material reads as follows:

§ 3.1025 *Jurisdiction of the Veterans Claims Division, Veterans Benefits Office, D. C.* • • •

(o) Claims involving service department information classified as "Confidential." These cases will be retained in the Veterans Benefits Office, D. C., for a period of at least 1 year, until the appeal period expires or, where indicated, may be retained for longer periods.

(p) Any claim not otherwise under the jurisdiction of Veterans Benefits Office, D. C., referred by competent authority for action.

9. In § 3.1040, paragraph (b) is amended to read as follows:

§ 3.1040 *Types of discharges for service pension (Spanish-American War, Boxer Rebellion, Philippine Insurrection, Civil War and Indian Wars).* • • •

(b) *Discharge for disability.* Service pension is payable on the basis of Civil War service and on the basis of Spanish-American War service, including the Boxer Rebellion and the Philippine Insurrection (acts of May 1, 1926, and June 2, 1930), if service was less than 90 days: *Provided,* the veteran was discharged for disability incurred in the service in line of duty.

• • • • • •

10. In § 3.1041, paragraph (b) is amended to read as follows:

§ 3.1041 *Joint resolutions of July 1, 1902, and June 28, 1906.* • • •

(b) *Subsequent service must have been faithful.* The Joint Resolutions of July 1, 1902, and June 28, 1906, do not apply where the subsequent service was not faithful; e. g., where the veteran deserted in the subsequent service, but was given an honorable discharge therefrom or where the charge of desertion in the subsequent enlistment was removed and an honorable discharge issued subsequent to the Civil War. A record of desertion is prima facie evidence that the entire service of the claimant was not faithful within the meaning of these acts and evidence designed to show that such record was erroneous must be filed in and considered by the department in which the record was made. As a general proposition where a soldier's service was of such character that he is obliged to resort, years subsequent to the close of the war, to an application to the Department of the Army under general remedial statutes in order to complete his record and to secure discharge, that fact necessarily implies that his entire service was not faithful.

• • • • • •

11. In § 3.1042, paragraph (a) is amended to read as follows:

§ 3.1042 *Desertion*—(a) *The act of April 26, 1898, as amended May 11, 1908.* Section 6 of the act of April 26, 1898, as amended by the act of May 11, 1908, provides that where a soldier deserts, all rights to disability pension are forfeited, whether desertion was in time of peace or war. This act is applicable to all laws renacted by Public Law 269, 74th Congress. This provision is expressly limited to soldiers and has no application to sailors, marines, or death pensioners. It is immaterial whether the service was terminated by an honorable discharge upon remission of sentence for the desertion after trial and conviction or that the proceedings were set aside for irregularity but desertion from an enlistment entered into subsequent to the service during which the injury was incurred or subsequent to the war during which the requisite service to convey entitlement to service pension was rendered, is not a bar to pension on the previous service. Conviction and sentence by court martial are not material but forfeiture for periods prior to June 22, 1944, will attach in case of desertion even where the soldier voluntarily surrenders, is restored to duty without a trial, and was thereafter honorably discharged. An act of Congress, removing a charge of desertion, pursuant to which an honorable discharge was issued by the Department of the Army, as of the date of the occurrence previously recorded as desertion, erases all effects of the desertion, and an act of Congress providing that in the administration of the pension laws an individual shall be considered as honorably discharged, but not specifically removing a charge of desertion, will entitle the person to a pension, if otherwise in order, notwithstanding the acts of April 26, 1898, and May 11, 1908, if the legislative history discloses that it was the intent to grant a pension. The act of April 26, 1898, does not apply to pension predicated on service which terminated prior to that date: *Provided,* That on and after the approval of Public Law 346, 78th Congress, June 22, 1944, where the veteran is restored to duty and subsequently honorably discharged, he may be awarded a pension under the reenacted Spanish-American War laws, if otherwise entitled thereto: *Provided further,* That notwithstanding desertion where the veteran is granted an honorable discharge under section 301, Public Law 346, 78th Congress, or under section 207, Public Law 601, 79th Congress, as amended, he may be awarded compensation or pension to which entitlement is otherwise shown, effective as provided in § 3.212 (d).

• • • • • •

12. Section 3.1044 is revised to read as follows:

§ 3.1044 *Misconduct*—(a) *Public Law 269, 74th Congress.* As to pension under the service acts renacted by Public Law 269, 74th Congress, there is no bar as to misconduct or vicious habits.

(b) *Indian Wars.* Vicious habits do not constitute a bar under the act of March 3, 1944.

(c) *Civil War.* Misconduct of vicious habits do not constitute a bar under the act of June 9, 1930.

(Sec. 1, 44 Stat. 1361, as amended, sec. 1, 46 Stat. 529, sec. 1, 49 Stat. 614; 38 U. S. C. 274, 368, 381)

13. Section 3.1055 *Public Law 141, 73d Congress* is revoked.

14. The centerhead "Evaluation Under the Laws in Force on March 19, 1933, Which Were not Repealed, as to Service Prior to April 21, 1898, and as Reenacted by Public Law 141, 73d Congress, and Public Law 269, 74th Congress," immediately preceding § 3.1061 is revoked.

15. The following sections are revoked:

§ 3.1061 *Evaluation of disability.* [Revoked.]

§ 3.1062 *General Law rates.* [Revoked.]

§ 3.1063 *Combination.* [Revoked.]

§ 3.1064 *Aggravation.* [Revoked.]

§ 3.1065 *Effective dates of increases.* [Revoked.]

§ 3.1066 *Decreases.* [Revoked.]

16. The centerhead "Evaluation of Disabilities" immediately preceding § 3.1068 is revoked.

17. The following sections are revoked:

§ 3.1068 *Public Law 269, 74th Congress; definition of disability.* [Revoked.]

§ 3.1069 *Public Law 269, 74th Congress; ratings; effective dates of increases.* [Revoked.]

§ 3.1070 *Public Law 269, 74th Congress; reductions.* [Revoked.]

§ 3.1071 *Act of March 3, 1927, Indian Wars, as amended by Public Law 245, 78th Congress.* [Revoked.]

§ 3.1073 *Act of June 9, 1930, Civil War.* [Revoked.]

18. Section 3.1080 is revised to read as follows:

§ 3.1080 *Pension laws in force on March 19, 1933, and as reenacted by Public Law 269, 74th Congress.* For periods from October 1, 1951, the effective date of payments under Public Law 108, 82d Congress, the rate for regular aid and attendance, helplessness, or blindness will be effective from the date of claim or the date the evidence shows entitlement, whichever is the later.

(Sec. 1, 49 Stat. 614, sec. 3, 65 Stat. 174; 38 U. S. C. 368, 370i)

19. Section 3.1081 *Frequent and periodical aid and attendance* is revoked.

20. The centerhead "Combination of Ratings (See also § 3.155)" immediately preceding § 3.1082 is revoked.

21. Section 3.1082 *Peacetime and wartime disabilities* is revoked.

22. Section 3.1089 is revised to read as follows:

§ 3.1089 *Rates; service prior to April 21, 1898.* In claims of veterans with service prior to April 21, 1898, including veterans of the Indian Wars, the compensation to be awarded will be in accordance with the rates provided in Part I or II, Veterans Regulation No. 1 series, as amended (38 U. S. C. ch. 12A), dependent upon whether the service was wartime or peacetime, and the Schedule for Rating Disabilities, 1933, for periods from March 28, 1934, to July 31, 1948, and/or the Schedule for Rating Disabilities, 1945, for periods on or after August 1, 1948, or in accordance with the rates provided by the act of July 14, 1862, as amended (the General Law), or in accordance with the rates provided by the various service pension acts, as amended, whichever is the greater monetary benefit.

(R. S. 4692, 4693, as amended, 4695, as amended, 4696, secs. 1, 4, 48 Stat. 8, as amended, 9; 38 U. S. C. 151-154, 701, 704)

23. Section 3.1107a *Public Law 541, 75th Congress* is revoked.

24. Section 3.1108 is revised to read as follows:

§ 3.1108 *Rates of pension: Spanish-American War, Philippine Insurrection, and/or Boxer Rebellion.* Service pension is payable at rates as follows:

Service	Minimum rate	Regular aid and attendance, helplessness, or blindness
70 days	$67.73	$88.04
90 days	101.59	135.45

NOTE: The foregoing rates are subject to the provisions of § 3.255. Where a veteran is furnished hospital treatment, institutional or domiciliary care by the Veterans Administration and is furnished nursing or attendant's service, for conditions other than blindness, the award of pension will be the amount authorized under Public Law 108, 82d Congress, as amended, from October 1, 1951, exclusive of any additional amount on account of the need of regular aid and attendance. This reduced rate of pension in such instances will be effective as of the beginning of the maintenance of the disabled veteran by the Veterans Administration. The full rate for regular aid and attendance will be restored, if otherwise in order, upon the termination of the veteran's hospital treatment or domiciliary care or his furlough, trial visit, or temporary leave of absence of 30 days or more. The award will include the full rate for those days when service in kind for the regular aid and attendence was not furnished due to the veteran's absence from the institution.

(Sec. 1, 60 Stat. 908, as amended, sec. 2, 65 Stat. 174, 68 Stat. 916; 38 U. S. C. 370h, 739)

25. Section 3.1110 is revised to read as follows:

§ 3.1110 *Rates of pension: Indian Wars.* Pension is payable at rates as follows:

Minimum rate: $101.59.
Regular aid and attendance, helplessness, or blindness: $135.45.

NOTE: The foregoing rates are subject to the provision that the rate for blindness may be allowed, but that the rate for regular aid and attendance may not be allowed while the veteran is being maintained by the Veterans Administration and to the provisions of § 3.255.

(62 Stat. 4, sec. 1, 44 Stat. 1361, as amended, 50 Stat. 786, as amended, Sec. 1, 60 Stat. 908, as amended, Sec. 1, 68 Stat. 916; 38 U. S. C. 374a, 381, 381–1, 739, 750)

26. Section 3.1113 *Rates payable for disability incurred in service prior to April 21, 1898* is revoked.

27. Section 3.1115 *Act of July 14, 1862, as amended* is revoked.

28. The following sections are revoked:

§ 3.1117 *Effective date.* [Revoked.]

§ 3.1125 *Automatic increase.* [Revoked.]

§ 3.1127 *Attained age.* [Revoked.]

§ 3.1128 *Claim required for transfer from General Law rates to service pension rates.* [Revoked.]

29. In § 3.1135, the headnote and paragraph (a) are amended to read as follows:

§ 3.1135 *Public Law 269, 74th Congress; Indian Wars; Civil War; and peacetime prior to April 21, 1898.* (a) The act of December 21, 1893, requiring due notice of not less than 30 days of the decision to annul, vacate, modify, or set aside an award of pension on the basis of evidence in file when the original determination was made, was reenacted by Public Law 269, 74th Congress, and is for application to pension payable pursuant thereto, as well as pension payable for service prior to April 21, 1898.

• • • • •

30. Section 3.1140 is revised to read as follows:

§ 3.1140 *Restoration and renewal.* Section 4719, Revised Statutes, which is for application to pension payable under the laws reenacted by Public Law 269, 74th Congress, and for service during Indian Wars and peacetime prior to April 21, 1898: *Provided,* That the pensioner's name should be stricken from the rolls because of the pensioner's failure after 3 years to claim his pension. For restoration there must be filed evidence specifically accounting for the failure to claim the pension, and evidence showing the continuity of the disability on account of which pension was allowed, unless the injury or disease was of static nature. The reasons for failure to claim for the intervening period must be satisfactorily shown, and it must also be shown that the right to pension had not legally terminated in some of the ways or for some of the causes specified or by necessary implication included in the pension laws as terminating pension.

(R. S. 4719, sec. 1, 49 Stat. 614; 38 U. S. C. 53, 368)

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707)

This regulation is effective December 9, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

[F. R. Doc. 55–9918; Filed, Dec. 8, 1955; 8:47 a. m.]

PART 17—MEDICAL

ELIGIBILITY FOR HOSPITAL TREATMENT OR DOMICILIARY CARE

1. In § 17.47, paragraphs (c) (2) and (d) (1), (3), and (4) are amended to read as follows:

§ 17.47 *Eligibility for hospital treatment or domiciliary care of persons discharged, released, or retired from active military or naval service.* • • •

(c) *Hospital treatment and domiciliary care.* • • •

(2) Domiciliary care for persons who were discharged or released from active military or naval service under other than dishonorable conditions for disability incurred or aggravated in line of duty, or who are in receipt of compensation for service-connected or service-aggravated disability when suffering from a permanent disability or tuberculous or neuropsychiatric ailment and who are incapacitated from earning a living and who have no adequate means of support. An additional requirement for eligibility for domiciliary care is the ability of the veteran to perform all the following:

(i) Perform without assistance daily ablutions, such as brushing teeth; bathing; combing hair; body eliminations.

(ii) Dress himself, with a minimum of assistance.

(iii) Proceed to and return from the dining hall without aid.

(iv) Feed himself.

(v) Secure medical attention on an ambulatory basis or by use of personally propelled wheelchair.

(vi) Have voluntary control over body eliminations or control by use of an appropriate prosthesis.

(vii) Share, by his personal efforts, in some measure, however slight, in the maintenance and operation of the station.

(viii) Make rational and competent decisions as to his desires to remain or leave the station.

(d) *Hospital treatment or domiciliary care.* (1) Hospital treatment or domiciliary care for persons who served in the active military or naval forces, including those who had active duty as a member of the Women's Army Auxiliary Corps, regardless of length of service, during a period of war as defined in paragraph (a) (1) of this section, who were discharged or released from active duty under other than dishonorable conditions; who swear that they are unable to defray the expense of hospitalization or domiciliary care (including the expense of transportation to and from a Veterans Administration facility); and who are suffering from a disability, disease, or defect which, being susceptible to cure or decided improvement, indicate need for hospital treatment, or which, being essentially chronic in type is producing disablement of such degree and of such probable persistency as will incapacitate from earning a living for a prospective period, and thereby indicates need for domiciliary care. An additional requirement for eligibility for domiciliary care is the ability of the veteran to perform all of the following:

(i) Perform without assistance daily ablutions, such as brushing teeth; bathing; combing hair; body eliminations.

(ii) Dress himself, with a minimum of assistance.

(iii) Proceed to and return from the dining hall without aid.

(iv) Feed himself.

(v) Secure medical attention on an ambulatory basis or by use of personally propelled wheelchair.

(vi) Have voluntary control over body eliminations or control by use of an appropriate prosthesis.

(vii) Share, by his personal efforts, in some measure, however slight, in the maintenance and operation of the station.

(viii) Make rational and competet decisions as to his desires to remain or leave the station.

Except for applicants presenting emergent conditions, consideration in admissions under this subparagraph may be given to the length or character of service.

• • • • •

(3) Hospital treatment or domiciliary care for persons who served in the active military or naval forces, regardless of length of service on or after June 27, 1950, and prior to February 1, 1955, who meet the other eligibility requirements of subparagraph (1) of this paragraph.

(4) Hospital treatment or domiciliary care for persons defined in § 17.46 (a) (3) who meet the other eligibility requirements of subparagraph (1) of this paragraph.

• • • • •

2. In § 17.48, paragraphs (b) and (c) (1) are amended to read as follows:

§ 17.48 *Definitions applicable in determining eligibility for hospital treatment or domiciliary care.* • • •

(b) Under § 17.47 (c) (2):

(1) "No adequate means of support": When an applicant is receiving an income of $125 or more per month from any source, this fact will be considered prima facie evidence that he has adequate means of support, except when he is in fact contributing in whole or part from such income to the support of a wife, child, mother, or father. If the applicant alleges he is contributing to the support of dependents other than these, the alleged circumstances will be submitted to the Manager for decision as to eligibility for admission.

(c) Under § 17.47 (d):

(1) "Any disability, disease, or defect" will comprehend any acute, subacute, or chronic disease (of a general medical, tuberculous or neuropsychiatric type) or any acute, subacute, or chronic surgical condition susceptable of cure or decided improvement by hospital care; or any condition which does not require hospital treatment for an acute or chronic condition but requires domiciliary care. Domiciliary care, as the term implies, is the provision of a home, with such ambulant medical care as is needed. To be entitled to domiciliary care, the applicant must consistently have a disability, disease, or injury which, is essentially chronic in type and is producing disablement of such degree and probable persistency as will incapacitate from earning a living for a prospective period.

(Sec. 5, 43 Stat. 608, as amended, sec. 2, 46 Stat. 1016, sec. 7, 48 Stat. 9; 38 U. S. C. 11a, 426, 707. Interpret or apply secs. 1, 6, 48 Stat. 9, 301, 53 Stat. 652, as amended; 38 U. S. C. 706, 706a)

This regulation is effective December 9, 1955.

[SEAL] J. C. PALMER,
Assistant Deputy Administrator.

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

Appendix—Public Land Orders

[Public Land Order 678, Correction]

[1900444]

UTAH

WITHDRAWING PUBLIC LANDS FOR USE OF DEPARTMENT OF THE ARMY FOR MILITARY PURPOSES; REVOKING EXECUTIVE ORDER NO. 9053 OF FEB. 6, 1942; CORRECTION

DECEMBER 5, 1955.

The land description in Public Land Order No. 678 of October 24, 1950, appearing as F. R. Doc. 50–9581 in the issue of October 31, 1950, at page 7299, so far as such description refers to lands in Tps. 5 and 6 S., R. 10 W., and T. 6 S., R. 9 W., is hereby amended to read as follows:

Those portions lying west and southwest of Dugway Proving Ground boundary shown on plat of survey of Tps. 5 and 6 S., Rs. 8, 9, and 10 W., S. L. M., Utah, accepted January 30, 1953, which boundary is more particularly described as beginning at a point on the north boundary of T. 5 S., R. 10 W., from which the standard corner of secs. 31 and 32, T. 4 S., R. 10 W., bears west 5.46 chains, thence

S. 1° 29′ W., 69.63 chains to AP 1;
S. 4° 18′ E., 94.83 chains to AP 2;
S. 5° 21′ E., 87.44 chains to AP 3;
S. 63° 27′ E., 26.60 chains to AP 4;
S. 17° 15′ E., 70.51 chains to AP 5;
S. 55° 37′ E., 132.09 chains to AP 6;
S. 56° 22′ E., 108.71 chains to AP 7;
S. 24° 31′ E., 20.92 chains to AP 8;
S. 28° 06′ E., 70.05 chains to AP 9;
S. 69° 15′ E., 26.73 chains to AP 10;
S. 41° 32′ E., 55.35 chains to AP 11;
N. 89° 19′ E., 30.79 chains to AP 12;
S. 25° 40′ E., 36.19 chains to AP 13;
N. 66° 24′ E., 56.38 chains to AP 14;
S. 63° 17′ E., 76.05 chains to AP 15;
S. 38° 48′ E., 29.84 chains to AP 16;
S. 82° 20′ E., 71.44 chains to AP 17;
S. 35° 07′ E., 32.82 chains to AP 18;
S. 36° 24′ W., 18.77 chains to AP 19;
S. 1° 41′ W., 61.73 chains to AP 20;
N. 65° 19′ E., 25.68 chains to AL 21;
S. 52° 59′ E., 41.19 chains to AP 22;
N. 85° 57′ E., 44.22 chains to AP 23;
S. 58° 52′ E., 69.09 chains to AP 24;
S. 82° 14′ E., 46.21 chains to AP 25;
S. 26° 06′ E., 74.82 chains to AP 26;
S. 88° 42′ E., 14.59 chains to closing corner of secs. 31 and 36, T. 6 S., Rs. 8 and 9 W., 12.07 chains south of corner of secs. 25 and 36, T. 6 S., R. 9 W.

The description of the total acreage withdrawn by said order is amended to read 286,000 acres.

DEPUE FALCK,
Acting Director.

[F. R. Doc. 55–9903; Filed, Dec. 8, 1955; 8:45 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 58]

GRADING, INSPECTION, SAMPLING, GRADE LABELING AND SUPERVISION OF PACKAGING OF BUTTER, CHEESE AND OTHER MANUFACTURED OR PROCESSED DAIRY PRODUCTS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance, as hereinafter proposed, of amendments to the regulations governing the grading, inspection, sampling, grade labeling and supervision of packaging butter, cheese and other manufactured or processed dairy products (7 CFR, Part 58) issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.). The proposed amendments will implement Public Law 272, 84th Congress, 1st session, approved August 9, 1955, amending the aforesaid act, by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, or condition, that are official for the purpose of said act. The proposal also makes minor corrections to the amendment of Part 58 published in the FEDERAL REGISTER August 5, 1955 (20 F. R. 5622) and with respect to § 58.45, "Fees for Laboratory Analyses" provides specific fees for additional laboratory tests and for a slight reduction in fees for certain tests.

All persons who desire to submit written data, views or arguments in connection with this amendment should file the same in triplicate with the Chief of the Inspection and Grading Branch, Dairy Division, Agricultural Marketing Service, United States Department of Agriculture, Room 2977, South Building, Washington 25, D. C., not later than 10 days after publication hereof in the FEDERAL REGISTER.

The proposed amendments are as follows:

1. Delete the definition of "Official Identification" in § 58.2 (q).

2. Add new § 58.2a to read as follows:

§ 58.2a *Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks, or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

(a) "Official certificate" means any form of certification, either written or printed, used under this Part to certify with respect to the inspection, class, grade, quality, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling, pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, and any other mark, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part, including but not limited to, those set forth in §§ 58.49 through 58.51.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, quantity, or condition specified in this part and Parts 20, 23, 24, 25, 37, 39, 40, 43 and 45 of this chapter, or any symbol, stamp, label, or seal indicating that the product has been officially graded or inspected and/or indicating the class, grade, quality, quantity, or condition of the product, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

3. Correct item 12 of the amendment published August 5, 1955 (20 F. R. 5624) to read as follows: Delete § 58.16 and redesignate § 58.15 as § 58.16. Correct item 26 of the same amendment (20 F. R. 5625) to read as follows: Place the heading "Miscellaneous" prior to § 58.59 instead of prior to § 58.58 and delete § 58.59.

4. Change § 58.16 to read as follows:

§ 58.16 *Disposition of samples of graded product.* Any sample of graded product may be returned to the applicant at his request and at his expense if such request was made at the time of the application for the grading service. In the event the aforesaid request was not made at the time of application for the grading service, the sample of product may be disposed of to any recognized charitable organization or in any other manner which is approved by the Administrator.

5. Change § 58.45 *Fees for laboratory analyses* as follows:

(a) *Dry milk, dry whey.*

Change certain items as follows:

Scorched particles	$0.50
Moisture	1.75
Fat	2.00
Alkalinity of ash	2.00
Iron	5.50
Copper	5.50

(h) *Bacteriological analyses and other specified determinations with respect to individual tests for one factor.*

Add the following:

Iron	$5.50
Copper	5.50
Protein (Kjeldahl)	3.00
Plant survey "line" samples, based on time required to perform such services, per hour	3.00

6. Change the first paragraph of § 58.58 (a) to read as follows:

§ 58.58 *Debarment of service.* (a) The following acts or practices and those set forth in § 58.2a, or the causing thereof, may be deemed sufficient cause for the debarment, by the Administrator, of any person, including any agents, officers, subsidiaries, or affiliates of such person from any or all benefits of the act for a specified period after notice and opportunity for hearing has been accorded him; and pending investigation and hearing the Administrator may direct, without hearing, that such person shall be denied the benefits of the act.

7. Section 58.58 (a) (4) *Wilful violation of the regulations.* Change to read as follows:

(4) *Wilful violation of the regulations.* Wilful violation of the regulations in this part or the act, or the instructions or specifications issued by the Administrator.

(60 Stat. 1090; 7 U. S. C. 1624)

Issued at Washington, D. C., this 6th day of December 1955.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator,
Agricultural Marketing Service.

[F. R. Doc. 55-9907; Filed, Dec. 8, 1955; 8:46 a. m.]

[7 CFR Part 945]

TOMATOES GROWN IN FLORIDA

PROPOSED SAFEGUARDS AND EXEMPTION PROCEDURES

Notice is hereby given that the Secretary of Agriculture is considering the approval of the rules and regulations, hereinafter set forth, which were recommended by the Florida Tomato Committee, established pursuant to Marketing Agreement No. 125 and Order No. 45 (7 CFR Part 945; 20 F. R. 7357) regulating the handling of tomatoes grown in Florida, issued under the Agricultural Marketing Agreement Act of 1937, as amended (48 Stat. 31, as amended; 7 U. S. C. 601 et seq.; 68 Stat. 906, 1047).

Consideration will be given to any data, views, or arguments pertaining thereto, which are filed with the Director, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 15 days following publication of this notice in the FEDERAL REGISTER.

The proposals are as follows:

GENERAL

Sec.
945.100 Communications.

DEFINITIONS

945.110 Order.
945.111 Marketing Agreement.
945.112 Terms.
945.113 Registered handler.

SAFEGUARDS

945.120 Application for Certificate of Privilege.
945.121 Issuance.
945.122 Reports.
945.123 Denial and appeal.

EXEMPTION PROCEDURES

945.130 Application.
945.131 Investigations.
945.132 Issuance.
945.133 Disposition of certificates.
945.134 Reports.
945.135 Appeals.

AUTHORITY: §§ 945.100 to 945.135 issued under sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c.

GENERAL

§ 945.100 *Communications.* Unless otherwise provided in the marketing agreement and order, or by specific direction of the committee, all reports, applications, submittals, requests, and communications in connection with the marketing agreement and order shall be addressed to the Florida Tomato Committee at its principal office.

DEFINITIONS

§ 945.110 *Order.* "Order" means Order No. 45 (7 CFR Part 945; 20 F. R. 7357) regulating the handling of tomatoes grown in Florida.

§ 945.111 *Marketing agreement.* "Marketing Agreement" means Marketing Agreement No. 125.

§ 945.112 *Terms.* Terms used in this subpart shall have the same meaning as when used in the marketing agreement and order.

§ 945.113 *Registered handler.* For purposes of this part, a registered handler is a person who has adequate facilities for grading tomatoes for market and who assumes initial responsibility for compliance with inspection, assessment, and other regulatory requirements on the handling of tomatoes grown in the production area. Any person who wishes to become a registered handler shall make application for registration with the committee on forms prescribed by and available at the principal office of the committee. If such applicant has facilities which are determined by the committee as adequate for grading tomatoes, he may be approved as a registered handler. Persons who make deliveries of ungraded tomatoes to such registered handlers are hereby determined to be exempt from otherwise applicable regulations pursuant to this part.

SAFEGUARDS

§ 945.120 *Application for Certificate of Privilege.* (a) Whenever handling is regulated pursuant to § 945.53, each handler desiring to make shipments of tomatoes for any of the following purposes shall, prior thereto, apply to the committee for and obtain a Certificate of Privilege permitting such shipment:

(1) For relief or charity; or

(2) For canning.

(b) Applications for Certificates of Privilege shall be made on forms furnished by the committee. Each application shall contain the name and address of the handler, and such other information as such committee may require, such as, but not limited, to the quantity (by grade, size, quality, and variety) of tomatoes to be shipped, the mode of transportation, consignee, destination, and other appropriate information or documents necessary to safeguard against the entry of such tomatoes into trade channels other than those for which the Certificate of Privilege is granted.

§ 945.121 *Issuance.* The committee, or its duly authorized agents, shall give prompt consideration to each application for a Certificate of Privilege and shall determine whether the application is approved. Approval of an application shall be evidenced by the issuance of a Certificate of Privilege authorizing the applicant named therein to ship tomatoes for a specified purpose for a specified period of time.

§ 945.122 *Reports.* Each handler handling tomatoes under and pursuant to a Certificate of Privilege shall supply the committee with a report thereon within the time specified on the application for such certificate showing the name and address of the shipper, car or truck identification, loading point, destination, consignee, and, when inspection is required, the Federal-State Inspection Certificate number.

§ 945.123 *Denial and appeal.* The committee may rescind a Certificate of Privilege issued to a handler, or deny a Certificate of Privilege to a handler, upon proof satisfactory to such committee, that such handler has shipped tomatoes contrary to the provisions of this part. Such committee action denying a Certificate of Privilege shall apply to and not exceed a reasonable period of time as determined by such committee. Any handler who has been denied a Certificate of Privilege, or who has had a Certificate of Privilege rescinded, may appeal to the committee for reconsideration. Such appeal shall be in writing.

EXEMPTION PROCEDURES

§ 945.130 *Application.* Any person applying for exemption from regulations issued pursuant to § 945.52 shall file such application with the committee, or its duly authorized agent for such purpose, on forms to be furnished by such committee. Each application shall state the name and address of the applicant, the grade, size, and quality regulations from which exemption is requested; and facts demonstrating that the tomatoes, for which exemption is requested, were adversely affected by acts beyond his control or by acts beyond the applicant's reasonable expectation. Each application for an exemption certificate must be accompanied by a Federal-State Inspection Certificate covering the specified quantity of tomatoes for which exemption is requested: *Provided,* That the committee may authorize the submission of such Federal-State Inspection Certificate subsequent to the filing of the application for exemption and prior to consideration of such application. Applications shall set forth such additional information as the committee may find necessary in making determinations with respect thereto, including, without limitation thereto, the information required on producers' applications by paragraphs (a) and (b) of this section.

(a) The location of the farm on which tomatoes for which exemption is requested were produced, the location where such tomatoes are to be prepared for market, and the loading point from which such tomatoes are to be shipped if exemption is granted;

(b) Acreage and quantity (by grade, size, quality, and variety) of tomatoes harvested prior to the date of application and to be harvested, subsequent to such date, during the remainder of the season or specific portion thereof (as may be determined pursuant to this part); the quantity (by grade, size, quality, and variety) of tomatoes disposed of prior to the date of application and to be disposed of subsequent to such date; the location of the tomatoes to be disposed of, together with the place where such tomatoes will be handled; an estimate of the portion of such tomatoes which can be handled under regulation issued pursuant to § 945.52, during the remainder of the season; and the reasons why all of such tomatoes cannot be handled under such regulations.

§ 945.131 *Investigations.* The committee may authorize investigations of applications by its employees, Federal-State inspectors, and such other persons as may be necessary to procure adequate information to pass upon the merits of such applications.

§ 945.132 *Issuance.* (a) The committee, or its duly authorized agents, shall give prompt consideration to all statements and facts relating to each application for exemption, and, pursuant to applicable provisions of this part, a determination shall be made as to whether or not the application is approved. The determination, if approving the application, shall be evidenced by the issuance of a certificate of exemption pursuant to § 945.71: *Provided,* That more than one certificate may be issued, at the request of an applicant, where the applicant ships or causes to be shipped the total quantity of exempted tomatoes in more than one lot, in which case each certificate so issued shall be limited to the quantity of exempted tomatoes to be contained in the respective lots shipped and the total quantity of exempted tomatoes covered by such certificates shall not exceed the total quantity of such tomatoes which would be authorized if only one certificate were issued to such applicant.

(b) The applicant shall be notified in writing if his request for exemption is denied.

(c) Each exemption certificate issued pursuant to this subpart shall be on a form duly approved by the committee and signed by an authorized representative of such committee. At least one copy of each exemption certificate issued shall be retained in the committee records. Each such certificate shall contain the name and address of the recipient, the location of all tomatoes authorized to be shipped thereunder, the quantity (by grade, size, quality and variety) of tomatoes which will be permitted in the exempted shipments and such other information as may be deemed necessary by the committee to provide such committee, the recipient, or both, with adequate and specific information regarding such exempted tomatoes.

§ 945.133 *Disposition of certificates.* Each lot of tomatoes handled under an exemption certificate shall be accompanied by such certificate, or such appropriate identifying information with respect to such certificate, as the committee may require, to facilitate the administration of regulatory provisions applicable thereto.

§ 945.134 *Reports.* Persons handling tomatoes under exemption certificates shall, at such time as may be specified in such certificates, report thereon to the committee the names and addresses of the receivers of such tomatoes, the quantity shipped (by grade, size, quality, and variety), the inspection certificates issued with respect thereto, the dates of such shipments, and such other information as may be requested by such committee in order to administer the regulatory provisions applicable thereto.

§ 945.135 *Appeals.* If any applicant is dissatisfied with the determination of the committee regarding an application for an exception certificate, or any duly issued exemption certificate an appeal by such applicant may be taken to such committee in accordance with § 945.74.

Dated: December 6, 1955.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

NOTICES

DEPARTMENT OF COMMERCE

Bureau of the Census

INVENTORIES, SALES, AND ACCOUNTS RECEIVABLES OF RETAILERS

NOTICE OF CONSIDERATION FOR SURVEYS

Notice is hereby given that the Bureau of the Census is considering a proposal to conduct a 1955 Annual Retail Trade Survey of year-end inventories; annual sales; and accounts receivable, charge and installment, as of the end of the year, under the provisions of the Act of Congress approved August 31, 1954, 13 U. S. C. 181, 224, and 225. This survey will provide the only continuing source of important information on these phases of retail trade in the various kinds of retail business. On the basis of information and recommendations received by the Bureau of the Census, the data will have significant application to the needs of the public, the distributive trades, and governmental agencies, and are not publicly available from non-governmental or other governmental sources.

Such survey, if conducted, shall begin not earlier than 30 days after publication of this notice in the FEDERAL REGISTER.

Reports will not be required from all retail firms in the United States, but only from a selected sample, in order to provide, with measurable reliability, regional annual sales figures, national inventory figures, sales-inventory ratios, and charge and installment accounts receivable as of the end of the year. Reports will be requested from sampled stores on the basis of their sales size and/or location in Census Sample Areas. A group of the largest firms in terms of number of retail stores operated will be requested to report regardless of the store locations.

Copies of the proposed forms and a description of the collection methods are available on request to the Director, Bureau of the Census, Washington 25, D. C.

Any suggestions or recommendations concerning the subject matter of this proposed survey should be submitted in writing to the Director of the Census and will receive consideration.

[SEAL] ROBERT W. BURGESS,
Director,
Bureau of the Census.

Approved:

SINCLAIR WEEKS,
Secretary of Commerce.

Federal Maritime Board

CLAN LINE STEAMERS LTD. ET AL.

NOTICE OF AGREEMENTS FILED WITH THE BOARD FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

(1) Agreement No. 8037, between Clan Line Steamers Limited (Clan Line) and Bull Insular Line, Inc., covers the transportation of gunny sacks, hessian cloth and jute under through bills of lading from India and Pakistan to Puerto Rico, with transhipment at New York, Baltimore or Philadelphia. Agreement No. 8037 was filed to supersede and cancel approved transhipment Agreement No. 7744.

(2) Agreement No. 8056, between American Export Lines, Inc., and Bull Insular Line, Inc., covers the transportation of gunny sacks, hessian cloth and jute under through bills of lading from India and Pakistan to Puerto Rico, with transhipment at New York, Baltimore or Philadelphia. Agreement No. 8056 was filed to supersede and cancel approved transhipment Agreement No. 7963.

(3) Agreement No. 8058, between Matson Navigation Company and Fred. Olsen & Co. (Fred. Olsen Line), covers the transportation of canned pineapple on through bills of lading from Hawaii to Europe, with transhipment at ports on the Pacific Coast of the United States.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to any of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: November 5, 1955.

[SEAL] A. J. WILLIAMS,
Secretary.

[F. R. Doc. 55-9919; Filed, Dec. 8, 1955; 8:47 a. m.]

Office of the Secretary

[Dept. Order 162]

SURETY BONDS

REDELEGATION OF AUTHORITY

SECTION 1. *Purpose.* The purpose of this order is to redelegate the authority of the Secretary of Commerce under the act of August 9, 1955, Public Law 323, 84th Congress (69 Stat. 618; 6 U. S. C. 14), with respect to obtaining surety bonds to cover officers and employees of the Department and to prescribe the reporting requirements incident thereto.

SEC. 2. *Delegation of authority.* .01 Pursuant to the authority vested in the Secretary of Commerce by law, the heads of primary organization units and the Director, Office of Budget and Management for the Office of the Secretary, are hereby authorized to obtain appropriate surety bonds to cover officers and employees of the Department who are required by law or administrative ruling to be bonded.

.02 The purchase of bonds pursuant to this authority shall be in accordance with the applicable regulations promulgated by the Secretary of the Treasury and published at 20 F. R. 8288 (31 CFR Chap. II, Subchapter A, Part 226) including such amendments of these regulations as may be issued from time to time, all of which are made a part hereof by reference.

.03 The authority delegated herein may be redelegated to such officers or employees as the heads of primary organization units and the Director, Office of Budget and Management may designate.

SEC. 3. *Reports.* .01 In order to comply with the reporting requirements of the act of August 9, 1955, and the Treasury Regulations, each primary organization unit and the Office of Budget and Management for the Office of the Secretary, shall prepare and submit to the Director, Office of Budget and Management, not later than May 15, 1956, an initial report of operations under the act prior to April 30, 1956.

.02 A similar report shall be submitted to the Office of Budget and Management not later than August 1 of 1957 and each year thereafter covering operations under the act for the preceding fiscal year.

.03 The reports prescribed herein shall contain the information specified in the pertinent regulations of the Department of the Treasury.

SEC. 4. *General provision.* While the provisions of this order do not become effective until January 1, 1956, the head of each primary organization unit and the Director, Office of Budget and Management should take such action, prior to that date, as may be necessary to obtain bonds to be effective on January 1, 1956, or as soon thereafter as practicable.

Effective date: January 1, 1956.

[SEAL] SINCLAIR WEEKS,
Secretary of Commerce.

FEDERAL POWER COMMISSION

[Docket No. G-8331]

WESTHOMA OIL CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that Westhoma Oil Company (Applicant), a Delaware corporation whose address is Post Office Box 245, Hooker, Oklahoma, filed on January 6, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production in the Keyes Field, Cimarron County, Oklahoma, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, January 11, 1956 at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-9910; Filed, Dec. 8, 1955; 8:46 a. m.]

[Docket No. G-8334]

PHILLIPS PETROLEUM CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that Phillips Petroleum Company (Applicant), a Delaware corporation whose address is Bartlesville, Oklahoma, filed, as non-operator[1] on January 10, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the Hamilton Lease, Keyes Field, Texas County, Oklahoma, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Wednesday, January 11, 1956, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-9911; Filed, Dec. 8, 1955; 8:46 a. m.]

[Docket Nos. G-8446, G-8447]

UNITED PRODUCING CO., INC. AND UNITED CARBON CO., INC.

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that United Producing Company, Inc.,[1] and United Carbon Company, Inc. (Maryland), hereinafter referred to as Applicant, Maryland corporations whose addresses are United Carbon Building, Charleston, West Virginia, each filed, on February 8, 1955, an application for a certificate of public convenience and necessity pursuant to Section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications which are on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the 160 acre E. Isom, 640 acre Ella Hamilton,[2] 160 acre Minnie Ross and 320 acre B. Chapman[2] leases, Keyes Field, Texas and Cimarron Counties, Oklahoma, to Colorado Interstate Gas Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, January 12, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such applications: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 21, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-8497]

AMERADA PETROLEUM CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that Amerada Petroleum Corporation (Applicant), a Delaware corporation whose address is P. O. Box 2040, Tulsa 2, Oklahoma, filed, on February 21, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of certain leases in the Greenwood Field, Morton County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, January 12, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure

[1] The lease operator is United Producing Company, Inc. See Docket No. G-8446.

[1] The operator of the 640 acre Ella Hamilton Lease is United Producing Company, Inc., which owns 75 percent thereof. The non-operator and owner of the remaining 25 percent is Phillips Petroleum Company. See Docket No. G-8334.

[2] United Producing Company, Inc. owns 50 percent of the B. Chapman Lease as shown on exhibit A to the application.

(18 CFR 1.8 or 1.10) on or before December 22, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

DIANE KING, F. B. KING, JR., AND KETHA KING

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that Diane King, F. B. King, Jr., and Ketha King, individuals whose addresses are Homer, Louisiana, hereinafter referred to as Applicant, each filed, as non-operator[1] on August 8, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the applications (application) which are on file with the Commission and open for public inspection.

Each Applicant sells natural gas in interstate commerce from production of the 160 acre Jones-Baucum Unit, East Haynesville Field, Claiborne Parish, Louisiana, to Arkansas Louisiana Gas Company for resale.

These related matters should be heard on a consolidated record and disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Thursday, January 12, 1956, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 22, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[1] The operator of the Unit is Southwest Natural Production Company. See Docket No. G-7229.

[Docket No. G-9322]

EQUITABLE GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that Equitable Gas Company, a Pennsylvania corporation having its principal office in Pittsburgh, Pennsylvania (Applicant), filed on September 14, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to construct and operate natural gas facilities and render service as hereinafter described, subject to the jurisdiction of the Commission all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to construct and operate approximately 1,430 feet of 6-inch pipeline extending from Applicant's 12-inch main line to a proposed one well storage pool located on the Hayes Farm, Mannington District, Marion County, West Virginia. The estimated cost of the project is $71,655, of which $7,650 will be for the cost of the proposed pipeline, with the remainder being for costs of reconditioning, acquisition of storage rights, and purchase of remaining gas in place. Applicant states it will utilize the capacity of the existing 12-inch line connecting the Logansport Storage Pool, and Logansport Compressor Station to operate the Hayes Pool, hence, both storage pools will be operated in combination, which will provide capacity for an increase in daily winter time supply enabling Applicant to better serve peak day gas requirements estimated for future winter seasons. No new market is contemplated as a result of utilization of the Hayes Storage Pool.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 10, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 30, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55-9915; Filed, Dec. 8, 1955; 8:47 a. m.]

[Docket No. G-9435]

KANSAS-NEBRASKA NATURAL GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 5, 1955.

Take notice that Kansas-Nebraska Natural Gas Company (Applicant), a Kansas corporation with its principal place of business at Phillipsburg, Kansas, filed an application on October 5, 1955, as amended on October 31, 1955, for a certificate of public convenience and necessity, pursuant to section 7 of the Natural Gas Act, authorizing the acquisition and operation of an abandoned oil pipeline and the construction and operation of connection facilities to convert the oil line into an integral part of its existing interstate natural gas transmission system, as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open to public inspection.

Applicant proposes to acquire, connect to its existing system and to operate approximately 14 miles of 16 inch abandoned crude oil pipeline now in place, replacing a similar quantity of 8 inch pipeline now in use in its existing system between North Platte and Brady, Nebraska. The 16 inch line is located near the 8 inch line and parallel to it. The 16 inch pipeline is being purchased from O. R. Burden Construction Company, and was formerly owned by Service Pipeline Company.

Applicant states that the present authorized capacity of its system is only sufficient to meet its requirements for the anticipated 1955-56 peak day. The substitution of the 14 miles of 16 inch pipe for the present 8 inch line will permit the transmission from Western Nebraska and Northeastern Colorado fields of an additional 2,500 Mcf on peak days, into the central and northeastern Nebraska portion of the system, which additional 2,500 Mcf will assure adequate service to the increasing firm market demand of present customers in Central and Northeastern Nebraska.

Applicant also states that the increase in capacity will allow it to transport an additional 1,500 Mcf per day of oil well gas from the western system into the eastern portion of its system during the summer months, therefore making available gas that is presently being flared. No change in authorized service is proposed.

Applicant proposes to pay $159,268 for the oil line in place, plus an estimated $19,835 for cost of connection with the existing system. There will be a credit of $25,830 due to reclaiming the 8 inch line, leaving a new total cost to Applicant of $153,273 which will be financed from current funds.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 10, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 6, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31392: *Plaster retarder in Official Territory.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on plaster retarder, carloads, and in mixed carloads with plaster and related articles and/or gypsum wallboard between points in trunkline, New England and central territories as described in the application, and between such points, on one hand, and points in southern Illinois, also Paducah, Ky., St. Louis, Mo., and other points in Missouri and in proximity to the Mississippi River, on the other.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 17 to Agent Hinsch's I. C. C. 4662.

FSA No. 31393: *Calcium chloride from and to points on The Chicago, Aurora, and Elgin Railway.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on calcium chlorides, in carloads, as described in the application, (a) From and to points in central territory, as described on pages 8 through 13 of Agent Hinsch's tariff I. C. C. 4622, (b) from said points to points in trunkline and New England territories as described on pages 16, 20, 21 and 22 of said tariff, on the one hand, and (c) from, to or via points on the Chicago, Aurora and Elgin Railway in northern Illinois described in application.

Grounds for relief: Carrier competition and circuity.

Tariffs: Supplement 153 to Agent Hinsch's I. C. C. No. 3779 and nine other tariffs.

FSA No. 31394: *Potatoes—Maine and New Brunswick to T. L., N. E., and Central Territories.* Filed by C. W. Boin and O. E. Swenson, Agents, for interested rail carriers. Rates on potatoes, (white), carloads, from points in Maine and New Brunswick, Canada to points

in central, New England and trunkline territories.

Grounds for relief: Carrier competition and circuity.

FSA No. 31395: *Manufactured iron and steel articles to Baltimore, Md.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on manufactured iron or steel articles, carloads, from specified points in southern territory, over rail-water routes to Baltimore, Md.

Grounds for relief: Competition of all-rail carriers and maintenance of rates differentially related to all-rail rates-circuitous routes.

Tariff: Supplement 17 to Agent Spaninger's I. C. C. 1454.

FSA No. 31396: *Manufactured iron and steel articles—South to Official Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on manufactured iron and steel articles, carloads from specified points in southern territory to specified points in official (including Illinois) territory, Ohio River Crossings and Virginia Cities.

Grounds for relief: Short-line distance formula, grouping, operation through higher-rated territories, and circuity.

Tariffs: Supplement 126 to Agent Spaninger's I. C. C. 1258; Supplement 17 to Agent Spaninger's I. C. C. 1454.

FSA No. 31397: *Fertilizer solutions from, to and between the Southwest.* Filed by F. C. Kratzmeir, Agent, for interested rail carriers. Rates on fertilizer ammoniating solutions, nitrogen fertilizer solutions, and phosphatic fertilizer solutions, carloads between (1) points in southwestern territory (2) between points in southwestern territory, on one hand, and points in Kansas, on the other, and (3) from points in southern territory to points in southwestern territory.

Grounds for relief: Short-line distance formula and circuity.

Tariff: Supplement 102 to Agent Kratzmeir's I. C. C. 4112.

FSA No. 31398: *Auto passenger bodies—Gary, Ind., to Norfolk, Va.* Filed by H. R. Hinsch, Agent, for interested rail carriers. Rates on passenger automobile bodies, carloads from Gary, Ind., to Norfolk, Va.

Grounds for relief: Carrier competition and circuity.

By the Commission.

INTERNATIONAL COOPERATION ADMINISTRATION

DIRECTOR AND ASSISTANT DIRECTOR OF OFFICE OF TRANSPORTATION

DELEGATION OF AUTHORITY TO WAIVE PROVISION OF PROCUREMENT AUTHORIZATIONS REGARDING TRANSPORTATION ON U. S. FLAG COMMERCIAL VESSELS

By virtue of the authority vested in me by Executive Order No. 10610 and State Department Delegation of Authority No. 85, as amended ("Establishment of International Cooperation Administration and Delegation of Certain Related Functions") (20 F. R. 4825 and 20 F. R. 7950), I hereby delegate to the Director of the Office of Transportation and to the Assistant Director of the Office of Transportation the authority to waive, and to issue and sign statements indicating waivers of, compliance with the U. S. flag vessel provision incorporated in any authorization for procurement (including Procurement Authorizations, Project Implementation Orders, Procurement Authorization-Purchase Requisitions, and similar documents) issued by the International Cooperation Administration. This delegation of authority shall be effective as of July 1, 1955.

All actions waiving compliance with the U. S. flag vessel provision incorporated in authorizations for procurement (including Procurement Authorizations, Project Implementation Orders, Procurement Authorization-Purchase Requisitions, and similar documents) issued by either the Foreign Operations Administration or the International Cooperation Administration which have been taken by the Director and other officials of the Office of Transportation since August 26, 1954, are specifically approved, confirmed, adopted, and ratified.

Dated: November 23, 1955.

JOHN B. HOLLISTER, *Director.*

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 65]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

§ 914.365 *Navel Orange Regulation 65*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The Navel Orange Administrative Committee held an open meeting on December 8, 1955, after giving due notice thereof, to consider supply and market conditions for navel oranges and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after such meeting was held; the provisions of this section, including its effec-

handled during the period beginning at 12:01 a. m., P. s. t., December 11, 1955, and ending at 12:01 a. m., P. s. t., December 18, 1955, is hereby fixed as follows:

(i) District 1: 554,400 cartons;
(ii) District 2: 10,384 cartons;
(iii) District 3: Unlimited movement;
(iv) District 4: Unlimited movement.

(2) Navel oranges handled pursuant to the provisions of this section shall be subject to any size restrictions applicable thereto which have heretofore been issued on the handling of such oranges and which are effective during the period specified herein.

(3) As used in this section, "handled," "District 1," "District 2," "District 3," and "District 4" have the same meaning as when used in said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit, or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 9, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[Lemon Reg. 619]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATIONS OF SHIPMENTS

§ 953.726 *Lemon Regulation 619*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 20 F. R. 2913), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 7, 1955, such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time thereof.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 11, 1955, and ending at 12:01 a. m., P. s. t., December 18, 1955, is hereby fixed as follows:

(i) District 1: Unlimited movement;
(ii) District 2: 148,800 cartons;
(iii) District 3: Unlimited movement.

(2) As used in this section, "handled," "District 1," "District 2," and "District 3" have the same meaning as when used in the said amended marketing agreement and order; and "carton" means the standard one-half orange, grapefruit or lemon box set forth as standard container number 58 in section 828.83, as amended, of the Agricultural Code of California.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 8, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[F. R. Doc. 55–10009; Filed, Dec. 9, 1955; 8:53 a. m.]

[Avocado Order 9, Amdt. 2]

PART 969—AVOCADOS GROWN IN SOUTH FLORIDA

CONTAINER REGULATION

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 69, as amended (7 CFR Part 969; 20 F. R. 4177), regulating the handling of avocados grown in South Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.; 68 Stat. 906, 1047), and upon the basis of the recommendation and information submitted by the Avocado Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the relaxation of the limitation, as hereinafter provided, on the handling of such avocados will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient; and this amendment relieves restrictions on the handling of avocados grown in South Florida, in that it increases, by one, the number of sizes of containers in which avocados may be handled during the period hereinafter specified.

Order, as amended. The provisions in paragraph (b) of § 969.309 (Avocado Order 9, as amended; 20 F. R. 5627, 6571) are hereby further amended so as to permit, during the period beginning at 12:01 a. m., e. s. t., December 12, 1955, and ending at 12:01 a. m., e. s. t., January 16, 1956, the handling of avocados in any container with inside dimensions 17½ by 11½ by 8⅝ inches. Otherwise, the provisions of said Order No. 9, as amended, shall remain and continue in full force and effect.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 8, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

PART 989—RAISINS PRODUCED FROM RAISIN VARIETY GRAPES GROWN IN CALIFORNIA

MODIFICATION OF MINIMUM GRADE STANDARDS FOR PACKED MUSCAT RAISINS

Pursuant to the Marketing Agreement No. 109, as amended, and Order No. 89, as amended (20 F. R. 6435), regulating the handling of raisins produced from raisin variety grapes grown in California, hereinafter referred to as the "order," effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), hereinafter referred to as the "act," and upon the basis of information supplied by the Raisin Administrative Committee established under the order, and other available information, it is hereby found that to modify the minimum grade standards for packed Muscat raisins other than Layer Muscats as hereinafter provided will tend to effectuate the declared policy of the act.

There have been presented for inspection packed Soda Dipped Seeded (Valencia) Muscat raisins and packed Unseeded Loose Muscat raisins which have not had their capstems removed. These are packed raisins as defined in the order. The existing minimum grade standards provided in § 989.59 (a) (1) (i) of the order for packed Muscat raisins other than Layer Muscats are not entirely satisfactory for use in connection with the aforesaid Valencia and Loose Muscat raisins. It is necessary, of course, that appropriate minimum grade standards be prescribed for any raisins which may be presented for inspection under the order. Therefore, the present standards should be modified, insofar as they relate to packed Muscat raisins other than Layer Muscats, so that they include appropriate requirements for all of such raisins, including the Seeded Valencia Muscat raisins and Unseeded Loose Muscat raisins which have not had their capstems removed.

Accordingly, it is hereby ordered that the requirements contained in § 989.59 (a) (1) (i) of the order that all packed raisins except Layer Muscats and Dante Currants at least meet the minimum grade standards prescribed in "U. S. Grade C" as defined in "effective United States Standards for Grades of Processed Raisins," are modified in accordance with the authorization contained in § 989.59 (b) of the order as follows:

a. The minimum grade standards for all packed Muscat raisins other than Layer Muscats shall be those of "U. S. Grade C" of the grades of Muscat raisins contained in the aforesaid effective standards (now in § 52.1847, 20 F. R. 5760) except that: (1) In the case of Soda Dipped Seeded (Valencia) raisins, all the requirements applicable to Soda Dipped Unseeded (Valencia) raisins shall apply, other than the moisture and seed tolerance requirements which shall be those of Seeded Muscat raisins; and (2) in the case of Unseeded, Uncapstemmed, Loose, Muscat raisins, the limitation with respect to capstems shall not apply when the capstems remain attached to the berries, but in no event shall the total loose capstems exceed 20 per 16 ounces.

b. Otherwise, the minimum grade standards prescribed in § 989.59 (a) (1) as heretofore modified (20 F. R. 7808), continue in effect as presently effective.

It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice and postpone the effective date of this document later than the date of its publication in the FEDERAL REGISTER (see section 4 of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) because the existing minimum grade standards for packed Muscat raisins other than Layer Muscats are restricting the marketing of such raisins; it is necessary that such standards be modified immediately so that normal marketing of such raisins may proceed; handlers require no time for preparation to comply with the changed regulation; and, in the circumstances, good cause exists for making the provisions of this document effective at the indicated time.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Issued this 7th day of December 1955, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] S. R. SMITH,
Director,
Fruit and Vegetable Division.

[F. R. Doc. 55-9969; Filed, Dec. 9, 1955; 8:51 a. m.]

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

ENTIRE EXECUTIVE CIVIL SERVICE
DEPARTMENT OF THE NAVY

Effective upon publication in the FEDERAL REGISTER, paragraphs (g) and (s) of § 6.101 and paragraph (a) (5) of § 6.106 are amended as set out below.

§ 6.101 *Entire executive civil service.* • • •

(g) Any position in which the appointee will receive compensation aggregating not more than $1,100 a year, the duties of which are part-time or intermittent, but such appointments shall not be for job employment. In Washington, D. C., such appointments shall be subject to the prior approval of the Commission.

• • • • •

(s) Temporary, part-time or intermittent positions of student assistant when the appointees are to assist scientific, professional, or technical employees. Persons employed under this provision shall be bona fide students at high schools or accredited colleges or universities pursuing courses related to the field in which employed. No person shall be employed under this provision (1) in a position of a routine clerical type; or (2) in excess of 130 working days a year; or (3) at a total compensation exceeding $1,270 during such a period of one year.

§ 6.106 *Department of the Navy*—(a) *General.* • • •

(5) Student trainees in naval shipyards, whose salaries shall not aggregate more than $1,100 a year. Only bona fide students engaged in the study of naval architecture shall be eligible for appointment under this subparagraph. Employment under this subparagraph shall not exceed 90 working days a year.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633; E. O. 10440, 18 F. R. 1823, 3 CFR, 1953 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

[F. R. Doc. 55-9943; Filed, Dec. 9, 1955; 8:48 a. m.]

PART 6—EXCEPTIONS FROM THE COMPETITIVE SERVICE

DEPARTMENT OF THE INTERIOR

Effective upon publication in the FEDERAL REGISTER, paragraph (c) (6) is added to § 6.310 as set out below.

§ 6.310 *Department of the Interior.* • • •

(c) *Fish and Wildlife Service.* • • •

(6) Not to exceed June 1, 1956, one Assistant Director for Field Operations.

(R. S. 1753, sec. 2, 22 Stat. 403; 5 U. S. C. 631, 633; E. O. 10440, 18 F. R. 1823, 3 CFR, 1953 Supp.)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

[F. R. Doc. 55-9942; Filed, Dec. 9, 1955; 8:47 a. m.]

TITLE 12—BANKS AND BANKING

Chapter III—Federal Deposit Insurance Corporation

PART 329—PAYMENT OF DEPOSITS AND INTEREST THEREON BY INSURED NONMEMBER BANKS

MISCELLANEOUS AMENDMENTS

Correction

In F. R. Document 55-9776 appearing in the issue for Tuesday, December 6, 1955, on page 8949, the chapter heading should read as set forth above.

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

Subchapter T—Patents in Fee, Competency Certificates, Sales and Reinvestment of Proceeds

PART 241—ISSUANCE OF PATENTS IN FEE, CERTIFICATES OF COMPETENCY, SALE OF CERTAIN INDIAN LANDS, AND REINVESTMENT OF PROCEEDS

MISCELLANEOUS AMENDMENTS

Sections 241.1, 241.2, 241.24, 241.26, and 241.49 are amended to read as follows:

§ 241.1 *Application for patent in fee.* Any Indian 21 years of age or over may apply for a patent in fee for land, the title to which is held in trust for said Indian by the United States. The application shall be made on a form approved by the Commissioner of Indian Affairs and shall be completed and filed with the Superintendent or other officer in charge of the Indian agency or other local facility having administrative jurisdiction over the land.

§ 241.2 *Issuance of patents in fee.* (a) The Secretary of the Interior may, in his discretion, and pursuant to the acts of February 8, 1887, as amended (24 Stat. 388, as amended; 25 U. S. C. 349); June 25, 1910, as amended (36 Stat. 855, as amended; 25 U. S. C. 372); and May 14, 1948 (62 Stat. 236; 25 U. S. C. 483), and pursuant to other authorizing acts, issue patents in fee to Indians applying therefor in accordance with § 241.1. A patent in fee will not be issued pursuant to this paragraph unless it appears that the applicant is competent and capable of managing his or her own affairs. Prior to the issuance of a patent in fee pursuant to this paragraph the land shall be appraised at its fair market value. If an application is denied, the applicant shall be so notified in writing.

(b) The Secretary will, pursuant to the act of March 1, 1907 (34 Stat. 1015, 1034), issue a patent in fee to any adult mixed-blood Indian owning land within the White Earth Reservation in the State of Minnesota upon application being made by such Indian, and without regard to the applicant's competency and ability to manage his or her own affairs.

(c) Whenever the Secretary determines that land, or any interest therein, held in trust for an Indian by the United States, has been acquired through inheritance or devise by (1) a non-Indian or (2) an alien Indian or an Indian who has become an alien subsequent to the time of such acquisition, the Secretary may issue a patent in fee for the land or interest therein to such non-Indian or alien Indian, without regard to such person's competency and ability to manage his or her own affairs, and regardless of whether such person has applied for a patent in fee.

§ 241.24 *Appraisal, advertisement, consideration.* (a) Prior to making or approving a sale, exchange or gift of trust or restricted land, an appraisal shall be made indicating the fair market value of such land.

(b) Except as provided in paragraph (c) of this section, proposed sales of land shall be advertised for at least 30 days prior to the proposed date for opening bids on such land, unless a shorter period is otherwise authorized by the Secretary of the Interior. At the request of the owner, the advertisement may afford to the tribe occupying the reservation where the land is located, to members of such tribe, or to any reasonably defined class of Indians, a right to meet the high bid.

(c) The following types of conveyances need not be advertised and may be negotiated: (1) A sale to another Indian, an Indian tribe, the United States or an agency thereof, or a state or local government or agency thereof; (2) a conveyance to a member of the Indian's immediate family pursuant to the provisions of paragraph (d) of this section; (3) a sale to a non-Indian, when the Secretary determines that it is impractical to advertise; (4) an exchange; (5) temporary easements for rights of way not to exceed fifty years. Except as provided in paragraph (d) of this section, the consideration for a negotiated sale shall be not less than the appraised value of the land. The consideration for an exchange shall be either land, or a combination of land and money or other thing of value, the fair market value of which is not less than the appraised value of the trust or restricted land. Sales between Indians, either of whom is an employee of the United States Government, are governed by the provisions of § 276.5 of this chapter.

(d) An Indian owner of trust or restricted land may, with the approval of the Secretary, convey land to a member of his or her immediate family for a consideration less than that prescribed in paragraph (c) of this section or for no consideration. For purposes of this section, "immediate family" is defined as the Indian's spouse, brothers and sisters, lineal ancestors of Indian blood, and lineal descendants.

§ 241.26 *Number of bids.* No bidder will be permitted to include more than one item in any single bid. If a bidder desires to bid on more than one item, he must bid a separate amount for each item.

§ 241.49 *Procedure for removing restrictions.* An Indian may apply for the removal of restrictions from land acquired by purchase, exchange or gift, and devised and inherited interests therein, held under an instrument of conveyance which recites that the land shall not be sold or alienated without the consent or approval of the Superintendent, the Commissioner of Indian Affairs, or the Secretary of the Interior. An application for the removal of restrictions from such land shall be filed with the superintendent or other officer in charge of the Indian agency or other local facility having administrative jurisdiction over the land. The application shall set forth the experience the applicant has had in the transaction of his business affairs and the reasons why a removal of restrictions is desired. If it appears that the applicant is competent and capable of managing his affairs or that the removal of restrictions is otherwise in the best interests of the applicant, an order removing restrictions against alienation of the land may be issued. Prior to the issuance of such an order the land shall be appraised at its fair market value.

(R. S. 161; 5 U. S. C. 22)

DOUGLAS MCKAY,
Secretary of the Interior.

DECEMBER 5, 1955.

[F. R. Doc. 55-9935; Filed, Dec. 9, 1955; 8:46 a. m.]

TITLE 26—INTERNAL REVENUE, 1954

Chapter I—Internal Revenue Service, Department of the Treasury

Subchapter A—Income Tax

[T. D. 6154]

PART 1—INCOME TAX: TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

On October 28, 1955, notice of proposed rule making regarding the regulations under Pub. Law 74, 84th Congress, approved June 15, 1955, was published in the FEDERAL REGISTER (20 F. R. 8120). After consideration of such relevant suggestions as were presented by interested persons regarding the proposals, the following regulations are hereby adopted:

Sec.
1.9000-1 Provisions of P. L. 74.
1.9000-2 Effect of repeal in general.
1.9000-3 Requirement of statement showing increase in tax liability.
1.9000-4 Form and content of statement.
1.9000-5 Effect of filing statement.
1.9000-6 Provisions for the waiver of interest.
1.9000-7 Provisions for estimated tax.
1.9000-8 Extension of time for making certain payments.

AUTHORITY: §§ 1.9000-1 to 1.9000-8 issued under sec. 7805, 68A Stat. 917, Pub. Law 74, 84th Cong.; 26 U. S. C. 7805.

§ 1.9000-1 *Statutory provisions.* Public Law 74, 84th Congress, approved June 15, 1955, provides as follows:

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,

SECTION 1. *Repeal of sections 452 and 462*—(a) *Prepaid income.* Section 452 of the Internal Revenue Code of 1954 is hereby repealed.

(b) Reserves for estimated expenses, etc. Section 462 of the Internal Revenue Code of 1954 is hereby repealed.

SEC. 2. *Technical amendments.* The following provisions of the Internal Revenue Code of 1954 are hereby amended as follows:

(1) Subsection (c) of section 381 is amended by striking out paragraph (7) (relating to carryover of prepaid income in certain corporate acquisitions).

(2) The table of sections for subpart B of part II of subchapter E of chapter 1 (relating to taxable year for which items of gross income included) is amended by striking out

"Sec. 452. Prepaid income."

(3) The table of sections for subpart C of such part II (relating to taxable year for which deductions are taken) is amended by striking out—

"Sec. 462. Reserves for estimated expenses, etc."

SEC. 3. *Effective date.* The amendments made by this act shall apply with respect to taxable years beginning after December 31, 1953, and ending after August 16, 1954.

SEC. 4. *Saving provisions*—(a) *Filing of statement.* If—

(1) the amount of any tax required to be paid for any taxable year ending on or before the date of the enactment of this act is increased by reason of the enactment of this act, and

(2) the last date prescribed for payment of such tax (or any installment thereof) is before December 15, 1955,

then the taxpayer shall, on or before December 15, 1955, file a statement which shows the increase in the amount of such tax required to be paid by reason of the enactment of this act.

(b) *Form and effect of statement*—(1) *Form of statement, etc.* The statement required by subsection (a) shall be filed at the place fixed for filing the return. Such statement shall be in such form, and shall include such information necessary or appropriate to show the increase in the amount of the tax required to be paid for the taxable year by reason of the enactment of this act, as the Secretary of the Treasury or his delegate shall by regulations prescribe.

(2) *Treatment as amount shown on return.* The amount shown on a statement filed under subsection (a) as the increase in the amount of the tax required to be paid for the taxable year by reason of the enactment of this act shall, for all purposes of

the internal revenue laws, be treated as tax shown on the return. Notwithstanding the preceding sentence, that portion of the amount of increase in tax for any taxable year which is attributable to a decrease (by reason of the enactment of this act) in the net operating loss for a succeeding taxable year shall not be treated as tax shown on the return.

(3) *Waiver of interest in case of payment on or before December 15, 1955.* If the taxpayer, on or before December 15, 1955, files the statement referred to in subsection (a) and pays in full that portion of the amount shown thereon for which the last date prescribed for payment is before December 15, 1955, then for purposes of computing interest (other than interest on overpayments) such portion shall be treated as having been paid on the last date prescribed for payment. This paragraph shall not apply if the amount shown on the statement as the increase in the amount of the tax required to be paid for the taxable year by reason of the enactment of this act is greater than the actual increase unless the taxpayer establishes, to the satisfaction of the Secretary of the Treasury or his delegate, that his computation of the greater amount was based upon a reasonable interpretation and application of sections 452 and 462 of the Internal Revenue Code of 1954, as those sections existed before the enactment of this act.

(c) *Special rules*—(1) *Interest for period before enactment.* Interest shall not be imposed on the amount of any increase in tax resulting from the enactment of this act for any period before the day after the date of the enactment of this act.

(2) *Estimated tax.* Any addition to the tax under section 294 (d) of the Internal Revenue Code of 1939 shall be computed as if this act had not been enacted. In the case of any installment for which the last date prescribed for payment is before December 15, 1955, any addition to the tax under section 6654 of the Internal Revenue Code of 1954 shall be computed as if this act had not been enacted.

(3) *Treatment of certain payments which taxpayer is required to make.* If—

(A) The taxpayer is required to make a payment (or an additional payment) to another person by reason of the enactment of this act, and

(B) The Internal Revenue Code of 1954 prescribes a period, which expires after the close of the taxable year, within which the taxpayer must make such payment (or additional payment) if the amount thereof is to be taken into account (as a deduction or otherwise) in computing taxable income for such taxable year,

then, subject to such regulations as the Secretary of the Treasury or his delegate may prescribe, if such payment (or additional payment) is made on or before December 15, 1955, it shall be treated as having been made within the period prescribed by such Code.

(4) *Treatment of certain dividends.* Subject to such regulations as the Secretary of the Treasury or his delegate may prescribe, for purposes of section 561 (a) (1) of the Internal Revenue Code of 1954, dividends paid after the 15th day of the third month following the close of the taxable year and on or before December 15, 1955, may be treated as having been paid on the last day of the taxable year, but only to the extent (A) that such dividends are attributable to an increase in taxable income for the taxable year resulting from the enactment of this act, and (B) elected by the taxpayer.

(5) *Determination of date prescribed.* For purposes of this section, the determination of the last date prescribed for payment or for filing a return shall be made without regard to any extension of time therefor and without regard to any provision of this section.

(6) *Regulations.* For requirement that the Secretary of the Treasury or his delegate shall prescribe all rules and regulations as may be necessary by reason of the enactment of this act, see section 7805 (a) of the Internal Revenue Code of 1954.

§ 1.9000–2 *Effect of repeal in general.* (a) Section 452 (relating to prepaid income) and section 462 (relating to reserves for estimated expenses) of the Internal Revenue Code of 1954 were repealed by Public Law 74, 84th Congress, with respect to all years subject to such Code. The effect of the repeal will generally be to increase the tax liability of taxpayers who elected to adopt the methods of accounting provided by sections 452 and 462. References to sections of law in §§ 1.9000–2 to 1.9000–8, inclusive, are references to the Internal Revenue Code of 1954 unless otherwise specified.

(b) Public Law 74 provides that if the amount of any tax is increased by the repeal of sections 452 and 462 and if the last date prescribed for the payment of such tax (or any installment thereof) is before December 15, 1955, and if the amount of such tax is increased by the repeal of sections 452 and 462, then the taxpayer shall on or before such date file a statement as prescribed in § 1.9000–3. The last date prescribed for payment for this purpose shall be determined without regard to any extensions of time and without regard to the provisions of Public Law 74.

§ 1.9000–3 *Requirement of statement showing increase in tax liability*—(a) *Returns filed before June 15, 1955.* Where a return reflecting an election under section 452 or 462 was filed before June 15, 1955, the taxpayer must file on or before December 15, 1955, a statement on Form 2175 showing the increase in tax liability resulting from the repeal of sections 452 and 462. The provisions of this paragraph may be illustrated by the following example:

Example. Corporation X filed its income tax return for the calendar year 1954 on March 15, 1955, and elected under section 6152 to pay the unpaid amount of the tax shown thereon in two equal installments. Such installment payments are due on March 15, 1955, and June 15, 1955, respectively. The corporation elected to compute its tax for such taxable year under the methods of accounting provided by sections 452 and 462. Corporation X's tax liability is increased by reason of the enactment of Public Law 74, and since the last date prescribed for paying its tax expires before December 15, 1955, it is required to submit the prescribed statement on or before December 15, 1955, showing its increase in tax liability.

(b) *Returns filed on or after June 15, 1955.* A taxpayer filing a return on or after June 15, 1955, for a taxable year ending on or before such date, may elect to apply the accounting methods provided in sections 452 and 462. The election may be exercised by either of the following methods:

(1) By computing the tax liability shown on such return as though the provisions of sections 452 and 462 had not been repealed. In such a case, the taxpayer must file on or before December 15, 1955, a statement on Form 2175 showing the increase in tax liability resulting from the repeal of sections 452 and 462.

(2) By computing his tax liability without regard to sections 452 and 462. In this case, Form 2175 must be filed with the return. However, taxable income and the tax liability computed with the application of sections 452 and 462 shall be shown on lines 8 and 14, respectively, of the form in lieu of the amounts otherwise called for on those lines.

If a taxpayer does not make an election to have the provisions of sections 452 and 462 apply, the savings provisions of section 4 of Public Law 74 are not applicable.

(c) *Taxable years ending after June 15, 1955.* A taxpayer having a taxable year ending after June 15, 1955, may not elect to apply the methods of accounting prescribed in sections 452 and 462 in computing taxable income for such taxable year. Such a taxpayer must file his return and pay the tax as if such sections had not been enacted.

(d) *Other situations requiring statements.* (1) A person who made an election under section 452 or 462 but whose tax liability was not increased by reason of the enactment of Public Law 74, is nevertheless required to file a statement on Form 2175 if his gross income is increased or his deductions are decreased as the result of the repeal of sections 452 and 462. A partnership which makes an election under such sections must file such a statement. In addition, a partner, stockholder, distributee, etc. (whether or not such person made an election under section 452 or 462), shall file a statement showing any increase in his tax liability resulting from the effects of the repeal on the gross income or deductions of any person mentioned in the previous sentences of this subparagraph.

(2) A statement shall also be filed for a taxable year, other than a year to which an election under section 452 or 462 is applicable, if the repeal of such sections increases the tax liability of such year. Thus, a statement must be filed for any taxable year to which a net operating loss is carried from a year to which an election under section 452 or 462 is applicable, provided that the repeal of such sections affects the amount of the tax liability for the year to which such loss is carried. A separate statement must also be filed for a year in which there is a net operating loss which is changed by reason of the repeal of sections 452 and 462. Where there is a short taxable year involved, a taxpayer may have two taxable years to which elections under sections 452 and 462 are applicable and, in such a case, a statement, on Form 2175, must be filed for each such year.

§ 1.9000–4 *Form and content of statement*—(a) *Information to be shown.* The statement shall be filed on Form 2175 which may be obtained from district directors of internal revenue. It shall be filed with the district director for the district in which the return was filed. The statement shall be prepared in accordance with the instructions contained thereon and shall show the following information:

(1) The name and address of the taxpayer,

(2) The amounts of each type of income deferred under section 452,

(3) The amount of the addition to each reserve deducted under section 462,

(4) The taxable income and the tax liability of the taxpayer computed with the application of sections 452 and 462,

(5) The taxable income and the tax liability of the taxpayer computed without the application of sections 452 and 462,

(6) The details of the recomputation of taxable income and tax liability, including any changes in other items of income, deductions, and credits resulting from the repeal of sections 452 and 462, and

(7) If self-employment tax is increased, the computations and information required on page 3 of Schedule C, Form 1040.

(b) *Procedure for recomputing tax liability.* In determining the taxable income and the tax liability computed without the application of sections 452 and 462, such items as vacation pay and prepaid subscription income shall be reported under the law and regulations applicable to the taxable year as if such sections had not been enacted. The tax liability for the year shall be recomputed by restoring to taxable income the amount of income deferred under section 452 and the amount of the deduction taken under section 462. Other deductions or credits affected by such changes in taxable income shall be adjusted. For example, if the deduction for contributions allowed for the taxable year was limited under section 170 (b), the amount of such deduction shall be recomputed, giving effect to the increase in adjusted gross income or taxable income, as the case may be, by reason of the adjustments required by the repeal of sections 452 and 462.

§ 1.9000–5 *Effect of filing statement*—(a) *Years other than years affected by a net operating loss carryback.* If the taxpayer files a timely statement in accordance with the provisions of § 1.9000–3, the amount of the increase in tax shown on such statement for a taxable year shall, except as provided in paragraph (b), be considered for all purposes of the Internal Revenue Code, as tax shown on the return for such year. In general, such increase shall be assessed and collected in the same manner as if it had been tax shown on the return as originally filed. The provisions of this paragraph may be illustrated by the following example:

Example. A taxpayer filed his return showing a tax liability computed under the methods of accounting provided by sections 452 and 462 as $1,000 and filed the statement in accordance with § 1.9000–3 showing an increase in tax liability of $200. The tax computed as though sections 452 and 462 had not been enacted is $1,200, and the difference of $200 is the increase in the tax attributable to the repeal of sections 452 and 462. This increase is considered to be tax shown on the return for such taxable year. Additions to the tax for fraud or negligence under section 6653 will be determined by reference to $1,200 (that is, $1,000 plus $200) as the tax shown on the return.

(b) *Years affected by a net operating loss carry-back.* In the case of a year which is affected by a net operating loss carryback from a year to which an election under section 452 or 462 applies, that portion of the amount of increase in tax shown on the statement for the year to which the loss is carried back which is attributable to a decrease in such net operating loss shall not be treated as tax shown on the return.

§ 1.9000–6 *Provisions for the waiver of interest*—(a) *In general.* If the statement is filed in accordance with § 1.9000–3 and if that portion of the increase in tax which is due before December 15, 1955, (without regard to any extension of time for payment and without regard to the provisions of §§ 1.9000–2 to 1.9000–8, inclusive) is paid in full on or before such date, then no interest shall be due with respect to that amount. The provisions of this paragraph may be illustrated by the following example:

Example. Corporation M's return for the calendar year 1954 was filed on March 15, 1955, and the tax liability shown thereon was paid in equal installments on March 15, 1955, and June 15, 1955. M filed a statement on December 15, 1955, showing the increase in its tax liability resulting from the repeal of sections 452 and 462 and paid at that time the increase in tax shown thereon. No interest will be imposed with respect to the amount of such payment.

Interest shall be computed under the applicable provisions of the internal revenue laws on any portion of the increase in tax shown on the statement which is due after December 15, 1955, and which is not paid when due.

(b) *Limitation on application of waiver.* The provisions of paragraph (a) of this section shall not apply to any portion of the increase in tax shown on the statement if such increase reflects an amount in excess of that attributable solely to the repeal of sections 452 and 462, i. e., is attributable in whole or in part to excessive or unwarranted deferrals or accruals under section 452 or 462, as the case may be, in computing the tax liability with the application of such sections. Nothwithstanding the preceding sentence, paragraph (a) of this section shall be applicable if the taxpayer can show that the tax liability as computed with the application of sections 452 and 462 is based upon a reasonable interpretation and application of such sections as they existed prior to repeal. If the taxpayer complied with the provisions of the regulations under sections 452 and 462 in computing the tax liability with the application of such sections, he will be regarded as having reasonably interpreted and applied sections 452 and 462. In this regard, it is not essential that the taxpayer submit with his return the detailed information required by such regulations in support of the deduction claimed under section 462, but such information shall be supplied at the request of the Commissioner.

(c) *Interest for periods prior to June 16, 1955.* No interest shall be imposed with respect to any increase in tax resulting solely from the repeal of sections 452 and 462 for any period prior to June 16, 1955 (the day after the date of the enactment of Public Law 74). The preceding sentence does not apply to that part of any increase in tax which is due to the improper application of sections 452 and 462. The provisions of this paragraph shall not apply to interest imposed under section 3779 of the 1939 Code. (See paragraph (d) of this section.)

(d) *Amounts deferred by corporations expecting carrybacks.* Interest shall be imposed at the rate of 6 percent on so much of the amount of tax deferred under section 3779 of the Internal Revenue Code of 1939 as is not satisfied within the meaning of section 3779 (i) (1), notwithstanding the fact that a greater amount would have been satisfied, had sections 452 and 462 not been repealed. Interest will be imposed at such rate until the amount not so satisfied is paid.

§ 1.9000–7 *Provisions for estimated tax*—(a) *Additions to tax under section 294 (d) of the 1939 Code.* Any addition to the tax under section 294 (d) (relating to estimated tax) of the Internal Revenue Code of 1939 shall be computed as if the tax for the year for which the estimate was made were computed with sections 452 and 462 still applicable to such taxable year. For the purpose of the preceding sentence, it is not necessary for the taxpayer actually to have made an election under section 452 or 462; it is only necessary for the taxpayer to have taken such sections into account in estimating its tax liability for the year. Thus, if in determining the amount of estimated tax, the taxpayer computed his estimated tax liability by applying those sections, that portion of any additions to tax under section 294 (d) resulting from the repeal of sections 452 and 462 shall be disregarded.

(b) *Additions to tax under section 6654.* In the case of an underpayment of estimated tax, any additions to the tax under section 6654, with respect to installments due before December 15, 1955, shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462. Any additions to the tax with respect to installments due on or after December 15, 1955, shall be imposed in accordance with the applicable provisions of the Internal Revenue Code, and as though sections 452 and 462 had not been enacted. Thus, a taxpayer whose declaration of estimated tax was based upon an estimate of his taxable income for the year of the estimate which was determined by taking sections 452 and 462 into account, must file an amended declaration on or before the due date of the next installment of estimated tax due on or after December 15, 1955. Such amended declaration shall reflect an estimate of the tax without the application of such sections. If the taxpayer bases his estimate on the tax for the preceding taxable year under section 6654 (d) (1) (A), an amended declaration must be filed on or before the due date of the next installment due on or after December 15, 1955, if the tax for the preceding taxable year is increased as the result of the repeal of sections 452

and 462 and the application of section 452 or 462 to the preceding taxable year.

(c) *Additions to tax under section 294 (d) (2).* Any addition to the tax under section 294 (d) (2) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(d) *Additions to tax under section 294 (f).* Any addition to the tax under section 294 (f) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(e) *Additions to tax under section 294 (g).* Any addition to the tax under section 294 (g) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(f) *Additions to tax under section 294 (h).* Any addition to the tax under section 294 (h) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(g) *Additions to tax under section 294 (i).* Any addition to the tax under section 294 (i) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(h) *Additions to tax under section 294 (j).* Any addition to the tax under section 294 (j) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(i) *Additions to tax under section 294 (k).* Any addition to the tax under section 294 (k) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(j) *Additions to tax under section 294 (l).* Any addition to the tax under section 294 (l) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(k) *Additions to tax under section 294 (m).* Any addition to the tax under section 294 (m) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(l) *Additions to tax under section 294 (n).* Any addition to the tax under section 294 (n) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(m) *Additions to tax under section 294 (o).* Any addition to the tax under section 294 (o) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(n) *Additions to tax under section 294 (p).* Any addition to the tax under section 294 (p) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(o) *Additions to tax under section 294 (q).* Any addition to the tax under section 294 (q) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(p) *Additions to tax under section 294 (r).* Any addition to the tax under section 294 (r) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(q) *Additions to tax under section 294 (s).* Any addition to the tax under section 294 (s) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(r) *Additions to tax under section 294 (t).* Any addition to the tax under section 294 (t) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(s) *Additions to tax under section 294 (u).* Any addition to the tax under section 294 (u) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(t) *Additions to tax under section 294 (v).* Any addition to the tax under section 294 (v) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(u) *Additions to tax under section 294 (w).* Any addition to the tax under section 294 (w) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(v) *Additions to tax under section 294 (x).* Any addition to the tax under section 294 (x) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(w) *Additions to tax under section 294 (y).* Any addition to the tax under section 294 (y) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(x) *Additions to tax under section 294 (z).* Any addition to the tax under section 294 (z) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(y) *Additions to tax under section 294 (aa).* Any addition to the tax under section 294 (aa) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(z) *Additions to tax under section 294 (bb).* Any addition to the tax under section 294 (bb) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(aa) *Additions to tax under section 294 (cc).* Any addition to the tax under section 294 (cc) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(bb) *Additions to tax under section 294 (dd).* Any addition to the tax under section 294 (dd) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(cc) *Additions to tax under section 294 (ee).* Any addition to the tax under section 294 (ee) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(dd) *Additions to tax under section 294 (ff).* Any addition to the tax under section 294 (ff) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ee) *Additions to tax under section 294 (gg).* Any addition to the tax under section 294 (gg) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ff) *Additions to tax under section 294 (hh).* Any addition to the tax under section 294 (hh) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(gg) *Additions to tax under section 294 (ii).* Any addition to the tax under section 294 (ii) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(hh) *Additions to tax under section 294 (jj).* Any addition to the tax under section 294 (jj) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ii) *Additions to tax under section 294 (kk).* Any addition to the tax under section 294 (kk) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(jj) *Additions to tax under section 294 (ll).* Any addition to the tax under section 294 (ll) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(kk) *Additions to tax under section 294 (mm).* Any addition to the tax under section 294 (mm) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ll) *Additions to tax under section 294 (nn).* Any addition to the tax under section 294 (nn) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(mm) *Additions to tax under section 294 (oo).* Any addition to the tax under section 294 (oo) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(nn) *Additions to tax under section 294 (pp).* Any addition to the tax under section 294 (pp) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(oo) *Additions to tax under section 294 (qq).* Any addition to the tax under section 294 (qq) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(pp) *Additions to tax under section 294 (rr).* Any addition to the tax under section 294 (rr) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(qq) *Additions to tax under section 294 (ss).* Any addition to the tax under section 294 (ss) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(rr) *Additions to tax under section 294 (tt).* Any addition to the tax under section 294 (tt) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ss) *Additions to tax under section 294 (uu).* Any addition to the tax under section 294 (uu) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(tt) *Additions to tax under section 294 (vv).* Any addition to the tax under section 294 (vv) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(uu) *Additions to tax under section 294 (ww).* Any addition to the tax under section 294 (ww) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(vv) *Additions to tax under section 294 (xx).* Any addition to the tax under section 294 (xx) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ww) *Additions to tax under section 294 (yy).* Any addition to the tax under section 294 (yy) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(xx) *Additions to tax under section 294 (zz).* Any addition to the tax under section 294 (zz) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(yy) *Additions to tax under section 294 (aaa).* Any addition to the tax under section 294 (aaa) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(zz) *Additions to tax under section 294 (bbb).* Any addition to the tax under section 294 (bbb) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(aaa) *Additions to tax under section 294 (ccc).* Any addition to the tax under section 294 (ccc) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(bbb) *Additions to tax under section 294 (ddd).* Any addition to the tax under section 294 (ddd) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ccc) *Additions to tax under section 294 (eee).* Any addition to the tax under section 294 (eee) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ddd) *Additions to tax under section 294 (fff).* Any addition to the tax under section 294 (fff) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(eee) *Additions to tax under section 294 (ggg).* Any addition to the tax under section 294 (ggg) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(fff) *Additions to tax under section 294 (hhh).* Any addition to the tax under section 294 (hhh) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ggg) *Additions to tax under section 294 (iii).* Any addition to the tax under section 294 (iii) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(hhh) *Additions to tax under section 294 (jjj).* Any addition to the tax under section 294 (jjj) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(iii) *Additions to tax under section 294 (kkk).* Any addition to the tax under section 294 (kkk) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(jjj) *Additions to tax under section 294 (lll).* Any addition to the tax under section 294 (lll) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(kkk) *Additions to tax under section 294 (mmm).* Any addition to the tax under section 294 (mmm) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(lll) *Additions to tax under section 294 (nnn).* Any addition to the tax under section 294 (nnn) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(mmm) *Additions to tax under section 294 (ooo).* Any addition to the tax under section 294 (ooo) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(nnn) *Additions to tax under section 294 (ppp).* Any addition to the tax under section 294 (ppp) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ooo) *Additions to tax under section 294 (qqq).* Any addition to the tax under section 294 (qqq) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ppp) *Additions to tax under section 294 (rrr).* Any addition to the tax under section 294 (rrr) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(qqq) *Additions to tax under section 294 (sss).* Any addition to the tax under section 294 (sss) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(rrr) *Additions to tax under section 294 (ttt).* Any addition to the tax under section 294 (ttt) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(sss) *Additions to tax under section 294 (uuu).* Any addition to the tax under section 294 (uuu) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ttt) *Additions to tax under section 294 (vvv).* Any addition to the tax under section 294 (vvv) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(uuu) *Additions to tax under section 294 (www).* Any addition to the tax under section 294 (www) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(vvv) *Additions to tax under section 294 (xxx).* Any addition to the tax under section 294 (xxx) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(www) *Additions to tax under section 294 (yyy).* Any addition to the tax under section 294 (yyy) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(xxx) *Additions to tax under section 294 (zzz).* Any addition to the tax under section 294 (zzz) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(yyy) *Additions to tax under section 294 (aaaa).* Any addition to the tax under section 294 (aaaa) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(zzz) *Additions to tax under section 294 (bbbb).* Any addition to the tax under section 294 (bbbb) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(aaaa) *Additions to tax under section 294 (cccc).* Any addition to the tax under section 294 (cccc) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(bbbb) *Additions to tax under section 294 (dddd).* Any addition to the tax under section 294 (dddd) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(cccc) *Additions to tax under section 294 (eeee).* Any addition to the tax under section 294 (eeee) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(dddd) *Additions to tax under section 294 (ffff).* Any addition to the tax under section 294 (ffff) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(eeee) *Additions to tax under section 294 (gggg).* Any addition to the tax under section 294 (gggg) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ffff) *Additions to tax under section 294 (hhhh).* Any addition to the tax under section 294 (hhhh) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(gggg) *Additions to tax under section 294 (iiii).* Any addition to the tax under section 294 (iiii) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(hhhh) *Additions to tax under section 294 (jjjj).* Any addition to the tax under section 294 (jjjj) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(iiii) *Additions to tax under section 294 (kkkk).* Any addition to the tax under section 294 (kkkk) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(jjjj) *Additions to tax under section 294 (llll).* Any addition to the tax under section 294 (llll) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(kkkk) *Additions to tax under section 294 (mmmm).* Any addition to the tax under section 294 (mmmm) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(llll) *Additions to tax under section 294 (nnnn).* Any addition to the tax under section 294 (nnnn) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(mmmm) *Additions to tax under section 294 (oooo).* Any addition to the tax under section 294 (oooo) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(nnnn) *Additions to tax under section 294 (pppp).* Any addition to the tax under section 294 (pppp) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(oooo) *Additions to tax under section 294 (qqqq).* Any addition to the tax under section 294 (qqqq) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(pppp) *Additions to tax under section 294 (rrrr).* Any addition to the tax under section 294 (rrrr) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(qqqq) *Additions to tax under section 294 (ssss).* Any addition to the tax under section 294 (ssss) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(rrrr) *Additions to tax under section 294 (tttt).* Any addition to the tax under section 294 (tttt) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ssss) *Additions to tax under section 294 (uuuu).* Any addition to the tax under section 294 (uuuu) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(tttt) *Additions to tax under section 294 (vvvv).* Any addition to the tax under section 294 (vvvv) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(uuuu) *Additions to tax under section 294 (wwww).* Any addition to the tax under section 294 (wwww) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(vvvv) *Additions to tax under section 294 (xxxx).* Any addition to the tax under section 294 (xxxx) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(wwww) *Additions to tax under section 294 (yyyy).* Any addition to the tax under section 294 (yyyy) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(xxxx) *Additions to tax under section 294 (zzzz).* Any addition to the tax under section 294 (zzzz) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(yyyy) *Additions to tax under section 294 (aaaaa).* Any addition to the tax under section 294 (aaaaa) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(zzzz) *Additions to tax under section 294 (bbbbb).* Any addition to the tax under section 294 (bbbbb) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(aaaaa) *Additions to tax under section 294 (ccccc).* Any addition to the tax under section 294 (ccccc) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(bbbbb) *Additions to tax under section 294 (ddddd).* Any addition to the tax under section 294 (ddddd) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ccccc) *Additions to tax under section 294 (eeeee).* Any addition to the tax under section 294 (eeeee) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ddddd) *Additions to tax under section 294 (fffff).* Any addition to the tax under section 294 (fffff) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(eeeee) *Additions to tax under section 294 (ggggg).* Any addition to the tax under section 294 (ggggg) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(fffff) *Additions to tax under section 294 (hhhhh).* Any addition to the tax under section 294 (hhhhh) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(ggggg) *Additions to tax under section 294 (iiiii).* Any addition to the tax under section 294 (iiiii) of the Internal Revenue Code of 1939 shall be computed without regard to any increase in tax resulting from the repeal of sections 452 and 462.

(hhhhh) *Additions to tax under section 294 (jjjjj).* Any addition to the tax under section 294 (jjjjj) of the Internal Revenue Code

and 462. Similarly, if the taxpayer bases his estimate on the tax computed under section 6654 (d) (1) (B), he must file an amended declaration on or before the due date of the next installment due on or after December 15, 1955, taking into account the repeal of sections 452 and 462 with respect to the preceding taxable year. Any increase in estimated tax shown on an amended declaration filed in accordance with this paragraph must be paid in accordance with section 6153 (c).

(c) *Estimated tax of corporations.* Corporations required to file a declaration of estimated tax under section 6016 for taxable years ending on and after December 31, 1955, shall estimate their tax liability for such year as if sections 452 and 462 had not been enacted. Thus, if the corporation bases its estimated tax liability under section 6655 (d) (1) or (2) on its operations for the preceding taxable year, the effect of the repeal of sections 452 and 462 with respect to such year must be taken into account.

§ 1.9000–8 *Extension of time for making certain payments*—(a) *Time for payment specified in Code.* (1) If the treatment of any payment (including its allowance as a deduction or otherwise) is dependent upon the making of a payment within a period of time specified in the Internal Revenue Code the period within which the payment is to be made is extended where the amount to be paid is increased by reason of the repeal of sections 452 and 462: *Provided*, That:

(i) The taxpayer, because of a preexisting obligation, is required to make a payment or an additional payment to another person by reason of such repeal;

(ii) The deductibility of the payment or additional payment is contingent upon its being made within a period prescribed by the Code, which period expires after the close of the taxable year; and

(iii) The payment or additional payment is made on or before December 15, 1955.

If the foregoing conditions are met, the payment or additional payment will be treated as having been made within the time specified in the Internal Revenue Code, and, subject to any other conditions in the Code, it shall be deductible for the year to which it relates. The provisions of this paragraph may be illustrated by the following examples:

Example 1. Section 267 (relating to losses, expenses and interest between related taxpayers) applies to amounts accrued by taxpayer A for salary payable to B. For the calendar year 1954, A is obligated to pay B a salary equal to 5 percent of A's taxable income for the taxable year. The amount accrued as salary payable to B for 1954 is $5,000 with the taxable income reflecting the application of section 462. As a result of the repeal of section 462 the salary payable to B for 1954 is increased to $6,000. The additional $1,000 is paid to B on December 15, 1955. In recomputing A's tax liability for 1954 the additional deduction of $1,000 for salary payable to B will be treated as having been made within two and one-half months after the close of the taxable year and will be deductible in that year.

Example 2. On March 1, 1955, Corporation X, a calendar year taxpayer using the accrual method of accounting, makes a payment described in section 404 (a) (6) (relating to contributions to an employees' trust) of $10,000 which is accrued for 1954 and is determined on the basis of the amount of taxable income for that year. The taxpayer filed its return on March 15, 1955. By reason of the repeal of section 462, X's taxable income is increased so that it is required to make an additional contribution of $2,000 to the employees' trust. The additional payment is made on December 15, 1955. For purposes of recomputing X's tax liability for 1954, this additional payment is deemed to have been made on the last day of 1954.

(2) The time for inclusion in the taxable income of the payee of any additional payment of the type described in subparagraph (1) above, shall be determined without regard to section 4 (c) (3) of Public Law 74 and §§ 1.9000–2 to 1.9000–8, inclusive.

(b) *Dividends paid under section 561.* Under section 4 (c) (4) of Public Law 74, the period during which distributions may be recognized as dividends paid under section 561 for a taxable year to which section 452 or 462 apply may be extended under the conditions set forth below.

(1) *Accumulated earnings tax or personal holding company tax.* In the case of the accumulated earnings tax or the personal holding company tax, if—

(i) The income of a corporation is increased for a taxable year by reason of the repeal of sections 452 and 462 so that it would become liable for the tax (or an increase in the tax) imposed on accumulated earnings or personal holding companies unless additional dividends are distributed;

(ii) The corporation distributes dividends to its stockholders after the 15th day of the 3d month following the close of its taxable year and on or before December 15, 1955, which dividends are attributable to an increase in its accumulated taxable income or undistributed personal holding company income, as the case may be, resulting from the repeal of sections 452 and 462, and

(iii) The corporation elects in its statement, submitted under § 1.9000–3, to have the provisions of section 4 (c) (4) of Public Law 74 apply—

then such dividends shall be treated as having been paid on the last day of the taxable year to which the statement applies.

(2) *Regulated investment companies.* In the case of a regulated investment company taxable under section 852, if—

(i) The taxable income of the regulated investment company is increased by reason of the repeal of sections 452 and 462 (without regard to any deduction for dividends paid as provided for in this subparagraph);

(ii) The company distributes dividends to its stockholders after the 15th day of the 3rd month following the close of its taxable year and on or before December 15, 1955, which dividends are attributable to an increase in its investment company income resulting from the repeal of sections 452 and 462; and

(iii) The company elects in its statement, submitted under § 1.9000–3, to have the provisions of section 4 (c) (4) of Public Law 74 apply—

then such dividends are to be treated as having been paid on the last day of the taxable year to which the statement applies. The dividends paid are to be determined under this subparagraph without regard to the provisions of section 855.

(3) *Related provisions.* An election made under subparagraph (1) or (2) of this paragraph is irrevocable. The time for inclusion in the taxable income of the distributees of any distributions of the type described in subparagraph (1) or (2) of this paragraph shall be determined without regard to section 4 (c) (4) of Public Law 74 and §§ 1.9000–2 to 1.9000–8, inclusive.

[SEAL] RUSSELL C. HARRINGTON,
Commissioner of Internal Revenue.

Approved: December 8, 1955.

H. CHAPMAN ROSE,
Acting Secretary of the Treasury.

TITLE 28—JUDICIAL ADMINISTRATION

Chapter I—Department of Justice

[Order 107–55]

PART 21—WITNESS FEES

TRAVEL EXPENSES AND SUBSISTENCE OF FEDERAL OFFICERS AND EMPLOYEES APPEARING AS WITNESSES FOR THE GOVERNMENT

By virtue of the authority vested in me by section 1823 (a) of title 28 of the United States Code, as amended by section 3 of the act of July 28, 1955, 69 Stat. 394, section 30 of the act of June 6, 1900, 31 Stat. 332 (48 U. S. C. 25), and section 11–3–9 of the Alaska Compiled Laws Annotated (1949), I hereby amend § 21.1 of Chapter I of Title 28 of the Code of Federal Regulations (including the headnote thereof) as amended, to read as follows:

§ 21.1 *Officers and employees of the United States summoned as witnesses.* Officers and employees of the United States summoned as witnesses for the Government in cases before United States courts (including such courts in the Territories and possessions of the United States) or United States commissioners shall be entitled (a) to necessary expenses incident to travel by common carrier, or, if travel is made by privately owned automobile, to mileage at the rate of ten cents a mile, and (b) to a per diem allowance at the rate of $12 in lieu of subsistence within the continental United States, and at the maximum rates prescribed by the Bureau of the Budget pursuant to the Travel Expense Act of 1949, as amended (5 U. S. C. 836) outside the continental United States. Such per diem allowances shall be paid in accordance with the provisions of the Standardized Government Travel Regulations.

(28 U. S. C. 1823)

This order shall become effective on the date of its publication in the FEDERAL REGISTER.

HERBERT BROWNELL, Jr.,
Attorney General.

DECEMBER 2, 1955.

TITLE 32—NATIONAL DEFENSE

Chapter I—Office of the Secretary of Defense

Subchapter G—Defense Contract Financing

PART 84—PAYMENTS ON INCENTIVE-TYPE AND PRICE REDETERMINATION-TYPE CONTRACTS

Sec.
84.1 Purpose.
84.2 Policy and action.
84.3 Refunds and adjustments.
84.4 Contract administration.

AUTHORITY: §§ 84.1 to 84.4 issued under sec. 202, 61 Stat. 500, as amended, 62 Stat. 21, sec. 638, 66 Stat. 537; 5 U. S. C. 171a, 41 U. S. C. 151–162.

NOTE: This part supersedes and cancels notice published at 20 F. R. 7098, subject: "Payments on Incentive-Type and Price-Revision-Type Contracts".

§ 84.1 *Purpose.* It is the purpose of this part to assure payment of amounts fairly due for items delivered and accepted under incentive-type and price redetermination-type contracts, to reduce the need for refunds by contractors under such contracts, to facilitate timely adjustment of provisional billing prices and prompt completion of final pricing under these types of contracts, and to reaffirm the policy on progress payments.

§ 84.2 *Policy and action.* (a) To accomplish the purpose of this part, all new contracts of the incentive-type and price redetermination-type, all definitive contracts of the incentive- or price redetermination-type replacing or superseding letter contracts, all amendments providing an incentive- or price redetermination-clause in contracts not previously containing such a clause, and all amendments to contracts of the incentive- or price redetermination-type providing for new or additional procurement, entered into on or after December 5, 1955, shall contain one or the other of the provisions set out in subparagraph (1) or (2) of this paragraph.

(1) In incentive-type contracts:

Notwithstanding any provision of this contract authorizing greater payment, the total of all amounts billed and paid or payable under this contract for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments) until final price revision has been made shall not exceed the sum of the following items as reported by the Contractor from time to time as hereinafter provided: (i) the total contract price of all items delivered to (or services performed for) and accepted by the Government for which final prices have been established, and (ii) the total amount of costs (estimated to the extent necessary) that have been reasonably incurred for and are properly allocable solely to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established, and (iii) the total amount of the established target profit allocable by direct proportion to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established—increased or decreased in accordance with the incentive profit formula of this contract when the amount of costs stated in subdivision (ii) of this subparagraph, differs from the applicable target costs. Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed for and accepted by the Government) under this contract, and as of the end of each quarter, the Contractor shall submit a statement setting forth the respective amounts of each of the three numbered items next above, together with the total amount of all billings for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments) under this contract as of the end of each quarter. If on any quarterly statement these total billings exceed the sum of the three numbered items above, this gross excess shall, after deduction of the total refunds (cash or credit memoranda) theretofore made, be paid immediately by the Contractor to the Government or credited against existing unpaid billings covered by such statement; provided that if any portion of such gross excess has been applied to the liquidation of progress payments, such amount may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payment clause of this contract, instead of making direct refund thereof.

(2) In price revision- or redetermination-type contracts, not of the incentive type:

Notwithstanding any provision of this contract authorizing greater payment, the total of all amounts billed and paid or payable under this contract for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments), until final price revision has been made to the full extent permitted by this contract, shall not exceed the sum of the following items as reported by the Contractor from time to time as hereinafter provided: (i) the total contract price of all items delivered to (or services performed for) and accepted by the Government for which final prices have been established, and (ii) the total amount of costs (estimated to the extent necessary) that have been reasonably incurred for and are properly allocable solely to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established, and (iii) the total amount of interim profit used in establishing the initial contract price and allocable by direct proportion to items delivered to (or services performed for) and accepted by the Government for which final prices have not been established. Within 45 days after the end of each quarter of the Contractor's fiscal year, beginning for the quarter in which a delivery is first made (or services are first performed for and accepted by the Government) under this contract, and as of the end of each quarter, the Contractor shall submit a statement setting forth the respective amounts of each of the three numbered items next above, together with the total amount of all billings for items delivered to (or services performed for) and accepted by the Government (including amounts applied to liquidate progress payments) under this contract as of the end of each quarter. If on any quarterly statement these total billings exceed the sum of the three numbered items above, this gross excess shall, after deduction of the total refunds (cash or credit memoranda) theretofore made, be paid immediately by the Contractor to the Government or credited against existing unpaid billings covered by such statement; provided that if any portion of such gross excess has been applied to the liquidation of progress payments, such amount may be added or restored to the unliquidated progress payment account, to the extent consistent with the progress payment clause of this contract, instead of making direct refund thereof.

(b) In connection with amendments providing for new procurement, and amendments providing an incentive- or price redetermination-clause in contracts not previously containing such a clause, paragraph (a) of this section shall be made applicable to the entire contract.

(c) Where the contracting officer has discretion to control payments through withholding provisions under an existing contract of the incentive- or price redetermination-type not containing the above provisions, the contract shall be administered hereafter, to the maximum extent permitted by such withholding provisions, so that on and after January 1, 1956 the total aggregate payments will be limited in the manner provided in paragraph (a) of this section.

(d) In the case of outstanding contracts of the incentive-type or price redetermination-type, where payments cannot be limited within a reasonable time as provided in this section, the contracting officer shall take prompt action to obtain by mutual agreement amendments of such contract incorporating the above provisions of paragraph (a) of this section.

(e) Ordinarily, unless the contracting officer has good cause to doubt or question the accuracy of statements furnished in accordance with paragraph (a), of this section, such statements will be relied upon and prompt payments under the contract will continue to be made pending any post-audit or post-review that may be necessary to protect the interests of the Government.

§ 84.3 *Refunds and adjustments.* (a) (1) It is essential in all cases that the amount of any indebtedness of contractors to the Government be ascertained promptly, and that the amount of each contractors' indebtedness to the Government be collected expeditiously.

(2) Government personnel will take prompt action so that amendments and supplemental agreements, where appropriate, will be prepared expeditiously and executed without delay.

(b) For use in expediting and controlling adjustments and refunds, current inventory and control lists shall be established and maintained with regard to all incentive-type and price redetermination-type contracts. Aggressive and continuing efforts shall be made to eliminate any unnecessary delays.

(c) All incentive-type and price redetermination-type contracts shall be reviewed systematically and periodically to obtain voluntary interim billing price adjustments and prompt refunds as appropriate. The making of voluntary

refunds in anticipation of retroactive price reductions shall be systematically encouraged. No proposed voluntary refund shall be refused or delayed, and all such refunds shall be tendered and accepted without prejudice to final pricing. In connection with voluntary refunds, minimum refunds proposed by contractors in connection with final pricing proposals, and refunds incident to quarterly statements, contractors shall not be required to furnish concurrent itemization of adjustments to be made on past billings, nor to furnish adjusted bills concurrently. Such adjustments as may be essential in connection with refunds will be accomplished by appropriate Government personnel, with such information as may be essential from contractors after refunds are made, and the making, acceptance and deposit of refunds will not be delayed pending the making of any necessary accounting adjustments. When reductions in billing prices are proposed by contractors, they will be made effective immediately without prejudice to further adjustment, and billings voluntarily reduced by contractors shall if otherwise proper be paid at the reduced amounts without awaiting contract amendments.

§ 84.4 *Contract administration.* The contracting officer will exercise every effort to bring about prompt redetermination of prices and setting of firm target prices by vigilant and timely attention to the contract administration aspects of each contract, and nothing contained herein will diminish his responsibilities.

REUBEN B. ROBERTSON, Jr.,
Deputy Secretary of Defense.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 203—BRIDGE REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499) § 203.325 governing the operation of drawbridges across the Potomac River at Washington, D. C., is hereby amended deleting certain provisions which are no longer necessary and providing for operation of the draws on six (6) hours' advance notice, except during the prescribed closed periods, changing paragraphs (b), (h) and (k) to read as follows:

§ 203.325 *Potomac River at Washington, D. C., drawbridges.* • • •

(b) *Advance notice is required for openings of the draws.* Any vessel which will require an opening of the draws of the respective bridges shall give to the designated representative of the owners of or agencies controlling the bridges at least six (6) hours' advance notice of the time the opening will be required. The notice shall contain the name of the vessel and the expected time of its arrival at the bridges. Upon receipt of such notice the designated representative shall arrange for draw tenders to be in attendance at the bridges at the time specified in the notice and for the attendance of draw tenders for a reasonable time thereafter, if necessitated by a minor delay in arrival of the vessel. In the event the vessel will be unduly delayed further notification shall be given to the designated representative. The actual opening of the bridges for the passage of the vessel will be accomplished only after exchange of the prescribed signals: *Provided*, That no openings shall be made during closed periods as specified in paragraph (h) of this section: *Provided further*, That when an approaching train is actually on the railroad bridge block, or a mail train is in motion toward the bridge in sight or hearing of the draw tender, the draw of the railroad bridge need not be opened until the train has passed and the drawspan is cleared: *And provided further*, That in time of floods or other emergencies the District Engineer, Corps of Engineers, may order that the drawspans on all bridges covered by this section be manned for immediate openings for the duration of the emergency.

• • • • • • •

(h) *Closed periods.* Between 6:45 and 9:15 a. m., and between 3:45 and 6:30 p. m., daily, the bridges shall not be opened for the passage of a vessel: *Provided*, That any vessel passing one of the drawbridges before a closed period begins will be entitled to passage through all remaining bridges in the direction of travel without delay: *Provided further*, That in time of flood or other emergency the closed periods may be suspended or modified by the District Engineer, Corps of Engineers.

• • • • • • •

(k) *Habitual users.* Any vessel desiring to pass any of the bridges as often as once a day for 10 days in any 30-day period will be regarded as an habitual user of the waterway within the meaning of this paragraph. Such vessels should be so constructed that stacks, masts, and flagstaffs may be lowered to permit their passage under the closed bridge. The draws shall not be required to open to permit the passage of vessels habitually using the waterway which have stacks, masts, or flagstaffs exceeding a height of 16.8 feet above the water line, and which, in the opinion of the District Engineer, can through structural modifications, be made capable of clearing the closed bridges.

[Regs., November 25, 1955, 823.01 (Potomac River)-ENGWO] (Sec. 5, 28 Stat. 362; 33 U. S. C. 499)

2. Pursuant to the provisions of section 5 of the River and Harbor Act of August 18, 1894 (28 Stat. 362; 33 U. S. C. 499), § 203.446 is hereby amended by changing paragraph (c) to read as follows:

§ 203.446 *New River and New River Sound (Intracoastal Waterway), Fort Lauderdale, Fla.; bridges.* • • •

(c) *Southeast Sixth Avenue (Federal Highway) Bridge across New River.* During the period November 15 to May 15, both dates inclusive, the owner of or agency controlling this bridge will not

be required to open the drawspan between the hours of 7:00 a. m. and 6:00 p. m., except on the hour or half-hour as scheduled when the bridge shall be opened to allow all accumulated vessels to pass: *Provided*, That between the hours of 4:00 p. m. and 4:30 p. m., the drawspan shall be opened at any time for passage of east-bound sight-seeing boats. Openings are scheduled on the hour and half-hour as follows:

7:00 a. m.	1:30 p. m.
8:00 a. m.	2:00 p. m.
9:00 a. m.	2:30 p. m.
9:30 a. m.	3:00 p. m.
10:00 a. m.	3:30 p. m.
10:30 a. m.	4:00 p. m.
11:00 a. m.	4:30 p. m.
11:30 a. m.	5:00 p. m.
12:00 Noon	6:00 p. m.
1:00 p. m.

PART 208—FLOOD CONTROL REGULATIONS

FRIANT DAM AND RESERVOIR (MILLERTON LAKE) SAN JOAQUIN RIVER, CALIFORNIA

Pursuant to the provisions of Section 7 of the act of Congress approved 22 December 1944 (58 Stat. 890, 33 U. S. C. 709), § 208.85 is hereby prescribed to govern the use and operation of Friant Dam and Reservoir on San Joaquin River, California, for flood control purposes:

§ 208.85 *Friant Dam and Reservoir (Millerton Lake).* The Bureau of Reclamation shall operate Friant Dam and Reservoir in the interest of Flood control as follows:

(a) Releases from Friant Dam shall be restricted to quantities which will not cause downstream flows to exceed, insofar as possible, any of the following criteria: (1) 8,000 cubic feet per second between Friant and Skeggs Bridge, which is computed as the sum of the flow at U. S. G. S. gaging station "San Joaquin River below Friant," the flow at U. S. G. S. gaging station "Little Dry Creek near Friant" and the flow into Little Dry Creek from Big Dry Creek Reservoir; (2) 10,000 cubic feet per second at U. S. G. S. gaging station "San Joaquin River near Mendota".

(b) Storage space in Friant Reservoir shall be kept available for flood control purposes in accordance with the Flood Control Storage Reservation Diagram currently in force, except when storage of flood water is necessary in order to limit releases as prescribed in paragraph (a) of this section. Any water temporarily stored in the flood control space indicated by the Flood Control Storage Reservation Diagram currently in force shall be released as rapidly as can be safely accomplished without causing downstream flows to exceed the criteria prescribed in paragraph (a) of this section. The Flood Control Storage Reservation Diagram in force as of the promulgation of this section is that dated November 8, 1955, File No. SJ-8-26-10, and is on file in the office of The Chief of Engineers, Department of the Army, Washington, D. C., and in the office of the Commission of Reclamation, Washington, D. C. Revisions of the Flood Control Storage Reservation Diagram may be developed from time to time as necessary by the Corps of Engineers and the Bureau of Reclamation. Each such revision shall be effective upon the date specified in the approval thereof by the Chief of Engineers and the Commissioner of Reclamation and from that date until replaced shall be the Flood Control Storage Reservation Diagram currently in force for purposes of this section. Copies of the Flood Control Storage Reservation Diagram currently in force shall be kept on file in and may be obtained from the office of the District Engineer, Corps of Engineers, and the Regional Director, Bureau of Reclamation, in charge of the locality.

(c) In the event that the reservoir level rises above elevation 578 at the dam (top of spillway gates), subsequent operation of the dam shall be such as to cause downstream flows and stages to exceed as little as possible the criteria prescribed in paragraph (a) of this section and in no event to cause the maximum subsequent release from the reservoir to exceed the estimated maximum flow that would have occurred subsequently under the conditions which existed prior to the construction of the dam.

(d) Nothing in the regulations of this section shall be construed to require dangerously rapid changes in magnitudes of releases, or that releases be made at rates or in a manner that would be inconsistent with requirements for protecting the dam and reservoir from major damage.

(e) The Bureau of Reclamation shall procure such current basic hydrologic data, and make such current determinations of required flood control storage reservation from the Flood Control Storage Reservation Diagram currently in force and current calculations of permissible releases from the reservoir as are required to accomplish the flood-control objectives prescribed in this section.

(f) The operation of Friant Dam and Reservoir shall be coordinated with that of Big Dry Creek Reservoir Project on Big Dry Creek, California, so as jointly to restrict downstream flows in San Joaquin River to the quantities prescribed in paragraph (a) of this section as follows:

(1) The operators of the two projects shall exchange data as to present or anticipated releases from Big Dry Creek Project into Little Dry Creek (a downstream tributary of San Joaquin River) and current stages at downstream control gages on San Joaquin River;

(2) due consideration shall be given to any releases from Big Dry Creek Project as part of the flow of Little Dry Creek in the calculation of permissible releases from Friant Reservoir;

(3) in the event that such consideration would adversely affect the ability of Friant Dam to restrict downstream flows in San Joaquin River to prescribed levels, the representative of the Bureau of Reclamation in immediate charge of operation of Friant Dam shall notify the District Engineer, Corps of Engineers, Department of the Army, in charge of the locality, of this fact, and said District Engineer shall then, after due consideration of conditions at both projects, issue such instructions as he may deem necessary.

(g) The Bureau of Reclamation shall keep the District Engineer, Corps of Engineers, Department of the Army, in charge of the locality, currently advised of reservoir release, reservoir storage, and such other operating data as the

District Engineer may request, and also of those basic operating criteria which effect the schedule of operation. Also, the Bureau of Reclamation shall keep the State Engineer, acting for the Department of Public Works of the State of California, currently advised of reservoir releases.

(h) The flood control regulations of this section are subject to temporary modification by the District Engineer, Corps of Engineers, if found necessary in time of emergency. Requests for and action on such modifications may be made by any available means of communication and the action taken by the District Engineer shall be confirmed in writing under date of the same day to the office of the Regional Director of the Bureau of Reclamation in charge of the operations.

[Regs., November 8, 1955, ENGWE] (Sec. 7, 58 Stat. 890; 33 U. S. C. 709)

PROPOSED RULE MAKING

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[21 CFR Part 120]

TOLERANCES AND EXEMPTIONS FROM TOLERANCES FOR PESTICIDE CHEMICALS IN OR ON RAW AGRICULTURAL COMMODITIES

NOTICE OF FILING OF PETITION FOR ESTABLISHMENT OF TOLERANCE FOR RESIDUES OF *p*-CHLOROPHENYL *p*-CHLOROBENZENESULFONATE

Pursuant to the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 403 (d) (1), 68 Stat. 512; 21 U. S. C. 346a (d) (1)), the following notice is issued:

A petition has been filed by Dow Chemical Company, Midland, Michigan, proposing the establishment of a tolerance of 2 parts per million for residues of *p*-chlorophenyl *p*-chlorobenzenesulfonate in or on the following raw agricultural commodities: Apples, peaches, and pears and a tolerance of 3 parts per million in or on the following raw agricultural commodities: Citrus and plums (fresh prunes).

An analytical method proposed in the petition for determining residues of *p*-chlorophenyl *p*-chlorobenzenesulfonate is the method reported in "Determination of *p*-Chlorophenyl *p*-Chlorobenzenesulfonate in Spray Residues on Fresh Fruits," by A. H. Kutschinski and E. N. Luce; Analytical Chemistry, Vol. 24, page 1188, July 1952.

Dated: December 5, 1955.

CIVIL AERONAUTICS BOARD

[14 CFR Part 225]

[Economic Regs. Draft Release 79]

TARIFFS OF CERTAIN CERTIFICATED AIRLINES; TRADE AGREEMENTS

NOTICE OF PROPOSED RULE MAKING

DECEMBER 7, 1955.

Notice is hereby given that the Civil Aeronautics Board has under consideration the amendment and renewal of Part 225 of the Economic Regulations authorizing certain classes of carriers to exchange air transportation for services or goods for advertising purposes, and granting a limited exemption from section 403 (b) of the Civil Aeronautics Act.

Part 225 is scheduled to expire on January 1, 1956, and all trade agreements made thereunder will terminate upon that date. The Conference of Local Service Airlines has petitioned the Board for renewal of Part 225 and a one-year extension of its life. The Conference has further petitioned that this regulation be amended in several respects. Resort Airlines, Inc., has also petitioned the Board to amend this regulation so as to include "certificated cruise carriers".

In response to these petitions, the Board has decided to promulgate the notice of proposed rule making set forth below.

The principal features of the proposed regulation are explained in the Explanatory Statement and the proposed new Part 225 is set forth below.

Interested persons may participate in the proposed rule making through submission of written data, views or arguments pertaining thereto, in triplicate, addressed to the Secretary, Civil Aeronautics Board, Washington 25, D. C. All relevant matter in communications received on or before December 22, 1955, will be considered by the Board before taking final action on the proposed rule.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 403, 404, 52 Stat. 992, 993, 49 U. S. C. 483, 484)

By the Civil Aeronautics Board.

[SEAL] M. C. MULLIGAN,
Secretary.

Explanatory statement. As presently drafted, Part 225 provides that all trade agreements entered into thereunder shall expire on the terminal date of the regulation. It appears that this provision has impaired the ability of airlines to negotiate such agreements as the expiration date of Part 225 approaches. Accordingly, the proposed renewal regulation, in extending the authority for an additional year, permits trade agreements negotiated during 1956 to remain in force for a specified period not to exceed one year from the effective date of the agreement concerned. Thus, the authority contained in the revised Part 225 will persist until the end of 1957.

The present limitation on the aggregate value of the trade agreements which may be entered into by any one carrier is increased from $25,000 to $50,00 a year.

Part 225 also presently provides that any person supplying advertising to an airline pursuant to a trade agreement shall furnish the airline with a list of the individuals eligible to receive such transportation. Experience has shown that the failure of the regulation to specify a procedure whereby changes in the identity of such eligible personnel can be made has unnecessarily excluded new persons designated by the supplier. Consequently, the proposed regulation permits the supplier to amend its list of eligible personnel upon 10 days written notice to the airline.

The proposed regulation also amends the definition of the term "airline" to include certificated cruise carriers. While the Board does not believe that the privilege of exchanging transportation for advertising should be extended to all classes of air carriers, it appears that this particular class of carrier must assume a disproportionately heavy burden in advertising and promoting its unique type of service. The average ticket sold by Resort represents a much greater expenditure on the part of the passenger than does the average ticket sold by either Hawaiian or local service carriers. Furthermore, Resort must compete in selling its all-expense tours with numerous tour conducting agencies as well as with other airlines offering such tours. Finally, all the operations of this carrier, which does not enjoy subsidy support, are in a developmental or experimental stage. In view of these unusual circumstances, it appears reasonable to extend the scope of Part 225 so as to include the class of certificated carriers—of which Resort is presently the only member.

It should be noted, however, that the proposed regulation expressly provides that carriers certificated to furnish air transportation only in connection with the sale of all-expense tours or cruises will not be permitted to exchange their services for advertising equal in value to the entire price of the tour. Thus, such carriers are required to limit themselves to an exchange of the value of the transportation portion of the total value of the tour or cruise and collect in cash the difference in value.

The proposed regulation also amends the definition of "services or goods for advertising purposes" in order to include the type of advertising services normally performed by an advertising agency. It further amends this definition to include the services of any person acting as an advertising agent or broker.

Finally, the proposed regulation adds a new definition of the term "air transportation" and makes certain other minor changes for the purpose of limiting exchanges of transportation for advertising to the value of the transportation services provided over a carrier's own authorized routes. Moreover, a carrier selling a joint rate ticket can only exchange the portion of such through transportation services performed over its own routes, valued at its individual local tariff rates therefor, and must collect the difference in value between the local and joint rates in cash.

The carriers concerned have all requested the amendments hereby proposed, which liberalize the present provisions of Part 225. Consequently, the Board intends to dispense with the normal 30 day waiting period upon their adoption.

PART 225—TARIFFS OF CERTAIN CERTIFICATED AIRLINES: TRADE AGREEMENTS

§ 225.1 *Definitions.* For the purposes of this part:

(a) "Airline" means:

(1) Any air carrier furnishing local or feeder type transportation (other than by helicopter) within the continental limits of the United States, consisting of the carriage of persons, property, and mail under a certificate of public convenience and necessity issued by the Board.

(2) Any air carrier furnishing air transportation, between points within the Territory of Hawaii, consisting of the carriage of persons, property, and mail under a certificate of public convenience and necessity issued by the Board.

(3) Any air carrier furnishing air transportation pursuant to a certificate of public convenience and necessity issued by the Board which limits the holder to the performance of all-expense tours or cruises.

(b) "Trade agreement" shall mean an agreement whereby air transportation is to be exchanged for services or goods for advertising purposes, and which agreement conforms to the requirements of § 225.5.

(c) "Services or goods for advertising purposes" means newspaper or magazine display advertising, radio and television advertising, bus and streetcar advertising and other forms of media advertising, billboards and other outdoor advertising and advertising promotional displays. It also includes the services normally performed by an advertising agency and the services of such agency or any other person acting as an advertising agent or broker. It shall not include feature or news stories, public relations expense or other forms of advertising that are not clearly identifiable as paid advertisements of the carrier.

(d) "Air transportation" means air transportation provided by an airline over its own authorized routes under applicable individual or joint tariffs on file with the Board.

§ 225.2 *Filing of notice of trade agreement.* Any airline may at any time prior to December 17, 1956, file with the Board a notice of its intention to furnish air transportation in exchange for services or goods for advertising purposes. Every such notice shall be accompanied by an executed counterpart of a written agreement, containing all the terms of the agreement between the parties thereto, duly entered into by such air carrier with the supplier, and by an affidavit by the chief financial officer or other responsible officer of the local service airline having knowledge of the transaction in the form required by § 225.4. Every such notice shall be filed at least 14 days prior to the effective date specified in the trade agreement. Within the meaning of this part, air transportation shall be deemed to be furnished when the passenger is actually carried.

§ 225.3 *Contents of notice of trade agreement.* Every notice filed with the Board pursuant to § 225.2 shall be conspicuously entitled "Notice Concerning Exchange of Air Transportation for Services or Goods", and shall contain the following information:

(a) The names and addresses of the contracting parties;

(b) A description of the services or goods and the amount and value thereof to be received by the airline pursuant to the trade agreement, together with a statement of the basis upon which such value was computed—all of which shall be set forth in such detail as to enable the Board to verify such value;

(c) The total value of the air transportation to be furnished under all trade agreements previously filed with the Board under this part;

(d) Such other information as will enable the Board to determine whether the trade agreement was solicited by the airline or the supplier and has been entered into for the purpose of enabling the airline to obtain advertising which it could not afford if it were required to pay cash but for which it would have been willing to pay cash; and

(e) A description of the arrangements and provisions which have been made by the airline to ensure that air transportation will not be furnished to anyone except the individuals identified or described in the agreement.

§ 225.4 *Affidavit by chief financial or other responsible officer of airline.* Every affidavit filed with the Board pursuant to § 225.2 shall state that the officer whose signature appears thereon is familiar with the circumstances and that in his opinion and to the best of his knowledge and belief: (a) The trade agreement which it accompanies will be financially advantageous to the airline; (b) the services or goods to be received have an actual value to the airline equal to or in excess of the value of the air transportation to be furnished under the contract; and (c) the information contained in the notice is complete and correct.

§ 225.5 *Provisions of agreements.* Each trade agreement entered into by an airline hereunder shall provide:

(a) That it shall become effective on a specified day, preceding January 1, 1957.

(b) That goods or services are to be supplied to the airline and the airline is to be required to furnish air transportation to the supplier during a specified period of time which shall not extend more than one year from the effective date of the trade agreement.

(c) That the airline shall not be obligated to furnish any air transportation under a trade agreement unless such transportation is requested and furnished within the period specified therein. Any such agreement may provide, however, that in the event the agreement is terminated by the Board pursuant to § 225.7, the airline shall pay in cash (except to the extent the order of the Board terminating such agreement may permit all or any part, as specified in the order, of such excess to be paid in air transportation) any excess value of goods or services received thereunder prior to such termination over the value of the air transportation it has furnished under the agreement prior thereto.

(d) That in the event the air carrier at the time of expiration of the period during which goods or services are to be supplied to it, or at the time of termination of the agreement pursuant to § 225.7, has furnished air transportation having a value in excess of the value of the services or goods which it has received prior to such termination or the end of such period, such excess shall become payable, within not more than 90 days after such expiration or termination, to the airline in cash, goods, or services, or any combination thereof, as the parties may agree either in the original agreement or upon such expiration or termination (except to the extent any order of the Board terminating the agreement may require that all or any part, as specified in the order, of such excess shall be payable only in cash or within a different period);

(e) That, except to the extent provided in paragraph (d) of this section and the last sentence of paragraph (c) of this section, the agreement shall immediately be terminated if at any time the Board shall issue an order to that effect pursuant to § 225.7;

(f) That the air transportation to be furnished pursuant to the agreement shall be used only by the supplier, his employees and their immediate families;

(g) That such air transportation shall not be transferable and shall be used only by the individuals identified or described in the agreement;

(h) That the published individual tariff rates, fares, and charges of the airline applicable at the time air transportation is furnished shall be used in determining the value of such transportation;

(i) That such agreement will be terminated by the air carrier immediately upon its discovery that air transportation issued under the agreement has been used by an individual not identified or described in the agreement, any excess in values resulting from transactions under the agreement prior to such terminating to be settled as provided in paragraph (d) of this section and the last sentence of paragraph (c) of this section;

(j) That the total value of air transportation furnished pursuant to the

agreement shall not exceed a fixed amount stated therein;

(k) That the supplier will furnish to the Board such complete and accurate information as it or the airline shall reasonably request concerning the prices for, the value of, and the nature of the services or goods for advertising purposes only supplied or to be supplied to the airline, and the prices which it would customarily charge to others for similar services or goods; and

(l) That in the event the air carrier is operating pursuant to a certificate of public convenience and necessity which limits the holder to the performance of all-expense tours or cruises, it shall exchange air transportation for services or goods for advertising purposes only with respect to the value of the transportation portion of such tours or cruises and shall collect in cash the difference between such value and the total price of the tour or cruise.

§ 225.6 *Limitation on total value of trade agreements.* The total value of trade agreements entered into by any single airline in accordance with the provisions of this part shall not exceed $50,000 in the aggregate each year.

§ 225.7 *Suspension or termination of trade agreements by the Board.* If at any time after the filing of a trade agreement in accordance with § 225.2 the Board shall have doubt that the transaction is in the public interest, the Board may serve upon the airline an order directing it to show cause why such trade agreement should not be terminated. Upon service of such order performance of the agreement shall, unless otherwise provided in the order, immediately be suspended, and shall not thereafter be commenced or resumed unless and until the Board shall, after hearing upon such order, or other final determination of the matter, permit performance of the trade agreement to be commenced or resumed.

§ 225.8 *Exemption from tariff and other requirements.* With respect to air transportation furnished in accordance with the provisions of this part, every airline shall, in connection with the making or performance of trade agreements, be exempt from the provisions of Part 221 of this subchapter and any other regulations hereafter adopted by the Board insofar as any such regulation shall require tariffs to show classifications, rules, regulations, practices, and services, and from the provisions of section 403 (b) of the act only insofar as such provisions would otherwise require that such airline shall not charge or demand or collect or receive a greater or different compensation for the air transportation which it is to furnish pursuant to a trade agreement, or for any service in connection therewith, than the rates, fares and charges specified in its currently effective tariffs.

§ 225.9 *Furnishing of transportation.* (a) Prior to the effective date of any trade agreement entered into under this part, the supplier shall furnish the airline with a list of the individuals who are to use the air transportation to be furnished; provided that changes in the identity of the individuals who are to use the air transportation or other revisions in the list may be made by the supplier after the effective date of the agreement upon ten days written notice to the airline;

(b) The airline shall issue to each of the individuals listed an identification card which clearly identifies the individual and states thereon that he is entitled to use transportation furnished pursuant to the named trade agreement during a stated period;

(c) Tickets covering transportation furnished under a trade agreement shall (1) be issued upon the demand of the supplier only; (2) be clearly marked "Non-Transferable"; and (3) be used only by an individual who has previously been issued an identification card described in paragraph (b) of this section; and

(d) The airline shall make such other arrangements and provisions as are necessary to ensure that air transportation furnished will not be used by anyone except the individuals identified or described in the agreement;

(e) No transportation shall be furnished under a trade agreement except in accordance with a ticket issued therefor.

§ 225.10 *Accounts and records.* (a) Each airline availing itself of the provisions of this part shall maintain a record of each trade agreement entered into, which record shall be filed in such manner as to be accessible and convenient for examination, and shall contain the following information: (1) The date received and the amount of goods or services supplied; (2) the names and addresses of individuals to whom identification cards were issued under the trade agreement; and (3) the date furnished and the amount of the air transportation furnished under the trade agreement. All correspondence or memorandums relating to trade agreements shall be retained and made a part of the carrier's records;

and

(b) In accounting for and reporting financial and traffic data in accordance with Part 241 of this subchapter (the Board's Economic Regulations):

(1) Advertising received in accordance with a trade agreement shall be billed and recorded in the carrier's expense accounts at the going market rate.

(2) Air transportation services provided in accordance with a trade agreement shall be billed and recorded in the carrier's accounts in accordance with its published tariffs. Such amounts shall be carried in the normal revenue account.

(3) Upon termination of a trade agreement, a reduction shall be made in the carrier's expense accounts to the extent, if any, that the value of advertising services received shall exceed the value of transportation services performed in return therefor, unless such balance is settled in cash, goods, or services of equivalent value.

§ 225.11 *Value of air transportation.* For the purposes of this part, the published tariff rates applicable at the time air transportation is furnished pursuant to a trade agreement shall be used in determining the value thereof.

§ 225.12 *Value of advertising goods and services.* For the purpose of this part, advertising goods and services shall be valued at the going market price at the time such goods or services are furnished.

[F. R. Doc. 55-9990; Filed, Dec. 9, 1955; 8:52 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Reclamation

[No. 35]

RIVERTON PROJECT, WYOMING

PUBLIC NOTICE OF ANNUAL WATER RENTAL CHARGES

NOVEMBER 23, 1955.

1. *Water rental.* Irrigation water will be furnished upon a rental basis during the irrigation season of 1956 and thereafter, until further notice, to the irrigable lands described in Public Notice No. 28 for the North Pavillion areas, and Public Notice No. 30 for the North Portal area, Riverton Project, Wyoming.

2. *Charges and terms of payment.* A minimum water rental charge shall be payable for irrigable lands described in Public Notices Nos. 28 and 30, whether water is used or not. Such minimum charge need not be paid in any year for any acreage which the Riverton Project Manager certifies to be temporarily nonirrigable during such year due to seepage, land subsidence, shallow or impermeable soils, or excessive amounts of salts. Payment of the minimum water rental charge will entitle the water user to two acre-feet of water per irrigable acre. The minimum charge shall be payable in advance on January 1 of each year, and no water will be furnished until such charge is paid in full. Charges for water furnished in excess of two acre-feet per irrigable acre shall be payable on January 1 for water furnished during the preceding year.

(a) The minimum water rental charge for lands in the North Pavillion area described in Public Notice No. 28 shall be $2.50 per irrigable acre. Water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $1.25 per acre-foot.

(b) The minimum water rental charge for lands in the North Portal area described in Public Notice No. 30, shall be $2.50 per irrigable acre. Water in addition to two acre-feet per irrigable acre, if available, shall be furnished at the rate of $1.25 per acre-foot.

3. *Water for other lands.* Irrigation water, when available, will also be furnished at the rates described in Paragraph 2, to other lands in the North Pavillion and North Portal areas upon the filing each year of a temporary water rental application covering such other lands. The approval of a water rental application for these lands shall not be deemed to constitute an action leading to a continuing right to receive water in subsequent years. The application for water on other lands can be made at any time during the irrigation year. At the time of application, the water rental charge is due without application of the discounts or penalties prescribed in Paragraph 5, and on water will be delivered until all charges have been paid in full.

4. *Abnormal precipitation.* In the event the recorded total precipitation at Pavillion from January 1 to September 30 varies from the 37-year average of 7.76 inches (1919-55) by more than one inch, the 2.0 acre-foot per irrigable acre water allowance for the minimum water charge will be adjusted. If the 9-month total precipitation is less than 6.76 inches, the water allowance for the minimum water charge will be increased by 0.2 foot for each inch that precipitation during this period is below the average of 7.76 inches. If the actual precipitation exceeds the average for the 9-month period by more than one inch, the water allowances will be reduced by 0.1 foot for each inch of such excess above the average of 7.76 inches.

5. *Discounts and penalties.* If payment of the minimum charge is made on or before December 31, a discount of 5 percent of such charge will be allowed. If payment of the charge for additional water is made on or before December 31 of the year in which used, a discount of 5 percent of such charge will be allowed. If payment of the minimum charge is not made by April 1 of each year, and if payment for additional water furnished to any lands is not made by April 1, subsequent to the year in which such additional water is delivered, there shall be added on the following day a penalty of one-half of one percent of the amount unpaid, and the same penalty shall be added on the first day of each calendar month thereafter so long as such default shall continue, and no water will be delivered until all charges and penalties have been paid in full.

6. *Place of payment.* Payment of water rental charges shall be made at the Bureau of Reclamation Office in Riverton, Wyoming, or mailed to the Bureau of Reclamation, Riverton, Wyoming.

7. *Public Notices Nos. 28 and 30, supplemented.* This notice supersedes Public Notice No. 34 and supplements Subparagraphs 24 (b) and 24 (c) of Public Notice No. 28, and Subparagraphs 25 (b) and 25 (c) of Public Notice No. 30, Riverton Project.

L. W. BARTSCH,
Acting Regional Director.

DEPARTMENT OF COMMERCE

Federal Maritime Board

UNITED KINGDOM/UNITED STATES PACIFIC FREIGHT ASSOCIATION AND NIPPON YUSEN KAISHA

NOTICE OF AGREEMENT FILED FOR APPROVAL

Notice is hereby given that the following described agreement has been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended; 39 Stat. 733, 46 U. S. C. 814.

Agreement No. 3357-A, between the member lines of the United Kingdom/United States Pacific Freight Association and Nippon Yusen Kaisha, provides for the participation of Nippon as an associate member of that association. Nippon agrees to maintain the rates and adhere to the conditions fixed by the association on traffic from the United Kingdom to U. S. Pacific Coast ports, and to make no changes in such rates and conditions without the consent of the member lines of the Association.

Interested parties may inspect this agreement and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to the agreement and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

By order of the Federal Maritime Board.

Dated: December 7, 1955.

[SEAL] A. J. WILLIAMS,
Secretary.

[Docket No. G-2306, etc.]

AMERICAN LOUISIANA PIPE LINE CO. ET AL.

NOTICE OF APPLICATIONS AND ORDER FURTHER CONSOLIDATING PROCEEDINGS AND PROVIDING FOR HEARING

In the matters of American Louisiana Pipe Line Company, Docket No. G-2306; Texas Gas Transmission Corporation, Docket No. G-2311; Michigan Wisconsin Pipe Line Company, Docket No. G-2327; Michigan Consolidated Gas Company, Docket No. G-2328; Lincoln Natural Gas Company, Inc., Docket No. G-9270; Illinois Power Company, Docket No. G-9293; City of Aledo, Illinois, Docket No. G-9620; Ohio Valley Gas Corporation, Docket No. G-9697.

The City of Aledo, Illinois, by its application filed on November 7, 1955, seeks an order pursuant to section 7 (a) of the Natural Gas Act directing Michigan Wisconsin Pipe Line Company to establish physical connection of its facilities with facilities proposed to be constructed by Applicant, and to sell and deliver to Applicant its natural gas requirements for the City of Aledo, Illinois. Applicant will construct the facilities necessary to connect its proposed distribution system with the facilities of Michigan Wisconsin Pipe Line Company at an estimated cost of $7,600, and estimates its fifth year peak day requirements to be 2,380 Mcf. The total estimated cost of the proposed

natural gas system, including the transmission facilities, is $400,000.

Ohio Valley Gas Corporation by its application filed on November 25, 1955, seeks an order pursuant to section 7 (a) of the Natural Gas Act directing American Louisiana Pipe Line Company to establish physical connection of its facilities with the facilities proposed to be constructed by Applicant, and to sell and deliver to Applicant its natural gas requirements for the City of Portland, Indiana, and environs. Applicant will construct the facilities necessary to connect the City of Portland, Indiana, with American Louisiana Pipe Line Company at an estimated cost of $100,000. Applicant estimates its fifth year peak-day requirements at 3,000 Mcf.

The applications are on file and open for public inspection.

Pursuant to notice issued on October 31, 1955, the proceedings in Docket Nos. G–2306, G–2311, G–2327, G–2328, G–9270, and G–9293 were consolidated for hearing and the hearing in such proceedings set to commence on December 7, 1955, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington 25, D. C.

The matters involved and the issues presented by the applications filed by the City of Aledo, Illinois, Docket No. G–9620, and Ohio Valley Gas Corporation, Docket No. G–9697, are related to the matters and issues presented in the proceedings in Docket Nos. G–2306, G–2311, G–2327, G–2328, G–9270, and G–9293 and those related matters should be heard on a consolidated record.

The Commission finds:

(1) Good cause exists for waiving the notice requirements with respect to the applications filed in Docket Nos. G–9620 and G–9697 and to provide for hearing thereon upon less than fifteen days notice.

(2) The public interest requires that the hearing in proceedings upon the applications filed in Docket Nos. G–9620 and G–9697 be held concurrently with the hearing in proceedings in Docket Nos. G–2306, G–2311, G–2327, G–2328, G–9270 and G–9293, heretofore consolidated, and as a part thereof.

The Commission orders:

(A) The proceedings in Docket Nos. G–2306, G–2311, G–2327, G–2328, G–9270, G–9293, G–9620 and G–9697 be and the same hereby are consolidated for hearing.

(B) The hearing in Docket Nos. G–9620 and G–9697 be held concurrently with, and as a part of the hearing in Docket Nos. G–2306, G–2311, G–2327, G–2328, G–9270 and G–9293 now set to commence on December 7, 1955, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C.

Adopted: December 5, 1955.

Issued: December 6, 1955.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55–9945; Filed, Dec. 9, 1955; 8:48 a. m.]

[Docket No. E–6652]

DUKE POWER CO.

NOTICE OF APPLICATION FOR ORDER AUTHORIZING ISSUANCE OF STOCK

DECEMBER 5, 1955.

Take notice that on November 25, 1955, an application was filed with the Federal Power Commission pursuant to section 204 of the Federal Power Act by Duke Power Company (Applicant), a corporation organized under the laws of the State of New Jersey and doing business in the States of North Carolina and South Carolina, with its principal business office at Charlotte, North Carolina, seeking an order authorizing the issuance of 4,593,480 shares of Common Stock without par value. Applicant proposes to reduce the stated value of issued and outstanding shares of Common Stock, without par value, to $17.50 per share and to issue one additional share of Common Stock, without par value, to have a stated value of $17.50 per share for each share issued and outstanding. The additional Common Stock will be issued pro rata to the holders of the outstanding Common Stock of Applicant; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before the 16th day of December 1955, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file and available for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55–9946; Filed, Dec. 9, 1955; 8:48 a. m.]

[Docket No. G–8432]

CITY OF VANCEBURG, KENTUCKY

NOTICE OF APPLICATION FOR ORDER TO INITIATE SERVICE

DECEMBER 6, 1955.

Take notice that the City of Vanceburg, Kentucky (Applicant), filed on February 2, 1955, and supplemented on March 23, 1955, an application, pursuant to section 7 (a) of the Natural Gas Act, for an order directing Central Kentucky Natural Gas Company (Central), a Columbia Gas System subsidiary, to initiate service to Applicant for distribution of gas in and near the City of Vanceburg.

Applicant has also requested a certificate of public convenience and necessity.

Applicant proposes to build approximately 6.3 miles of 6-inch line from Central's 20-inch line in Lewis County, Kentucky, and a distribution system in the city.

The area to be served has an estimated population of 2,000. Applicant has estimated its annual and peak day gas requirements as follows:

	First year	Third year	Sixth year
Annual requirements	25, 256 234	55, 808 519	71, 720 667
Peak day requirements			

The estimated capital cost of Applicant's proposed transmission facilities is $200,017, which it proposes to finance by issuance of 4 percent, 30-year revenue bonds.

Central filed an answer to the application on March 3, 1955, stating that service to Vanceburg would not impair its ability to serve its existing customers, and requesting the Commission to grant whatever relief it deems in the public interest.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 23, 1955.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55–9947; Filed, Dec. 9, 1955; 8:49 a. m.]

[Docket No. G–9067]

COLORADO-WYOMING GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 6, 1955.

Take notice that Colorado-Wyoming Gas Company, Applicant, a Delaware corporation, whose address is Continental Oil Building, Denver 2, Colorado, filed on June 23, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service and to construct facilities as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to install and operate 5 new farm taps along its pipeline system for the sale of gas for resale to Public Service Company of Colorado, and 2 new farm taps for the sale of gas for resale to Greely Gas Company, together with the necessary metering and regulating facilities, all in the State of Colorado.

Applicant also proposes to relocate an existing farm tap now serving a group of customers at Cheyenne, Wyoming.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations, and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Comission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on December 29, 1955, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the isues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or to be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 26, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55–9948; Filed, Dec. 9, 1955; 8:49 a. m.]

[Docket No. G–9457]

CITIES SERVICE GAS CO.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 6, 1955.

Take notice that Cities Service Gas Company, a Delaware corporation (Applicant), with a principal office in Oklahoma City, Oklahoma, filed on October 10, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to acquire, construct and operate natural gas facilities and to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes (a) to acquire, own and operate approximately 22.5 miles of 16'' and 10'' gas pipeline beginning at a point in the NE ¼ Section 18, Township 13 South, Range 20 East, Douglas County, Kansas, thence in a northwesterly direction to a point in the SW ¼ Section 8, Township 11 South, Range 17 East, Jefferson County, Kansas, (b) to construct approximately 7.5 miles of 10'' gas pipeline beginning at a point in the SW ¼ Section 8, Township 11 South, Range 17 East, Jefferson County, Kansas, thence westerly to a point in the NE¼ of Section 13, Township 11 South, Range 15 East, Shawnee County, Kansas.

The application recites that facilities sought to be acquired and operated herein and in part constructed as hereinabove described constitute a portion of a former crude oil transmission pipeline to be devoted to gas service for the first time by this project. The total cost of such acquisition and construction is approximately $343,826. Applicant estimates that a new line to Topeka, Kansas, located on approximately the same route as the facilities herein would cost in excess of One Million Dollars; that Applicant can acquire and construct said facilities, at the present time, at approximately one-third of such cost, such project is economically feasible.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on January 11, 1956 at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a non-contested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 30, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55–9949; Filed, Dec. 9, 1955; 8:49 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 22–1785]

RHEINISCH - WESTFÄLISCHES ELEKTRIZITÄTSWERK AKTIENGESELLSCHAFT

NOTICE OF APPLICATION FOR EXEMPTION

DECEMBER 6, 1955.

Notice is hereby given that Rheinisch-Westfälisches Elektrizitätswerk Aktiengesellschaft ("RWE"), a corporation organized and existing under the laws of Germany, has filed an application pursuant to section 304 (d) of the Trust Indenture Act of 1939 for an order exempting from the provisions of section 310 (a) (3) and 310 (b) (4) of the act, the 5¼ percent Debt Adjustment Bonds, Series A, due January 1, 1978, 4½ percent Debt Adjustment Bonds, Series B, due January 1, 1978, and 4½ percent Debt Adjustment Bonds, Series C, due January 1, 1978, to be issued by RWE under an Indenture to be dated as of January 1, 1953, between RWE and The First National City Bank of New York and Treuhand-Vereinigung Aktiengesellschaft, as Trustees, in connection with RWE's offer of settlement to be made pursuant to Annex II of the London Agreement on German External Debts of February 27, 1953, between the Govenment of the Federal Republic of Germany, the United States of America and other countries.

Section 304 (d) of the act permits the Commission, on application by the issuer and after opportunity for hearing thereon, to enter an order exempting from any one or more provisions of the act, any security proposed to be issued by a person organized and existing under the laws of a foreign government if and to the extent it finds that compliance with such provision or provisions is not necessary in the public interest and for the protection of investors.

The application states, with respect to the request for exemption from section 310 (a) (3) to permit certain acts to be performed by the Co-Trustee, as follows:

(1) RWE has outstanding four issues of bonds which have been in default for many years. The London Agreement provides, among other things, for the consensual settlement of foreign currency obligations of German corporate debtors by the refunding and extension of such obligations. RWE is, however, liable only for the repayment of bonds which may be validated pursuant to the Validation Law for German Foreign Currency Bonds of August 25, 1952. The terms of the offer negotiated by RWE for its outstanding obligations provide for the issuance by RWE of the above described three series of its Debt Adjustment Bonds, due January 1, 1978, in exchange for its outstanding validated bonds.

(2) The mortgages securing the new bonds will be registered in favor of the German Co-Trustee and certain acts with respect to the release of property, the reduction of the registered amount of liens and the disposition of release moneys are performed only by the Co-Trustee subject, however, to ultimate control by the American institutional trustee. Section 310 (a) (3) of the Trust Indenture Act of 1939 requires that the rights, powers, duties and obligations be conferred upon the American institutional trustee alone or jointly with the Co-Trustee unless under the laws of any jurisdiction in which acts are to be performed the institutional Trustee is incompetent or unqualified to act.

(3) While no contention is made that the American Institutional Trustee is incompetent or unqualified to act it is contended that the vesting of title and related powers in the Co-Trustee is essential to the orderly settlement and payment of the obligations; the rights in the security of both the holders of the new bonds and the old bonds are rights in German property, created under German mortgage law and to a large extent dependent upon the interpretation of the German Implementation Law; and such right in the security should be adjudicated only by German courts. In this connection it is urged that the vesting of these functions in the American institutional trustee may result in litigation in this country by non-depositing bond holders who seek to establish some special rights in the security.

(4) While the procedure proposed necessarily results in certain acts being performable by the Co-Trustee, the protection intended to be accorded to the

bondholders by the Trust Indenture Act of 1939 is in no way impaired. All of the acts which are performable only by the Co-Trustee are in each case, subject to ultimate control by the Trustee if such control is exercised within 30 days after notice is received of the proposed action.

The application states with respect to the request for exemption from section 310 (b) (4), to permit the Co-Trustee to serve notwithstanding an affiliation with underwriters for the issuer, as follows:

(1) Dr. Hermann Richter, chairman of the Aufsichtsrat of the Co-Trustee, is also chairman of the Aufsichtsrat of Rhein-Main Bank Aktiengesellschaft which within the last three years has acted as an underwriter for the issuer.

(2) Although the relationship between the Co-Trustee and Rhein-Main Bank Aktiengesellschaft may fall within the provisions of section 310 (b) (4) of the act, it is neither necessary nor desirable in the public interest or for the protection of investors to hold that the Co-Trustee should be disqualified by reason of such relationship.

(3) The Aufsichtsrat of a German corporation has substantially different functions from that of the Board of Directors of a United States corporation. Under section 95 of the German Stock Corporation Law (Aktiengesetz), the duties and rights of members of the Aufsichtsrat of German corporations are extremely limited and the delegation of management powers to the Aufsichtsrat are specifically prohibited.

(4) Disqualification of the proposed Co-Trustee will make it practically impossible to obtain as Co-Trustee any organization satisfactory to the Company which has adequate experience in dealing with foreign loans, since all the available institutions (with the possible exception of one institution which is unacceptable to the Company for other reasons) which would come under consideration for such appointment have relationships with underwriters of the issuer involving ownership or control which are at least as serious as that relating to the proposed Co-Trustee.

For a more detailed statement of the matters of fact and law asserted, all persons are referred to such application which is now on file in the offices of the Commission in Washington, D. C.

Notice is further given that an order granting the application, in whole or in part and upon such conditions as the Commission may deem necessary or appropriate, may be issued by the Commission at any time after December 21, 1955, unless prior thereto a hearing is ordered by the Commission. Any interested person may, not later than December 19, 1955, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request the Commission in writing that a hearing be held thereon. Any such communication or request should be addressed: Secretary, Securities and Exchange Commission, Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

[F. R. Doc. 55-9940; Filed, Dec. 9, 1955; 8:47 a. m.]

[File No. 70-3426]

DELAWARE POWER & LIGHT CO.

ORDER AUTHORIZING ISSUANCE AND SALE OF BONDS AND PREFERRED STOCK

DECEMBER 6, 1955.

Delaware Power & Light Company ("the Company"), a registered holding company and a public utility company, has filed a declaration and amendments thereto pursuant to sections 6 and 7 of the Public Utility Holding Company Act of 1935 ("the act") and Rule U-50 thereunder regarding the following proposed transactions:

The Company proposes to issue and sell, pursuant to the competitive bidding requirements of Rule U-50, $10,000,000 principal amount of its First Mortgage and Collateral Trust Bonds __ percent Series due 1985 ("1985 Series Bonds") and 50,000 shares of its __ percent Preferred Stock, Cumulative, par value $100 per share ("New Preferred Stock").

The 1985 Series Bonds will be issued under and secured by the Mortgage and Deed of Trust of Delaware Power & Light Company to The New York Trust Company, Trustee, dated as of October 1, 1943, and indentures supplemental thereto, including a proposed Eighteenth Supplemental Indenture to be dated as of December 1, 1955. The rights and preferences of the 1985 Series Bonds will be substantially identical with those of the five presently outstanding series of First Mortgage and Collateral Trust Bonds except with respect to the interest rate, redemption prices, and maturity date thereof. The invitation for bids will specify that the amount to be received by the Company shall not be less than one hundred percent nor more than 102.75 percent of the principal amount thereof, and that the interest rate shall be a multiple of one-eighth of one percent.

The rights and preferences of the New Preferred Stock will be substantially identical with those of the presently outstanding 4 percent, 3.70 percent, 4.28 percent and 4.56 percent Preferred Stocks except with respect to the dividend rate and redemption prices thereof. The invitation for bids will specify that the amount to be received by the Company shall not be less than $100 per share, nor more than $102.75 per share (plus accrued dividends), and that the dividend rate shall be a multiple of 4-hundredths of one percent (0.04 percent).

The net proceeds from the sale of said bonds and preferred stock will be applied toward the cost of the construction program of the Company and its two subsidiaries, including the retirement of bank loans incurred prior to the sale.

The Company estimates that the fees, commissions and expenses to be incurred by it in connection herewith will aggregate $80,000 allocated between bonds and preferred stock as follows:

	Bonds	Preferred
Securities and Exchange Commission filing fees	$1,035	$325
Issuance taxes	11,000	5,500
Legal services	5,500	2,500
Accounting services	3,000	1,750
Financial advisor	3,000	2,000
Fees and expenses of trustee	7,000	
Printing	12,000	6,000
Printing and engraving of bonds and preferred stock	8,190	1,100
Listing fees	2,200	1,000
Miscellaneous	4,075	2,625
Total	57,000	23,000

In addition, the legal fees of counsel for the underwriters, to be paid by the successful bidders, are estimated at $6,000 in the case of the bonds and $3,500 in the case of the preferred stock, plus expenses not exceeding $75 in each case.

The Public Service Commission of Delaware has issued an order approving the issuance of said securities.

Due notice having been given of the filing of said declaration, and a hearing not having been requested of or ordered by the Commission, and the Commission finding with respect to the proposed transactions that the applicable provisions of the Act and the Rules thereunder are satisfied and that no adverse findings are necessary, and deeming it appropriate in the public interest and in the interest of investors and consumers that the declaration as amended be permitted to become effective forthwith:

It is ordered, Pursuant to Rule U-23 and the applicable provisions of the act, that said declaration as amended be, and it hereby is, permitted to become effective forthwith, subject to the conditions prescribed in Rules U-50 and U-24.

By the Commission.

[SEAL] ORVAL L. DUBOIS,
Secretary.

UNITED STATES TARIFF COMMISSION

[Investigation 46]

WOMEN'S AND CHILDREN'S LEATHER HANDBAGS AND POCKETBOOKS

NOTICE OF INVESTIGATION

Investigation instituted. Upon application of the National Authority for the Ladies' Handbag Industry, 347 Fifth Ave., New York 16, N. Y., received November 17, 1955, the United States Tariff Commission, on the 21st day of November, 1955, under the authority of section 7 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930 instituted an investigation to determine whether women's and children's handbags and pocketbooks[1] wholly or in chief value of leather, including reptile leather, provided for in Paragraph 1531, Tariff Act of 1930, are, as a result in whole or in part of the duty or other customs treatment reflecting the concessions granted thereon under the General Agreement on Tariffs and Trade and the related exclusive trade agreement with Cuba, being imported into the United States in such increased quantities, either actual or relative, as to cause or threaten serious injury to the domestic industry producing like or directly competitive products.

Inspection of application. The application filed in this case is available for public inspection at the office of the Secretary, United States Tariff Commission, Eighth and E Streets, NW., Washington, D. C., and in the New York office of the Tariff Commission, located in Room 437 of the Custom House, where it may be read and copied by persons interested.

I certify that the above investigation was instituted by the Tariff Commission on the 21st day of November 1955.

Issued: December 7, 1955.

[SEAL] DONN N. BENT,
Secretary.

[F. R. Doc. 55-9950; Filed, Dec. 9, 1955; 8:49 a. m.]

[1] The term "women's and children's handbags and pocket books" includes shoulder bags, clutch bags, and similar articles customarily carried on or about the person, but does not include shopping bags, luggage, coin purses, change purses, billfolds, bill cases, bill rolls, bill purses, bank-note cases, currency cases, money cases, card cases, license cases, pass cases, passport cases, letter cases, and similar articles.

INTERSTATE COMMERCE COMMISSION

FOURTH SECTION APPLICATIONS FOR RELIEF

DECEMBER 7, 1955.

Protests to the granting of an application must be prepared in accordance with Rule 40 of the General Rules of Practice (49 CFR 1.40) and filed within 15 days from the date of publication of this notice in the FEDERAL REGISTER.

LONG-AND-SHORT HAUL

FSA No. 31399: *Pig iron—Alabama Points to Illinois Territory.* Filed by R. E. Boyle, Jr., Agent, for interested rail carriers. Rates on pig iron and related articles, carloads from Alabama City, Attalla, Gadsden, and Birmingham, Ala., also points taking same rates as proposed from Birmingham to specified points in Illinois, also to Dubuque and Keokuk, Iowa, St. Louis, Mo., and Madison, Wis.

Grounds for relief: Circuitous routes.

Tariff: Supplement 38 to Agent Spanginger's I. C. C. 1420.

600.6191 VOR civil airway No. 191 (Walnut Ridge, Ark., to Chicago, Ill.).
600.6192 VOR civil airway No. 192 (Grants, N. Mex., to Tucumcari, N. Mex.).
600.6193 VOR civil airway No. 193 (Grand Rapids, Mich., to Traverse City, Mich.).
600.6194 VOR civil airway No. 194 (Royston, Ga., to Norfolk, Va.).
600.6195 VOR civil airway No. 195 (Oakland, Calif., to Red Bluff, Calif.).
600.6196 VOR civil airway No. 196 (Rock River, Wyo., to Chadron, Nebr.).
600.6197 VOR civil airway No. 197 (Toledo, Ohio, to Detroit, Mich.).
600.6198 VOR civil airway No. 198 (San Antonio, Tex., to Galveston, Tex.).
600.6199 VOR civil airway No. 199 (San Francisco, Calif., to Fresno, Calif.).
600.6200 VOR civil airway No. 200 (Ukiah, Calif., to Reno, Nev.).
600.6201 VOR civil airway No. 201 (Los Angeles, Calif., to Pasadena, Calif.).
600.6202 VOR civil airway No. 202 (Tucson, Ariz., to Cochise, Ariz.).
600.6203 VOR civil airway No. 203 (Albany, N. Y., to Massena, N. Y.).
600.6204 VOR civil airway No. 204 (Hoquiam, Wash., to Olympia, Wash.).
600.6205 VOR civil airway No. 205 (Springfield, Mo., to Kansas City, Mo.).
600.6206 VOR civil airway No. 206 (Blue Springs, Mo., to Kirksville, Mo.).
600.6207 VOR civil airway 207 (Denver, Colo., to Egbert, Wyo.).
600.6208 VOR civil airway 208 (Thermal, Calif., to Needles, Calif.).
600.6209 VOR civil airway No. 209 (Los Angeles, Calif., to Paso Robles, Calif.).
600.6211 VOR civil airway No. 211 (Cotulla, Tex., to Junction, Tex.).
600.6213 VOR civil airway No. 213 (Rocky Mount, N. C., to Boykin, Va.).
600.6223 VOR civil airway 223 (Herndon, Va., to Harrisburg, Pa.).

HAWAIIAN VOR CIVIL AIRWAYS

600.6401 Hawaiian VOR civil airway No. 1.
600.6402 Hawaiian VOR civil airway No. 2.
600.6403 Hawaiian VOR civil airway No. 3.
600.6404 Hawaiian VOR civil airway No. 4.
600.6405 Hawaiian VOR civil airway No. 5.
600.6406 Hawaiian VOR civil airway No. 6.
600.6407 Hawaiian VOR civil airway No. 7.
600.6408 Hawaiian VOR civil airway No. 8.
600.6409 Hawaiian VOR civil airway No. 9.
600.6410 Hawaiian VOR civil airway No. 10.

AUTHORITY: §§ 600.1 to 600.6410 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452.

SUBPART A—INTRODUCTION

§ 600.1 *Basis and purpose.* The basis of this part is found in sections 205 and 302 of the Civil Aeronautics Act of 1938, as amended. The purpose of this part is to designate civil airways in order to provide suitable and, insofar as possible, safe routes for aircraft operating in interstate, overseas, or foreign air commerce.

§ 600.2 *Explanation of terms.* As used in this part, "civil airway" shall mean a path through the navigable airspace of the United States suitable for interstate, overseas, or foreign air commerce. Civil airways are classified as follows:

(a) Colored civil airways: (1) Green civil airways, (2) Amber civil airways, (3) Red civil airways, (4) Blue civil airways.

(b) VOR civil airways: (1) Even numbered civil airways, (2) Odd numbered civil airways.

(c) As used in this part the term "mile" means "statute mile" unless otherwise specified in this part.

§ 600.3 *Scope.* (a) Except where otherwise provided in Subpart B and in Subpart C, each civil airway shall include the navigable airspace of the United States above all that area on the surface of the earth lying within 5 miles of the center of the center line prescribed for each such airway, but shall not include any of the airspace of an airspace reservation as provided for in section 4 of the Air Commerce Act of 1926, as amended.

(b) The center line of each civil airway shall be a line extended in the manner prescribed in this subpart through the center of the points or intersections specified for such airway.

(c) Except where otherwise provided in Subpart C, one or more alternate VOR civil airways shall be established between specified points along, and shall be a part of, each VOR civil airway. The center line of an alternate VOR civil airway shall depart from and return to the main VOR civil airway via the intersection of radials having an angle of 15 degrees (unless otherwise specified) separation from the main VOR civil airway.

§ 600.4 *Directions of airways.* Green and red colored civil airways and even numbered VOR civil airways normally are designated in a westerly to easterly direction between their initial and final terminals, even though portions of such airways may deviate from the westerly to easterly direction between any two or more intermediate points. Amber and blue colored civil airways and odd numbered VOR civil airways normally are designated in a southerly to northerly direction between their initial and final terminals, even though portions of such airways may deviate from the southerly to northerly direction between any two or more intermediate points.

§ 600.10 *Designation of civil airways.* The paths through the navigable airspace of the United States described in Subpart B and Subpart C are designated as civil airways.

SUBPART B—COLORED CIVIL AIRWAYS

GREEN CIVIL AIRWAYS

§ 600.11 *Green civil airway No. 1 (Patricia Bay, British Columbia to United States-Canadian Border via Millinocket, Maine).* That airspace over United States territory lying within 2 miles either side of the southwest course of the Vancouver, British Columbia, radio range between the intersection of the north course of the Patricia Bay, British Columbia, radio range and the southwest course of the Vancouver, British Columbia, radio range and the Vancouver, British Columbia, radio range station. That airspace over United States territory lying within 5 miles either side of direct lines from the Megantic, Quebec, Canada, radio range station via the Millinocket, Maine, radio range station to the Fredericton, New Brunswick, radio range station.

§ 600.12 *Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.).* From the King County Airport, Seattle, Wash., via the Seattle, Wash., radio range station; Ellensburg, Wash., radio range station; Ephrata, Wash., radio range station; Spokane, Wash., radio range station; Mullan Pass, Mont., radio range station; Missoula, Mont., radio range station; Drummond, Mont., radio range station; Helena, Mont., radio range station; the intersection of the southeast course of the Helena, Mont., radio range and the northwest course of the Bozeman, Mont., radio range; Bozeman, Mont., radio range station; the intersection of the southeast course of the Bozeman, Mont., radio range and the west course of the Livingston, Mont., radio range; Livingston, Mont., radio range station; Billings, Mont., radio range station; Miles City, Mont., radio range station; the intersection of the northeast course of the Miles City, Mont., radio range and the west course of the Dickinson, N. Dak., radio range; Dickinson, N. Dak., radio range station; Bismarck, N. Dak., radio range station; Jamestown, N. Dak., radio range station; the intersection of the east course of the Jamestown, N. Dak., radio range and the west course of the Fargo, N. Dak., radio range; Fargo, N. Dak., radio range station; Alexandria, Minn., radio range station; Minneapolis, Minn., radio range station; La Crosse, Wis., radio range station; the intersection of the southeast course of the La Crosse, Wis., radio range and the west course of the Madison, Wis., radio range; Madison, Wis., radio range station; Milwaukee, Wis., radio range station; Muskegon, Mich., radio range station; Grand Rapids, Mich., radio range station; Lansing, Mich., radio range station; the intersection of the east course of the Lansing, Mich., radio range and the north course of the Detroit, Mich., radio range; Detroit, Mich., radio range station to the intersection of the east course of the Detroit, Mich., radio range and the United States-Canadian Border. From the intersection of the east course of the Clear Creek, Ontario, Canada, radio range and the United States-Canadian Border via the intersection of the east course of the Clear Creek, Ontario, Canada, radio range and the southwest course of the Buffalo, N. Y., radio range; Buffalo, N. Y., radio range station; the intersection of the east course of the Buffalo, N. Y., radio range and the southwest course of the Rochester, N. Y., radio range; Rochester, N. Y., radio range station; the intersection of the southeast course of the Rochester, N. Y., radio range and the west course of the Syracuse, N. Y., radio range; Syracuse, N. Y., radio range station; Albany, N. Y., radio range station; Westfield, Mass., radio range station; the intersection of the southeast course of the Westfield, Mass., radio range and the southwest course of the Boston, Mass., radio range to the Boston, Mass., radio range station.

§ 600.13 *Green civil airway No. 3 (San Francisco, Calif., to New York, N. Y.).* From the intersection of the northwest course of the San Francisco, Calif., radio range and the southwest course of the Travis AFB, Fairfield, Calif., radio range via the San Francisco, Calif., radio range station; Oakland, Calif., radio range station; Sacramento, Calif., radio range station; the intersection of the northeast course of the Sacramento, Calif., radio range and the southwest course of the Reno, Nev., radio range; Reno, Nev., radio range station; Humboldt, Nev., radio range station; Battle Mountain, Nev., radio range station; Elko, Nev., radio range station; the intersection of the northeast course of the Elko, Nev., radio range and the west course of the Lucin, Utah, radio range; Lucin, Utah, radio range station; Ogden, Utah, radio range station; Fort Bridger, Wyo., radio range station; Rock Springs, Wyo., radio range station; Sinclair, Wyo., radio range station; the intersection of the east course of the Sinclair, Wyo., radio range and the northwest course of the Laramie, Wyo., radio range; the intersection of the northwest course of the Laramie, Wyo., radio range and the northwest course of the Cheyenne, Wyo., radio range; Cheyenne, Wyo., radio range station; North Platte, Nebr., radio range station; Grand Island, Nebr., radio range station; Omaha, Nebr., radio range station; Des Moines, Iowa, radio range station; Moline, Ill., radio range station; the intersection of the southeast course of the Rockford, Ill., radio range and the west course of the Chicago, Ill., radio range; the intersection of the southeast course of the Rockford, Ill., radio range and the west course of the Goshen, Ind., radio range; Goshen, Ind., radio range station; Toledo, Ohio, radio range station; Cleveland, Ohio, radio range station; Youngstown, Ohio, radio range station; the intersection of the east course of the Youngstown, Ohio, radio range and the west course of the Philipsburg, Pa., radio range; Philips-

burg, Pa., radio range station; Allentown, Pa., radio range station; the intersection of the east course of the Allentown, Pa., radio range and the southwest course of the New York, N. Y. (LaGuardia), radio range to the New York, N. Y. (LaGuardia), radio range station.

§ 600.14 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.).* From the Camarillo, Calif., radio range station via the Newhall, Calif., radio range station; Palmdale, Calif., radio range station; Daggett, Calif., radio range station; Needles, Calif., radio range station; Prescott, Ariz., radio range station; Winslow, Ariz., radio range station; Zuni, N. Mex., radio range station to Albuquerque, N. Mex., radio range station excluding the portion which overlaps Albuquerque restricted area (R–313); Otto, N. Mex., radio range station; Tucumcari, N. Mex., radio range station; Amarillo, Tex., radio range station; the intersection of the east course of the Amarillo, Tex., radio range and the southwest course of the Gage, Okla., radio range; Gage, Okla., radio range station; Wichita, Kans., radio range station; Kansas City, Mo., radio range station; the intersection of the northeast course of the Kansas City, Mo., radio range and the west course of the Columbia, Mo., radio range; Columbia, Mo., radio range station; St. Louis, Mo., radio range station; Effingham, Ill., radio range station; Terre Haute, Ind., radio range station; Indianapolis, Ind., radio range station; the intersection of the east course of the Indianapolis, Ind., radio range and the west course of the Columbus, Ohio, radio range; Columbus, Ohio, radio range station; Wheeling, W. Va., nondirectional radio beacon; Pittsburgh, Pa., radio range station; New Alexandria, Pa., nondirectional radio beacon; Altoona, Pa., radio range station; Harrisburg, Pa., radio range station; the intersection of the east course of the Harrisburg, Pa., radio range and the southwest course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station to the Municipal Airport, Philadelphia, Pa.

§ 600.15 *Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.).* From the Los Angeles, Calif., radio range station via the Riverside, Calif., radio range station; the intersection of the east course of the Riverside, Calif., radio range and the west course of the Blythe, Calif., radio range; Blythe, Calif., radio range station; Phoenix, Ariz., radio range station; the intersection of the south course of the Phoenix, Ariz., radio range and the northwest course of the Tucson, Ariz., radio range; Tucson, Ariz., radio range station; Cochise, Ariz., radio range station; Columbus, N. Mex., radio range station; El Paso, Tex., radio range station, excluding the portion which lies outside the continental United States; Salt Flat, Tex., radio range station; Wink, Tex., radio range station; Big Spring, Tex., radio range station; Abilene, Tex., radio range station; Fort Worth, Tex., radio range station; Sulphur Springs, Tex., nondirectional radio beacon; Texarkana, Ark., radio range station; Pine Bluff, Ark., nondirectional radio beacon; Memphis, Tenn., radio range station; Jackson, Tenn., radio range station; Nashville, Tenn., radio range station; the intersection of the northeast course of the Nashville, Tenn., radio range and the northwest course of the Smithville, Tenn., radio range; Smithville, Tenn., radio range station; the intersection of the southeast course of the Smithville, Tenn., radio range and the west course of the Knoxville, Tenn., radio range; Knoxville, Tenn., radio range station; Tri-City, Tenn., radio range station; Pulaski, Va., radio range station; Roanoke, Va., radio range station; Gordonsville, Va., radio range station; the intersection of the northeast course of the Gordonsville, Va., radio range and the south course of the Washington, D. C., radio range; Andrews, Md., radio range station; Millville, N. J., radio range station; the intersection of the northeast course of the Millville, N. J., radio range and the southwest course of the Mitchel AFB, N. Y., radio range; the Mitchel AFB, N. Y., radio range station; the intersection of the northeast course of the Mitchel AFB, N. Y., radio range and the southwest course of the Boston, Mass., radio range to the intersection of the southwest course of the Boston, Mass., radio range and the southeast course of the Westfield, Mass., radio range

§ 600.16 *Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.).* From the Laredo, Tex., radio range station via the Alice, Tex., radio range station; Corpus Christi, Tex., radio range station; Palacios, Tex., radio range station; the intersection of the southeast course of the Palacios, Tex., radio range and the southwest course of the Galveston, Tex., radio range; Galveston, Tex., radio range station; Lake Charles, La., radio range station; Lafayette, La., nondirectional radio beacon; New Orleans, La., radio range station via the intersection of the northeast course of the New Orleans, La., radio range and a line bearing 224° True from the Bay Minette, Ala., nondirectional radio beacon; Bay Minette, Ala., nondirectional radio beacon; Maxwell, AFB, Ala., radio range station; the intersection of the east course of the Maxwell AFB, Ala., radio range and the southwest course of the Atlanta, Ga., radio range; Atlanta Ga., radio range station; Spartanburg, S. C., radio range station; Greensboro, N. C., radio range station; Blackstone, Va., radio range station; Richmond, Va., radio range station to the Norfolk Municipal Airport, Norfolk, Va.

§ 600.17 *Green civil airway No. 7 (Nome, Alaska, to Fairbanks, Alaska).* From the Nome, Alaska, radio range station via the Moses Point, Alaska, radio range station; the intersection of the east course of the Moses Point, Alaska, radio range and the north course of the Unalakleet, Alaska, radio range; Galena, Alaska, radio range station; the intersection of the east course of the Galena, Alaska, radio range and the west course of the Fairbanks, Alaska, radio range to the Fairbanks, Alaska, radio range station.

§ 600.18 *Green civil airway No. 8 (Cold Bay, Alaska, to Northway, Alaska).* From the Cold Bay, Alaska, radio range station via the King Salmon, Alaska, radio range station; the intersection of the northeast course of the King Salmon, Alaska, radio range and the west course of the Homer, Alaska, radio range; the intersection of the west course of the Homer, Alaska, radio range and the southwest course of the Kenai, Alaska, radio range; Kenai, Alaska, radio range station; the intersection of the northeast course of the Kenai, Alaska, radio range and the west course of the Anchorage (Merrill), Alaska, radio range to the Anchorage (Merrill), Alaska, radio range station. From the intersection of the northeast course of the Anchorage, Alaska, radio range and the southeast course of the Skwentna, Alaska, radio range via the Gulkana, Alaska, radio range station; the intersection of the northeast course of the Gulkana, Alaska, radio range and the southwest course of the Northway, Alaska, radio range to the Northway, Alaska, radio range station.

§ 600.19 *Green civil airway No. 9 (Hawaiian Islands).* From the intersection of the south course of the Port Allen, T. H., radio range and the southwest course of the Honolulu, T. H., radio range via the Honolulu, T. H., radio range station to the intersection of the northeast course of the Honolulu, T. H., radio range and the north course of the Hilo, T. H., radio range excluding the portion below 6,000 feet which overlaps the Kaneohe Naval Airspace Reservation.

§ 600.20 *Green civil airway No. 10 (United States-Canadian Border to Denver, Colo.).* That airspace over United States territory from the Vancouver, British Columbia, Canada, radio range station via the Bellingham, Wash., radio range station; Everett, Wash., radio range station; Seattle, Wash., radio range station; Ellensburg, Wash., radio range station; the intersection of the south course of the Ellensburg, Wash., radio range and the northwest course of the Yakima, Wash., radio range; Yakima, Wash., radio range station; Pendleton, Oreg., radio range station; Baker, Oreg., radio range station; Boise, Idaho, radio range station; the intersection of the southeast course of the Boise, Idaho, radio range and the northwest course of the Burley, Idaho, radio range; Burley, Idaho, radio range station; Malad City, Idaho, radio range station; the intersection of the southeast course of the Malad City, Idaho, radio range and the north course of the Fort Bridger, Wyo., radio range; Rock Springs, Wyo., radio range station; Sinclair, Wyo., radio range station; the intersection of the east course of the Sinclair, Wyo., radio range and the northwest course of the Laramie, Wyo., radio range; Laramie, Wyo., radio range station; the intersection of the southeast course of the Laramie, Wyo., radio range and the north course of the Denver, Colo., radio range to the Denver, Colo., radio range station.

AMBER CIVIL AIRWAYS

§ 600.101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska).* That airspace over United States territory from the intersection of

the southeast course of the San Diego, Calif., radio range and the United States-Mexican Border via the San Diego, Calif., radio range station; the intersection of the northwest course of the San Diego, Calif., radio range and the southeast course of the Long Beach, Calif., Radio range; Long Beach, Calif., radio range station; Los Angeles, Calif., radio range station; Newhall, Calif., radio range station; Bakersfield, Calif., radio range station; Fresno, Calif., radio range station; Sacramento, Calif., radio range station; Williams, Calif., radio range station; Red Bluff, Calif., radio range station; Fort Jones, Calif., radio range station; Medford, Oreg., radio range station; Eugene, Oreg., radio range station; Portland, Oreg., radio range station; Toledo, Wash., radio range station excluding the portion which overlaps the Fort Lewis, Wash., restricted area (R–244); Seattle, Wash., radio range station; the intersection of the northwest course of the Seattle, Wash., radio range and the south course of the Patricia Bay, British Columbia, radio range; Patricia Bay, British Columbia, Canada, radio range station to the intersection of the north course of the Patricia Bay, British Columbia, radio range and the southeast course of the Comox, British Columbia, Canada, radio range, excluding the airspace which overlaps Albert Head restricted area (R–407). That airspace over United States territory from the Sandspit, British Columbia, radio range station via the intersection of the northwest course of the Sandspit, British Columbia, radio range and the southwest course of the Annette Island, Alaska, radio range; Sitka (Biorka Island), Alaska, radio range station; Yakutat, Alaska, radio range station; the intersection of the northwest course of the Yakutat, Alaska, radio range and the southeast course of the Hinchinbrook, Alaska, radio range; Hinchinbrook, Alaska, radio range station; the intersection of the northwest course of the Hinchinbrook, Alaska, radio range and the southeast course of the Anchorage, Alaska, radio range; Anchorage, Alaska, radio range station; Skwentna, Alaska, radio range station; Puntilla Lake, Alaska, nondirectional radio beacon; Farewell, Alaska, radio range station; McGrath, Alaska, radio range station; Unalakleet, Alaska, radio range station to the Nome, Alaska, radio range station.

§ 600.102 *Amber civil airway No. 2 (Long Beach, Calif., to Point Barrow, Alaska).* From the intersection of the southwest course of the Long Beach, Calif., radio range and the south course of the Los Angeles, Calif., radio range via the Long Beach, Calif., radio range station; the intersection of the northeast course of the Long Beach, Calif., radio range and the east course of the Los Angeles, Calif., radio range; Daggett, Calif., radio range station; Good Springs, Nev., nondirectional radio beacon; Las Vegas, Nev., radio range station; the interection of the northeast course of the Las Vegas, Nev., radio range and the southwest course of the Enterprise, Utah, radio range; Enterprise, Utah, radio range station; thence via Latitude 38°24'30", Longitude 113°01'40"; Delta, Utah, radio range station; the intersection of the northeast course of the Delta, Utah, radio range and the south course of the Salt Lake City, Utah, radio range; Salt Lake City, Utah, radio range station; Ogden, Utah, radio range station; Malad City, Idaho, radio range station; Pocatello, Idaho, radio range station; Idaho Falls, Idaho, radio range station; DuBois, Idaho, radio range station; Dillon, Mont., radio range station; Whitehall, Mont., radio range station; Helena, Mont., radio range station; the intersection of the north course of the Helena, Mont., radio range and the southwest course of the Great Falls, Mont., radio range; Great Falls, Mont., radio range station; Cut Bank, Mont., radio range station to the intersection of the northwest course of the Cut Bank, Mont., radio range and the United States-Canadian Border. From the intersection of the northwest course of the Snag, Yukon Territory, radio range and the United States-Canadian Border via the Northway, Alaska, radio range station; Big Delta, Alaska, radio range station; the intersection of the northwest course of the Big Delta, Alaska, radio range and the east course of the Fairbanks, Alaska, radio range; Fairbanks, Alaska, radio range station; Bettles, Alaska, radio range station; Umiat, Alaska, nondirectional radio beacon to the Point Barrow, Alaska, nondirectional radio beacon.

§ 600.103 *Amber civil airway No. 3 (El Paso, Tex., to Great Falls, Mont.).* From the intersection of the west course of the El Paso, Tex., radio range and the south course of the Truth or Consequences, N. Mex., radio range via the Truth or Consequences, N. Mex., radio range station; to the Albuquerque, N. Mex., radio range station. From the intersection of the east course of the Otto, N. Mex., radio range and the southwest course of the Las Vegas, N. Mex., radio range, via the Las Vegas, N. Mex., radio range station; the intersection of the northeast course of the Las Vegas, N. Mex., radio range and the south course of the Trinindad, Colo., radio range; Trinindad, Colo., radio range station; Pueblo, Colo., radio range station; the intersection of the north course of the Pueblo, Colo., radio range and the south course of the Denver, Colo., radio range; Denver, Colo., radio range station; Cheyenne, Wyo., radio range station; the intersection of the north course of the Cheyenne, Wyo., radio range and the east course of the Casper, Wyo., radio range; Casper, Wyo., radio range station; the intersection of the north course of the Casper, Wyo., radio range and the southeast course of the Sheridan, Wyo., radio range; Sheridan, Wyo., radio range station; Billings, Mont., radio range station; the intersection of the northwest course of the Billings, Mont., radio range and the southeast course of the Lewistown, Mont., radio range and the Lewistown, Mont., radio range station; to the Great Falls, Mont., radio range station.

§ 600.104 *Amber civil airway No. 4 (Brownsville, Tex., to Minot, N. Dak.).* From the Municipal Airport, Brownsville, Tex., via the Brownsville, Tex., radio range station; the intersection of the northwest course of the Brownsville, Tex., radio range and the south course of the Alice, Tex., radio range; Alice, Tex., radio range station; the intersection of the north course of the Alice, Tex., radio range and the south course of the San Antonio, Tex., radio range; San Antonio, Tex., radio range station; the intersection of the north course of the San Antonio, Tex., radio range and the southwest course of the Austin, Tex., radio range; Austin, Tex., radio range station; Waco, Tex., radio range station; the intersection of the northwest course of the Waco, Tex., radio range and the south course of the Fort Worth, Tex., radio range; Fort Worth, Tex., radio range station; Oklahoma City, Okla., radio range station; the intersection of the southeast course of the Oklahoma City, Okla., radio range and the southwest course of the Tulsa, Okla., radio range; Tulsa, Okla., radio range station; the intersection of the northeast course of the Tulsa, Okla., radio range and the south course of the Chanute, Kans., radio range; Chanute, Kans., radio range station to the intersection of the northeast course of the Chanute, Kans., radio range and the southwest course of the Kansas City, Mo., radio range. From the Kansas City, Mo., radio range station via the Omaha, Nebr., radio range station; Sioux City, Iowa, radio range station; Sioux Falls, S. Dak., radio range station; Huron, S. Dak., radio range station; Aberdeen, S. Dak., radio range station; Bismarck, N. Dak., radio range station; the intersection of the north course of the Bismarck, N. Dak., radio range and the southeast course of the Minot, N. Dak., radio range to the Minot, N. Dak., radio range station.

§ 600.105 *Amber civil airway No. 5 (Grand Isle, La., to Milwaukee, Wis.).* From the Grand Isle, La., nondirectional radio marker beacon via Latitude 29°14'00", Longitude 90°09'00"; New Orleans, La., radio range station; Jackson, Miss., radio range station; Greenwood, Miss., radio range station; Memphis, Tenn., radio range station; Advance, Mo., radio range station; St. Louis, Mo., radio range station; the intersection of the north course of the St. Louis, Mo., radio range and the southwest course of the Springfield, Ill., radio range; Springfield, Ill., radio range station; Joliet, Ill., radio range station; the intersection of the northeast course of the Joliet, Ill., radio range and the south course of the Milwaukee, Wis., radio range to the Milwaukee, Wis., radio range station.

§ 600.106 *Amber civil airway No. 6 (Jacksonville, Fla., to United States-Canadian Border).* From the Jacksonville, Fla., radio range station via the Alma, Ga., radio range station; Macon, Ga., radio range station; Atlanta, Ga., radio range station; Chattanooga, Tenn., radio range station; Nashville, Tenn., radio range station; the intersection of the northwest course of the Nashville, Tenn., radio range and the southwest course of the Bowling Green, Ky., radio range; Bowling Green, Ky., radio range station; the intersection of the northeast course of the Bowling Green, Ky., radio range and the south course of the Louisville, Ky., radio range; Louisville,

Ky., radio range station; Cincinnati, Ohio, radio range station to the intersection of the northeast course of the Cincinnati, Ohio, radio range and the west course of the Columbus, Ohio, radio range. From the Columbus, Ohio, radio range station to the intersection of the northeast course of the Columbus, Ohio, radio range and the west course of the Cleveland, Ohio, radio range. From the intersection of the east course of the Cleveland, Ohio, radio range and the northeast course of the Akron, Ohio, radio range via the Perry, Ohio, nondirectional radio beacon to the intersection of the southwest course of the Clear Creek, Ontario, Canada, radio range and the United States-Canadian Border.

§ 600.107 *Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border).* From the Key West, Fla., radio range station via the intersection of the northeast course of the Key West, Fla., radio range and the southwest course of the Homestead, Fla., radio range; Homestead, Fla., radio range station; Miami, Fla., radio range station; the intersection of the east course of the Miami, Fla., radio range and the south course of the West Palm Beach, Fla., radio range; West Palm Beach, Fla., radio range station; Melbourne, Fla., radio range station; Daytona Beach, Fla., radio range station; Jacksonville, Fla., radio range station; Savannah, Ga., radio range station; Charleston, S. C., radio range station; the intersection of the northeast course of the Charleston, S. C., radio range and the southeast course of the Florence, S. C., radio range; Florence, S. C., radio range station; the intersection of the northeast course of the Florence, S. C., radio range and the south course of the Raleigh, N. C., radio range; Raleigh, N. C., radio range station; Richmond, Va., radio range station; the intersection of the north course of the Richmond, Va., radio range and the southwest course of the Washington, D. C., radio range; Washington, D. C., radio range station; the intersection of the northeast course of the Washington, D. C., radio range and the west course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station; Newark, N. J., radio range station; the intersection of the northeast course of the Newark, N. J., radio range and the northeast course of the New York, N. Y. (LaGuardia), radio range; Hartford, Conn., radio range station; the intersection of a direct line between the Hartford, Conn., radio range and the Bedford, Mass., nondirectional radio beacon (located at lat. 42°28'47", long. 71°23'21") with the west course of the Boston, Mass., radio range; Boston, Mass., radio range station; the intersection of the northeast course of the Boston, Mass., radio range and the southwest course of the Portland, Maine, radio range; Portland, Maine, radio range station; Augusta, Maine, radio range station; Millinocket, Maine, radio range station; Presque Isle, Maine, radio range station thence via a direct line between the Presque Isle, Maine, radio range station and the Mont Joli, Quebec, Canada, radio range station to the U. S.-Canadian Border.

§ 600.108 *Amber civil airway No. 8 (Los Angeles, Calif., to Ellensburg, Wash.).* From the Los Angeles, Calif., radio range station via the intersection of the west course of the Los Angeles, Calif., radio range and the southeast course of the Camarillo, Calif., radio range; Camarillo, Calif., radio range station; Santa Barbara, Calif., radio range station to the intersection of the northwest course of the Santa Barbara, Calif., radio range and the southwest course of the Fresno, Calif., radio range. From the intersection of the northwest course of the San Francisco, Calif., radio range and the southwest course of the Travis AFB, Calif., radio range via the Travis AFB, Calif., radio range station to the intersection of the northeast course of the Travis AFB, Fairfield, Calif., radio range and the northwest course of the Sacramento, Calif., radio range. From the Red Bluff, Calif., radio range station via the Whitmore, Calif., radio range station; the intersection of the northeast course of the Whitmore, Calif., radio range and the south course of the Klamath Falls, Oreg., radio range; Klamath Falls, Oreg., radio range station; the intersection of the north course of the Klamath Falls, Oreg., radio range and the southwest course of the Redmond, Oreg., radio range; Redmond, Oreg., radio range station; The Dalles, Oreg., radio range station; Yakima, Wash., radio range station; the intersection of the northwest course of the Yakima, Wash., radio range and the south course of the Ellensburg, Wash., radio range to the Ellensburg, Wash., radio range station.

§ 600.109 *Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.).* From the Charleston, S. C., radio range station via the Myrtle Beach, S. C., nondirectional radio beacon; Wilmington, N. C., nondirectional radio beacon; New Bern, N. C., nondirectional radio beacon; Williamston, N. C., VHF VAR radio range station, excluding the portions between 11,000 feet and 16,000 feet and between 23,000 feet and 45,000 feet above mean sea level, during the hours of darkness, which lie within the Cherry Point, N. C., night Restricted Area (R–125); the intersection of the north course of the Williamston, N. C., VHF VAR radio range and the southwest course of the Norfolk, Va., radio range to the Norfolk, Va., radio range station.

§ 600.110 *Amber civil airway No. 10 (Hawaiian Islands).* From the intersection of the west course of the Hilo, T. H., radio range and the south course of the Honolulu, T. H., radio range to the Honolulu, T. H., radio range station excluding the portion above 10,000 feet.

§ 600.111 *Amber civil airway No. 11 (Hawaiian Islands).* From the intersection of the south course of the Maui, T. H., radio range and the west course of the Hilo, T. H., radio range via the Maui, T. H., radio range station to the intersection of the north course of the Maui, T. H., radio range and the northeast course of the Honolulu, T. H., radio range.

§ 600.112 *Amber civil airway No. 12 (Hawaiian Islands).* From the intersection of the south course of the Hilo, T. H., radio range and point 37 miles south of the Hilo, T. H., radio range station via the Hilo, T. H., radio range station to the intersection of the north course of the Hilo, T. H., radio range and the northeast course of the Honolulu, T. H., radio range.

§ 600.113 *Amber civil airway No. 13 (Washington, D. C. to New York, N. Y.).* From the Riverdale, Md., nondirectional radio beacon via the intersection of a line bearing 63° True from the Riverdale nondirectional radio beacon and the south course of the Baltimore, Md., radio range; Baltimore, Md., radio range station; the intersection of the north course of the Baltimore, Md., radio range and the west course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station to the Newark, N. J., radio range station.

§ 600.114 *Amber civil airway No. 14 (Washington, D. C., to New York, N. Y.).* From the Riverdale, Md., nondirectional radio beacon; the intersection of the south course of the Harrisburg, Pa., radio range and the west course of the Baltimore, Md., radio range; the intersection of the south course of the Harrisburg, Pa., radio range and the northeast course of the Arcola, Va., radio range; Lancaster, Pa., nondirectional radio beacon; Willow Grove, Pa. (Navy), radio range station; the intersection of the northeast course of the Willow Grove, Pa. (Navy), radio range and the east course of the Allentown, Pa., radio range to the Chatham, N. J., nondirectional radio beacon.

§ 600.115 *Amber civil airway No. 15 (Washington, D. C., to New York, N. Y.).* From the Riverdale, Md., nondirectional radio beacon via the intersection of a line bearing 63° True from the Riverdale nondirectional radio beacon and the south course of the Baltimore, Md., radio range; Baltimore, Md., radio range station; the intersection of the north course of the Baltimore, Md., radio range and the west course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station; the intersection of the northeast course of the Philadelphia, Pa., radio range and the southwest course of the LaGuardia, N. Y., radio range; the intersection of the northeast course of the Philadelphia, Pa., radio range and the southwest course of the Idlewild, N. Y., radio range to the Idlewild, N. Y., radio range station.

§ 600.119 *Amber civil airway No. 19 (Washington, D. C. to New York, N. Y.)* From the Riverdale, Md., nondirectional radio beacon via the intersection of a line bearing 63° True from the Riverdale nondirectional beacon and the south course of the Baltimore, Md., radio range; Baltimore, Md., radio range station; the intersection of the north course of the Baltimore, Md., radio range and the west course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station; the intersection of the northeast course of the Philadelphia, Pa., radio range and the southwest course of the LaGuardia, N. Y., radio range; the intersection of the east course of the Allentown, Pa., radio range and the southwest course of the LaGuardia, N. Y., radio range to the LaGuardia, N. Y., radio range station.

RED CIVIL AIRWAYS

§ 600.202 *Red civil airway No. 2 (Sheridan, Wyo., to Rapid City, S. Dak.).* From the intersection of the southeast course of the Sheridan, Wyo., radio range and the north course of the Casper, Wyo., radio range via the intersection of the southeast course of the Sheridan, Wyo., radio range and the west course of the Rapid City, S. Dak., radio range to the Rapid City, S. Dak., radio range station.

§ 600.203 *Red civil airway No. 3 (Philipsburg, Pa., to Hartford, Conn.).* From the Philipsburg, Pa., radio range station to the Harrisburg, Pa., radio range station. From the Philadelphia, Pa., radio range station via the intersection of the northeast course of the Philadelphia, Pa., radio range and the southwest course of the New York, N. Y. (LaGuardia) radio range to the intersection of the east course of the Allentown, Pa., radio range and the southwest course of the New York, N. Y. (LaGuardia), radio range. From the New York, N. Y. (LaGuardia), radio range station to the intersection of the northeast course of the New York, N. Y. (LaGuardia) radio range and the northeast course of the Newark, N. J., radio range.

§ 600.204 *Red civil airway No. 4 (Las Vegas, N. Mex., to Tucumcari, N. Mex.).* From the Las Vegas, N. Mex., radio range station to the intersection of the southeast course of the Las Vegas, N. Mex., radio range and the west course of the Tucumcari, N. Mex., radio range.

§ 600.205 *Red civil airway No. 5 (Sioux Falls, S. Dak., to St. Paul, Minn.).* From the Sioux Falls, S. Dak., radio range station, via the Minneapolis, Minn., radio range station to the St. Paul Airport, St. Paul, Minn.

§ 600.206 *Red civil airway No. 6 (Denver, Colo., to Omaha, Nebr.).* From the Denver, Colo., radio range station via the Akron, Colo., radio range station; North Platte, Nebr., radio range station; Grand Island, Nebr., radio range station; Lincoln, Nebr., radio range station to Omaha, Nebr., radio range station.

§ 600.207 *Red civil airway No. 7 (Atlanta, Ga., to Greensboro, N. C.).* From the intersection of the south course of the Greenville, S. C., radio range and the southwest course of the Spartanburg, S. C., radio range, via the Greenville, S. C., radio range station to the intersection of the east course of the Greenville, S. C., radio range and the southwest course of the Spartanburg, S. C., radio range. From the intersection of the northeast course of the Spartanburg, S. C., radio range and the west course of the Charlotte, N. C., radio range, via the Charlotte, N. C., radio range station to the intersection of the north course of the Charlotte, N. C., radio range and the southwest course of the Greensboro, N. C., radio range. From the intersection of the southwest course of the Greensboro, N. C., radio range and the southeast course of the Winston-Salem, N. C., radio range via the Winston-Salem, N. C., radio range station and the Winston-Salem, N. C., Municipal Airport to the Greensboro, N. C., radio range station.

§ 600.208 *Red civil airway No. 8 (Dayton, Ohio, to Newark, N. J.).* From the intersection of the west course of the Wright-Patterson AFB radio range, Fairfield, Ohio, and the northwest course of the Cincinnati, Ohio, radio range via the Wright-Patterson AFB radio range station; the intersection of the east course of the Wright-Patterson AFB radio range and the south course of the Columbus, Ohio, radio range; the Zanesville, Ohio, non-directional radio beacon; the Bergholz, Ohio, non-directional radio beacon; the Butler, Pa., non-directional radio beacon; the Brookville, Pa., non-directional radio beacon; the intersection of the southwest course of the Elmira, N. Y., radio range and the west course of the Williamsport, Pa., radio range; Williamsport, Pa., radio range station; Crystal Lake, Pa., non-directional radio beacon to the Newark, N. J., radio range station.

§ 600.209 *Red civil airway No. 9 (San Diego, Calif., to Casa Grande, Ariz.).* From the San Diego, Calif., radio range station via the intersection of the east course of the San Diego, Calif., radio range and the west course of the El Centro, Calif., radio range; El Centro, Calif., radio range station; Yuma, Ariz., radio range station, excluding the portion which lies outside the continental United States; the intersection of the east course of the Yuma, Ariz., radio range and the west course of the Gila Bend, Ariz., radio range; Gila Bend, Ariz., radio range station to the intersection of the east course of the Gila Bend, Ariz., radio range and the northwest course of the Tucson, Ariz., radio range.

§ 600.210 *Red civil airway No. 10 (Amarillo, Tex., to Charleston, S. C.).* From the Amarillo, Tex., radio range station via the Wichita Falls, Tex., radio range station; the intersection of the southeast course of the Wichita Falls, Tex., radio range and the north course of the Fort Worth, Tex., radio range; Dallas, Tex., radio range station; Shreveport, La., radio range station; Monroe, La., radio range station; Jackson, Miss., radio range station; Meridian, Miss., radio range station; Birmingham, Ala., radio range station; the intersection of the east course of the Birmingham, Ala., radio range and the west course of the Campbellton, Ga., radio range; Campbellton, Ga., radio range station; Atlanta, Ga., radio range station, excluding the portion below 5,500 feet which overlaps the Camp Gordon, Ga., restricted area, to the Augusta, Ga., radio range station. From the intersection of the northeast course of the Augusta, Ga., radio range and the northwest course of the Charleston, S. C., radio range to the Charleston, S. C., radio range station.

§ 600.211 *Red civil airway No. 11 (Enid, Okla., to Boston, Mass.).* From the intersection of the northwest course of the Enid, Okla. (Vance AFB), radio range and the northeast course of the Gage, Okla., radio range via the Enid, Okla. (Vance AFB), radio range station to the intersection of the southeast course of the Enid, Okla. (Vance AFB), radio range and the north course of the Oklahoma City, Okla., radio range. From the intersection of the northeast course of the Tulsa, Okla., radio range and the south course of the Chanute, Kans., radio range via the Springfield, Mo., radio range station; Vichy, Mo., nondirectional radio beacon to the intersection of a line bearing 52° True from the Vichy nondirectional radio beacon and the west course of the St. Louis, Mo., radio range. From the intersection of the south course of the Indianapolis, Ind., radio range and the west course of the Louisville, Ky., radio range via the Louisville, Ky., radio range station to the intersection of the east course of the Louisville, Ky., radio range and a line bearing 358° True from the Lexington, Ky., nondirectional radio beacon. From the Albany, N. Y., radio range station to the intersection of the northeast course of the Hartford, Conn., radio range and the west course of the Boston, Mass., radio range. From the Boston, Mass., radio range station to the intersection of the east course of the Boston, Mass., radio range and the northeast course of the Squantum, Mass. (Navy), radio range.

§ 600.212 *Red civil airway No. 12 (Joliet, Ill., to Erie, Pa.).* From the Joliet, Ill., radio range station via the intersection of the east course of the Joliet, Ill., radio range and the west course of the South Bend, Ind., radio range; South Bend, Ind., radio range station to the Detroit, Mich., radio range station. That airspace over United States territory from the Windsor, Ont., Canada, radio range station to the Erie, Pa., radio range station.

§ 600.213 *Red civil airway No. 13 (Wheeling, W. Va., to Boston, Mass.).* From the Wheeling, W. Va., nondirectional radio beacon via the Clinton, Pa., nondirectional radio beacon; Butler, Pa., nondirectional radio beacon; Westover, Pa., nondirectional radio beacon to the Philipsburg, Pa., radio range station. From the Wilkes-Barre, Pa., radio range station via the Stewart AFB, N. Y., nondirectional radio beacon; Poughkeepsie, N. Y., radio range station; Hartford, Conn., radio range station; Providence, R. I., radio range station via the intersection of the north course of the Providence, R. I., radio range and the southwest course of the Boston, Mass., radio range to the intersection of a direct line between the intersection of the north course of the Providence radio range and the southwest course of the Boston radio range and the Bedford, Mass., nondirectional radio beacon (located at lat. 42°28'47", long. 71°23'21") with the west course of the Boston, Mass., radio range.

§ 600.214 *Red civil airway No. 14 (Lone Rock, Wis., to Louisville, Ky.).* From the intersection of the southeast

course of the La Crosse, Wis., radio range and the west course of the Madison, Wis., radio range via the Rockford, Ill., radio range station; the intersection of the southeast course of the Rockford, Ill., radio range and the west course of the Chicago, Ill., radio range; Chicago, Ill., radio range station; Indianapolis, Ind., radio range station to the intersection of the south course of the Indianapolis, Ind., radio range and the west course of the Louisville, Ky., radio range.

§ 600.215 *Red civil airway No. 15 (Reno, Nev., to Phoenix, Ariz.).* From the intersection of the northeast course of the Reno, Nev., radio range and the northwest course of the Fallon, Nev., radio range via the Fallon, Nev., radio range station; the intersection of the southeast course of the Fallon, Nev., radio range with a point at Lat. 38°39'50", Long. 117°51'00"; the Tonopah, Nev., radio range station; the intersection of the south course of the Tonopah, Nev., radio range with a point at Lat. 37°25'30", Long. 117°09'30"; thence via Lat. 36°17'45", Long. 116°25'30" to the Goodspring, Nev., non-directional radio beacon. From the Las Vegas, Nev., radio range station to the intersection of the southeast course of the Las Vegas, Nev., radio range and the west course of the Prescott, Ariz., radio range. From the Prescott, Ariz., radio range station via the intersection of the southeast course of the Prescott, Ariz., radio range and the northwest course of the Phoenix, Ariz., radio range to the Phoenix, Ariz., radio range station.

§ 600.216 *Red civil airway No. 16 (Tallahassee, Fla., to Florence, S. C.).* From the Tallahassee, Fla., radio range station via the Albany, Ga., radio range station; the intersection of the north course of the Albany, Ga., radio range and the southwest course of the Macon, Ga., radio range to the Macon, Ga., radio range station excluding the portion above 19,000 feet which lies within the Tyndall AFB restricted area (R–336), between sunset and sunrise. From the Augusta, Ga., radio range station via the Columbia, S. C., radio range station; the intersection of the east course of the Columbia, S. C., radio range and the southwest course of the Florence, S. C., radio range to the Florence, S. C., radio range station.

§ 600.217 *Red civil airway No. 17 (St. Louis, Mo., to Baltimore, Md.).* From the intersection of the southwest course of the Belleville, Ill., Scott AFB radio range with a point on the southwest course of the Scott AFB radio range 48 miles southwest of the Belleville, Ill., Scott AFB radio range station via the Belleville, Ill., Scott AFB radio range station to the intersection of the northeast course of the Scott AFB radio range and the west course of the Effingham, Ill., radio range. From the Chanute AFB, Rantoul, Ill., radio range station to the intersection of the northeast course of the Chanute AFB radio range and the southeast course of the Chicago, Ill., radio range. From the Fort Wayne, Ind., radio range station via the Findlay, Ohio, non-directional radio beacon; the Mansfield, Ohio, non-directional radio beacon to the Pittsburgh, Pa., radio range station. From the McKeesport, Pa., non-directional radio beacon to the Johnstown, Pa., non-directional radio beacon. From the Martinsburg, W. Va., radio range station via the intersection of the northeast course of the Arcola, Va., radio range and the west course of the Baltimore, Md., radio range; Baltimore, Md., radio range station to the intersection of the east course of the Baltimore, Md., radio range and the southwest course of the Millville, N. J., radio range, except that the portion of the civil airway which overlaps the Aberdeen restricted area (R–24) (published in § 608.28 of this chapter) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control.

§ 600.218 *Red civil airway No. 18 (Indianapolis, Ind., to Washington, D. C.).* From the intersection of the east course of the Indianapolis, Ind., radio range and the northwest course of the Cincinnati, Ohio, radio range via the Cincinnati, Ohio, radio range station; Huntington, W. Va., nondirectional radio beacon; Charleston, W. Va., radio range station; Elkins, W. Va., radio range station; Front Royal, Va., radio range station to the intersection of the east course of the Front Royal, Va., radio range and the northwest course of the Washington, D. C., radio range.

§600.219 *Red civil airway No. 19 (Traverse City, Mich., to Norfolk, Va.)* From the Traverse City, Mich., radio range station via the Gladwin, Mich., nondirectional radio beacon; Saginaw, Mich., nondirectional radio beacon; Flint, Mich., ILS outer Marker; Detroit, Mich., radio range station; the intersection of the southeast course of the Detroit, Mich, radio range and the west course of the Akron, Ohio, radio range to the Akron, Ohio, radio range station. From the intersection of the southwest course of the Arcola, Va., radio range and the west course of the Quantico, Va. (Navy), radio range to the Quantico, Va. (Navy), radio range station, excluding the portion more than 1 mile north of the west course of the Quantico, Va. (Navy), radio range. From the intersection of the north course of the Richmond, Va., radio range and the northwest course of the Tappahannock, Va., radio range via the Tappahannock, Va., radio range station to the intersection of the southeast course of the Tappahannock, Va., radio range and the north course of the Norfolk, Va. (Navy), radio range, excluding those portions more than 2 miles either side of the northwest course of the Tappahannock, Va., radio range and the portion which overlaps the Patuxent, Md., restricted area (R–43), thence to the Norfolk, Va., Navy radio range station excluding the portion which overlaps Plum Tree Island restricted area (R–49).

§ 600.220 *Red civil airway No. 20 (Lansing, Mich., to Washington, D. C.).* That airspace over United States territory from the Lansing, Mich., radio range station via the Flint, Mich., ILS outer marker; the intersection of the northwest course of the Selfridge, Mich., AFB radio range and the northwest course of the Windsor, Ont., Can., radio range; Windsor, Ont., Can., radio range station; Cleveland, Ohio, radio range station; Akron, Ohio, radio range station; the intersection of the southeast course of the Akron, Ohio, radio range and the northwest course of the Pittsburgh, Pa., radio range; Pittsburgh, Pa., radio range station; the intersection of the southeast course of the Pittsburgh, Pa., radio range and the northwest course of the Washington, D. C., radio range; Washington, D. C., radio range station to the intersection of the southeast course of the Washington, D. C., radio range with Red civil airway No. 77.

§ 600.221 *Red civil airway No. 21 (New York, N. Y., to Boston, Mass.).* From the intersection of the east course of the New York (La Guardia), N. Y., radio range and the southwest course of the Bridgeport, Conn., radio range via the Bridgeport, Conn., radio range station to the intersection of the northeast course of the Bridgeport, Conn., radio range and the southeast course of the Hartford, Conn., radio range. From the intersection of the southeast course of the Hartford, Conn., radio range and the west course of the Quonset Point, R. I. (Navy), radio range via the intersection of the west course of the Quonset Point, R. I. (Navy), radio range and the southwest course of the Providence, R. I., radio range; Providence, R. I., radio range station, excluding that portion more than 2 miles east of the southwest course of the Providence, R. I., radio range; Squantum, Mass. (Navy), radio range station to the intersection of the northeast course of the Squantum, Mass. (Navy), radio range and the east course of the Boston, Mass., radio range.

§ 600.222 *Red civil airway No. 22 (Mount Clemens, Mich., to Albany, N. Y.).* From the Mount Clemens, Mich., Selfridge AFB radio range station to the intersection of the southeast course of the Selfridge AFB radio range and the west course of the Clear Creek, Ont., Canada, radio range, excluding the portion which lies outside the continental United States. From the intersection of the west course of the Buffalo, N. Y., radio range and the United States-Canadian Border via the Buffalo, N. Y., radio range station; the intersection of the northeast course of the Buffalo, N. Y., radio range and the northwest course of the Rochester, N. Y., radio range to the Rochester, N. Y., radio range station. From the Syracuse, N. Y., radio range station via the Utica, N. Y., radio range station to the intersection of the southeast course of the Utica, N. Y., radio range and the west course of the Albany, N. Y., radio range.

§ 600.223 *Red civil airway No. 23 (United States-Canadian Border to New York, N. Y.).* That airspace over United States territory from the Lakehead, Ont., Canada, radio range station via the Houghton, Mich., radio range station; Grand Marias, Mich., radio range station; Sault Ste. Marie, Mich., radio range station to the Gore Bay, Ont., Canada, radio range station. That airspace over United States territory from the Toronto, Ont., Canada, radio range station via the Buffalo, N. Y., radio range station; Dansville, N. Y., nondirectional radio beacon; Elmira, N. Y., radio range station; New York (La Guardia), N. Y., radio range station to the intersection of the east course of the New York (La Guardia), N. Y., radio range and the northeast course of the Mitchel AFB, N. Y., radio range.

§ 600.224 *Red civil airway No. 24 (Amarillo, Tex., to Oklahoma City, Okla.).* From the Amarillo, Tex., radio range station via the intersection of the east course of the Amarillo, Tex., radio range and the southwest course of the Oklahoma City, Okla., radio range to the Oklahoma City, Okla., radio range station.

§ 600.226 *Red civil airway No. 26 (Petersburg, Va., to Corapeake, N. C.).* From the intersection of the southwest course of the Richmond, Va., radio range and the northwest course of the Waverly, Va., radio range via the Waverly, Va., radio range station to the intersection of the southeast course of the Waverly, Va., radio range and the southwest course of the Norfolk, Va., radio range.

§ 600.227 *Red civil airway No. 27 (Atlanta, Ga., to Detroit, Mich.).* From the intersection of the south course of the Atlanta, Ga., NAS radio range and the northeast course of the Campbellton, Ga., radio range via the Atlanta, Ga., NAS radio range station; the intersection of the north course of the Atlanta, Ga., NAS radio range and the south course of the Knoxville, Tenn., radio range; Knoxville, Tenn., radio range station; Corbin, Ky., radio range station; the intersection of the north course of the Corbin, Ky., VHF VAR radio range and a line bearing 150° True from the Lexington, Ky., nondirectional radio beacon; Lexington, Ky., nondirectional radio beacon to the intersection of a line bearing 358° True from the Lexington, Ky., nondirectional radio beacon with the east course of the Louisville, Ky., radio range. From the Findlay, Ohio, nondirectional radio beacon via the Toledo, Ohio, radio range station to the intersection of the north course of the Toledo, Ohio, radio range and the west course of the Detroit, Mich., radio range.

§ 600.228 *Red civil airway No. 28 (Rockford, Ill., to Detroit, Mich.).* From the Rockford, Ill., radio range station via the intersection of the east course of the Rockford, Ill., radio range and the northwest course of the Chicago, Ill., radio range; Chicago, Ill., radio range station; the intersection of the northeast course of the Chicago, Ill., radio range and the southwest course of the Grand Rapids, Mich., radio range to the Grand Rapids, Mich., radio range station. From the Lansing, Mich., radio range station to the Willow Run Airport, Ypsilanti, Mich.

§ 600.229 *Red civil airway No. 29 (Elmira, N. Y., to Baltimore, Md.).* From the intersection of the southwest course of the Elmira, N. Y., radio range and the north course of the Williamsport, Pa., radio range via the Williamsport, Pa., radio range station; Harrisburg, Pa., radio range station to the intersection of the south course of the Harrisburg, Pa., radio range and the west course of the Baltimore, Md., radio range. From the Baltimore, Md., radio range station to the intersection of the south course of the Baltimore, Md., radio range and the southeast course of the Andrews, Md., radio range, excluding that portion which lies more than two miles east of the south course of the Baltimore, Md., radio range between the intersection of the south course of the Baltimore, Md., radio range and the southern boundary of Red civil airway No. 45 and the intersection of the south course of the Baltimore, Md., radio range and the southeast course of the Washington, D. C., radio range, and excluding those portions which overlap restricted areas.

§ 600.230 *Red civil airway No. 30 (Shreveport, La., to Jacksonville, Fla.).* From the Shreveport, La., radio range station via the intersection of the south course of the Shreveport, La., radio range and the northwest course of the Alexandria, La., radio range; Alexandria, La., radio range station; intersection of the southeast course of the Alexandria, La., radio range and the northwest course of the Baton Rouge, La., radio range; Baton Rouge, La., radio range station to the intersection of the southeast course of the Baton Rouge, La., radio range and the west course of the New Orleans, La., radio range. From the New Orleans, La., radio range station via the Keesler AFB (Biloxi), Miss., radio range station; Bay Minetta, Ala., nondirectional radio beacon; Crestview, Fla., radio range station; the intersection of the east course of the Crestview, Fla., radio range and the northwest course of the Tallahassee, Fla., radio range; the Tallahassee, Fla., radio range station to the Jacksonville, Fla., radio range station excluding the portion above 19,000 feet which lies within the Tyndall AFB restricted area (R–336), between sunset and sunrise.

§ 600.231 *Red civil airway No. 31 (Cheyenne, Wyo., to La Crosse, Wis.).* From the intersection of the east course of the Cheyenne, Wyo., radio range and the southwest course of the Scottsbluff, Nebr., radio range via the Scottsbluff, Nebr., radio range station; the intersection of the northeast course of the Scottsbluff, Nebr., radio range and the south course of the Rapid City, S. Dak., radio range; Rapid City, S. Dak., radio range station; the intersection of the east course of the Rapid City, S. Dak., radio range and the west course of the Pierre, S. Dak., radio range; Pierre, S. Dak., radio range station; the intersection of the east course of the Pierre, S. Dak., radio range and the southwest course of the Huron, S. Dak., radio range to the Huron, S. Dak., radio range station. From the Minneapolis, Minn., radio range station via the Stanton, Minn., nondirectional radio beacon to the La Crosse, Wis., radio range station.

§ 600.232 *Red civil airway No. 32 (Laredo, Tex., to Houston, Tex.).* From the Laredo, Tex., radio range station via the intersection of the northeast course of the Laredo, Tex., radio range and the southwest course of the Kelly, Tex., radio range; Kelly, Tex., radio range station to the intersection of the northeast course of the Kelly, Tex., radio range and the west course of the San Antonio, Tex., radio range. From the Austin, Tex., radio range station via the Smithville, Tex., non-directional radio beacon: the Richmond, Tex., radio range station to the intersection of the southeast course of the Richmond, Tex., radio range and the southwest course of the Houston, Tex., radio range.

§ 600.233 *Red civil airway No. 33 (Norfolk, Va., to Boston, Mass.).* From the intersection of the east course of the Langley, Va., AFB radio range and the north course of the Norfolk, Va., radio range via the Langley, Va., AFB radio range station, excluding the portion which overlaps the Plum Tree Island Restricted Area (R–49), to the Richmond, Va., radio range station. From the Gordonsville, Va., radio range station via the Arcola, Va., radio range station to the intersection of the northeast course of the Arcola, Va., radio range and the southeast course of the Harrisburg, Pa., radio range. From the intersection of the east course of the Poughkeepsie, N. Y., radio range and the southwest course of the Chicopee, Westover AFB, Mass., radio range via the Chicopee, Westover AFB, Mass., radio range station to the intersection of the northeast course of the Chicopee, Westover AFB, Mass., radio range and the west course of the Boston, Mass., radio range.

§ 600.234 *Red civil airway No. 34 (Charleston, W. Va., to Weeksville, N. C.).* From the Charleston, W. Va., radio range station via the Pulaski, Va., radio range station to the Greensboro, N. C., radio range station. From the intersection of the northeast course of the Greensboro, N. C., radio range and the northwest course of the Raleigh, N. C., radio range to the Raleigh, N. C., radio range station. From the intersection of the north course of the Williamston, N. C., VHF VAR radio range and the southwest course of the Norfolk, Va., radio range to the Weeksville, N. C. (Navy) radio range station.

§ 600.235 *Red civil airway No. 35 (Pueblo, Colo., to St. Joseph, Mo.).* From the Pueblo, Colo., radio range station via the La Junta, Colo., radio range station; Garden City, Kans., radio range station; Hutchinson, Kans., radio range station; the intersection of the east course of the Hutchinson, Kans., radio range and the southwest course of the Forbes AFB, Kans., radio range; Forbes AFB, Kans., radio range station to the intersection of the northeast course of the Forbes, AFB radio range and the northwest course of the Kansas City, Mo., radio range.

§ 600.236 *Red civil airway No. 36 (Rochester, Minn., to La Crosse, Wis.).* From the Stanton, Minn., non-directional beacon via the Rochester, Minn., radio range station to the intersection of the east course of the Rochester, Minn., radio range and the northwest course of the La Crosse, Wis., radio range.

§ 600.237 *Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.).* From the Tyler, Tex., radio range station to the intersection of the north course of the Tyler, Tex., radio range and the west course of the Shreveport, La., radio range. From the intersection of the northeast course of the Texarkana, Ark., radio range and the southwest course of the Little Rock, Ark., radio range via the Little Rock, Ark., radio range station; Stuttgart, Ark., radio range station to the intersection of the east course of the Stuttgart, Ark., radio range and the west course of the Memphis, Tenn., radio range. From the Charleston, W. Va., radio range station via the Roanoke, Va., radio range station; Lynchburg, Va., radio range station; to the Gordonsville, Va., radio range station.

§ 600.238 *Red civil airway No. 38 (Big Spring, Tex., to San Antonio, Tex.).* From the intersection of the southeast course of the Big Spring, Tex., radio range and the southwest course of the San Angelo, Tex., radio range via the San Angelo, Tex., radio range station to the intersection of the southeast course of the San Angelo, Tex., radio range and the southeast course of the Big Spring, Tex., radio range. From the intersection of the northwest course of the Kelly, Tex., radio range and the west course of the San Antonio, Tex., radio range to the San Antonio, Tex., radio range station.

§ 600.239 *Red civil airway No. 39 (Bethel, Alaska, to Fairbanks, Alaska).* From the Bethel, Alaska, radio range station via the Aniak, Alaska, radio range station; the McGrath, Alaska, radio range station; the Minchumina, Alaska, radio range station and the Nenana, Alaska, radio range station to the Fairbanks, Alaska, radio range station.

§ 600.240 *Red civil airway No. 40 (Kodiak, Alaska, to Anchorage, Alaska).* From the Kodiak, Alaska, radio range station via the intersection of the north course of the Kodiak, Alaska, radio range and the southwest course of the Homer, Alaska, radio range; Homer, Alaska, radio range station; the intersection of the northeast course of the Homer, Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range to the Anchorage, Alaska, radio range station.

§ 600.241 *Red civil airway No. 41 (Yakutat, Alaska, to Gustavus, Alaska).* From the intersection of the southeast course of the Yakutat, Alaska, radio range and the southwest course of the Gustavus, Alaska, radio range to the Gustavus, Alaska, radio range station.

§ 600.242 *Red civil airway No. 42 (Milwaukee, Wis., to Aurora, Ill.).* From the intersection of the west course of the Milwaukee, Wis., radio range and the northwest course of the Chicago, Ill., radio range to the intersection of the east course of the Rockford, Ill., radio range and the northwest course of the Chicago, Ill., radio range. From the Glenview, Ill. (Navy), radio range station to the intersection of the southwest course of the Glenview, Ill. (Navy), radio range and the west course of the Chicago, Ill., radio range.

§ 600.243 *Red civil airway No. 43 (Chicago, Ill., to LaFayette, Ind.).* From the intersection of the east course of the Rockford, Ill., radio range and the northwest course of the Chicago, Ill., radio range via the intersection of the east course of the Rockford, Ill., radio range and the north course of the Harvey, Ill., radio range; Harvey, Ill., radio range station to the intersection of the south course of the Harvey, Ill., radio range and the southeast course of the Rockford, Ill., radio range.

§ 600.244 *Red civil airway No. 44 (Bellingham, Wash., to Princeton, B. C., Canada).* That airspace over United States territory from the Bellingham, Wash., radio range station to the Princeton, British Columbia, Canada, radio range station.

§ 600.245 *Red civil airway No. 45 (Blackstone, Va., to Willow Grove, Pa.).* From the Blackstone, Va., radio range station via the Manakin, Va., nondirectional radio beacon; the intersection of the south course of the Quantico, Va. (Navy), radio range and the southwest course of the Washington, D. C., radio range; Quantico, Va. (Navy), radio range station to the intersection of the north course of the Quantico, Va. (Navy), radio range and the northwest course of the Washington, D. C., radio range, excluding that portion which lies more than 2 miles west of the north course of the Quantico, Va. (Navy), radio range between the range station and the intersection of the north course of the Quantico, Va. (Navy), radio range and the northwest course of the Washington, D. C., radio range. From the Riverdale, Md., nondirectional radio beacon via the intersection of a line bearing 63° True from the Riverdale nondirectional radio beacon and the south course of the Baltimore, Md., radio range; Baltimore, Md., radio range station to the intersection of the north course of the Baltimore, Md., radio range and the southwest course of the Allentown, Pa., radio range. From the Lancaster, Pa., nondirectional radio beacon to the Willow Grove, Pa. (Navy), radio range station.

§ 600.246 *Red civil airway No. 46 (United States-Canadian Border to Jamestown, N. Dak.).* That airspace over United States territory from the Regina, Saskatchewan, Canada, radio range station via the Minot, N. Dak., radio range station to the Jamestown, N. Dak., radio range station.

§ 600.247 *Red civil airway No. 47 (Tampa, Fla., to Daytona Beach, Fla.).* From the Tampa, Fla., radio range station via the Orlando, Fla., radio range station to the Daytona Beach, Fla., radio range station.

§ 600.248 *Red civil airway No. 48 (Helena, Mont., to Livingston, Mont.).* From the intersection of the southeast course of the Helena, Mont., radio range and the northwest course of the Bozeman, Mont., radio range via a point located at Lat. 46°15'00", Long. 111°00'00" to the Livingston, Mont., radio range station.

§ 600.249 *Red civil airway No. 49 (Elko, Nev., to Fort Bridger, Wyo.).* From the Elko, Nev., radio range station via the Wendover, Utah, radio range station; the intersection of the east course of the Wendover, Utah, radio range and the west course of the Salt Lake City, Utah, radio range; the Salt Lake City, Utah, radio range station; Fort Bridger, Wyo., radio range station to the intersection of the north course of the Fort Bridger, Wyo., radio range and the southeast course of the Malad City, Idaho, radio range.

§ 600.250 *Red civil airway No. 50 (Galena, Alaska, to Fairbanks, Alaska).* From the intersection of the east course of the Galena, Alaska, radio range and the southwest course of the Tanana, Alaska, radio range via the Tanana, Alaska, radio range station to the intersection of the southeast course of the Tanana, Alaska, radio range and the west course of the Fairbanks, Alaska, radio range.

§ 600.251 *Red civil airway No. 51 (Blackstone, Va., to Norfolk, Va.).* From the Blackstone, Va., radio range station via the intersection of the east course of the Blackstone, Va., radio range and the west course of the Langley, Va., AFB radio range to the Langley, Va., AFB radio range station, excluding the portions which overlap the Camp Pickett Restricted Area (R–44) and the Plum Tree Island Restricted Area (R–49).

§ 600.252 *Red civil airway No. 52 (Memphis, Tenn., to Birmingham, Ala.).* From the intersection of the northeast course of the Memphis, Tenn., radio range and the northwest course of the Muscle Shoals, Ala., radio range via the Muscle Shoals, Ala., radio range station to the intersection of the southeast course of the Muscle Shoals, Ala., radio range and the north course of the Birmingham, Ala., radio range.

§ 600.253 *Red civil airway No. 53 (Portland, Oreg., to Spokane, Wash.).* From the Portland, Oreg., radio range station via the intersection of the east course of the Portland, Oreg., radio range and the west course of the The Dalles, Oreg., radio range; The Dalles, Oreg., radio range station; the intersection of the east course of the The Dalles, Oreg., radio range and the west course of the Pendleton, Oreg., radio range; Pendleton, Oreg., radio range station; the intersection of the east course of the Pendleton, Oreg., radio range and the southwest course of the Walla Walla, Wash., radio range; Walla Walla, Wash., radio range station to the Spokane, Wash., radio range station.

§ 600.254 *Red civil airway No. 54 (Burley, Idaho, to Salt Lake City, Utah).* From the Burley, Idaho, radio range station via the Promontory Point, Utah, non-directional radio beacon to a point located at Latitude 40°47'00", Longitude 112°23'00".

§ 600.255 *Red civil airway No. 55 (Chicago, Ill., to Columbus, Ohio).* From the intersection of the northeast course of the Chicago, Ill., radio range and a line bearing 293° True from the South Bend, Ind., radio range station via the South Bend, Ind., radio range station; Goshen, Ind., radio range station; Findlay, Ohio, non-directional radio beacon to the Columbus, Ohio, radio range station.

§ 600.256 *Red civil airway No. 56 (Red Bluff, Calif., to Whitmore, Calif.).* From the intersection of the northwest course of the Red Bluff, Calif., radio range and the northwest course of the Whitmore, Calif., radio range to the Whitmore, Calif., radio range station.

§ 600.257 *Red civil airway No. 57 (Des Moines, Iowa, to Youngstown, Ohio.).* From the Des Moines, Iowa, radio range station via the Cedar Rapids, Iowa, nondirectional radio beacon; Moline, Ill., radio range station; Rockford, Ill., radio range station; Milwaukee, Wis., radio range station; Battle Creek, Mich., radio range station to the Toledo, Ohio, radio range station. From the Akron, Ohio, radio range station to the Youngstown, Ohio, radio range station.

§ 600.258 *Red civil airway No. 58 (Augusta, Maine to United States-Canadian Border).* That airspace over United States territory from the Augusta, Maine, radio range station via the Bangor, Maine, radio range station; Pennfield Ridge, New Brunswick, Canada, radio range station to the St. John, New Brunswick, Canada, radio range station.

§ 600.259 *Red civil airway No. 59 (Garden City, Kans., to Oklahoma City, Okla.).* From the Garden City, Kans., radio range station via the intersection of the south course of the Garden City, Kans., radio range and the northwest course of the Gage, Okla., radio range; Gage, Okla., radio range station to the Oklahoma City, Okla., radio range station.

§ 600.260 *Red civil airway No. 60 (Oakland, Calif., to Stockton, Calif.).* From the Oakland, Calif., radio range station via the Stockton, Calif., radio range station to the intersection of the east course of the Stockton, Calif., radio range and a point at Lat. 37°55'10", Long. 120°44'25".

§ 600.261 *Red civil airway No. 61 (Butler, Pa., to Washington, D. C.).* From the Butler, Pa., nondirectional radio beacon via the Johnstown, Pa., nondirectional radio beacon to the intersection of the southeast course of the Pittsburgh, Pa., radio range and the south course of the Altoona, Pa., radio range. From the intersection of the northwest course of the Arcola, Va., radio range and the northwest course of the Front Royal, Va., radio range via the Arcola, Va., radio range station to the intersection of the southeast course of the Arcola, Va., radio range and the southwest course of the Washington, D. C., radio range.

§ 600.262 *Red civil airway No. 62 (Pittsburgh, Pa., to Altoona, Pa.).* From the intersection of the southeast course of the Pittsburgh, Pa., radio range and the northeast course of the Morgantown, W. Va., radio range via the Johnstown, Pa., non-directional radio beacon to the Altoona, Pa., radio range station.

§ 600.263 *Red civil airway No. 63 (Battle Creek, Mich., to the United States-Canadian Border).* From the intersection of the southwest course of the Grand Rapids, Mich., radio range and the west course of the Battle Creek, Mich., radio range via the Battle Creek, Mich., radio range station to the Jackson, Mich., nondirectional radio beacon. That airspace over United States territory from the intersection of the north course of the Detroit, Mich., radio range and a line bearing 261° True from the Sarnia, Ont., Canada, nondirectional radio beacon to the Sarnia, Ont., Canada nondirectional radio beacon.

§ 600.264 *Red civil airway No. 64 (United States-Canadian Border to Annette Island, Alaska).* From the intersection of the southwest course of the Annette Island, Alaska, radio range and the United States-Canadian Border to the Annette Island, Alaska, radio range station.

§600.265 *Red civil airway No. 65 (Los Angeles, Calif., to Hayfield Lake, Calif.).* From the Los Angeles, Calif., radio range station via the intersection of the south course of the Los Angeles, Calif., radio range and a line bearing 279° True from the Oceanside, Calif., nondirectional radio beacon; Oceanside, Calif., nondirectional radio beacon; Julian, Calif., nondirectional beacon to the Hayfield Lake, Calif., nondirectional radio beacon.

§ 600.266 *Red civil airway No. 66 (Santa Barbara, Calif., to Los Angeles, Calif.).* From the Santa Barbara, Calif., radio range station to the Newhall, Calif., radio range station.

§ 600.267 *Red civil airway No. 67 (Crestview, Fla., to Atlanta, Ga.).* From Crestview, Fla., radio range station via the Dothan, Ala., radio range station; the intersection of the northwest course of the Dothan, Ala., radio range and the southwest course of the Columbus, Ga., radio range; Columbus, Ga., radio range station; the intersection of the northeast course of the Columbus, Ga., radio range and the south course of the Campbellton, Ga., radio range to the intersection of the south course of the Campbellton, Ga., radio range and the southwest course of the Atlanta, Ga., radio range—excluding the portions above 19,000 feet which lie within Tyndall (restricted area (R–336), between sunset and sunrise, and excluding the portion which overlaps Fort Benning (restricted area (R–129).

§ 600.268 *Red civil airway No. 68 (Midland, Tex., to Shreveport, La.)* From the Midland, Tex., radio range station via the San Angelo, Tex., radio range station; the intersection of the northeast course of the San Angelo, Tex., radio range and the south course of the Abilene, Tex., radio range to the Abilene, Tex., radio range station. From the intersection of the west course of the Fort Worth, Tex., radio range and the northwest course of the Waco, Tex., radio range via the intersection of the northwest course of the Waco, Tex., radio range and the west course of the Dallas, Tex., radio range to the Dallas, Tex., radio range station. From the Duncanville, Tex., nondirectional radio beacon via the Tyler, Tex., radio range station to the Shreveport, La., radio range station.

§ 600.269 *Red civil airway No. 69 (Midland, Tex., to Big Spring, Tex.).* From the Midland, Tex., radio range station to the intersection of the northeast course of the Midland, Tex., radio range and the southwest course of the Big Spring, Tex., radio range.

§ 600.270 *Red civil airway No. 70 (Midland, Tex., to Lubbock, Tex.).* From the Midland, Tex., radio range station via the intersection of the south course of the Lubbock, Tex., radio range and the northwest course of the Big Spring, Tex., radio range to the Lubbock, Tex., radio range station.

§ 600.271 *Red civil airway No. 71 (El Paso, Tex., to Lubbock, Tex.).* From the intersection of the east course of the El Paso, Tex., radio range and the southwest course of the Roswell, N. Mex., radio range via the Roswell, N. Mex., radio range station; the intersection of the northeast course of the Roswell, N. Mex., radio range and the west course of the Lubbock, Tex., radio range to the Lubbock, Tex., radio range station.

§ 600.272 *Red civil airway No. 72 (Millville, N. J., to Paterson, N. J.).* From the intersection of the southwest course of the Millville, N. J., radio range and the south course of the New Castle, Del., radio range via the New Castle, Del., radio range station to the intersection of the north course of the New Castle, Del., radio range and the west course of the Philadelphia, Pa., radio range. From the intersection of the east course of the Harrisburg, Pa., radio range and the southwest course of the Willow Grove, Pa., radio range via the Willow Grove, Pa., radio range station; the intersection of the northeast course of the Willow Grove, Pa., radio range and the east course of the Allentown, Pa., radio range; the Chatham, N. J., non-directional radio beacon to the Paterson, N. J., non-directional radio beacon.

§ 600.273 *Red civil airway No. 73 (Baltimore, Md., to Millville, N. J.).* From the intersection of the west course of the New Castle, Del., radio range and the west course of the Philadelphia, Pa., radio range via the New Castle, Del., radio range station to the intersection of the east course of the New Castle, Del., radio range and the northeast course of the Millville, N. J., radio range.

§ 600.274 *Red civil airway No. 74 (Louisville, Ky., to Cincinnati, Ohio).* From the Louisville, Ky., radio range station via the intersection of the north course of the Louisville, Ky., radio range and a line bearing 241° True from the Cincinnati, Ohio, radio range station to the Cincinnati, Ohio, radio range station.

§ 600.275 *Red civil airway No. 75 (United States-Canadian Border, Vancouver, B. C., to United States-Canadian Border, Abbotsford, B. C.).* From the Vancouver, B. C., radio range station to the intersection of the northwest course of the Bellingham, Wash., radio range and the west course of the Abbotsford,

B. C., radio range; Abbotsford, B. C., radio range station to the intersection of the east course of the Abbotsford, B. C., radio range and the northeast course of the Bellingham, Wash., radio range, excluding those portions lying outside the limits of the continental United States.

§ 600.276 *Red civil airway No. 76 (Williams, Calif., to Auburn, Calif.).* From the Williams, Calif., radio range station to the intersection of the east course of the Williams, Calif., radio range and the northeast course of the Sacramento, Calif., radio range.

§ 600.277 *Red civil airway No. 77 (Greensboro, N. C., to Atlantic City, N. J.).* From the Greensboro, N. C., radio range station via the Lynchburg, Va., radio range station; Richmond, Va., radio range station; Tappahannock, Va., radio range station; Dover, Del., AFB radio range station to the Atlantic City, N. J. (Navy) radio range station, excluding the portion below 6,000 feet which lies over Patuxent (restricted area (R–71), and excluding the portion which lies over Patuxent (restricted area (R–43).

§ 600.278 *Red civil airway No. 78 Medford, Oreg., to Klamath Falls, Oreg.).* From the intersection of the south course of the Medford, Oreg., radio range and the west course of the Klamath Falls, Oreg., radio range to the Klamath Falls, Oreg., radio range station.

§ 600.279 *Red civil airway No. 79 (Neah Bay, Wash., to Everett, Wash.).* That airspace over United States territory from the Neah Bay, Wash., radio range station via the Port Angeles, Wash., CGAS nondirectional radio beacon to the Dungeness, Wash., fan marker excluding the portion below 6,000 feet which overlaps Restricted Area (R–236) and excluding the portion which conflicts with the Albert Head Restricted Area (R–407). From the intersection of the west course of the Everett, Wash., radio range and the northwest course of the Seattle, Wash., radio range to the Everett, Wash., radio range station.

§ 600.280 *Red civil airway No. 80 (Helena, Mont., to Miles City, Mont.).* From the intersection of the west course of the Helena, Mont., radio range and the southwest course of the Great Falls, Mont., radio range via the intersection of the southwest course of the Great Falls, Mont., radio range and the north course of the Helena, Mont., radio range; Great Falls, Mont., radio range station; Lewistown, Mont., radio range station; the intersection of the southeast course of the Lewistown, Mont., radio range and the north course of the Billings, Mont., radio range to the Miles City, Mont., radio range station.

§ 600.281 *Red civil airway No. 81 (Lansing, Mich., to Detroit, Mich.).* From the Lansing, Mich., radio range station to the intersection of the southeast course of the Lansing, Mich., radio range and the west course of the Detroit, Mich., radio range.

§ 600.282 *Red civil airway No. 82 (Skwentna, Alaska, to Anchorage, Alaska).* From the Skwentna, Alaska, radio range station to the intersection of the southeast course of the Skwentna, Alaska, radio range and the northeast course of the Anchorage, Alaska, radio range.

§ 600.283 *Red civil airway No. 83 (Gila Bend, Ariz., to Tucson, Ariz.).* From the intersection of the west course of the Phoenix, Ariz., radio range and the north course of the Gila Bend, Ariz., radio range via the Gila Bend, Ariz., radio range station to the Tucson, Ariz., radio range station.

§ 600.284 *Red civil airway No. 84 (Meridian, Miss., to Columbus, Ga.).* From the Meridian, Miss., radio range station via the Maxwell AFB, Ala., radio range station; the intersection of the east course of the Maxwell AFB, Ala., radio range and the northwest course of the Columbus, Ga., radio range to the Columbus, Ga., radio range station, excluding the portion which overlaps Fort Benning (restricted area (R–129).

§ 600.285 *Red civil airway No. 85 (Akron, Ohio, to Altoona, Pa.).* From the intersection of the southeast course of the Akron, Ohio, radio range and the northwest course of the Pittsburgh, Pa., radio range via the Butler, Pa., nondirectional radio beacon to the Altoona, Pa., radio range station.

§ 600.286 *Red civil airway No. 86 (Millinocket, Maine, to Houlton, Maine).* From the intersection of the northeast course of the Millinocket, Maine, radio range and the northwest course of the Houlton, Maine, radio range to the Houlton, Maine, radio range station, excluding that portion outside the continental limits of the United States.

§ 600.287 *Red civil airway No. 87 (Hawaiian Islands).* From the intersection of northwest course of the Port Allen, T. H., radio range and a point 100 miles northwest of the Port Allen, T. H., radio range station via the Port Allen, T. H., radio range station; the intersection of the southeast course of the Port Allen, T. H., radio range and the southwest course of the Honolulu, T. H., radio range; Honolulu, T. H., radio range station; Maui, T. H., radio range station; the intersection of the southeast course of the Maui, T. H., radio range and the north course of the Hilo, T. H., radio range; Hilo, T. H., radio range station to the intersection of the east course of the Hilo, T. H., radio range and a point 100 miles east of the Hilo, T. H., radio range station.

§ 600.288 *Red civil airway No. 88 (Albuquerque, N. Mex., to Hobbs, N. Mex.).* From the Albuquerque, N. Mex., radio range station via the Roswell, N. Mex., radio range station; the intersection of the southeast course of the Roswell, N. Mex., radio range and the west course of the Hobbs, N. Mex., radio range; Hobbs, N. Mex., radio range station to the intersection of the east course of the Hobbs, N. Mex., radio range and the south course of the Lubbock, Tex., radio range.

§ 600.289 *Red civil airway No. 89 (Quincy, Ill., to Peoria, Ill.).* From the Quincy, Ill., nondirectional radio beacon via the Peoria, Ill., radio range station to the intersection of the east course of the Peoria, Ill., radio range and the southwest course of the Joliet, Ill., radio range.

§ 600.290 *Red civil airway No. 90 (Oznard, Calif., to Burbank, Calif.).* From the Camarillo, Calif., radio range station to the Burbank, Calif., radio range station.

§ 600.291 *Red civil airway No. 91 (Dunkirk, N. Y., to Syracuse, N. Y.).* From the Dunkirk, N. Y., nondirectional radio beacon via the Dansville, N. Y., nondirectional radio beacon to the Syracuse, N. Y., radio range station.

§ 600.292 *Red civil airway No. 92 (Sault Ste. Marie, Mich., to United States-Canadian Border).* That airspace over United States territory from the Sault Ste. Marie, Mich., radio range station to the Sudbury, Ontario, Canada, radio range station.

§ 600.293 *Red civil airway No. 93 (Lincoln, Nebr., to Omaha, Nebr.).* From the Lincoln, Nebr., radio range station to the intersection of the east course of the Lincoln, Nebr., radio range and the southeast course of the Omaha, Nebr., radio range.

§ 600.294 *Red civil airway No. 94 (Providence, R. I., to Hyannis, Mass.).* From the Providence, R. I., radio range station via the Otis AFB, Falmouth, Mass., nondirectional radio beacon located at Lat. 41°36′15″, Long 70°32′31″, to the Hyannis, Mass., nondirectional radio beacon, excluding the portion which lies more than 4 miles north of the centerline between this Otis AFB nondirectional radio beacon and the Hyannis nondirectional radio beacon.

§ 600.295 *Red civil airway No. 95 (Elmira, N. Y., to Utica, N. Y.).* From the Elmira, N. Y., radio range station to the Utica, N. Y., radio range station.

§ 600.296 *Red civil airway No. 96 (Palacios, Tex., to Baton Rouge, La.).* From the Palacios, Tex., radio range station via the Houston, Tex., radio range station; Beaumont, Tex., radio range station to the Lake Charles, La., radio range station. From the intersection of the east course of the Lake Charles, La., radio range and the southwest course of the Baton Rouge, La., radio range via the Baton Rouge, La., radio range station to the Madisonville, La., fan marker.

§ 600.297 *Red civil airway No. 97 (United States-Canadian Border near Lakehead, Ontario, Canada, to United States-Canadian Border near Sault Ste. Marie, Mich.).* That airspace over United States territory from the Lakehead, Ontario, Canada, radio range station via the Sault Ste. Marie, Mich., radio range station to the Wiarton, Ontario, Canada, radio range station.

§ 600.298 *Red civil airway No. 98 (Vichy, Mo., to Belleville, Ill.).* From the Vichy, Mo., nondirectional radio beacon to the Belleville, Ill., Scott AFB radio range station.

§ 600.299 *Red civil airway No. 99 (Iliamna, Alaska, to Homer, Alaska).* From the intersection of the northeast course of the King Salmon, Alaska, radio range and the southwest course of the Iliamna, Alaska, radio range via the Iliamna, Alaska, radio range station to the intersection of the southeast course of the Iliamna, Alaska, radio range the west course of the Homer, Alaska, radio range.

§ 600.300 *Red civil airway No. 100 (South Bend, Ind., to Battle Creek, Mich.).* From the South Bend, Ind., radio range station to the Battle Creek, Mich., radio range station.

§ 600.302 *Red civil airway No. 102 (Louisville, Ky., to Huntington, W. Va.).* From the intersection of the south course of the Louisville, Ky., radio range and a line bearing 268° True from the Lexington, Ky., nondirectional radio beacon via the Lexington, Ky., nondirectional radio beacon to the Huntington, W. Va., nondirectional radio beacon.

§ 600.303 *Red civil airway No. 103 (Kenai, Alaska, to Middleton Island, Alaska).* From the Kenai, Alaska, radio range station via the intersection of the southeast course of the Kenai, Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range to the Middleton Island, Alaska, nondirectional radio beacon.

§ 600.304 *Red civil airway No. 104 (Greensboro, N. C., to Raleigh, N. C.).* From the Greensboro, N. C., radio range station to the intersection of the southeast course of the Greensboro, N. C., radio range and the south course of the Raleigh, N. C., radio range.

§ 600.305 *Red civil airway No. 105 (Wichita, Kans., to Neosho, Mo.).* From the intersection of the northeast course of the Wichita, Kans., radio range and the west course of the Chanute, Kans., radio range via the Chanute, Kans., radio range station to the intersection of the east course of the Chanute, Kans., radio range and a 344° True bearing from the Neosho, Mo., omnirange station.

§ 600.306 *Red civil airway No. 106 (Scottsbluff, Nebr., to North Platte, Nebr.).* From the Scottsbluff, Nebr., radio range station to the intersection of the southeast course of the Scottsbluff, Nebr., radio range and the west course of the North Platte, Nebr., radio range.

§ 600.307 *Red civil airway No. 107 (Stanton, Minn., to Red Wing, Minn.).* From the Stanton, Minn., nondirectional radio beacon to the intersection of the southeast course of the Minneapolis, Minn., radio range and the north course of the Rochester, Minn., radio range.

§ 600.308 *Red civil airway No. 108 (Promontory Point, Utah, to Fort Bridger, Wyo.).* From the Promontory Point, Utah, nondirectional radiobeacon via the Corinne, Utah, nondirectional radiobeacon to the Fort Bridger, Utah, radio range station.

§ 600.309 *Red civil airway No. 109 (Portland, Oreg., to Spokane, Wash.).* From the Portland, Oreg., radio range station via the intersection of the east course of the Portland, Oreg., radio range and the west course of the The Dalles, Oreg., radio range; The Dalles, Oreg., radio range station; Yakima, Wash., radio range station; the intersection of the northwest course of the Yakima, Wash., radio range and the south course of the Ellensburg, Wash., radio range; Ellensburg, Wash., radio range station; Ephrata, Wash., radio range station to the Spokane, Wash., radio range station.

BLUE CIVIL AIRWAYS

§ 600.601 *Blue civil airway No. 1 (Miami, Fla., to Tampa, Fla.).* From the Miami, Fla., radio range station to the Tampa, Fla., radio range station.

§ 600.602 *Blue civil airway No. 2 (Montgomery, Ala., to Erie, Pa.).* From the intersection of the north course of the Crestview, Fla., radio range and the southeast course of the Craig, Ala., AFB, radio range via the intersection of the southeast course of the Craig, Ala., AFB, radio range and the south course of the Birmingham, Ala., radio range; Birmingham, Ala., radio range station; the intersection of the north course of the Birmingham, Ala., radio range and the southwest course of the Chattanooga, Tenn., radio range via the Chattanooga, Tenn., radio range station to the intersection of the northeast course of the Chattanooga, Tenn., radio range and the west course of the Knoxville, Tenn., radio range. From the Pittsburgh, Pa., radio range station via the Butler, Pa., nondirectional radio beacon; the intersection of the east course of the Youngstown, Pa., radio range and the south course of the Erie, Pa., radio range to the Erie, Pa., radio range station.

§ 600.603 *Blue civil airway No. 3 (Miami, Fla., to Sault Ste. Marie, Mich.).* From the Miami, Fla., radio range station via the intersection of the west course of the Miami, Fla., radio range and a line bearing 128° True from the Fort Myers, Fla., nondirectional radio beacon; Fort Myers, Fla., nondirectional radio beacon; Tampa, Fla., radio range station; the intersection of the north course of the Tampa, Fla., radio range and the southeast course of the Cross City, Fla., radio range; Cross City, Fla., radio range station to the intersection of the northwest course of the Cross City, Fla., radio range and the east course of the Tallahassee, Fla., radio range. From the intersection of the northwest course of the Tallahassee, Fla., radio range and the southeast course of the Dothan, Ala., radio range via the Dothan, Ala., radio range station; the intersection of the northwest course of the Dothan, Ala., radio range and the east course of the Maxwell AFB, Montgomery, Ala., radio range, excluding that portion which lies more than 2 miles west of the northwest course of the Dothan, Ala., radio range between Lat. 31°20′00″, Long. 85°34′00″ and Lat. 31°34′00″, Long. 85°42′00″, and excluding the portion above 19,000 feet which lies within the Tyndall AFB restricted area (R–336), between sunset and sunrise, the Maxwell AFB, Montgomery, Ala., radio range station to the intersection of the north course of the Maxwell AFB, Montgomery, Ala., radio range and the east course of the Birmingham, Ala., radio range. From the Muscle Shoals, Ala., radio range station to the intersection of the northeast course of the Muscle Shoals, Ala., radio range and the southwest course of the Nashville, Tenn., radio range. From the intersection of the south course of the Goshen, Ind., radio range and the southwest course of the Fort Wayne, Ind., radio range via the Goshen, Ind., radio range station; the intersection of the north course of the Goshen, Ind., radio range and the southwest course of the Grand Rapids, Mich., radio range; Grand Rapids, Mich., radio range station; Cadillac, Mich., nondirectional radio beacon; Traverse City, Mich., radio range station; Pellston, Mich., nondirectional radio beacon to the Sault Ste. Marie, Mich., radio range station.

§ 600.604 *Blue civil airway No. 4 (Boston, Mass., to United States-Canadian Border).* From the intersection of the northeast course of the Boston, Mass., radio range and the southeast course of the Concord, N. H., radio range; Concord, N. H., radio range station; Burlington, Vt., radio range station to the Montreal, Que., Canada, radio range station, excluding the airspace which lies outside the continental United States.

§ 600.605 *Blue civil airway No. 5 (Galveston, Tex., to Wichita, Kans.).* From the Municipal Airport, Galveston, Tex., via the Galveston, Tex., radio range station; Houston, Tex., radio range station; the intersection of the northwest course of the Houston, Tex., radio range and the southeast course of the Bryan, Tex., radio range; Bryan, Tex., radio range station; Waco, Tex., radio range station; the intersection of the northeast course of the Waco, Tex., radio range and the south course of the Dallas, Tex., radio range; Dallas Tex., radio range station; Ardmore, Okla., nondirectional radio beacon to the intersection of the south course of the Tinker AFB, Okla., radio range and the southeast course of the Oklahoma City, Okla., radio range. From the Oklahoma City, Okla., radio range station via the intersection of the north course of the Oklahoma City, Okla., radio range and the southeast course of the Wichita, Kans., radio range; Wichita, Kans., radio range station to the intersection of the north course of the Wichita, Kans., radio range and the east course of the Hutchinson, Kans., radio range.

§ 600.606 *Blue civil airway No. 6 (Abilene, Tex., to Muskegon, Mich.).* From the Abilene, Tex., radio range station via the Wichita Falls, Tex., radio range station to the intersection of the northeast course of the Wichita Falls, Tex., radio range and the south course of the Oklahoma City, Okla., radio range. From the intersection of the southeast course of the Scott AFB, Belleville, Ill., radio range and a point 25 miles southeast of the Scott AFB, Belleville, Ill., radio range station via the Scott AFB Belleville, Ill., radio range station to the intersection of the northwest course of the Scott AFB, Belleville, Ill., radio range

and the southwest course of the Springfield, Ill., radio range. From the Springfield, Ill., radio range station to the Peoria, Ill., radio range station. From the intersection of the west course of the Goshen, Ind., radio range and the south course of the South Bend, Ind., radio range via the South Bend, Ind., radio range station to the intersection of the north course of the South Bend, Ind., radio range and the northeast course of the Chicago, Ill., radio range. From the intersection of the northeast course of the Chicago, Ill., radio range and the southwest course of the Grand Rapids, Mich., radio range to the Muskegon, Mich., radio range station.

§ 600.607 *Blue civil airway No. 7 (Hollister, Calif., to Williams, Calif.).* From the intersection of the northwest course of the Fresno, Calif., radio range and the south course of the Travis AFB, Calif., radio range via the Travis AFB, Calif., radio range station to the Williams, Calif., radio range station.

§ 600.608 *Blue civil airway No. 8 (Fargo, N. Dak., to United States-Canadian Border).* That airspace over United States territory from the Fargo, N. Dak., radio range station via the Grand Forks, N. Dak., radio range station; Pembina, N. Dak., radio range station to the Winnipeg, Ont., Canada, radio range station.

§ 600.609 *Blue civil airway No. 9 (Springfield, Mo., to United States-Canadian Border).* From the Springfield, Mo., radio range station to the Columbia, Mo., radio range station. From the Rochester, Minn., radio range station to the intersection of the north course of the Rochester, Minn., radio range and the southeast course of the Minneapolis, Minn., radio range. That airspace over United States territory from the Minneapolis, Minn., radio range station via the Duluth, Minn., radio range station to the Lakehead, Ont., Canada, radio range station.

§ 600.610 *Blue civil airway No. 10 (Fresno, Calif., to Williams, Calif.).* From the Fresno, Calif., radio range station via the intersection of the west course of the Fresno, Calif., radio range and the southeast course of the Oakland, Calif., radio range; Oakland, Calif., radio range station; the intersection of the northwest course of the Oakland, Calif., radio range and the southwest course of the Williams, Calif., radio range to the Williams, Calif., radio range station.

§ 600.611 *Blue civil airway No. 11 (Findlay, Ohio, to Dunkirk, N. Y.).* From the Findlay, Ohio, nondirectional radio beacon via the Cleveland, Ohio, radio range station; Erie, Pa., radio range station to the intersection of the southwest course of the Buffalo, N. Y., radio range and the east course of the Clear Creek, Ont., Canada, radio range.

§ 600.613 *Blue civil airway No. 13 (Houston, Tex., to Des Moines, Iowa).* From the Houston, Tex., radio range station via the Lufkin, Tex., nondirectional radio beacon; Shreveport, La., radio range station; the intersection of the northwest course of the Shreveport, La., radio range and the south course of the Texarkana, Ark., radio range; Texarkana, Ark., radio range station to the Fort Smith, Ark., nondirectional radio beacon excluding the portion which overlaps the Camp Chaffee restricted area (R–215). From the intersection of the northeast course of the Kansas City, Mo., radio range and the south course of the Des Moines, Iowa, radio range to the Des Moines, Iowa, radio range station.

§ 600.614 *Blue civil airway No. 14 (El Centro, Calif., to Sacramento, Calif.).* From the intersection of the west course of the El Centro, Calif., radio range and a bearing 165° True from the Julian, Calif., non-directional radio beacon to the Julian, Calif., non-directional radio beacon. From the Riverside, Calif., radio range station via the intersection of the northwest course of the Riverside, Calif., radio range and the southeast course of the Palmdale, Calif., radio range and the Palmdale, Calif., radio range station to the intersection of the northwest course of the Palmdale, Calif., radio range and the south course of the Bakersfield, Calif., radio range. From the intersection of the northwest course of the Fresno, Calif., radio range and the south course of the Stockton, Calif., radio range via the Stockton, Calif., radio range station to the intersection of the north course of the Stockton, Calif., radio range and the southeast course of the Sacramento, Calif., radio range.

§ 600.615 *Blue civil airway No. 15 (Huntington, W. Va., to Youngstown, Ohio).* From the Huntington, W. Va., nondirectional radio beacon to the Columbus, Ohio, radio range station. From the Akron, Ohio, Akron-Canton County Airport ILS outer marker to the Hubbard, Ohio, nondirectional radio beacon.

§ 600.616 *Blue civil airway No. 16 (Waverly, Va., to Tappahannock, Va.).* From the intersection of the southwest course of the Waverly, Va., radio range and a line bearing 116° True from the Lawrenceville, Va., omnirange station via the Waverly, Va., radio range station to the Tappahannock, Va., radio range station.

§ 600.617 *Blue civil airway No. 17 (Bangor, Maine, to Presque Isle, Maine).* From the intersection of the northeast course of the Bangor, Maine, radio range and the south course of the Houlton, Maine, radio range via the Houlton, Maine, radio range station; the intersection of the north course of the Houlton, Maine, radio range and the southeast course of the Presque Isle, Maine, radio range via the Presque Isle, Maine, radio range station to the Municipal Airport, Caribou, Maine, excluding that portion which lies outside the continental United States.

§ 600.618 *Blue civil airway No. 18 (Philadelphia, Pa., to United States-Canadian Border).* From the intersection of the northeast course of the Philadelphia, Pa., radio range and the southwest course of the New York, N. Y. (LaGuardia), radio range via the intersection of the northeast course of the Philadelphia, Pa., radio range and the southwest course of the Idlewild, N. Y., radio range; the Idlewild, N. Y., radio range station to the intersection of the northeast course of the Idlewild, N. Y., radio range and the east course of the New York, N. Y. (LaGuardia), radio range. From the intersection of the northwest course of the New York, N. Y. (LaGuardia), radio range and the southwest course of the Poughkeepsie, N. Y., radio range via the Poughkeepsie, N. Y., radio range station, excluding that portion which lies more than two miles west of the southwest course of the Poughkeepsie, N. Y., radio range between a point 25 miles northeast from the intersection of the northwest course of the New York, N. Y. (LaGuardia), radio range and the southwest course of the Poughkeepsie, N. Y., radio range and a point 10 miles south of the Poughkeepsie, N. Y., radio range; the Albany, N. Y., radio range station; Burlington, Vt., radio range station to the intersection of the northeast course of the Burlington, Vt., radio range and the United States-Canadian Border.

§ 600.619 *Blue civil airway No. 19 (Key West, Fla., to Orlando, Fla.).* From the Key West, Fla., radio range station via the Miami, Fla., radio range station; the intersection of the north course of the Miami, Fla., radio range and the west course of the West Palm Beach, Fla., radio range; Melbourne, Fla., radio range station to the Orlando, Fla., radio range station.

§ 600.620 *Blue civil airway No. 20 (Millville, N. J., to Allentown, Pa.).* From the intersection of the southwest course of the Atlantic City, N. J., (Navy) radio range and the southeast course of the Millville, N. J., radio range via the intersection of the southeast course of the Millville, N. J., radio range and the southeast course of the Philadelphia, Pa., radio range; Philadelphia, Pa., radio range station; a point at latitude 40°15′00″, longitude 75°22′45″, to the Allentown, Pa., radio range station.

§ 600.622 *Blue civil airway No. 22 (Memphis, Tenn., to Wichita, Kans.).* From the intersection of the southwest course of the Memphis, Tenn., radio range and the southeast course of the Little Rock, Ark., radio range via the Little Rock, Ark., radio range station; Fort Smith, Ark., non-directional radio beacon; Tulsa, Okla., radio range station to the intersection of the northwest course of the Tulsa, Okla., radio range and the southeast course of the Wichita, Kans., radio range.

§ 600.623 *Blue civil airway No. 23 (Norfolk, Va., to Chincoteague, Va.).* From the Norfolk, Va., Navy radio range station to the Chincoteague, Va., Navy radio range station excluding the portions which overlap Chincoteague Inlet restricted area (R–45) and Ship Shoal Island restricted area (R–47).

§ 600.625 *Blue civil airway No. 25 (Cordova, Alaska, to Big Delta, Alaska).* From the Hinchinbrook, Alaska, radio range station via the intersection of the northeast course of the Hinchinbrook, Alaska, radio range and the south course of the Gulkana, Alaska, radio range; Gulkana, Alaska, radio range station and the intersection of the north course of the Gulkana, Alaska, radio range and the south course of the Big Delta, Alaska, radio range to the Big Delta, Alaska, radio range station.

§ 600.626 *Blue civil airway No. 26 (Anchorage, Alaska, to Nenana, Alaska).* From the Anchorage, Alaska, radio range station via the Talkeetna, Alaska, airport; Summit, Alaska, radio range station; the intersection of the northeast course of the Summit, Alaska, radio range and the southeast course of the Nenana, Alaska, radio range via the Nenana, Alaska, radio range station to the intersection of the northwest course of the Nenana, Alaska, radio range and the west course of the Fairbanks, Alaska, radio range.

§ 600.627 *Blue civil airway No. 27 (Kodiak, Alaska, to Kotzebue, Alaska).* From the Kodiak, Alaska, radio range station via the intersection of the west course of the Kodiak, Alaska, radio range and the southeast course of the King Salmon radio range; King Salmon, Alaska, radio range station; Bethel, Alaska, radio range station; Nome, Alaska, radio range station to the Kotzebue, Alaska, airport.

§ 600.628 *Blue civil airway No. 28 (Charleston, S. C., to Bulls Gap, Tenn.).* From the Charleston, S. C., radio range station via the intersection of the northwest course of the Charleston, S. C., radio range and the southeast course of the Columbia, S. C., radio range; Columbia, S. C., radio range station; the intersection of the west course of the Columbia, S. C., radio range and the southeast course of the Spartanburg, S. C., radio range; Spartanburg, S. C., radio range station to the intersection of the northwest course of the Spartanburg, S. C., radio range and the northeast course of the Knoxville, Tenn., radio range.

§ 600.629 *Blue civil airway No. 29 (Raleigh, N. C., to Lynchburg, Va.).* From the intersection of the northeast course of the Raleigh, N. C., radio range and the southeast course of the Lynchburg, Va., radio range to the Lynchburg, Va., radio range station.

§ 600.630 *Blue civil airway No. 30 (Brownsville, Tex., to Pueblo, Colo.).* From the intersection of the southeast course of the Alice, Tex., radio range and the southwest course of the Corpus Christi, Tex., radio range via the Corpus Christi, Tex., radio range station, excluding that portion which lies more than 3 miles southeast of the southwest course of the Corpus Christi, Tex., radio range; Kelly (San Antonio, Tex.) radio range station; the intersection of the northwest course of the Kelly (San Antonio, Tex.) radio range and the southeast course of the Big Spring, Tex., radio range; Big Spring, Tex., radio range station to the intersection of the northwest course of the Big Spring, Tex., radio range and the south course of the Lubbock, Tex., radio range. From the Lubbock, Tex., radio range station via the intersection of the north course of the Lubbock, Tex., radio range and the south course of the Amarillo, Tex., radio range; Amarillo, Tex., radio range station; Dalhart, Tex., nondirectional radio beacon to the Pueblo, Colo., radio range station.

§ 600.631 *Blue civil airway No. 31 (Burlington, Iowa, to Madison, Wis.).* From the intersection of the west course of the Peoria, Ill., radio range and the south course of the Moline, Ill., radio range to the Moline, Ill., radio range station. From the intersection of the south course of the Madison, Wis., radio range and the northwest course of the Rockford, Ill., radio range to the Madison, Wis., radio range station.

§ 600.632 *Blue civil airway No. 32 (Skwentna, Alaska, to Talkeetna, Alaska).* From the Skwentna, Alaska, radio range station to the Talkeetna, Alaska, nondirectional radio beacon.

§ 600.633 *Blue civil airway No. 33 Lansing, Mich., to Saginaw, Mich.)* From the Lansing, Mich., radio range station to the Saginaw, Mich., nondirectional radio beacon.

§ 600.634 *Blue civil airway No. 34 (Terre Haute, Ind., to Peoria, Ill.).* From the Terre Haute, Ind., radio range station via the intersection of the north course of the Terre Haute, Ind., radio range and the southeast course of the Rantoul (Chanute), Ill., AFB radio range; Rantoul (Chanute), Ill., AFB radio range station to the intersection of the northwest course of the Rantoul (Chanute), Ill., AFB radio range and the southwest course of the Joliet, Ill., radio range.

§ 600.635 *Blue civil airway No. 35 (Oxnard, Calif., to Bakersfield, Calif.).* From the Camarillo, Calif., radio range station to the intersection of the northeast course of the Camarillo, Calif., radio range and the southeast course of the Bakersfield, Calif., radio range.

§ 600.636 *Blue civil airway No. 36 (Akron, Colo., to Kimball, Nebr.).* From the Akron, Colo., radio range station to the intersection of the north course of the Akron, Colo., radio range and the east course of the Cheyenne, Nebr., radio range.

§ 600.637 *Blue civil airway No. 37 (Casper, Wyo., to Rapid City, S. Dak.).* From the intersection of the east course of the Sinclair, Wyo., radio range and the northwest course of the Laramie, Wyo., radio range via the Casper, Wyo., radio range station to the intersection of the southeast course of the Sheridan, Wyo., radio range and the west course of the Rapid City, S. Dak., radio range.

§ 600.638 *Blue civil airway No. 38 (Five Finger, Alaska, to United States-Canadian Border).* That airspace over United States territory from the Five Finger, Alaska, USCG nondirectional radio beacon via the Gustavus, Alaska, radio range; Haines, Alaska, nondirectional radio beacon to the Whitehorse, Yukon Territory, radio range station.

§ 600.639 *Blue civil airway No. 39 (Savannah, Ga., to Elmira, N. Y.).* From the Savannah, Ga., radio range station via the intersection of the northwest course of the Savannah, Ga., radio range and the south course of the Augusta, Ga., radio range; Augusta, Ga., radio range station; the intersection of the north course of the Augusta, Ga., radio range and the south course of the Greenville, S. C., radio range to the Greenville, S. C., radio range station. From the Tri-City, Tenn., radio range station via the Paynesville, W. Va., non-directional radio beacon; the intersection of a line bearing 14° True from the Paynesville, W. Va., nondirectional radio beacon and the south course of the Charleston, W. Va., radio range to the Charleston, W. Va., radio range station. From the intersection of the west course of the Elkins, W. Va., radio range and the southwest course of the Morgantown, W. Va., radio range via the Morgantown, W. Va., radio range station to the New Alexandria, Pa., nondirectional radio beacon. From the intersection of the southwest course of the Elmira, N. Y., radio range and the east course of the Phillipsburg, Pa., radio range to the Elmira, N. Y., radio range station.

§ 600.640 *Blue civil airway No. 40 (Concord, N. H., to Burlington, Vt.).* From the Concord, N. H., radio range station via a point at 43°38′ north latitude and 72°20′ west longitude and a point at 44°12′ north latitude and 72°34′ west longitude to the Burlington, Vt., radio range station.

§ 600.641 *Blue civil airway No. 41 (Hartford, Conn., to United States-Canadian Border).* From the Hartford, Conn., radio range station via the intersection of the northwest course of the Hartford, Conn., radio range and the south course of the Westfield, Mass., radio range; Westfield, Mass., radio range station; the intersection of the north course of the Westfield, Mass., radio range and the southwest course of the Concord, N. H., radio range; Concord, N. H., radio range to the Portland, Maine, radio range station. From the Rockland, Maine, nondirectional radio beacon via the Bangor, Maine, radio range station to the intersection of the northeast course of the Bangor, Maine, radio range and the United States-Canadian Border.

§ 600.642 *Blue civil airway No. 42 (Goshen, Ind., to Saginaw, Mich.).* From the intersection of the east course of the South Bend, Ind., radio range and the south course of the Battle Creek, Mich., radio range via the Battle Creek, Mich., radio range station; the intersection of the north course of the Battle Creek, Mich., radio range and the southeast course of the Grand Rapids, Mich., radio range; Grand Rapids, Mich., radio range station to the Saginaw, Mich., non-directional radio beacon.

§ 600.643 *Blue civil airway No. 43 (Delta Island, Alaska, to Willow, Alaska).* From the intersection of the northeast course of the Kenai, Alaska, radio range and the west course of the Anchorage (Merrill), Alaska, radio range via the intersection of the northwest course of the Anchorage, Alaska, radio range and the northeast course of the Kenai, Alaska, radio range to the intersection of the north course of the An-

chorage (Merrill), Alaska, radio range and the southeast course of the Skwentna, Alaska, radio range.

§ 600.644 *Blue civil airway No. 44 (Indianapolis, Ind., to United States-Canadian Border).* From the Indianapolis, Ind., radio range station via the intersection of the south course of the Goshen, Ind., radio range and the southwest course of the Fort Wayne, Ind., radio range; Fort Wayne, Ind., radio range station to the intersection of the northeast course of the Fort Wayne, Ind., radio range and the east course of the Goshen, Ind., radio range. From the intersection of the north course of the Toledo, Ohio, radio range and the southwest course of the Windsor, Ont., Canada, radio range to the intersection of the southwest course of the Windsor, Ont., Canada, radio range and the United States-Canadian Border.

§ 600.645 *Blue civil airway No. 45 (Greenfield, Mass., to Newport, Vt.).* From the intersection of the north course of the Westfield, Mass., radio range and the southwest course of the Concord, N. H., radio range via the Keene, N. H., nondirectional radio beacon to the Lebanon, N. H., nondirectional radio beacon. From the Montpelier, Vt., radio range station via the intersection of the northeast course of the Montpelier, Vt., radio range and a line bearing 180° True from the Newport, Vt., nondirectional radio beacon to the Newport, Vt., nondirectional radio beacon excluding the portion which lies outside of the continental limits of the United States.

§ 600.646 *Blue civil airway No. 46 (Memphis, Tenn., to Paducah, Ky.).* From the Memphis, Tenn., radio range station via the intersection of the north course of the Memphis, Tenn., radio range and a line bearing 230° True from the Dyersburg, Tenn., nondirectional radio beacon; Dyersburg, Tenn., nondirectional radio beacon to the Paducah, Ky., nondirectional radio beacon.

§ 600.647 *Blue civil airway No. 47 (Blackstone, Va., to Dunkirk, N. Y.).* From the intersection of the northeast course of the Raleigh, N. C., radio range and the south course of the Blackstone, Va., radio range via the Blackstone, Va., radio range station to the Gordonsville, Va., radio range station. From the intersection of the southeast course of the Front Royal, Va., radio range and the southwest course of the Arcola, Va., radio range via the Front Royal, Va., radio range station; the intersection of the northwest course of the Front Royal, Va., radio range and the northwest course of the Washington, D. C., radio range; the intersection of the southeast course of the Pittsburgh, Pa., radio range and the south course of the Altoona, Pa., radio range; Altoona, Pa., radio range station; Philipsburg, Pa., radio range station; Bradford, Pa., nondirectional radio beacon to the Dunkirk, N. Y., nondirectional radio beacon.

§ 600.649 *Blue civil airway No. 49 (Atlantic City, N. J., to Philadelphia, Pa.).* From the intersection of the southeast course of the Philadelphia, Pa., radio range and a point at lat. 38°58'35", long. 74°54'30" via the intersection of the southeast course of the Philadelphia, Pa., radio range and the southeast course of the Millville, N. J., radio range; Millville, N. J., radio range station to the intersection of the northwest course of the Millville, N. J., radio range and the southwest course of the Philadelphia, Pa., radio range.

§ 600.651 *Blue civil airway No. 51 (Wendover, Utah, to Dubois, Idaho).* From the intersection of the east course of the Wendover, Utah, radio range and the south course of the Lucin, Utah, radio range via the Lucin, Utah, radio range station; the intersection of the north course of the Lucin, Utah, radio range and the southwest course of the Burley, Idaho, radio range; Burley, Idaho, radio range station; the intersection of the northeast course of the Burley, Idaho, radio range and the southwest course of the Pocatello, Idaho, radio range; Pocatello, Idaho, radio range station to the Dubois, Idaho, radio range station.

§ 600.652 *Blue civil airway No. 52 (Paso Robles, Calif., to Fresno, Calif.).* From the intersection of the northwest course of the Santa Barbara, Calif., radio range and the southwest course of the Fresno, Calif., radio range to the Fresno, Calif., radio range station.

§600.653 *Blue civil airway No. 53 (Providence, R. I., to Hartford, Conn.).* From the intersection of the southwest course of the Boston, Mass., radio range and the southeast course of the Hartford, Conn., radio range to the Hartford, Conn., radio range station.

§ 600.654 *Blue civil airway No. 54 (Evergreen, Calif., to Hamilton AFB, Calif.).* From the Evergreen, Calif., nondirectional radio beacon to the San Francisco, Calif., radio range station. From the intersection of the northwest course of the Oakland, Calif., radio range and the southwest course of the Travis AFB, Calif., radio range to a point at lat. 38°02'45", long. 122°31'40".

§ 600.655 *Blue civil airway No. 55 (Crestview, Fla., to Montgomery, Ala.).* From the Crestview, Fla., radio range station via the intersection of the north course of the Crestview, Fla., radio range and the southwest course of the Maxwell AFB, Ala., radio range to the Maxwell AFB, Ala., radio range station.

§ 600.656 *Blue civil airway No. 56 (Elizabeth City, N. C., to Washington, D. C.).* From the Weeksville, N. C. (Coast Guard), radio range station via the intersection of the northwest course of the Weeksville, N. C. (Coast Guard), radio range and the southwest course of the Norfolk, Va., VHF radio range to the Norfolk, Va., VHF radio range station. From the intersection of the northwest course of the Norfolk, Va., radio range and the south course of the Langley, Va. (AFB), radio range via the Langley, Va. (AFB), radio range station; the intersection of the north course of the Langley, Va. (AFB), radio range and the southeast course of the Andrews, Md., radio range to the Andrews, Md., radio range station, excluding that portion more than 3 miles east of the south and north courses of the Langley, Va. (AFB), radio range and the southeast course of the Andrews, Md., radio range, and excluding that portion more than 3 miles west of the southeast course of the Andrews, Md., radio range and the north course of the Langley, Va. (AFB), radio range between the Andrews, Md., radio range station and a point 18 miles south of the intersection of the north course of the Langley, Va. (AFB), radio range and the southeast course of the Andrews, Md., radio range.

§ 600.657 *Blue civil airway No. 57 (Elko, Nev., to Burley, Idaho).* From the intersection of the northeast course of the Elko, Nev., radio range and the west course of the Lucin, Utah, radio range via the intersection of the northeast course of the Elko, Nev., radio range and the southwest course of the Burley, Idaho, radio range to the intersection of the southwest course of the Burley, Idaho, radio range and the north course of the Lucin, Utah, radio range.

§ 600.658 *Blue civil airway No. 58 (Nantucket, Mass., to Squantum, Mass.).* From the Nantucket, Mass., nondirectional radio beacon via the Hyannis, Mass., nondirectional radio beacon; the intersection of a line bearing 346° True from the Hyannis, Mass., nondirectional beacon and the southeast course of the Squantum, Mass., radio range to the Squantum, Mass., radio range station, excluding the portion in conflict with Cotuit restricted area (R-79).

§ 600.659 *Blue civil airway No. 59 (Pensacola, Fla., to Goodway, Ala.).* From the Pensacola, Fla., radio range station to the intersection of the northwest course of the Pensacola, Fla., radio range and a line bearing 39° True from the Bay Minette, Ala., nondirectional radio beacon.

§ 600.660 *Blue civil airway No. 60 (Sunnyvale, Calif., to Stockton, Calif.).* From the Moffett NAS, Sunnyvale, Calif., radio range station to the intersection of the northeast course of the Moffett NAS, Calif., radio range and the west course of the Stockton, Calif., radio range.

§ 600.661 *Blue civil airway No. 61 (Springfield, Mo., to Kansas City, Mo.).* From the Springfield, Mo., radio range station via the intersection of the northwest course of the Springfield, Mo., radio range and the southeast course of the Kansas City, Mo., radio range to the Kansas City, Mo., radio range station.

§ 600.663 *Blue civil airway No. 63 (Concord, N. H., to Berlin, N. H.).* From the Concord, N. H., radio range station via the Laconia, N. H., nondirectional radio beacon; North Conway, N. H., nondirectional radio beacon to the Berlin, N. H., nondirectional radio beacon.

§ 600.664 *Blue civil airway No. 64 (Wink, Tex., to Hobbs, N. Mex.).* From the Wink, Tex., radio range station to the Hobbs, N. Mex., radio range station.

§ 600.665 *Blue civil airway No. 65 (Shuyak, Alaska, to Homer, Alaska).* From the intersection of the north course of the Kodiak, Alaska, radio range and the southwest course of the Homer, Alaska, radio range via the intersection of the west course of the Homer, Alaska, radio range and the southwest course of the Kenai, Alaska, radio range to the Homer, Alaska, radio range station.

§ 600.666 *Blue civil airway No. 66 (Bridgeport, Conn., to Poughkeepsie, N. Y.)* From the Bridgeport, Conn., radio range station to the intersection of the northwest course of the Bridgeport, Conn., radio range and the east course of the Poughkeepsie, N. Y., radio range.

§ 600.667 *Blue civil airway No. 67 (Yuma, Ariz., to Las Vegas, Nev.).* From the Yuma, Ariz., radio range station via the Blythe, Calif., radio range station; Needles, Calif., radio range station to the intersection of the north course of the Needles, Calif., radio range and the southeast course of the Las Vegas, Nev., radio range.

§ 600.668 *Blue civil airway No. 68 (Midland, Tex., to Hobbs, N. Mex.).* From Midland, Tex., radio range station to the intersection of the northwest course of the Midland, Tex., radio range and the east course of the Hobbs, N. Mex., radio range.

§ 600.669 *Blue civil airway No. 69 (St. Louis, Mo., to Quincy, Ill.).* From the St. Louis, Mo., radio range station to the Quincy, Ill., nondirectional radio beacon.

§ 600.670 *Blue civil airway No. 70 (Waco, Tex., to Tulsa, Okla.).* From the intersection of the northwest course of the Waco, Tex., radio range and the south course of the Fort Worth, Tex., radio range via the intersection of the northwest course of the Waco, Tex., radio range and the west course of the Dallas, Tex., radio range; Mineral Wells, Tex., non-directional radio beacon; Ardmore, Okla., non-directional radio beacon to the Tulsa, Okla., radio range station.

§ 600.671 *Blue civil airway No. 71 (Toledo, Wash., to Seattle, Wash.).* From the Toledo, Wash., radio range station via the Shelton, Wash., nondirectional radio beacon to the Seattle, Wash., radio range station.

§ 600.672 *Blue civil airway No. 72 (Enid, Okla., to Wichita, Kans.).* From the Enid, Okla. (Vance AFB), radio range station to the intersection of the northeast course of the Enid, Okla. (Vance AFB), radio range and the north course of the Oklahoma City, Okla., radio range.

§ 600.674 *Blue civil airway No. 74 (Willard, N. Mex., to Otto, N. Mex.).* From the intersection of the south course of the Otto, N. Mex., radio range with a direct line between the Albuquerque, N. Mex., radio range station and the Roswell, N. Mex., radio range station to the Otto, N. Mex., radio range station.

§ 600.675 *Blue civil airway No. 75 (Cleveland, Ohio, to United States-Canadian Border).* That airspace over United States territory from the Cleveland, Ohio, radio range station to the London, Ontario, Canada, radio range station.

§ 600.676 *Blue civil airway No. 76 (Sinclair, Wyo., to Casper, Wyo.).* From the Sinclair, Wyo., radio range station to the Casper, Wyo., radio range station.

§ 600.678 *Blue civil airway No. 78 (Spring Bay, Utah, to Malad City, Idaho).* From a point located at Lat. 41°34'30", Long. 112°46'00" to the Malad City, Idaho, radio range station.

§ 600.679 *Blue civil airway No. 79 (Annette Island, Alaska, to United States-Canadian Border).* That airspace over United States territory from the intersection of the south course of the Annette Island, Alaska, radio range and the United States-Canadian Border via the Annette Island, Alaska, radio range station; Petersburg, Alaska, radio range station; Haines, Alaska, nondirectional radio beacon to the Pon Lake, Y. T., Canada, nondirectional radio beacon.

§ 600.680 *Blue civil airway No. 80 (Unalakleet, Alaska, to Moses Point, Alaska).* From the intersection of the northwest course of the Unalakleet, Alaska, radio range and the south course of the Moses Point, Alaska, radio range to the Moses Point, Alaska, radio range station.

§ 600.681 *Blue civil airway No. 81 (Charleston, W. Va., to Akron, Ohio).* From the Charleston, W. Va., radio range station via the Zanesville, Ohio, nondirectional radio beacon; Akron, Ohio, radio range station to the intersection of the north course of the Akron, Ohio, radio range and the east course of the Cleveland, Ohio, range.

§ 600.684 *Blue civil airway No. 84 (Augusta, Maine, to Millinocket, Maine).* From the Augusta, Maine, radio range station via the Rockland, Maine, nondirectional radio beacon; Bar Harbor, Maine, nondirectional radio beacon; Bangor, Maine, radio range station to the Millinocket, Maine, radio range station.

§ 600.685 *Blue civil airway No. 85 (Hutchinson, Kans., to Wichita, Kans.).* From the Hutchinson, Kans., radio range station to the intersection of the south course of the Hutchinson, Kans., radio range and the southwest course of the Wichita, Kans., radio range.

§ 600.686 *Blue civil airway No. 86 (Goshen, Ind., to Fort Wayne, Ind.).* From the intersection of the east course of the Goshen, Ind., radio range and the northwest course of the Fort Wayne, Ind., radio range to the Fort Wayne, Ind., radio range station.

§ 600.687 *Blue civil airway No. 87 (Lexington, Ky., to Dayton, Ohio).* From the Lexington, Ky., nondirectional radio beacon via the Cincinnati, Ohio, radio range station; the intersection of the northeast course of the Cincinnati, Ohio, radio range and the south course of the Wright-Patterson AFB, Dayton, Ohio, radio range; Wright-Patterson AFB, Dayton, Ohio, radio range station to the intersection of the north course of the Wright-Patterson AFB radio range and the west course of the Columbus, Ohio, radio range.

OTHER CIVIL AIRWAYS

§ 600.1004 *Winslow, Ariz., to Las Vegas, Nev., civil airway.* From the Winslow Municipal Airport, Winslow, Ariz., via the South Rim Airport, Grand Canyon, Ariz., and the Boulder City Airport, Boulder City, Nev., to the McCarran Field, Las Vegas, Nev.

SUBPART C—VOR CIVIL AIRWAYS

DOMESTIC VOR CIVIL AIRWAYS

§ 600.6001 *VOR civil airway No. 1 (Charleston, S. C., to New York, N. Y.).* From the Charleston, S. C., omnirange station via the Myrtle Beach, S. C., omnirange station; Wilmington, N. C., omnirange station; New Bern, N. C., omnirange station; Williamston, N. C., VAR station; intersection of the Williamston VAR north course and the Norfolk, Va., ILS localizer southwest course; Norfolk, Va., ILS localizer; to the point of intersection of the Norfolk ILS localizer northeast course and the Norfolk, Va., VAR north course, excluding the portion between 11,000 feet and 16,000 feet and between 23,000 feet and 45,000 feet above mean sea level, during the hours of darkness, which lie within the Cherry Point, N. C., night restricted area (R-125), and excluding the portion lying west of Amber civil airway No. 9 between the Wilmington, N. C., omnirange station and the Williamston, N. C., VAR station. From the point of intersection of the Norfolk, Va., VAR northeast course and the Norfolk, Va., Navy radio range east course via the intersection of the Norfolk, VAR northeast course and the Salisbury omnirange 206° True radial; Salisbury, Md., omnirange station; intersection of the Salisbury omnirange 038° True radial and the Atlantic City VAR southwest course; Atlantic City, N. J., VAR station; intersection of the Atlantic City VAR northeast course and the Colts Neck omnirange 204° True radial to the Colts Neck, N. J., omnirange station. Those portions of this airway between the Atlantic City, N. J., VAR station and the Colts Neck, N. J., omnirange station more than 3 miles either side of the center line and those portions in conflict with Patuxent restricted area (R-43) are excluded.

§ 600.6002 *VOR civil airway No. 2 (Seattle, Wash., to Boston, Mass.).* From the Seattle, Wash., omnirange station via the Ellensburg, Wash., omnirange station, including a south alternate via the intersection of the Seattle omnirange 124° True and the Ellensburg omnirange 274° True radials; Ephrata, Wash., omnirange station; Spokane, Wash., omnirange station; Mullan Pass, Mont., omnirange station; Missoula, Mont., omnirange station; Drummond, Mont., omnirange station; Helena Mont., omnirange station; intersection of the Helena omnirange 119° True and the Bozeman omnirange 338° True radials; Bozeman, Mont., omnirange station; intersection of the Bozeman omnirange 157° True and the Livingston omnirange 262° True radials; Livingston, Mont., omnirange station; Billings, Mont., omnirange station; Miles City, Mont., omnirange station; Golva, N. Dak., omnirange station; Dickinson, N. Dak. omnirange station; Bismarck, N. Dak., omnirange station, including a north alternate; Jamestown, N. Dak., omnirange station, including a north alternate; Fargo, N. Dak., omni-

range station, including a north alternate; Alexandria, Minn., omnirange station, including a north alternate; Minneapolis, Minn., omnirange station; La Crosse, Wis., omnirange station, including a north alternate from the Minneapolis, Minn., omnirange to the La Crosse, Wis., omnirange station and also a south alternate from the Alexandria, Minn., omnirange station via the intersection of the Alexandria omnirange 136° True radial and the Minneapolis-St. Paul International Airport ILS 301° True localizer course, the Minneapolis-St. Paul International Airport ILS localizer, the intersection of the Minneapolis-St. Paul International Airport ILS 121° True localizer course and the La Crosse omnirange 311° True radial to the La Crosse, Wis., omnirange station; Lone Rock, Wis., omnirange station, including a north alternate; Milwaukee, Wis., omnirange station, including a north alternate; Muskegon, Mich., omnirange station, including a north alternate; Lansing, Mich., omnirange station, including a south alternate; to the Salem, Mich., omnirange station. From the Buffalo, N. Y., omnirange station via the Rochester, N. Y., omnirange station; Syracuse, N. Y., omnirange station; Albany, N. Y., omnirange station, including a south alternate via the intersection of the Syracuse omnirange 117° True and the Albany omnirange 269° True radials; Gardner, Mass., omirange station; to the Boston, Mass., omnirange station.

§ 600.6003 *VOR civil airway No. 3 (Key West, Fla., to Presque Isle, Maine).* That airspace over the United States territory from the Key West, Fla., omnirange station via the Miami, Fla., omnirange station, excluding the portion which overlaps Airspace Warning Area (W–173); intersection of the Miami omnirange 060° True and the West Palm Beach omnirange 176° True radials; West Palm Beach, Fla., omnirange station; Vero Beach, Fla., omnirange station, including an east alternate from the West Palm Beach omnirange station to the Vero Beach omnirange station and also a west alternate from the Miami omnirange station to the Vero Beach omnirange station via the intersection of the Miami omnirange 338° True and the Vero Beach omnirange 192° True radials, excluding the portions which overlap the Sterling restricted areas (R–169 and R–170); Daytona Beach, Fla., omnirange station; Jacksonville, Fla., omnirange station, including an east alternate; Brunswick, Ga., omnirange station, including a west alternate via the intersection of the Jacksonville omnirange 309° True and the Brunswick omnirange 203° True radials; Savannah, Ga., omnirange station, including an east alternate; Charleston, S. C., omnirange station, including a west alternate; Florence, S. C., omnirange station, including an east alternate; Lumberton, N. C., omnirange station; Raleigh, N. C., omnirange station, including a west alternate from the Florence omnirange station to the Raleigh omnirange station via the intersection of the Florence omnirange 008° True and the Raleigh omnirange 232° True radials; Lawrenceville, Va., omnirange station; intersection of the Lawrenceville omnirange 035° True and the Flat Rock omnirange 171° True radials, excluding the portion which overlaps the Camp Pickett restricted area (R–44); Flat Rock, Va., omnirange station to the point of intersection of the Flat Rock omnirange 023° True and the Gordonsville, Va., omnirange 056° True radials. From the point of intersection of the Herndon, Va., omnirange 045° True and the Martinsburg, W. Va., omnirange 101° True radials via the intersection of the Herndon omnirange 045° True and the West Chester omnirange 253° True radials; West Chester, Pa., omnirange station; intersection of the West Chester omnirange 051° True and the Caldwell omnirange 217° True radials; Caldwell, N. J., omnirange station; Wilton, Conn., omnirange station; Hartford, Conn., omnirange station; intersection of the Hartford omnirange 044° True and the Boston omnirange 257° True radials; Boston, Mass., omnirange station; Kennebunk, Maine, omnirange station; Augusta, Maine, omnirange station; Bangor, Maine, omnirange station; Houlton, Maine, omnirange station; to the Presque Isle, Maine, omnirange station.

§ 600.6004 *VOR civil airway No. 4* From Seattle, Wash., omnirange station via the Yakima, Wash., omnirange station, including a south alternate from the Seattle omnirange station to the Yakima omnirange station via the point of intersection of the Seattle omnirange 163° True and the Olympia, Wash., omnirange 084° True radials; thence via the point of intersection of the Olympia omnirange 084° True and the Seattle omnirange 124° True radials; Pendleton, Oreg., omnirange station; Baker, Oreg., omnirange station; Boise, Idaho, omnirange station; intersection of the Boise omnirange 129° True and the Burley omnirange 292° True radials; Burley, Idaho, omnirange station, including a south alternate from the Boise omnirange station to the Burley omnirange station via the Twin Falls, Idaho, omnirange station; Malad City, Idaho, omnirange station; Rock Springs, Wyo., omnirange station; Cherokee, Wyo., omnirange station, including a north alternate; Laramie, Wyo., omnirange station; Denver, Colo., omnirange station, including a north alternate via the intersection of the Laramie omnirange 131° True and the Denver omnirange 016° True radials; Thurman, Colo., omnirange station, including a south alternate; Goodland, Kans., omnirange station, including a north alternate via the intersection of the Thurman omnirange 085° True and the Goodland omnirange 304° True radials; Hill City, Kans., omnirange station, including a north alternate; Russell, Kans., omnirange station; Salina, Kans., omnirange station, including a north alternate from Hill City omnirange station to Salina omnirange station; Topeka, Kans., omnirange station, including a south alternate; Kansas City, Mo., omnirange station, including a north alternate; Columbia, Mo., omnirange station, including a north alternate from the Kansas City omnirange station to the Columbia omnirange station via the intersection of the Kansas City omnirange 077° True and the Columbia omnirange 292° True radials and also a south alternate from the Topeka omnirange station to the Columbia omnirange station via the Blue Springs, Mo., omnirange station thence via the intersection of the Blue Springs omnirange 094° True and the Columbia omnirange 261° True radials; St. Louis, Mo., omnirange station, including a north and a south alternate; Troy, Ill., omnirange station; Centralia, Ill., omnirange station, including a south alternate from the St. Louis omnirange station to the Centralia omnirange station via the intersection of the St. Louis omnirange 128° True and the Centralia omnirange 279° True radials; Evansville, Ind., omnirange station, including a south alternate; the intersection of the Evansville omnirange 80° True and the Louisville omnirange 269° True radials; Louisville, Ky., omnirange station, including a north alternate from the Evansville omnirange station to the Louisville omnirange station; Lexington, Ky., omnirange station, including a south alternate and also a north alternate via the intersection of the Louisville omnirange 083° True and the Lexington omnirange 294° True radials; Charleston, W. Va., omnirange station; Elkins, W. Va., omnirange station, including a south alternate via the intersection of the Charleston omnirange 081° True and the Elkins omnirange 227° True radials; Front Royal, Va., omnirange station; to the Herndon, Va., omnirange station. The portions of this airway which overlap the Yakima restricted area (R–247) and the Lake City restricted area (R–307) are excluded.

§ 600.6005 *VOR civil airway No. 5 (Jacksonville, Fla., to Cleveland, Ohio).* From the Jacksonville, Fla., omnirange station via the Alma, Ga., omnirange station, including a west alternate; Macon, Ga., omnirange station; intersection of the Macon omnirange 330° True and the Atlanta omnirange 102° True radials; Atlanta, Ga., omnirange station; including a west alternate from the Alma omnirange station to the Atlanta omnirange station via the intersection of the Alma omnirange 305° True and the Atlanta omnirange 151° True radials; intersection of the Atlanta omnirange 352° True and the Chattanooga omnirange 152° True radials; Chattanooga, Tenn., omnirange station; Nashville, Tenn., omnirange station; Bowling Green, Ky., omnirange station; intersection of the Bowling Green omnirange 048° True and the Louisville omnirange 189° True radials; Louisville, Ky., omnirange station, including an east alternate from the Bowling Green omnirange station to the Louisville, omnirange station via the intersection of the Bowling Green omnirange 063° True and the Louisville omnirange 168° True radials; Cincinnati, Ohio, omnirange station, including an east alternate; intersection of the Cincinnati omnirange 045° True and the Columbus omnirange 246° True radials; Columbus, Ohio, omnirange station; Mansfield, Ohio, omnirange station, including an east alternate from the Columbus omnirange station to the Mansfield omnirange station via the intersection of the Columbus omnirange 051° True and the Mansfield omnirange 184° True radials; to the Cleveland, Ohio, omnirange station.

§ 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.).* From the intersection of the Oakland omnirange 217° True and the Salinas omnirange 319° True radials via the Oakland, Calif., omnirange station; Sacramento, Calif., omnirange station; intersection of the Sacramento omnirange 055° True and the Reno omnirange 230° True radials; Reno, Nev., omnirange station, including a north alternate between the Sacramento, Calif., omnirange station and the Reno, Nev., omnirange station via the intersection of the Sacramento omnirange 040° True and the Reno omnirange 268° True radials; Lovelock, Nev., omnirange station; Battle Mountain, Nev., omnirange station; Wells, Nev., omnirange station, including a south alternate from the Battle Mountain omnirange station to the Wells omnirange station via the Elko, Nev., omnirange station; Lucin, Utah, omnirange station; Ogden Utah, omnirange station; Fort Bridger, Wyo., omnirange station, including a north alternate via the intersection of the Ogden omnirange 052° True and the Fort Bridger omnirange 278° True radials; Rock Springs, Wyo., omnirange station, including a north alternate via the intersection of the Fort Bridger omnirange 064° True and the Rock Springs omnirange 284° True radials; Cherokee, Wyo., omnirange station, including a north alternate; Rock River, Wyo., omnirange station, including a north alternate; Cheyenne, Wyo., omnirange station, including a north alternate via the intersection of the Rock River omnirange 109° True and the Cheyenne omnirange 320° True radials; Sidney, Nebr., omnirange station, including a north alternate via the intersection of the Cheyenne omnirange 080° True and the Sidney omnirange 290° True radials; North Platte, Nebr., omnirange station, including a north alternate; Grand Island, Nebr., omnirange station, including a north alternate; Omaha, Nebr., omnirange station, including a north and a south alternate; Des Moines, Iowa, omnirange station, including a south alternate; Iowa City, Iowa, omnirange station including a north alternate and also a south alternate via the intersection of the Des Moines omnirange 112° True and the Iowa City omnirange 252° True radials; Moline, Ill., omnirange station, including a south alternate; Naperville, Ill., omnirange station; South Bend, Ind., omnirange station; intersection of the South Bend omnirange 092° True and the Waterville omnirange 288° True radials; Waterville, Ohio, omnirange station; Cleveland, Ohio, omnirange station; Youngstown, Ohio, omnirange station, including a north alternate; Philipsburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station; to the Colts Neck, N. J., omnirange station.

§ 600.6007 *VOR civil airway No. 7 (Miami, Fla., to Green Bay, Wis.).* From the Miami, Fla., omnirange station via the Fort Myers, Fla., omnirange station, including a west alternate via the intersection of the Miami omnirange 274° True and the Fort Myers omnirange 133° True radials; Lakeland, Fla., omnirange station, including an east alternate via the intersection of the Fort Myers omnirange 035° True and the Lakeland omnirange 161° True radials; Cross City, Fla., omnirange station, including a west alternate from the Fort Myers omnirange station to the Cross City omnirange station via the Tampa, Fla., omnirange station and the intersection of the Tampa omnirange 012° True and the Cross City omnirange 150° True radials; Tallahassee, Fla., omnirange station, including a west alternate via the intersection of the Cross City omnirange 287° True and the Tallahassee omnirange 150° True radials; Marianna, Fla., omnirange station; intersection of the Marianna omnirange 333° True and the Montgomery omnirange 137° True radials; Montgomery, Ala., omnirange station, including a west alternate from the Marianna omnirange station to the Montgomery omnirange station via the intersection of the Marianna omnirange 303° True and the Montgomery omnirange 192° True radials; Birmingham, Ala., omnirange station, including an east alternate via the intersection of the Montgomery omnirange 358° True and the Birmingham omnirange 138° True radials and also a west alternate; intersection of the Birmingham omnirange 358° True and the Muscle Shoals omnirange 129° True radials; Muscle Shoals, Ala., omnirange station; Graham, Tenn., omnirange station; intersection of the Nashville omnirange 343° True and the Evansville omnirange 145° True radials; Evansville, Ind., omnirange station; Terre Haute, Ind., omnirange station, including a west alternate; Lafayette, Ind., omnirange station, including a west alternate; Chicago Heights, Ill., omnirange station, including an east alternate; intersection of the Chicago Heights omnirange 342° True and the Milwaukee omnirange 179° True radials; Milwaukee, Wis., omnirange station; to the Green Bay Wis., omnirange station. The portions of this airway above 19,000 feet above mean sea level which lie within the Tyndall AFB restricted area (R–336) and the Tyndall AFB warning area (W–337), are excluded between sunset and sunrise.

§ 600.6008 *VOR civil airway No. 8 (Long Beach, Calif., to Washington, D. C.).* From the point of intersection of the Long Beach omnirange 266° True and the Los Angeles, Calif., omnirange 207° True radials via the Long Beach, Calif., omnirange station; Ontario, Calif., omnirange station; Daggett, Calif., omnirange station; Las Vegas, Nev., omnirange station; Mormon Mesa, Nev., omnirange station; Bryce Canyon, Utah, omnirange station; Hanksville, Utah, omnirange station; Grand Junction, Colo., omnirange station; Kremmling, Colo., omnirange station; Denver, Colo., omnirange station, including a north alternate; Akron, Colo., omnirange station, including a north alternate and also a south alternate via the intersection of the Denver omnirange 101° True and the Akron omnirange 242° True radials; Imperial, Nebr., omnirange station, including a south alternate via the intersection of the Akron omnirange 090° True and the Imperial omnirange 237° True radials; Grand Island, Nebr., omnirange station, including a south alternate; Omaha, Nebr., omnirange station, including a north and a south alternate; Des Moines, Iowa, omnirange station, including a south alternate; Iowa City, Iowa, omnirange station, including a south alternate via the intersection of the Des Moines omnirange 112° True and the Iowa City omnirange 252° True radials; Moline, Ill., omnirange station, including a south alternate and also a north alternate from the Des Moines omnirange station to the Moline omnirange station via the intersection of the Des Moines omnirange 071° True and the Moline omnirange 279° True radials; Naperville, Ill., omnirange station; intersection of the Naperville omnirange 090° True and the Chicago Heights omnirange 342° True radials; Chicago Heights, Ill., omnirange station; Goshen, Ind., omnirange station; Findlay, Ohio, omnirange station; Mansfield, Ohio, omnirange station; the intersection of the Mansfield omnirange 100° True and the Pittsburgh omnirange 291° True radials; Pittsburgh, Pa., omnirange station; Martinsburgh, W. Va., omnirange station; intersection of the Martinsburg, omnirange 123° True and the Washington terminal omnirange 319° True radials; to the Washington, D. C., terminal omnirange station.

§ 600.6009 *VOR civil airway No. 9 (New Orleans, La., to Milwaukee, Wis.).* From the New Orleans, La., omnirange station via the McComb, Miss., omnirange station, including a west alternate; Jackson, Miss., omnirange station, including a west alternate; Greenwood, Miss., omnirange station, including a west alternate; Memphis, Tenn., omnirange station, including an east alternate; Maiden, Mo., omnirange station, including a west alternate; Farmington, Mo., omnirange station, including a west alternate; St. Louis, Mo., omnirange station, including a west alternate; Springfield, Ill., omnirange station, including a west alternate; Pontiac, Ill., omnirange station; Joliet, Ill., omnirange station; Naperville, Ill., omnirange station; intersection of the Naperville omnirange 358° True and the Milwaukee omnirange 215° True radials; to the Milwaukee, Wis., omnirange station, including a west alternate from the Naperville omnirange station to the Milwaukee omnirange station via the intersection of the Naperville omnirange 336° True and the Milwaukee omnirange 215° True radials.

§ 600.6010 *VOR civil airway No. 10 (Pueblo, Colo., to New York, N. Y.).* That airspace over United States territory from the Pueblo, Colo., omnirange station via the Lamar, Colo., omnirange station, including a north alternate; Garden City, Kans., omnirange station,

including a north alternate; Dodge City, Kans., omnirange station; Hutchinson, Kans., omnirange station, including a south alternate and also a north alternate via the intersection of the Dodge City omnirange 060° True and the Hutchinson omnirange 296° True radials; Emporia, Kans., omnirange station, including a north alternate; Kansas City, Mo., omnirange station; Kirksville, Mo., omnirange station, including a south alternate via the intersection of the Kansas City omnirange 077° True and the Kirksville omnirange 225° True radials; Burlington, Iowa, omnirange station, including a south alternate; Bradford, Ill., omnirange station, including a north alternate; intersection of the Bradford omnirange 048° True and the Naperville omnirange 254° True radials; Naperville, Ill., omnirange station; South Bend, Ind., omnirange station, including a north alternate from the Naperville omnirange station to the South Bend omnirange station via the intersection of the Naperville omnirange 064° True and the South Bend omnirange 287° True radials; Litchfield, Mich., omnirange station, including a north alternate; Carleton, Mich., omnirange station; Perry, Ohio, nondirectional radio beacon; Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station; to the Colts Neck, N. J., omnirange station.

§ 600.6011 *VOR civil airway No. 11 (Houston, Tex., to Detroit, Mich.).* From the Houston, Tex., omnirange station via the Lufkin, Tex., omnirange station; to the Shreveport, La., omnirange station. From the Pine Bluff, Ark., omnirange station via the Memphis, Tenn., omnirange station, including an east alternate; intersection of the Memphis omnirange 360° True and the Dyersburg omnirange 215° True radials; Dyersburg, Tenn., omnirange station, including a west alternate from the Memphis omnirange station to the Dyersburg omnirange station via the intersection of the Memphis omnirange 345° True and the Dyersburg omnirange 230° True radials; Paducah, Ky., omnirange station; Evansville, Ind., omnirange station; Scotland, Ind., omnirange station, including an east alternate via the intersection of the Evansville omnirange 049° True and the Scotland omnirange 188° True radials; Indianapolis, Ind., omnirange station, including an east alternate via the intersection of the Scotland omnirange 041° True and the Indianapolis omnirange 185° True radials, and a west alternate via the intersection of the Scotland omnirange 011° True and the Indianapolis omnirange 232° True radials; intersection of the Indianapolis omnirange 021° True and the Fort Wayne omnirange 226° True radials; Fort Wayne, Ind., omnirange station; intersection of the Fort Wayne omnirange 037° True and the Salem omnirange 227° True radials; to the Salem, Mich., omnirange station, including a west alternate from the Fort Wayne omnirange station to the Salem omnirange station via the Litchfield, Mich, omnirange station.

§ 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.).* From the Santa Barbara, Calif., omnirange station via the intersection of the Santa Barbara omnirange 091° True and the Fillmore omnirange 284° True radials; Fillmore, Calif., omnirange station; Palmdale, Calif., omnirange station; intersection of the Palmdale omnirange 082° True and the Daggett omnirange 257° True radials; Daggett, Calif., omnirange station; Needles, Calif., omnirange station; Prescott, Ariz., omnirange station; Winslow, Ariz., omnirange station; Zuni, N. Mex., omnirange station, including a north alternate via the intersection of the Winslow omnirange 076° True and the Zuni omnirange 287° True radials; Grants, N. Mex., omnirange station; Albuquerque, N. Mex., omnirange station; Otto, N. Mex., omnirange station, including a south alternate; Anton Chico, N. Mex., omnirange station; Tucumcari, N. Mex., omnirange station, including a north alternate; Amarillo, Tex., omnirange station, including a north alternate; Gage, Oklahoma., omnirange station including a north alternate; Anthony, Kans., omnirange station; Wichita, Kans., omnirange station, including a north alternate from the Gage omnirange station to the Wichita omnirange station via the intersection of the Gage omnirange 044° True and the Wichita omnirange 245° True radials and also a south alternate from the Anthony omnirange station to the Wichita omnirange station via the intersection of the Anthony omnirange 078° True and the Wichita omnirange 194° True radials; Emporia, Kans., omnirange station, including a north alternate via the intersection of the Wichita omnirange 046° True and the Emporia omnirange 259° True radials; Kansas City, Mo., omnirange station; Columbia, Mo., omnirange station, including a north alternate via the intersection of the Kansas City omnirange 077° True and the Columbia omnirange 292° True radials; St. Louis, Mo., omnirange station, including a north and a south alternate; Vandalia, Ill., omnirange station, including a north alternate via the intersection of the St. Louis omnirange 032° True and the Vandalia omnirange 273° True radials; Terre Haute, Ind., omnirange station, including a north alternate via the intersection of the Vandalia omnirange 054° True and the Terre Haute omnirange 283° True radials; Indianapolis, Ind., omnirange station, including a south alternate via the intersection of the Terre Haute omnirange 082° True and the Indianapolis omnirange 232° True radials; Dayton, Ohio, omnirange station, including a north alternate; Columbus, Ohio, omnirange station, including a north alternate via the intersection of the Dayton omnirange 060° and the Columbus omnirange 281° True radials; Wheeling, W. Va., omnirange station, including a north alternate from the Columbus omnirange station to the Wheeling omnirange station via the point of intersection of the Columbus omnirange 067° True and the Mansfield, Ohio, omnirange 120° True radials thence via the direct radial to the Wheeling omnirange station; Pittsburgh, Pa., omnirange station, including a north alternate via the intersection of the Pittsburgh omnirange 067° True and the Johnstown omnirange 290° True radials; Johnstown, Pa., omnirange station; Harrisburg, Pa., omnirange station, including a south alternate; to the West Chester, Pa., omnirange station.

§ 600.6013 *VOR civil airway No. 13 (Houston, Tex., to Duluth, Minn.).* From the Houston, Tex., omnirange station via the Lufkin, Tex., omnirange station, including an east alternate via the intersection of the Houston omnirange 044° True and the Lufkin omnirange 178° True radials; Shreveport, La., omnirange station; to the Texarkana, Ark., omnirange station, including a west alternate via the intersection of the Shreveport omnirange 275° True and the Texarkana omnirange 188° True radials. From the Fort Smith, Ark., omnirange station via the Fayetteville, Ark., omnirange station; Neosho, Mo., omnirange station; Butler, Mo., omnirange station, including a west alternate; Kansas City, Mo., omnirange station; Lamoni, Iowa, omnirange station including an east alternate via the intersection of the Kansas City omnirange 035° True and the Lamoni omnirange 175° True radials; Des Moines, Iowa, omnirange station, including an east and a west alternate; Mason City, Iowa, omnirange station, including an east and a west alternate; Minneapolis, Minn., omnirange station, including a west alternate; Grantsburg, Wis., omnirange station to the Duluth, Minn., omnirange station.

§ 600.6014 *VOR civil airway No. 14 (Roswell, N. Mex., to Boston, Mass.).* That airspace over United States territory from the Roswell, N. Mex., omnirange station via the Lubbock, Tex., omnirange station, including a north alternate; via the intersection of the Roswell omnirange 063° True and the Lubbock omnirange 276° True radials; Childress, Tex., omnirange station; Hobart, Okla., omnirange station; Oklahoma City, Okla., omnirange station; Tulsa, Okla., omnirange station, including a north alternate and also a south alternate via the intersection of the Oklahoma City omnirange 100° True and the Tulsa omnirange 207° True radials; Neosho, Mo., omnirange station, including a north alternate via the intersection of the Tulsa omnirange 050° True and the Neosho omnirange 260° True radials and also a south alternate via the intersection of the Tulsa omnirange 091° True and the Neosho omnirange 227° True radials; Springfield, Mo., omnirange station, including a north alternate via the intersection of the Neosho omnirange 045° True and the Springfield omnirange 261° True radials and also a south alternate; Vichy, Mo., omnirange station, including a north alternate; St. Louis, Mo., omnirange station, including a north alternate and also a south alternate via the intersection of the Vichy omnirange 069° True and the St. Louis omnirange 219° True radials; Vandalia, Ill., omnirange station, including a north alternate via the intersection of the St. Louis omnirange 032° True and the Vandalia omnirange 273° True radials; Terre Haute, Ind., omnirange station, including a north alternate via the intersection of the Vandalia omnirange 054° True and the Terre Haute omnirange 283° True radials; Indianapolis, Ind., omnirange station, including a south alternate via the intersection of the Terre Haute omnirange 082° True and the Indianapolis omnirange 232° True radials; intersection of the Indianapolis omnirange 054° True and the Findlay omnirange 250° True radials; Findlay, Ohio, omnirange station; Cleveland, Ohio, omnirange station; Erie, Pa., omnirange station, including a north alternate; Buffalo, N. Y., omnirange station; Rochester, N. Y., omnirange station; Syracuse, N. Y., omnirange station; Albany, N. Y., omnirange station; Gardner, Mass., omnirange station; to the point of intersection of the Gardner omnirange 132° True and the Boston, Mass., omnirange 223° True radials.

§ 600.6015 *VOR civil airway No. 15 (Galveston, Tex., to Minot, N. Dak.).* From the Galveston, Tex., omnirange station via the Houston, Tex., omnirange station; College Station, Tex., omnirange station; Waco, Tex., omnirange station including an east alternate; Dallas, Tex., omnirange station, including an east alternate via the intersection of the Waco omnirange 036° True and the Dallas omnirange 178° True radials; intersection of the Dallas omnirange 345° True and the Ardmore omnirange 161° True radial; Ardmore, Okla., omnirange station, including a west alternate from the Dallas, Tex., omnirange station to the Ardmore, Okla., omnirange station via the intersection of the Dallas omnirange 324° True and the Ardmore omnirange 176° True radials to the Tulsa, Okla., omnirange station, including an east alternate. From the Kansas City, Mo., omnirange station via the St. Joseph, Mo., omnirange station, including an east alternate via the intersection of the Kansas City omnirange 020° True and the St. Joseph omnirange 132° True radials; Omaha, Nebr., omnirange station, including an east alternate; Sioux City, Iowa, omnirange station, including an east alternate and also a west alternate via the intersection of the Omaha omnirange 320° True and the Sioux City omnirange 175° True radials; Sioux Falls, S. Dak., omnirange station, including an east alternate; Huron, S. Dak., omnirange station; including a west alternates; Aberdeen, S. Dak., omnirange station, including a west alternate; Bismarck, N. Dak., omnirange station including a west alternate, to the Minot, N. Dak., omnirange station.

§ 600.6016 *VOR civil airway No. 16 (Los Angeles, Calif., to Boston, Mass.).* That airspace over United States territory from the Los Angeles, Calif., omnirange station via the Ontario, Calif., omnirange station; intersection of the Ontario omnirange 091° True and the Blythe omnirange 288° True radials; Blythe, Calif., omnirange station; Hassayampa, Ariz., omnirange station; Phoenix, Ariz., omnirange station; intersection of the Phoenix omnirange 160° True and the Tucson omnirange 315° True radials; Tucson, Ariz., omnirange station; Cochise, Ariz., omnirange station including a south alternate via the intersection of the Tucson omnirange 121° True and the Cochise omnirange 257° True radials; Columbus, N. Mex., omnirange station; El Paso, Tex., omnirange station including a north alternate; Salt Flat, Tex., omnirange station; Wink, Tex., omnirange station, including a north alternate; Midland, Tex., omnirange station, including a north alternate; Big Spring, Tex., omnirange station; Abilene, Tex., omnirange station, including a south alternate; Mineral Wells, Tex., omnirange station, including a north alternate and also a south alternate via the intersection of the Abilene omnirange 096° True and the Mineral Wells omnirange 247° True radials; Fort Worth, Tex., omnirange station; Dallas, Tex., omnirange station, including a south alternate via the intersection of the Fort Worth omnirange 132° True and the Dallas omnirange 247° True radials; Sulphur Springs, Tex., omnirange station, including a north alternate from the Fort Worth omnirange station to the Sulphur Springs omnirange station via the intersection of the Fort Worth omnirange 069° True and the Sulphur Springs omnirange 268° True radials; Texarkana, Ark., omnirange station, including a north alternate; Pine Bluff, Ark., omnirange station, including a south alternate; Memphis, Tenn., omnirange station, including a south alternate; Jackson, Tenn., omnirange station, including a south alternate; Graham, Tenn., omnirange station, including a south alternate; Nashville, Tenn., omnirange station; Crossville, Tenn., omnirange station, including a south alternate from the Graham omnirange station to the Crossville omnirange station via the Graham omnirange 099° True and the Crossville omnirange 257° True radials; intersection of the Crossville omnirange 104° True and the Knoxville omnirange 249° True radials; Knoxville, Tenn., omnirange station; Tri-City, Tenn., omnirange station; Pulaski, Va., omnirange station, including a north alternate from the Knoxville omnirange station to the Pulaski omnirange station via the intersection of the Knoxville omnirange 054° True and the Pulaski omnirange 260° True radials; Montebello, Va., omnirange station; Gordonsville, Va., omnirange station; Andrews, Md., radio range station via the Gordonsville omnirange 056° True radial; a point at latitude 38°51'00'' north longitude 76°30'00'' west bearing 062° True from the Andrews, Md., radio range station; Dover, Del., omnirange station via the Dover omnirange 244° True radial; Atlantic City, N. J., VAR station via the Dover omnirange 070° True radial; intersection of the Atlantic City VAR northeast course and the Colts Neck omnirange 204° True radial; Colts Neck, N. J., omnirange station; intersection of the Colts Neck omnirange 103° True and the Riverhead omnirange 222° True radials; Riverhead, N. Y., omnirange station; intersection of the Riverhead omnirange 042° True and the Norwich omnirange 224° True radials; Norwich, Conn., omnirange station to the Boston, Mass., omnirange station. Those portions of this airway between the Atlantic City, N. J., VAR station and the Colts Neck, N. J., omnirange station more than 3 miles either side of the center line are excluded.

§ 600.6017 *VOR civil airway No. 17 (Laredo, Tex., to Goodland, Kans.).* That airspace over United States territory from the Laredo, Tex., omnirange station via Cotulla, Tex., omnirange station; San Antonio, Tex., omnirange station; Austin, Tex., omnirange station, including an east alternate via the intersection of the San Antonio omnirange 061° True and the Austin omnirange 158° True radials and a west alternate via the intersection of the San Antonio omnirange 002° True and the Austin omnirange 237° True radials; Waco, Tex., omnirange station, including an east alternate; Fort Worth, Tex., omnirange station, including a west alternate via the intersection of the Waco omnirange 330° True and the Fort Worth omnirange 187° True radials; Oklahoma City, Okla., omnirange station; Gage Okla., omnirange station; Garden City, Kans., omnirange station to the Goodland, Kans., omnirange station, including a west alternate.

§ 600.6018 *VOR civil airway No. 18 (Dallas, Tex., to Charleston, S. C.).* From the Dallas, Tex., omnirange station via the Quitman, Tex., omnirange station; Shreveport, La., omnirange station; Monroe, La., omnirange station; Jackson, Miss., omnirange station, including a south alternate; Meridian, Miss., omnirange station, including a south alternate; Tuscaloosa, Ala., omnirange station, including a north alternate; Birmingham, Ala., omnirange station; Anniston, Ala., omnirange station; intersection of the Anniston omnirange 084° True radial and the Atlanta Airport ILS localizer west course; Atlanta, Ga., Airport ILS localizer; intersection of the Atlanta Airport ILS localizer east course and the Augusta omnirange 278° True radial; Augusta, Ga., omnirange station, including a south alternate from the Anniston omnirange station to the Augusta omnirange station via the intersection of the Anniston omnirange 104° True and the Atlanta omnirange 262° True radials, the Atlanta, Ga., omnirange station and the intersection of the Atlanta omnirange 102° True and the Augusta omnirange 263° True radials; intersection of the Augusta omnirange 090° True and the Charleston omnirange 301° True radials; to the Charleston, S. C., omnirange station. The portions of this airway which conflict with the Fort McClellan Restricted Area (R–130) are excluded.

§ 600.6019 *VOR civil airway No. 19 (El Paso, Tex., to Great Falls, Mont.).* That airspace over United States territory from the El Paso, Tex., omnirange station via the intersection of the El Paso omnirange 271° True and the Truth or Consequences omnirange 162° True radials; Truth or Consequences, N. Mex., omnirange station; the intersection of the Truth or Consequences, N. Mex., omnirange 21° True and the Albuquerque, N. Mex., omnirange 169° True radials; Albuquerque, N. Mex., omnirange station; intersection of the Albuquerque

omnirange 025° True and the Santa Fe omnirange 253° True radials; Santa Fe, N. Mex., omnirange station; Las Vegas, N. Mex., omnirange station; Raton, N. Mex., omnirange station, including an east alternate; to the Pueblo, Colo., omnirange station. From the Denver, Colo., omnirange station via the Cheyenne, Wyo., omnirange station, including an east alternate via the intersection of the Denver omnirange 016° True and the Cheyenne omnirange 131° True radials; Douglas, Wyo., omnirange station, including an east alternate; Casper, Wyo., omnirange station, including an east alternate; Crazy Woman, Wyo., omnirange station, including an east alternate; Sheridan, Wyo., omnirange station, including an east alternate; Billings, Mont., omnirange station; intersection of the Billings omnirange 347° True and the Lewistown omnirange 104° True radials; Lewistown, Mont., omnirange station to the Great Falls, Mont., omnirange station.

§ 600.6020 *VOR civil airway No. 20 (Laredo, Tex., to Richmond, Va.).* That airspace over United States territory from Laredo, Tex., omnirange station via the Corpus Christi, Tex., omnirange station; Palacios, Tex., omnirange station; Houston, Tex., omnirange station; Beaumont, Tex., omnirange station; including a north alternate via the intersection of the Houston omnirange 044° True and the Beaumont omnirange 273° True radials; Lake Charles, La., omnirange station, including a south alternate from the Houston omnirange station to the Lake Charles omnirange station via the intersection of the Houston omnirange 090° True and the Lake Charles omnirange direct radial to the Galveston, Tex., omnirange station; Lafayette, La., omnirange station; New Orleans, La., omnirange station; intersection of the New Orleans omnirange 066° True and the Mobile omnirange 242° True radials; Mobile, Ala., omnirange station; Evergreen, Ala., omnirange station; Montgomery, Ala., omnirange station; La Grange, Ga., omnirange station; Atlanta, Ga., omnirange station; intersection of the Atlanta omnirange 048° True and the Royston omnirange 236° True radials; Royston, Ga., omnirange station; Spartanburg, S. C., omnirange station, including a north alternate from the Atlanta omnirange station to the Spartanburg, S. C., omnirange station via the Norcross, Ga., omnirange station, and the intersection of the Norcross omnirange 054° True and the Spartanburg omnirange 249° True radials; Greensboro, N. C., omnirange station; South Boston, Va., omnirange station; to the Flat Rock, Va., omnirange station.

§ 600.6021 *VOR civil airway No. 21 (Long Beach, Calif., to United States-Canadian Border).* From the point of intersection of the Long Beach omnirange 266° True and the Los Angeles, Calif., omnirange 207° True radials via the Long Beach, Calif., omnirange station; Ontario, Calif., omnirange station; Daggett, Calif., omnirange station; Las Vegas, Nev., omnirange station; Mormon Mesa, Nev., omnirange station, including an east alternate via the intersection of the Las Vegas omnirange 086° True and the Mormon Mesa omnirange 192° True radials; Milford, Utah, omnirange station; Delta, Utah, omnirange station; intersection of the Delta omnirange 023° True and Salt Lake City omnirange 179° True radials; Salt Lake City, Utah, omnirange station; Ogden, Utah, omnirange station; Malad City, Idaho, omnirange station; Pocatello, Idaho, omnirange station; intersection of the Pocatello omnirange 033° True and the Dubois 170° True radials; Dubois, Idaho, omnirange station, including a west alternate between the Pocatello, Idaho, omnirange station and the Dubois, Idaho, omnirange station via the direct radials; Dillon, Mont., omnirange station; Whitehall, Mont., omnirange station; Helena, Mont., omnirange station; intersection of the Helena omnirange 004° True and the Great Falls omnirange 222° True radials; Great Falls, Mont., omnirange station; Cut Bank, Mont., omnirange station to the United States-Canadian Border via the Cut Bank omnirange 347° True radial.

§ 600.6022 *VOR civil airway No. 22 (New Orleans, La., to Jacksonville, Fla.).* From the New Orleans, La., omnirange station via the intersection of the New Orleans omnirange 081° True and the Mobile omnirange 223° True radials; Mobile, Ala., omnirange station; intersection of the Mobile omnirange 070° True and the Crestview omnirange 274° True radials; Crestview, Fla., omnirange station; Marianna, Fla., omnirange station; Tallahassee, Fla., omnirange station including a north alternate via the intersection of the Marianna omnirange 094° True and the Tallahassee omnirange 005° True radial; to the Jacksonville, Fla., omnirange station. Those portions of this airway above 19,000 feet, above mean sea level, which lie within the Tyndall AFB restricted area (R–336), are excluded daily between sunset and sunrise.

§ 600.6023 *VOR civil airway No. 23 (San Diego, Calif., to Bellingham, Wash.).* From the San Diego, Calif., omnirange station via the intersection of the San Diego omnirange 336° True and the Long Beach omnirange 137° True radials; Long Beach, Calif., omnirange station; intersection of the Long Beach omnirange 287° True and the Los Angeles omnirange 123° True radials; Los Angeles, Calif., omnirange station; intersection of the Los Angeles omnirange 355° True and the Bakersfield omnirange 149° True radials; Bakersfield, Calif., omnirange station; Fresno, Calif., omnirange station; Modesto, Calif., omnirange station, including an east alternate via the intersection of the Fresno omnirange 328° True and the Modesto omnirange 117° True radials; Sacramento, Calif., omnirange station; intersection Sacramento omnirange 346° True and the Red Bluff omnirange 159° True radials; Red Bluff, Calif., omnirange station; Fort Jones, Calif., omnirange station; Medford, Oreg., omnirange station, including an east alternate via the intersection of the Fort Jones omnirange 042° True and the Medford omnirange 157° True radials; Eugene, Oreg., omnirange station; Portland, Oreg., omnirange station, including a west alternate via the intersection of the Eugene omnirange 341° True and the Newburg omnirange 204° True radials, the Newburg, Oreg., omnirange station, and the intersection of the Newburg omnirange 020° True and the Portland omnirange 247° True radials; intersection of the Portland omnirange 353° True and the Seattle omnirange 197° True radials, excluding the portion which overlaps the Fort Lewis restricted area (R–244); Seattle, Wash., omnirange station, including a west alternate from the Portland omnirange station to the Seattle omnirange station via the intersection of the Portland omnirange 353° True and the Olympia omnirange 165° True radials, the Olympia, Wash., omnirange station and the point of intersection of the Olympia omnirange 337° True and the Seattle omnirange 247° True radials; intersection of the Seattle omnirange 359° True and the Bellingham omnirange 169° True radials; Bellingham, Wash., omnirange station; to the United States-Canadian Border via the Bellingham omnirange 304° True radial.

§ 600.6024 *VOR civil airway No. 24 (Aberdeen, S. Dak., to Redwood Falls, Minn.).* From the Aberdeen, S. Dak., omnirange station via the Watertown, S. Dak., omnirange station, including a north alternate; to the Redwood Falls, Minn., omnirange station, including a north alternate via the intersection of the Watertown omnirange 085° True and the Redwood Falls omnirange 305° True radials.

§ 600.6025 *VOR civil airway No. 25 (Los Angeles, Calif., to Ellensburg, Wash.).* From the Camarillo, Calif., MF radio range station via the Santa Barbara, Calif., omnirange station; Paso Robles, Calif., omnirange station; intersection of the Paso Robles, omnirange 335° True and the San Francisco omnirange 141° True radials; San Francisco, Calif., omnirange station; intersection of the San Francisco omnirange 304° True and the Point Reyes omnirange 162° True radials; Point Reyes, Calif., omnirange station; Ukiah, Calif., omnirange station; Red Bluff, Calif., omnirange station; intersection of the Red Bluff omnirange 018° True and the Klamath Falls omnirange 181° True radials; Klamath Falls, Oreg., omnirange station; Redmond, Oreg., omnirange station; The Dalles, Oreg., omnirange station; Yakima, Wash., omnirange station, including an east alternate via the intersection of The Dalles omnirange 032° True and the Yakima omnirange 183° True radials; intersection of the Yakima omnirange 304° True and the Ellensburg omnirange 191° True radials; to the Ellensburg, Wash., omnirange station, excluding the portions of this airway which overlap the Yakima restricted area (R–247).

§ 600.6026 *VOR civil airway No. 26 (Cherokee, Wyo., to Cleveland, Ohio).* That airspace over United States territory from the Cherokee, Wyo., omnirange station via the Casper, Wyo., omnirange station; Rapid City, S. Dak., omnirange station; Philip, S. Dak., omnirange station, including a north alternate; Pierre, S. Dak., omnirange station, including a south alternate; Huron, S. Dak., omnirange station, including a south alternate; Redwood Falls, Minn., omnirange station, including a south alternate; Minneapolis, Minn., omnirange station, including a south alternate; Eau Claire, Wis., omnirange station, including a south alternate; Wausau, Wis., omnirange station, including a south alternate; Green Bay, Wis., omnirange station, including a south alternate; White Cloud, Mich., omnirange station; Lansing, Mich., omnirange station; Salem, Mich., omnirange station; intersection of the Salem omnirange 123° True and the Cleveland omnirange 330° True radials; to the Cleveland, Ohio, omnirange station.

§ 600.6027 *VOR civil airway No. 27 (Los Angeles, Calif., to Seattle, Wash.).* From the Camarillo, Calif., MF radio range station via the Santa Barbara, Calif., omnirange station; Paso Robles, Calif., omnirange station, including a west alternate via the intersection of the Santa Barbara omnirange 304° True and the Paso Robles omnirange 169° True radials; intersection of the Paso Robles omnirange 335° True and the Salinas omnirange 134° True radials; Salinas, Calif., omnirange station; intersection of the Salinas 319° True and the Point Reyes omnirange 162° True radials; Point Reyes, Calif., omnirange station, including an east alternate from the Salinas omnirange station to the Point Reyes omnirange station via the San Francisco, Calif., omnirange station and the Oakland, Calif., omnirange station; Ukiah, Calif., omnirange station; Fortuna, Calif., omnirange station; Crescent City, Calif., omnirange station; North Bend, Oreg., omnirange station; Newport, Oreg., omnirange station; Hoquiam, Wash., omnirange station to the Seattle, Wash., omnirange station, excluding the portion above 14,500 feet above mean sea level which lies beneath, and which conflicts with, the Olympic restricted area (R–241).

§ 600.6028 *VOR civil airway No. 28 (Oakland, Calif., to Reno, Nev.).* From the Oakland, Calif., omnirange station via the Modesto, Calif., omnirange station; to the Reno, Nev., omnirange station.

§ 600.6029 *VOR civil airway No. 29 (Salisbury, Md., to United States-Canadian Border).* From the Chincoteague, Va., Navy LF radio range station via the Salisbury, Md., omnirange station; Dover, Del., omnirange station; West Chester, Pa., omnirange station; Allentown, Pa., omnirange station; Scranton, Pa., omnirange station; Binghamton, N. Y., omnirange station; Syracuse, N. Y., omnirange station; Watertown, N. Y., omnirange station; the intersection of the Watertown omnirange 33° True and the Massena omnirange 241° True radials; Massena, N. Y., omnirange station to the United States-Canadian Border via the Massena omnirange 38° True radial. The portions of this airway which overlap the Chincoteague restricted area (R–45) are excluded.

§ 600.6030 *VOR civil airway No. 30 (Milwaukee, Wis., to Nantucket, Mass.).* From the Milwaukee, Wis., omnirange station via the intersection of the Milwaukee omnirange 102° True and the Pullman omnirange 291° True radials; Pullman, Mich., omnirange station, including a south alternate; Litchfield, Mich., omnirange station; Waterville, Ohio, omnirange station; intersection of the Waterville omnirange 111° True and the Wellington VAR west course; Wellington, Ohio, VAR station; intersection of the Wellington VAR east course and the Youngstown omnirange 250° True radial; Youngstown, Ohio, omnirange station; Philipsburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station; to the point of intersection of the Allentown omnirange 088° True and the Caldwell, N. J., omnirange 217° True radials. From the Idlewild, N. Y., omnirange station via the point of intersection of the Idlewild omnirange 083° True and the Nantucket omnirange 252° True radials to the Nantucket, Mass., omnirange station.

§ 600.6031 *VOR civil airway No. 31 (Baltimore, Md., to Rochester, N. Y.).* From the Baltimore, Md., omnirange station via the Harrisburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Williamsport, Pa., omnirange station; Elmira, N. Y., omnirange station; intersection of the Elmira omnirange 354° True and the Rochester omnirange 130° True radials; to the Rochester, N. Y., omnirange station.

§ 600.6032 *VOR civil airway No. 32 (Battle Mountain, Nev., to Fort Bridger, Wyo.).* From the Battle Mountain, Nev., omnirange station via the Elko, Nev., omnirange station; Bonneville, Utah, omnirange station, including a north alternate from the Elko omnirange station to the Bonneville omnirange station via the Wells, Nev., omnirange station; Salt Lake City, Utah, omnirange station; to the Fort Bridger, Wyo., omnirange station.

§ 600.6033 *VOR civil airway No. 33 (Baltimore, Md., to Buffalo, N. Y.).* From the Baltimore, Md., omnirange station via the Harrisburg, Pa., omnirange station; Philipsburg, Pa., omnirange station; Bradford, Pa., omnirange station to the Buffalo, N. Y., omnirange station.

§ 600.6034 *VOR civil airway No. 34 (Rochester, N. Y., to Wilton, Conn.).* From the Rochester, N. Y., omnirange station via the Binghamton, N. Y., omnirange station; intersection of the Binghamton omnirange 110° True and the Wilton omnirange 300° True radials; Wilton, Conn., omnirange station to the point of intersection of the Wilton omnirange 090° True and the Norwich, Conn., omnirange 224° True radials.

§ 600.6035 *VOR civil airway No. 35 (Tallahassee, Fla., to Syracuse, N. Y.).* From the Tallahassee, Fla., omnirange station via the Albany, Ga., omnirange station; Macon, Ga., omnirange station; Royston, Ga., omnirange station; Asheville, N. C., omnirange station; Tri-City, Tenn., omnirange station; intersection of the Tri-City omnirange 012° True and the Charleston omnirange 185° True radials; Charleston, W. Va., omnirange station; Parkersburg, W. Va., omnirange station; intersection of Parkersburg omnirange 060° True and the Pittsburgh omnirange 223° True radials; Pittsburgh, Pa., omnirange station; Philipsburg, Pa., omnirange station; Elmira, N. Y., omnirange station; to the Syracuse, N. Y., omnirange station, including an east alternate via the intersection of the Elmira omnirange 047° True and the Syracuse omnirange 177° True radials. The portion of this airway above 19,000 feet above mean sea level, which lies within the Tyndall AFB Restricted Area (R–336), is excluded daily between sunset and sunrise.

§ 600.6036 *VOR civil airway No. 36 (Buffalo, N. Y., to New York, N. Y.).* From the Buffalo, N. Y., omnirange station via the Elmira, N. Y., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station to the intersection of the Wilkes-Barre-Scranton omnirange 117° True and the Wilton, Conn., omnirange 240° True radials.

§ 600.6037 *VOR civil airway No. 37 (Elkins, W. Va., to Erie, Pa.).* From the Elkins, W. Va., omnirange station via the Morgantown, W. Va., omnirange station; Pittsburgh, Pa., omnirange station; to the Erie, Pa., omnirange station.

§ 600.6038 *VOR civil airway No. 38 (Chicago, Ill., to Elkins, W. Va.).* From the Peotone, Ill., omnirange station via the Fort Wayne, Ind., omnirange station; Findlay, Ohio, omnirange station; Columbus, Ohio, omnirange station, including a south alternate; Parkersburg, W. Va., omnirange station; to the Elkins, W. Va., omnirange station.

§ 600.6039 *VOR civil airway No. 39 (South Boston, Va., to Kennebunk, Maine).* From the South Boston, Va., omnirange station via the Gordonsville, Va., omnirange station; Herndon, Va., omnirange station to the point of intersection of the Herndon omnirange 045° True and the Baltimore omnirange 281° True radials. From the intersection of the Baltimore, Md., omnirange 015° True and the Allentown, Pa., omnirange 228° True radials via the Allentown, Pa., omnirange station; Stroudsburg, Pa., omnirange station; Poughkeepsie, N. Y., omnirange station; Gardner, Mass., omnirange station; Concord, N. H., omnirange station; to the Kennebunk, Maine, omnirange station.

§ 600.6040 *VOR civil airway No. 40 (Cleveland, Ohio, to Pittsburgh, Pa.).* From the point of intersection of the Mansfield, Ohio, omnirange 345° True radial and the Wellington VAR west course via the Wellington, Ohio, VAR station; intersection of the Wellington VAR east course and the Cleveland omnirange 132° True radial; intersection of the Cleveland omnirange 132° True and the Pittsburgh omnirange 291° True radials; to the Pittsburgh, Pa., omnirange station.

§ 600.6041 *VOR civil airway No. 41 (Pittsburgh, Pa., to Youngstown, Ohio).* From the Pittsburgh, Pa., omnirange sta-

tion via the intersection of the Pittsburgh omnirange 326° True and the Youngstown 180° True radials to the Youngstown, Ohio, omnirange station.

§ 600.6042 *VOR civil airway No. 42 (Detroit, Mich., to Washington, D. C.).* That airspace over United States territory from the Salem, Mich., omnirange station via the intersection of the Salem omnirange 098° True and the Cleveland omnirange 330° True radials; Cleveland, Ohio, omnirange station; intersection of the Cleveland omnirange 116° True and the Pittsburgh omnirange 311° True radials; Pittsburgh, Pa., omnirange station; Johnstown, Pa., omnirange station; Martinsburg, W. Va., omnirange station; to the point of intersection of the Martinsburg omnirange 123° True and the Washington, D. C., terminal omnirange 319° True radials; to the Washington, D. C., terminal omnirange station.

§ 600.6043 *VOR civil airway No. 43 (Columbus, Ohio, to Erie, Pa.).* From the Columbus, Ohio, omnirange station via the Youngstown, Ohio, omnirange station; intersection of the Youngstown omnirange 360° True and the Erie omnirange 245° True radials to the Erie, Pa., omnirange station.

§ 600.6044 *VOR civil airway No. 44 (Louisville, Ky., to Baltimore, Md.).* From the Louisville, Ky., omnirange station via the York, Ky., omnirange station; Parkersburg, W. Va., omnirange station; Morgantown, W. Va., omnirange station; Martinsburg, W. Va., omnirange station; Baltimore, Md., omnirange station; to the point of intersection of the Baltimore omnirange 100° True and the Dover, Del., omnirange 244° True radials, except that that portion of this civil airway which overlaps the Aberdeen restricted area (R–54) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control.

§ 600.6045 *VOR civil airway No. 45 (Lexington, Ky., to Lansing, Mich.).* From the Lexington, Ky., omnirange station via the York, Ky., omnirange station; Columbus, Ohio, omnirange station; Waterville, Ohio, omnirange station; to the Lansing, Mich., omnirange station. The portions of this airway which conflict with the Wilmington Restricted Area (R–109) are excluded.

§ 600.6046 *VOR civil airway No. 46 (New York, N. Y., to Nantucket, Mass.).* From the point of intersection of the Riverhead, N. Y., omnirange 262° True and the Wilton, Conn., omnirange 198° True radials via the Riverhead, N. Y., omnirange station; intersection of the Riverhead omnirange 085° True and the Nantucket omnirange 252° True radials to the Nantucket, Mass., omnirange station, including a south alternate from the Riverhead omnirange station to the Nantucket, Mass., omnirange station via the intersection of the Riverhead omnirange 109° True and the Nantucket omnirange 252° True radials. The portions of this airway and its associated south alternate below 7,950 feet above mean sea level which lie within the confines of the Montauk Point Restricted Area (R–487) and the Montauk Point Warning Area (W–487) (published in § 608.40 of this Chapter) shall be used only after obtaining prior approval from the Civil Aeronautics Administration Air Traffic Control.

§ 600.6047 *VOR civil airway No. 47 (Louisville, Ky., to Detroit, Mich.).* From the Louisville, Ky., omnirange station via the intersection of the Louisville omnirange 356° True and the Cincinnati omnirange 241° True radials; Cincinnati, Ohio, omnirange station; Dayton, Ohio, omnirange station, including a west alternate via the intersection of the Cincinnati omnirange 004° True and the Dayton omnirange 227° True radials; Findlay, Ohio omnirange station, including a west alternate; Waterville, Ohio, omnirange station; intersection of the Waterville omnirange 351° True radial and the Detroit Willow Run Airport ILS localizer 227° True course; Detroit, Mich., Willow Run Airport ILS localizer; to the point of intersection of the Detroit Willow Run Airport localizer 047° True course and the Salem, Mich., omnirange 098° True radial.

§ 600.6048 *VOR civil airway No. 48 (Burlington, Iowa, to Pontiac, Ill.).* From the Burlington, Iowa, omnirange station via the Peoria, Ill., omnirange station; to the Pontiac, Ill., omnirange station.

§ 600.6049 *VOR civil airway No. 49 (Dillon, Mont., to Great Falls, Mont.).* From the Dillon, Mont., omnirange station via the Butte, Mont., omnirange station; intersection of the Butte omnirange 002° True and the Helena, Mont., omnirange 272° True radials; intersection of the Helena, Mont., omnirange 272° True and the Great Falls omnirange 222° True radials; to the Great Falls, Mont., omnirange station.

§ 600.6050 *VOR civil airway No. 50 (St. Joseph, Mo., to Indianapolis, Ind.).* From the St. Joseph, Mo., omnirange station via the Kirksville, Mo., omnirange station; Quincy, Ill., omnirange station, including a south alternate via the intersection of the Kirksville omnirange 121° True and the Quincy omnirange 258° True radials; Springfield, Ill., omnirange station; Terre Haute, Ind., omnirange station; to the intersection of the Terre Haute omnirange 082° True radial and the Indianapolis, Ind., Wier Cook Airport ILS localizer 225° True course.

§ 600.6051 *VOR civil airway No. 51 (Miami, Fla., to Chicago, Ill.).* From the Miami, Fla., omnirange station via the intersection of the Miami omnirange 060° True and the West Palm Beach omnirange 176° True radials; West Palm Beach, Fla., omnirange station; Vero Beach, Fla., omnirange station; Daytona Beach, Fla., omnirange station; Jacksonville, Fla., omnirange station; Alma, Ga., omnirange station, including a west alternate; Macon, Ga., omnirange station; intersection of the Macon omnirange 330° True and the Atlanta omnirange 102° True radials; Atlanta, Ga., omnirange station, including a west alternate from the Alma omnirange station to the Atlanta omnirange station via the intersection of the Alma omnirange 305° True and the Atlanta omnirange 151° True radials; intersection of the Atlanta omnirange 352° True and the Chattanooga omnirange 152° True radials; Chattanooga, Tenn., omnirange station via the Crossville, Tenn., omnirange station; Louisville, Ky., omnirange station; intersection of the Louisville omnirange 356° True and the Indianapolis omnirange 137° True radials; Indianapolis, Ind., omnirange station; Lafayette, Ind., omnirange station; Chicago Heights, Ill., omnirange station, including an east alternate; to the point of intersection of the Chicago Heights, Ill., omnirange 342° True and the Naperville, Ill., omnirange 090° True radials.

§ 600.6052 *VOR civil airway No. 52 (Des Moines, Iowa, to St. Louis, Mo.).* From the Des Moines, Iowa, omnirange station via Ottumwa, Iowa, omnirange station, including a south alternate; Quincy, Ill., omnirange station, including a north alternate, to the St. Louis, Mo., omnirange, including a north alternate.

§ 600.6053 *VOR civil airway No. 53 (Charleston, S. C., to Milwaukee, Wis.).* From the Charleston, S. C., omnirange station via the Columbia, S. C., omnirange station; Spartanburg, S. C., omnirange station; Asheville, N. C., omnirange station; Tri-City, Tenn., omnirange station; Lexington, Ky., omnirange station; Louisville, Ky., omnirange station; intersection of the Louisville omnirange 333° True and the Indianapolis omnirange 170° True radials; Indianapolis, Ind., omnirange station, including a west alternate from the Louisville omnirange station to the Indianapolis omnirange station via the Louisville omnirange 310° True and the Indianapolis omnirange 185° True radials; Lafayette, Ind., omnirange station, including a west alternate; intersection of the Lafayette omnirange 321° True and the Peotone omnirange 147° True radials; Peotone, Ill., omnirange station; Chicago, Ill., Midway Airport terminal omnirange station; intersection of the Chicago Midway Airport terminal omnirange 325° True and the Naperville, Ill., omnirange 358° True radials; intersection of the Naperville omnirange 358° True and the Milwaukee omnirange 215° True radials; to the Milwaukee, Wis., omnirange station.

§ 600.6054 *VOR civil airway No. 54 (Texarkana, Ark., to Charlotte, N. C.).* From the Texarkana, Ark., omnirange station via the Little Rock, Ark., omnirange station, including a north alternate via the intersection of the Texarkana omnirange 031° True and the Little Rock omnirange 255° True radials; intersection of the Little Rock omnirange 077° True and the Memphis omnirange 261° True radials; Memphis, Tenn., omnirange station, including a north alternate from the Little Rock omnirange station to the Memphis omnirange station via the intersection of the Little Rock omnirange 062° True and the Memphis omnirange 276° True radials; to the Muscle Shoals, Ala., omnirange station. From the Chattanooga, Tenn., omnirange station via the Spartanburg, S. C., omnirange station; to the Charlotte, N. C., omnirange station.

§ 600.6055 *VOR civil airway No. 55 (Dayton, Ohio, to Green Bay, Wis.).* From the Dayton, Ohio, omnirange station via the Fort Wayne, Ind., omnirange station, including a west alternate; Goshen, Ind., omnirange station; South Bend, Ind., omnirange station; Pullman, Mich., omnirange station; Muskegon, Mich., omnirange station; intersection of the Muskegon omnirange 352° True and the Green Bay omnirange 118° True radials; to the Green Bay, Wis., omnirange station.

§ 600.6056 *VOR civil airway No. 56 (Montgomery, Ala., to Florence, S. C.).* From the Montgomery, Ala., omnirange station via the Columbus, Ga., omnirange station, including a north alternate via the intersection of the Montgomery omnirange 049° True and the Columbus omnirange 270° True radials; intersection of the Columbus omnirange 020° True and the Macon omnirange 272° True radials; Macon, Ga., omnirange station; Augusta, Ga., omnirange station; Columbia, S. C., omnirange station; to the Florence, S. C., omnirange station; including a north alternate via the intersection of the Columbia omnirange 003° True and the Florence omnirange 268° True radials. The portions of this airway which overlap the Savannah River Airspace Reservation (P–378) and the Fort Benning restricted area (R–129) are excluded.

§ 600.6057 *VOR civil airway No. 57 (Graham, Tenn., to Chicago, Ill.).* From the Graham, Tenn., omnirange station via the Bowling Green, Ky., omnirange station; Scotland, Ind., omnirange station; intersection of the Scotland omnirange 356° True and the Lafayette omnirange 186° True radials; Lafayette, Ind., omnirange station; to the Chicago Heights, Ill., omnirange station.

§ 600.6058 *VOR civil airway No. 58 (Pittsburgh, Pa., to Hartford, Conn.).* From the Pittsburgh, Pa., omnirange station via the Philipsburg, Pa., omnirange station; Williamsport, Pa., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station; Poughkeepsie, N. Y., omnirange station; Hartford, Conn., omnirange station to the point of intersection of the Hartford omnirange 130° True and the Riverhead, N. Y., omnirange 042° True radials.

§ 600.6059 *VOR civil airway No. 59 (Evansville, Ind., to Moline, Ill.).* From the Evansville, Ind., omnirange station to the Vandalia, Ill., omnirange station, including an east alternate. From the Springfield, Ill., omnirange station via the Peoria, Ill., omnirange station; Bradford, Ill., omnirange station; to the Moline, Ill., omnirange station.

§ 600.6060 *VOR civil airway No. 60 (Albuquerque, N. Mex., to Tucumcari, N. Mex.).* From the Albuquerque, N. Mex., omnirange station via the Otto, N. Mex., omnirange station, including a south alternate; Las Vegas, N. Mex., omnirange station to the Tucumcari, N. Mex., omnirange station.

§ 600.6061 *VOR civil airway No. 61 (Fort Worth, Tex., to Lawton, Okla.).* From the Fort Worth, Tex., omnirange station via the Wichita Falls, Tex., omnirange station, including a west alternate, to the Lawton, Okla., omnirange station.

§ 600.6062 *VOR civil airway No. 62 (Santa Fe, N. Mex., to Anton Chico, N. Mex.).* From the Santa Fe, N. Mex., omnirange station to the Anton Chico, N. Mex., omnirange station.

§ 600.6063 *VOR civil airway No. 63 (McAlester, Okla., to Milwaukee, Wis.).* From the McAlester, Okla., omnirange station via the Fayetteville, Ark., omnirange station; Springfield, Mo., omnirange station; Quincy, Ill., omnirange station; Burlington, Iowa, omnirange station; Moline, Ill., omnirange station; Janesville, Wis., omnirange station, including a west alternate; to the Milwaukee, Wis., omnirange station, including a west alternate via the intersection of the Janesville omnirange 051° True and the Milwaukee omnirange 286° True radials.

§ 600.6064 *VOR civil airway No. 64 (Long Beach, Calif., to Blythe, Calif.).* From the Long Beach, Calif., omnirange station via the Thermal, Calif., omnirange station; to the Blythe, Calif., omnirange station.

§ 600.6065 *VOR civil airway No. 65 (Bonner Springs, Kans., to St. Joseph, Mo.).* From the point of intersection of the Kansas City, Mo., omnirange 231° True and the St. Joseph omnirange 178° True radials to the St. Joseph, Mo., omnirange station.

§ 600.6066 *VOR civil airway No. 66 (San Diego, Calif., to Midland, Tex.).* That airspace over United States territory from the San Diego, Calif., omnirange station via the intersection of the San Diego omnirange 108° True and the Yuma omnirange 267° True radials; Yuma, Ariz., omnirange station; intersection of the Yuma omnirange 87° True and the Gila Bend omnirange 261° True radials; Gila Bend, Ariz., omnirange station; Tucson, Ariz., omnirange station including a north alternate via the intersection of the Gila Bend omnirange 100° True and the Tucson omnirange 315° True radials; Douglas, Ariz., omnirange station; the intersection of the Douglas 63° True and the Columbus, N. Mex., omnirange 277° True radials; Columbus, N. Mex., omnirange station; El Paso, Tex., omnirange station, including a north alternate; Hudspeth, Tex., omnirange station; Culberson, Tex., omnirange station; the intersection of the Culberson omnirange 90° True and the Midland omnirange 234° True radials to the Midland Tex., omnirange station.

§ 600.6067 *VOR civil airway No. 67 (Waterloo, Iowa, to Rochester, Minn.).* From the Waterloo, Iowa, omnirange station via the Mason City, Iowa, omnirange station to the Rochester, Minn., omnirange, including a west alternate.

§ 600.6068 *VOR civil airway No. 68 (Albuquerque, N. Mex., to Brownsville, Tex.).* That airspace over United States territory from the Albuquerque, N. Mex., omnirange station via the intersection of the Albuquerque omnirange 120° True and the Corona omnirange 311° True radials; Corona, N. Mex., omnirange station, including a north alternate from the Albuquerque omnirange station to the Corona omnirange station via the intersection of the Albuquerque omnirange 103° True and the Corona omnirange 328° True radials and also a south alternate from the Albuquerque omnirange station to the Corona omnirange station via the intersection of the Albuquerque omnirange 169° True and the Corona omnirange 272° True radials; Roswell, N. Mex., omnirange station, including a north alternate via the intersection of the Corona omnirange 125° True and the Roswell omnirange 335° True radials; Hobbs, N. Mex., omnirange station; Midland, Tex., omnirange station, including a south alternate; San Angelo, Tex., omnirange station, including a south alternate; Junction, Tex., omnirange station; San Antonio, Tex., omnirange station; intersection of the San Antonio omnirange 167° True and the Corpus Christi omnirange 316° True radials; Corpus Christi, Tex., omnirange station; intersection of the Corpus Christi 238° True and the Brownsville 338° True radials to the Brownsville, Tex., omnirange station.

§ 600.6069 *VOR civil airway No. 69 (Little Rock, Ark., to Chicago, Ill.).* From the Little Rock, Ark., omnirange station via the intersection of the Little Rock omnirange 062° True and the Walnut Ridge omnirange 186° True radials; Walnut Ridge, Ark., omnirange station; Farmington, Mo., omnirange station; intersection of the Farmington omnirange 351° True and the Troy omnirange 215° True radials; Troy, Ill., omnirange station, Springfield, Ill., omnirange station; Pontiac, Ill., omnirange station; Joliet, Ill., omnirange station; to the Chicago, Ill., Midway Airport terminal omnirange station.

§ 600.6070 *VOR civil airway No. 70 (Corpus Christi, Tex., to Baton Rouge, La.).* From the Corpus Christi, Tex., omnirange station via the Palacios, Tex., omnirange station; Galveston, Tex., omnirange station; Lake Charles, La., omnirange station; Lafayette, La., omnirange station; Baton Rouge, La., omnirange station; to the point of intersection of the Baton Rouge omnirange 092° True and the New Orleans, La., omnirange 001° True radials.

§ 600.6071 *VOR civil airway No. 71 (Pine Bluff, Ark., to Kansas City, Mo.).* From the Pine Bluff, Ark., omnirange station via the intersection of the Pine Bluff omnirange 007° True and the Little Rock omnirange 141° True radials to the Little Rock, Ark., omnirange station. From the Flippin, Ark., omnirange station via the Springfield, Mo., omnirange station; Butler, Mo., omnirange station, including a west alternate via the intersection of the Springfield omnirange 301° True and the Butler omnirange 178° True radials; to the Kansas City, Mo., omnirange station.

§ 600.6072 *VOR civil airway No. 72 (Vichy, Mo., to Albany, N. Y.).* From the Vichy, Mo., omnirange station via

the intersection of the Vichy omnirange 069° True and the Troy omnirange 246° True radials; Troy, Ill., omnirange station; Vandalia, Ill., omnirange station; Lafayette, Ind., omnirange station; to the point of intersection of the Lafayette omnirange 080° True and the Fort Wayne, Ind., omnirange 226° True radials. From the Findlay, Ohio, omnirange station via the Cleveland, Ohio, omnirange station; Youngstown, Ohio, omnirange station; Bradford, Pa., omnirange station; Elmira, N. Y., omnirange station; Binghamton, N. Y., omnirange station; to the Albany, N. Y., omnirange station.

§ 600.6073 *VOR civil airway No. 73 (Tulsa, Okla., to Salina, Kans.).* From the Tulsa, Okla., omnirange station via the Wichita, Kans., omnirange station; Hutchinson, Kans., omnirange station; intersection of the Hutchinson omnirange 025° True and the Salina omnirange 184° True radials to the Salina, Kans., omnirange station.

§ 600.6074 *VOR civil airway No. 74 (Anthony, Kans., to Little Rock, Ark.).* From the Anthony, Kans., omnirange station via the Ponca City, Okla., omnirange station; Tulsa, Okla., omnirange station, including a south alternate; Fort Smith, Ark., omnirange station, including a north alternate from the Tulsa omnirange station to the Fort Smith omnirange station via the point of intersection of the Tulsa omnirange 091° True and the Neosho, Mo., omnirange 227° True radials; intersection of the Fort Smith omnirange 098° True and the Little Rock omnirange 302° True radials; to the Little Rock, Ark., omnirange station.

§ 600.6075 *VOR civil airway No. 75 (Richmond, Va., to Cleveland, Ohio).* From the Flat Rock, Va., omnirange station to the Gordonsville, Va., omnirange station. From the point of intersection of the Morgantown, W. Va., omnirange 134° True and the Elkins, W. Va., omnirange 83° True radials via the Morgantown, W. Va., omnirange station; Wheeling, W. Va., omnirange station to the Cleveland, Ohio, omnirange station.

§ 600.6076 *VOR civil airway No. 76 (Lubbock, Tex., to Galveston, Tex.).* From the Lubbock, Tex., omnirange station via the intersection of the Lubbock omnirange 180° True and the Big Spring omnirange 331° True radials; Big Spring, Tex., omnirange station; San Angelo, Tex., omnirange station, including a north alternate; Austin, Tex., omnirange station; Houston, Tex., omnirange station; to the Galveston, Tex., omnirange station, including a south alternate from the Austin omnirange station to the Galveston omnirange station via the intersection of the Austin omnirange 134° True and the Eagle Lake omnirange 291° True radials and the Eagle Lake, Tex., omnirange station.

§ 600.6077 *VOR civil airway No. 77 (San Angelo, Tex., to Des Moines, Iowa.).* From the San Angelo, Tex., omnirange station via the intersection of the San Angelo omnirange 72° True and the Abilene omnirange 181° True radials; Abilene, Tex., omnirange station; Wichita Falls, Tex., omnirange station, including an east alternate; intersection of the Wichita Falls omnirange 028° True and the Oklahoma City omnirange 202° True radials; Oklahoma City, Okla., omnirange station including an east alternate from the Wichita Falls omnirange station to the Oklahoma City omnirange station via the intersection of the Wichita Falls omnirange 043° True and the Oklahoma City omnirange 187° True radials excluding those portions of this airway which overlap the Fort Sill restricted area (R–208); Ponca City, Okla., omnirange station; Wichita, Kans., omnirange station including a west alternate via the intersection of the Ponca City omnirange 326° True and the Wichita omnirange 194° True radials; Topeka, Kans., omnirange station; St. Joseph, Mo., omnirange station; Lamoni, Iowa, omnirange station; to the Des Moines, Iowa, omnirange station.

§ 600.6078 *VOR civil airway No. 78 (Huron, S. Dak., to Minneapolis, Minn.).* From the Huron, S. Dak., omnirange station via the Watertown, S., Dak., omnirange station, including a south alternate; to the Minneapolis, Minn., omnirange station.

§ 600.6079 *VOR civil airway No. 79 (Culberson, Tex., to Lubbock, Tex.).* From the Culberson, Tex., omnirange station via the intersection of the Culberson omnirange 90° True and the Wink omnirange 235° True radials; Wink, Tex., omnirange station; Hobbs, N. Mex., omnirange station; the intersection of the Hobbs omnirange 86° True and the Lubbock omnirange 199° True radials to the Lubbock, Tex., omnirange station.

§ 600.6080 *VOR civil airway No. 80 (Sioux Falls, S. Dak., to Redwood Falls, Minn.).* From the Sioux Falls, S. Dak., omnirange station to the Redwood Falls, Minn., omnirange station, including a south alternate.

§ 600.6081 *VOR civil airway No. 81 (Midland, Tex., to Amarillo, Tex.).* From the Midland, Tex., omnirange station via the Lubbock, Tex., omnirange station to the Amarillo, Tex., omnirange station, including an east alternate.

§ 600.6082 *VOR civil airway No. 82 (Minneapolis, Minn., to La Crosse, Wis.).* From the Minneapolis, Minn., omnirange station via the Rochester, Minn., omnirange station, including a south alternate via the intersection of the Minneapolis omnirange 179° True and the Rochester omnirange 318° True radials; to the La Crosse, Wis., omnirange station, including a south alternate.

§ 600.6083 *VOR civil airway No. 83 (Carlsbad, N. Mex., to Santa Fe, N. Mex.).* From the Carlsbad, N. Mex., omnirange station via the Roswell, N. Mex., omnirange station; Corona, N. Mex., omnirange station, including an east alternate, via the intersection of the Roswell omnirange 335° True and the Corona omnirange 125° True radials; Otto, N. Mex., omnirange station; to the Santa Fe, N. Mex., omnirange station.

§ 600.6084 *VOR civil airway No. 84 (Bradford, Ill., to Flint, Mich.).* From the Bradford, Ill., omnirange station via the Joliet, Ill., omnirange station; to the Chicago, Ill., Midway Airport terminal omnirange station. From the Pullman, Mich., omnirange station via the Lansing, Mich., omnirange station; to the point of intersection of the Lansing omnirange 068° True and the Salem, Mich., omnirange 342° True radials.

§ 600.6085 *VOR civil airway No. 85 (Rock River, Wyo., to Casper, Wyo.).* From the Rock River, Wyo., omnirange station to the Casper, Wyo., omnirange station, including an east alternate.

§ 600.6086 *VOR civil airway No. 86 (Butte, Mont., to Bozeman, Mont.).* From the Butte, Mont., omnirange station via the Whitehall, Mont., omnirange station to the Bozeman, Mont., omnirange station.

§ 600.6087 *VOR civil airway No. 87 (Gila Bend, Ariz., to Hassayampa, Ariz.).* From the Gila Bend, Ariz., omnirange station to the Hassayampa, Ariz., omnirange station.

§ 600.6088 *VOR civil airway No. 88 (Tulsa, Okla., to Mansfield, Ohio).* From the Tulsa, Okla., omnirange station via the intersection of the Tulsa omnirange 050° True and the Springfield omnirange 261° True radials; Springfield, Mo., omnirange station; Vichy, Mo., omnirange station to the point of intersection of the Vichy omnirange 084° True and the St. Louis, Mo., omnirange 170° True radials. From the Centralia, Ill., omnirange station via the intersection of the Centralia omnirange 075° True and the Scotland omnirange 250° True radials; Scotland, Ind., omnirange station; intersection of the Scotland omnirange 077° True and the Dayton omnirange 235° True radials; Dayton, Ohio, omnirange station; to the Mansfield, Ohio, omnirange station including a north alternate.

§ 600.6089 *VOR civil airway No. 89 (Cheyenne, Wyo., to Rapid City, S. Dak.).* From the Cheyenne, Wyo., omnirange station via the Chadron, Nebr., omnirange station, including an east alternate via the intersection of the Cheyenne omnirange 054° True and the Chadron omnirange 197° True radials; to the Rapid City, S. Dak., omnirange station, including an east alternate and excluding the portion which overlaps the Scenic restricted area (R–190).

§ 600.6091 *VOR civil airway No. 91 (New York, N. Y., to Plattsburg, N. Y.).* From the Idlewild, N. Y., omnirange station via the point of intersection of the Idlewild omnirange 042° True and the Wilton omnirange 185° True; Wilton, Conn., omnirange station; Poughkeepsie, N. Y., omnirange station; Albany, N. Y., omnirange station to the Plattsburg, N. Y., omnirange station.

§ 600.6092 *VOR civil airway No. 92 (Chicago, Ill., to Washington, D. C.)* From the Chicago Heights, Ill., omnirange station via the Goshen, Ind., omnirange station; Waterville, Ohio, omnirange station; Mansfield, Ohio, omnirange station; intersection of the Mansfield omnirange 100° True and the Pittsburgh omnirange 291° True radials; Pittsburgh, Pa., omnirange station; intersection of the Pittsburgh omnirange 132° True and the Front Royal omnirange 307° True radials; Front Royal, Va., omnirange station; intersection of the Front Royal omnirange 112° True and the Washington terminal omnirange 245° True radials; to the Washington, D. C., terminal omnirange station.

§ 600.6093 *VOR civil airway No. 93 (Washington, D. C., to Presque Isle, Maine).* That airspace over the United States territory from the Riverdale, Md., nondirectional radio beacon via the Baltimore, Md., omnirange station; intersection of the Baltimore omnirange 015° True and the Allentown omnirange 228° True radials; Allentown, Pa., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station; Albany, N. Y., omnirange station; intersection of the Albany omnirange 099° True and the Concord omnirange 231° True radials; Concord, N. H., omnirange station; intersection of the Concord omnirange 041° True and the Augusta omnirange 239° True radials; Augusta, Maine, omnirange station; Bangor, Maine, omnirange station; Princeton, Maine, omnirange station; Houlton, Maine, omnirange station; to the Presque Isle, Maine, omnirange station. The portions of this airway which overlap the Washington, D. C., prohibited area (P–56) are excluded.

§ 600.6094 *VOR civil airway No. 94 (Salt Flat, Tex., to Hobbs, N. Mex.).* From the Salt Flat, Tex., omnirange station via the Carlsbad, N. Mex., omnirange station to the Hobbs, N. Mex., omnirange station.

§ 600.6095 *VOR civil airway No. 95 (Phoenix, Ariz., to Winslow, Ariz.).* From the Phoenix, Ariz., omnirange station to the Winslow, Ariz., omnirange station.

§ 600.6096 *VOR civil airway No. 96 (Lafayette, Ind., to Detroit, Mich.).* From the Lafayette, Ind., omnirange station via the intersection of the Lafayette omnirange 080° True and the Fort Wayne omnirange 226° True radials; Fort Wayne, Ind., omnirange station; Waterville, Ohio, omnirange station; to the point of intersection of the Waterville omnirange 025° True and the Salem, Mich., omnirange 098° True radials.

§ 600.6097 *VOR civil airway No. 97 (Miami, Fla., to Minneapolis, Minn.).* From the Miami, Fla., omnirange station via the Tampa, Fla., omnirange station; Tallahassee, Fla., omnirange station, including an east alternate from the Tampa omnirange station to the Tallahassee omnirange station via the intersection of the Tampa omnirange 331° True and the Cross City omnirange 182° True radials, the Cross City, Fla., omnirange station and the intersection of the Cross City omnirange 287°. True and the Tallahassee omnirange 150° True radials; Albany, Ga., omnirange station; Atlanta, Ga., omnirange station; Knoxville, Tenn., omnirange station, including an east alternate from the Atlanta omnirange station to the Knoxville omnirange station via the Norcross, Ga., omnirange station and the intersection of the Norcross omnirange 014° True and the Knoxville omnirange 175° True radials; Lexington, Ky., omnirange station; intersection of the Lexington omnirange 347° True and the Cincinnati omnirange 175° True radials; Cincinnati, Ohio, omnirange station; Indianapolis, Ind., omnirange station, including an east and a west alternate; intersection of the Indianapolis omnirange 342° True and the Chicago Heights omnirange 140° True radials; Chicago Heights, Ill., omnirange station; intersection of the Chicago Heights omnirange 342° True and the Janesville omnirange 107° True radials; Janesville, Wis., omnirange station; Lone Rock, Wis., omnirange station, including a west alternate via the intersection of the Janesville omnirange 282° True and the Lone Rock omnirange 161° True radials; La Crosse, Wis., omnirange station; to the Minneapolis, Minn., omnirange station. The portions of this airway above 19,000 feet above mean sea level, which lie within the Tyndall AFB Restricted Area (R–336) and the Tyndall AFB Warning Area (W–337) are excluded daily between sunset and sunrise.

§ 600.6098 *VOR civil airway No. 98 (Fort Wayne, Ind., to Erie, Pa.).* From the Fort Wayne, Ind., omnirange station via the Carleton, Mich., omnirange station; intersection of the Carleton omnirange 076° True and the Erie omnirange 280° True radials; to the Erie, Pa., omnirange station.

§ 600.6101 *VOR civil airway No. 101 (Ogden, Utah, to Burley, Idaho).* From the Ogden, Utah, omnirange station to the Burley, Idaho, omnirange station.

§ 600.6102 *VOR civil airway No. 102 (Lubbock, Tex., to Wichita Falls, Tex.).* From the Lubbock, Tex., omnirange station via the Guthrie, Tex., omnirange station to the Wichita Falls, Tex., omnirange station.

§ 600.6103 *VOR civil airway No. 103 (Elkins, W. Va., to Cleveland, Ohio).* From the Elkins, W. Va., omnirange station via the Wheeling, W. Va., omnirange station; intersection of the Wheeling omnirange 313° True and the Mansfield, Ohio, omnirange 100° True radials; intersection of the Mansfield omnirange 100° True and the Cleveland omnirange 150° True radials; to the Cleveland, Ohio, omnirange station.

§ 600.6104 *VOR civil airway No. 104 (United States-Canadian Border to Plattsburg, N. Y.).* From the United States-Canadian Border via the Massena omnirange 318° True radial to the Massena, N. Y., omnirange station; to the Plattsburg, N. Y., omnirange station.

§ 600.6105 *VOR civil airway No. 105 (Phoenix, Ariz., to Las Vegas, Nev.).* From the Phoenix, Ariz., omnirange station via the Prescott, Ariz., omnirange station to the Las Vegas, Nev., omnirange station.

§ 600.6106 *VOR civil airway No. 106 (Charleston, W. Va., to Kennebunk, Maine).* From the Charleston, W. Va., omnirange station via the Morgantown, W. Va., omnirange station; Johnstown, Pa., omnirange station, including a north alternate via the intersection of the Morgantown omnirange 021° True and the Pittsburgh omnirange 117° True radials; Philipsburg, Pa., omnirange station; Selinsgrove, Pa., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station; Poughkeepsie, N. Y., omnirange station; Gardner, Mass., omnirange station; intersection of the Gardner omnirange 060° True and the Kennebunk, Maine, omnirange 223° True radials; to the Kennebunk, Maine, omnirange station.

§ 600.6107 *VOR civil airway No. 107 (Los Angeles, Calif., to Red Bluff, Calif.).* From the Los Angeles, Calif., omnirange station via the intersection of the Los Angeles omnirange 301° True and the Fillmore omnirange 163° True radials; Fillmore, Calif., omnirange station; Coalinga, Calif., omnirange station; Oakland, Calif., omnirange station; intersection of the Oakland omnirange 330° True and the Ukiah omnirange 147° True radials; Ukiah, Calif., omnirange station; to the Red Bluff, Calif., omnirange station.

§ 600.6109 *VOR civil airway No. 109 (Paso Robles, Calif., to Fresno, Calif.).* From the Paso Robles, Calif., omnirange station via the Coalinga, Calif., omnirange station to the Fresno, Calif., omnirange station.

§ 600.6110 *VOR civil airway No. 110 (San Francisco, Calif., to Altamont, Calif.).* From the point of intersection of the San Francisco omnirange 218° True and the Salinas omnirange 319° True radials via the San Francisco, Calif., omnirange station to the intersection of the San Francisco omnirange 038° True and the Modesto omnirange 273° True radials.

§ 600.6111 *VOR civil airway No. 111 (Salinas, Calif., to Los Banos, Calif.).* From the Salinas, Calif., omnirange station to the point of intersection of the San Francisco omnirange 111° True and the Salinas omnirange 049° True radials.

§ 600.6112 *VOR civil airway No. 112 (Portland, Oreg., to Spokane, Wash.).* From the Portland, Oreg., omnirange station via the The Dalles, Oreg., omnirange station; intersection of the The Dalles omnirange 096° True and the Pendleton omnirange 254° True radials; Pendleton, Oreg., omnirange station; to the Spokane, Wash., omnirange station.

§ 600.6113 *VOR civil airway No. 113 (Paso Robles, Calif., to Reno, Nev.).* From the Paso Robles, Calif., omnirange station via the intersection of the Paso Robles omnirange 352° True and the Modesto omnirange 176° True radials; Modesto, Calif., omnirange station to the Reno, Nev., omnirange station.

§ 600.6114 *VOR civil airway No. 114 (Pueblo, Colo., to New Orleans, La.).* From the Pueblo, Colo., omnirange station via the Dalhart, Tex., omnirange station; Amarillo, Tex., omnirange station; Childress, Tex., omnirange station; Wichita Falls, Tex., omnirange station; Dallas, Tex., omnirange station, including a north alternate via the intersection

of the Wichita Falls omnirange 109° True and the Dallas omnirange 324° True radials; Gregg County, Tex., omnirange station, including a south alternate via the intersection of the Dallas omnirange 135° True and the Gregg County omnirange 278° True radials; via the direct radial to the point of intersection of the Shreveport, La., omnirange 177° True and the Alexandria omnirange 300° True radials; Alexandria, La., omnirange station, including a north alternate from the Gregg County omnirange station to the Alexandria omnirange station via the Shreveport omnirange station and the intersection of the Shreveport omnirange 177° True and the Alexandria omnirange 300° True radials; Baton Rouge, La., omnirange station; to the New Orleans, La., omnirange station.

§ 600.6115 *VOR civil airway No. 115 (Crestview, Fla., to Charleston, W. Va.).* From the Crestview, Fla., omnirange station via the Montgomery, Ala., omnirange station; Birmingham, Ala., omnirange station to the Chattanooga, Tenn., omnirange station. From the Knoxville, Tenn., omnirange station to the Charlestown, W. Va., omnirange station.

§ 600.6116 *VOR civil airway No. 116 (Kansas City, Mo., to New York, N. Y.).* From the Kansas City, Mo., omnirange station via the Quincy, Ill., omnirange station; Peoria, Ill., omnirange station; Joliet, Ill., omnirange station; Naperville, Ill., omnirange station; Pullman, Mich., omnirange station; Salem, Mich., omnirange station; Erie, Pa., omnirange station; Bradford, Pa., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station; to the point of intersection of the Wilkes-Barre-Scranton omnirange 117° True and the Wilton, Conn., omnirange 240° True radials.

§ 600.6117 *VOR civil airway No. 117 (El Centro, Calif., to Daggett, Calif.).* From the El Centro, Calif., LF radio range station via the point of intersection of a straight line bearing 359° True from the El Centro LF radio range station and the Thermal omnirange 122° True radial; Thermal, Calif., omnirange station; to the Daggett, Calif., omnirange station. The portion of this airway which overlaps the Salton Sea restricted area (R–303) is excluded.

§ 600.6118 *VOR civil airway No. 118 (Rock River, Wyo., to Cheyenne, Wyo.).* From the Rock River, Wyo., omnirange station via the Laramie, Wyo., omnirange station to the Cheyenne, Wyo., omnirange station.

§ 600.6119 *VOR civil airway No. 119 (Huntington, W. Va., to Bradford, Pa.).* From the Huntington, W. Va., nondirectional radio beacon via the Parkersburg, W. Va., omnirange station; Wheeling, W. Va., omnirange station; Fitzgerald, Pa., omnirange station; to the Bradford, Pa., omnirange station.

§ 600.6120 *VOR civil airway No. 120 (Mullan Pass, Mont., to Miles City, Mont.).* From the Mullan Pass, Mont., omnirange station via the Great Falls, Mont., omnirange station; Lewiston, Mont., omnirange station; to the Miles City, Mont., omnirange station.

§ 600.6121 *VOR civil airway No. 121 (North Bend, Oreg., to Eugene, Oreg.).* From the North Bend, Oreg., omnirange station to the Eugene, Oreg., omnirange station.

§ 600.6122 *VOR civil airway No. 122 (Crescent City, Calif., to Klamath Falls, Oreg.).* From the Crescent City, Calif., omnirange station to the Medford, Oreg., omnirange station. From the point of intersection of the Medford, Oreg., omnirange 176° True and the Klamath Falls, Oreg., omnirange 273° True radials; to the Klamath Falls, Oreg., omnirange station.

§ 600.6123 *VOR civil airway No. 123 (Newport, Oreg., to Newberg, Oreg.).* From the Newport, Oreg., omnirange station via the intersection of the Newport omnirange 023° True and the Newberg omnirange 251° True radials to the Newberg, Oreg., omnirange station.

§ 600.6124 *VOR civil airway No. 124 (Burley, Idaho, to Pocatello, Idaho).* From the Burley, Idaho, omnirange station to the Pocatello, Idaho, omnirange station.

§ 600.6125 *VOR civil airway No. 125 (Anthony, Kans., to Hutchinson, Kans.).* From the Anthony, Kans., omnirange station to the Hutchinson, Kans., omnirange station.

§ 600.6126 *VOR civil airway No. 126 (Chicago, Ill., to New York, N. Y.).* From the point of intersection of the Naperville, Ill., omnirange 090° True and the Chicago Heights omnirange 342° True radials via the Chicago Heights, Ill., omnirange station; Goshen, Ind., omnirange station; Waterville, Ohio, omnirange station; Cleveland, Ohio, omnirange station; Erie, Pa., omnirange station; Bradford, Pa., omnirange station; Wilkes-Barre-Scranton, Pa., omnirange station; to the point of intersection of the Wilkes-Barre-Scranton, Pa., omnirange 117° True and the Wilton, Conn., omnirange 240° True radials.

§600.6127 *VOR civil airway No. 127 (Livingston, Mont., to Helena, Mont.).* From the Livingston, Mont., omnirange station via the intersection of the Livingston omnirange 321° True and the Helena omnirange 119° True radials to the Helena, Mont., omnirange station.

§ 600.6128 *VOR civil airway No. 128 (Chicago, Ill., to New Bern, N. C.).* From the Chicago, Ill., Midway Airport terminal omnirange station via the Peotone, Ill., omnirange station; intersection of the Peotone omnirange 147° True and the Lafayette omnirange 321° True radials; Lafayette, Ind., omnirange station; intersection of the Lafayette omnirange 118° True and the Cincinnati omnirange 318° True radials; Cincinnati, Ohio, omnirange station; York, Ky., omnirange station, including a south alternate via the intersection of the Cincinnati omnirange 120° True and the York omnirange 272° True radials; Charleston, W. Va., omnirange station; Pulaski, Va., omnirange station; Greensboro, N. C., omnirange station; to the Raleigh, N. C., omnirange station, including a north alternate via the Greensboro omnirange 051° True and the Raleigh omnirange 309° True radials and a south alternate via the intersection of the Greensboro omnirange 122° True and the Raleigh omnirange 249° True radials. From the point of intersection of the Wilmington, N. C., omnirange 005° True and the New Bern omnirange 297° True radials; to the New Bern, N. C., omnirange station, excluding the airspace above 5500 feet above mean sea level daily during the period from sunset to sunrise.

§ 600.6129 *VOR civil airway No. 129 (Dixon, Ill., to Eau Claire, Wis.).* From the Polo, Ill., omnirange station via the Lone Rock, Wis., omnirange station; La Crosse, Wis., omnirange station; to the Eau Claire, Wis., omnirange station.

§ 600.6130 *VOR civil airway No. 130 (Albany, N. Y., to Providence, R. I.).* From the Albany, N. Y., omnirange station via the Hartford, Conn., omnirange station; Norwich, Conn., omnirange station to the point of intersection of the Norwich omnirange 090° True radial and the Providence, R. I., ILS localizer course.

§ 600.6131 *VOR civil airway No. 131 (Ponca City, Okla., to Topeka, Kans.).* From the Ponca City, Okla., omnirange station via the Emporia, Kans., omnirange station; intersection of the Emporia omnirange 050° True and the Topeka omnirange 174° True radials to the Topeka, Kans., omnirange station.

§ 600.6132 *VOR civil airway No. 132 (Cheyenne, Wyo., to Hutchinson, Kans.).* From the Cheyenne, Wyo., omnirange station via the Akron, Colo., omnirange station, Goodland, Kans., omnirange station; to the Hutchinson, Kans., omnirange station.

§ 600.6133 *VOR civil airway No. 133 (Parkersburg, W. Va., to Flint, Mich.).* That airspace over United States territory from the Parkersburg, W. Va., omnirange station via the Mansfield, Ohio, omnirange station; intersection of the Mansfield omnirange 345° True and the Salem omnirange 140° True radials; Salem, Mich., omnirange station; to the point of intersection of the Salem omnirange 342° True and the Lansing, Mich., omnirange 068° True radials.

§ 600.6134 *VOR civil airway No. 134 (Evergreen, Ala., to Atlanta, Ga.).* From the Evergreen, Ala., omnirange station via the Columbus, Ga., omnirange station to the Atlanta, Ga., omnirange station, excluding the portion which overlaps the Fort Benning restricted area (R–129).

§ 600.6135 *VOR civil airway No. 135 (Yuma, Ariz., to Las Vegas, Nev.).* From the Yuma, Ariz., omnirange station via the Blythe, Calif., omnirange station; Needles, Calif., omnirange station to the Las Vegas, Nev., omnirange station.

§ 600.6136 *VOR civil airway No. 136 (Pulaski, Va., to Raleigh, N. C.).* From the Pulaski, Va., omnirange station via the intersection of the Pulaski omnirange 094° True and the South Boston omnirange 298° True radials; South Boston, Va., omnirange station; to the Raleigh, N. C., omnirange station.

§ 600.6137 *VOR civil airway No. 137 (San Bernardino, Calif., to Salinas, Calif.).* From the point of intersection of the Palmdale, Calif., omnirange 124° True and the Ontario, Calif., omnirange 038° True radials via the Palmdale, Calif., omnirange station; intersection of the Palmdale omnirange 292° True and the Bakersfield omnirange 149° True radials; Bakersfield, Calif., omnirange station; Coalinga, Calif., omnirange station; to the Salinas, Calif., omnirange station.

§ 600.6138 *VOR civil airway No. 138 (Rock River, Wyo., to Sidney, Nebr.).* From the Rock River, Wyo., omnirange station to the Sidney, Nebr., omnirange station.

§ 600.6139 *VOR civil airway No. 139 (Norwich, Conn., to Boston, Mass.).* From the Norwich, Conn., omnirange station via the intersection of the Norwich omnirange 090° True radial and the Providence, R. I., ILS localizer course at the Wyoming, R. I., fan marker; Providence, R. I., ILS localizer, intersection of the Providence ILS localizer course and the Boston ILS localizer course; to the Boston, Mass., localizer.

§ 600.6140 *VOR civil airway No. 140 (Amarillo, Tex., to New York, N. Y.).* From the Amarillo, Tex., omnirange station via the Sayre, Okla., omnirange station, including a north alternate; Oklahoma City, Okla., omnirange station, including a north alternate; Tulsa, Okla., omnirange station; Fayetteville, Ark., omnirange station, including a north alternate via the intersection of the Tulsa omnirange 065° True and the Fayetteville omnirange 287° True radials; Flippin, Ark., omnirange station; Walnut Ridge, Ark., omnirange station; Dyersburg, Tenn., omnirange station; Nashville, Tenn., omnirange station, including a south alternate from the Dyersburg omnirange station to the Nashville omnirange station via the intersection of the Dyersburg omnirange 104° True and the Graham omnirange 269° True radials, and the Graham, Tenn., omnirange station; intersection of the Nashville omnirange 059° True radial and the Corbin VAR west aural course; Corbin, Ky., VAR station; Paynesville, W. Va., nondirectional radio beacon; Montebello, Va., omnirange station; point of intersection of the Front Royal, Va., omnirange 140° True and the Washington, D. C., omnirange 249° True radials; to the Herdon, Va., omnirange station. From the Baltimore Md., omnirange station to the point of intersection of the Baltimore omnirange 045° True radial with the Dover, Del., 310° True radial and the southwest course of the Philadelphia, Pa., radio range station, excluding the portion which overlaps the Aberdeen restricted area (R. 54). From the point of intersection of the Philadelphia, Pa., International Airport ILS 256° True localizer course and the West Chester, Pa., omnirange 170° True radial via the Philadelphia International Airport ILS localizer to the Colts Neck, N. J., omnirange station via the Colts Neck omnirange 242° True radial.

§ 600.6141 *VOR civil airway No. 141 (Nantucket, Mass., to Plattsburg, N. Y.).* From the Nantucket, Mass., omnirange station via the intersection of the Nantucket omnirange 339° True and the Boston omnirange 133° True radials; Boston, Mass., omnirange station; Concord, N. H., omnirange station; Lebanon, N. H., nondirectional radio beacon to the Plattsburg, N. Y., omnirange station.

§ 600.6142 *VOR civil airway No. 142 (Buffalo, N. Y., to Rochester, N. Y.).* From the Buffalo, N. Y., omnirange station via the intersection of the Buffalo omnirange 034° True and the Rochester omnirange 289° True radials to the Rochester, N. Y., omnirange station.

§ 600.6143 *VOR civil airway No. 143 (Charlotte, N. C., to Washington, D. C.).* From the Charlotte, N. C., omnirange station via the Greensboro, N. C., omnirange station, including a west alternate via the intersection of the Charlotte omnirange 359° True and the Greensboro omnirange 238° True radials; to the Montebello, Va., omnirange station. From the Front Royal, Va., omnirange station to the point of intersection of the Front Royal omnirange 087° True and the Washington, D. C., terminal omnirange 319° True radials.

§ 600.6144 *VOR civil airway No. 144 (Chicago, Ill., to Washington, D. C.).* From the Chicago, Ill., Midway Airport terminal omnirange station via the Peotone, Ill., omnirange station; Fort Wayne, Ind., omnirange station; Findlay, Ohio, omnirange station; Mansfield, Ohio, omnirange station; Morgantown, W. Va., omnirange station; Front Royal, Va., omnirange station; intersection of the Front Royal omnirange 112° True and the Washington terminal omnirange 245° True radials; to the Washington, D. C. terminal omnirange station.

§ 600.6145 *VOR civil airway No. 145 (Utica, N. Y., to the United States-Canadian Border).* From the Utica, N. Y., MF radio range station via the intersection of the Utica MF radio range northwest course and the Watertown omnirange 155° True radial; Watertown, N. Y., omnirange station; to the United States-Canadian Border via the Watertown omnirange 360° True radial.

§ 600.6146 *VOR civil airway No. 146 (Poughkeepsie, N. Y. to Woodstock, Conn.).* From the Poughkeepsie, N. Y., omnirange station to the point of intersection of the Poughkeepsie omnirange 079° True and the Norwich, Conn., omnirange 347° True radials.

§ 600.6147 *VOR civil airway No. 147 (Philadelphia, Pa., to Rochester, N. Y.).* From the West Chester, Pa., omnirange station via the Allentown, Pa., omnirange station; intersection of the Allentown omnirange 329° True and the Elmira omnirange 134° True radials; Elmira, N. Y., omnirange station; intersection of the Elmira omnirange 305° True and the Rochester omnirange 183° True radials; to the Rochester, N. Y., omnirange station.

§ 600.6148 *VOR civil airway No. 148 (Thurman, Colo., to North Platte, Nebr.).* From the Thurman, Colo., omnirange station via the Imperial, Nebr., omnirange station to the North Platte, Nebr., omnirange station.

§ 600.6149 *VOR civil airway No. 149 (Allentown, Pa., to Utica, N. Y.).* From the Allentown, Pa., omnirange station via the intersection of the Allentown omnirange 329° True and the Binghamton omnirange 167° True radials; Binghamton, N. Y., omnirange station; to the point of intersection of the Binghamton omnirange 023° True and the southwest course of the Utica, N. Y., radio range.

§ 600.6150 *VOR civil airway No. 150 (Sacramento, Calif., to Reno, Nev.).* From the Sacramento, Calif., omnirange station via the intersection of the Sacramento omnirange 097° True and the Reno omnirange 208° True radials to the Reno, Nev., omnirange station.

§ 600.6151 *VOR civil airway No. 151 (Woonsocket, R. I., to Keene, N. H.).* From the point of intersection of the Norwich, Conn., omnirange 043° True and the Gardner omnirange 152° True radials via the Gardner, Mass., omnirange station; to the Keene, N. H., nondirectional radio beacon.

§ 600.6152 *VOR civil airway No. 152 (Tampa, Fla., to Daytona Beach, Fla.).* From the Tampa, Fla., omnirange station via the Orlando, Fla., omnirange station, including a north alternate via the intersection of the Tampa omnirange 039° True and the Orlando omnirange 258° True radials and also a south alternate via the Lakeland, Fla., omnirange station; to the Daytona Beach, Fla., omnirange station.

§ 600.6153 *VOR civil airway No. 153 (New York, N. Y., to Wilkes-Barre, Pa.).* From the point of intersection of the Caldwell, N. J., omnirange 217° True and the Stroudsburg omnirange 118° True radials via the Stroudsburg, Pa., omnirange station; to the Wilkes-Barre-Scranton, Pa., omnirange station.

§ 600.6154 *VOR civil airway No. 154 (Meridian, Miss., to Macon, Ga.).* From the Meridian, Miss., omnirange station via the intersection of the Meridian omnirange 084° True and the Montgomery omnirange 282° True radials; Montgomery, Ala., omnirange station; Columbus, Ga., omnirange station, including a north alternate via the intersection of the Montgomery omnirange 049° True and the Columbus omnirange 270° True radials; intersection of the Columbus omnirange 020° True and the Macon omnirange 272° True radials; to the Macon, Ga., omnirange station. The portions of this Airway which conflict with the Fort Benning Restricted Area (R–129) are excluded.

§ 600.6155 *VOR civil airway No. 155 (Gordonsville, Va., to Front Royal, Va.).* From the Gordonsville, Va., omnirange station via the direct radial to the point of intersection of the Washington, D. C., terminal omnirange 249° True and the Front Royal omnirange 140° True radials; to the Front Royal, Va., omnirange station.

§ 600.6156 *VOR civil airway No. 156 (Elkins, W. Va., to Gordonsville, Va.).* From the Elkins, W. Va., omnirange station to the Gordonsville, Va., omnirange station.

§ 600.6157 *VOR civil airway No. 157 (Wilmington, N. C., to Richmond, Va.).* From the Wilmington, N. C., omnirange station via the Rocky Mount, N. C., omnirange station; Lawrenceville, Va., omnirange station; to the Richmond, Va., LF radio range station, excluding the portion which overlaps the Camp Pickett restricted area (R–44).

§ 600.6158 *VOR civil airway No. 158 (Iowa Falls, Iowa, to Waterloo, Iowa).* From the point of intersection of the Mason City, Iowa, omnirange 188° True and the Waterloo omnirange 267° True radials to the Waterloo, Iowa, omnirange station.

§ 600.6159 *VOR civil airway No. 159 (Miami, Fla., to Albany, Ga.).* From the Miami, Fla., omnirange station via the intersection of the Miami omnirange 338° True and the West Palm Beach omnirange 219° True radials; West Palm Beach, Fla., omnirange station; Vero Beach, Fla., omnirange station; intersection of the Vero Beach omnirange 339° True and the Orlando omnirange 131° True radials; Orlando, Fla., omnirange station; Cross City, Fla., omnirange station; to the Albany, Ga., omnirange station.

§ 600.6160 *VOR civil airway No. 160 (Denver, Colo., to Sidney, Nebr.).* From the Denver, Colo., omnirange station to the Sidney, Nebr., omnirange station.

§ 600.6161 *VOR civil airway No. 161 (Tulsa, Okla., to Minneapolis, Minn.).* From the Tulsa, Okla., omnirange station via the Butler, Mo., omnirange station; Blue Springs, Mo., omnirange station; intersection of the Blue Springs omnirange 016° True and the Lamoni omnirange 175° True radials; Lamoni, Iowa, omnirange station; Des Moines, Iowa, omnirange station; Waterloo, Iowa, omnirange station; Rochester, Minn., omnirange station; intersection of the Rochester omnirange 350° True and the Minneapolis-St. Paul International Airport ILS localizer 121° True course, to the Minneapolis-St. Paul, Minn., International Airport ILS localizer. The portions of this airway which overlap the Lake City restricted area (R–307) are excluded.

§ 600.6162 *VOR civil airway No. 162 (Harrisburg, Pa., to Allentown, Pa.).* From the Harrisburg, Pa., omnirange station via the point of intersection of the Harrisburg omnirange 073° True and the Selinsgrove, Pa., omnirange 133° True radials; direct to the Allentown, Pa., omnirange station, including a south alternate from the Harrisburg omnirange station to the Allentown omnirange station via the point of intersection of the West Chester, Pa., omnirange 314° True and the Allentown omnirange 228° True radials.

§ 600.6163 *VOR civil airway No. 163 (Waco, Tex., to Oklahoma City, Okla.).* From the Waco, Tex., omnirange station via the Mineral Wells, Tex., omnirange station; Ardmore, Okla., omnirange station; intersection of the Ardmore omnirange 350° True and the Oklahoma City omnirange 137° True radials to the Oklahoma City, Okla., omnirange station, including an east alternate from the Ardmore omnirange station to the Oklahoma City omnirange station via the intersection of the Ardmore omnirange 011° True and the Oklahoma City omnirange 120° True radials.

§ 600.6164 *VOR civil airway No. 164 (Bradford, Pa., to New York, N. Y.).* From the Bradford, Pa., omnirange station via the intersection of the Bradford omnirange 097° True and the Williamsport omnirange 306° True radials; Williamsport, Pa., omnirange station; via the Williamsport omnirange direct radial to the point of intersection of the Allentown, Pa., omnirange 329° True and the Wilkes-Barre-Scranton, Pa., omnirange 224° True radials; via the Stroudsburg omnirange direct radial to the Stroudsburg, Pa., omnirange station, including a south alternate from the Williamsport omnirange station to the Stroudsburg omnirange station via the intersection of the Williamsport omnirange 125° True and the Stroudsburg omnirange 270° True radials; to the point of intersection of the Stroudsburg omnirange 083° True and the Wilkes-Barre-Scranton, Pa., omnirange 117° True radials.

§ 600.6165 *VOR civil airway No. 165 (Long Beach, Calif., to Palmdale, Calif.).* From the Long Beach, Calif., omnirange station via the intersection of the Long Beach omnirange 346° True and the Palmdale omnirange 200° True radials to the Palmdale, Calif., omnirange station.

§ 600.6166 *VOR civil airway No. 166 (Martinsburg, W. Va., to Philadelphia, Pa.).* From the Martinsburg, W. Va., omnirange station to the West Chester, Pa., omnirange station.

§ 600.6167 *VOR civil airway No. 167 (New York, N. Y., to Hartford, Conn.).* From the point of intersection of the Colts Neck, N. J., omnirange 151° True and the Idlewild omnirange 195° True radials via the Idlewild, N. Y., omnirange station to the Hartford, Conn., omnirange station.

§ 600.6168 *VOR civil airway No. 168.* (Unassigned.)

§ 600.6169 *VOR civil airway No. 169 (Sidney, Nebr., to Rapid City, S. Dak.).* From the Sidney, Nebr., omnirange station via the intersection of the Sidney omnirange 335° True and the Chadron omnirange 197° True radials; Chadron, Nebr., omnirange station; to the Rapid City, S. Dak., omnirange station, including an east alternate and excluding the portion which overlaps the Scenic restricted area (R–190).

§ 600.6170 *VOR civil airway No. 170 (Erie, Pa., to Philadelphia, Pa.).* From the Erie, Pa., omnirange station via the Bradford, Pa., omnirange station; Selinsgrove, Pa., omnirange station to the West Chester, Pa., omnirange station.

§ 600.6171 *VOR civil airway No. 171 (Louisville, Ky., to Madison, Wis.).* From the Louisville, Ky., omnirange station via the Scotland, Ind., omnirange station; Terre Haute, Ind., omnirange station; Peotone, Ill., omnirange station; Joliet, Ill., omnirange station; intersection of the Joliet omnirange 316° True and the Janesville omnirange 157° True radials; Janesville, Wis., omnirange station; to the point of intersection of the Janesville omnirange 339° True and the Lone Rock omnirange 104° True radials.

§ 600.6172 *VOR civil airway No. 172 (Iowa City, Iowa, to Chicago, Ill.).* From the Iowa City, Iowa, omnirange station via the Moline, Ill., omnirange station; Polo, Ill., omnirange station, including a north alternate from the Iowa City omnirange station to the Polo omnirange station via the intersection of the Iowa City omnirange 063° True and the Polo omnirange 269° True radials; intersection of the Polo omnirange 085° True and the Chicago Midway Airport terminal omnirange 294° True radials; to the Chicago, Ill., Midway Airport terminal omnirange station.

§ 600.6173 *VOR civil airway No. 173 (Springfield, Ill., to Chicago, Ill.).* From the Springfield, Ill., omnirange station via the Roberts, Ill., omnirange station; intersection of the Roberts omnirange 012° True and the Chicago Midway Airport terminal omnirange 198° True radials; to the Chicago, Ill., Midway Airport terminal omnirange station.

§ 600.6174 *VOR civil airway No. 174 (St. Louis, Mo., to Washington, D. C.).* From the St. Louis, Mo., omnirange station via the Troy, Ill., omnirange station; Scotland, Ind., omnirange station; Louisville, Ky., omnirange station; York, Ky., omnirange station; intersection of the York omnirange 076° True and the Elkins omnirange 270° True radials; Elkins, W. Va., omnirange station; Front Royal, Va., omnirange station; intersection of the Front Royal omnirange 112° True and the Washington terminal omnirange 245° True radials; to the Washington, D. C., terminal omnirange station.

§ 600.6175 *VOR civil airway No. 175 (Vichy, Mo., to Columbia, Mo.).* From the Vichy, Mo., omnirange station via the intersection of the Vichy omnirange 321° True and the Columbia omnirange 209° True radials; to the Columbia, Mo., omnirange station.

§ 600.6176 *VOR civil airway No. 176 (Centralia, Ill., to Scotland, Ind.).* From the Centralia, Ill., omnirange station via the intersection of the Centralia omnirange 075° True and the Scotland omnirange 250° True radials; to the Scotland, Ind., omnirange station.

§ 600.6177 *VOR civil airway No. 177 (Chicago, Ill., to Janesville, Wis.).* From the Naperville, Ill., omnirange station via the intersection of the Naperville omnirange 338° True and the Janesville omnirange 114° True radials; to the Janesville, Wis., omnirange station.

§ 600.6178 *VOR civil airway No. 178 (Farmington, Mo., to Paducah, Ky.).* From the Farmington, Mo., omnirange station to the Paducah, Ky., omnirange station, including a south alternate.

§ 600.6179 *VOR civil airway No. 179 (Paducah, Ky., to Centralia, Ill.).* From the Paducah, Ky., omnirange station to the Centralia, Ill., omnirange station.

§ 600.6180 *VOR civil airway No. 180 (Lansing, Mich., to Selfridge, Mich.).* From the Lansing, Mich., omnirange station to the Selfridge, Mich., omnirange station.

§ 600.6181 *VOR civil airway No. 181 (Sioux Falls, S. Dak., to Watertown, S. Dak.).* From the Sioux Falls, S. Dak., omnirange station to the Watertown, S. Dak., omnirange station.

§ 600.6182 *VOR civil airway No. 182 (Portland, Oreg., to Baker, Oreg.).* From the Portland, Oreg., omnirange station via the The Dalles, Oreg., omnirange station; to the Baker, Oreg., omnirange station.

§ 600.6183 *VOR civil airway No. 183 (Santa Barbara, Calif., to Bakersfield, Calif.).* From the Santa Barbara, Calif., omnirange station to the Bakersfield, Calif., omnirange station.

§ 600.6184 *VOR civil airway No. 184 (Erie, Pa., to Philipsburg, Pa.).* From the Erie, Pa., omnirange station via the Fitzgerald, Pa., omnirange station; to the Philipsburg, Pa., omnirange station.

§ 600.6185 *VOR civil airway No. 185 (Augusta, Ga., to Knoxville, Tenn.).* From the Augusta, Ga., omnirange station via the Spartanburg, S. C., omnirange station; Asheville, N. C., omnirange station, including a west alternate from the Augusta omnirange station to the Asheville omnirange station via the intersection of the Augusta omnirange 345° True radial and the Greenville ILS localizer south course, the Greenville, S. C., ILS localizer, and the intersection of the Greenville ILS localizer north course and the Asheville omnirange 189° True radial; intersection of the Asheville omnirange 300° True and the Knoxville omnirange 069° True radials; to the Knoxville, Tenn., omnirange station, including an east alternate from the Asheville omnirange station to the Knoxville omnirange station via the intersection of the Asheville omnirange 329° True and the Knoxville omnirange 069° True radials.

§ 600.6186 *VOR civil airway No. 186 (St. Louis, Mo., to Scotland, Ind.).* From the St. Louis, Mo., omnirange station via the Vandalia, Ill., omnirange station; intersection of the Vandalia omnirange 073° True and the Scotland omnirange 293° True radials; to the Scotland, Ind., omnirange station.

§ 600.6187 *VOR civil airway No. 187 (Chicago, Ill., to Milwaukee, Wis.).* From the point of intersection of the Naperville, Ill., omnirange 064° True and the Chicago Heights, Ill., omnirange 009° True radials via the intersection of the Chicago Heights omnirange 009° True and the Milwaukee omnirange 117° True radials; to the Milwaukee, Wis., omnirange station.

§ 600.6188 *VOR civil airway No. 188 (Detroit, Mich., to New York, N. Y.).* From the Carleton, Mich., omnirange station via the Perry, Ohio, nondirectional radio beacon; Fitzgerald, Pa., omnirange station; Williamsport, Pa., omnirange station; via the Williamsport omnirange direct radial to the point of intersection of the Allentown, Pa., omnirange 329° True and the Wilkes-Barre-Scranton, Pa., omnirange 224° True radials; via the Stroudsburg omnirange direct radial to the Stroudsburg, Pa., omnirange station; to the Caldwell, N. J., omnirange station.

§ 600.6189 *VOR civil airway No. 189 (Pittsburgh, Pa., to Brookville, Pa.).* From the Pittsburgh, Pa., omnirange station to the point of intersection of the Pittsburgh omnirange 040° True and the Bradford, Pa., omnirange 210° True radials.

§ 600.6190 *VOR civil airway No. 190 (Grants, N. Mex., to Evansville, Ind.).* From the Grants, N. Mex., omnirange station via the intersection of the Grants omnirange 067° True and the Santa Fe omnirange 253° True radials; Santa Fe, N. Mex., omnirange station; Las Vegas, N. Mex., omnirange station; Dalhart, Tex., omnirange station; Gage, Okla., omnirange station; intersection of the Gage omnirange 059° True and the Ponca City omnirange 280° True radials; Ponca City, Okla., omnirange station; intersection of the Ponca City omnirange 076° True and the Springfield omnirange 261° True radials; Springfield, Mo., omnirange station; Farmington, Mo., omnirange station; to the Evansville, Ind., omnirange station.

§ 600.6191 *VOR civil airway No. 191 (Walnut Ridge, Ark., to Chicago, Ill.).* From the Walnut Ridge, Ark., omnirange station via the Farmington, Mo., omnirange station; intersection of the Farmington omnirange 351° True and the Troy omnirange 215° True radials; Troy, Ill., omnirange station; Roberts, Ill., omnirange station; intersection of the Roberts omnirange 012° True and the Chicago Midway Airport terminal omnirange 198° True radials; to the Chicago, Ill., Midway Airport terminal omnirange station.

§ 600.6192 *VOR civil airway No. 192 (Grants, N. Mex., to Tucumcari, N. Mex.).* From the Grants, N. Mex., omnirange station via the intersection of the Grants omnirange 136° True and the Corona omnirange 272° True radials; Corona, N. Mex., omnirange station; to the Tucumcari, N. Mex., omnirange station.

§ 600.6193 *VOR civil airway No. 193 (Grand Rapids, Mich., to Traverse City, Mich.).* From the Grand Rapids, Mich., ILS outer marker via the White Cloud, Mich., omnirange station; to the Traverse City, Mich., LF radio range station.

§ 600.6194 *VOR civil airway No. 194 (Royston, Ga., to Norfolk, Va.).* From the point of intersecton of the Royston omnirange 270° True and the Norcross, Ga., omnirange 054° True radials via the Royston, Ga., omnirange station; intersection of the Royston omnirange 078° True and the Charlotte omnirange 241° True radials; Charlotte, N. C., omnirange station; Raleigh, N. C., omnirange station; Rocky Mount, N. C., omnirange station; point of intersection of the Williamston, N. C., VAR north course and the Norfolk ILS localizer southwest course; Norfolk, Va., ILS localizer; to the point of intersection of the Norfolk ILS localizer northeast course and the Norfolk, Va., VAR north course.

§ 600.6195 *VOR civil airway No. 195 (Oakland, Calif., to Red Bluff, Calif.).* From the Oakland, Calif., omnirange station via the Sacramento, Calif., omnirange station; Williams, Calif., omnirange station, including a west alternate from the Oakland omnirange station to the Williams omnirange station via the point of intersection of the Sacramento omnirange 218° True and the Williams omnirange 167° True radials; to the Red Bluff, Calif., omnirange station, including a west alternate via the intersection of the Williams omnirange 339° True and the Red Bluff omnirange 189° True radials.

§ 600.6196 *VOR civil airway No. 196 (Rock River, Wyo., to Chadron, Nebr.).* From the Rock River, Wyo., omnirange station to the Chadron, Nebr., omnirange station.

§ 600.6197 *VOR civil airway No. 197 (Toledo, Ohio, to Detroit, Mich.).* From the Waterville, Ohio, omnirange station to the Carleton, Mich., omnirange station.

§ 600.6198 *VOR civil airway No. 198 (San Antonio, Tex., to Galveston, Tex.).* From the San Antonio, Tex., omnirange station via the Eagle Lake, Tex., omnirange station; to the Galveston, Tex., omnirange station, including a north alternate from the San Antonio omnirange station to the Galveston omnirange station via the point of intersection of the Austin, Tex., omnirange 109° True and the College Station, Tex., omnirange 202° True radials, thence via the Houston, Tex., omnirange station.

§ 600.6199 *VOR civil airway No. 199 (San Francisco, Calif., to Fresno, Calif.).* From the San Francisco, Calif., omnirange station via the intersection of the San Francisco omnirange 111° True and the Fresno omnirange 287° True radials; to the Fresno, Calif., omnirange station.

§ 600.6200 *VOR civil airway No. 200 (Ukiah, Calif., to Reno, Nev.).* From the Ukiah, Calif., omnirange station via the Williams, Calif., omnirange station; intersection of the Williams omnirange 061° True and the Reno omnirange 268° True radials; to the Reno, Nev., omnirange station, including a south alternate from the Williams omnirange station to the Reno omnirange station via the point of intersection of the Williams omnirange 104° True and the Sacramento, Calif., omnirange 055° True radials and the intersection of the Sacramento omnirange 055° True and the Reno omnirange 230° True radials.

§ 600.6201 *VOR civil airway No. 201 (Los Angeles, Calif., to Pasadena, Calif.).* From the point of intersection of the Los Angeles omnirange 207° True and the Long Beach, Calif., omnirange 250° True radials via the Los Angeles, Calif., omnirange station; thence via the direct radial of the Los Angeles omnirange to the point of its intersection with the Long Beach omnirange 346° True and the Palmdale, Calif., omnirange 200° True radials.

§ 600.6202 *VOR civil airway No. 202 (Tucson, Ariz., to Cochise, Ariz.).* From the Tucson, Ariz., MF radio range station via the point of intersection of a straight line bearing 157° True from the Tucson MF radio range and the Cochise omnirange 257° True radial; to the Cochise, Ariz., omnirange station.

§ 600.6203 *VOR civil airway No. 203 (Albany, N. Y., to Massena, N. Y.).* From the Albany, N. Y., omnirange station to the Massena, N. Y., omnirange station.

§ 600.6204 *VOR civil airway No. 204 (Hoquiam, Wash., to Olympia, Wash.).* From the Hoquiam, Wash., omnirange station to the Olympia, Wash., omnirange station, excluding the airspace above 14,500 feet above mean sea level.

§ 600.6205 *VOR civil airway No. 205 (Springfield, Mo., to Kansas City, Mo.).* From the Springfied, Mo., omnirange station via the Blue Springs, Mo., omnirange station, including a west alternate via the intersecton of the Sprngfield omnirange 316° True and the Blue Springs omnirange 178° True radials; to the Kansas City, Mo., omnirange station. The portion of this airway which overlaps the Lake City restricted area (R–307) is excluded.

§ 600.6206 *VOR civil airway No. 206 (Blue Springs, Mo., to Kirksville, Mo.).* From the Blue Springs, Mo., omnirange station via the intersection of the Blue Springs omnirange 056° True and the Kirksville omnirange 225° True radials; to the Kirksville, Mo., omnirange station. The portion of this airway which overlaps the Lake City Restricted Area (R–307) is excluded.

§ 600.6207 *VOR civil airway No. 207 (Denver, Colo., to Egbert, Wyo.).* From the Denver, Colo., omnirange station to the point of intersection of the Denver omnirange 016° True and the Cheyenne omnirange 098° True radials.

§ 600.6208 *VOR civil airway No. 208 (Thermal, Calif., to Needles, Calif.).* From the Thermal, Calif., omnirange station to the Needles, Calif., omnirange station.

§ 600.6209 *VOR civil airway No. 209 (Los Angeles, Calif., to Paso Robles, Calif.).* From the Los Angeles, Calif., omnirange station via the intersection of the Los Angeles, omnirange 301° True and the Fillmore omnirange 163° True radials; Fillmore, Calif., omnirange station; to the Paso Robles, Calif., omnirange station.

§ 600.6211 *VOR civil airway No. 211 (Cotulla, Tex., to Junction, Tex.).* From the Cotulla, Tex., omnirange station to the Junction, Tex., omnirange station.

§ 600.6213 *VOR civil airway No. 213 (Rocky Mount, N. C., to Boykins, Va.).* From the Rocky Mount, N. C., omnirange station via its direct radial to the point of intersection of the Lawrenceville, Va., omnirange 116° True radial and the southwest course of the Waverly, Va., LF radio range.

§ 600.6223 *VOR civil airway No. 223 (Herndon, Va., to Harrisburg, Pa.).* From the Herndon, Va., omnirange station to the Harrisburg, Pa., omnirange station.

HAWAIIAN VOR CIVIL AIRWAYS

§ 600.6401 *Hawaiian VOR civil airway No. 1.* From the Hilo, Hawaii, T. H., omnirange station to the intersection of the Hilo omnirange 041° True and the Upolu, Hawaii, T. H., omnirange 096° True radials.

§ 600.6402 *Hawaiian VOR civil airway No. 2.* From the Lihue, Kauai, T. H., omnirange station via the intersection of the Lihue omnirange 126° True and the Honolulu omnirange 246° True radials; Honolulu, Oahu, T. H., omnirange station, including a south alternate between the Lihue, Kauai, T. H., omnirange station and the Honolulu, Oahu, T. H., omnirange station via the intersection of the Lihue omnirange 141° True and the Honolulu omnirange 246° True radials; Lanai, T. H., omnirange station, including a south alternate; the intersection of the Lanai omnirange 111° True and the Upolu omnirange 302° True radials; Upolu, Hawaii, T. H., omnirange station, excluding the portion which overlaps Kahoolawe restricted area; the intersection of the Upolu omnirange 096° True and the Hilo omnirange 336° True radials; Hilo, Hawaii, T. H., omnirange station to the intersection of the Hilo 089° True radial and a point 33 statute miles east from the Hilo, Hawaii, T. H., omnirange station.

§ 600.6403 *Hawaiian VOR civil airway No. 3.* From the intersection of the Hilo omnirange 173° True radial and a point 36 statute miles south from the Hilo, Hawaii, T. H., omnirange station via the Hilo, Hawaii, T. H., omnirange station to the intersection of the Hilo omnirange 006° True and the Upolu, Hawaii, T. H., omnirange 096° True radials.

§ 600.6404 *Hawaiian VOR civil airway No. 4.* From the intersection of the Honolulu omnirange 246° True and Lihue, Kauai, T. H., omnirange 186° True radials via the Honolulu, Oahu, T. H., omnirange station to the intersection of the Honolulu omnirange 061° True and the Maui, T. H., omnirange 351° True radials, excluding the portion below 6,000 feet which overlaps the Kaneohe Naval Airspace Reservation. The portion of this airway which overlaps the Waikane Restricted Area (R–496) is excluded.

§ 600.6405 *Hawaiian VOR civil airway No. 5.* From the intersection of the Maui omnirange 191° True and the Lanai, T. H., omnirange 111° True radials via the Maui, T. H., omnirange station, excluding the portion which overlaps the Kahoolawe restricted area, to the intersection of the Maui omnirange 351° True and the Honolulu, Oahu, T. H., omnirange 061° True radials.

§ 600.6406 *Hawaiian VOR civil airway No. 6.* From the Lanai, T. H., omnirange station to the Maui, T. H., omnirange station.

§ 600.6407 *Hawaiian VOR civil airway No. 7.* From the Lanai, T. H., omnirange station to the intersection of the Lanai omnirange 337° True and the Honolulu, Oahu, T. H., omnirange 061° True radials.

§ 600.6408 *Hawaiian VOR civil airway No. 8.* From the intersection of the Maui omnirange 237° True and the Lanai, T. H., omnirange 111° True radials to the Maui, T. H., omnirange station, excluding the portion which overlaps the Kahoolawe restricted area.

§ 600.6409 *Hawaiian VOR civil airway No. 9.* From the intersection of the Honolulu omnirange 179° True and the Lanai, T. H., omnirange 224° True radials to the Honolulu, Oahu, T. H., omnirange station, excluding the portion above 10,000 feet extending from Lat. 20°00'00" North, to the arc of a circle 25 miles south of a point located at Lat. 21°19'40" North, Long. 157°59'35" West.

§ 600.6410 *Hawaiian VOR civil airway No. 10.* From the Upolu, Hawaii, T. H., omnirange station to the intersection of the Upolu omnirange 096° True and the Hilo, Hawaii, T. H., omnirange 041° True radials.

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

Subpart A—Introduction

GENERAL

Sec.
601.1 Basis and purpose.
601.2 Explanation of terms.

CONTROL AREAS

601.9 Extent of control areas.
601.10 Designation of control areas.

Subpart B—Colored Civil Airway Control Areas

GREEN CIVIL AIRWAYS

601.11 Green civil airway No. 1 control areas (Particia Bay, British Columbia, to United States-Canadian Border via Millinocket, Maine).
601.12 Green civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).
601.13 Green civil airway No. 3 control areas (San Francisco, Calif., to New York, N. Y.).
601.14 Green civil airway No. 4 control areas (Los Angeles, Calif., to Philadelphia, Pa.).
601.15 Green civil airway No. 5 control areas (Los Angeles, Calif., to Boston, Mass.).
601.16 Green civil airway No. 6 control areas (Laredo, Tex., to Norfolk, Va.).
601.17 Green civil airway No. 7 control areas (Nome, Alaska, to Fairbanks, Alaska).
601.18 Green civil airway No. 8 control areas (Cold Bay, Alaska, to Northway, Alaska).
601.19 Green civil airway No. 9 control areas (Hawaiian Islands).
601.20 Green civil airway No. 10 control areas (United States-Canadian Board to Denver, Colo.).

AMBER CIVIL AIRWAYS

601.101 Amber civil airway No. 1 control areas (United States-Mexican Border to Nome, Alaska).
601.102 Amber civil airway No. 2 control areas (Long Beach, Calif., to Point Barrow, Alaska).
601.103 Amber civil airway No. 3 control areas (El Paso, Tex., to Great Falls, Mont.).
601.104 Amber civil airway No. 4 control areas (Brownsville, Tex., to Minot, N. Dak.).
601.105 Amber civil airway No. 5 control areas (Grand Isle, La., to Milwaukee, Wis.).
601.106 Amber civil airway No. 6 control areas (Jacksonville, Fla., to United States-Canadian Border).
601.107 Amber civil airway No. 7 control areas (Key West, Fla., to United States-Canadian Border).
601.108 Amber civil airway No. 8 control areas (Los Angeles, Calif., to Ellensburg, Wash.).
601.109 Amber civil airway No. 9 control areas (Charleston, S. C., to Norfolk, Va.).
601.110 Amber civil airway No. 10 control areas (Hawaiian Islands).
601.111 Amber civil airway No. 11 control areas (Hawaiian Islands).
601.112 Amber civil airway No. 12 control areas (Hawaiian Islands).
601.113 Amber civil airway No. 13 control areas (Washington, D. C., to New York, N. Y.).
601.114 Amber civil airway No. 14 control areas (Washington, D. C., to New York, N. Y.).
601.115 Amber civil airway No. 15 control areas (Washington, D. C., to New York, N. Y.).
601.119 Amber civil airway No. 19 control areas (Washington, D. C., to New York, N. Y.).

RED CIVIL AIRWAYS

601.202 Red civil airway No. 2 control areas (Sheridan, Wyo., to Rapid City, S. Dak.).
601.203 Red civil airway No. 3 control areas (Phillipsburg, Pa., to Hartford, Conn.).
601.204 Red civil airway No. 4 control areas (Albuquerque, N. Mex., to Tucumcari, N. Mex.).
601.205 Red civil airway No. 5 control areas (Sioux Falls, S. Dak., to St. Paul, Minn.).
601.206 Red civil airway No. 6 control areas (Denver, Colo., to Omaha, Nebr.).
601.207 Red civil airway No. 7 control areas (Atlanta, Ga., to Greensboro, N. C.).
601.207 Red civil airway No. 8 control areas (Dayton, Ohio, to Newark, N. J.).
601.209 Red civil airway No. 9 control areas (San Diego, Calif., to Casa Grande, Ariz.).
601.210 Red civil airway No. 10 control areas (Amarillo, Tex., to Charleston, S. C.).
601.211 Red civil airway No. 11 control areas (Enid, Okla., to Boston, Mass.).
601.212 Red civil airway No. 12 control areas (Joliet, Ill., to Erie, Pa.).
601.213 Red civil airway No. 13 control areas (Butler, Pa., to Boston, Mass.).
601.214 Red civil airway No. 14 control areas (Lone Rock, Wis., to Louisville, Ky.).
601.215 Red civil airway No. 15 control areas (Reno, Nev., to Phoenix, Ariz.).
601.216 Red civil airway No. 16 control areas (Tallahassee, Fla., to Florence, S. C.).
601.217 Red civil airway No. 17 control areas (St. Louis, Mo., to Baltimore, Md.).
601.218 Red civil airway No. 18 control areas (Indianapolis, Ind., to Washington, D. C.).
601.219 Red civil airway No. 19 control areas (Traverse City, Mich., to Norfolk, Va.).
601.220 Red civil airway No. 20 control areas (Lansing, Mich., to Washington, D. C.).

601.221 Red civil airway No. 21 control areas (New York, N. Y., to Boston, Mass.).
601.222 Red civil airway No. 22 control areas (Mount Clemens, Mich., to Albany, N. Y.).
601.223 Red civil airway No. 23 control areas (United States-Canadian Border to New York, N. Y.).
601.224 Red civil airway No. 24 control areas (Amarillo, Tex., to Oklahoma City, Okla.).
601.226 Red civil airway No. 26 control areas (Petersburg, Va., to Corapeake, N. C.).
601.227 Red civil airway No. 27 control areas (Atlanta, Ga., to Detroit, Mich.).
601.228 Red civil airway No. 28 control areas (Rockford, Ill., to Detroit, Mich.).
601.229 Red civil airway No. 29 control areas (Elmira, N. Y., to Baltimore, Md.).
601.230 Red civil airway No. 30 control areas (Shreveport, La., to Jacksonville, Fla.).
601.231 Red civil airway No. 31 control areas (Cheyenne, Wyo., to La Crosse, Wis.).
601.232 Red civil airway No. 32 control areas (Laredo, Tex., to Houston, Tex.).
601.233 Red civil airway No. 33 control areas (Norfolk, Va., to Boston, Mass.).
601.234 Red civil airway No. 34 control areas (Charleston, W. Va., to Weeksville, N. C.).
601.235 Red civil airway No. 35 control areas (Pueblo, Colo., to St. Joseph, Mo.).
601.236 Red civil airway No. 36 control areas (Rochester, Minn., to La Crosse, Wis.).
601.237 Red civil airway No. 37 control areas (Tyler, Tex., to Gordonsville, Va.).
601.238 Red civil airway No. 38 control areas (Big Spring, Tex., to San Antonio, Tex.).
601.239 Red civil airway No. 39 control areas (Bethel, Alaska, to Fairbanks, Alaska).
601.240 Red civil airway No. 40 control areas (Kodiak, Alaska, to Anchorage, Alaska)
601.241 Red civil airway No. 41 control areas (Yakutat, Alaska, to Gustavus, Alaska).
601.242 Red civil airway No. 42 control areas (Milwaukee, Wis., to Aurora, Ill.).
601.243 Red civil airway No. 43 control areas (Chicago, Ill., to LaFayette, Ind.).
601.244 Red civil airway No. 44 control areas (Bellingham, Wash., to United States-Canadian Border).
601.245 Red civil airway No. 45 control areas (Blackstone, Va., to Willow Grove, Pa.).
601.246 Red civil airway No. 46 control areas (United States-Canadian Border to Jamestown, N. Dak.).
601.247 Red civil airway No. 47 control areas (Tampa, Fla., to Daytona Beach, Fla.).
601.248 Red civil airway No. 48 control areas (Missoula, Mont., to Livingston, Mont.).
601.249 Red civil airway No. 49 control areas (Elko, Nev., to Fort Bridger, Wyo.).
601.250 Red civil airway No. 50 control areas (Galena, Alaska, to Fairbanks, Alaska).
601.251 Red civil airway No. 51 control areas (Blackstone, Va., to Norfolk, Va.).
601.252 Red civil airway No. 52 control areas (Memphis, Tenn., to Birmingham, Ala.).
601.253 Red civil airway No. 53 control areas (Portland, Oreg., to Spokane, Wash.).
601.254 Red civil airway No. 54 control areas (Burley, Idaho, to Salt Lake City, Utah).
601.255 Red civil airway No. 55 control areas (Burlington, Iowa, to Columbus, Ohio).
601.256 Red civil airway No. 56 control areas (Red Bluff, Calif., to Whitmore, Calif.).
601.257 Red civil airway No. 57 control area (Des Moines, Iowa, to Youngstown, Ohio).
601.258 Red civil airway No. 58 control areas (Augusta, Maine, to United States-Canadian Border).
601.259 Red civil airway No. 59 control areas (Garden City, Kans., to Oklahoma City, Okla.).
601.260 Red civil airway No. 60 control areas (Oakland, Calif., to Stockton, Calif.).
601.261 Red civil airway No. 61 control areas (Butler, Pa., to Washington, D. C.).
601.262 Red civil airway No. 62 control areas (Pittsburgh, Pa., to Altoona, Pa.).
601.263 Red civil airway No. 63 control areas (Battle Creek, Mich., to the United States-Canadian Border).
601.264 Red civil airway No. 64 control areas (United States-Canadian Border to Annette Island, Alaska).
601.265 Red civil airway No. 65 control areas (Los Angeles, Calif., to Hayfield Lake, Calif.).
601.266 Red civil airway No. 66 control areas (Santa Barbara, Calif., to Los Angeles, Calif.).
601.267 Red civil airway No. 67 control areas (Crestview, Fla., to Atlanta, Ga.).
601.268 Red civil airway No. 68 control areas (Midland, Tex., to Shreveport, La.).
601.269 Red civil airway No. 69 control areas (Midland, Tex., to Big Spring, Tex.).
601.270 Red civil airway No. 70 control areas (Midland, Tex., to Lubbock, Tex.).
601.271 Red civil airway No. 71 control areas (El Paso, Tex., to Lubbock, Tex.).
601.272 Red civil airway No. 72 control areas (Millville, N. J., to Paterson, N. J.).
601.273 Red civil airway No. 73 control areas (Baltimore, Md., to Millville, N. J.).
601.274 Red civil airway No. 74 control areas (Louisville, Ky., to Cincinnati, Ohio).
601.275 Red civil airway No. 75 control areas (United States-Canadian Border, Vancouver, B. C., to United States-Canadian Border, Abbotsford, B. C.).
601.276 Red civil airway No. 76 control areas (Williams, Calif., to Auburn, Calif.).
601.277 Red civil airway No. 77 control areas (Greensboro, N. C., to Atlantic City, N. J.).
601.278 Red civil airway No. 78 control areas (Medford, Oreg., to Klamath Falls, Oreg.).
601.279 Red civil airway No. 79 control areas (Neah Bay, Wash., to Everett, Wash.).
601.280 Red civil airway No. 80 control areas (Helena, Mont., to Miles City, Mont.).

Sec.	
601.281	Red civil airway No. 81 control areas (Lansing, Mich., to Detroit, Mich.).
601.282	Red civil airway No. 82 control areas (Skwentna, Alaska, to Anchorage, Alaska).
601.283	Red civil airway No. 83 control areas (Gila Bend, Ariz., to Tucson, Ariz.).
601.284	Red civil airway No. 84 control areas (Meridian, Miss., to Columbus, Ga.).
601.285	Red civil airway No. 85 control areas (Akron, Ohio, to Altoona, Pa.).
601.286	Red civil airway No. 86 control areas (Millinocket, Maine, to Houlton, Maine).
601.287	Red civil airway No. 87 control areas (Hawaiian Islands).
601.288	Red civil airway No. 88 control areas (Albuquerque, N. Mex., to Hobbs, N. Mex.).
601.289	Red civil airway No. 89 control areas (Quincy, Ill., to Peoria, Ill.).
601.290	Red civil airway No. 90 control areas (Oxnard, Calif., to Burbank, Calif.).
601.291	Red civil airway No. 91 control areas (Dunkirk, N. Y., to Syracuse, N. Y.).
601.292	Red civil airway No. 92 control areas (Sault Ste. Marie, Mich., to United States-Canadian Border).
601.293	Red civil airway No. 93 control areas (Lincoln, Nebr., to Omaha, Nebr.).
601.294	Red civil airway No. 94 control areas (Providence, R. I., to Hyannis, Mass.).
601.295	Red civil airway No. 95 control areas (Elmira, N. Y., to Utica, N. Y.).
601.296	Red civil airway No. 96 control areas (Palacios, Tex., to Baton Rouge, La.).
601.297	Red civil airway No. 97 control areas (United States-Canadian Border near Lakehead, Ontario, Canada, to United States-Canadian Border near Sault Ste. Marie, Mich.).
601.298	Red civil airway No. 98 control areas (Vichy, Mo., to Belleville, Ill.).
601.299	Red civil airway No. 99 control areas (Illamna, Alaska, to Homer, Alaska.).
601.300	Red civil airway No. 100 control areas (South Bend, Ind., to Battle Creek, Mich.).
601.302	Red civil airway No. 102 control areas (Louisville, Ky., to Huntington, W. Va.).
601.303	Red civil airway No. 103 control areas (Kenai, Alaska, to Middleton Island, Alaska).
601.304	Red civil airway No. 104 control areas (Greensboro, N. C., to Raleigh, N. C.).
601.305	Red civil airway No. 105 control areas (Wichita, Kans., to Neosho, Mo.).
601.306	Red civil airway No. 106 control areas (Scottsbluff, Nebr., to North Platte, Nebr.).
601.307	Red civil airway No. 107 control areas (Stanton, Minn., to Red Wing, Minn.).
601.308	Red civil airway No. 108 control areas (Promontory Point, Utah, to Fort Bridger, Wyo.).
601.309	Red civil airway No. 109 control areas (Portland, Oreg., to Spokane, Wash.).

BLUE CIVIL AIRWAYS

Sec.	
601.601	Blue civil airway No. 1 control areas (Miami, Fla., to Tampa, Fla.).
601.602	Blue civil airway No. 2 control areas (Montgomery, Ala., to Erie, Pa.).
601.603	Blue civil airway No. 3 control areas (Miami, Fla., to Sault Ste. Marie, Mich.).
601.604	Blue civil airway No. 4 control areas (Nantucket, Mass., to United States-Canadian Border).
601.605	Blue civil airway No. 5 control areas (Galveston, Tex., to Wichita, Kans.).
601.606	Blue civil airway No. 6 control areas (Abilene, Tex., to Muskegon, Mich.).
601.607	Blue civil airway No. 7 control areas (Hollister, Calif., to Williams, Calif.).
601.608	Blue civil airway No. 8 control areas (Fargo, N. Dak., to United States-Canadian Border).
601.609	Blue civil airway No. 9 control areas (Springfield, Mo., to United States-Canadian Border).
601.610	Blue civil airway No. 10 control areas (Fresno, Calif., to Williams, Calif.).
601.611	Blue civil airway No. 11 control areas (Findlay, Ohio, to Dunkirk, N. Y.).
601.613	Blue civil airway No. 13 control areas (Houston, Tex., to Des Moines, Iowa).
601.614	Blue civil airway No. 14 control areas (El Centro, Calif., to Sacramento, Calif.).
601.615	Blue civil airway No. 15 control areas (Huntington, W. Va., to Youngstown, Ohio).
601.616	Blue civil airway No. 16 control areas (Waverly, Va., to Tappahannock, Va.).
601.617	Blue civil airway No. 17 control areas (Bangor, Maine, to Presque Isle, Maine).
601.618	Blue civil airway No. 18 control areas (Philadelphia, Pa., to United States-Canadian Border).
601.619	Blue civil airway No. 19 control areas (Key West, Fla., to Orlando, Fla.).
601.620	Blue civil airway No. 20 control areas (Millville, N. J., to Allentown, Pa.).
601.622	Blue civil airway No. 22 control areas (Memphis, Tenn., to Wichita, Kans.).
601.623	Blue civil airway No. 23 control areas (Norfolk, Va., to Chincoteague, Va.).
601.625	Blue civil airway No. 25 control areas (Cordova, Alaska, to Big Delta, Alaska).
601.626	Blue civil airway No. 26 control areas (Anchorage, Alaska, to Nenana, Alaska).
601.627	Blue civil airway No. 27 control area (Kodiak, Alaska, to Kotzebue, Alaska).
601.628	Blue civil airway No. 28 control areas (Charleston, S. C., to Bulls Gap, Tenn.).
601.629	Blue civil airway No. 29 control areas (Raleigh, N. C., to Lynchburg, Va.).
601.630	Blue civil airway No. 30 control areas (Brownsville, Tex., to Pueblo, Colo.).
601.631	Blue civil airway No. 31 control areas (Burlington, Iowa, to Madison, Wis.).
601.632	Blue civil airway No. 32 control areas (Pendleton, Oreg., to Talkeetna, Alaska).
601.633	Blue civil airway No. 33 control areas (Lansing, Mich., to Saginaw, Mich.).
601.634	Blue civil airway No. 34 control areas (Terre Haute, Ind., to Peoria, Ill.).
601.635	Blue civil airway No. 35 control areas (Oxnard, Calif., to Bakersfield, Calif.).
601.636	Blue civil airway No. 36 control areas (Akron, Colo., to Kimball, Nebr.).
601.637	Blue civil airway No. 37 control areas (Casper, Wyo., to Rapid City, S. Dak.).
601.638	Blue civil airway No. 38 control areas (Five Finger, Alaska, to United States-Canadian Border).
601.639	Blue civil airway No. 39 control areas (Savannah, Ga., to Elmira, N. Y.).
601.640	Blue civil airway No. 40 control areas (Concord, N. H., to Burlington, Vt.).
601.641	Blue civil airway No. 41 control areas (Hartford, Conn., to United States-Canadian Border).
601.642	Blue civil airway No. 42 control areas (Goshen, Ind., to Saginaw, Mich.).
601.643	Blue civil airway No. 43 control areas (Delta Island, Alaska, to Willow, Alaska).
601.644	Blue civil airway No. 44 control areas (Indianapolis, Ind., to United States-Canadian Border).
601.645	Blue civil airway No. 45 control areas (Greenfield, Mass., to Newport, Vt.).
601.646	Blue civil airway No. 46 control areas (Memphis, Tenn., to Paducah, Ky.).
601.647	Blue civil airway No. 47 control areas (Blackstone, Va., to Dunkirk, N. Y.).
601.649	Blue civil airway No. 49 control areas (Atlantic City, N. J., to Philadelphia, Pa.).
601.651	Blue civil airway No. 51 control areas (Wendover, Utah, to Dubois, Idaho).
601.652	Blue civil airway No. 52 control areas (Paso Robles, Calif., to Fresno, Calif.).
601.653	Blue civil airway No. 53 control areas (Providence, R. I., to Hartford, Conn.).
601.654	Blue civil airway No. 54 control areas (Evergreen, Calif., to Hamilton AFB, Calif.).
601.655	Blue civil airway No. 55 control areas (Crestview, Fla., to Montgomery, Ala.).
601.656	Blue civil airway No. 56 control areas (Elizabeth City, N. C., to Washington, D. C.).
601.657	Blue civil airway No. 57 control areas (Elko, Nev., to Burley, Idaho).
601.658	Blue civil airway No. 58 control areas (Nantucket, Mass., to Squantum, Mass.).
601.659	Blue civil airway No. 59 control areas (Pensacola, Fla., to Goodway, Ala.).
601.660	Blue civil airway No. 60 control areas (Sunnyvale, Calif., to Stockton, Calif.).
601.661	Blue civil airway No. 61 control areas (Springfield, Mo., to Kansas City, Mo.).
601.663	Blue civil airway No. 63 control areas (Concord, N. H., to Berlin, N. H.).
601.664	Blue civil airway No. 64 control areas (Wink, Tex., to Hobbs, N. Mex.).

Sec.	
601.665	Blue civil airway No. 65 control areas (Shuyak, Alaska, to Homer, Alaska).
601.666	Blue civil airway No. 66 control areas (Bridgeport, Conn., to Poughkeepsie, N. Y.).
601.667	Blue civil airway No. 67 control areas (Yuma, Ariz., to Las Vegas, Nev.).
601.668	Blue civil airway No. 68 control areas (Midland, Tex., to Hobbs, N. Mex.).
601.669	Blue civil airway No. 69 control areas (St. Louis, Mo., to Quincy, Ill.).
601.670	Blue civil airway No. 70 control areas (Waco, Tex., to Tulsa, Okla.).
601.671	Blue civil airway No. 71 control areas (Toledo, Wash., to Seattle, Wash.).
601.672	Blue civil airway No. 72 control areas (Enid, Okla., to Wichita, Kans.).
601.674	Blue civil airway No. 74 control areas (Willard, N. Mex., to Otto, N. Mex.).
601.675	Blue civil airway No. 75 control areas (Cleveland, Ohio, to United States-Canadian Border).
601.676	Blue civil airway No. 76 control areas (Sinclair, Wyo., to Casper, Wyo.).
601.678	Blue civil airway No. 78 control areas (Spring Bay, Utah, to Malad City, Idaho).
601.679	Blue civil airway No. 79 control areas (Annette Island, Alaska, to United States-Canadian Border).
601.680	Blue civil airway No. 80 control areas (Unalakleet, Alaska, to Moses Point, Alaska).
601.681	Blue civil airway No. 81 (Charleston, W. Va., to Akron, Ohio).
601.684	Blue civil airway No. 84 control areas (Augusta, Maine, to Millinocket, Maine).
601.685	Blue civil airway No. 85 control areas (Hutchinson, Kans., to Wichita, Kans.).
601.686	Blue civil airway No. 86 control areas (Goshen, Ind., to Fort Wayne, Ind.).
601.687	Blue civil airway No. 87 control areas (Lexington, Ky., to Dayton, Ohio).

Subpart C—Control Area Extensions

Sec.	
601.1001	Control area extension (Moses Lake, Wash.).
601.1002	Control area extension (Austin, Tex.).
601.1003	Control area extension (Corinne, Utah).
601.1004	Control area extension (Brownsville, Tex.).
601.1005	Control area extension (Jacksonville, Fla.).
601.1006	Control area extension (Lake Charles, La.).
601.1007	Control area extension (Laredo, Tex.).
601.1008	Control area extension (Savannah, Ga.).
601.1009	Control area extension (Augusta, Ga.).
601.1010	Control area extension (Greenwood, S. C.).
601.1011	Control area extension (Daytona Beach, Fla.).
601.1012	Control area extension (Florence, S. C.).
601.1013	Control area extension (Fort Myers, Fla.).
601.1014	Control area extension (Greenville, S. C.).
601.1015	Control area extension (Greenwood, Miss.).
601.1016	Control area extension (Jackson, Tenn.).
601.1017	Control area extension (Reading, Pa.).
601.1018	Control area extension (Meridian, Miss.).
601.1019	Control area extension (Nashville, Tenn.).
601.1020	Control area extension (Macon, Ga.).
601.1021	Control area extension (Belleville, Ill.).
601.1022	Control area extension (West Palm Beach, Fla.).
601.1023	Control area extension (Akron, Colo.).
601.1024	Control area extension (Burlington, Iowa).
601.1025	Control area extension (New Orleans, La.).
601.1026	Control area extension (Grand Island, Nebr.).
601.1027	Control area extension (Kansas City, Mo.).
601.1028	Control area extension (Monroe, La.).
601.1029	Control area extension (Corpus Christi, Tex.).
601.1030	Control area extension (Victorville, Calif.).
601.1031	Control area extension (North Platte, Nebr.).
601.1032	Control area extension (Kotzebue, Alaska).
601.1033	Control area extension (St. Joseph, Mo.).
601.1034	Control area extension (Springfield, Mo.).
601.1035	Control area extension (Little Rock, Ark.).
601.1036	Control area extension (West Palm Beach, Fla.).
601.1037	Control area extension (Pensacola, Fla.).
601.1038	Control area extension (Great Falls, Mont.).
601.1039	Control area extension (Portland, Oreg.).
601.1040	Control area extension (Medford, Oreg.).
601.1041	Control area extension (Boise, Idaho).
601.1042	Control area extension (Columbus, Ohio).
601.1043	Control area extension (Bowling Green, Ky.).
601.1044	Control area extension (Ypsilanti, Mich.).
601.1045	Control area extension (Presque Isle, Maine).
601.1046	Control area extension (Falfurrias, Tex.).
601.1047	Control area extension (Bangor, Maine).

Subpart E—Colored Civil Airway Reporting Points

DESIGNATION OF REPORTING POINTS

601.4001 Designation of reporting points.

GREEN CIVIL AIRWAYS

601.4011 Green civil airway No. 1 (Patricia Bay, British Columbia to United States-Canadian Border via Millinocket, Maine).
601.4012 Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.).
601.4013 Green civil airway No. 3 (San Francisco, Calif., to New York, N. Y.).
601.4014 Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.).
601.4015 Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.).
601.4016 Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.).
601.4017 Green civil airway No. 7 (Nome, Alaska, to Fairbanks, Alaska).
601.4018 Green civil airway No. 8 (Cold Bay, Alaska, to Northway, Alaska).
601.4019 Green civil airway No. 9 (Hawaiian Islands).
601.4020 Green civil airway No. 10 (United States-Canadian Border to Denver, Colo.).

AMBER CIVIL AIRWAYS

601.4101 Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska).
601.4102 Amber civil airway No. 2 (Long Beach, Calif., to Point Barrow, Alaska).
601.4103 Amber civil airway No. 3 (El Paso, Tex., to Great Falls, Mont.).
601.4104 Amber civil airway No. 4 (Brownsville, Tex., to Minot, N. Dak.).
601.4105 Amber civil airway No. 5 (Grand Isle, La., to Milwaukee, Wis.).
601.4106 Amber civil airway No. 6 (Jacksonville, Fla., to United States-Canadian Border).
601.4107 Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border).
601.4108 Amber civil airway No. 8 (Los Angeles, Calif., to Ellensburg, Wash.).
601.4109 Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.).
601.4110 Amber civil airway No. 10 (Hawaiian Islands).
601.4111 Amber civil airway No. 11 (Hawaiian Islands).
601.4112 Amber civil airway No. 12 (Hawaiian Islands).

RED CIVIL AIRWAYS

601.4202 Red civil airway No. 2 (Sheridan, Wyo., to Rapid City, S. Dak.).
601.4203 Red civil airway No. 3 (Phillipsburg, Pa., to Hartford, Conn.).
601.4204 Red civil airway No. 4 (Las Vegas, N. Mex., to Tucumcari, N. Mex).
601.4205 Red civil airway No. 5 (Sioux Falls, S. Dak., to St. Paul, Minn.).
601.4206 Red civil airway No. 6 (Denver, Colo., to Omaha, Nebr.).
601.4207 Red civil airway No. 7 (Atlanta, Ga., to Greensboro, N. C.).
601.4208 Red civil airway No. 8 (Dayton, Ohio, to Newark, N. J.)
601.4209 Red civil airway No. 9 (San Diego, Calif., to Casa Grande, Ariz.).
601.4210 Red civil airway No. 10, Amarillo, Tex., to Charleston, S. C.).
601.4211 Red civil airway No. 11 (Enid, Okla., to Boston, Mass.).
601.4212 Red civil airway No. 12 (Joliet, Ill., to Erie, Pa.).
601.4213 Red civil airway No. 13 (Wheeling, W. Va., to Boston, Mass.).
601.4214 Red civil airway No. 14 (Lone Rock, Wis., to Louisville, Ky.).
601.4215 Red civil airway No. 15 (Reno, Nev., to Phoenix, Ariz.).
601.4216 Red civil airway No. 16 (Tallahassee, Fla., to Florence, S. C.).
601.4217 Red civil airway No. 17 (St. Louis, Mo., to Baltimore, Md.).
601.4218 Red civil airway No. 18 (Indianapolis, Ind., to Washington, D. C.).
601.4219 Red civil airway No. 19 (Traverse City, Mich., to Norfolk, Va.).
601.4220 Red civil airway No. 20 (Lansing, Mich., to Washington, D. C.).

Sec.
601.4221 Red civil airway No. 21 (New York, N. Y., to Boston, Mass.).

601.6113	VOR civil airway No. 113 control areas (Paso Robles, Calif., to Reno, Nev.).
601.6114	VOR civil airway No. 114 control areas (Pueblo, Colo., to New Orleans, La.).
601.6115	VOR civil airway No. 115 control areas. (Crestview, Fla., to Charleston, W. Va.).
601.6116	VOR civil airway No. 116 control areas (Kansas City, Mo., to New York, N. Y.).
601.6117	VOR civil airway No. 117 control areas (El Centro, Calif., to Daggett, Calif.).
601.6118	VOR civil airway No. 118 control areas (Rock River, Wyo., to Cheyenne, Wyo.).
601.6119	VOR civil airway No. 119 control areas (Huntington, W. Va., to Bradford, Pa.).
601.6120	VOR civil airway No. 120 control areas (Mullen Pass, Mont., to Miles City, Mont.).
601.6121	VOR civil airway No. 121 control areas (North Bend, Oreg., to Eugene, Oreg.).
601.6122	VOR civil airway No. 122 control areas (Crescent City, Calif., to Klamath Falls, Oreg.).
601.6123	VOR civil airway No. 123 control areas (Newport, Oreg., to Newberg, Oreg.).
601.6124	VOR civil airway No. 124 control areas (Burley, Idaho, to Pocatello, Idaho).
601.6125	VOR civil airway No. 125 control areas (Anthony, Kans., to Hutchinson, Kans.).
601.6126	VOR civil airway No. 126 control areas (Chicago, Ill., to New York, N. Y.).
601.6127	VOR civil airway No. 127 control areas (Livingston, Mont., to Helena, Mont.).
601.6128	VOR civil airway No. 128 control areas (Chicago, Ill., to New Bern, N. C.).
601.6129	VOR civil airway No. 129 control areas Dixon, Ill., to Eau Claire, Wis.).
601.6130	VOR civil airway No. 130 control areas (Albany, N. Y., to Providence, R. I.).
601.6131	VOR civil airway No. 131 control areas (Ponca City, Okla., to Topeka, Kans.).
601.6132	VOR civil airway No. 132 control areas (Cheyenne, Wyo., to Hutchinson, Kans.).
601.6133	VOR civil airway No. 133 control areas (Parkersburg, W. Va., to Flint, Mich.).
601.6134	VOR civil airway No. 134 control areas (Evergreen, Ala., to Atlanta, Ga.).
601.6135	VOR civil airway No. 135 control areas (Yuma, Ariz., to Las Vegas, Nev.).
601.6136	VOR civil airway No. 136 control areas (Pulaski, Va., to Raleigh, N. C.).
601.6137	VOR civil airway No. 137 control areas (San Bernardino, Calif., to Salinas, Calif.).
601.6138	VOR civil airway No. 138 control areas (Rock River, Wyo., to Sidney, Nebr.).
601.6139	VOR civil airway No. 139 control areas (Norwich, Conn., to Boston, Mass.).
601.6140	VOR civil airway No. 140 control areas (Amarillo, Tex., to New York, N. Y.).
601.6141	VOR civil airway No. 141 control areas (Nantucket, Mass., to Plattsburg, N. Y.).
601.6142	VOR civil airway No. 142 control areas (Buffalo, N. Y., to Rochester, N. Y.).
601.6143	VOR civil airway No. 143 control areas (Charlotte, N. C., to Washington, D. C.).
601.6144	VOR civil airway No. 144 control areas (Charlotte, N. C., to Washton, D. C.).
601.6145	VOR civil airway No. 145 control areas (Utica, N. Y. to the United States-Canadian Border).
601.6146	VOR civil airway No. 146 control areas (Poughkeepsie, N. Y., to Woodstock, Conn.).
601.6147	VOR civil airway No. 147 control areas (Philadelphia, Pa., to Rochester, N. Y.).

Sec.	
601.6148	VOR civil airway No. 148 control areas (Thurman, Colo., to North Platte, Nebr.).
601.6149	VOR civil airway No. 149 control areas (Allentown, Pa., to Utica, N. Y.).
601.6150	VOR civil airway No. 150 control areas (Sacramento, Calif., to Reno, Nev.).
601.6151	VOR civil airway No. 151 control areas (Woonsocket, R. I., to Keene, N. H.).
601.6152	VOR civil airway No. 152 control areas (Tampa, Fla., to Daytona Beach, Fla.).
601.6153	VOR civil airway No. 153 control areas (New York, N. Y., to Wilkes-Barre, Pa.).
601.6154	VOR civil airway No. 154 control areas (Meridian, Miss., to Macon, Ga.).
601.6155	VOR civil airway No. 155 control areas (Gordonsville, Va., to Front Royal, Va.).
601.6156	VOR civil airway No. 156 control areas (Elkins, W. Va., to Gordonsville, Va.).
601.6157	VOR civil airway No. 157 control areas (Wilmington, N. C., to Richmond, Va.).
601.6158	VOR civil airway No. 158 control areas (Iowa Falls, Iowa, to Waterloo, Iowa).
601.6159	VOR civil airway No. 159 control areas (Miami, Fla., to Albany Ga.).
601.6160	VOR civil airway No. 160 control areas (Denver, Colo., to Sidney, Nebr.).
601.6161	VOR civil airway No. 161 control areas (Tulsa, Okla., to Minneapolis, Minn.).
601.6162	VOR civil airway No. 162 control areas (Harrisburg, Pa., to Allentown, Pa.).
601.6163	VOR civil airway No. 163 control areas (Waco, Tex., to Oklahoma City, Okla.).
601.6164	VOR civil airway No. 164 control areas (Bradford, Pa., to New York, N. Y.).
601.6165	VOR civil airway No. 165 control areas (Long Beach, Calif., to Palmdale, Calif.).
601.6166	VOR civil airway No. 166 control areas (Martinsburg, W. Va., to Philadelphia, Pa.).
601.6167	VOR civil airway No. 167 control areas (New York, N. Y., to Hartford, Conn.).
601.6168	VOR civil airway No. 168 control areas.
601.6169	VOR civil airway No. 169 control areas (Sidney, Nebr., to Rapid City, S. Dak.).
601.6170	VOR civil airway No. 170 control areas (Erie, Pa., to Philadelphia, Pa.).
601.6171	VOR civil airway No. 171 control areas (Louisville, Ky., to Madison, Wis.).
601.6172	VOR civil airway No. 172 control areas (Iowa City, Iowa, to Chicago, Ill.).
601.6173	VOR civil airway No. 173 control areas (Springfield, Ill., to Chicago, Ill.).
601.6174	VOR civil airway No. 174 control areas (St. Louis, Mo., to Washington, D. C.).
601.6175	VOR civil airway No. 175 control areas (Vichy, Mo., to Columbia, Mo.).
601.6176	VOR civil airway No. 176 control areas (Centralia, Ill., to Scotland, Ind.).
601.6177	VOR civil airway No. 177 control areas (Chicago, Ill., to Janesville, Wis.).
601.6178	VOR civil airway No. 178 control areas (Farmington, Mo., to Paducah, Ky.).
601.6179	VOR civil airway No. 179 control areas (Paducah, Ky., to Centralia, Ill.)
601.6180	VOR civil airway No. 180 control areas (Lansing, Mich., to Selfridge, Mich.).
601.6181	VOR civil airway No. 181 control areas (Sioux Falls, S. Dak., to Watertown, S. Dak.).
601.6182	VOR civil airway No. 182 control areas (Portland, Oreg., to Baker, Oreg.).
601.6183	VOR civil airway No. 183 control areas (Santa Barbara, Calif., to Bakersfield, Calif.).
601.6184	VOR civil airway No. 184 control areas (Erie, Pa., to Philipsburg, Pa.).
601.6185	VOR civil airway No. 185 control areas (Augusta, Ga., to Knoxville, Tenn.).
601.6186	VOR civil airway No. 186 control areas (St. Louis, Mo. to Scotland, Ind.).
601.6187	VOR civil airway No. 187 control areas (Chicago, Ill., to Milwaukee, Wis.).
601.6188	VOR civil airway No. 188 control areas (Detroit, Mich., to New York, N. Y.).
601.6189	VOR civil airway No. 189 control areas (Pittsburgh, Pa., to Brookville, Pa.).
601.6190	VOR civil airway No. 190 control areas (Grants, N. Mex., to Evansville, Ind.).
601.6191	VOR civil airway No. 191 control areas (Walnut Ridge, Ark., to Chicago, Ill.).
601.6192	VOR civil airway No. 192 control areas (Grant, N. Mex., to Tucumcari, N. Mex.).
601.6193	VOR civil airway No. 193 control areas (Grand Rapids, Mich., to Traverse City, Mich.).
601.6194	VOR civil airway No. 194 control areas (Royston, Ga., to Norfolk, Va.).
601.6195	VOR civil airway No. 195 control areas (Oakland, Calif., to Red Bluff, Calif.).
601.6196	VOR civil airway No. 196 control areas (Rock River, Wyo., to Chadron, Nebr.).
601.6197	VOR civil airway No. 197 control areas (Toledo, Ohio, to Detroit, Mich.).
601.6198	VOR civil airway No. 198 control areas (San Antonio, Tex., to Galveston, Tex.).
601.6199	VOR civil airway No. 199 control areas (San Francisco, Calif., to Fresno, Calif.).
601.6200	VOR civil airway No. 200 control areas (Uklah, Calif., to Reno, Nev.).
601.6201	VOR civil airway No. 201 control areas (Los Angeles, Calif., to Pasadena, Calif.).
601.6202	VOR civil airway No. 202 control areas (Tucson, Ariz., to Cochise, Ariz.).
601.6203	VOR civil airway No. 203 control areas (Albany, N. Y., to Massena, N. Y.).
601.6204	VOR civil airway No. 204 control areas (Hoquiam, Wash., to Olympia, Wash.).
601.6205	VOR civil airway No. 205 control areas (Springfield, Mo., to Kansas City, Mo.).
601.6206	VOR civil airway No. 206 control areas (Blue Springs, Mo., to Kirksville, Mo.).
601.6207	VOR civil airway No. 207 control areas (Denver, Colo., to Egbert, Wyo.).
601.6208	VOR civil airway No. 208 control areas (Thermal, Calif., to Needles, Calif.).
601.6209	VOR civil airway No. 209 control areas (Los Angeles, Calif., to Paso Robles, Calif.).
601.6211	VOR civil airway No. 211 control areas (Cotulla, Tex., to Junction, Tex.).
601.6213	VOR civil airway No. 213 control areas (Rocky Mount, N. C., to Boykins, Va.).
601.6223	VOR civil airway No. 223 control areas (Herndon, Va., to Harrisburg, Pa.).

HAWAIIAN VOR CIVIL AIRWAY CONTROL AREAS

601.6401	Hawaiian VOR civil airway No. 1 control areas.
601.6402	Hawaiian VOR civil airway No. 2 control areas.
601.6403	Hawaiian VOR civil airway No. 3 control areas.
601.6404	Hawaiian VOR civil airway No. 4 control areas.
601.6405	Hawaiian VOR civil airway No. 5 control areas.
601.6406	Hawaiian VOR civil airway No. 6 control areas.
601.6407	Hawaiian VOR civil airway No. 7 control areas.
601.6408	Hawaiian VOR civil airway No. 8 control areas.
601.6409	Hawaiian VOR civil airway No. 9 control areas.
601.6410	Hawaiian VOR civil airway No. 10 control areas.

Subpart G—VOR Civil Airway Reporting Points

601.7001	Domestic VOR reporting points.
601.7002	Hawaiian VOR reporting points.

AUTHORITY: §§ 601.1 to 601.7001 issued under sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551.

SUBPART A—INTRODUCTION

GENERAL

§ 601.1 *Basis and purpose.* The basis of this part is found in sections 205 and 601 of the Civil Aeronautics Act of 1938, as amended, and in §§ 60.73 and 60.74 of this title. The purpose of this part is to designate control areas, control zones, and reporting points in order to provide for the safety of aircraft operating in interstate, overseas, and foreign air commerce.

§ 601.2 *Explanation of terms.* As used in this part:

(a) "Control area" shall mean an airspace of defined dimensions extending upward from an altitude of 700 feet above the surface within which air traffic control is exercised.

(b) "Control zone" shall mean an airspace of defined dimensions extending upward from the surface to include one or more airports and within which rules additional to those governing flight in control areas apply for the protection of air traffic.

(c) "Reporting point" shall mean a geographic location in relation to which the position of an aircraft shall be reported.

(d) As used in this part the term "mile" means "statute mile" unless otherwise specified in this part.

CONTROL AREAS

§ 601.9 *Extent of control areas.* Points or intersections prescribed in designating control areas frequently coin-

cide with points or intersections specified in designating the centerline of civil airways. In such cases the control areas shall include all of the airspace within 5 miles either side of a straight line extended through the center of the points or intersections specified in designating the civil airways and all of the airspace within a 5-mile radius of such points or intersections unless otherwise provided in Subpart B, (§§ 601.11 through 601.1000), Subpart C (§§ 601.1001 through 601.1980), and Subpart F (§§ 601.6001 through 601.6999). In addition, such control areas shall include all the airspace between straight lines connecting the center of the points or intersections specified in designating the main and associated alternate VOR civil airways, unless otherwise specified.

§ 601.10 *Designation of control areas.* The portions of the civil airways and control area extensions described in Subpart B, Subpart C, and Subpart F are designated as control areas.

SUBPART B—COLORED CIVIL AIRWAY CONTROL AREAS

GREEN CIVIL AIRWAYS

§ 601.11 *Green civil airway No. 1 control areas (Patricia Bay, British Columbia, to United States-Canadian Border via Millinocket, Maine).* All of Green civil airway No. 1.

§ 601.12 *Green civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).* All of Green civil airway No. 2.

§ 601.13 *Green civil airway No. 3 control areas (San Francisco, Calif., to New York, N. Y.).* All of Green civil airway No. 3.

§ 601.14 *Green civil airway No. 4 control areas (Los Angeles, Calif., to Philadelphia, Pa.).* All of Green civil airway No. 4.

§ 601.15 *Green civil airway No. 5 control areas (Los Angeles, Calif., to Boston, Mass.).* All of Green civil airway No. 5.

§ 601.16 *Green civil airway No. 6 control areas (Laredo, Tex., to Norfolk, Va.).* All of Green civil airway No. 6.

§ 601.17 *Green civil airway No. 7 control areas (Nome, Alaska, to Fairbanks, Alaska).* All of Green civil airway No. 7.

§ 601.18 *Green civil airway No. 8 control areas (Cold Bay, Alaska, to Northway, Alaska).* From a line extended at right angles across such airway through a point 50 miles southwest of the King Salmon, Alaska, radio range station to the Northway, Alaska, radio range station.

§ 601.19 *Green civil airway No. 9 control areas (Hawaiian Islands).* All of Green civil airway No. 9.

§ 601.20 *Green civil airway No. 10 control areas (United States-Canadian Border to Denver, Colo.).* All of Green civil airway No. 10.

AMBER CIVIL AIRWAYS

§ 601.101 *Amber civil airway No. 1 control areas (United States-Mexican Border to Nome, Alaska).* All of Amber civil airway No. 1.

§ 601.102 *Amber civil airway No. 2 control areas (Long Beach, Calif., to Point Barrow, Alaska).* All of Amber civil airway No. 2 within the continental limits of the United States. From the intersection of the northwest course of the Snag, Yukon Territory, Canada, radio range and the United States-Canadian Border to a line extended at right angles through a point 25 miles north of the Bettles, Alaska, radio range station.

§ 601.103 *Amber civil airway No. 3 control areas (El Paso, Tex., to Great Falls, Mont.).* All of Amber civil airway No. 3.

§ 601.104 *Amber civil airway No. 4 control areas. (Brownsville, Tex., to Minot, N. Dak.).* All of Amber civil airway No. 4.

§ 601.105 *Amber civil airway No. 5 control areas (Grand Isle, La., to Milwaukee, Wis.).* All of Amber civil airway No. 5.

§ 601.106 *Amber civil airway No. 6 control areas (Jacksonville, Fla., to United States-Canadian Border).* All of Amber civil airway No. 6.

§ 601.107 *Amber civil airway No. 7 control areas (Key West, Fla., to United States-Canadian Border).* All of Amber civil airway No. 7.

§ 601.108 *Amber civil airway No. 8 control areas (Los Angeles, Calif., to Ellensburg, Wash.).* All of Amber civil airway No. 8.

§ 601.109 *Amber civil airway No. 9 control areas (Charleston, S. C., to Norfolk, Va.).* All of Amber civil airway No. 9.

§ 601.110 *Amber civil airway No. 10 control areas (Hawaiian Islands).* All of Amber civil airway No. 10.

§ 601.111 *Amber civil airway No. 11 control areas (Hawaiian Islands).* All of Amber civil airway No. 11.

§ 601.112 *Amber civil airway No. 12 control areas (Hawaiian Islands).* All of Amber civil airway No. 12.

§ 601.113 *Amber civil airway No. 13 control areas (Washington, D. C., to New York, N. Y.).* All of Amber civil airway No. 13.

§ 601.114 *Amber civil airway No. 14 control areas (Washington, D. C., to New York, N. Y.).* All of Amber civil airway No. 14.

§ 601.115 *Amber civil airway No. 15 control areas (Washington, D. C., to New York, N. Y.).* All of Amber civil airway No. 15.

§ 601.119 *Amber civil airway No. 19 control areas (Washington, D. C., to New York, N. Y.).* All of Amber civil airway No. 19.

RED CIVIL AIRWAYS

§ 601.202 *Red civil airway No. 2 control areas (Sheridan, Wyo., to Rapid City, S. Dak.).* All of Red civil airway No. 2.

§ 601.203 *Red civil airway No. 3 control areas (Philipsburg, Pa., to Hartford, Conn.).* All of Red civil airway No. 3.

§ 601.204 *Red civil airway No. 4 control areas (Las Vegas, N. Mex., to Tucumcari, N. Mex.).* All of Red civil airway No. 4.

§ 601.205 *Red civil airway No. 5 control areas (Sioux Falls, S. Dak., to St. Paul, Minn.).* All of Red civil airway No. 5.

§ 601.206 *Red civil airway No. 6 control areas (Denver, Colo., to Omaha, Nebr.)* All of Red civil airway No. 6.

§ 601.207 *Red civil airway No. 7 control areas (Atlanta, Ga., to Greensboro, N. C.).* All of Red civil airway No 7.

§ 601.208 *Red civil airway No. 8 control areas (Dayton, Ohio, to Newark, N. J.).* All of Red Civil airway No. 8.

§ 601.209 *Red civil airway No. 9 control areas (San Diego, Calif., to Casa Grande, Ariz.).* All of Red Civil airway No. 9.

§ 601.210 *Red civil airway No. 10 control areas (Amarillo, Tex., to Charleston, S. C.).* All of Red civil airway No. 10.

§ 601.211 *Red civil airway No. 11 control areas (Enid, Okla., to Boston, Mass.).* All of Red civil airway No. 11.

§ 601.212 *Red civil airway No. 12 control areas (Joliet, Ill., to Erie, Pa.).* All of Red civil airway No. 12.

§ 601.213 *Red civil airway No. 13 control areas (Wheeling, W. Va., to Boston, Mass.).* All of Red civil airway No. 13.

§ 601.214 *Red civil airway No. 14 control areas (Lone Rock, Wis., to Louisville, Ky.).*

§ 601.215 *Red civil airway No. 15 control areas (Reno, Nev., to Phoenix, Ariz.).* From the intersection of the northeast course of the Reno, Nev., radio range and the northwest course of the Fallon, Nev., radio range to a line extended at right angles through a point 25 miles southeast of the Fallon, Nev., radio range station. From the Las Vegas, Nev., radio range station to the Phoenix, Ariz., radio range station.

§ 601.216 *Red civil airway No. 16 control areas (Tallahassee, Fla., to Florence, S. C.).* All of Red civil airway No. 16.

§ 601.217 *Red civil airway No. 17 control areas (St. Louis, Mo., to Baltimore, Md.).* All of Red civil airway No. 17.

§ 601.218 *Red civil airway No. 18 control areas (Indianapolis, Ind., to Washington, D. C.).* All of Red civil airway No. 18.

§ 601.219 *Red civil airway No. 19 control areas (Traverse City, Mich., to Norfolk, Va.)* All of Red civil airway No. 19.

§ 601.220 *Red civil airway No. 20 control areas (Lansing, Mich., to Washington, D. C.).* All of Red civil airway No. 20.

§ 601.221 *Red civil airway No. 21 control areas (New York, N. Y., to Boston, Mass.).* All of Red civil airway No. 21.

§ 601.222 *Red civil airway No. 22 control areas (Mount Clemens, Mich., to Albany, N. Y.).* All of Red civil airway No. 22.

§ 601.223 *Red civil airway No. 23 control areas (United States-Canadian Border to New York, N. Y.).* All of Red civil airway No. 23.

§ 601.224 *Red civil airway No. 24 control areas (Amarillo, Tex., to Oklahoma City, Okla.).* All of Red civil airway No. 24.

§ 601.226 *Red civil airway No. 26 control areas (Petersburg, Va., to Corapeake, N. C.).* All of Red civil airway No. 26.

§ 601.227 *Red civil airway No. 27 control areas (Atlanta, Ga., to Detroit, Mich.).* All of Red civil airway No. 27.

§ 601.228 *Red civil airway No. 28 control areas (Rockford, Ill., to Detroit, Mich.).* All of Red civil airway No. 28.

§ 601.229 *Red civil airway No. 29 control areas (Elmira, N. Y., to Baltimore, Md.).* All of Red civil airway No. 29.

§ 601.230 *Red civil airway No. 30 control areas (Shreveport, La., to Jacksonville, Fla.).* All of Red civil airway No. 30.

§ 601.231 *Red civil airway No. 31 controls areas (Cheyenne, Wyo., to La Crosse, Wis.).* All of Red civil airway No. 31.

§ 601.232 *Red civil airway No. 32 control areas (Laredo, Tex., to Houston, Tex.).* All of Red civil airway No. 32.

§ 601.233 *Red civil airway No. 33 control areas (Norfolk, Va., to Boston, Mass.).* All of Red civil airway No. 33.

§ 601.234 *Red civil airway No. 34 control areas (Charleston, W. Va., to Weeksville, N. C.).* All of Red civil airway No. 34.

§ 601.235 *Red civil airway No. 35 control areas (Pueblo, Colo., to St. Joseph, Mo.).* All of Red civil airway No. 35.

§ 601.236 *Red civil airway No. 36 control area (Rochester, Minn., to La Crosse, Wis.).* All of Red civil airway No. 36.

§ 601.237 *Red civil airway No. 37 control areas (Tyler, Tex., to Gordonsville, Va.).* All of Red civil airway No. 37.

§ 601.238 *Red civil airway No. 38 control areas (Big Spring, Tex., to San Antonio, Tex.).* All of Red civil airway No. 38.

§ 601.239 *Red civil airway No. 39 control areas (Bethel, Alaska, to Fairbanks, Alaska).* All of Red civil airway No. 39.

§ 601.240 *Red civil airway No. 40 control areas (Kodiak, Alaska, to Anchorage, Alaska).* All of Red civil airway No. 40.

§ 601.241 *Red civil airway No. 41 control areas (Yakutat, Alaska, to Gustavus, Alaska).* All of Red civil airway No. 41.

§ 601.242 *Red civil airway No. 42 control areas (Milwaukee, Wis., to Aurora, Ill.).* All of Red civil airway No. 42.

§ 601.243 *Red civil airway No. 43 control areas (Chicago, Ill., to La Fayette, Ind.).* All of Red civil airways No. 43.

§ 601.244 *Red civil airway No. 44 control areas (Bellingham, Wash., to United States-Canadian Border).* All of Red civil airway No. 44.

§ 601.245 *Red civil airway No. 45 control areas (Blackstone, Va., to Willow Grove, Pa.)* All of Red civil airway No. 45.

§ 601.246 *Red civil airway No. 46 control areas (United States-Canadian Border to Jamestown, N. Dak.).* All of Red civil airway No. 46.

§ 601.247 *Red civil airway No. 47 control areas (Tampa, Fla., to Daytona Beach, Fla.).* All of Red civil airway No. 47.

§ 601.248 *Red civil airway No. 48 control area (Helena, Mont., to Livingston, Mont.).* All of Red civil airway No. 48.

§ 601.249 *Red civil airway No. 49 control areas (Elko, Nev., to Fort Bridger, Wyo.).* All of Red civil airway No. 49.

§ 601.250 *Red civil airway No. 50 control areas (Galena, Alaska, to Fairbanks, Alaska).* All of Red civil airway No. 50.

§ 601.251 *Red civil airway No. 51 control areas (Blackstone, Va., to Norfolk, Va.).* All of Red civil airway No. 51.

§ 601.252 *Red civil airway No. 52 control areas (Memphis, Tenn., to Birmingham, Ala.).* All of Red civil airway No. 52.

§ 601.253 *Red civil airway No. 53 control areas (Portland, Oreg., to Spokane, Wash.).* All of Red civil airway No. 53.

§ 601.254 *Red civil airway No. 54 control areas (Burley, Idaho, to Salt Lake City, Utah).* All of Red civil airway No. 54.

§ 601.255 *Red civil airway No. 55 control areas (Chicago, Ill., to Columbus, Ohio).* All of Red civil airway No. 55.

§ 601.256 *Red civil airway No. 56 control areas (Red Bluff, Calif., to Whitmore, Calif.).* All of Red civil airway No. 56.

§ 601.257 *Red civil airway No. 57 control areas (Des Moines, Iowa, to Youngstown, Ohio).* All of Red civil airway No. 57.

§ 601.258 *Red civil airway No. 58 control areas (Augusta, Maine, to United States-Canadian Border).* All of Red civil airway No. 58.

§ 601.259 *Red civil airway No. 59 control areas (Garden City, Kans., to Oklahoma City, Okla.).* All of Red civil airway No. 59.

§ 601.260 *Red civil airway No. 60 control areas (Oakland, Calif., to Stockton, Calif.).* All of Red civil airway No. 60.

§ 601.261 *Red civil airway No. 61 control areas (Butler, Pa., to Washington, D. C.).* All of Red civil airway No. 61.

§ 601.262 *Red civil airway No. 62 control areas (Pittsburgh, Pa., to Altoona, Pa.).* All of Red civil airway No. 62.

§ 601.263 *Red civil airway No. 63 control areas (Battle Creek, Mich., to the United States-Canadian Border).* All of Red civil airway No. 63.

§ 601.264 *Red civil airway No. 64 control areas (United States-Canadian Border to Annette Island, Alaska).* From the United States-Canadian Border to the Annette Island, Alaska, radio range station.

§ 601.265 *Red civil airway No. 65 control areas (Los Angeles, Calif., to Hayfield Lake, Calif.).* All of Red civil airway No. 65.

§ 601.266 *Red civil airway No. 66 control areas (Santa Barbara, Calif., to Los Angeles, Calif.).* All of Red civil airway No. 66.

§ 601.267 *Red civil airway No. 67 control areas (Crestview, Fla., to Atlanta, Ga.).* All of Red civil airway No. 67.

§ 601.268 *Red civil airway No. 68 control areas (Midland, Tex., to Shreveport, La.).* All of Red civil airway No. 68.

§ 601.269 *Red civil airway No. 69 control areas (Midland, Tex., to Big Spring, Tex.).* All of Red civil airway No. 69.

§ 601.270 *Red civil airway No. 70 control areas (Midland, Tex., to Lubbock, Tex.).* All of Red civil airway No. 70.

§ 601.271 *Red civil airway No. 71 control areas (El Paso, Tex., to Lubbock, Tex.).* All of Red civil airway No. 71.

§ 601.272 *Red civil airway No. 72 control areas (Millville, N. J., to Paterson, N. J.).* All of Red civil airway No. 72.

§ 601.273 *Red civil airway No. 73 control areas (Baltimore, Md., to Millville, N. J.).* All of Red civil airway No. 73.

§ 601.274 *Red civil airway No. 74 control areas (Louisville, Ky., to Cincinnati, Ohio).* All of Red civil airway No. 74.

§ 601.275 *Red civil airway No. 75 control areas (United States-Canadian Border, Vancouver, B. C., to United States-Canadian Border, Abbotsford, B. C.).* All of Red civil airway No. 75.

§601.276 *Red civil airway No. 76 control areas (Williams, Calif., to Auburn, Calif.).* All of Red civil airway No. 76.

§ 601.277 *Red civil airway No. 77 control areas (Greensboro, N. C., to Atlantic City, N. J.).* All of Red civil airway No. 77.

§ 601.278 *Red civil airway No. 78 control areas (Medford, Oreg., to Klamath Falls, Oreg.).* All of Red civil airway No. 78.

§ 601.279 *Red civil airway No. 79 control areas (Neah Bay, Wash., to Everett, Wash.).* All of Red civil airway No. 79.

§ 601.280 *Red civil airway No. 80 control areas (Helena, Mont., to Miles City, Mont.).* All of Red civil airway No. 80.

§ 601.281 *Red civil airway No. 81 control areas (Lansing, Mich., to Detroit, Mich.).* All of Red civil airway No. 81.

§ 601.282 *Red civil airway No. 82 control areas (Skwentna, Alaska, to Anchorage, Alaska).* All of Red civil airway No. 82.

§ 601.283 *Red civil airway No. 83 control areas (Gila Bend, Ariz., to Tucson, Ariz.).* All of Red civil airway No. 83.

§ 601.284 *Red civil airway No. 84 control areas (Meridian, Miss., to Columbus, Ga.).* All of Red civil airway No. 84.

§ 601.285 *Red civil airway No. 85 control areas (Akron, Ohio, to Altoona, Pa.).* All of Red civil airway No. 85.

§ 601.286 *Red civil airway No. 86 control areas (Millinocket, Maine, to Houlton, Maine).* All of Red civil airway No. 86.

§ 601.287 *Red civil airway No. 87 control areas (Hawaiian Islands).* All of Red civil airway No. 87.

§ 601.288 *Red civil airway No. 88 control areas (Albuquerque, N. Mex., to Hobbs, N. Mex.).* All of Red civil airway No. 88.

§ 601.289 *Red civil airway No. 89 control areas (Quincy, Ill., to Peoria, Ill.).* All of Red civil airway No. 89.

§ 601.290 *Red civil airway No. 90 control areas (Oxnard, Calif., to Burbank, Calif.).* All of Red civil airway No. 90.

§ 601.291 *Red civil airway No. 91 control areas (Dunkirk, N. Y., to Syracuse, N. Y.).* All of Red civil airway No. 91.

§ 601.292 *Red civil airway No. 92 control areas (Sault Ste. Marie, Mich., to United States-Canadian Border).* All of Red civil airway No. 92.

§ 601.293 *Red civil airway No. 93 control areas (Lincoln, Nebr., to Omaha, Nebr.).* All of Red civil airway No. 93.

§ 601.294 *Red civil airway No. 94 control areas (Providence, R. I., to Hyannis, Mass.).* All of Red civil airway No. 94.

§ 601.295 *Red civil airway No. 95 control areas (Elmira, N. Y., to Utica, N. Y.).* All of Red civil airway No. 95.

§ 601.296 *Red civil airway No. 96 control areas (Palacios, Tex., to Baton Rouge, La.).* All of Red civil airway No. 96.

§ 601.297 *Red civil airway No. 97 control areas (United States-Canadian Border near Lakehead, Ontario, Canada, to United States-Canadian Border near Sault Ste. Marie, Mich.).* All of Red civil airway No. 97.

§ 601.298 *Red civil airway No. 98 control areas (Vichy, Mo., to Belleville, Ill.).* All of Red civil airway No. 98.

§ 601.299 *Red civil airway No. 99 control areas (Iliamna, Alaska, to Homer, Alaska).* All of Red civil airway No. 99.

§ 601.300 *Red civil airway No. 100 control areas (South Bend, Ind., to Battle Creek, Mich.).* All of Red civil airway No. 100.

§ 601.302 *Red civil airway No. 102 control areas (Louisville, Ky., to Huntington, W. Va.).* All of Red civil airway No. 102.

§ 601.303 *Red civil airway No. 103 control areas (Kenai, Alaska, to Middleton Island, Alaska).* All of Red civil airway No. 103.

§ 601.304 *Red civil airway No. 104 control areas (Greensboro, N. C., to Raleigh, N. C.).* All of Red civil airway No. 104.

§ 601.305 *Red civil airway No. 105 control areas (Wichita, Kans., to Neosho, Mo.).* All of Red civil airway No. 105.

§ 601.306 *Red civil airway No. 106 control areas (Scottsbluff, Nebr., to North Platte, Nebr.).* All of Red civil airway No. 106.

§ 601.307 *Red civil airway No. 107 control areas (Stanton, Minn., to Red Wing, Minn.).* All of Red civil airway No. 107.

§ 601.308 *Red civil airway No. 108 control areas (Promontory Point, Utah to Fort Bridger, Wyo.).* All of Red civil airway No. 108.

§ 601.309 *Red civil airway No. 109 control areas (Portland, Oreg., to Spokane, Wash.).* All of Red civil airway No. 109.

BLUE CIVIL AIRWAYS

§ 601.601 *Blue civil airway No. 1 control areas (Miami, Fla., to Tampa, Fla.).* All of Blue civil airway No. 1.

§ 601.602 *Blue civil airway No. 2 control areas (Montgomery, Ala., to Erie, Pa.).* All of Blue civil airway No. 2.

§ 601.603 *Blue civil airway No. 3 control areas (Miami, Fla., to Sault Ste., Marie, Mich.).* All of Blue civil airway No. 3.

§ 601.604 *Blue civil airway No. 4 control areas (Boston, Mass., to United States-Canadian Border).* All of Blue civil airway No. 4.

§ 601.605 *Blue civil airway No. 5 control areas (Galveston, Tex., to Wichita, Kans.).* All of Blue civil airway No. 5.

§ 601.606 *Blue civil airway No. 6 control areas (Abilene, Tex., to Muskegon, Mich.).* All of Blue civil airway No. 6.

§ 601.607 *Blue civil airway No. 7 control areas (Hollister, Calif., to Williams, Calif.).* All of Blue civil airway No. 7.

§ 601.608 *Blue civil airway No. 8 control areas (Fargo, N. Dak., to United States-Canadian Border).* All of Blue civil airway No. 8.

§ 601.609 *Blue civil airway No. 9 control areas (Springfield, Mo., to United States-Canadian Border).* All of Blue civil airway No. 9.

§ 601.610 *Blue civil airway No. 10 control areas (Fresno, Calif., to Williams, Calif.).* All of Blue civil airway No. 10.

§ 601.611 *Blue civil airway No. 11 control areas (Findlay, Ohio, to Dunkirk, N. Y.).* All of Blue civil airway No. 11.

§ 601.613 *Blue civil airway No. 13 control areas (Houston, Tex., to Des Moines, Iowa).* All of Blue civil airway No. 13.

§ 601.614 *Blue civil airway No. 14 control areas (El Centro, Calif., to Sacramento, Calif.).* All of Blue civil airway No. 14.

§ 601.615 *Blue civil airway No. 15 control areas (Huntington, W. Va., to Youngstown, Ohio).* All of Blue civil airway No. 15.

§ 601.616 *Blue civil airway No. 16 control areas (Waverly, Va., to Tappahannock, Va.).* All of Blue civil airway No. 16.

§ 601.617 *Blue civil airway No. 17 control areas (Bangor, Maine, to Presque Isle, Maine).* All of Blue civil airway No. 17.

§ 601.618 *Blue civil airway No. 18 control areas (Philadelphia, Pa., to United States-Canadian Border).* All of Blue civil airway No. 18.

§ 601.619 *Blue civil airway No. 19 control areas (Key West, Fla., to Orlando, Fla.).* All of Blue civil airway No. 19.

§ 601.620 *Blue civil airway No. 20 control areas (Millville, N. J., to Allentown, Pa.).* All of Blue civil airway No. 20.

§ 601.622 *Blue civil airway No. 22 control areas (Memphis, Tenn., to Wichita, Kans.).* All of Blue civil airway No. 22.

§ 601.623 *Blue civil airway No. 23 control areas (Norfolk, Va., to Chincoteague, Va.).* All of Blue civil airway No. 23.

§ 601.625 *Blue civil airway No. 25 control areas (Cordova, Alaska, to Big Delta, Alaska).* All of Blue civil airway No. 25.

§ 601.626 *Blue civil airway No. 26 control areas (Anchorage, Alaska, to Nenana, Alaska).* All of Blue civil airway No. 26.

§ 601.627 *Blue civil airway No. 27 control areas (Kodiak, Alaska, to Kotzebue, Alaska).* All of Blue civil airway No. 27.

§ 601.628 *Blue civil airway No. 28 control areas (Charleston, S. C., to Bulls Gap, Tenn.).* All of Blue civil airway No. 28.

§ 601.629 *Blue civil airway No. 29 control areas (Raleigh, N. C., to Lynchburg, Va.).* All of Blue civil airway No. 29.

§ 601.630 *Blue civil airway No. 30 control areas (Brownsville, Tex., to Pueblo, Colo.).* All of Blue civil airway No. 30.

§ 601.631 *Blue civil airway No. 31 control areas (Burlington, Iowa, to Madison, Wis.).* All of Blue civil airway No. 31.

§ 601.632 *Blue civil airway No. 32 control areas (Skwentna, Alaska, to Talkeetna, Alaska).* All of Blue civil airway No. 32.

§ 601.633 *Blue civil airway No. 33 control areas (Lansing, Mich., to Saginaw, Mich.).* All of Blue civil airway No. 33.

§ 601.634 *Blue civil airway No. 34 control areas (Terre Haute, Ind., to Peoria, Ill.).* All of Blue civil airway No. 34.

§ 601.635 *Blue civil airway No. 35 control areas (Oxnard, Calif., to Bakersfield, Calif.).* All of Blue civil airway No. 35.

§ 601.636 *Blue civil airway No. 36 control areas (Akron, Colo., to Kimball, Nebr.).* All of Blue civil airway No. 36.

§ 601.637 *Blue civil airway No. 37 control areas (Casper, Wyo., to Rapid City, S. Dak.).* All of Blue civil airway No. 37.

§ 601.638 *Blue civil airway No. 38 control areas (Five Finger, Alaska, to United States-Canadian Border).* All of Blue civil airway No. 38.

§ 601.639 *Blue civil airway No. 39 control areas (Savannah, Ga., to Elmira, N. Y.).* All of Blue civil airway No. 39.

§ 601.640 *Blue civil airway No. 40 control areas (Concord, N. H., to Burlington, Vt.).* All of Blue civil airway No. 40.

§ 601.641 *Blue civil airway No. 41 control areas (Hartford, Conn., to United States-Canadian Border).* All of Blue civil airway No. 41.

§ 601.642 *Blue civil airway No. 42 control areas (Goshen, Ind., to Saginaw, Mich.).* All of Blue civil airway No. 42.

§ 601.643 *Blue civil airway No. 43 control areas (Delta Island, Alaska, to Willow, Alaska).* All of Blue civil airway No. 43.

§ 601.644 *Blue civil airway No. 44 control areas (Indianapolis, Ind., to United States-Canadian Border).* All of Blue civil airway No. 44.

§ 601.645 *Blue civil airway No. 45 control areas (Greenfield, Mass., to Newport, Vt.).* All of Blue civil airway No. 45.

§ 601.646 *Blue civil airway No. 46 control areas (Memphis, Tenn., to Paducah, Ky.).* All of Blue civil airway No. 46.

§ 601.647 *Blue civil airway No. 47 control areas (Blackstone, Va., to Dunkirk, N. Y.).* All of Blue civil airway No. 47.

§ 601.649 *Blue civil airway No. 49 control areas (Atlantic City, N. J., to Philadelphia, Pa.).* All of Blue civil airway No. 49.

§ 601.651 *Blue civil airway No. 51 control areas (Wendover, Utah, to Dubois, Idaho).* All of Blue civil airway No. 51.

§ 601.652 *Blue civil airway No. 52 control areas (Paso Robles, Calif., to Fresno, Calif.).* All of Blue civil airway No. 52.

§ 601.653 *Blue civil airway No. 53 control areas (Providence, R. I., to Hartford, Conn.).* All of Blue civil airway No. 53.

§ 601.654 *Blue civil airway No. 54 control areas (Evergreen, Calif., to Hamilton AFB, Calif.).* All of Blue civil airway No. 54.

§ 601.655 *Blue civil airway No. 55 control areas (Crestview, Fla., to Montgomery, Ala.).* All of Blue civil airway No. 55.

§ 601.656 *Blue civil airway No. 56 control areas (Elizabeth City, N. C., to Washington, D. C.).* All of Blue civil airway No. 56.

§ 601.657 *Blue civil airway No. 57 control areas (Elko, Nev., to Burley, Idaho).* All of Blue civil airway No. 57.

§ 601.658 *Blue civil airway No. 58 control areas (Nantucket, Mass., to Squantum, Mass.).* All of Blue civil airway No. 58.

§ 601.659 *Blue civil airway No. 59 control areas (Pensacola, Fla., to Goodway, Ala.).* All of Blue civil airway No. 59.

§ 601.660 *Blue civil airway No. 60 control areas (Sunnyvale, Calif., to Stockton, Calif.).* All of Blue civil airway No. 60.

§ 601.661 *Blue civil airway No. 61 control areas (Springfield, Mo., to Kansas City, Mo.).* All of Blue civil airway No. 61.

§ 601.663 *Blue civil airway No. 63 control areas (Concord, N. H., to Berlin, N. H.).* All of Blue civil airway No. 63.

§ 601.664 *Blue civil airway No. 64 control areas (Wink, Tex., to Hobbs, N. Mex.).* All of Blue civil airway No. 64.

§ 601.665 *Blue civil airway No. 65 control areas (Shuyak, Alaska, to Homer, Alaska).* All of Blue civil airway No. 65.

§ 601.666 *Blue civil airway No. 66 control areas (Bridgeport, Conn., to Poughkeepsie, N. Y.).* All of Blue civil airway No. 66.

§ 601.667 *Blue civil airway No. 67 control areas (Yuma, Ariz., to Las Vegas, Nev.).* All of Blue civil airway No. 67.

§ 601.668 *Blue civil airway No. 68 control areas (Midland, Tex., to Hobbs, N. Mex.).* All of Blue civil airway No. 68.

§ 601.669 *Blue civil airway No. 69 control areas (St. Louis, Mo., to Quincy, Ill.).* All of Blue civil airway No. 69.

§ 601.670 *Blue civil airway No. 70 control areas (Waco, Tex., to Tulsa, Okla.).* All of Blue civil airway No. 70.

§ 601.671 *Blue civil airway No. 71 control areas (Toledo, Wash., to Seattle, Wash.).* All of Blue civil airway No. 71.

§ 601.672 *Blue civil airway No. 72 control areas (Enid, Okla., to Wichita, Kans.).* All of Blue civil airway No. 72.

§ 601.674 *Blue civil airway No. 74 control areas (Willard, N. Mex., to Otto, N. Mex.).* All of Blue civil airway No. 74.

§ 601.675 *Blue civil airway No. 75 control areas (Cleveland, Ohio, to United States-Canadian Border).* All of Blue civil airway No. 75.

§ 601.676 *Blue civil airway No. 76 control areas (Sinclair, Wyo., to Casper, Wyo.).* All of Blue civil airway No. 76.

§ 601.678 *Blue civil airway No. 78 control areas (Spring Bay, Utah, to Malad City, Idaho).* All of Blue civil airway No. 78.

§ 601.679 *Blue civil airway No. 79 control areas (Annette Island, Alaska to United States-Canadian Border).* All of Blue civil airway No. 79.

§ 601.680 *Blue civil airway No. 80 control areas (Unalakleet, Alaska, to Moses Point, Alaska).* All of Blue civil airway No. 80.

§ 601.681 *Blue civil airway No. 81 control areas (Charleston, W. Va., to Akron, Ohio).* All of Blue civil airway No. 81.

§ 601.684 *Blue civil airway No. 84 control areas (Augusta, Maine, to Millinocket, Maine).* All of Blue civil airway No. 84.

§ 601.685 *Blue civil airway No. 85 control areas (Hutchinson, Kans., to Wichita, Kans.).* All of Blue civil airway No. 85.

§ 601.686. *Blue civil airway No. 86 control areas (Goshen, Ind., to Fort Wayne, Ind.).* All of Blue civil airway No. 86.

§ 601.687 *Blue civil airway No. 87 control areas (Lexington, Ky., to Dayton, Ohio).* All of Blue civil airway No. 87.

SUBPART C—CONTROL AREA EXTENSIONS

§ 601.1001 *Control area extension (Moses Lake, Wash.).* That airspace south of Green civil airway No. 2 within a 30-mile radius of the Larsen Air Force Base, Moses Lake, Wash., excluding the portion which overlaps the Hanford, Wash., Airspace Reservation.

§ 601.1002 *Control area extension (Austin, Tex.).* That airspace within a 40-mile radius of the Austin, Tex., radio range station.

§ 601.1003 *Control area extension (Corinne, Utah).* Within 5 miles either side of a line bearing 289° True extending from the Corinne nondirectional radio beacon to Blue civil airway No. 78.

§ 601.1004 *Control area extension (Brownsville, Tex.).* That airspace over United States territory within a 40-mile radius of the Brownsville, Tex., radio range station, excluding the portion which overlaps restricted areas and excluding the portions lying north of Latitude 26°30'00" and more than 3 miles from the United States shoreline.

§601.1005 *Control area extension (Jacksonville, Fla.).* Within 5 miles either side of the Jacksonville ILS localizer course extending from the localizer to a point 10½ miles southwest of the outer marker excluding that portion which lies south of Latitude 30°16'45", and within 5 miles either side of the 64° True radial of the Jacksonville omnirange extending from the omnirange station to a point 20 miles northeast.

§ 601.1006 *Control area extension (Lake Charles, La.).* All that airspace within a 40-mile radius of the Lake Charles, La., radio range station excluding the portion which overlaps the Houston (Beaumont-Palacios-Houston) Control area extension.

§ 601.1007 *Control area extension (Laredo, Tex.).* That airspace over United States territory within a 35-mile radius of the Laredo, Tex., radio range station.

§ 601.1008 *Control area extension (Savannah, Ga.).* From the Savannah, Ga., radio range station extending 5 miles either side of the southeast course of the Savannah radio range to a point 20 miles southeast of the range station, extending 5 miles either side of the southwest course of the radio range to a point 30 miles southwest of the radio range station, extending 5 miles either side of the northwest course of the radio range to a point 25 miles northwest of the radio range station, and within 5

miles either side of the centerline of the east-west runway of Travis Field, Savannah, Ga., from Amber civil airway No. 7 to a point 20 miles west of Travis Field, excluding the portion overlapping the Camp Stewart restricted area.

§ 601.1009 *Control area extension (Augusta, Ga.).* All that area within 5 miles either side of the centerline of the north-south runway of Bush Field, Augusta, Ga., extending to a point 30 miles south of Bush Field.

§ 601.1010 *Control area extension (Greenwood, S. C.).* That airspace bounded on the south by a straight line from a point at lat. 34°07'00", long. 82°-15'00" to a point at lat. 34°19'00", long. 81°38'00", on the east by Blue civil airway No. 28, on the north by the Greenville, S. C. (Greenville-Charlotte-Greensboro) control area extension, on the west by Blue civil airway No. 39 to point of beginning.

§ 601.1011 *Control area extension (Daytona Beach, Fla.).* Within 5 miles either side of the west course of the Daytona Beach radio range extending from the radio range station to a point 20 miles west, and within 5 miles either side of the 244° True radial of the Daytona Beach omnirange extending from the omnirange station to a point 20 miles southwest.

§ 601.1012 *Control area extension (Florence, S. C.).* From the Florence, S. C., radio range station extending 5 miles either side of the southeast course of the radio range to a point 20 miles southeast of the radio range station, and extending 5 miles either side of the northwest course of the radio range to a point 25 miles northwest of the radio station.

§ 601.1013 *Control area extension (Fort Myers, Fla.).* Within 5 miles either side of the lines bearing 45° True and 220° True from Fort Myers, Fla., nondirectional radio beacon extending from Blue civil airway No. 1 on the northeast to a point 20 miles southwest of the nondirectional radio beacon

§ 601.1014 *Control area extension (Greenville, S. C.) (Greenville-Charlotte-Greensboro area).* All that airspace beginning at lat. 35°49'30", long. 79°30'00", thence southwesterly to lat. 34°49'30", long. 80°10'00", thence clockwise along the arc of a 50-mile radius circle centered on the Charlotte, N. C., radio range (at lat. 35°10'30", long. 80°56'00") to lat. 34°27'15", long. 80°52'30", thence westerly to lat. 34°22'30", long. 82°20'00"; thence clockwise along the arc of a 30-mile radius circle centered on the Greenville, S. C., radio range (at lat. 34°48'45", long. 82°20'30") to lat. 35°13'30", long. 82°30'00", thence northeast to lat. 35°19'00", long. 82°06'30", thence clockwise along the arc of a 30-mile radius circle centered on the Spartanburg, S. C., radio range to the northwest edge of Green civil airway No. 6, thence along the northwest edge of Green civil airway No. 6 to the arc of a 35-mile radius circle centered between the Winston-Salem and Greensboro, N. C., radio ranges at lat. 36°06'00", long. 80°01'30", thence clockwise along the arc of this 35-mile radius circle to the point of beginning.

§ 601.1015 *Control area extension (Greenwood, Miss.).* From the Greenwood, Miss., radio range station extending 5 miles either side of the east course of the radio range to a point 20 miles east of the radio range station, and extending 5 miles either side of the west course of the radio range to a point 25 miles west of the radio range station and extending 5 miles either side of the 66° True and 246° True radials of the Greenwood omnirange to points 20 miles southwest and northeast of the omnirange station.

§ 601.1016 *Control area extension (Jackson, Tenn.).* Within 5 miles either side of the north course of the Jackson, Tenn., radio range extending from the radio range station to a point 20 miles north.

§ 601.1017 *Control area extension (Reading, Pa.).* From the Reading, Pa., ILS localizer extending 5 miles either side of the localizer course to its intersection with the east course of the Harrisburg, Pa., radio range.

§ 601.1018 *Control area extension (Meridian, Miss.).* From the Meridian, Miss., radio range station extending 5 miles either side of the north course of the Meridian, Miss., radio range to a point 20 miles north of the radio range station and extending from the ILS localizer 5 miles either side of the localizer course to a point 30 miles south of the ILS localizer.

§ 601.1019 *Control area extension (Nashville, Tenn.).* That airspace within a 50-mile radius of the Nashville Tenn., radio range station bounded on the northwest by a direct line extending from the Graham, Tenn., omnirange station to the Bowling Green, Ky., omnirange station.

§ 601.1020 *Control area extension (Macon, Ga.).* Within 5 miles either side of the 47° True and 227° True courses of the Macon ILS localizer extending from the localizer to a point 25 miles northeast and to a point 30 miles southwest.

§ 601.1021 *Control area extension (Belleville, Ill.).* All that area within a 40-mile radius of the Scott AFB radio range station, Belleville, Ill.

§ 601.1022 *Control area extension (West Palm Beach, Fla.).* From the West Palm Beach, Fla., radio range station, extending within 5 miles either side of the west course of the West Palm Beach radio range, to a point 20 miles west of the radio range station.

§ 601.1023 *Control area extension (Akron, Colo.).* From the Akron, Colo., radio range station, extending within 5 miles either side of the north course of the Akron radio range, to a point 20 miles north of the radio range station.

§ 601.1024 *Control area extension (Burlington, Iowa).* Within a 15-mile radius of the Burlington, Iowa omnirange station and within 5 miles either side of the 112° True radial of the omnirange extending from the omnirange station to a point 25 miles east.

§ 601.1025 *Control area extension (New Orleans, La.).* All that area within a 25-mile radius of the New Orleans, La., radio range station located in the southeast quadrant and including all the area bounded on the west by the south course of the New Orleans, La., radio range on the south and east by the shoreline and on the north by Green civil airway No. 6; all that air space within a 35-mile radius of the New Orleans, La., radio range station in the southwest and northwest quadrants of the radio range and the airspace in the northeast quadrant of the radio range bounded on the northeast by the northern shoreline of Lake Ponchartrain.

§ 601.1026 *Control area extension (Grand Island, Nebr.).* From the Grand Island, Nebr., radio range station, extending within 5 miles either side of the north course of the Grand Island radio range, to a point 20 miles north of the radio range station and within 5 miles either side of the 180° True and 360° True radials of the Grand Island omnirange extending from the omnirange station to points 25 miles north and south.

§ 601.1027 *Control area extension (Kansas City, Mo.).* All that area within a 42-mile radius of the Kansas City, Mo., Municipal Airport excluding that area outside existing civil airways that lies within the south quadrant of the Kansas City radio range and excluding the portion below 4,000 feet which overlaps the Lake City, Mo., restricted area.

§ 601.1028 *Control area extension (Monroe, La.).* Within 5 miles either side of the northeast and southwest courses of the Monroe radio range extending from the radio range station to a point 25 miles northeast and to a point 20 miles southwest, and within 5 miles either side of the 41° True and 221° True radials of the Monroe omnirange extending from the omnirange station to points 20 miles northeast and southwest.

§ 601.1029 *Control area extension (Corpus Christi, Tex.).* All that airspace lying in the north quadrant of the Corpus Christi, Tex., radio range within a 58-mile radius of the range station bounded on the southwest by Blue civil airway No. 30 and on the southeast by Green civil airway No. 6 including the airspace within 6 miles either side of the northeast course of the Refugio, Tex., radio range extending from the radio range station to a point 32 miles northeast and the airspace within the arc of a circle of 29-mile radius centered on the Normanna, Tex., nondirectional radio beacon bounded on the southwest by Blue civil airway No. 30 and on the east by a line extending from a point at Lat. 28°54'30", Long. 97°33'40" to a point at Lat. 28°38'00", Long. 97°38'30".

§ 601.1030 *Control area extension (Victorville, Calif.).* All that area within the vicinity of George AFB, Victorville, Calif., bounded on the north by Green 4, on the southwest by Blue 14 and on the southeast by Amber 2, and the airspace north of the George AFB bounded by a line beginning at lat. 35°11'00", long. 117°12'00", thence to lat. 34°57'00", long. 117°12'00", thence to lat. 34°54'45", long. 116°53'45", thence along the northern boundary of Green civil airway No. 4 to lat. 34°49'00", long. 117°29'00", thence to lat. 35°11'-00", long. 117°24'00", thence to point of beginning, excluding the portion which overlaps Restricted Area (R–279).

§ 601.1031 *Control area extension (North Platte, Nebr.).* All that airspace within a 25-mile radius of the North Platte radio range bounded on the south by Green civil airway No. 3, and the airspace bounded on the east by a line 5 miles east of and parallel to the south course of the radio range, on the south by VOR civil airway No. 8 and on the northwest by Red civil airway No. 6.

§ 601.1032 *Control area extension (Kotzebue, Alaska).* Within 5 miles either side of a line bearing 50° True extending from the Kotzebue, Alaska, non-directional radio beacon to a point 25 miles northeast.

§ 601.1033 *Control area extension (St. Joseph, Mo.).* That airspace within a 25-mile radius of Rosecrans Field bounded on the northeast by Amber civil airway No. 4, and on the southeast by Red civil airway No. 35.

§ 601.1034 *Control area extension (Springfield, Mo.).* All that area within a 25-mile radius of the Springfield, Mo., radio range station.

§ 601.1035 *Control area extension (Little Rock, Ark.).* From the Little Rock, Ark., radio range station extending 5 miles either side of the northeast course of the radio range to a point 25 miles northeast of the radio range station.

§ 601.1036 *Control area extension (West Palm Beach, Fla.).* Within 5 miles either side of the 151° True radial of the West Palm Beach omnirange extending from the West Palm Beach omnirange station via the intersection of the West Palm Beach 151° True radial and the Miami, Fla., 060° True radial thence via the Miami 060° True radial to the Miami, Fla., omnirange station. The airspace which lies within Miami Warning Area (W–171) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control).

§ 601.1037 *Control area extension (Pensacola, Fla.).* That airspace within 8 miles east of and 5 miles west of the north and south courses of the Pensacola, Fla., radio range extending from the radio range station to points 25 miles north and 12 miles south.

§ 601.1038 *Control area extension (Great Falls, Mont.).* That airspace within a 25-mile radius of the Great Falls omnirange station extending from the southern boundary of VOR civil airway No. 120 clockwise to the southeastern boundary of Amber civil airway No. 2, and the airspace within 5 miles either side of the northeast course of the Great Falls radio range extending from the radio range station to a point 30 miles northeast including the airspace within a 30 mile radius of the Great Falls omnirange station which lies within the north quadrant of the Great Falls low frequency radio range.

§ 601.1039 *Control area extension (Portland, Oreg.).* That airspace within a 30-mile radius of the Portland International Airport.

§ 601.1040 *Control area extension (Medford, Oreg.).* From the Medford, Oreg., radio range station, extending within 5 miles either side of the west course of the Medford radio range, to a point 20 miles west of the radio range station.

§ 601.1041 *Control area extension (Boise, Idaho).* Within 5 miles either side of the southwest course of the Boise radio range extending from the radio range station to a point 20 miles southwest including the airspace in the south quadrant of the Boise radio range bounded on the northeast and southeast by the Mountain Home, Idaho, control area extension and on the southwest by a line drawn 135° True from a point at lat. 43°20'20", long. 116°29'15" extending to the Mountain Home control area extension.

§ 601.1042 *Control area extension (Columbus, Ohio).* That airspace within a 15-mile radius of the Columbus, Ohio, omnirange station; that airspace southwest of Columbus bounded on the north by Green civil airway No. 4, on the east by Blue civil airway No. 15, on the south by Red civil airway No. 8 and on the west by VOR civil airway No. 47; that airspace southeast of Columbus within a 30-mile radius of Lockbourne Air Force Base extending clockwise from the south boundary of Red civil airway No. 8 to the east boundary of Blue civil airway No. 15.

§ 601.1043 *Control area extension (Bowling Green, Ky.).* From the Bowling Green, Ky., radio range station extending 5 miles either side of the southeast course of the radio range to a point 20 miles southeast of the radio range station, and extending 5 miles either side of the west course of the radio range to a point 25 miles west of the radio range station and all that area within a 15 mile radius of the Bowling Green omnirange station.

§ 601.1044 *Control area extension (Ypsilanti, Mich.).* From the Willow Run Airport, Ypsilanti, Mich. ILS localizer extending 5 miles either side of the localizer course to a point 20 miles southwest of the ILS outer marker.

§ 601.1045 *Control area extension (Presque Isle, Maine).* From the Presque Isle, Maine, radio range station extending 5 miles either side of the west course of the radio range to a point 15 miles west of the radio range station, including all that area bounded on the north and east by Blue civil airway No. 17, on the south by Red civil airway No. 86 and on the west by Amber civil airway No. 7.

§ 601.1046 *Control area extension (Falfurrias, Tex.).* Within 5 miles on the northwest side and 15 miles on the southeast side of the southwest course of the Kingsville, Tex., radio range extending from the Falfurrias nondirectional radio beacon to a point 35 miles southwest of the nondirectional radio beacon.

§ 601.1047 *Control area extension (Bangor, Maine).* That airspace within a 25-mile radius of Dow Air Force Base, Bangor, Maine.

§ 601.1048 *Control area extension (Red Bluff, Calif.).* From the Red Bluff, Calif., radio range station extending 5 miles either side of the east course of the radio range to a point 25 miles east of the radio range station, and extending 5 miles either side of the west course of the radio range to a point 25 miles west of the radio range station.

§ 601.1049 *Control area extension (Utica, N. Y.).* From the Utica, N. Y., radio range station, within 5 miles either side of the northwest course of the Utica, N. Y., radio range, extending 20 miles northwest of the Utica, N. Y., radio range station and within 5 miles either side of the northeast course of the Utica radio range extending from the radio range station to a point 15 miles northeast.

§ 601.1050 *Control area extension (Bakersfield, Calif.).* From the Bakersfield, Calif., radio range station extending within 5 miles either side of the southwest course of the Bakersfield, Calif., radio range to a point 25 miles southwest of the radio range station including the airspace in the northwest quadrant of the radio range bounded on the northeast by VOR civil airway No. 137 and on the west by VOR civil airway No. 107.

§ 601.1051 *Control area extension (Portland, Maine).* From the Portland, Maine, radio range station, within 5 miles either side of the northwest course of the Portland, Maine, radio range extending 20 miles northwest of the Portland, Maine, radio range station.

§ 601.1052 *Control area extension (Atlanta, Ga.).* All that airspace within a 50-mile radius of the Atlanta radio range station including the airspace north of Atlanta bounded on the west by VOR civil airway No. 5, on the north by VOR civil airway No. 54 and on the east by VOR civil airway No. 97, and the airspace east of Atlanta bounded on the northwest by VOR civil airway No. 20, on the east by VOR civil airway No. 35 and on the south by VOR civil airway No. 18.

§ 601.1053 *Control area extension (Houston, Tex.) (Beaumont-Palacios-Houston area).* All that airspace beginning at Latitude 30°22'00", Longitude 94°03'00", thence clockwise along an arc with a 25-mile radius centered on the Beaumont, Tex., radio range station to Latitude 29°38'35", Longitude 94°00'00", thence south to Latitude 29°37'30", Longitude 94°00'00", thence southwesterly 3 nautical miles from and parallel to the shoreline to Latitude 28°23'20", Longitude 96°17'30", thence clockwise along an arc with a 25-miles radius centered on the Palacios, Tex., radio range station to Latitude 28°55'00", Longitude

96°38'45", thence northeasterly to Latitude 29°58'30", Longitude 95°58'30", thence clockwise along an arc with a 50-mile radius centered on the Houston, Tex., radio range station to Latitude 30°20'25", Longitude 95°17'00", thence east to point of beginning. The portions of this control area which overlap the Palacios Restricted Area R–494 and Palacios Warning Area W–494 are excluded.

§ 601.1054 *Control area extension (Sinclair, Wyo.)*. From the Sinclair, Wyo., radio range station extending 5 miles either side of the north course of the radio range to a point 25 miles north of the radio range station.

§ 601.1055 *Control area extension (Elmira, N. Y.)*. Within a 15-mile radius of the Elmira, N. Y., omnirange station.

§ 601.1056 *Control area extension (Buffalo, N. Y.)*. Within a 15-mile radius of the Buffalo, N. Y., omnirange station.

§ 601.1057 *Control area extension (Binghamton, N. Y.)*. Within a 15-mile radius of the Binghamton, N. Y., omnirange station.

§ 601.1058 *Control area extension (Martinsburg, W. Va.)*. Within 5 miles either side of the southwest and northeast courses of the Martinsburg radio range extending from the radio range station to a point 20 miles southwest and to a point 33 miles northeast, and that airspace within a 15-mile radius of the Martinsburg, W. Va., omnirange station.

§ 601.1059 *Control area extension (Lynchburg, Va.)*. From the Lynchburg, Va., radio range station extending 5 miles either side of the north course of the radio range to a point 20 miles north of the radio range station.

§ 601.1060 *Control area extension (Elkins, W. Va.)*. From the Elkins, W. Va., radio range station, within 5 miles either side of the south course of the Elkins radio range, extending 10 miles south of the Elkins, W. Va., airport and all that area within a 15 mile radius of the Elkins omnirange station.

§ 601.1061 *Control area extension (Mt. Clemens, Mich.)*. All that airspace bounded on the north by an arc having a radius of 40 miles from Selfridge Air Force Base, Mt. Clemens, Mich., on the east and southeast by the United States-Canadian Boundary, and on the southwest by Red civil airway No. 20 and the Flint, Mich., control area extension.

§ 601.1062 *Control area extension (Raleigh, N. C.)*. That airspace within a 30-mile radius of the Raleigh, N. C., radio range station, within 5 miles either side of the southeast course of the Raleigh radio range extending from the range station to a point 41 miles southeast, and within 5 miles either side of the Raleigh ILS localizer course extending from the localizer to a point 30 miles southwest.

§ 601.1063 *Control area extension (Roanoke, Va.)*. From the Roanoke, Va., radio range station extending 5 miles either side of the south course of the Roanoke, Va., radio range to a point 20 miles south of the radio range station.

§ 601.1064 *Control area extension (Chicopee Falls, Mass.)*. That airspace east of Chicopee Falls bounded on the northwest by Red civil airway No. 33, on the northeast by VOR civil airway No. 151 and the Worcester, Mass., control zone, on the southeast by Amber civil airway No. 7 and on the southwest by Green civil airway No. 2 excluding the airspace below 2500 feet Mean Sea Level; that airspace north of Chicopee Falls bounded on the west by Blue civil airway No. 41, on the north by VOR civil airway No. 2 and on the southeast by VOR civil airway No. 39; that airspace northwest of Chicopee Falls lying within an arc of 38 statute miles centered on Westover, Mass., Air Force Base bounded on north by VOR civil airway No. 2, on the east by Blue civil airway No. 41 and on the southwest by Green civil airway No. 2.

§ 601.1065 *Control area extension (Biloxi, Miss.)*. All that area within a 25-mile radius of the Keesler AFB, Biloxi, Miss., radio range station, excluding Airspace Warning Areas.

§ 601.1066 *Control area extension (New York, N. Y.)*. All that area within a 40-mile radius of the Empire State Building, New York, N. Y., located at Latitude 40°45'00", Longitude 73°59'15".

§ 601.1067 *Control area extension (Dayton, Ohio)*. That airspace within a 15-mile radius of the Dayton, Ohio, omnirange station including the airspace within 5 miles either side of the Dayton ILS localizer course extending from the localizer to a point 20 miles southwest of the ILS outer marker.

§ 601.1068 *Control area extension (Riverside, Calif.)*. That airspace bounded on the east by a line extending between a point at Lat. 33°51'00", Long. 116°50'40" and a point at Lat. 33°45'45", Long. 116°50'00", on the south by VOR civil airway No. 64, on the northwest by VOR civil airway No. 8 and on the north by Green civil airway No. 5, and that airspace bounded by lines beginning at a point at Lat. 33°36'45", Long. 116°48'-40", thence to Lat. 33°30'00", Long. 116°47'55", thence to Lat. 33°30'00", Long. 116°48'40", thence to Lat. 33°12'-00", Long. 116°33'20", thence to Lat. 33°10'25", Long. 116°35'35", thence to Lat. 33°12'00", Long. 116°46'00", thence to Lat. 33°38'45", Long. 117°14'30", thence to point of beginning.

§ 601.1069 *Control area extension (Santa Barbara, Calif.)*. Within 5 miles either side of the west and southeast courses of the Santa Barbara radio range extending from the radio range station to a point 25 miles west and 20 miles southeast.

§ 601.1070 *Control area extension (Oceanside, Calif.)*. Within 5 miles either side of a line bearing 293° True extending from the Oceanside non-directional radio beacon to its point of intersection with a line bearing 221° True from the Los Angeles radio range station; within 5 miles either side of a line bearing 284° True extending from the Oceanside non-directional radio beacon to its point of intersection with a line bearing 181° True from the Los Angeles omnirange station.

§ 601.1071 *Control area extension (Burbank, Calif.)*. That airspace east of the Burbank, Calif., radio range station bounded on the west by Amber civil airway No. 1, on the south by Green civil airway No. 5, on the southeast by Amber civil airway No. 2 and on the northeast by a line 5 miles northeast of and parallel to the southeast course of the Burbank radio range; that airspace southwest of the Burbank, Calif., radio range station bounded on the north by Red civil airway No. 90, on the east by Amber civil airway No. 1, on the south by Amber civil airway No. 8 and on the west by a line 5 miles west of and parallel to a direct line between the Canoga Park, Calif., non-directional radio beacon and the intersection of the west course of the Los Angeles, Calif., radio range and the southeast course of the Camarillo, Calif., radio range.

§ 601.1072 *Control area extension (Sumter, S. C.)*. From the Shaw AFB radio range station, Sumter, S. C., extending 5 miles either side of the southwest course of the Shaw AFB radio range between the southern boundary of Red civil airway No. 16 and the northeast boundary of Blue civil airway No. 28, excluding the portion which overlaps the Shaw AFB restricted area.

§ 601.1073 *Control area extension (Fresno, Calif.)*. Within 5 miles either side of the northeast course of the Fresno, Calif., radio range extending from the radio range station to a point 20 miles northeast, within 5 miles either side of the Fresno ILS localizer front course extending to a point 15 miles southeast of the Fresno Air Terminal, and that airspace within a 35-mile radius of the Fresno Air Terminal extending clockwise from a line bearing 153° True from the Fresno Air Terminal to a line 5 miles northeast of and parallel to the back course of the Fresno ILS localizer.

§ 601.1074 *Control area extension (Los Angeles, Calif.)*. Within 5 miles either side of the west and south courses of the Los Angeles radio range extending from the radio range station to points 40 miles west and south; within 5 miles either side of a line bearing 221° True extending from the Los Angeles radio range station to a point 40 miles southwest; within 5 miles either side of the southeast course of the Camarillo, Calif., radio range extending from Amber civil airway No. 8 to the intersection of the southeast course of the Camarillo radio range with a bearing of 221° True from the Los Angeles radio range station; within 5 miles either side of a line bearing 181° True extending from the Los Angeles omnirange station to a point 40 miles south of the omnirange station.

§ 601.1075 *Control area extension (Ada, Okla.)*. All that area within a 15-mile radius of the Ada, Okla., Municipal Airport.

§ 601.1076 *Control area extension (Phoenix, Ariz.)*. From the Phoenix, Ariz., radio range station extending 5 miles either side of the east course of the Phoenix, Ariz., radio range to a point 25 miles east of the radio range station.

§ 601.1077 *Control area extension (Elko, Nev.)*. From the Elko, Nev., radio range station extending 5 miles either side of the north course of the Elko, Nev., radio range to a point 25 miles from the radio range station, and extending 5 miles on either side of the south course of the Elko, Nev., radio range to a point 25 miles south of the radio range station.

§ 601.1078 *Control area extension (Reno, Nev.)*. From the Reno, Nev., radio range station extending 5 miles either side of the north course of the Reno, Nev., radio range to a point 50 miles north of the radio range station.

§ 601.1079 *Control area extension (Rock Springs, Wyo.)*. From the Rock Springs, Wyo., radio range station extending 5 miles either side of the north course of the Rock Springs, Wyo., radio range to a point 25 miles north of the radio range station, and extending 5 miles either side of the south course of the Rock Springs, Wyo., radio range to a point 25 miles south of the radio range station.

§ 601.1080 *Control area extension (Louisville, Ky.)*. All that area within a 15-mile radius of the Louisville omnirange station excluding danger areas, and all that area within 5 miles either side of the 122° True radial of the Louisville omnirange extending from the omnirange station to a point 25 miles southeast, the area within 5 miles either side of the 154° True radial of the omnirange extending from the omnirange station to a point 25 miles southeast, and the area within 5 miles either side of the Louisville ILS localizer course extending from the localizer to a point 13.2 miles southwest, and all that area northeast of the Louisville radio range station bounded on the southeast by Amber civil airway No. 6 and on the west and northwest by Red civil airway No. 74.

§ 601.1081 *Control area extension (Windsor Locks, Conn.)*. All that area in the vicinity of Bradley Field, Windsor Locks, Conn., bounded on the southwest and west by Blue 41, on the northwest by Red 33, on the northeast by Green 2 and on the east by Amber 7, and all that area southwest of Bradley Field bounded on the northwest by Red 33, on the northeast by Blue 41 and on the south by Red 13.

§ 601.1082 *Control area extension (Montgomery, Ala.)*. That airspace bounded on the north by Lat. 32°52'00", on the east by Long. 86°00'00", on the south by Lat. 31°45'00", and on the west by Long. 87°30'00".

§ 601.1083 *Control area extension (Bartlesville, Okla.)*. All that area within a 20-mile radius of the Phillips Airport, Bartlesville, Okla.

§ 601.1084 *Control area extension (Quincy, Ill.)*. That airspace within a 25-mile radius of the Quincy non-directional radio beacon including the airspace north of Quincy bounded on the east by VOR civil airway No. 63, on the southwest by VOR civil airway No. 52 and on the northwest by VOR civil airway No. 10.

§ 601.1085 *Control area extension (Edwards Air Force Base, Calif.)*. All that airspace bounded on the south by Green civil airway No. 4, on the southwest by Blue civil airway No. 14, on the north by Lat. 34°58'00", on the east by Long. 117°48'00", including the airspace within 5 miles either side of a line bearing 56° True extending from the Edwards Air Force Base and passing through the Edwards omnirange station site at Lat. 35°00'18", Long. 117°41'14" to a point 15 miles northeast of the omnirange station site, excluding the portions which overlap Restricted Area (R–279) and excluding the portion above 20,000 feet MSL which conflicts with Restricted Area (R–484).

§ 601.1086 *Control area extension (Memphis, Tenn.)*. That airspace within a 50-mile radius of the Memphis, Tenn., radio range station lying in the southeast, southwest and northwest quadrants of the radio range; the airspace within a 25-mile radius of the Memphis radio range station lying in the northeast quadrant of the radio range and the airspace within a 10-mile radius of the Memphis Naval Air Station.

§ 601.1087 *Control area extension (Akron, Ohio)*. From the Akron-Canton Airport, Akron, Ohio, ILS localizer extending 5 miles either side of the localizer course to a point 20 miles south of the ILS outer marker, and extending 5 miles either side of a direct line between the Akron, Ohio, radio range station and the Brecksville, Ohio, fan marker.

§ 601.1088 *Control area extension (Alexandria, Minn.)*. From the Alexandria, Minn., radio range station extending 5 miles either side of the north course of the Alexandria, Minn., radio range to a point 20 miles north of the radio range station, including all that area within a 15 mile radius of the Alexandria omnirange station, and all that area within 5 miles either side of the 50° True radial of the omnirange extending from the omnirange station to a point 25 miles northeast.

§ 601.1089 *Control area extension (Cincinnati, Ohio)*. All that airspace within a 15-mile radius of the Cincinnati, Ohio, omnirange station and that airspace northwest of Cincinnati bounded on the north by Red civil airway No. 18, on the east by VOR civil airway No. 47 and on the southwest by the east alternate of VOR civil airway No. 97.

§ 601.1090 *Control area extension (Lawrence, Mass.)*. Within 5 miles either side of a direct line extending from the Lawrence, Mass., nondirectional radiobeacon to the Bedford, Mass., outer marker.

§ 601.1091 *Control area extension (Detroit, Mich.)*. That airspace within a 20-mile radius of the Willow Run Airport, Detroit, Mich.; and the airspace north of Detroit bounded on the south by VOR civil airway No. 116, on the west by VOR civil airway No. 133, on the north by Red civil airway No. 63 and on the east by Red civil airway No. 20.

§ 601.1092 *Control area extension (Dickinson, N. Dak.)*. From the Dickinson, N. Dak., radio range station extending 5 miles either side of the north course of the radio range to a point 20 miles north of the radio range station including all that area within a 15-mile radius of the Dickinson omnirange station, and all that area within 5 miles either side of the 15° True radial of the omnirange extending from the omnirange station to a point 25 miles northeast.

§ 601.1093 *Control area extension (Fargo, N. Dak.)*. From the Fargo, N. Dak., radio range station extending 5 miles either side of the east course of the radio range to a point 20 miles east of the Glyndon fan marker, and extending from the ILS localizer 5 miles either side of the localizer course to a point 20 miles south of the outer marker, and all that area within a 15 mile radius of the Fargo omnirange station.

§ 601.1094 *Control area extension (Flint, Mich.)*. From the Flint, Mich., outer compass locator extending 5 miles either side of the 88° and 268° True courses of the outer compass locator to points 25 miles east and west of the outer compass locator.

§ 601.1095 *Control area extension (Fort Wayne, Ind.)*. All that area within a 15-mile radius of the Fort Wayne omnirange station including that area within 5 miles either side of the 318° True radial of the omnirange extending from the omnirange station to a point 25 miles northwest and that area within 5 miles either side of the Fort Wayne ILS localized course extending from the localizer to a point 20 miles southeast of the outer marker.

§ 601.1096 *Control area extension (Glenview, Ill.)*. From the Glenview, Ill., radio range station extending 5 miles either side of the northwest course of the Glenview, Ill., radio range to a point 20 miles northwest of the radio range station.

§ 601.1097 *Control area extension (Grand Forks, N. Dak.)*. From the Grand Forks, N. Dak., radio range station extending 5 miles either side of the south course of the Grand Forks, N. Dak., radio range to a point 20 miles south of the radio range station.

§ 601.1098 *Control area extension (Casper, Wyo.)*. All that area within a 25-mile radius of the Casper, Wyo., radio range station in the northeast, southwest and northwest quadrants of the radio range, excluding the portion which overlaps restricted areas.

§ 601.1099 *Control area extension (Indianapolis, Ind.)*. From the Weir-Cook Municipal Airport, Indianapolis, Ind., ILS localizer extending 5 miles either side of the ILS localizer course to a point 20 miles southwest of the ILS outer marker and all that area within a 15-mile radius of the Indianapolis omnirange station.

§ 601.1100 *Control area extension (Lone Rock, Wis.)*. That airspace within a 15-mile radius of the Lone Rock omnirange station including the airspace

within 5 miles either side of the 24° True radial of the omnirange extending from the omnirange station to a point 25 miles northeast.

§ 601.1101 *Control area extension (Madison, Wis.).* Within 5 miles either side of a line bearing 183° True from the Madison, Wis., outer marker extending from the outer marker to a point 25 miles south.

§ 601.1102 *Control area extension (Minneapolis, Minn.).* All that area within a 30-mile radius of the Minneapolis-St. Paul International Airport lying within the east, south, and west quadrants of the Minneapolis radio range, including all that area within a 15-mile radius of the Minneapolis omnirange station and the airspace north of Minneapolis bounded on the northwest by VOR civil airway No. 13, on the east by Blue civil airway No. 9 and on the southwest by VOR civil airway No. 26.

§ 601.1103 *Control area extension (Minot, N. Dak.).* All that area within a 15-mile radius of the Minot, N. Dak., omnirange station.

§ 601.1104 *Control area extension (Rockford, Ill.).* From the Rockford, Ill., radio range station extending 5 miles either side of the west course of the Rockford, Ill., radio range to a point 20 miles west of the radio range station.

§ 601.1105 *Control area extension (Muskegon, Mich.).* That airspace within a 15-mile radius of the Muskegon omnirange station and within 5 miles either side of the southeast course of the Muskegon radio range extending from the radio range station to the western boundary of Red civil airway No. 28.

§ 601.1106 *Control area extension (Whidbey Island, Wash.).* All that area beginning at lat. 48°30′00″, long. 123°07′15″, thence northeast to lat. 48°35′50″, long. 122°58′40″, thence east-northeast to lat. 48°42′15″, long. 122°41′00″, thence southerly to lat. 48°01′20″, long. 122°27′10″, thence northwesterly to lat. 48°06′30″, long. 122°52′35″, thence northwesterly to lat. 48°12′00″, long. 122°59′30″, thence to point of beginning, excluding the portions which overlap restricted areas.

§ 601.1107 *Control area extension (Topeka, Kans.).* All that area within a 25-mile radius of the Topeka, Kans., omnirange station.

§ 601.1108 *Control area extension (Salina, Kans.).* That airspace north of Salina, Kansas, within a 30-mile radius of a point at Latitude 38°52′39″, Longitude 97°38′54″, bounded on the south by VOR civil airway No. 4, and the airspace southeast of the Salina omnirange station bounded on the north by VOR civil airway No. 4 and on the west by VOR civil airway No. 73 within a 25-mile radius of the omnirange station.

§ 601.1109 *Control area extension (Goodland, Kans.).* From the Goodland, Kans., omnirange station extending 5 miles either side of the 22° True radial of the omnirange to a point 20 miles north and within 5 miles either side of the 202° True radial of the Goodland omnirange extending from the omnirange station to a point 25 miles southwest.

§ 601.1110 *Control area extension (Hobbs, N. Mex.).* From the Hobbs, N. Mex., radio range station extending 5 miles either side of the north course of the radio range to a point 25 miles north of the radio range station.

§ 601.1111 *Control area extension (San Diego, Calif.).* From the San Diego, Calif., radio range station extending 5 miles either side of the southwest course of the San Diego, Calif., radio range to a point 25 miles southwest of the radio range station.

§ 601.1112 *Control area extension (Fort Dix, N. J.).* All that area bounded on the north by Red civil airway No. 3 on the east by VOR civil airway No. 1, on the southeast by Green civil airway No. 5, on the southwest by Red civil airway No. 73 and on the west by Blue civil airway No. 20, excluding the portion which overlaps the Fort Dix, N. J., restricted area and the Lakehurst, N. J., caution area.

§ 601.1113 *Control area extensions (San Francisco, Calif.).* All that area bounded on the northeast by a line extending through the San Francisco, Calif., and Moffett Field, Calif., radio range stations, on the northwest by a line 5 miles northwest of and parallel to the southwest course of the San Francisco, Calif., radio range, on the west by a line 3 nautical miles off shore, on the southeast by a line 5 miles southeast of and parallel to the southwest course of the Moffett Field radio range, and including all that area northeast of the San Francisco, Calif., radio range station bounded on the northwest by Amber civil airway No. 8, on the northeast by Blue civil airway No. 10 and on the southeast and southwest by Green civil airway No. 3, and including all that area northeast of the San Francisco radio range station bounded on the northwest by Green civil airway No. 3, on the east by Blue civil airway No. 7 and on the south by Red civil airway No. 60, and all that area beginning at a point on the western boundary of Blue civil airway No. 10 at the point of intersection with lat. 38°15′00″, thence along the western boundaries of Blue civil airway No. 10, Blue civil airway No. 54 and Amber civil airway No. 8 to a point at which the western boundary of Amber civil airway No. 8 intersects the coastline, thence along the coastline in a northwesterly direction to Point Reyes, Calif., thence in a northeasterly direction to lat. 38°15′-00″, long. 122°45′00″, thence to the point of beginning.

§ 601.1114 *Control area extension (Bettles, Alaska).* Within 5 miles either side of the southeast course of the Bettles, Alaska, radio range extending from the radio range station to a point 25 miles southeast.

§ 601.1115 *Control area extension (Dodge City, Kans.).* Within 5 miles either side of the 341° and 161° True radials of the Dodge City omnirange extending from the omnirange station to points 25 miles north and south.

§ 601.1116 *Control area extension (Hutchinson, Kans.).* All that area within a 25-mile radius of the Hutchinson, Kans., radio range station.

§ 601.1117 *Control area extension (Grosse Ile, Mich.).* That airspace south of the Grosse Ile Naval Air Station bounded on the northwest by VOR civil airway No. 96, on the north by VOR civil airway No. 10, on the northeast by Red civil airway No. 19 and on the southeast by a line through a point at Lat. 41°51′10″, Long. 83°08′35″ and a point at Lat. 41°45′20″, Long. 83°20′25″.

§ 601.1118 *Control area extension (Grand Junction, Colo.).* Within 5 miles either side of a line bearing 305° True extending from Walker Airport, Grand Junction, Colo., to a point 30 miles northwest of the airport, and within 5 miles either side of the 357° True radial of the Grand Junction omnirange extending from the omnirange station to a point 15 miles north.

§ 601.1119 *Control area extension (St. Louis, Mo.).* All that area within a 25-mile radius of the St. Louis, Mo., radio range station in the northeast and southwest quadrants of the radio range.

§ 601.1120 *Control area extension (Cedar Rapids, Iowa).* Within 5 miles either side of a line bearing 266° True extending from the Cedar Rapids Municipal Airport to a point 25 miles west, and within 5 miles either side of a line bearing 90° True from the airport to a point 25 miles east.

§ 601.1121 *Control area extension (White Plains, N. Y.).* From the Westchester Airport White Plains, N. Y., ILS localizer extending 5 miles either side of the localizer course to its intersection with the south course of the New Hackensack, N. Y., radio range.

§ 601.1122 *Control area extension (Tri-City, Tenn.).* That airspace within a 28-mile radius of the Tri-City radio range station lying in the east quadrant of the radio range; that airspace within a 30-mile radius of the radio range station lying in the west quadrant of the radio range, and the airspace within 5 miles either side of the 289° True radial of the Tri-City omnirange extending from the omnirange station to a point 50 miles northwest.

§ 601.1123 *Control area extension (Birmingham, Ala.).* All that airspace within a 40-mile radius of the Birmingham, Ala., radio range station including the airspace north of the radio range station bounded on the north by lat. 34°30′00″, on the southeast by Blue civil airway No. 2 and on the southwest by Red civil airway No. 52.

§ 601.1124 *Control area extension (Eugene, Oreg.).* Within 5 miles either side of the west course of the Eugene, Oreg., radio range extending from the radio range station to VOR civil airway No. 27.

§ 601.1125 *Control area extension (Tallahassee, Fla.).* Within 5 miles either side of the south course of the Tallahassee radio range extending from the radio range station to a point 25 miles south, within 5 miles either side of the Tallahassee (Dale Mabry) ILS localizer course extending from the localizer to a point 30 miles southeast, within 5 miles either side of the 162° True radial of the Tallahassee omnirange extending from the omnirange station to a point 20 miles southeast, and that airspace northwest of Tallahassee bounded on the east by VOR civil airway No. 97, on the southwest by VOR civil airway No. 7, and on the north by VOR civil airway No. 22–N, excluding the airspace above 19,000 feet mean sea level between sunset and sunrise which lies within Tyndall AFB Restricted Area R–336.

§ 601.1126 *Control area extension (Knoxville, Tenn.).* That airspace within a 40-mile radius of the Knoxville, Tenn., radio range station beginning at a point south of Knoxville on the western edge of Red civil airway No. 27 and extending counterclockwise to a point at lat. 36°15′00″, long. 84°30′00″, thence bounded on the northwest by a straight line from this point to a point at lat. 36°00′00″, long. 84°56′30″, thence bounded on the west by VOR civil airway No. 51, on the southwest by the Chattanooga control area extension, on the south by VOR civil airway No. 54, and on the east by the western boundary of Red civil airway No. 27 to point of beginning, excluding the airspace which lies within Prohibited Area PA–78.

§ 601.1127 *Control area extension (Pasco, Wash.).* That airspace beginning at a point at lat. 46°13′03″, long. 119°03′45″ within 5 miles either side of lines drawn 179° True and 269° True extending from that point to their intersection with the northeast boundary of Green civil airway No. 10; that airspace bounded by lines 5 miles south of and 10 miles north of and parallel to a line drawn 89° True from the point of beginning extending to the northwest boundary of VOR civil airway No. 103 on the south, to long. 118°43′30″ on the north, bounded on the west by long. 119°03′45″, and including the airspace within 5 miles either side of the northwest course of the Walla Walla, Wash., radio range from the radio range station northwestward to long. 118°43′30″.

§ 601.1128 *Control area extension (Jackson, Miss.).* From the Jackson, Miss., ILS localizer extending 5 miles either side of the ILS localizer course to a point 30 miles northwest of the ILS localizer.

§ 601.1129 *Control area extension (Washington, D. C.).* All that area within a 40-mile radius of the Washington National Airport, excluding that portion northeast of the airport bounded on the west by the eastern boundary of Red civil airways Nos. 29 and 45 and on the south by the northern boundary of Green civil airway No. 5 and excluding the Washington Airspace Reservation and restricted areas.

§ 601.1130 *Control area extension (Spokane, Wash.).* Within 5 miles either side of the north course of the Spokane radio range extending from the radio range station to a point 25 miles north, within 5 miles either side of the 22° and 322° True radials of the Spokane omnirange extending from the omnirange station to points 25 miles northeast and northwest, and that airspace south of Spokane bounded on the north by VOR civil airway No. 2, on the southwest by a line 5 miles southwest of and parallel to a 297° True bearing from the Pine City, Wash., fan marker, and on the southeast by a line 5 miles southeast of and parallel to a 64° True bearing from the Pine City, Wash. fan marker.

§ 601.1131 *Control area extension (Sitka, Alaska).* Within 5 miles either side of the southwest course of the Sitka, Alaska, radio range extending from the radio range station to a point 25 miles southwest.

§ 601.1132 *Control area extension (West Palm Beach, Fla.).* Within 5 miles either side of the 36° True radial of the West Palm Beach omnirange extending from the omnirange station to a point 100 miles northeast, thence northwestward within 5 miles either side of the 127° True radial of the Daytona Beach, Fla., omnirange to its intersection with the centerline of Control area extension No. 1150, excluding the portion below 2,000 ft. which lies outside the continental limits of the United States.

§ 601.1133 *Control area extension (Seattle, Wash.).* That airspace within a 30-mile radius of the Seattle-Tacoma International Airport excluding the portion which overlaps the Fort Lewis Restricted Area R–244; that airspace south-southwest of Seattle bounded on the east by Blue civil airway No. 71, on the south by lat. 46°35′00″, and on the west by long. 123°03′00″.

§ 601.1134 *Control area extension (Columbus, Ga.).* Within 5 miles either side of the 57° True radial of the Columbus omnirange extending from the omnirange station to a point 20 miles northeast, excluding the airspace overlapping restricted areas, and the area within 5 miles either side of a line bearing 235° True through the Muscogee County Airport ILS outer compass locator extending from Red civil airway No. 84 on the northeast to Red civil airway No. 84 on the southwest.

§ 601.1135 *Control area extension (Marianna, Fla.).* Within 5 miles either side of the 130° True radial of the Marianna omnirange extending from the omnirange station to a point 20 miles southeast, excluding the airspace above 19,000 feet overlapping Tyndall AFB restricted area (R–336) between sunset and sunrise.

(San Juan, P. R.). Within a radius of 100 nautical miles of the Isle Grande Airport, San Juan, P. R., excluding the airspace over existing restricted areas and warning areas. (Designated to conform with Recommendation No. 6 of the Rules of the Air and Air Traffic Control Committee of the Second ICAO Caribbean Regional Air Navigation Meeting, as approved by the Council of ICAO.)

§ 601.1137 *Control area extension (Big Spring, Tex.).* That airspace within a 37-mile radius of the Big Spring radio range station.

§ 601.1138 *Control area extension (Orlando, Fla.).* Within 5 miles either side of the northwest course of the Orlando radio range extending from the radio range station to a point 25 miles northwest; that airspace northeast of Orlando bounded on the south by a line 5 miles southeast of and parallel to the northeast course of the Orlando radio range, on the northeast by Amber civil airway No. 7 and on the northwest by Red civil airway No. 47, and all that airspace bounded on the north by Latitude 29°00′00″, on the west by Tampa control area extension No. 1325, on the south by Latitude 27°45′00″, and on the east and northeast by Blue civil airway No. 19 and the northwest course of the Orlando radio range.

§ 601.1139 *Control area extension (Lexington, Ky.).* Within 5 miles either side of a line bearing 222° True extending from the Lexington, Ky., nondirectional radio beacon to a point 20 miles southwest, and within 5 miles either side of the 123° True radial of the Lexington omnirange extending from the omnirange station to a point 25 miles southeast, within 5 miles either side of a line bearing 313° True extending from the Lexington nondirectional radio beacon to its point of intersection with the east course of the Louisville, Ky., radio range.

§ 601.1140 *Control area extension (Youngstown, Ohio).* That airspace southeast of Youngstown bounded on the north by VOR civil airway No. 6, on the east by VOR civil airway No. 37, on the south by Red civil airway No. 85 and on the southwest and west by VOR civil airway No. 41.

§ 601.1141 *Control area extension (Boston, Mass.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered at the intersection of the southeast course of the Boston, Mass., radio range and the northeast course of the Squantum, Mass. (Navy) radio range to a circle 15 miles in radius centered at the midway point of a direct line between the intersection of the southeast course of the Boston, Mass., radio range and the northeast course of the Squantum, Mass. (Navy) radio range and the Yarmouth, Nova Scotia, radio range station to a circle 5 miles in radius centered on the Yarmouth, Nova Scotia, radio range station, excluding that portion below 2,000 feet except that area which lies within the confines of civil airways.

§ 601.1142 *Control area extension (Boston, Mass.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered at the intersection of the southeast course of the Boston, Mass., radio range and the northeast course of the Squantum, Mass. (Navy) radio range to a circle 15 miles in radius centered at the intersection of the southeast course of the Boston, Mass., radio range and the Western Boundary of the ICAO Control Area, excluding that portion below 2,000 feet except that area which lies within the confines of civil airways.

§ 601.1143 *Control area extension (Nantucket, Mass.).* That airspace

with tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Nantucket, Mass., nondirectional radio beacon to a circle 15 miles in radius centered at the midway point on a direct line between the Nantucket, Mass., nondirectional radio beacon and the Yarmouth, Nova Scotia, radio range station to a circle 5 miles in radius centered on the Yarmouth, Nova Scotia, radio range station, excluding that portion below 2,000 feet except that airspace which lies within the confines of civil airways, and excluding those portions which overlap Warning Areas (W–21, W–95 and W–104).

§ 601.1144 *Control area extension (Nantucket, Mass.).* That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Nantucket, Mass., nondirectional radio beacon to a circle 15 miles in radius centered on the intersection of a Great Circle course between the Nantucket nondirectional radio beacon and the Azores Santa Maria nondirectional radio beacon and the western boundary of the ICAO Control Area, excluding the portion below 2,000 feet except that airspace which lies within the confines of civil airways.

§ 601.1145 *Control area extension (Nantucket, Mass.).* That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Nantucket, Mass., nondirectional radio beacon to a circle 15 miles in radius centered on the intersection of a rhumb line between the Nantucket nondirectional radio beacon and the Kindley AFB Bermuda radio range station and the western boundary of the ICAO Control Area, excluding the portion below 2,000 feet except that airspace which lies within the confines of civil airways.

§ 601.1146 *Control area extension (New York, N. Y.).* That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered at the intersection of the east course of the New York (La Guardia), N. Y., radio range and the northeast course of the Mitchel AFB, N. Y., radio range to a circle 5 miles in radius centered at the intersection of the southeast course of the Quonset, R. I. (Navy) radio range and a line bearing 254° True from the Nantucket, Mass., nondirectional radio beacon to a circle 5 miles in radius centered on the Nantucket nondirectional radio beacon, excluding that portion below 2,000 feet between the intersection of the east course of the New York (La Guardia) radio range and the southwest course of the Providence, R. I., radio range and the Nantucket nondirectional radio beacon. In addition, that portion below 7,950 feet MSL which lies within the confines of the Montauk Point Restricted Area (R–487) and the Montauk Point Warning Area (W–487) (published in § 608.40 of this chapter) shall be used only after obtaining prior approval from the Civil Aeronautics Administration Air Traffic Control.

§ 601.1147 *Control area extension (New York, N. Y.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered at the intersection of the southeast course of the Newark, N. J., radio range and the southwest course of the Mitchel AFB, N. Y., radio range to a circle 15 miles in radius centered at the intersection of the southeast course of the Newark, N. J., radio range and the Western Boundary of the ICAO Control Area, excluding that portion below 2,000 feet except that area which lies within the confines of civil airways.

§ 601.1148 *Control area extension (Millville, N. J.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Millville, N. J., radio range station and the intersection of the southeast course of the Millville, N. J., radio range and the Atlantic Ocean U. S. Coastline to a circle 15 miles in radius centered on the intersection of the southeast course of the Millville, N. J., radio range and the Western Boundary of the ICAO Control Area, excluding that portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1149 *Control area extension (Norfolk, Va.).* That airspace within a 55-mile radius of a point located at latitude 36°57′44″, longitude 76°24′44″, excluding the airspace which overlaps all danger areas, warning areas and caution areas and excluding the portion below 2,000 feet beyond the shoreline of the United States.

§ 601.1150 *Control area extension (Wilmington, N. C.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Wilmington, N. C., omnirange station to a circle 15 miles in radius centered at the midway point on a direct line between the Wilmington, N. C., omnirange station and the West Palm Beach, Fla., radio range station to a circle 5 miles in radius centered on the West Palm Beach, Fla., radio range station, excluding that portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1151 *Control area extension (Wilmington, N. C.).* That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Wilmington, N. C., omnirange station to a circle 5 miles in radius centered at a point at lat. 33°55′00″, long. 77°19′00″ to a circle 15 miles in radius centered at the intersection of a line bearing 133° True from the Wilmington, N. C., omnirange station and the Western boundary of the New York Oceanic Control Area, excluding the portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1152 *Control area extension (Charleston, S. C.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Charleston, S. C., radio range station and a circle 5 miles in radius centered at the intersection of the southeast course of the Charleston, S. C., radio range and the Atlantic Ocean U. S. Coastline to a circle 15 miles in radius centered at the intersection of the southeast course of the Charleston, S. C., radio range and the Western Boundary of the ICAO Control Area, excluding that portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1153 *Control area extension (Jacksonville, Fla.).* That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Jacksonville, Fla., radio range station to a circle 15 miles in radius centered on the intersection of the east course of the Jacksonville, Fla., radio range and the Western Boundary of the ICAO Control Area, excluding that portion below 2,000 feet and above 20,500 feet which lies outside the continental limits of the United States.

§ 601.1154 *Control area extension (Bismarck, N. Dak.).* All that area within a 15-mile radius of the Bismarck omnirange station including all that area 5 miles either side of the ILS localizer course extending from the localizer to a point 20 miles southeast of the outer marker, and all that area within 5 miles either side of the 114° True radial of the omnirange station extending from the omnirange station to a point 25 miles southeast.

§ 601.1155 *Control area extension (Omaha, Nebr.).* All that airspace within a 25-mile radius of the Omaha radio range station and the airspace southwest of Omaha bounded on the north by VOR civil airways No. 8–S, 6–S and Red civil airway No. 93, on the east by Amber civil airway No. 4 and the St. Joseph, Mo., control area extension, on the south by a line extending from a point at Lat. 40°00′00″, Long. 95°17′00″, to a point at Lat. 40°30′00″, Long. 96°51′00″, to a point at Lat. 40°30′00″, Long. 97°20′00″, and bounded on the west by Long. 97°20′00″.

§ 601.1156 *Control area extension (Albany, Ga.).* Within 5 miles either side of the west course of the Albany radio range extending from the radio range station to a point 25 miles west and within 5 miles either side of the 335° True radial of the Albany omnirange extending from the omnirange station to a point 20 miles northwest.

§ 601.1157 *Control area extension (Chicago, Ill.).* From the Chicago, Ill., O'Hare International Airport ILS localizer extending 5 miles either side of the localizer course to a point 20 miles northwest of the outer marker.

§ 601.1158 *Control area extension (Cleveland, Ohio).* That airspace lying over United States territory within a 30-mile radius of the Cleveland-Hopkins Airport excluding the portion which overlaps the Akron Caution Area (No. C–419).

§ 601.1159 *Control area extension (Moline, Ill.).* That airspace within a 15-mile radius of the Moline omnirange station, within 5 miles either side of the Moline ILS localizer west course extending from the localizer to a point 35 miles west of the Quad City Airport, and the airspace east of Moline bounded on the north by Green civil airway No. 3, on the south by a line 5 miles south of and parallel to the Moline ILS localizer east course, on the east by Long. 90°02′00″ and on the west by VOR civil airway No. 63.

§ 601.1160 *Control area extension (South Bend, Ind.).* From the South Bend, Ind., ILS localizer extending 5 miles either side of the localizer course to a point 20 miles east of the outer marker and all that area within a 15-mile radius of the South Bend omnirange station.

§ 601.1161 *Control area extension (Chicago, Ill.).* All that area within a 30-mile radius of the Chicago-Midway Airport excluding the portion overlapping restricted areas; all that area within a 15-mile radius of the Chicago Heights omnirange station; all that area east of the Chicago Midway Airport bounded on the northwest by Red civil airway No. 28, on the east by Blue civil airway No. 6 and on the south by Red civil airway No. 12, and all that area southeast of Chicago Midway Airport bounded on the north by Red civil airway No. 12, on the east by Blue civil airway No. 6, on the south by Green civil airway No. 3 and on the west by Red civil airway No. 14.

§ 601.1162 *Control area extension (Danville, Va.).* Within a 5-mile radius of the Danville Municipal Airport extending 5 miles either side of a track bearing 356° True from the airport to a point 10 miles north, and extending 5 miles either side of a track bearing 57° True from the airport to a point 10 miles northeast of the airport.

§ 601.1163 *Control area extension (Vero Beach, Fla.).* That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Vero Beach omnirange station to a circle 10 miles in radius centered on the intersection of the east course of the Melbourne, Fla., radio range and the center of Control area extension No. 1150, excluding that portion below 5,000 feet except that airspace which lies within existing control area or control area extension.

§ 601.1164 *Control area extension (Quonset Point, R. I.).* All that area bounded by a line beginning at a point on the southern boundary of Red civil airway No. 94 at lat. 41°35′00″;, long. 71°06′30″, thence westward along that airway boundary to the southeastern boundary of Red civil airway No. 21, thence southwesterly along the southeastern boundary of that airway to lat. 41°32′00″, long. 71°33′25″, thence perpendicularly southeastward to a point 3 miles from the southwest course of the Providence, R. I., radio range, thence southwestward paralleling the southwest course of the Providence, R. I., radio range to a point at lat. 41°17′00″, long. 71°44′45″ on an arc of a circle with a 27-mile radius centered on the Quonset Point, R. I., NAS radio range station, thence counterclockwise along this arc to lat. 41°17′15″, long. 71°00′40″, thence northwestward to lat. 41°29′25″, long. 71°12′00″, thence northeastward to lat. 41°35′00″, long. 71°06′30″, point of beginning, excluding the portions which overlap restricted areas and caution areas.

§ 601.1165 *Control area extension (Oakland, Calif.).* All that area in the vicinity of Hayward, Calif., bounded by the eastern boundary of Blue civil airway No. 10, the southern boundary of Red civil airway No. 60 and the northern boundary of Blue civil airway No. 60.

§ 601.1166 *Control area extension (Mobile, Ala.).* Within a 25-mile radius of Brookley AFB, Mobile, Ala., excluding the portion which overlaps Caution Area C–146, and within 5 miles either side of the 292° True radial of the Mobile omnirange extending from the omnirange station to a point 25 miles northwest.

§ 601.1167 *Control area extension (Ontario, Oreg.).* That airspace within an 8½-mile radius of the Ontario Airport including the airspace southeast of Ontario bounded on the northeast by Green civil airway No. 10, on the south by the Boise, Idaho, control area extension, on the southwest by a line 12 miles southwest of and parallel to Green civil airway No. 10.

§ 601.1168 *Control area extension (Ponca City, Okla.).* Within a 15-mile radius of the Ponca City Airport and within 5 miles either side of the 284° True radial of the Ponca City omnirange extending from the omnirange station to a point 25 miles west.

§ 601.1169 *Control area extension (Idlewild, N. Y.).* That airspace within 5 miles either side of a direct line extending from the intersection of the southeast course of the Mitchel AFB, N. Y., radio range and the Riverhead, N. Y., omnirange 223° True radial to the Nantucket, Mass., nondirectional radio beacon excluding the airspace below 2,000 feet. In addition, that portion below 7,950 feet MSL which lies within the confines of the Montauk Point Restricted Area (R–487) and the Montauk Point Warning Area (W–487) (published in § 608.40 of this chapter) shall be used only after obtaining prior approval from the Civil Aeronautics Administration Air Traffic Control.

§ 601.1170 *Control area extension (Campbellton, Ga.).* From the Campbellton, Ga., radio range station extending 5 miles either side of the north course of the radio range to its intersection with the northwest course of the Atlanta, Ga., radio range, and extending 5 miles either side of the south course of the Campbellton radio range to its intersection with the southwest course of the Atlanta, Ga., radio range.

§ 601.1171 *Control area extension (El Paso, Tex.).* Within 5 miles either side of the north course of the El Paso radio range extending from the radio range station to a point 10 miles north of the Newman nondirectional radio beacon, excluding the portion which overlaps danger areas, and all that area south of El Paso bounded on the northeast by VOR civil airway No. 66, on the south by a line 5 miles south of and parallel to a direct line between the Clint, Tex., nondirectional radio beacon and the Hudspeth, Tex., omnirange station, and on the west by a line 5 miles west of and parallel to the centerline of the south course of the El Paso, Tex., radio range, excluding the portion which lies outside the continental limits of the United States.

§ 601.1172 *Control area extension (Rantoul, Ill.).* Within a 25-mile radius of the Rantoul (Chanute), Ill., AFB radio range station.

§ 601.1173 *Control area extension (San Francisco, Calif.).* All that airspace bounded by a line beginning at a point on the coastline at 37°51′00″, Long. 122°33′40″, thence easterly along the coastline to Lat. 37°14′00″, Long. 122°24′55″, thence southwestward along a bearing of 240° True from the Pescadero, Calif., nondirectional radio beacon (located at Lat. 37°14′09″, Long. 122°23′57″) to Lat. 36°16′00″, Long. 124°26′00″, thence northwesterly along the eastern boundary of the Oakland Flight Information Region to Lat. 37°42′00″, Long. 125°24′00″, thence easterly to Lat. 37°50′15″, Long. 124°26′00″, thence to Lat. 37°43′00″, Long. 124°00′00″, thence to Lat. 37°47′00″, Long. 123°00′00″, thence to Lat. 37°51′00″, Long. 122°33′40″ the point of beginning.

§ 601.1174 *Control area extension (Santa Ana, Calif.).* All that area bounded on the northeast by Amber civil airway No. 1, on the southwest by the Oceanside, Calif., control area extension and on the west by the Los Angeles, Calif., control area extension.

§ 601.1175 *Control area extension (Charleston, S. C.).* Within 5 miles either side of the 341° True radial of the Charleston, S. C., omnirange extending from the omnirange station to a point 20 miles northwest.

§ 601.1176 *Control area extension (Santa Barbara, Calif.) (Santa Barbara-Honolulu rhumb line route).* From the Santa Barbara, Calif., radio range station extending 5 miles either side of a rhumb line bearing 244° True from the Santa Barbara, Calif., radio range station to its intersection with the Eastern Boundary of the Oakland Flight Information Region.

§ 601.1177 *Control area extension (Long Beach, Calif.) (Long Beach-Honolulu route).* From the Long Beach, Calif., radio range station extending 5 miles either side of the southwest course of the Long Beach, Calif., radio range to its intersection at Lat. 31°56′30″, Long. 120°04′00″ with a rhumb line bearing 251° True from the San Diego, Calif., radio range station thence 5 miles either side of that rhumb line to its intersection with the Eastern Boundary of the Oakland Flight Information Region.

§ 601.1178 *Control area extension (Honolulu, T. H.).* All that area within a radius of 25 miles from the Honolulu radio range station extending clockwise from a point 25 miles northeast of the radio range station on Green civil airway No. 9 to a point 25 miles southwest of the radio range station on Green civil airway No. 9.

§ 601.1179 *Control area extension (Hilo, T. H.).* All that airspace within a radius of 25 miles from the Hilo, T. H., radio range station extending clockwise from a point 25 miles north of the Hilo range station on Amber civil airway No.

12 to a point 25 miles east of the Hilo range station on Red civil airway No. 87.

§ 601.1180 *Control area extension (San Antonio, Tex.)*. All that area within a 60-mile radius of the San Antonio, Tex., radio range station and that airspace northeast of the San Antonio radio range station bounded on the northwest by the Austin, Tex., control area extension, on the northeast by Red civil airway No. 32 and on the south by a straight line between points located at lat. 29°48'25", long. 97°25'30" and lat. 29°52'40", long. 97°10'25".

§ 601.1181 *Control area extension (Elizabeth City, N. C.)*. That area within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Weeksville, N. C. (Navy) radio range station to a circle 10 miles in radius centered on the intersection of the southeast course of the Weeksville, N. C. (Navy) radio range and the western boundary of the New York Oceanic Control Area, excluding that portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1182 *Control area extension (Enid, Okla.)*. All that area within a 25-mile radius of the Enid, Okla., Vance AFB, radio range station.

§ 601.1183 *Control area extension (Wake Island)*. From the Wake Island non-directional radio beacon extending 5 miles either side of rhumb lines to point 3 nautical miles off the shoreline of the Island of Wake between the following points: Wake-Honolulu; Wake-Tokyo; Wake-Guam; Wake-Midway.

§ 601.1184 *Control area extension (Douglas, Ariz.)*. Within 5 miles either side of the 131° and 311° True radials of the Douglas omnirange extending from the United States-Mexican Border to a point 15 miles northwest of the omnirange station.

§ 601.1185 *Control area extension (Cochise, Ariz.)*. From the Cochise, Ariz., radio range station extending 5 miles either side of the southeast course of the radio range to a point 25 miles southeast of the radio range station.

§ 601.1186 *Control area extension (Tucson, Ariz.)*. Within 5 miles either side of the west course of the Tucson radio range extending from the radio range station to a point 25 miles west and the airspace south of Tucson bounded on the north by Green civil airway No. 5, on the northeast by VOR civil airway No. 66, and on the west and south by VOR civil airway No. 202, excluding the portion which overlaps the Sahuarita restricted area R–310.

§ 601.1187 *Control area extension (Jackson, Mich.)*. Within 5 miles either side of a 313° True bearing extending from the Jackson, Mich., nondirectional radio beacon to a point 25 miles northwest.

§ 601.1188 *Control area extension (Milwaukee, Wis.)*. From the Milwaukee, Wis., radio range station extending 5 miles either side of the north course of the radio range to a point 25 miles north of the radio range station, and all that area west of the Milwaukee, Wis., radio range station bounded on the north by Green civil airway No. 2, on the southeast by Red civil airway No. 57 and on the southwest by Red civil airway No. 42, and all that area within a 15-mile radius of the Milwaukee omnirange station.

§ 601.1189 *Control area extension (Daggett, Calif.)*. From the Daggett, Calif., radio range station extending 5 miles either side of the north course of the radio range to a point 20 miles north of the radio range station.

§ 601.1190 *Control area extension (Fairfield, Calif.)*. All that area northeast of the Fairfield, Calif., Travis AFB radio range station bounded on the west by Blue civil airway No. 7, on the northeast by Amber civil airway No. 1 and on the southeast by Amber civil airway No. 8, and all that area west of the Travis AFB radio range station bounded on the southwest by Blue civil airway No. 54, on the south by Amber civil airway No. 8, on the east by Blue civil airway No. 7, on the north by a line between points at latitude 38°21'30", longitude 121°57'00" and latitude 38°08'30", longitude 122°33'10", and on the west by longitude 122°33'10".

§ 601.1191 *Control area extension (Thermal, Calif.)*. Within 5 miles either side of the 80° True radial of the Thermal omnirange extending from the omnirange station to the Hayfield Lake, Calif., nondirectional radio beacon.

§ 601.1192 *Control area extension (Merced, Calif.)*. That airspace in the vicinity of Castle AFB, Merced, Calif., bounded on the east by Amber civil airway No. 1, on the south by VOR civil airway No. 100, on the west by Blue civil airway No. 14, and on the north by the 15-mile radius circular control area centered at the Modesto, Calif., omnirange station.

§ 601.1193 *Control area extension (Monterey, Calif.)*. The area bounded by a line 5 miles southeast of and parallel to the 229° True radial of the Salinas VOR radio range extending from the western boundary of VOR civil airway No. 27 to a point at latitude 36°27'30" N., longitude 121°52'30" W.; thence to a point 3 nautical miles offshore and 5 statute miles southeast of the southwest course of the Moffett, Calif., NAS radio range; thence in a northeasterly direction parallel to the southwest course of the Moffett NAS radio range to the western boundary of VOR civil airway No. 27; thence southeasterly along the western boundary of VOR civil airway No. 27 to the point of beginning, excluding the area below 3000 feet within the boundaries of the Fort Ord restricted area.

§ 601.1194 *Control area extension (Sacramento, Calif.)*. That airspace within a 50-mile radius of Mather Air Force Base lying in the east quadrant of the Sacramento radio range bounded on the northwest by Green civil airway No. 3 and on the southwest by Amber civil airway No. 1; that airspace north of Sacramento bounded on the north by Red civil airway No. 76, on the southeast by Green civil airway No. 3 and on the southwest by Amber civil airway No. 1, and the airspace bounded on the south by Red civil airway No. 76, on the west by longitude 121°30'00", on the north by latitude 39°09'00" and on the east by longitude 121°20'00".

§ 601.1195 *Control area extension (San Angelo, Tex.)*. That airspace within a 30-mile radius of the San Angelo, Tex., radio range station lying in the southeast and northeast quadrants of the radio range including that airspace lying in the northwest quadrant of the radio range extending from the north course of the radio range westward to VOR civil airway No. 76N.

§ 601.1196 *Control area extension (Yuma, Ariz.)*. From the Yuma, Ariz., radio range station extending 5 miles either side of the south course of the radio range to a point 15 miles south of the radio range station.

§ 601.1197 *Control area extension (Dubois, Idaho)*. From the Dubois, Idaho, radio range station extending 5 miles either side of the east course of the Dubois radio range to its intersection with the northeast course of the Idaho Falls, Idaho, radio range.

§ 601.1198 *Control area extension (Idaho Falls, Idaho)*. From the Idaho Falls, Idaho, radio range station extending 5 miles either side of the northwest course of the radio range to its intersection with Blue civil airway No. 51, and extending 5 miles either side of the northeast course of the radio range to its intersection with the east course of the Dubois, Idaho, radio range.

§ 601.1199 *Control area extension (St. Cloud, Minn.)*. That airspace within 5 miles either side of a line bearing 57° True from the St. Cloud Airport extending from the airport to a point 20 miles northeast.

§ 601.1200 *Control area extension (Columbia, S. C.)*. From the Columbia Airport extending 5 miles either side of the center line of the northeast-southwest runway to a point 30 miles southwest of the airport.

§ 601.1201 *Control area extension (Saginaw, Mich.)*. From the Saginaw, Mich., non-directional radio beacon extending 5 miles either side of a track 347° True to a point 25 miles northwest of the non-directional radio beacon.

§ 601.1202 *Control area extension (Tucumcari, N. Mex.)*. From the Tucumcari, N. Mex., radio range station extending 5 miles either side of the north and south courses of the radio range to points 25 miles north and south of the radio range station.

§ 601.1203 *Control area extension (Stuttgart, Ark.)*. That airspace south of Stuttgart bounded on the north by Red civil airway No. 37, on the southeast by VOR civil airway No. 11 and on the southwest by Blue civil airway No. 22.

§ 601.1204 *Control area extension (Zuni, N. Mex.)* From the Zuni, N. Mex., radio range station extending 5 miles either side of the south course of the radio range to a point 25 miles south of the radio range station.

§ 601.1205 *Control area extension (Albuquerque, N. Mex.)*. That airspace northwest of Albuquerque bounded on the northwest by VOR civil airway No. 190, on the south by VOR civil airway No. 12 and on the east by VOR civil airway No. 19; that airspace north of Albuquerque bounded on the east by a line 5 miles east of and parallel to a 03° True bearing from the Kirtland AFB, on the south by VOR civil airway No. 12, and on the west and north by VOR civil airway No. 19.

§ 601.1206 *Control area extension (Midland, Tex.)*. That airspace within a 25-mile radius of the Midland radio range station; that airspace within 5 miles either side of the Midland ILS localizer southwest course extending from the localizer to lat. 31°30'00", and that airspace between the Midland, Tex., and El Paso, Tex., radio range stations bounded on the north by Green 5 and on the southwest, south and southeast by VOR civil airway No. 66.

§ 601.1207 *Control area extension (Carlsbad, N. Mex.)*. Within 5 miles either side of the 165° True radial of the Carlsbad omnirange extending from the omnirange station to VOR civil airway No. 16N.

§ 601.1208 *Control area extension (Salt Flat, Tex.)*. From the Salt Flat, Tex., radio range station extending 5 miles either side of the north course of the radio range to a point 15 miles north of the radio range station.

§ 601.1209 *Control area extension (Columbus, N. Mex.)*. From the Columbus, N. Mex., radio range station extending 5 miles either side of the north course of the radio range to a point 25 miles north of the radio range station.

§ 601.1210 *Control area extension (Grandview, Mo.)*. That airspace bounded on the northwest by Green civil airway No. 4, on the east by VOR civil airway No. 13, on the south by Lat. 38°30'00", and on the west by the Olathe NAS Caution Area C–198 and the Olathe NAS control zone.

§ 601.1211 *Control area extension (Dallas, Tex.)*. All that area southeast of the Dallas, Tex., radio range station bounded on the west by Blue civil airway No. 5, on the north by Red civil airway No. 10, on the east by a line beginning at Lat. 32°42'15", Long. 96°21'15" and extending via Lat. 32°17'00", Long. 96°25'00", to the Waco, Tex., radio range station.

§ 601.1212 *Control area extension (White Sulphur Springs, W. Va.)*. That airspace within 5 miles either side of lines bearing 227° True and 47° True from the Greenbrier Airport extending from Red civil airway No. 37 on the southwest to a point 10 miles northeast of the airport.

§ 601.1213 *Control area extension (Chatsworth, Calif.)*. All that area bounded on the northwest by Green civil airway No. 4, on the east by Amber civil airway No. 1, and on the south by Red civil airway No. 90.

§ 601.1214 *Control area extension (Brownsville, Tex.)*. All that area either side of a rhumb line between the Brownsville, Tex., radio range station and the Tampa, Fla., radio range station extending 5 miles on either side of such line from the Brownsville, Tex., radio range station to the coastline, excluding the portion lying within the Territory of Mexico, thence diverging at an angle of 15° on the north side and bounded on the south side by the northern boundary of the Mexico Oceanic Control Area to the western boundary of the New Orleans Oceanic Control Area excluding that portion below 2,500 feet between the United States shoreline and the New Orleans Oceanic Control Area.

§ 601.1215 *Control area extension (Galveston, Tex.)*. All that area extending from the Houston, Tex., control area to the New Orleans Oceanic Control Area, bounded on the west by a line from lat. 29°04'40", long. 95°00'00", to lat. 28°02'20", long. 94°20'00", and bounded on the east by a line from lat. 29°16'00", long. 94°43'15" to lat. 28°15'00", long. 92°42'00" excluding that portion below 2,500 feet between the United States shoreline and the New Orleans Oceanic Control Area.

§ 601.1216 *Control area extension (New Orleans, La.)*. All that airspace from the United States shoreline to the New Orleans Oceanic Control Area bounded on the north by a direct line from the Callender, La., nondirectional radio beacon to a point coinciding with the northernmost limit of the New Orleans Oceanic Control Area at Lat. 29°25'00", Long. 87°00'00", on the southeast and south by the New Orleans Oceanic Control Area, on the west by Long. 90°15'00" and on the northwest by the New Orleans domestic control area extension, excluding the portion below 2,500 feet between the United States shoreline and the New Orleans Oceanic Control Area.

§ 601.1217 *Control area extension (Kodiak, Alaska)*. That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Kodiak, Alaska, radio range station to the circumference of a circle 10 miles in radius centered at the point of intersection of a line bearing 107° True from the Kodiak radio range station with the northwestern boundary of the Anchorage Oceanic Control Area.

§ 601.1218 *Control area extension (Homer, Alaska)*. That airspace within tangent lines drawn from the circumference of a circle 5 miles in radius centered on the Homer, Alaska, radio range station to the circumference of a circle 10 miles in radius centered at the point of intersection of a line bearing 118° True from the Homer radio range station with the northwestern boundary of the Anchorage Oceanic Control Area.

§ 601.1219 *Control area extension (Pensacola, Fla.)*. Within 5 miles either side of the northeast and southwest courses of the Saufley Field NAAS radio range extending from Blue civil airway No. 59 to a point 10 miles southwest of the Saufley Field NAAS radio range station, excluding the portion overlapping the Pensacola restricted areas.

§ 601.1220 *Control area extension (Johnstown, Pa.)*. From the Johnstown, Pa., non-directional radio beacon extending 5 miles either side of a bearing 219° True from the non-directional radio beacon to Red civil airway No. 20.

§ 601.1221 *Control area extension (Dothan, Ala.)*. From the Dothan, Ala., radio range station extending 5 miles either side of the northeast course of the radio range to a point 25 miles northeast of the radio range station, excluding the portion above 19,000 feet which lies within the Tyndall AFB restricted area (R–336), between sunset and sunrise.

§ 601.1222 *Control area extension (Pine Bluff, Ark.)*. Within 5 miles either side of the 20° True and 200° True radials of the Pine Bluff, Ark., omnirange extending from Green civil airway No. 5 on the northeast to a point 25 miles southwest of the omnirange station and within 5 miles either side of the 7° True and 187° True radials of the Pine Bluff omnirange extending from the omnirange station to points 20 miles north and south.

§ 601.1223 *Control area extension (Allentown, Pa.)*. All that area within a 15-mile radius of the Allentown, Pa., omnirange station.

§ 601.1224 *Control area extension (Philipsburg, Pa.)*. All that area within a 15-mile radius of the Philipsburg, Pa., omnirange station.

§ 601.1225 *Control area extension (Erie, Pa.)*. All that area within a 15-mile radius of the Erie, Pa., omnirange station.

§ 601.1226 *Control area extension (Tampa, Fla.)*. From the Tampa, Fla., radio range station to the eastern boundary of the New Orleans Oceanic Control Area along a rhumb line between the Tampa, Fla., radio range station and the Callendar, La., non-directional radio beacon, extending 5 miles either side of the rhumb line at the Tampa radio range station thence diverging to a width of 10 miles either side of the rhumb line at its intersection with the eastern boundary of the New Orleans Oceanic Control Area, excluding that portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1227 *Control area extension (Lovelock, Nev.)*. From the Lovelock, Nev., omnirange station extending 5 miles either side of the 18° True radial of the omnirange to a point 15 miles north, and extending 5 miles either side of the 198° True radial of the omnirange to Green civil airway No. 3.

§ 601.1228 *Control area extension (Tampa, Fla.)*. All that area 5 miles either side of a straight line from the Tampa, Fla., radio range station to the Key West, Fla., radio range station, excluding that portion below 2,000 feet which lies outside the continental limits of the United States, and excluding the portion which overlaps Airspace Warning Areas (W–173) and (W–174).

§ 601.1229 *Control area extension (Atterbury, Ind.).* That airspace bounded on the south by Lat. 39°10'00", on the west by Long. 86°00'00" and on the east and northeast by VOR civil airway No. 51, excluding the portion which overlaps Atterbury restricted area (R-65).

§ 601.1230 *Control area extension (Miami, Fla.).* From the intersection of the southeast course of the Fort Myers, Fla., radio range and the west course of the Miami, Fla., radio range to the eastern boundary of the New Orleans Oceanic Control Area, along a rhumb line between that intersection and the Brownsville, Tex., radio range station, extending 5 miles either side of the rhumb line between that intersection and a point on the coastline at Lat. 25°48'50", Long. 81°30'40", thence extending 5 miles on the south side and diverging on the north side of the rhumb line to a width of 10 miles at its intersection with the eastern boundary of the New Orleans Oceanic Control Area, excluding the portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1231 *Control area extension (Newport, Vt.).* That airspace over United States territory within 5 miles either side of a 32° True bearing extending from the Newport, Vt., nondirectional radio beacon to a point 10 miles northeast.

§ 601.1232 *Control area extension (Miami, Fla.).* An area bounded by a line beginning on the eastern edge of Amber civil airway No. 7 at Lat. 25°53'00", thence easterly to the western boundary of the Miami Oceanic/Nassau Control Area at Lat. 25°55'00", Long. 79°00'00", thence due south along that boundary to Lat. 24°40'00"; thence southwesterly to Lat. 24°00'00" Long. 80°25'00"; thence due north to the eastern edge of Amber No. 7, thence along Amber 7 to Lat. 25°53'00", point of beginning, excluding that portion below 1,000 feet which lies outside the continental limits of the United States.

§ 601.1233 *Control area extension (Key West, Fla.).* From the Key West, Fla., radio range station to the northern boundary of the Havana, Cuba, Control Area, extending 5 miles either side of a rhumb line between the Key West, Fla., radio range station and the Rancho Boyeros, Havana, Cuba, non-directional radio beacon, excluding the portion below 2,000 feet which lies outside the continental limits of the United States.

§ 601.1234 *Control area extension (Key West, Fla.).* From the intersection of the southwest course of the Homestead, Fla., radio range and the northeast course of the Key West, Fla., radio range to the northern boundary of the Havana, Cuba, Control Area, extending 5 miles either side of a rhumb line between that intersection and the Rancho Boyeros, Havana, Cuba, nondirectional radio beacon, excluding the portion below 2,000 feet between Amber civil airway No. 7 and the Havana, Cuba, Control Area boundary.

§ 601.1235 *Control area extension (West Palm Beach, Fla.).* From the West Palm Beach, Fla., radio range station extending 5 miles either side of the east course of the West Palm Beach, Fla., radio range to its intersection with the western boundary of the Miami Oceanic/Nassau Control Area, excluding the portion below 2,000 feet outside the continental limits of the United States and excluding the portion which overlaps Airspace Warning Areas.

§ 601.1236 *Control area extension (Seattle (Clear Lake), Wash.).* All that airspace bounded by a line beginning on the eastern edge of VOR civil airway No. 23 at Lat. 48°32'00", thence due east to Long. 122°14'00", thence clockwise along the arc of a circle 5 miles in radius centered at Lat. 48°27'30", Long. 122°14'00", to Lat. 48°28'25", Long. 122°07'40", thence southeast to Lat. 48°12'30", Long. 122°03'05", thence southwest to a point on the eastern edge of Green civil airway No. 10 at Lat. 47°59'00", thence northerly along the eastern edge of Green civil airway No. 10 and VOR civil airway No. 23 to point of beginning.

§ 601.1237 *Control area extension (Waco, Tex.).* All that area within a 25-mile radius of the Waco, Tex., radio range station in the east quadrant of the radio range bounded on the northwest by the present control area and on the southwest by Blue civil airway No. 5.

§ 601.1238 *Control area extension (Amarillo, Tex.).* All that airspace within a 50-mile radius of the Amarillo radio range station.

§ 601.1239 *Control area extension (Lubbock, Tex.).* All that airspace within a 25-mile radius of the Lubbock radio range station in the southwest, northwest, and northeast quadrants of the radio range and within a 40-mile radius of the radio range station in the southeast quadrant of the radio range.

§ 601.1240 *Control area extension (Tyler, Tex.).* All that airspace within a 25-mile radius of the Tyler, Tex., radio range station including the area between the Dallas, Tex., radio range station and the Shreveport, La., radio range station bounded on the north by Red 10, on the south by Red 68 and on the west by Blue 5.

§ 601.1241 *Control area extension (Tulsa, Okla.).* That airspace within a 25-mile radius of the Tulsa, Okla., radio range station; that airspace southwest of Tulsa bounded on the northwest by VOR civil airway No. 14, on the southeast by VOR civil airway No. 15 and on the southwest by VOR civil airway No. 163; that airspace south of Tulsa bounded on the west and northwest by VOR civil airway No. 15E, on the east and southeast by lines 5 miles east of and parallel to direct lines extending between the Tulsa, Okla., omnirange station, the McAlester, Okla., omnirange station and the Dallas, Tex., omnirange station and on the south by the Sherman, Tex., Perrin AFB control area extension.

§ 601.1242 *Control area extension (Stockton, Calif.).* All that area within a 15-mile radius of the Modesto, Calif., omnirange station; all that area southwest of the Stockton, Calif., radio range station bounded on the west by Blue civil airway No. 7, on the north by Red civil airway No. 60, on the east by Blue civil airway No. 14 and on the south by the northern boundary of the Vernalis restricted area; all that area northwest of the Stockton, Calif., radio range station bounded on the south by Red civil airway No. 60, on the west by Blue civil airway No. 7, on the northwest by Green civil airway No. 3, on the east by Amber civil airway No. 1 and Blue civil airway No. 14, excluding the portion which overlaps the Antioch restricted area.

§ 601.1243 *Control area extension (La Crosse, Wis.).* Within a 25-mile radius of the La Crosse Airport from Green civil airway No. 2 on the southeast course of the La Crosse radio range extending clockwise to Red civil airway No. 36, and all that area within a 15-mile radius of the La Crosse omnirange station.

§ 601.1244 *Control area extension (Terre Haute, Ind.).* Within 5 miles either side of the 2° True radial of the Terre Haute omnirange station extending from the omnirange station to a point 25 miles north, including all that area within a 15 mile radius of the Terre Haute omnirange station.

§ 601.1245 *Control area extension (Port Allen, Kauai, T. H.).* All that area within a radius of 25 miles from the Port Allen radio range station extending clockwise from the north course of the Port Allen radio range to Red civil airway No. 87.

§ 601.1246 *Control area extension (Evansville, Ind.).* All that area within a 15-mile radius of the Evansville omnirange station excluding the portion which overlaps danger areas, and the area within 5 miles either side of a line bearing 37° True extending from the Evansville outer marker to a point 25 miles northeast of the outer marker.

§ 601.1247 *Control area extension (Las Vegas, Nev.).* That airspace bounded on the northwest by Amber civil airway No. 2, on the northeast by Red civil airway No. 15, on the east by Blue civil airway No. 67, and on the south by a line 5 miles south of and parallel to a track of 86° True from the Good Springs, Nev., non-directional radio beacon, and that airspace within 5 miles either side of a line extending from the intersection of the Morman Mesa, Nev., omnirange 192° True radial and the Las Vegas, Nev., omnirange 86° True radial to the intersection of the southeast course of the Las Vegas, Nev., radio range with the north course of the Needles, Calif., radio range.

§ 601.1248 *Control area extension (Richmond, Va.).* That airspace within a 25-mile radius of the Richmond, Va., radio range station, bounded on the southeast by the Norfolk control area extension.

§ 601.1249 *Control area extension (Aberdeen, S. Dak.).* All that area within a 15 mile radius of the Aberdeen omnirange station.

§ 601.1250 *Control area extension (Jamestown, N. Dak.).* All that area within a 15-mile radius of the Jamestown omnirange station including the area within 5 miles either side of the 191° True radial of the omnirange extending from the omnirange station to a point 25 miles south.

§ 601.1251 *Control area extension (Mansfield, Ohio).* All that area within a 15-mile radius of the Mansfield omnirange station including the area within 5 miles either side of the 130° True radial of the omnirange extending from the omnirange station to a point 25 miles southeast including all that area west of the Mansfield omnirange station bounded on the southeast by VOR civil airway No. 88, on the southwest by Red civil airway No. 55 and on the north by Red civil airway No. 17.

§ 601.1252 *Control area extension (Janesville, Wis.).* All that area within a 15-mile radius of the Janesville omnirange station.

§ 601.1253 *Control area extension (Bradford, Ill.).* All that area within a 15-mile radius of the Bradford omnirange station.

§ 601.1254 *Control area extension (Pontiac, Ill.).* All that area within a 15-mile radius of the Pontiac omnirange station.

§ 601.1255 *Control area extension (Findlay, Ohio).* All that area within a 15-mile radius of the Findlay omnirange station.

§ 601.1256 *Control area extension (Pittsburgh, Pa.).* All that airspace within a 35-mile radius of the Pittsburgh, Pa., radio range station.

§ 601.1257 *Control area extension (Goshen, Ind.).* That airspace within a 15-mile radius of the Goshen omnirange station, and the airspace northeast of the omnirange station bounded on the west by Blue civil airway No. 3, on the north by Red civil airway No. 12, on the northeast by Red civil airway No. 57, and on the south by Green civil airway No. 3.

§ 601.1258 *Control area extension (Lafayette, Ind.).* That airspace within 5 miles either side of a line bearing 247° True extending from Purdue University Airport, West Lafayette, Ind., to Blue civil airway No. 34.

§ 601.1259 *Control area extension (Huron, S. Dak.).* All that area within a 15-mile radius of the Huron omnirange station.

§ 601.1260 *Control area extension (Altus, Okla.).* That airspace within a 35-statute-mile radius of the Altus Air Force Base including the airspace bounded on the northwest by VOR civil airway No. 14, on the east by VOR civil airway No. 77 and on the south by Red civil airway No. 10 excluding the airspace which overlaps Fort Sill restricted area (R-208).

§ 601.1261 *Control area extension (Lansing, Mich.).* All that area within a 15-mile radius of the Lansing omnirange station including the area within 5 miles either side of the 232° True radial of the omnirange extending from the omnirange station to a point 25 miles southwest, and within 5 miles either side of the northwest couse of the Lansing radio range extending from the radio range station to Blue civil airway No. 42.

§ 601.1262 *Control area extension (Mason City, Iowa).* All that area within a 15-mile radius of the Mason City omnirange station.

§ 601.1263 *Control area extension (Rochester, Minn.).* That airspace within a 15-mile radius of the Rochester, Minn., omnirange station.

§ 601.1264 *Control area extension (Dyersburg, Tenn.).* Within 5 miles either side of a line bearing 95° True and 275° True extending from the Dyersburg non-directional radio beacon to points 20 miles east and west and within 5 miles either side of the 78° True and 258° True radials of the Dyersburg omnirange extending from the omnirange station to points 20 miles northeast and southwest.

§ 601.1265 *Control area extension (Golva, N. Dak.).* All that area within a 15-mile radius of the Golva omnirange station.

§ 601.1266 *Control area extension (Litchfield, Mich.).* That airspace within a 15-mile radius of the Litchfield, Mich., omnirange station and the airspace southeast of the omnirange station bounded on the north by VOR civil airway No. 10, on the northeast by VOR civil airway No. 45, on the southeast by VOR civil airway No. 98 and on the southwest by VOR civil airway No. 30.

§ 601.1267 *Control area extension (Springfield, Ill.).* All that area within a 15-mile radius of the Springfield omnirange station.

§ 601.1268 *Control area extension (Sioux Falls, S. Dak.).* All that area within a 15-mile radius of the Sioux Falls omnirange station.

§ 601.1269 *Control area extension (Watertown, S. Dak.).* That airspace within a 15-mile radius of the Watertown omnirange station and within 5 miles either side of the 6° True radial of the omnirange extending from the omnirange station to a point 25 miles north of the omnirange station.

§ 601.1270 *Control area extension (Harrisburg, Pa.).* All that area within a 15-mile radius of the Harrisburg omnirange station.

§ 601.1271 *Control area extension (Front Royal, Va.).* All that area within a 15-mile radius of the Front Royal omnirange station.

§ 601.1272 *Control area extension (Baltimore, Md.).* All that area within a 15-mile radius of the Baltimore omnirange station, excluding the portion which overlaps restricted areas.

§ 601.1273 *Control area extension (Syracuse, N. Y.).* All that area within a 15-mile radius of the Syracuse omnirange station.

§ 601.1274 *Control area extension (Niagara Falls, N. Y.).* All that area within 5 miles either side of a direct line extending from the Niagara Falls ILS outer marker to the Dunkirk, N. Y., nondirectional radio beacon, excluding the portion which lies outside the continental United States.

§ 601.1275 *Control area extension (Fairbanks, Alaska).* From the Fairbanks ILS localizer extending 5 miles either side of the localizer course to a point 25 miles northeast of the localizer and within 5 miles either side of the east course of the Fairbanks radio range extending from the radio range station to a point 25 miles east of the Chena, Alaska, nondirectional radio beacon.

§ 601.1276 *Control area extension (Cheyenne, Wyo.).* All that area within a 25-mile radius of the Cheyenne, Wyo., radio range station in the southeast quadrant of the radio range and all that area within 5 miles either side of the 32° True radial of the Cheyenne, Wyo., omnirange station from the omnirange station extending to a point 25 miles northeast.

§ 601.1277 *Control area extension (Denver, Colo.).* All that area within a 25-mile radius of the Denver, Colo., radio range station in the southeast quadrant of the radio range, excluding the portion which overlaps restricted areas and all that area within 5 miles either side of a track bearing 40° True from the Denver, Colo. (Stapleton), ILS outer compass locator extending to a point 25 miles northeast of the ILS outer compass locator, and within 5 miles either side of a track bearing 174° True from the Aurora nondirectional radio beacon to a point 25 miles south of the Aurora nondirectional radio beacon.

§ 601.1278 *Control area extension (Des Moines, Iowa).* All that area within a 25-mile radius of the Des Moines, Iowa, radio range station in the northwest and northeast quadrants of the radio range.

§ 601.1279 *Control area extension (Rapid City, S. Dak.).* All that area within a 25-mile radius of the Rapid City, S. Dak., radio range station in the northwest, northeast and southeast quadrants of the radio range.

§ 601.1280 *Control area extension (Sheridan, Wyo.).* All that area within a 25-mile radius of the Sheridan, Wyo., radio range station in the north and east quadrants of the radio range.

§ 601.1281 *Control area extension (Pueblo, Colo.).* All that area within a 25-mile radius of the Pueblo, Colo., radio range station in the northeast and southeast quadrants of the radio range.

§ 601.1282 *Control area extension (Wichita, Kans.).* All that area bounded on the north by a line 10 miles north of and parallel to the 259° True and 79° True radials of the Emporia, Kans., omnirange, on the east by a line 10 miles east of and parallel to the 209° True and 29° True radials of the Emporia, Kans., omnirange, on the south by a line 10 miles south of and parallel to the 85° True and 265° True radials of the Anthony, Kans., omnirange and on the west by a line 10 miles west of and parallel to the 195° True and 15° True radials of the Hutchinson, Kans., omnirange.

§ 601.1283 *Control area extension (Toledo, Wash.).* From the Toledo, Wash., radio range station extending 5 miles either side of the west course of the Toledo, Wash., radio range to a point 25 miles west of the radio range station, excluding the portion which overlaps restricted areas.

§ 601.1284 *Control area extension (Oklahoma City, Okla.).* That airspace within a 25-mile radius of the Oklahoma City radio range station; that airspace east of Oklahoma City bounded on the northwest by VOR civil airway No. 14 and on the south and southeast by Amber civil airway No. 4; that airspace northeast of Oklahoma City bounded on the west by VOR civil airway No. 77, on the southeast by VOR civil airway No. 14N and on the northeast by VOR civil airway No. 74S.

§ 601.1285 *Control area extension (Shreveport, La.).* All that airspace within a 40-nautical-mile radius of the Barksdale Air Force Base, Shreveport, La., and the airspace between the Shreveport, La., Texarkana, Ark., and Dallas, Tex., radio range stations bounded on the east by Blue civil airway No. 13, on the northwest by Green civil airway No. 5 and on the south by Red civil airway No. 10.

§ 601.1286 *Control area extension (Fort Worth, Tex.).* All that airspace between Waco, Tex., Fort Worth-Dallas, Tex., and Oklahoma City, Okla., bounded on the southeast and east by Blue civil airway No. 5, on the southwest and west by Amber civil airway No. 4 and on the north by the Oklahoma City, Okla., control area extension; all that airspace between Waco, Tex., Fort Worth, Tex., Wichita Falls, Tex., and Abilene, Tex., bounded on the east by Amber civil airway No. 4, on the northeast by Red civil airway No. 10, on the northwest by Blue civil airway No. 6, on the south by Green civil airway No. 5 to Mineral Wells, Tex., thence on the west and southwest by Blue civil airway No. 70, and all that airspace between Fort Worth, Tex., Wichita Falls, Tex., and Oklahoma City, Okla., bounded on the east by Amber civil airway No. 4, on the west by Blue civil airway No. 6, and on the south by VOR civil airway No. 114N.

§ 601.1287 *Control area extension (Houghton, Mich.).* From the Houghton, Mich., radio range station extending 5 miles either side of the north and south courses of the radio range to points 25 miles north and south of the radio range station.

§ 601.1288 *Control area extension (Sault Ste. Marie, Mich.).* Within 5 miles either side of a bearing 330° True extending from the Kinross Airport through the Kinross outer marker to its intersection with the west course of the Sault Ste. Marie, Mich., radio range, and the airspace southeast of Sault Ste. Marie bounded on the northeast by Red civil airway No. 97 and the United States-Canadian Border, on the south by Lat. 46°09'00", and on the west by Blue civil airway No. 3.

§ 601.1289 *Control area extension (Valparaiso, Fla.).* From the Valparaiso, Fla., Eglin AFB radio range station extending 5 miles on the west side and 2 miles on the east side of the north course of the Eglin AFB radio range to Red civil airway No. 30, and extending 5 miles either side of the south course of the radio range to the Eglin AFB Airspace Warning Area.

§ 601.1290 *Control area extension (Joplin, Mo.).* That airspace within a 25-mile radius of the Joplin Airport.

§ 601.1291 *Control area extension (Garden City, Kans.).* Within 5 miles either side of the 120° True radial of the Garden City omnirange extending from the omnirange station to a point 25 miles southeast and within 5 miles either side of the north course of the Garden City radio range extending from the radio range station to a point 25 miles north.

§ 601.1292 *Control area extension (Manakin, Va.).* All that area within 5 miles either side of the northwest course of the Richmond, Va., radio range extending from the intersection of the northwest course of the Richmond, Va., radio range and the southwest course of the Washington, D. C., radio range to a point 15 miles northwest.

§ 60.1293 *Control area extension (Fort Smith, Ark.).* Within 5 miles either side of the 54° True and 234° True radials of the Fort Smith omnirange extending from the Fort Smith Municipal Airport to a point 25 miles northeast of the omnirange station, excluding the portion which overlaps restricted areas.

§ 601.1294 *Control area extension (Everett, Wash.).* All that airspace bounded on the north by a line 5 miles north of and parallel to the east course of the Everett, Wash., radio range, on the northeast by an arc of a circle 5 miles in radius centered on the intersection of the east course of the Everett, Wash., radio range and the northeast course of the Seattle, Wash., radio range, on the southeast by a line 5 miles southeast of and parallel to the northeast course of the Seattle, Wash., radio range, on the south by Green civil airway No. 2 and on the west by Green civil airway No. 10.

§ 601.1295 *Control area extension (Falmouth, Mass.).* All that area within 5 miles either side of a direct line extending from the Otis Air Force Base, Falmouth, Mass., to the Martha's Vineyard Airport and the area within 5 miles either side of a line bearing 180° True from the Martha's Vineyard Airport extending from the airport to New York control area extension No. 1146, excluding the portion which overlaps restricted areas, and that airspace within a 10-mile radius of Otis Air Force Base and within 5 miles either side of a line bearing 42° True extending from the Otis AFB to the western boundaries of restricted area (R–22) and warning area (W–21) excluding the portion which overlaps restricted area (R–14).

§ 601.1296 *Control area extension (Nantucket, Mass.).* That airspace within 5 miles either side of a direct line extending from the Nantucket nondirectional radio beacon to the Martha's Vineyard, Mass., nondirectional radio beacon.

§ 601.1297 *Control area extension (Paducah, Ky.).* All that area within 5 miles either side of a line bearing 220° True extending from the Paducah, Ky., non-directional radio beacon to a point 20 miles southwest.

§ 601.1298 *Control area extension (Promontory Point, Utah).* That airspace bounded on the north by VOR civil airway No. 6, on the east by VOR civil airway No. 21, on the south by VOR civil airway No. 32 and on the west by a line extending from latitude 40°51'30", longitude 112°56'30", to latitude 41°00'00", longitude 112°56'30" to latitude 41°00'00", longitude 112°45'00" to latitude 41°12'25", longitude 112°45'00",

§ 601.1299 *Control area extension (Valdosta, Ga.).* All that area bounded on the north by Latitude 32°00'00", on the east by Amber civil airway No. 6, on the south by Red civil airway No. 30, and on the west by Red civil airway No. 16.

§ 601.1300 *Control area extension (Prescott, Ariz.).* Within 5 miles either side of the northwest course of the Prescott, Ariz., radio range extending from the radio range station to a point 25 miles northwest.

§ 601.1301 *Control area extension (Winslow, Ariz.).* Within 5 miles either side of the north and south courses of the Winslow radio range extending from the radio range station to points 25 miles north and south, and within 5 miles either side of the 314° and 134° True radials of the Winslow omnirange extending from the omnirange station to points 25 miles northwest and southeast.

§ 601.1302 *Control area extension (Lawton, Okla.).* All that area bounded on the west by long. 98°30'00", on the north by the Fort Sill, Okla., restricted area, on the southeast by VOR civil airway No. 77, and on the south by VOR civil airway No. 61.

§ 601.1303 *Control area extension (Albany, N. Y.).* All that area within a 15-mile radius of the Albany, N. Y., omnirange station.

§ 601.1304 *Control area extension (Poughkeepsie, N. Y.).* All that area within a 15-mile radius of the Poughkeepsie, N. Y., omnirange station.

§ 601.1305 *Control area extension (Wilton, Conn.).* All that area within a 15-mile radius of the Wilton, Conn., omnirange station.

§ 601.1306 *Control area extension (Mountain Home, Idaho).* Within 5 miles either side of a direct line extending from the Mountain Home nondirectional radio beacon to the Boise, Idaho, radio range station, and the airspace within a 25-mile radius of the Mountain Home Air Force Base bounded on the northeast by Red civil airway No. 1, excluding the portion which overlaps restricted areas.

§ 601.1307 *Control area extension (Minchumina, Alaska).* Within 5 miles either side of the southeast course of the Minchumina radio range extending from the radio range station to a point 25 miles southeast.

§ 601.1308 *Control area extension (Gustavus, Alaska).* Within 5 miles either side of the northwest course of the Gustavus, Alaska, radio range extending from the radio range station to a point 15 miles northwest.

§ 601.1309 *Control area extension (Kodiak, Alaska).* Within 5 miles either side of the east course of the Kodiak, Alaska radio range extending from the radio range station to a point 25 miles east.

§ 601.1310 *Control area extension (Anchorage, Alaska) (Anchorage-Sandspit route).* All that airspace within 5 miles either side of direct lines between the Whittier, Alaska, Fan Marker, the Middleton Island, Alaska, nondirectional radio beacon and the Sandspit, British Columbia, radio range station extending from the Whittier Fan Marker to the United States-Canadian Border.

§ 601.1311 *Control area extension (Oscoda, Mich.).* That airspace within a 30-mile radius of Wurtsmigh AFB, Oscoda, Mich., excluding the portions which overlap Restricted Areas R–81, R–91 and R–491.

§ 601.1312 *Control area extension (Zanesville, Ohio).* All that airspace within 5 miles either side of a line bearing 30° True and 210° True from the Zanesville nondirectional beacon extending from Green civil airway No. 4 to a point 20 miles southwest of the Zanesville Municipal Airport.

§ 601.1313 *Control area extension (Sioux City, Iowa).* All that airspace within a 25-mile radius of the Sioux City omnirange station extending from the 234° True radial clockwise to the western boundary of Amber civil airway No. 4 and within 5 miles either side of a line bearing 136° True from the Sioux City outer compass locator extending from the outer compass locator to a point 25 miles southeast.

§ 601.1314 *Control area extension (Kirksville, Mo.).* Within 5 miles either side of the 316° True radial of the Kirksville omnirange extending from the omnirange station to a point 25 miles northwest.

§ 601.1315 *Control area extension (Emporia, Kans.).* Within 5 miles either side of the 134° True and 314° True radials of the Emporia omnirange extending from the omnirange station to points 25 miles southeast and northwest.

§ 601.1316 *Control area extension (La Junta, Colo.).* All that airspace northwest of the La Junta radio range station bounded on the northeast by a line 5 miles northeast of and parallel to the northwest course of the La Junta radio range, on the south by VOR civil airway No. 10 and on the west by Amber civil airway No. 3.

§ 601.1317 *Control area extension (Tuscaloosa, Ala.).* Within 5 miles either side of the 60° True radial of the Tuscaloosa omnirange extending from the omnirange station to a point 20 miles northeast.

§ 601.1318 *Control area extension (Muscle Shoals, Ala.).* Within 5 miles either side of the 118° True and 298° True radials of the Muscle Shoals omnirange extending from the omnirange station to points 20 miles southeast and northwest.

§ 601.1319 *Control area extension (Key West, Fla.).* Within 5 miles either side of the 313° True radial of the Key West omnirange extending from the omnirange station to Warning Area W–174 and within 5 miles either side of the west course of the Key West radio range extending from the radio range station to Warning Area W–174.

§ 601.1320 *Control area extension (Cross City, Fla.).* Within 5 miles either side of the 118° True radial of the Cross City omnirange extending from the omnirange station to a point 20 miles southeast.

§ 601.1321 *Control area extension (Brunswick, Ga.).* Within 5 miles either side of the 293° True radial of the Brunswick omnirange extending from the omnirange station to a point 20 miles northwest.

§ 601.1322 *Control area extension (Alice, Tex.).* All that airspace within a 35-mile radius of the Alice, Tex., radio range station excluding the portion which overlaps restricted areas.

§ 601.1323 *Control area extension (Dallas, Tex.) (Dallas-Houston-Austin area).* All that airspace bounded on the northeast by a line 5 miles east of and parallel to a direct line from the Dallas, Tex., radio range station to the Houston, Tex., radio range station, on the east by Red civil airway No. 96, on the southwest by Red civil airway No. 32, and on the northwest by Amber civil airway No. 4 to the Waco, Tex., radio range station and by Blue civil airway No. 5 to the Dallas, Tex., radio range station.

§ 601.1324 *Control area extension (Brunswick, Maine).* That airspace bounded on the west by Amber civil airway No. 7, on the north by Blue civil airway No. 84, on the east by long. 69°15'00", on the south by Warning Area W–103, on the southwest by a line 5 miles northeast of and parallel to the southeast course of the Portland, Maine, radio range.

§ 601.1325 *Control area extension (Tampa, Fla.).* All that airspace within a radius of 50 statute miles of the Tampa, Fla., radio range station, excluding the portions which overlap restricted areas and airspace warning areas, and including the area bounded on the northeast by a line 5 miles northeast of and parallel to a line extending from the intersection of the north course of the Tampa, Fla., radio range and the southeast course of the Cross City, Fla., radio range to the intersection of the southeast course of the Tampa, Fla., radio range and a line bearing 45° True from the Fort Myers, Fla., nondirectional radio beacon, on the southeast by the Fort Myers, Fla., control area extension, on the west by direct lines extending from the Fort Myers, Fla., nondirectional radio beacon to the Tampa, Fla., omnirange station thence to the point of beginning.

§ 601.1326 *Control area extension (Fortuna, Calif.).* Within 5 miles either side of the 18° True radial of the Fortuna omnirange extending from the omnirange station to a point 30 miles northeast.

§ 601.1327 *Control area extension (Crescent City, Calif.).* Within 5 miles either side of the 330° True and 235° True radials of the Crescent City omnirange extending from the omnirange station to points 20 miles northwest and southwest.

§ 601.1328 *Control area extension (Oxnard, Calif.).* All that airspace bounded on the northeast by Amber civil airway No. 8, on the east by Longitude 119°11'30", on the south by a line 2 miles north of and parallel to the Point Magu Warning Area (W–289), on the west by Longitude 120°00'00" and on the northwest by Control Area Extension No. 1176, excluding the airspace below 4000 feet MSL lying within the Santa Cruz Island Warning Area (W–412).

§ 601.1329 *Control area extension (Malden, Mo.).* Within 5 miles either side of the 120° True and 300° True radials of the Malden, Mo., omnirange extending from the omnirange station to points 25 miles southeast and northwest.

§ 601.1330 *Control area extension (Sherman, Tex.).* That airspace within a 70-mile radius of Perrin AFB, Sherman, Tex., bounded on the south by Green civil airway No. 5 and on the west and northwest by VOR civil airway No. 15 including the airspace within a 15-mile radius of Cox Field, Paris, Tex., and the airspace bounded on the east by a line 5 miles east of and parallel to a straight line extending from the Sulphur Springs, Tex., omnirange station to the McAlester, Okla., omnirange station, and on the northwest by the Tulsa, Okla., control area extension.

§ 601.1331 *Control area extension (Tacoma, Wash.).* That airspace within a 40-nautical-mile radius of McChord Air Force Base and within 5 miles either side of the east course of the Toledo, Wash., radio range extending from the radio range station to a point 20 miles east, excluding the portions which overlap Hood Canal Caution Area (C–243) and the Fort Lewis Restricted Area (R–244), excluding the portion which conflicts with Olympic Peninsula Restricted Area (R–241) and excluding the portion which overlaps VOR civil airway No. 27.

§ 601.1332 *Control area extension (Santa Maria, Calif.).* From the intersection of the Paso Robles, Calif., omnirange 169° True radial and the Santa Barbara, Calif., omnirange 304° True radial extending 5 miles either side of the Santa Barbara omnirange 304° True radial to a point 20 miles northwest and extending 5 miles either side of the Paso Robles omnirange 169° True radial to the northern boundary of control area extension No. 1176.

§ 601.1333 *Control area extension (Nome, Alaska).* Within 5 miles either side of the west and southwest courses of the Nome, Alaska, radio range extending from the radio range station to points 25 miles west and southwest.

§ 601.1334 *Control area extension (Del Rio, Tex.).* That airspace over United States Territory within a 25-mile radius of Laughlin Air Force Base, Del Rio, Tex., excluding the portions which overlap Laughlin AFB Restricted Area (R–427) and Del Rio Restricted Area (R–425).

§ 601.1335 *Control area extension (Lafayette, La.).* Within 5 miles either side of the 352° True radial of the Lafayette omnirange extending from the omnirange station to a point 15 miles north, and within 5 miles either side of a line bearing 7° True from the Lafayette non-directional radio beacon extending from the beacon to a point 15 miles north, and the airspace east of Lafayette bounded on the northwest by Red civil airway No. 96, on the northeast by VOR civil airway No. 114 and on the south by Green civil airway No. 6.

§ 601.1336 *Control area extension (Eau Claire, Wis.).* That airspace within a 15-mile radius of the Eau Claire omnirange station and within 5 miles either side of the 04° True radial of the omnirange extending from the omnirange station to a point 20 miles north.

§ 601.1337 *Control area extension (Wausau, Wis.).* That airspace within a 15-mile radius of the Wausau omnirange station including the airspace southeast of the omnirange station bounded on the northeast by VOR civil airway No. 26S, on the south by lat. 44° 30'00", and on the west by a line 5 miles west of and parallel to the 166° True radial of the Wausau omnirange station.

§ 601.1338 *Control area extension (Green Bay, Wis.).* That airspace within a 15-mile radius of the Green Bay omnirange station and within 5 miles either side of the 322° True radial of the Green Bay omnirange extending from the omnirange station to a point 20 miles northwest.

§ 601.1339 *Control area extension (Oshkosh, Wis.).* All that airspace bounded on the east by VOR civil airway No. 7, on the south by the arc of a circle with a radius of 50 miles from the Green Bay, Wis., omnirange station, and on the west by a line 5 miles west of and parallel to the Green Bay omnirange 207° True radial.

§ 601.1340 *Control area extension (Miles City, Mont.).* Within 5 miles either side of the northwest course of the Miles City, Mont., radio range extending from the radio range station to a point 30 miles northwest.

§ 601.1341 *Control area extension (Dover, Del.).* That airspace southeast of Dover bounded on the north by Red civil airway No. 77, on the east by Blue civil airway No. 49, on the southeast by VOR civil airway No. 1 and on the west by VOR civil airway No. 29 excluding the portion which overlaps restricted area (R–12) and caution area C–53; that airspace southwest of Dover within a 25-mile radius of the Dover omnirange station bounded on the northwest by VOR civil airway No. 16 and on the southeast by Red civil airway No. 77.

§ 601.1342 *Control area extension (Sanford, Fla.).* That airspace bounded on the north by latitude 29°00'00", on the east by longitude 81°15'00", on the south by latitude 28°30'00", on the west by longitude 82°00'00".

§ 601.1343 *Control area extension (Juneau, Alaska).* That airspace within a 5-mile radius of the Juneau Airport, within 5 miles either side of direct lines extending from the Juneau Airport via the Mendenhall nondirectional radio beacon to the Sisters Island nondirectional beacon, from the Sisters Island nondirectional radio beacon to the Point Retreat nondirectional radio beacon, from the Point Retreat nondirectional radio beacon to the Juneau Airport and from the Point Retreat nondirectional radio beacon to the Haines, Alaska nondirectional radio beacon.

§ 601.1344 *Control area extension (Laconia, N. H.).* Within 5 miles either side of a line bearing 244° True from the Laconia, N. H., nondirectional radio beacon extending from the nondirectional radio beacon to Blue civil airway No. 4.

§ 601.1345 *Control area extension (Rockland, Maine).* Within 5 miles either side of a 195° True bearing extending from the Rockland Airport to a point 10 miles south of the Rockland nondirectional radio beacon.

§ 601.1346 *Control area extension (Bar Harbor, Maine).* Within 5 miles either side of a 21° True bearing extending from the Bar Harbor Airport to a point 10 miles northeast of the Bar Harbor nondirectional radio beacon.

§ 601.1347 *Control area extension (Colorado Springs, Colo.).* That airspace lying east of Amber civil airway No. 3 within a 25-mile radius of Peterson Municipal Airport, Colorado Springs, Colo.

§ 601.1348 *Control area extension (Twin Falls, Idaho).* Within 5 miles either side of the 278° True radial of the Twin Falls omnirange extending from the omnirange station to a point 15 miles west.

§ 601.1349 *Control area extension (Redmond, Oreg.).* Within 5 miles either side of the northwest course of the Redmond radio range extending from the radio range station to a point 17 miles northwest.

§ 601.1350 *Control area extension (Kodiak, Alaska).* Within 5 miles either side of the south course of the Kodiak radio range extending from the radio range station to a point 20 miles south.

§ 601.1351 *Control area extension (Philadelphia, Pa.).* That airspace within a 25 mile radius of the Philadelphia International Airport.

§ 601.1352 *Control area extension (Sedalia, Mo.).* That airspace within a 35-mile radius of Whiteman AFB bounded on the north by VOR civil airway No. 4–S, excluding the portion northwest of Sedalia bounded on the north by VOR civil airway No. 4–S, on the east by Long. 93°45'00", on the south by Lat. 38°45'00" and on the west by the Kansas City control area extension, and excluding the portion northeast of Sedalia bounded on the north by VOR civil airway No. 4–S, on the east by Long. 93°00'00", on the south by Lat. 38°45'00" and on the west by Long. 93°15'00".

§ 601.1353 *Control area extension (Charleston, W. Va.).* That airspace within a 30-mile radius of Kanawha County Airport, Charleston, W. Va.

§ 601.1354 *Control area extension (Salem, Oreg.).* Within 5 miles either side of a line bearing 150° True from the Salem-McNary Airport extending from the airport to a point 25 miles southeast.

§ 601.1355 *Control area extension (Berlin, N. H.).* Within 5 miles either side of a line bearing 334° True extending from the Berlin Airport to a point 10 miles northwest.

§ 601.1356 *Control area extension (Greenville, Miss.).* That airspace within a 25-mile radius of the Greenville, Miss., AFB nondirectional radio beacon.

§ 601.1357 *Control area extension (Fallon, Nev.).* Within a 10-mile radius of the Fallon, Nev., radio range station excluding the portion which overlaps Fallon restricted area (R–268), and within 5 miles either side of the north course of the Fallon radio range extending from the radio range station to a point 25 miles north.

§ 601.1358 *Control area extension (Midway Island).* All of the airspace from 700 feet upward within a radius of 25 nautical miles of the Midway Naval Station centered at Lat. 28°12'00" N., Long. 177°22'00" W.

§ 601.1359 *Control area extension (Childress, Tex.).* Within 5 miles either side of the 182° True radial of the Childress omnirange extending from the omnirange station to a point 15 miles south.

§ 601.1360 *Control area extension (Abilene, Tex.).* Within 5 miles either side of the 292° True radial of the Abilene omnirange extending from the omnirange station to a point 10 miles west.

§ 601.1361 *Control area extension (Cotulla, Tex.).* Within 5 miles either side of lines bearing 140° True and 320° True from the Cotulla nondirectional radio beacon extending from VOR civil airway No. 17 to a point 10 miles northwest of the nondirectional radio beacon.

§ 601.1362 *Control area extension (Dalhart, Tex.).* Within 5 miles either side of the 04° True radial of the Dalhart omnirange extending from the omnirange station to a point 10 miles north.

§ 601.1363 *Control area extension (Lufkin, Tex.).* Within 5 miles either side of the 157° True radial of the Lufkin omnirange extending from the omnirange station to a point 10 miles southeast, and within 5 miles either side of a line bearing 304° True extending from the Lufkin nondirectional radio beacon to a point 10 miles northwest.

§ 601.1364 *Control area extension (Texarkana, Ark.).* Within 5 miles either side of the 332° True radial of the Texarkana omnirange extending from the omnirange station to a point 10 miles northwest.

§ 601.1365 *Control area extension (Walnut Ridge, Ark.).* Within 5 miles either side of the 244° True radial of the Walnut Ridge omnirange extending from the omnirange station to a point 10 miles southwest.

§ 601.1366 *Control area extension (Gage, Okla.).* Within 5 miles either side of the 299° True radial of the Gage omnirange extending from the omnirange station to a point 20 miles northwest.

§ 601.1367 *Control area extension (Wink, Tex.).* That airspace south of Wink bounded by lines beginning at Lat. 31°30'00", Long. 102°47'00" thence southwestward to Lat. 31°24'00", Long. 103°01'40" thence northwestward to Lat. 31°30'00", Long. 103°07'00" and bounded on the north by VOR civil airway No. 66; that airspace northwest of Wink bounded on the east by VOR civil airway No. 79, on the south by VOR civil airway No. 16N and on the northwest by the arc of a circle lying within a 20 mile radius of the Wink omnirange station.

§ 601.1368 *Control area extension (Greensboro, N. C.).* That airspace southeast of Greensboro bounded on the south by Lat. 35°19'00", on the northwest by the Greenville-Charlotte-Greensboro control area extension, on the northeast by Red civil airway No. 104 and on the southeast by a line extending from a point at Lat. 35°32'00", Long. 79°05'20" to a point at Lat. 35° 19'00", Long. 79°23'30".

§ 601.1369 *Control area extension (Myrtle Beach, S. C.).* Within 5 miles either side of a line bearing 198° True extending from the Myrtle Beach nondirectional radio beacon to a point 10 miles south.

§ 601.1370 *Control area extension (Wilmington, N. C.).* Within 5 miles either side of a line bearing 337° True extending from the Wilmington nondirectional radio beacon to a point 10 miles northwest and within 5 miles either side of a line bearing 159° True extending from the Wilmington ILS middle marker to a point 15 miles southeast of the middle marker.

§ 601.1371 *Control area extension (Hyannis, Mass.).* Within 2 miles either side of a line bearing 48° True extending from the Barnstable Airport, Hyannis, Mass., to a point 10 miles northeast.

§ 601.1372 *Control area extension (Los Angeles, Calif.).* That airspace bounded by lines extending from a point at the intersection of Amber civil airway No. 8 and longitude 119°03'30", thence south to the intersection of Warning Area W–290 and longitude 119°03'30", thence east and south along the boundary of Warning Area W–290 to latitude 33°24'35", longitude 118°37'00", thence southeast to latitude 33°18'00", longitude 118°28'00", thence east along the north boundary of Warning Area W–291 to latitude 33°10'00", longitude 117° 30'00", thence east along latitude 33°10'00" to the United States coastline, thence northwestward along the coastline to the southern boundary of Amber civil airway No. 8, thence west and northwest to point of beginning.

§ 601.1373 *Control area extension (Chattanooga, Tenn.).* That airspace within a 30-mile radius of the Chattanooga radio range station.

§ 601.1374 *Control area extension (Limestone, Maine).* That airspace over United States territory within a 40-mile radius of Loring Air Force Base, Limestone, Maine, excluding the portion which overlaps Restricted Area (R–80).

§ 601.1375 *Control area extension (Manchester, N. H.).* That airspace within a 10-mile radius of Grenier Air Force Base, Manchester, N. H., excluding the portion which overlaps Restricted Area (R–48).

§ 601.1376 *Control area extension (Victoria, Tex.).* That airspace within a 25-mile radius of Foster Air Force Base, Victoria, Tex., including the airspace south of the Air Force Base bounded on the southwest by the Corpus Christi, Tex., control area extension and on the southeast by VOR civil airway No. 20. The portion of this control area which overlaps the Foster AFB Restricted Area R–492 is excluded.

§ 601.1377 *Control area extension (Boston, Mass.).* That airspace northeast of Boston within a 25-mile radius of the Boston radio range station bounded on the west by Amber civil airway No. 7, on the southeast by Boston control area extension No. 1141 and on the south by Red civil airway No. 11; that airspace southeast of Boston within a 25-mile radius of the Boston radio range station bounded on the north by Boston control area extension No. 1142, on the southwest by VOR civil airway No. 141 and on the northwest by Red civil airway No. 21.

§ 601.1378 *Control area extension (Wilmington, Del.).* That airspace within a 20-mile radius of the New Castle radio range station lying in the southeast and southwest quadrants of the radio range.

§ 601.1379 *Control area extension (Waterloo, Iowa).* That airspace within a 15-mile radius of the Waterloo Municipal Airport.

§ 601.1380 *Control area extension (Johnston Island).* All of the airspace from 700 feet upwards within a radius of 100 nautical miles centered on the Johnston Island nondirectional radio beacon at lat. 16°45'00" N., long. 169°30'00" W.

§ 601.1381 *Control area extension (Kwajalein Island).* All of the airspace from 700 feet upwards within a radius of 100 nautical miles of the Kwajalein nondirectional radio beacon at lat. 8°45'00" N., long. 167°45'00" E., extending clockwise from a true bearing of 270° from the nondirectional radio beacon, and within a radius of 25 nautical miles of the Kwajalein nondirectional radio beacon extending clockwise from a true bearing of 180° from the nondirectional radio beacon to a true bearing of 270° from the nondirectional radio beacon excluding the portions which overlap Airspace Warning Areas W–448, W–445 and W–450.

§ 601.1382 *Control area extension (Wake Island).* All of the airspace from 700 feet upwards within a radius of 100 nautical miles centered on the Wake Island nondirectional radio beacon at lat. 19°18'00" N., long. 166°39'00" E.

§ 601.1383 *Control area extension (Guam Island).* All of the airspace from 700 feet upwards within a radius of 100 nautical miles of the Guam radio range station extending clockwise from the west course of the radio range to the southeast course of the radio range and within a radius of 25 nautical miles of the Guam radio range extending clockwise from the southeast course of the radio range to the west course of the radio range, excluding the portions which overlap restricted areas R–474 and R–478 and warning areas W–473, W–475 and W–479.

§ 601.1384 *Control area extension (Hopkinsville, Ky.).* That airspace in the vicinity of Campbell AFB, Hopkinsville, Ky., bounded on the east by VOR civil airway No. 7, on the south by a line from a point at latitude 36°29'40", longitude 86°50'20" to a point at latitude 36°16'40", longitude 87°26'15", on the west by the arc of a circle 25 miles in radius centered on the Campbell AFB nondirectional radio beacon clockwise to a point at latitude 36°59'20", longitude 87°33'30", thence on the north via a direct line from that point to a point at latitude 37°00'20", longitude 87°04'30", excluding the portion which overlaps Campbell Restricted Area R–63.

§ 601.1385 *Control area extension (Rome, N. Y.).* That airspace within a 40 mile radius of Griffis AFB, Rome, N. Y., bounded on the south by Green civil airway No. 2 and Red civil airway No. 22.

§ 601.1386 *Control area extension (Orlando, Fla.).* That airspace within 5 miles either side of the 71° True radial of the Orlando omnirange extending from Amber civil airway No. 7 to the Wilmington, N. C. Control area extension (601.1150), excluding the airspace below 14,000 feet mean sea level.

§ 601.1387 *Control area extension (Fayetteville, N. C.).* Within 5 miles either side of a 93° True bearing extending from the Fayetteville nondirectional radio beacon to a point 12 miles east.

§ 601.1388 *Control area extension (Fort Bragg, N. C.).* Within a 15 mile radius of Pope AFB bounded on the east by VOR civil airway No. 3 and Amber civil airway No. 7, excluding the portion which overlaps the Fort Bragg Restricted Area (R–115).

§ 601.1389 *Control area extension (Miami, Fla.).* Within 5 miles either side of the 023° True radial of the Miami, Fla., omnirange extending from Amber civil airway No. 7 and VOR civil airway

No. 3 via the intersection of the Miami omnirange 023° True radial and the Vero Beach, Fla., omnirange 143° True radial to the intersection of the Vero Beach omnirange 143° True radial with the Wilmington, N. C., control area extension (601.1150).

§ 601.1390 *Control area extension (Oahu-Molokai, T. H.).* All of the airspace from 700 feet upwards bounded by a line extending from lat. 21°26'00" N., long. 157°37'45" W., to lat. 21°55'00" N. long. 156°42'45" W. to lat. 21°10'00" N., long. 157°26'15" W., to lat 21°14'30" N., long. 157°36'15" to point of beginning including Hawaiian VOR civil airway No. 7.

§ 601.1391 *Control area extension (Gettysburg, Pa.).* That airspace within a 5-mile radius of the Gettysburg Airport and within 5 miles either side of the 180° True radial of the Gettysburg terminal omnirange extending from the terminal omnirange station to VOR civil airway No. 223.

§ 601.1392 *Control area extension (Ogden, Utah).* That airspace northeast of Ogden bounded on the north by Red civil airway No. 108, on the south by Green civil airway No. 3 and on the west by Amber civil airway No. 2.

§ 601.1400 *Control area extension (King Salmon, Alaska) (King Salmon-Shemya route).* That airspace within 5 miles either side of a line bearing 263° True from the King Salmon, Alaska, radio range station extending to a point 50 miles west of the King Salmon radio range station.

§ 601.1401 *Control area extension (King Salmon, Alaska) (King Salmon-Adak route).* That airspace within 5 miles either side of a line bearing 248° True from the King Salmon, Alaska, radio range station extending to a point 50 miles southwest of the King Salmon radio range station.

SUBPART D—CONTROL ZONES

§ 601.1981 *Scope of control zones.* Each control zone shall include the navigable air space above all that area on the surface of the earth lying within the specified radius of the center points prescribed for such zone (except where otherwise described in this part), but shall not include any of the air space of an air-space reservation.

§ 601.1982 *Designation of control zones.* The portions of the navigable airspace of the United States described in Subpart D are designated as control zones.

§ 601.1983 *Three mile radius zones.* Within a 3 mile radius of the following airports:

Altoona, Pa.: Altoona-Blair County Airport.
Baker, Oreg.: Baker Municipal Airport.
Bellingham, Wash.: Bellingham Municipal Airport.
Blackstone, Va.: Blackstone AAF.
Bozeman, Mont.: Gallatin-Bozeman Municipal Airport.
Burley, Idaho: Burley Municipal Airport.
Butte, Mont.: Butte Municipal Airport.
Columbus, N. Mex.: CAA intermediate field excluding the portion which lies outside the continental United States.
Crows Landing, Calif.: Navy ALF.
Cut Bank, Mont.: Cut Bank Municipal Airport.
Daggett, Calif.: Daggett Municipal Airport.
Dillon, Mont.: Dillon intermediate field.
Dubois, Idaho: Dubois intermediate field.
Ellensburg, Wash.: Bowers Field.
El Morro, N. Mex.: CAA intermediate field.
Ephrata, Wash.: Ephrata Municipal Airport.
Eugene, Oreg.: Mahlen-Sweet Airport.
Everett, Wash.: Paine AFB.
Glendale, Calif.: Grand Central Airport.
Helena, Mont.: Helena Municipal Airport.
Klamath Falls, Oreg.: Klamath Falls Municipal Airport.
Lakehurst, N. J.: Naval Air Station.
Lewistown, Mont.: Lewistown Municipal Airport.
Miles City, Mont.: Miles City Municipal Airport.
Missoula, Mont.: Missoula County Airport.
Monterey, Calif.: Monterey Peninsula Airport.
Needles, Calif.: Needles Airport.
Niagara Falls, N. Y.: Municipal Airport.
Paso Robles, Calif.: Paso Robles County Airport.
Pendleton, Oreg.: Pendleton Municipal Airport.
Pocatello, Idaho: Phillips Airport.
Redmond, Oreg.: Redmond-Roberts Field.
Santa Monica, Calif.: Santa Monica Municipal Airport.
Santa Rosa, Calif.: Santa Rosa ALF.
Schenectady, N. Y.: Schenectady Airport.
The Dalles, Oreg.: The Dalles Municipal Airport.
Toledo, Wash.: Toledo-Winlock Airport.
Yakima, Wash.: Yakima Municipal Airport.

§ 601.1984 *Five mile radius zones.* Within a 5 mile radius of the following airports:

Altus, Okla.: Altus Air Force Base.
Aniak, Alaska: Aniak Airport.
Annette Island, Alaska: Annette Island Airport.
Arcata, Calif.: Arcata Airport.
Atlanta, Ga.: Naval Air Station.
Bedford, Mass.: Lawrence G. Hanscom Field.
Bendix, N. J.: Teterboro Air Terminal.
Bethel, Alaska: Bethel Airport.
Bettles, Alaska: Bettles Airport.
Big Delta, Alaska: Big Delta Airport.
Billings, Mont.: Billings Municipal Airport.
Blythe, Calif.: Blythe Airport.
Boise, Idaho: Boise Air Terminal.
Bridgeport, Conn.: Bridgeport Muncipal Airport.
Chandler, Ariz.: Williams AFB.
Crescent City, Calif.: Del Norte County Airport.
Delta, Utah: Delta Airport.
Elkins, W. Va.: Elkins Airport.
Elko, Nev.: Elko Airport.
Elmira, N. Y.: Chemung County Airport.
Fairbanks, Alaska: Eielson Air Force Base.
Fallon, Nev.: Fallon NAAS.
Farewell, Alaska: Farewell Airport.
Galena, Alaska: Galena Airport.
Glens Falls, N. Y.: Warren County Airport.
Greenville, Miss.: Greenville AFB.
Gulkana, Alaska: Gulkana Airport.
Gustavus, Alaska: Gustavus Airport.
Homer, Alaska: Homer Airport.
Houlton, Maine: Houlton Airport.
Idaho Falls, Idaho: Idaho Falls Airport.
Iliamna, Alaska: Iliamna Airport.
Islip, N. Y.: MacArthur Field.
Kenai, Alaska: Kenai Airport.
King Salmon, Alaska: King Salmon Airport.
Kotzebue, Alaska: Wien Memorial Airport.
Las Vegas, N. Mex.: Las Vegas Airport.
Lihue, Kauai, T. H.: Lihue Airport.
Lucin, Utah: CAA intermediate field.
Lynchburg, Va.: Preston Glann Airport.
Massena, N. Y.: Massena Municipal Airport.
McGrath, Alaska: McGrath Airport.
Medford, Oreg.: Medford Municipal Airport.
Memphis, Tenn.: Naval Air Station.
Minchumina, Alaska: Minchumina, Airport.
Mobile, Ala.: Brooklyn Air Force Base.
Moses Lake, Wash.: Larson AFB.
Moses Point, Alaska: Moses Point Airport.
Mountain Home, Idaho: Mountain Home AFB.
Mountain View, Calif.: Moffett NAS.
Nenana, Alaska: Nenana Airport.
Newburgh, N. Y.: Stewart AFB.
New Orleans, La.: New Orleans Airport.
Nome, Alaska: Nome Airport.
Northway, Alaska: Northway Airport.
Otto, N. Mex.: CAA intermediate field.
Philipsburg, Pa.: Philipsburg Airport.
Phoenix, Ariz.: Luke AFB.
Plattsburg, N. Y.: Plattsburg Municipal Airport.
Portland, Oreg.: Portland International Airport.
Pulaski, Va.: Leving Field.
Reading, Pa.: Reading Municipal Airport.
Red Bluff, Calif.: Red Bluff Municipal (Bidwell, Field).
Reno, Nev.: United Air Lines Airport.
Reno, Nev.: Stead AFB.
Roanoke, Va.: Woodrum Field.
Rome, N. Y.: Griffiss AFB.
Salinas, Calif.: Salinas Airport.
Salisbury, Md.: Wicomico County Airport.
Salt Flat, Tex.: CAA intermediate field.
San Marcos, Tex.: San Marcos Air Force Base.
San Rafael, Calif.: Hamilton AFB.
Santa Fe., N. Mex.; Santa Fe Airport.
Seattle, Wash.: Boeing Field.
Seattle, Wash.: Seattle-Takoma International Airport.
Sherman, Tex.: Perrin AFB.
Shreveport, La.: Greater Shreveport Municipal Airport.
Skwentna, Alaska: Skwentna Airport.
Summit, Alaska: Summit Airport.
Tanana, Alaska: Tanana Airport.
Tucumcari, N. Mex.: Tucumcari Airport.
Unalakleet, Alaska: Unalakleet Airport.
Walla Walla, Wash.: Walla Walla City-County Airport.
Watertown, N. Y.: Watertown Municipal Airport.
Wendover, Utah: Wendover AFB.
Westfield, Mass.: Barnes Airport.
Westhampton Beach, Long Island, N. Y.: Suffolk County Air Force Base.
Wilkes-Barre, Pa.: Wilkes-Barre-Scranton Airport.
Wink, Tex.: Wink Airport.
Winslow, Ariz.: Winslow Airport.
Worcester, Mass.: Worcester Airport.
Yakutat, Alaska: Yakutat Airport.
Yuma, Ariz.: Yuma County Airport.

ADDITIONAL CONTROL ZONES

§ 601.2001 *Albany, N. Y., control zone.* Within a 5-mile radius of the Albany Municipal Airport and within 2 miles either side of the north course of Albany radio range extending 10 miles from the radio range station.

§ 601.2002 *Augusta, Maine, control zone.* Within a 5-mile radius of the Augusta State Airport and within 2 miles either side of the southwest course of Augusta radio range extending 10 miles from the radio range station.

§ 601.2003 *Baltimore, Md., control zone.* Within a 5-mile radius of Harbor Field, Baltimore, Md., extending 5 miles either side of the south course of the Baltimore, Md., radio range to a point 10 miles south of the radio range station.

§ 601.2004 *Bangor, Maine, control zone.* Within a 5-mile radius of Dow Air Force Base, Bangor, Maine, within 2 miles either side of the northwest course of the Bangor radio range extending from the radio range station to the East Corinth fan marker, within 2 miles either side of a line bearing 314° True extending from Dow Air Force Base to a point 15 miles northwest of the Air Force Base, and within 2 miles either side of a line bearing 356° True extending from Dow AFB to a point 10 miles north of the Bangor omnirange station.

§ 601.2005 *Boston, Mass., control zone.* Within a 5-mile radius of Logan International Airport; within 2 miles either side of the north course of the Boston radio range extending from the radio range station to a point 10 miles north, and within 2 miles either side of the ILS localizer course extending from the airport to a point 10 miles beyond the outer marker.

§ 601.2006 *Buffalo, N. Y., control zone.* Within a 5-mile radius of the Municipal Airport extending 2 miles either side of the northeast course of the Buffalo, N. Y., radio range to the Walcottsville fan marker, within 2 miles either side of the southwest course of the Buffalo radio range to the Angola fan marker, and within 2 miles either side of the east course of the Buffalo radio range to the East Pembroke fan marker.

§ 601.2007 *Burlington, Vt., control zone.* Within a 5-mile radius of the Burlington Municipal Airport and within 2 miles either side of the northwest course of Burlington radio range extending to the Grand Isle fan marker.

§ 601.2008 *Concord, N. H., control zone.* Within a 5-mile radius of the Concord Municipal Airport and within 2 miles either side of the southeast course of Concord radio range extending 10 miles from the radio range station.

§ 601.2009 *Erie, Pa., control zone.* Within a 5-mile radius of Port Erie Airport and within 2 miles either side of the southwest course of Erie radio range extending to the North Springfield fan marker.

§ 601.2010 *Harrisburg, Pa., control zone.* Within a 5-mile radius of Harrisburg State Airport and within 2 miles either side of the east and west courses of Harrisburg radio range extending 10 miles east and west of the radio range station.

§ 601.2011 *Hartford, Conn., control zone.* Within a 5-mile radius of Brainard Field and within 2 miles either side of the southeast course of Hartford radio range extending 10 miles from the radio range station.

§ 601.2012 *Millinocket, Maine, control zone.* Within a 5-mile radius of Millinocket Municipal Airport and within 2 miles either side of the east course of Millinocket radio range extending 10 miles from the radio range station.

§ 601.2013 *Newark, N. J., control zone.* Within a 5-mile radius of Newark Municipal Airport and within 2 miles either side of the southwest course of the Newark radio range extending from the radio range station to a point 12 miles southwest.

§ 601.2014 *Norfolk, Va., control zone.* Within a 5-mile radius of Norfolk Municipal Airport and within 2 miles either side of the southwest course of Norfolk radio range extending to the Deep Creek fan marker.

§ 601.2015 *Philadelphia, Pa., control zone.* Within a 5-mile radius of the Philadelphia International Airport and within 2 miles either side of the west course of the Philadelphia radio range extending to the Boothwyn fan marker.

§ 601.2016 *Wheeling, W. Va., control zone.* Within a 5-mile radius of Wheeling-Ohio County Airport, within 2 miles either side of the centerline of the northeast-southwest runway extended through the outer compass locator to a point 10 miles southwest of the airport, and within 2 miles either side of a direct line extending from the airport to the Wheeling omnirange station.

§ 601.2017 *Pittsburgh, Pa., control zone.* Within a 5-mile radius of Allegheny County Airport, Pittsburgh, Pa., and within 2 miles either side of a direct line extending from the Allegheny County Airport to the Cecil, Pa., nondirectional radio beacon.

§ 601.2018 *Portland, Maine, control zone.* Within a 5-mile radius of Portland Municipal Airport and within 2 miles either side of the northwest course of Portland radio range extending 10 miles from the radio range station.

§ 601.2019 *Providence, R. I., control zone.* Within a 5-mile radius of the Theodore Francis Green Airport extending 2 miles either side of the southwest course of the Providence radio range to a point 14 miles southwest of the radio range station.

§ 601.2020 *Richmond, Va., control zone.* Within a 5-mile radius of Byrd Field, Richmond, Va., extending 2 miles either side of the southwest course of the Richmond, Va., radio range to the Chester fan marker, and extending 2 miles either side of the ILS localizer course to a point 10 miles southwest of the ILS outer marker and to a point 10 miles northeast of the ILS middle marker.

§ 601.2021 *Rochester, N. Y., control zone.* Within a 5-mile radius of the Rochester Municipal Airport and within 2 miles either side of the east course of Rochester radio range extending 10 miles from the radio range station.

§ 601.2022 *Washington, D. C., control zone.* Within a 5-mile radius of the Washington National Airport (excluding the portion overlapping the Washington Airspace Reservation) and extending to include the segment of a circle 15 miles in radius centered on the Washington National Airport bounded on the west by a line 2 miles west of the southwest course of the Washington radio range and on the east by a line 2 miles east of the ILS localizer course, and further extending 2 miles on the east side and 4 miles on the west side of the northeast course of the Washington radio range to the Riverdale, Md., non-directional radio beacon.

§ 601.2023 *Albuquerque, N. Mex., control zone.* Within a 5-mile radius of Kirtland AFB, within 2 miles either side of the south course of the Albuquerque radio range extending to the Peralta fan marker, within 2 miles either side of a line bearing 352°–172° True through the Alameda nondirectional radio beacon extending from the 5-mile radius control zone boundary to a point 10 miles north of the Alameda nondirectional radio beacon and within 2 miles either side of the 91° and 271° True radials of the Albuquerque omnirange extending from the 5-mile radius control zone boundary to a point 10 miles west of the omnirange station.

§ 601.2024 *Amarillo, Tex., control zone.* Within a 5-mile radius of Amarillo Air Terminal, within 2 miles either side of the west course of the Amarillo radio range extending from the radio range station to a point 5 miles west, and within 2 miles either side of the east course of the radio range extending from the radio range station to its intersection with the northwest course of the Clarendon, Tex., radio range.

§ 601.2025 *Big Spring, Tex., control zone.* Within a 5 mile radius of Webb Air Force Base and within 2 miles either side of the west course of the Big Spring radio range extending from the radio range station to a point 10 miles west.

§ 601.2026 *Brownsville, Tex., control zone.* That airspace over United States territory, within a 5-mile radius of Rio Grande Valley International Airport, Brownsville, Tex., within 2 miles either side of the northwest course of the Brownsville radio range extending from the radio range station to the Los Fresnos fan marker and within 2 miles either side of the 72° True radial of the Brownsville omnirange extending from the omnirange station to a point 10 miles northeast.

§ 601.2027 *Dallas, Tex., control zone.* Within a 5-mile radius of Love Field, Dallas, Tex., within 2 miles either side of the 252° True radial of the Dallas omnirange extending from Love Field to the omnirange station, within 2 miles either side of the Love Field ILS localizer southeast course extending from the localizer to the intersection of the Love Field ILS southeast course and the 202° True radial of the Dallas omnirange, within 2 miles either side of the south course of the Dallas radio range extending from the radio range station to the Duncanville fan marker, and within 2 miles either side of the Love Field ILS northwest course extending from the localizer to the intersection of the Love Field ILS northwest course and the east course of the Fort Worth radio range.

§ 601.2028 *El Paso, Tex., control zone.* Within a 5-mile radius of the El Paso International Airport extending 2 miles either side of the east course of the El Paso, Tex., radio range to the Hueco fan marker and extending 2 miles either side of the north course of the radio range to the Newman non-directional radio beacon, excluding the portion

which lies outside the continental United States.

§ 601.2029 *Fort Worth, Tex., control zone.* All that airspace within a 5-mile radius of Meacham Field and within a 5-mile radius of Carswell AFB, within 2 miles either side of the south course of the Ft. Worth radio range extending to the intersection of the south course of the Ft. Worth radio range with the west course of the Dallas, Tex., radio range, within 2 miles either side of a line bearing 181° True from the Carswell AFB extending to a point 13 miles south of the Air Force Base, and the airspace bounded on the east by a line two miles east of and parallel to a direct line from Meacham Field through the Haslet nondirectional radio beacon, on the north by Lat. 32°59'45" and on the west by a line 2 miles west of and parallel to a direct line from the Carswell AFB through the Newark nondirectional radio beacon.

§ 601.2030 *Galveston, Tex., control zone.* Within a 5-mile radius of Galveston Airport and within 2 miles either side of the northwest course of Galveston radio range extending 3 miles northwest of the radio range station.

§ 601.2031 *Houston, Tex., control zone.* Within a 10-mile radius of Houston Municipal Airport, within a 5-mile radius of Ellington Air Force Base, and within 2 miles either side of a direct line extending from the Houston Municipal Airport to the Monument nondirectional radio beacon.

§ 601.2032 *Laredo, Tex., control zone.* That airspace over United States territory within a 10-mile radius of Laredo AFB and within 2 miles either side of the 147° True radial of the Laredo omnirange extending from the omnirange station to a point 10 miles southeast.

§ 601.2033 *Little Rock, Ark., control zone.* Within a 5-mile radius of Adams Field extending 2 miles either side of the southeast course of the Little Rock radio range to the Keo fan marker.

§ 601.2034 *Monroe, La., control zone.* Within a 5-mile radius of Selman Field, within 2 miles either side of the southwest course of the Monroe radio range extending from the radio range station to a point 4 miles southwest, and within 2 miles either side of the 41° True and 221° True radials of the Monroe omnirange extending from the control zone to a point 10 miles southwest of the omnirange station.

§ 601.2035 *New Orleans, La., control zone.* Within a 5 mile radius of Moisant International Airport, within 2 miles either side of the 221° True radial of the New Orleans omnirange extending from the omnirange station to a point 10 miles southwest, within 2 miles either side of the ILS localizer course extending from the localizer to a point 14½ miles west, within 2 miles either side of the west course of the radio range extending from the radio range station to a point 17¼ miles west, and within 2 miles either side of the east course of the radio range extending from the radio range station to the boundary of the New Orleans Airport 5 mile radius control zone.

§ 601.2036 *Ponca City, Okla., control zone.* Within a 10-mile radius of Ponca City Airport.

§ 601.2037 *San Angelo, Tex., control zone.* Within a 10-mile radius of Mathis Field, within 2 miles either side of the northeast course of the San Angelo radio range extending to a point 10 miles northeast of the radio range station, and within 2 miles either side of the 72° True radial of the San Angelo omnirange extending to a point 10 miles northeast of the omnirange station.

§ 601.2038 *Shreveport, La., control zone.* Within a 5-mile radius of Shreveport Downtown Airport, within 5 miles either side of the northwest course of the Shreveport radio range extending from the radio range station to a point 10 miles northwest, within a 7 mile radius of Barksdale Air Force Base and within 5 miles either side of the southeast course of the Barksdale AFB radio range extending from the Air Force Base to the Elm Grove fan marker.

§ 601.2039 *Tulsa, Okla., control zone.* Within a 5-mile radius of Tulsa Airport, within 2 miles either side of the northeast course of Tulsa radio range extending to the Verdigris River fan marker, within 2 miles either side of the northwest course of Tulsa radio range extending to the Skiatook fan marker, within 2 miles either side of the southwest course of Tulsa radio range extending to the Red Fork fan marker and within 2 miles either side of a line bearing 03° True from the Owasso nondirectional radio beacon extending from the beacon to a point 10 miles north and within 2 miles either side of the 340° True and 160° True radials of the Tulsa omnirange extending from the Tulsa Municipal Airport to a point 10 miles northwest of the omnirange station.

§ 601.2040 *Smyrna, Tenn., control zone.* Within a 5-mile radius of Sewart Air Force Base and within 2 miles either side of a line bearing 139° True extending from the Sewart AFB nondirectional radio beacon to a point 10 miles southeast.

§ 601.2041 *Akron, Colo., control zone.* Within a 3-mile radius of the CAA intermediate field and within 2 miles either side of the north and south courses of Akron radio range extending 10 miles north of the radio range station.

§ 601.2042 *Burlington, Iowa, control zone.* Within a 5-mile radius of Burlington Municipal Airport and within 2 miles either side of the 292° and 112° True radials of the Burlington omnirange extending from the airport control zone to a point 10 miles east of the omnirange station.

§ 601.2043 *Casper, Wyo., control zone.* Within a 5-mile radius of Natrona County Airport extending east 2 miles either side of the west and east courses of the Casper radio range to the Parkerton fan marker and within 2 miles either side of a line bearing 269° True from the Casper ILS localizer extending from the Casper Natrona County Airport to a point 10 miles west of the ILS outer marker.

§ 601.2044 *Cheyenne, Wyo., control zone.* Within a 5-mile radius of the Cheyenne Municipal Airport, within 2 miles either side of the northwest course of the Cheyenne radio range extending from the radio range station to a point 12 miles northwest, within 2 miles either side of the east course of the radio range extending from the radio range station to a point 11½ miles east, within 2 miles either side of the ILS localizer course extending from the localizer to a point 10 miles east of the airport, and within 2 miles either side of the 32° True radial of the Cheyenne omnirange extending from the omnirange station to a point 10 miles northeast.

§ 601.2045 *Colorado Springs, Colo., control zone.* Within a 5-mile radius of Peterson Municipal Airport and within 2 miles either side of a line bearing 180° True from the airport extending to a point 15 miles south of the airport.

§ 601.2046 *Columbia, Mo., control zone.* Within a 5-mile radius of Columbia Municipal Airport and within 2 miles either side of the west course of Columbia radio range extending 10 miles from the radio range station.

§ 601.2047 *Denver, Colo., control zone.* Within a 10-mile radius of Stapleton Air Field, Denver, Colo., within 2 miles either side of the Stapleton ILS localizer course extending from the localizer to a point 11½ miles east of Stapleton Air Field, within 2 miles either side of a 45° True radial of the Denver omnirange extending from the omnirange station to a point 5 miles northeast, and within 2 miles either side of the north course of the Denver radio range extending from the radio range station to a point 13 miles north.

§ 601.2048 *Des Moines, Iowa, control zone.* Within a 5-mile radius of the Des Moines Municipal Airport extending 2 miles either side of the south course of the radio range to a point 10 miles from the radio range station, within 2 miles either side of the ILS localizer course extending to a point 10 miles southeast of the airport and within 2 miles either side of the 176° and 356° True radials of the Des Moines omnirange extending from the omnirange station to a point 10 miles south.

§ 601.2049 *Fort Bridger, Wyo., control zone.* Within a 3-mile radius of the CAA intermediate field and within 2 miles either side of the east course of Fort Bridger radio range extending 10 miles from the radio range station.

§ 601.2050 *Garden City, Kans., control zone.* Within a 5-mile radius of the (old) Garden City Municipal Airport including a 5-mile radius of the (new) Garden City Municipal Airport extending 2 miles either side of the north course of the Garden City radio range to a point 10 miles north of the radio range station and extending 2 miles either side of the 300° True radial of the Garden City omnirange to a point 10 miles northwest of the omnirange station.

§ 601.2051 *Grand Island, Nebr., control zone.* Within a 5-mile radius of the Grand Island Airport and within 2 miles either side of the north course of Grand Island radio range extending 10 miles from the radio range station.

§ 601.2052 *Quincy, Ill., control zone.* Within a 5-mile radius of the Quincy-Baldwin Airport and within 2 miles either side of the 35° True and 215° True radials of the Quincy omnirange extending from the airport to a point 10 miles southwest of the omnirange station.

§ 601.2053 *Huron, S. Dak., control zone.* Within a 5-mile radius of the Huron Municipal Airport extending 2 miles either side of the southwest course of the radio range to its intersection with the east course of the Pierre, S. Dak., radio range, and within 2 miles either side of the Huron ILS localizer northwest course extending from the localizer to a point 12 miles northwest of the outer marker.

§ 601.2054 *Hutchinson, Kans., control zone.* Within a 5-mile radius of the Hutchinson Municipal Airport, within an 8-mile radius of the Hutchinson Naval Air Station, within 2 miles either side of the south course of the Hutchinson radio range extending from the radio range station to a point 23 miles south, and within 2 miles either side of the 222° True radial of the Hutchinson omnirange extending from the Hutchinson Municipal Airport to a point 10 miles southwest of the omnirange station, and within 2 miles either side of the north course of the Hutchinson radio range extending from the radio range station to a point 10 miles north.

§ 601.2055 *Joplin, Mo., control zone.* Within a 5-mile radius of Joplin Airport and within 2 miles either side of a line bearing 318° True extending from the airport to a point 10 miles northwest of the Joplin ILS outer marker.

§ 601.2056 *Kansas City, Mo., control zone.* Within a 5-mile radius of the Kansas City Municipal Airport, within 2 miles either side of the north course of the Kansas City radio range extending from the radio range station to a point 10 miles north, and within 2 miles either side of a line bearing 13° True from the airport extending through the Kansas City ILS outer marker compass locator to a point 5 miles north of the ILS outer marker compass locator.

§ 601.2057 *Kirksville, Mo., control zone.* Within a 3-mile radius of Kirksville Airport and within 2 miles either side of the 316° and 136° True radials of the Kirksville omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2058 *La Junta, Colo., control zone.* Within a 5-mile radius of the La Junta Airport and within 2 miles either side of the northeast course of La Junta radio range extending 10 miles from the radio range station.

§ 601.2059 *Laramie, Wyo., control zone.* Within a 5-mile radius of Brees Field, within 2 miles either side of the northwest course of the Laramie radio range extending from the radio range station to a point 10 miles northwest, and within 2 miles either side of the 332° True radial of the Laramie omnirange extending from the omnirange station to a point 10 miles northwest.

§ 601.2060 *Pellston, Mich., control zone.* Within a 5-mile radius of Emmet County Airport, Pellston, Mich., extending 2 miles either side of a track bearing 132° True from the Pellston non-directional radio beacon to a point 10 miles southeast.

§ 601.2061 *Lincoln, Nebr., control zone.* Within a 5-mile radius of the Lincoln Air Force Base, within 2 miles either side of the north course of the Lincoln radio range extending from the radio range station to a point 10 miles north, and within 2 miles either side of a line bearing 325° True from the Air Force Base extending through the ILS outer marker to a point 5 miles northwest of the ILS outer marker.

§ 601.2062 *Mason City, Iowa, control zone.* Within a 5-mile radius of Mason City Municipal Airport and within 2 miles either side of the 2° and 182° True radials of the Mason City omnirange extending from the airport control zone to a point 10 miles south of the omnirange station.

§ 601.2063 *North Platte, Nebr., control zone.* Within a 5-mile radius of Lee Bird Municipal Field, within 2 miles either side of the south course of the North Platte radio range extending from the radio range station to a point 10 miles south, and within 2 miles either side of the 30° True and 210° True radials of the North Platte omnirange extending from Lee Bird Municipal Field to a point 10 miles southwest of the omnirange station.

§ 601.2064 *Omaha, Nebr., control zone.* Within a 5-mile radius of the Omaha, Nebr., Municipal Airport extending 2 miles either side of the north course of the Omaha radio range to the California, Iowa, Fan Marker, and extending 2 miles either side of the ILS localizer course to a point 10 miles northwest of the Omaha Municipal Airport.

§ 601.2065 *Pierre, S. Dak., control zone.* Within a 5-mile radius of the Pierre Airport and within 2 miles either side of the east course of Pierre radio range extending 10 miles from the radio range station.

§ 601.2066 *Pueblo, Colo., control zone.* Within a 5-mile radius of Pueblo Municipal Airport, within 5 miles either side of a direct line extending from the center of Pueblo Municipal Airport to the Pueblo radio range station to include a 5-mile radius of the Pueblo radio range station, within 2 miles either side of the southeast course of the radio range extending from the radio range station to a point 10 miles southeast, and within 2 miles either side of the 271° and 91° True radials of the Pueblo omnirange extending from the Pueblo Municipal Airport 5-mile radius zone to a point 10 miles east of the omnirange station.

§ 601.2067 *Rapid City, S. Dak., control zone.* Within a 5-mile radius of the Rapid City AFB and within a 5-mile radius of the Rapid City Municipal Airport extending 2 miles either side of the south course of the Rapid City radio range to a point 10 miles south of the radio range station and extending 2 miles either side of the east course of the radio range to a point 10 miles east of the radio range station.

§ 601.2068 *Rock Springs, Wyo., control zone.* Within a 5-mile radius of the Municipal Airport extending 2 miles either side of the east course of the radio range to the Point of Rocks fan marker, and extending 2 miles either side of the ILS localizer course to the Point of Rocks fan marker.

§ 601.2069 *St. Joseph, Mo., control zone.* Within a 5-mile radius of Rosecrans Field, within 2 miles either side of the St. Joseph ILS localizer course extending from the localizer to a point 10 miles beyond the outer marker, and within 2 miles either side of the 355° and 175° True radials of the St. Joseph omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2070 *St. Louis, Mo., control zone.* Within a 5-mile radius of Lambert-St. Louis Municipal Airport, within 2 miles either side of the east course of the St. Louis radio range extending from the radio range station to a point 10 miles east, within 2 miles either side of the front course of the St. Louis ILS localizer extending from the localizer to a point 5 miles east of the outer compass locator and within 2 miles either side of the back course of the ILS localizer extending from the localizer to a point 10 miles southwest of the Lake nondirectional radio beacon, and within 2 miles either side of the 323° and 143° True radials of the St. Louis omnirange extending from the airport to a point 10 miles northwest of the omnirange station.

§ 601.2071 *Scottsbluff, Nebr., control zone.* Within a 5-mile radius of Scottsbluff Municipal Airport and within 2 miles either side of the southeast and northwest courses of Scottsbluff radio range extending 10 miles southeast of the radio range station.

§ 601.2072 *Sheridan, Wyo., control zone.* Within a 5-mile radius of the Municipal Airport extending 2 miles either side of the southeast course of the radio range to the Ucross fan marker.

§ 601 2073 *Rawlings, Wyo., control zone.* Within a 5-mile radius of the Municipal Airport, Rawlings, Wyo., extending 2 miles either side of the east and west courses of the Sinclair, Wyo., radio range to a point 10 miles east of the radio range station.

§ 601.2074 *Sioux City, Iowa, control zone.* Within a 5-mile radius of the Sioux City Municipal Airport, within 2 miles either side of the south course of the Sioux City radio range extending from the radio range station to the Sloan Fan Marker; within 2 miles either side of the 142° True radial of the Sioux City omnirange extending from the omnirange station to a point 10 miles southeast, and within 2 miles either side of a line bearing 136° True from the Sioux City ILS outer marker compass locator,

extending from the ILS outer marker compass locator to a point 10 miles southeast.

§ 601.2075 *Springfield, Mo., control zone.* Within a 5-mile radius of Springfield Municipal Airport and within 2 miles either side of the southeast and northwest courses of Springfield radio range extending 10 miles northwest of the radio range station and within 2 miles either side of the 19° and 199° True radials of the Springfield omnirange extending from the Springfield Municipal Airport to a point 10 miles northeast of the omnirange station.

§ 601.2076 *Topeka, Kans., control zone.* All that area within an 8-mile radius of the Philip Billard Airport and within 2 miles either side of the Topeka ILS localizer course extending to a point 15 miles northwest of the ILS localizer; within 2 miles either side of the 40° True radial of the Topeka omnirange extending to a point 10 miles northeast of the omnirange station, and that area within a 5-mile radius of Forbes Air Force Base, Topeka, Kans., and within 2 miles either side of the southwest course of the Forbes AFB radio range extending to a point 10 miles southwest of the Forbes AFB radio range station.

§ 601.2077 *Trinidad, Colo., control zone.* Within a 3-mile radius of Trinidad Municipal Airport and within 2 miles either side of the north course of Trinidad radio range extending 10 miles from the radio range station.

§ 601.2078 *Edenton, N. C., control zone.* Within a 5-mile radius of the Edenton Navy Auxiliary Landing Field and within 2 miles either side of a line bearing 184° True from the Edenton NALF to a point 12 miles south, excluding the portions which overlap the Albemarle Sound Restricted Area (R–1) and the Albemarle Sound Caution Area (C–10).

§ 601.2079 *Watertown, S. Dak., control zone.* Within a 5-mile radius of Watertown Airport and within 2 miles either side of the 6° True radial of the Watertown omnirange extending from the airport control zone to a point 10 miles north of the omnirange station.

§ 601.2080 *Wichita, Kans., control zone.* Within a 5-mile radius of the Wichita Municipal Airport, within 2 miles either side of a 200° True bearing from the Wichita ILS outer compass locator extending to a point 10 miles south of the outer compass locater, within a 5-mile radius of McConnell AFB, Wichita, Kans., within 2 miles either side of a 192° True bearing through the Wichita AFB nondirectional radio beacon extending from the AFB control zone to a point 10 miles south of the nondirectional radio beacon, and within 2 miles either side of the 360° True radial of the omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2081 *Geneva, N. Y., control zone.* Within a 5-mile radius of Sampson Air Force Base, Geneva, N. Y., and within 2 miles either side of a line bearing 327° True extending from the Sampson AFB to a point 10 miles northwest of the Sampson AFB nondirectional radio beacon.

§ 601.2082 *Akron, Ohio, control zone.* Within a 5-mile radius of the Akron Municipal Airport extending 2 miles either side of the southwest course of the Akron, Ohio, radio range to a point 10 miles southwest of the radio range station, including a 5-mile radius of the Akron-Canton County Airport extending 2 miles either side of the Akron-Canton ILS localizer course to a point 10 miles south of the outer marker and within 2 miles either side of the west course of the Akron radio range extending from the radio range station to a point 10 miles west.

§ 601.2083 *Alexandria, Minn., control zone.* Within a 5-mile radius of the Alexandria Municipal Airport extending 2 miles either side of the north course of the Alexandria radio range to a point 10 miles north of the radio range station, and within 2 miles either side of the 230° and 50° True radials of the Alexandria omnirange extending from the Alexandria airport control zone to a point 10 miles northeast of the omnirange station.

§ 601.2084 *Battle Creek, Mich., control zone.* Within a 5-mile radius of Kellogg Field and within 2 miles either side of the south course of the Battle Creek, Mich., radio range, extending 10 miles south of the radio range station.

§ 601.2085 *Bismarck, N. Dak., control zone.* Within a 5-mile radius of the Bismarck Municipal Airport extending 2 miles either side of the east course of the Bismarck radio range to a point 10 miles east of the radio range station, extending 2 miles either side of the Bismarck ILS localizer course to a point 10 miles southeast of the outer marker, and extending 2 miles either side of the 114° True radial of the Bismarck omnirange to a point 10 miles southeast of the omnirange station.

§ 601.2086 *Chicago, Ill., control zone.* Within a 6-mile radius of the Chicago-Midway Airport; within 2 miles either side of the southeast and northwest courses of the Chicago radio range extending from the intersection of the southeast course of the radio range with the east course of the Harvey, Ill., radio range to the intersection of the northwest course of the radio range with the northeast course of the Joliet, Ill., radio range excluding the portion which overlaps the O'Hare International Airport control zone; within 2 miles either side of the front and back courses of the Chicago-Midway ILS localizer extending from the intersection of the localizer back course with the east course of the Harvey, Ill., radio range to a point 12 miles northwest of the Chicago-Midway outer marker on the localizer front course, excluding the portion which overlaps the O'Hare International Airport control zone; within 2 miles either side of the 007° True, 124° True and 223° True radials of the Chicago-Midway terminal omnirange station extending from the terminal omnirange station to points 12 miles north, southeast and southwest.

§ 601.2087 *Cincinnati, Ohio, control zone.* Within a 5-mile radius of the Lunken Airport extending 2 miles either side of the southwest and northeast courses of the Cincinnati, Ohio, radio range to the Loveland fan marker.

§ 601.2088 *Dodge City, Kans., control zone.* Within a 5-mile radius of Dodge City Municipal Airport and within 2 miles either side of the 161° and 341° True radials of the Dodge City omnirange extending from the airport control zone to a point 10 miles north of the omnirange station.

§ 601.2089 *Cleveland, Ohio, control zone.* Within a 5-mile radius of the Cleveland Municipal Airport, within 2 miles either side of the west course of the Cleveland radio range extending from the radio range station to the Elyria fan marker and within 2 miles either side of the Cleveland ILS localizer course extending from the localizer to a point 10 miles southwest of the outer marker.

§ 601.2090 *Columbus, Ohio, control zone.* Within a 5-mile radius of the Port Columbus Municipal Airport and within a 5-mile radius of the Lockbourne, Ohio, Air Force Base including the airspace within 2 miles either side of a direct line extending from the Columbus radio range station to the Lockbourne AFB, within 2 miles either side of the west course of the Columbus radio range extending to the Hilliard fan marker, within 2 miles either side of the east course of the Columbus radio range extending to the Newark fan marker, and within 2 miles either side of the 50° and 230° True radials of the Columbus omnirange extending from the Port Columbus airport control zone to a point 10 miles northeast of the omnirange station.

§ 601.2091 *Dayton, Ohio, control zone.* Within a 5-mile radius of the Dayton Municipal Airport extending 2 miles either side of the southwest course of the Dayton ILS localizer from the localizer to a point 10 miles southwest of the outer compass locator, extending 2 miles either side of the northeast course of the ILS localizer from the localizer to a point 10 miles northeast of the Tipp City nondirectional radio beacon, and extending 2 miles either side of the 360° True radial of the Dayton omnirange from the omnirange station to a point 10 miles north of the omnirange station.

§ 601.2092 *Detroit, Mich., control zone.* Within a 5-mile radius of the Detroit City Airport extending 2 miles either side of the northwest course of the Windsor, Ontario, Canada, radio range to the United States-Canadian Border and excluding that portion which lies outside the continental limits of the United States.

§ 601.2093 *Dickinson, N. Dak., control zone.* Within a 5-mile radius of the Municipal Airport and within 2 miles either side of the north course of the Dickinson radio range, extending 10 miles north of the radio range station and extending 2 miles either side of the 15° True radial of Dickinson omnirange to a point 10 miles north of the omnirange station.

§ 601.2094 *Duluth, Minn., control zone.* Within a 5-mile radius of the Williamson-Johnson Airport and within 2 miles either side of the south course of the Duluth, Minn., radio range, extending 10 miles south of the radio range station.

§ 601.2095 *Belleville, Ill., control zone.* Within a 5-mile radius of the Scott Air Force Base extending 2 miles either side of the southwest course of the Scott AFB, Belleville, Ill., radio range to a point 10 miles southwest of the radio range station.

§ 601.2096 *Evansville, Ind., control zone.* Within a 5-mile radius of Dress Memorial Municipal Airport and within 2 miles either side of the centerline of the northeast-southwest runway of the Dress Memorial Municipal Airport extending from the Evansville outer marker to a point 10 miles northeast.

§ 601.2097 *Fargo, N. Dak., control zone.* Within a 5-mile radius of the Fargo-Hector Airport, within 2 miles either side of the east course of the Fargo radio range extending to the Glyndon fan marker, within 2 miles either side of the west course of the radio range extending to a point 10 miles west of the West Fargo fan marker, and within 2 miles either side of the 181° and 01° True radials of the Fargo omnirange extending from the airport control zone to a point 10 miles south of the omnirange station.

§ 601.2098 *Flint, Mich., control zone.* Within a 5-mile radius of Bishop Airport and within 2 miles either side of a line bearing 268° True from the airport extending from the airport to a point 10 miles west of the Flint ILS outer marker.

§ 601.2099 *Fort Wayne, Ind., control zone.* Within a 5-mile radius of Baer Field, Fort Wayne, Ind., extending 2 miles either side of the southwest course of the Fort Wayne radio range to a point 10 miles southwest of the radio range station, extending 2 miles either side of the Fort Wayne ILS localizer course from the localizer to a point 10 miles southeast of the outer marker, and extending 2 miles either side of the 318° and 138° True radials of the Fort Wayne omnirange from the Baer Field control zone to a point 10 miles northwest of the omnirange station.

§ 601.2100 *Glenview, Ill., control zone.* Within a 5-mile radius of the Glenview, Ill., Naval Air Station and within 2 miles either side of the northwest course of the Glenview, Ill., radio range, extending 10 miles northwest of the radio range station.

§ 601.2101 *Goshen, Ind., control zone.* Within a 5-mile radius of the Goshen Airport and within 2 miles either side of the west course of the Goshen, Ind., radio range, extending 10 miles west of the radio range station.

§ 601.2102 *Grand Forks, N. Dak., control zone.* Within a 5-mile radius of the Municipal Airport and within 2 miles either side of the south course of the Grand Forks, N. Dak., radio range, extending 10 miles south of the radio range station.

§ 601.2103 *Grand Rapids, Mich., control zone.* Within a 6-mile radius of the Kent County Airport and within 2 miles either side of the southeast course of the Grand Rapids radio range, extending 12 miles southeast of the radio range station.

§ 601.2104 *Huntington, W. Va., control zone.* Within a 5-mile radius of the Huntington Airport, Chesapeake, Ohio; within a 5-mile radius of the Tri-State Airport, Huntington, W. Va.; within 2 miles either side of a line bearing 253° True extending from the Huntington nondirectional radio beacon to a point 10 miles west, and within 2 miles either side of a line bearing 15° True extending from the nondirectional radio beacon to a point 10 miles north.

§ 601.2105 *Indianapolis, Ind., control zone.* Within a 5-mile radius of the Weir Cook County Airport, extending 2 miles either side of the west course of the Indianapolis radio range to the Clayton fan marker, extending 2 miles either side of the Weir-Cook County Airport localizer course to a point 10 miles southwest of the outer marker and extending 2 miles either side of the 323° and 143° True radials of the Indianapolis omnirange from the Weir-Cook County Airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2106 *Jamestown, N. Dak., control zone.* Within a 5-mile radius of the Jamestown Municipal Airport extending 2 miles either side of the east course of the Jamestown radio range to a point 10 miles east of the radio range station and extending 2 miles either side of the 191° and 11° True radials of the Jamestown omnirange station from the Municipal Airport control zone to a point 10 miles south of the omnirange station.

§ 601.2107 *Joliet, Ill., control zone.* Within a 5-mile radius of the Municipal Airport extending 2 miles either side of the west course of the radio range to a point 10 miles west of the radio range station.

§ 601.2108 *Lansing, Mich., control zone.* Within a 5-mile radius of the Capital City Airport extending 2 miles either side of the east course of the Lansing radio range to a point 10 miles east of the radio range station and extending 2 miles either side of the 232° and 52° True radials of the Lansing omnirange from the Capital City Airport control zone to a point 10 miles southwest of the omnirange station.

§ 601.2109 *Lafayette, Ind., control zone.* Within a 5-mile radius of Purdue University Airport and within 2 miles either side of the 129° True radial of the Lafayette omnirange extending from the omnirange station to a point 10 miles southeast.

§ 601.2110 *Lone Rock, Wis., control zone.* Within a 5-mile radius of the Municipal Airport and within 2 miles either side of the 24° True and 204° True radials of the Lone Rock omnirange extending from the Municipal Airport control zone to a point 10 miles northeast of the omnirange station.

§ 601.2111 *Louisville, Ky., control zone.* Within a 5-mile radius of Standiford Field and within a 5-mile radius of Bowman Field extending 2 miles either side of the east course of the Louisville radio range to the Eastwood fan marker, extending 2 miles either side of the Standiford Field ILS localizer course from the localizer to the limits of the Fort Knox, Ky., restricted area, extending 2 miles either side of the 122° and 302° True radials of the Louisville omnirange from the Standiford Field control zone to a point 10 miles southeast of the omnirange station, and extending 2 miles either side of the 154° and 334° True radials of the Louisville omnirange from the Bowman Field control zone to a point 10 miles southeast of the omnirange station.

§ 601.2112 *Madison, Wis., control zone.* Within a 5-mile radius of Truax Field, within 2 miles either side of the east course of the Madison radio range extending from the radio range station to a point 10 miles east, and within 2 miles of lines bearing 183° True and 03° True from the outer marker extending from the Truax Field control zone to a point 10 miles south of the outer marker.

§ 601.2113 *Milwaukee, Wis., control zone.* Within a 5-mile radius of the General Mitchell Airport extending 2 miles either side of the south course of the Milwaukee radio range to the Franksville fan marker, and extending 2 miles either side of the 187° and 07° True radials of the Milwaukee omnirange from the General Mitchell Airport control zone to a point 10 miles south of the omnirange station.

§ 601.2114 *Minneapolis, Minn., control zone.* Within a 5-mile radius of the Minneapolis-St. Paul International Airport extending 2 miles either side of the southeast course of the Minneapolis radio range to the Hastings Fan Marker.

§ 601.2115 *Minot, N. Dak., control zone.* Within a 5-mile radius of the Port O'Minot Field and within 2 miles either side of the southeast course of the Minot radio range, extending 10 miles southeast of the radio range station.

§ 601.2116 *Moline, Ill., control zone.* Within a 5-mile radius of Quad City Airport and within 2 miles either side of the ILS localizer course extending from the localizer to a point 16 miles west.

§ 601.2117 *Muskegon, Mich., control zone.* Within a 5-mile radius of Muskegon County Airport extending 2 miles either side of the southeast course of the radio range to a point 10 miles southeast of the radio range station, and extending 2 miles either side of the 145° True radial of the Muskegon omnirange to a point 10 miles southeast of the omnirange station.

§ 601.2118 *Langley AFB, Va., control zone.* Within a 5-mile radius of the Langley AFB and within a 5-mile radius of Patrick Henry Airport including the airspace lying 5 miles southwest of and parallel to a line connecting the centers

of Langley AFB and Patrick Henry Airport, excluding the portion which overlaps restricted areas.

§ 601.2119 *Peoria, Ill., control zone.* Within a 5-mile radius of the Greater Peoria Airport and within 2 miles either side of the north course of the Peoria, Ill., radio range, extending 10 miles north of the radio range station.

§ 601.2120 *Rochester, Minn., control zone.* Within a 5-mile radius of the Rochester Airport extending 2 miles either side of the south course of the radio range to a point 10 miles south of the radio range station, and extending 2 miles either side of the 222° and 42° True radials of the Rochester omnirange from the Rochester Airport control zone to a point 10 miles southwest of the omnirange station.

§ 601.2121 *Rockford, Ill., control zone.* Within a 5-mile radius of the Machesney Airport and within a 5 mile radius of the Greater Rockford Airport, extending 2 miles either side of a 182° True bearing from the Rockford radio range station to the Greater Rockford Airport, and extending 2 miles either side of the west and northwest courses of the Rockford radio range from the radio range station to points 10 miles west and northwest of the radio range station.

§ 601.2122 *Detroit, Mich., control zone.* Within a 5-mile radius of the Detroit-Wayne Major Airport and within a 12-mile radius of the Willow Run Airport, within 2 miles either side of the front and back courses of the Willow Run ILS localizer extending from a point 12 miles southwest of the Willow Run outer marker to a point 12 miles northeast of the Ford nondirectional radio beacon, within 2 miles either side of the front and back courses of the Wayne Major ILS localizer extending from a point 12 miles southwest of the Wayne Major outer marker to a point 15½ miles northeast of the Wayne Major ILS localizer, and within 2 miles either side of a 134° True Track extending from the Willow Run Airport to a point 12 miles southeast of the Wayne Major outer marker, excluding the portion which overlaps the Grosse Ile, Mich., control zone, and excluding the pie-shaped area bounded on the north by a line 2 miles south of and parallel to the 282° True radial of the Willow Run TVOR and bounded on the south by a line 2 miles north of and parallel to the 252° True radial of the Willow Run TVOR.

§ 601.2123 *South Bend, Ind., control zone.* Within a 5-mile radius of St. Joseph County Airport extending 2 miles either side of the west course of the South Bend radio range to the New Carlisle fan marker, extending 2 miles either side of the South Bend, Ind., ILS localizer course from the St. Joseph County Airport control zone to a point 10 miles east of the outer marker, and extending 2 miles either side of the 359° True radial of the South Bend omnirange to a point 10 miles north of the omnirange station.

§ 601.2124 *Roswell, N. Mex., control zone.* Within a 15-mile radius of the Roswell, N. Mex., radio range station.

§ 601.2125 *Terre Haute, Ind., control zone.* Within a 5-mile radius of Hulman Field, Terre Haute, Ind., extending 2 miles either side of the northeast and southwest courses of the Terre Haute radio range to a point 10 miles southwest of the radio range station, and extending 2 miles either side of the 02° True radial of the Terre Haute omnirange from the airport to a point 10 miles north of the omnirange station.

§ 601.2126 *Toledo, Ohio, control zone.* Within a 5-mile radius of Toledo Express Airport and within 2 miles either side of the ILS localizer course extending from the localizer to a point 10 miles beyond the outer marker.

§ 601.2127 *Youngstown, Ohio, control zone.* Within a 5-mile radius of the Youngstown Municipal airport, within 2 miles either side of the north course of the Youngstown radio range extending from the radio range station to a point 10 miles north, within 2 miles either side of a line bearing 135° True from the airport through the outer compass locator extending to a point 15 miles southeast of the airport, and within 2 miles either side of the 359° True radial of the Youngstown omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2128 *Wilmington, N. C., control zone.* Within a 5-mile radius of the New Hanover County Airport, within 2 miles either side of a line bearing 337° True extending from the Wilmington nondirectional radio beacon to a point 10 miles northwest and within 2 miles either side of a line bearing 159° True extending from the ILS middle marker to a point 12 miles southeast of the middle marker.

§ 601.2129 *Bowling Green, Ky., control zone.* Within a 5-mile radius of the Bowling Green Municipal Airport extending 2 miles either side of the southeast course of the Bowling Green radio range to a point 10 miles southeast of the radio range station, and extending 2 miles either side of the 203° True radial of the Bowling Green omnirange to a point 10 miles southwest of the omnirange station.

§ 601.2130 *Atlanta, Ga., control zone.* Within a 5-mile radius of the Municipal Airport, within 2 miles either side of the southeast course of the Atlanta, Ga., radio range, extending to the Jonesboro fan marker and within 2 miles either side of the northwest course of the Atlanta radio range, extending 10 miles northwest of the radio range station.

§ 601.2131 *Augusta, Ga., control zone.* Within a 5-mile radius of Bush Field, Augusta, Ga., extending 2 miles either side of a direct line from Bush Field to the Augusta, Ga., radio range station and extending 2 miles either side of the west course of the Augusta radio range to a point 10 miles west of the radio range station.

§ 601.2132 *Biloxi, Miss., control zone.* Within a 5-mile radius of Keesler AFB and within 2 miles either side of the northeast course of Keesler AFB radio range, extending 5 miles northeast of the radio range station.

§ 601.2133 *Birmingham, Ala., control zone.* Within a 5-mile radius of Birmingham Airport and within 2 miles either side of the north course of the Birmingham, Ala., radio range, extending 10 miles north of the Birmingham, Ala., radio range station.

§ 601.2134 *Charleston, S. C., control zone.* Within a 5-mile radius of the Charleston Municipal Airport, within 2 miles either side of the northwest course of the Charleston radio range extending from the radio range station to the Summerville fan marker and within 2 miles either side of the 161° True and 341° True radials of the Charleston omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2135 *Charlotte, N. C., control zone.* Within a 5-mile radius of Douglas Airport, within 2 miles either side of the south course of the Charlotte radio range extending from the radio range station to the Fort Mill fan marker, and within 2 miles either side of the Charlotte ILS localizer course extending from the localizer to a point 10 miles southwest of the outer marker.

§ 601.2136 *Chattanooga, Tenn., control zone.* Within a 5-mile radius of Lovell Field and within 2 miles either side of the northeast course of the Chattanooga, Tenn., radio range, extending 10 miles northeast of the radio range station.

§ 601.2137 *Columbia, S. C., control zone.* Within a 5-mile radius of the Columbia Airport, within 2 miles either side of the east and west courses of the Columbia radio range extending from the airport to a point 5 miles east of the radio range station, and within 2 miles either side of the 325° True and 145° True radials of the Columbia omnirange extending from the airport control zone to a point 10 miles southeast of the omnirange station, and within a 5-mile radius of Owens Field, Columbia, S. C., and 2 miles either side of the southeast course of the Columbia radio range extending from the radio range station to a point 10 miles southeast.

§ 601.2138 *Crestview, Fla., control zone.* Within a 5-mile radius of the Crestview Airport, within 2 miles either side of the east course of the Crestview radio range extending from the radio range station to a point 10 miles east, and within 2 miles either side of the 110° and 290° True radials of the Crestview omnirange extending from the airport control zone to a point 10 miles west of the omnirange station.

§ 601.2139 *Cross City, Fla., control zone.* Within a 5-mile radius of the Cross City Airport, within 2 miles either side of the southeast course of the Cross City radio range extending from the radio range station to a point 10 miles southeast, and within 2 miles either side of the 118° True radial of the Cross City omnirange extending from the omnirange station to a point 10 miles southeast.

§ 601.2140 *Daytona Beach, Fla., control zone.* Within a 5-mile radius of the Daytona Beach Airport, within 2 miles either side of the west course of the Daytona Beach radio range extending from the radio range station to a point 10 miles west, and within 2 miles either side of the 64° True and 244° True radials of the Daytona Beach omnirange extending from the 5-mile radius control zone to a point 10 miles southwest of the omnirange station.

§ 601.2141 *Dothan, Ala., control zone.* Within a 5-mile radius of Dothan Airport and within 2 miles either side of the southwest course of Dothan, Ala., radio range, extending 10 miles southwest of the radio range station, excluding the portion above 19,000 feet which lies within the Tyndall AFB restricted area (R-136), between sunset and sunrise.

§ 601.2142 *Florence, S. C., control zone.* Within a 5-mile radius of the Florence Municipal Airport, within 2 miles either side of the southeast course of the Florence radio range extending from the radio range station to a point 10 miles southeast, and within 2 miles either side of the 51° True and 231° True radials of the Florence omnirange extending from the airport control zone to a point 10 miles northeast of the omnirange station.

§ 601.2143 *Fort Myers, Fla., control zone.* Within a 5-mile radius of Page Field, Fort Myers, Fla., within 2 miles either side of a line bearing 220° True extending from the Fort Myers nondirectional radio beacon to a point 10 miles southwest, and within 2 miles either side of the 224° True radial of the Fort Myers omnirange extending from the omnirange station to a point 10 miles southwest.

§ 601.2144 *Greensboro, N. C., control zone.* Within a 5-mile radius of the Greensboro High Point Airport, within 2 miles either side of the northeast course of the Greensboro radio range extending from the radio range station to a point 10 miles northeast, and within 2 miles either side of the 204° True radial of the Greensboro omnirange extending from the omnirange station to a point 10 miles southwest excluding the portion which overlaps the Smith-Reynolds Airport, Winston-Salem, N. C., control zone.

§ 601.2145 *Greenville, S. C., control zone.* Within a 5-mile radius of the Greenville Airport and within 2 miles either side of the south course of Greenville, S. C., radio range, extending 10 miles south of the radio range station.

§ 601.2146 *Greenwood, Miss., control zone.* Within a 5-mile radius of the Municipal Airport and within 2 miles either side of the east course of Greenwood, Miss., radio range extending 10 miles east of the radio range station and within 2 miles either side of the 246° True radial of the Greenwood omnirange extending to a point 10 miles southwest of the omnirange station.

§ 601.2147 *Waterloo, Iowa, control zone.* Within a 5-mile radius of the Waterloo Municipal Airport and within 2 miles either side of the 78° True, 200° True, 238° True, 314° True and 356° True radials of the Waterloo omnirange extending from the omnirange station to points 12 miles east, south, southwest, northwest and north of the omnirange station.

§ 601.2148 *Jackson, Miss., control zone.* Within a 5-mile radius of Hawkins Airport extending 2 miles either side of the north course of the Jackson radio range to the Flora Fan Marker and within 2 miles either side of the 162° True and 342° True radials of the Jackson omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2149 *Jacksonville, Fla., control zone.* Within a 5-mile radius of Imeson Airport, within 2 miles either side of the east course of the Jacksonville radio range extending from the radio range station to the Fort George Island fan marker, and within 2 miles either side of the 64° True radial of the Jacksonville omnirange extending from the omnirange station to a point 10 miles northeast.

§ 601.2150 *Key West, Fla., control zone.* Within a 5-mile radius of Meacham Field and within a 5-mile radius of Boca Chica Naval Air Station, Key West, Fla., within 2 miles either side of the west course of the Key West radio range extending from the radio range station to a point 10 miles west, within 2 miles either side of a 242° True bearing from the Key West radio range station extending from the Meacham Field 5-mile radius zone to a point 10 miles southwest of the radio range station; within 2 miles either side of the 313° True and the 273° True radials of the Key West omnirange extending to points 10 miles northwest and west of the omnirange station.

§ 601.2151 *Knoxville, Tenn., control zone.* Within a 5-mile radius of the McGhee-Tyson Airport extending 2 miles either side of the north course of the radio range to the Inskip fan marker.

§ 601.2152 *Macon, Ga., control zone.* Within a 5-mile radius of Cochran Field extending 2 miles either side of the northwest course of the radio range to a point 10 miles northwest of the range station.

§ 601.2153 *Melbourne, Fla., control zone.* Within a 5-mile radius of the Melbourne-Eau Gallie Airport and within a 5-mile radius of the Patrick AFB extending 2 miles either side of the north course of the Melbourne radio range from the radio range station to a point 10 miles north.

§ 601.2154 *Memphis, Tenn., control zone.* Within a 5-mile radius of the Municipal Airport and within 2 miles either side of the south course of Memphis, Tenn., radio range extending to the Nesbitt fan marker and within 2 miles either side of the 109° True radial of the Memphis omnirange extending from the airport control zone to a point 10 miles east of the omnirange station.

§ 601.2155 *Meridian, Miss., control zone.* Within a 5-mile radius of Key Field and within 2 miles either side of the northwest course of Meridian, Miss., radio range extending 10 miles northwest of the radio range station.

§ 601.2156 *Miami, Fla., control zone.* Within a 5-mile radius of Miami International Airport and within 2 miles either side of the east and west courses of the Miami radio range extending from the five mile radius zone to a point 10 miles west of the radio range station and within 2 miles either side of the back course of the Miami ILS localizer extending from the localizer to a point 10 miles east.

§ 601.2157 *Mobile, Ala., control zone.* Within a 5-mile radius of Bates Field, Mobile, Ala., and within 2 miles either side of the 112° and 292° True radials of the Mobile omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2158 *Granview, Mo., control zone.* Within a 5-mile radius of Grandview Air Force Base excluding the portion lying north of Lat. 38°52'30" and west of Long. 94°35'50", and including the airspace within 2 miles either side of a line bearing 188° True extending from the Air Force Base to a point 10 miles south of the Cleveland, Mo., nondirectional radio beacon:

§ 601.2159 *Montgomery, Ala., control zone.* Within a 5-mile radius of Dannelly Field; within a 5-mile radius of Maxwell Air Force Base; within 2 miles either side of the north and west courses of the Maxwell AFB radio range extending from the radio range station to points 10 miles north and west of the station; within 2 miles either side of a line bearing 276° True from Dannelly Field through the Dannelly ILS outer marker to a point 5 miles west of the outer marker, and within 2 miles either side of the 321° True and 141° True radials of the Montgomery omnirange extending from the Dannelly Field control zone to a point 5 miles southeast of the omnirange station.

§ 601.2160 *Muscle Shoals, Ala., control zone.* Within a 5-mile radius of Muscle Shoals Airport and within 2 miles either side of the southeast course of Muscle Shoals radio range extending 10 miles southeast of the radio range station and within 2 miles either side of the 118° True radial of the Muscle Shoals omnirange extending from the omnirange station to a point 10 miles southeast.

§ 601.2161 *Nashville, Tenn., control zone.* Within a 5-mile radius of Berry Field and within 2 miles either side of the east course of Nashville, Tenn., radio range extending to the Mount Juliet fan marker.

§ 601.2162 *Orlando, Fla., control zone.* Within a 5-mile radius of the Orlando Municipal Airport and within a 5-mile radius of Pinecastle AFB, within 2 miles either side of the northeast course of the Orlando radio range extending from the radio range station to a point 10 miles northeast and within 2 miles either side of a direct line extending from the Pinecastle AFB through the Pinecastle non-

directional radio beacon to a point 10 miles south of the Air Force Base.

§ 601.2163 *Pensacola, Fla., control zone.* Within a 5-mile radius of the Municipal Airport and within 2 miles either side of the south course of Pensacola, Fla., radio range, extending 10 miles south of the radio range station.

§601.2164 *Raleigh, N. C., control zone.* Within a 5-mile radius of Raleigh-Durham Airport and within 2 miles either side of the southeast course of Raleigh, N. C., radio range, extending 10 miles southeast of the radio range station.

§ 601.2165 *Savannah, Ga., control zone.* Within a 5-mile radius of Travis Field including the airspace within a 5-mile radius of Hunter Air Force Base, within 2 miles either side of the centerline of the east-west runway of Hunter AFB extending from the end of the runway to a point 10 miles east, within 2 miles either side of the centerline of the east-west runway of Travis Field extending from the end of the runway to a point 10 miles west, within 2 miles either side of the northwest and southeast courses of the Savannah radio range extending from the Travis Field control zone to a point 10 miles southeast of the radio range station, and within 2 miles either side of the 245° True and 65° True radials of the Savannah omnirange extending from Travis Field to a point 10 miles northeast of the omnirange station.

§ 601.2166 *Spartanburg, S. C., control zone.* Within a 5-mile radius of Memorial Airport and within 2 miles either side of the southwest course of Spartanburg, S. C., radio range, extending 10 miles southwest of the radio range station.

§ 601.2167 *Tallahassee, Fla., control zone.* Within a 5-mile radius of Dale Mabry Field, within 2 miles either side of the northwest course of the Tallahassee radio range extending from the radio range station to a point 10 miles northwest, and within 2 miles either side of the 162° True and 342° True radials of the Tallahassee omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station, excluding the airspace above 19,000 feet overlapping Tyndall AFB restricted area (R–336) between sunset and sunrise.

§ 601.2168 *Tampa, Fla., control zone.* That airspace within a 5-mile radius of the Tampa International Airport, within a 5-mile radius of McDill Air Force Base, within 2 miles either side of a line extending from the Tampa International Airport to the Tampa radio range station and within 2 miles either side of the southeast course of the Tampa radio range extending to a point 10 miles southeast of the radio range station, within a 5-mile radius of the Pinellas County Airport and 2 miles either side of a line extending from Pinellas County Airport to the Tampa radio range station, and within 2 miles either side of the 340° True radial of the Tampa omnirange extending from the Pinellas County Airport control zone to a point 10 miles northwest of the omnirange station and that airspace within 5 miles either side of a direct line extending from the Pinellas County Airport to the Tampa International Airport.

§ 601.2169 *Tri-City, Tenn., control zone.* Within a 5-mile radius of the Tri-City Airport and within 2 miles either side of the northeast course of Tri-City, Tenn., radio range extending 10 miles northeast of the radio range station.

§ 601.2170 *West Palm Beach, Fla., control zone.* Within a 5-mile radius of Palm Beach Air Force Base and within 2 miles either side of the west course of West Palm Beach, Fla., radio range extending 10 miles west of the radio range station.

§ 601.2171 *Winston-Salem, N. C., control zone.* Within a 5-mile radius of Smith-Reynolds Airport and within 2 miles either side of the southeast and northwest courses of Winston-Salem radio range extending 10 miles southeast of the radio range station.

§ 601.2172 *Alma, Ga., control zone.* Within a 5-mile radius of Alma Intermediate Field and within 2 miles either side of the northwest course of the Alma, Ga., radio range extending 10 miles northwest of the radio range station.

§ 601.2173 *Bakersfield, Calif., control zone.* Within a 5-mile radius of the Bakersfield-Kern County Airport and within 2 miles either side of the northwest course of Bakersfield, Calif., radio range extending 11 miles northwest of the radio range station.

§ 601.2174 *Burbank, Calif., control zone.* Within a 5-mile radius of the Lockheed Air Terminal extending to and including a 3-mile radius of the Grand Central Airport, Glendale, Calif., and 2 miles either side of the northwest course of the Burbank radio range to a point 7 miles northwest of the radio range station.

§ 601.2175 *El Centro, Calif., control zone.* Within a 5-mile radius of the Naval Air Station extending to and including a 2-mile radius of the El Centro radio range station and 2 miles either side of the east course of the El Centro radio range to a point 10 miles east of the radio range station.

§ 601.2176 *Fresno, Calif., control zone.* Within a 5-mile radius of Fresno Air Terminal extending to and including a 3-mile radius of Chandler Field, and extending 2 miles either side of the northwest and southeast courses of the Fresno, Calif., radio range to a point 10 miles from the radio range station.

§ 601.2177 *Las Vegas, Nev., control zone.* Within a 5-mile radius of McCarran Field, Las Vegas, Nev., extending 2 miles either side of the southwest course of the Las Vegas, Nev., radio range to and including a 5-mile radius of the Las Vegas, Nev., Air Force Base.

§ 601.2178 *Long Beach, Calif., control zone.* Within a 5-mile radius of the Municipal Airport extending to and including a 5-mile radius of the Los Alamitos Naval Air Station and 2 miles either side of the southeast course of the Long Beach radio range to the Huntington Beach fan marker.

§ 601.2179 *Los Angeles, Calif., control zone.* Within a 5-mile radius of the Los Angeles International Airport extending 2 miles either side of the east course of the Los Angeles, Calif., radio range to a point 6 miles east of the airport and extending 2 miles either side of the northwest course of the Los Angeles, Calif., radio range to the Burbank, Calif., control zone.

§ 601.2180 *Oakland, Calif., control zone.* Within a 5-mile radius of the Oakland Municipal Airport, within 2 miles on the northeast side and 5 miles on the southwest side of the northwest course of the Oakland radio range extending from the radio range station to a point 10 miles northwest, within 8 miles on the northwest side and 3¾ miles on the southeast side of the southwest course of the Oakland radio range extending from the radio range station to a point 6 miles southwest, and within 2 miles either side of the southeast course of the Oakland radio range extending from the radio range station to the Newark fan marker.

§ 601.2181 *Ogden, Utah, control zone.* Within a 5-mile radius of the Ogden Municipal Airport (Hinckley Field) extending to and including a 3-mile radius of Hill AFB and within 2 miles either side of the south course of the Ogden, Utah, radio range to the Layton, Utah, fan marker.

§ 601.2182 *Palmdale, Calif., control zone.* Within a 5-mile radius of Palmdale Airport and within 2 miles either side of the northeast course of the Palmdale radio range extending from the radio range station to Muroc Lake Restricted Area R–279.

§ 601.2183 *Grand Junction, Colo., control zone.* Within a 5-mile radius of Walker Field, Grand Junction, Colo., within 2 miles either side of the ILS localizer course extending from the localizer to a point 10 miles northwest.

§ 601.2184 *Prescott, Ariz., control zone.* Within a 5-mile radius of the Municipal Airport (Ernest Love Field) and within 2 miles either side of the southeast course of Prescott, Ariz., radio range to and including the area within a 2-mile radius of Prescott radio range station.

§ 601.2185 *Sacramento, Calif., control zone.* The airspace within circles of 5-mile radii centered on the Sacramento Municipal Airport and the McClellan Air Force Base and within lines drawn tangent thereto, including the airspace within 2 miles either side of the southwest course of the Sacramento radio range extending from the radio range station to a point 10 miles southwest and within 2 miles either side of a line bearing 358° True extending from McClellan AFB to Red civil airway No. 76.

§ 601.2186 *San Diego, Calif., control zone.* Within a 5-mile radius of the Municipal Airport (Lindbergh Field), extending 2 miles either side of the north course of the San Diego radio range to the La Jolla fan marker and including a 5-mile radius of the Miramar, Calif., Naval Auxiliary Air Station.

§ 601.2187 *San Francisco, Calif., control zone.* Within a 5-mile radius of San Francisco International Airport, within 2 miles either side of the northwest course of the San Francisco radio range extending from the radio range station to a point 10 miles northwest, within 10 miles on the northwest side and 2 miles on the southeast side of the northeast course of the San Francisco radio range extending from the radio range station to a point 6 miles northeast, and within 2 miles either side of the southeast course of the San Francisco radio range extending from the radio range station to a point 5 miles southeast.

§ 601.2188 *Salt Lake City, Utah, control zone.* Within a 5-mile radius of Municipal Airport No. 1, within 2 miles either side of the north course of Salt Lake City, Utah, radio range, extending to Layton fan marker and within 2 miles either side of the west course of the Salt Lake City radio range, extending 10 miles west of the radio range station.

§ 601.2189 *Olathe, Kans., control zone.* Within a 10-mile radius of the Naval Air Station excluding that portion which lies within Green civil airway No. 4 and extending 2 miles either side of the south course of the Olathe, Kans., Navy radio range to a point 10 miles south of the radio range station.

§ 601.2190 *Atlantic City, N. J., control zone.* Within a 7-mile radius of the Naval Air Station extending 2 miles on the southwest side of the southeast course of the Atlantic City, N. J., radio range to and including the airspace bounded on the west by a line bearing 174° True from the Naval Air Station, bounded on the southeast by a line lying 3 nautical miles off-shore, and bounded on the northeast by a line bearing 112° True from the Naval Air Station.

§ 601.2191 *Zanesville, Ohio, control zone.* Within a 5-mile radius of the Zanesville Municipal Airport and within 2 miles either side of a line bearing 210° True from the Municipal Airport extending from the airport to a point 10 miles southwest.

§ 601.2192 *Ontario, Calif., control zone.* Within a 5-mile radius of the Ontario International Airport and within 2 miles either side of a line bearing 89° True extending from the airport to the centerline of the northwest course of the Riverside, Calif., radio range.

§ 601.2193 *Kahului, Maui, T. H., control zone.* Within a 5-mile radius of the Kahului Airport extending 2 miles either side of the north course of the Maui radio range to the Maui radio range station.

§ 601.2194 *Hilo, Hawaii, T. H., control zone.* Within a 5-mile radius of the Hilo General Lyman Airport extending 2 miles either side of the east course of the Hilo radio range to a point 10 miles east of the radio range station.

§ 601.2195 *Windsor Locks, Conn., control zone.* Within a 5-mile radius of Bradley Field extending 2 miles either side of the ILS localizer course to a point 10 miles from the ILS localizer.

§ 601.2196 *Wilmington, Del., control zone.* Within a 5-mile radius of the New Castle County Airport extending 2 miles either side of the south course of the New Castle radio range to a point 10 miles south of the radio range station.

§ 601.2197 *Morgantown, W. Va., control zone.* Within a 5-mile radius of the Morgantown Airport extending 2 miles either side of the southeast and northwest courses of the Morgantown radio range to a point 10 miles northwest of the radio range station.

§ 601.2198 *Montpelier, Vt., control zone.* Within a 5-mile radius of the Barre-Montpelier Airport extending 2 miles either side of the northeast course of the Montpelier radio range to a point 10 miles northeast of the radio range station.

§ 601.2199 *Syracuse, N. Y., control zone.* Within a 3-mile radius of Clarence E. Hancock Airport, within 2 miles either side of the Syracuse ILS localizer course extending from the localizer to the outer marker and within 2 miles either side of a direct line extending westward from the airport to the Syracuse radio range station.

§ 601.2200 *Allentown, Pa., control zone.* Within a 5-mile radius of Allentown-Bethlehem-Easton Airport and within 2 miles either side of the northeast course of the Allentown radio range extending from the radio range station to a point 10 miles northeast; within 2 miles either side of the ILS localizer course extending from the airport to a point 10 miles beyond the outer marker, and within 2 miles either side of the 347° True radial of the Allentown omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2201 *Williamsport, Pa., control zone.* Within a 5-mile radius of the Williamsport Municipal Airport extending 2 miles either side of the west course of the Williamsport radio range to the radio range station.

§ 601.2202 *Philadelphia, Pa., control zone.* Within a 5-mile radius of the North Philadelphia Airport extending 2 miles either side of the northeast course of the Philadelphia radio range to a point 10 miles northeast of the radio range station.

§ 601.2203 *Martinsburg, W. Va., control zone.* Within a 5-mile radius of the Martinsburg Airport extending 2 miles either side of the southwest course of the Martinsburg radio range to a point 10 miles southwest of the radio range station.

§ 601.2204 *Presque Isle, Maine, control zone.* Within a 5-mile radius of the Presque Isle AFB extending 5 miles either side of the south course of the Spragueville radio range to a point 10 miles south of the radio range station.

§ 601.2205 *Chincoteague, Va., control zone.* Within a 5-mile radius of the Naval Air Station extending 2 miles either side of the west course of the Chincoteague radio range to a point 8 miles west of the radio range station excluding that portion which lies within restricted areas.

§ 601.2206 *New York, N. Y., control zone.* Within a 5-mile radius of LaGuardia Field extending 5 miles to either side of the northeast course of the LaGuardia field radio range to the Port Chester fan marker.

§ 601.2207 *White Plains, N. Y., control zone.* Within a 5-mile radius of the Westchester County Airport extending 2 miles either side of the ILS localizer course to the ILS outer marker.

§ 601.2208 *Stockton, Calif., control zone.* Within a 5-mile radius of the Stockton Field Airport extending 2 miles either side of the southeast course of the Stockton radio range to a point 10 miles southeast of the radio range station.

§ 601.2209 *Tucson, Ariz., control zone.* Within a 5-mile radius of the Davis-Monthan AFB extending to and including a 5-mile radius of Tucson Municipal Airport No. 2.

§ 601.2210 *Santa Barbara, Calif., control zone.* Within a 5-mile radius of the Municipal Airport extending 2 miles either side of the west course of the Santa Barbara radio range to a point 10 miles west of the radio range station.

§ 601.2211 *Beeville, Tex., control zone.* Within a 5-mile radius of NAAS Chase Field, Beeville, Tex., and within 2 miles either side of a line bearing 139° True from Chase Field extending to a point 8 miles south of Chase Field and within 2 miles either side of a direct line extending from Chase Field to the Normanna nondirectional radio beacon.

§ 601.2212 *Sumter, S. C., control zone.* Within a 5-mile radius of Shaw AFB, Sumter, S. C., extending 2 miles either side of the southwest course of the Shaw AFB radio range to a point 10 miles southwest of the radio range station.

§ 601.2213 *Salina, Kans., control zone.* Within a 5-mile radius of the Smoky Hill AFB and within a 5-mile radius of the Salina Municipal Airport extending 2 miles either side of the 142° True and 322° True radials of the Salina, Kans., omnirange from the Salina Municipal Airport to a point 10 miles northwest of the omnirange station, and extending 2 miles either side of the 10° True and 190° True radials of the Salina, Kans., omnirange from the Smoky Hill AFB to a point 10 miles north-northeast of the omnirange station including that airspace lying in a clockwise direction between the 322° True and 10° True radials of the Salina omnirange within a 10 mile radius of the Salina omnirange station.

§ 601.2214 *Goodland, Kans., control zone.* Within a 5-mile radius of the Goodland, Kans., Municipal Airport and within 2 miles either side of the 22° True radial of the Goodland omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2215 *San Juan, P. R., control zone.* Within an 8-statute-mile radius of a point at lat. 18°27'00" N., long. 66°03'00" W., within 2 statute miles

either side of the west course of the San Juan radio range extending from the radio range station to a point 10 miles west, and within 2 miles either side of a 277° True bearing extending from the San Juan nondirectional beacon to a point 10 miles west.

§ 601.2216 *Seattle, Wash., control zone.* Within a 5-mile radius of the Naval Air Station extending 1½ miles either side of a track 341° True to a point 7 miles northwest of the airport excluding that portion west of a line connecting Latitude 47°44'00", Longitude 122° 20'10" and Latitude 47°37'00", Longitude 122°19'10".

§ 601.2217 *Aberdeen, S. Dak., control zone.* Within a 5-mile radius of the Aberdeen Municipal Airport, Saunders Field, extending 2 miles either side of the south course of the Aberdeen radio range to a point 10 miles south of the radio range station.

§ 601.2218 *Sioux Falls, S. Dak., control zone.* Within a 5-mile radius of the Sioux Falls Municipal Airport extending 2 miles either side of the northwest course of the Sioux Falls radio range to a point 10 miles northwest of the radio range station.

§ 601.2219 *Cedar Rapids, Iowa, control zone.* Within a 5-mile radius of the Cedar Rapids Municipal Airport and within 2 miles either side of a line bearing 266° True extending from the airport to a point 10 miles west, and within 2 miles either side of a line bearing 90° True extending from the airport to a point 10 miles east.

§ 601.2220 *Lubbock, Tex., control zone.* Within a 5-mile radius of Lubbock Municipal Airport, within a 5-mile radius of Reese AFB, within 2 miles either side of the east course of the Lubbock radio range extending from Lubbock Municipal Airport to the radio range station and within 2 miles either side of the north course of the radio range extending from the radio range station to the Roundup fan marker, within 2 miles either side of the 302° True and 122° True radials of the Lubbock omnirange extending from the Lubbock airport control zone to a point 10 miles northwest of the omnirange station and within 2 miles either side of a 180° True Track from the Lubbock ILS outer marker compass locator extending from the outer marker compass locator to the airport control zone boundary.

§ 601.2221 *La Crosse, Wis., control zone.* Within a 5-mile radius of the La Crosse Municipal Airport extending 2 miles either side of the northwest course of the La Crosse radio range to a point 10 miles northwest of the radio range station and extending 2 miles either side of the 146° True radial of the La Crosse omnirange to a point 10 miles southeast of the omnirange station.

§ 601.2222 *Austin, Tex., control zone.* Within a 10-mile radius of Robert Mueller Airport including a 5-mile radius of Bergstrom AFB and within 2 miles either side of the 04° True radial of the Austin omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2223 *Charleston, W. Va., control zone.* Within a 5-mile radius of the Kanawha County Airport, extending 2 miles either side of the ILS localizer course to a point 10 miles northeast of the outer marker, and within 2 miles either side of the east and west courses of the Charleston, W. Va., radio range extending from the localizer course to a point 10 miles west of the radio range station, and within 2 miles either side of a line bearing 245° True from the Kanawaha County Airport extending to a point 10 miles southwest of the Charleston omnirange station.

§ 601.2224 *Anderson, S. C., control zone.* Within a 5-mile radius of the Anderson Airport extending 2 miles either side of the southwest course of the Spartanburg, S. C., radio range to a point 10 miles southwest of the Anderson Airport.

§ 601.2225 *Mansfield, Ohio, control zone.* Within a 5-mile radius of the Mansfield Municipal Airport extending 2 miles either side of a track 308° True to a point 10 miles northwest of the airport and extending 2 miles either side of the 130° and 310° True radials of the Mansfield omnirange from the Mansfield Municipal Airport control zone to a point 10 miles southeast of the omnirange station.

§ 601.2226 *Springfield, Ill., control zone.* Within a 5-mile radius of Capital Airport, Springfield, Ill., extending 2 miles either side of the southwest course of the Springfield radio range to a point 10 miles southwest of the radio range station, and extending 2 miles either side of the 40° True radial of the Springfield, Ill., omnirange station to a point 10 miles northeast of the omnirange station.

§ 601.2227 *Dover, Del., control zone.* Within a 6 mile radius of the Dover Air Force Base and within 2 miles either side of the southeast course of the Dover AFB radio range extending from the radio range station to a point 10 miles southeast, excluding the portion which overlaps restricted area (R–12).

§ 601.2228 *Fairbanks, Alaska, control zone.* Within a 15-mile radius of Fairbanks International Airport excluding the portion which overlaps restricted areas.

§ 601.2229 *Fairfield, Calif., control zone.* Within a 5-mile radius of the Travis Air Force Base, extending 2 miles either side of the southwest course of the Travis AFB radio range to the intersection of the southwest course of the Travis AFB radio range and the northwest course of the Oakland, Calif., radio range, and extending 3 miles either side of the northeast course of the Travis AFB radio range to a point 20 miles northeast of the radio range station.

§ 601.2230 *Brunswick, Ga., control zone.* Within a 5-mile radius of McKinnon Airport, within 2 miles either side of the north course of the Jacksonville, Fla., radio range extending from McKinnon Airport to a point 10 miles north, and within 2 miles either side of the 293° True radial of the Brunswick, Ga., omnirange extending from the omnirange station to a point 10 miles northeast of the omnirange station.

§ 601.2231 *Vero Beach, Fla., control zone.* Within a 5-mile radius of the Vero Beach Municipal Airport extending 2 miles either side of a track 291° True to a point 10 miles west of the airport.

§ 601.2232 *Norfolk, Va., control zone.* Within a 5-mile radius of the Naval Air Station and within 2½ miles either side of the west course of the Norfolk, Va., Navy radio range extending to a point 2½ miles west of the Eclipse Fan Marker excluding the portion overlapping the Norfolk Municipal Airport control zone.

§ 601.2233 *Quonset Point, R. I., control zone.* Within a 5-mile radius of the Naval Air Station excluding that portion which lies within the Providence, R. I., control zone.

§ 601.2234 *Miami, Fla., control zone.* Within a 5-mile radius of the MCAS, Miami, Fla. centered on Latitude 25°52'45", Longitude 80°15'00", excluding that portion which lies within the Miami International Airport control zone.

§ 601.2235 *Truth or Consequences, N. Mex., control zone.* Within a 5-mile radius of the Truth or Consequences Municipal Airport extending 2 miles either side of the 13° True radial of the Truth or Consequences omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2236 *Whidbey Island, Wash., control zone.* Within a 5-mile radius of the Naval Air Station (Ault Field) extending to and including a 5 mile radius of the Whidbey Island Seaplane Base (Oak Harbor), Wash., excluding that portion lying within restricted areas.

§ 601.2237 *Dyersburg, Tenn., control zone.* Within a 5-mile radius of the Dyersburg Municipal Airport and within 2 miles either side of a line bearing 95° True extending from the Dyersburg nondirectional radio beacon to a point 10 miles east of the Dyersburg Municipal Airport and within 2 miles either side of the 78° true radial of the Dyersburg omnirange extending from the airport control zone to a point 10 miles northeast of the omnirange station.

§ 601.2238 *New York, N. Y., control zone.* Within a 5-mile radius of the New York International Airport including a 5-mile radius of the Floyd Bennett NAS, extending 2 miles either side of the southeast course of the Idlewild, N. Y., radio range to its intersection with the southwest course of the Mitchel AFB radio range, extending 2 miles either side of the southwest course of the Idlewild, N. Y., radio range to its intersection with the northeast course of the Philadelphia, Pa., radio range and extending 2 miles either side of a direct line from the Scotland, N. Y., nondirectional radio beacon to the Floyd Bennett, NAS.

§ 601.2239 *Cordova, Alaska, control zone.* Within a 5-mile radius of the Cordova, Alaska (Mile 13) Airport extending 2 miles either side of the southeast course of the Cordova, Alaska (localizer) radio range to Amber civil airway No. 1 and extending 2 miles either side of the southwest course of the Cordova, Alaska (localizer) radio range to Amber civil airway No. 1.

§ 601.2240 *Milton, Fla., control zone.* Within a 5-mile radius of North Whiting Naval Air Station extending 2 miles either side of the northwest course of the North Whiting (Navy) radio range to a point 10 miles northwest of the radio range station.

§ 601.2241 *Macon, Ga., control zone.* Within a 5-mile radius of Robbins AFB excluding that portion overlapping the Cochran Field control zone.

§ 601.2242 *Lexington, Ky., control zone.* Within a 5-mile radius of the Blue Grass Airport, Lexington, Ky., within 2 miles either side of a line bearinb 222° True from the Lexington nondirectional radio beacon to a point 10 miles southwest of the non-directional beacon and within 2 miles either side of the 303° and 123° True radials of the Lexington omnirange extending from the Blue Grass Airport, control zone to a point 10 miles southeast of the omnirange station.

§ 601.2243 *Hempstead, N. Y., control zone.* Within a 5-mile radius of Mitchel Air Force Base extending 2 miles either side of the southeast course of the Mitchel AFB radio range to the Babylon fan marker.

§ 601.2244 *Quantico, Va., control zone.* Within a 5-mile radius of the Marine Corps Air Station, excluding that portion overlapping restricted areas.

§ 601.2245 *Chanute, Kans., control zone.* Within a 3-mile radius of the Chanute Municipal Airport extending 2 miles either side of the east course of the radio range to a point 10 miles from the radio range station.

§ 601.2246 *Oklahoma City, Okla., control zone.* Within a 5-mile radius of Will Rogers Municipal Airport and within 2 miles either side of the west course of the Oklahoma City radio range extending from the radio range station to the Mustang fan marker; within 2 miles either side of a direct line between the Will Rogers Municipal Airport and Tinker AFB including a 5-mile radius of Tinker AFB and within 2½ miles either side of the south and north courses of the Tinker AFB radio range extending from the Air Force Base to a point 2½ miles north of the Spencer fan marker.

§ 601.2247 *Abilene, Tex., control zone.* Within a 5-mile radius of the New Municipal Airport, within 2 miles either side of the north course of the Abilene radio range extending from the radio range station to a point 10 miles north, within 2 miles either side of a direct line extending from the Abilene radio range station to and including a 3-mile radius of the Abilene Air Force Base, within 2 miles either side of the 292° True radial of the Abilene omnirange station extending from the omnirange station to a point 5 miles west, within 2 miles either side of the 174° True and 354° True radials of the Abilene omnirange extending from the Air Force Base to a point 10 miles north of the omnirange station, and within 2 miles either side of the 112° True radial of the omnirange extending from the omnirange station to the New Municipal Airport 5-mile radius zone.

§ 601.2248 *San Antonio, Tex., control zone.* Within a 5-mile radius of the San Antonio Airport extending 2 miles either side of the north course of the San Antonio radio range to the Cibolo Creek fan marker.

§ 601.2249 *Corpus Christi, Tex., control zone.* Within a 3-mile radius of Cliff Maus Airport, within 2 miles either side of the northwest course of the Corpus Christi radio range extending from the radio range station to the Odem fan marker and within 1 mile either side of a straight line extending from Cliff Maus Airport to Cuddihy Field to include a 2-mile radius of Cuddihy Field and within 2 miles either side of the 178°–358° True radials of the Corpus Christi omnirange extending from the Cliff Maus Airport control zone to a point 10 miles north of the omnirange station.

§ 601.2250 *Tyler, Tex., control zone.* Within a 5-mile radius of Pounds Field extending 2 miles either side of the northwest course of the radio range to a point 5 miles northwest of the radio range station.

§ 601.2251 *Albany, Ga., control zone.* Within a 5-mile radius of the Municipal Airport extending 2 miles either side of the west and east courses of the Albany radio range to a point 10 miles east of the radio range station, including a 5-mile radius of Turner Air Force Base, and extending 2 miles either side of the north and south courses of the Albany radio range to a point 10 miles south of the radio range station and within 2 miles either side of the 155° True and 335° True radials of the Albany omnirange extending from the Municipal Airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2252 *El Toro, Calif., control zone.* Within a 5-mile radius of the El Toro, Calif., Marine Corps Air Station, within a 3-mile radius of Orange County Airport, Santa Ana, Calif., and within 5 miles either side of the south and north courses of the El Toro radio range extending from Amber civil airway No. 1 on the south to Amber civil airway No. 2 and Green civil airway No. 5 on the north.

§ 601.2253 *Sedalia, Mo., control zone.* Within a 5-mile radius of Sedalia Air Force Base and within 2 miles either side of a line bearing 191° True from the Air Force Base extending to a point 20 miles southwest of the AFB.

§ 601.2254 *Falmouth, Mass., control zone.* Within a 5 mile radius of Otis Air Force Base and within 2 miles either side of a line bearing 39° True extending from the Otis AFB to a point 10 miles northeast of the Air Force Base, excluding the portion which overlaps Camp Edwards restricted area (R–14).

§ 601.2255 *Aguadilla, P. R., control zone.* Within a 10-mile radius of the Ramey, AFB, Aguadilla, P. R.

§ 601.2256 *Parkersburg, W. Va., control zone.* Within a 5-mile radius of Wood County Airport and within 2 miles either side of the 29° and 209° True radials of the Parkersburg omnirange extending from the airport to a point 10 miles northeast of the omnirange station.

§ 601.2257 *Rantoul, Ill., control zone.* Within a 5-mile radius of the Chanute AFB, Rantoul, Ill., extending 2 miles either side of the southwest course of the Chanute AFB radio range to a point 10 miles southwest of the radio range station.

§ 601.2258 *Wichita Falls, Tex., control zone.* Within a 5-mile radius of Sheppard AFB, Wichita Falls, Tex., extending 2 miles either side of the southeast course of the Wichita Falls, Tex., radio range to the Jolly fan marker.

§ 601.2259 *Kodiak, Alaska, control zone.* Within a 5-mile radius of the Kodiak Naval Air Base, Kodiak, Alaska, extending 2 miles either side of the southwest course of the Kodiak radio range to the radio range station.

§ 601.2260 *Fort Smith, Ark., control zone.* Within a 5-mile radius of the Fort Smith Municipal Airport extending 2 miles either side of a track 8° True to a point 10 miles north of the airport and within 2 miles either side of the 54° True and 234° True radials of the Fort Smith omnirange extending from the airport to a point 10 miles northeast of the omnirange station, and within 2 miles either side of the 81° True course of the Fort Smith ILS localizer extending from the airport to a point 12 miles east.

§ 601.2261 *Yakataga, Alaska, control zone.* Within a 5-mile radius of the Yakataga Airport extending 2 miles either side of the south course of the Yakataga radio range to Amber civil airway No. 1.

§ 601.2262 *Honolulu, T. H., control zone.* Within a 5-mile radius of the Honolulu International Airport extending 2 miles either side of the southwest course of the Honolulu radio range to a point 10 miles southwest of the radio range station.

§ 601.2263 *Lafayette, La., control zone.* Within a 5-mile radius of Lafayette Airport, within 2 miles either side of the 172° True radial of the Lafayette omnirange extending from the omnirange station to a point 10 miles south, and within 2 miles either side of a line bearing 187° True from the Lafayette non-directional radio beacon extending from the non-directional radio beacon to a point 10 miles south.

§ 601.2264 *Spokane, Wash., control zone.* Within a 5-mile radius of Geiger Field and within a 3-mile radius of Fairchild AFB including the airspace within 2 miles either side of the southwest course of the Geiger Field ILS localizer extending from Geiger Field to a point 10 miles southwest of the ILS outer marker.

§ 601.2265 *Wright-Patterson AFB, Ohio, control zone.* Within a 5-mile radius of Patterson Field including a 5-mile radius of Wright Field, within 2 miles either side of the south course of the Wright-Patterson AFB radio range extending from the radio range station to the Fairfield Fan Marker and within 2 miles either side of a 31° True bearing

extending from the Wright-Patterson AFB radio range to a point 10 miles northeast of Patterson Field.

§ 601.2266 *Springfield, Ohio, control zone.* Within a 5-mile radius of the Springfield Municipal Airport extending 2 miles either side of a 51° True track from the end of the northeast-southwest runway to a point 10 miles northeast of the Springfield Airport.

§ 601.2267 *Baltimore, Md., control zone.* Within a 5-mile radius of the Baltimore, Md., Friendship International Airport, extending 2 miles either side of the ILS localizer course to a point 10 miles west of the outer marker.

§ 601.2268 *Ottumwa, Iowa, control zone.* Within a 5-mile radius of Ottumwa Municipal Airport and within 2 miles either side of the 311° and 131° True radials of the Ottumwa omnirange extending from the airport control zone to a point 10 miles southeast of the omnirange station.

§ 601.2269 *Fort Dix, N. J., control zone.* Within a 7-mile radius of the McGuire Air Force Base extending 5 miles either side of the southwest course of the McGuire AFB radio range to a point 10 miles southwest of the radio range station, excluding that portion which lies over Red civil airway No. 3, the Fort Dix, N. J., restricted area, and the Lakehurst, N. J., caution area.

§ 601.2270 *Enid, Okla., control zone.* Within a 5-mile radius of the Vance Air Force Base extending 2 miles either side of the northeast course of the Vance AFB radio range to a point 10 miles northeast of the radio range station and within 2 miles either side of a line bearing 315° True from the Vance Air Force Base extending from the Air Force Base to a point 10 miles northwest of the Enid omnirange station.

§ 601.2271 *Saginaw, Mich., control zone.* Within a 5-mile radius of the Tri City Airport, Saginaw, Mich., extending 2 miles either side of a track 347° True from the Saginaw non-directional radio beacon to a point 10 miles north of the non-directional radio beacon.

§ 601.2272 *Wake Island control zone.* Within a 5-mile radius of Wake Island Airport (Lat. 19°16'53'', Long. 166°38'-40''), within 2 miles either side of a line bearing 102° True extending from the Wake HHW Type non-directional radio beacon (Lat. 19°18'18'', Long. 166°38'-22''), to a point 10 miles east, and within 2 miles either side of a line bearing 282° True extending from the Wake MHW Type non-directional radio beacon (Lat. 19°17'05'', Long. 166°37'26'') to a point 10 miles west.

§ 601.2273 *Cincinnati, Ohio, control zone.* Within a 5-mile radius of Greater Cincinnati Airport, Covington, Ky., extending 2 miles either side of the front course of the Cincinnati ILS localizer to its intersection with the southwest course of the Cincinnati radio range, extending 2 miles either side of the back course of the Cincinnati ILS localizer to its intersection with the northwest course of the Cincinnati radio range, and extending 2 miles either side of the 223° True radial of the Cincinnati omnirange to a point 10 miles southwest of the omnirange station.

§ 601.2274 *Craig AFB, Selma, Ala., control zone.* Within a 5-mile radius of the Craig Air Force Base extending 2 miles either side of the southeast course of the Craig AFB radio range to a point 10 miles southeast of the radio range station.

§ 601.2275 *Pensacola, Fla., control zone.* Within a 5-mile radius of the NAAS Saufley Field, Pensacola, Fla., excluding that portion which overlaps Blue civil airway No. 59.

§ 601.2276 *Westover, Mass., control zone.* Within a 5-mile radius of Westover AFB extending 2 miles either side of the northeast course of the Westover AFB (Chicopee) radio range to a point 10 miles northeast of the Quabbin fan marker, excluding that portion which overlaps the Barnes Airport, Westfield, Mass., control zone, and excluding the airspace within ½ mile radius of the Springfield, Mass., Municipal Airport.

§ 601.2277 *Carlsbad, N. Mex., control zone.* Within a 5-mile radius of Carlsbad Airport and within 2 miles either side of the 345° and 165° True radials of the Carlsbad omnirange extending from the airport control zone to a point 3 miles southeast of the omnirange station.

§ 601.2278 *New Bedford, Mass., control zone.* Within a 5-mile radius of the New Bedford Municipal Airport extending 2 miles either side of the ILS localizer course to a point 10 miles southwest of the localizer.

§ 601.2279 *Anchorage, Alaska, control zone.* Within a 10-mile radius of Anchorage International Airport (lat. 61°10'00'', long. 149°59'30'').

§ 601.2280 *Hobbs, N. Mex., control zone.* Within a 15-mile radius of Lea County Airport, Hobbs, N. Mex., within 2 miles either side of the north course of the Hobbs radio range extending to a point 10 miles north of the radio range station and within 2 miles either side of the 45° True radial of the Hobbs omnirange extending to a point 10 miles northeast of the omnirange station.

§ 601.2281 *Tacoma, Wash., control zone.* Within a 5-mile radius of McChord AFB, excluding the portion which overlaps the Fort Lewis, Wash., restricted area.

§ 601.2282 *Mt. Clemens, Mich., control zone.* Within a 7-mile radius of Selfridge AFB extending 2 miles either side of the north course of the Selfridge AFB radio range to a point 10 miles north of the radio range station.

§ 601.2283 *Atlanta, Ga., control zone.* Within a 5-mile radius of Dobbins AFB extending 2 miles either side of the west course of the Atlanta NAS radio range from the Dobbins AFB control zone to the Atlanta NAS control zone.

§ 601.2284 *Traverse City, Mich., control zone.* Within a 5-mile radius of Traverse City Airport extending 2 miles either side of the southeast course of the Traverse City radio range to a point 10 miles southeast of the radio range station.

§ 601.2285 *Victorville, Calif., control zone.* Within a 5-mile radius of George AFB, Victorville, Calif., extending 2 miles either side of a track bearing 360° True from the George AFB to a point 15 miles north.

§ 601.2286 *Columbus, Ga., control zone.* Within a 5-mile radius of the Muscogee County Airport, within 2 miles either side of the north course of the Columbus, Ga., radio range extending from the radio range station to include a 5-mile radius of Lawson Air Force Base, within 2 miles either side of the southwest course of the radio range extending from the radio range station to a point 10 miles southwest, and within 2 miles either side of the 57° True radial of the Columbus omnirange extending from the omnirange station to a point 10 miles northeast, excluding the airspace which overlaps restricted areas.

§ 601.2287 *San Antonio, Tex., control zone.* Within a 5-mile radius of Randolph Air Force Base and within 5 miles either side of a line extending from the Air Force Base to the La Vernia nondirectional radio beacon.

§ 601.2288 *Longview, Tex., control zone.* Within a 5-mile radius of Gregg County Airport, within 2 miles either side of a line bearing 188° True from the airport extending from the airport to a point 10 miles south, and within 2 miles either side of the 313° True radial of the Gregg County, Tex., omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2289 *Houghton, Mich., control zone.* Within a 5-mile radius of the Houghton County Airport extending 2 miles either side of the north course of the Houghton radio range to a point 10 miles north of the radio range station.

§ 601.2290 *Grand Marais, Mich., control zone.* Within a 5-mile radius of Grand Marais Airport extending 2 miles either side of the west course of the Grand Marais radio range to a point 10 miles west of the radio range station.

§ 601.2291 *Sault Ste. Marie, Mich., control zone.* Within a 10-mile radius of Kinross Airport, Sault Ste. Marie, Mich., extending 5 miles either side of the ILS localizer course to a point 10 miles northwest of the ILS outer marker compass locator, excluding that portion which lies outside the continental United States.

§ 601.2292 *Oceana, Va., control zone.* Within a 5-mile radius of the Oceana Virginia Naval Auxiliary Air Station excluding the portion overlapping restricted areas.

§ 601.2293 *Chicago, Ill., control zone.* Within a 5-mile radius of the Chicago O'Hare International Airport extending 2 miles either side of the O'Hare ILS localizer course to a point 10 miles northwest of the O'Hare outer marker.

§ 601.2294 *Nantucket, Mass., control zone.* Within a 5-mile radius of Nantucket Memorial Airport and within 2 miles either side of the 45° True radial of the Nantucket omnirange extending from the omnirange station to a point 10 miles northeast.

§ 601.2295 *Andrews, Md., control zone.* Within a 5-mile radius of the Andrews, Md., Air Force Base extending 2½ miles either side of the north course of the Andrews AFB radio range to the Andrews AFB radio range station excluding that portion which overlaps the Washington National Airport control zone.

§ 601.2296 *Valparaiso, Fla., control zone.* Within a 5-mile radius of Elgin AFB, Valparaiso, Fla., extending 2 miles either side of the north course of the Elgin AFB radio range to the southern boundary of Red civil airway No. 30.

§ 601.2297 *Jackson, Mich., control zone.* Within a 5-mile radius of Reynolds Airport, Jackson, Mich., extending 2 miles either side of a line bearing 313° True from the Jackson, Mich., non-directional radio beacon to a point 10 miles northwest.

§ 601.2298 *Omaha, Nebr., control zone.* Within a 5-mile radius of Offutt AFB and within 2 miles either side of a direct line from the center of Offutt AFB to the Weeping Water, Nebr., nondirectional radio beacon extending from the Offutt AFB to a point 10 miles southwest of Offutt AFB.

§ 601.2299 *Limestone, Maine, control zone.* That airspace over United States territory within a 6-mile radius of Loring Air Force Base, Limestone, Maine, within 2 miles either side of a direct line extending between the Loring Air Force Base, and the Loring AFB omnirange station, and within 2 miles either side of a direct line extending between the Loring AFB nondirectional radio beacon and the Presque Isle, Maine, radio range station excluding the portion which overlaps the Presque Isle control zone.

§ 601.2300 *Upolu Point, Hawaii, T. H., control zone.* Within a 5-mile radius of the Upolu Point Airport and within 2 miles either side of the 261° True radial of the Upolu Point omnirange extending from the omnirange station to a point 10 miles west.

§ 601.2301 *Waco, Tex., control zone.* Within a 5-mile radius of the Waco Municipal Airport and within a 5-mile radius of the Connally AFB, Waco, Tex.

§ 601.2302 *Willow Grove, Pa., control zone.* Within a 5-mile radius of a point located at lat. 40°11'40'', long. 75°06'25'' and within 2 miles either side of the northeast and northwest courses of the Willow Grove (Navy) radio range extending from the radio range station to points 10 miles northeast and northwest.

§ 601.2303 *Great Falls, Mont., control zone.* Within a 5-mile radius of Great Falls Municipal Airport, within a 5-mile radius of Great Falls Air Force Base, and within 2 miles either side of direct lines extending from the Great Falls ILS outer marker to the Great Falls Municipal Airport and to the Great Falls Air Force Base.

§ 601.2304 *Binghamton, N. Y., control zone.* Within a 5-mile radius of Broome County Airport, within 2 miles either side of the ILS localizer course extending from the airport to a point 10 miles beyond the outer marker compass locator, and within 2 miles either side of the 66° True and 246° True radials of the Binghamton omnirange extending from the airport to a point 5 miles southwest of the omnirange station.

§ 601.2305 *Lawton, Okla., control zone.* Within a 3-mile radius of Lawton Municipal Airport and within 2 miles either side of the 357° True and 177° True radials of the Lawton omnirange extending from the Lawton Municipal Airport to a point 10 miles south of the omnirange station.

§ 601.2306 *Paducah, Ky., control zone.* Within a 5-mile radius of the Paducah Municipal Airport (Barkley Field) and within 2 miles either side of a line bearing 220° True, from the non-directional radio beacon extending from the Paducah Municipal Airport to a point 10 miles southwest.

§ 601.2307 *Brunswick, Maine, control zone.* Within a 5-mile radius of the Brunswick, Maine, Naval Air Station, excluding the portion which overlaps Amber civil airway No. 7, and within 2 miles either side of a line bearing 173° True from the Brunswick NAS non-directional radio beacon extending to a point 10 miles south of the non-directional radio beacon.

§ 601.2308 *Valdosta, Ga., control zone.* All that area within a 10-mile radius of Moody AFB, Valdosta, Ga.

§ 601.2309 *Valdosta, Ga., control zone.* All that area within a 5-mile radius of the Valdosta Municipal Airport, excluding that portion which overlaps the Moody AFB control zone, and within 2 miles either side of the 4° True and 184° True radials of the Valdosta omnirange extending from the 5-mile radius control zone to a point 10 miles southwest of the omnirange station.

§ 601.2310 *Oscoda, Mich., control zone.* Within a 10-mile radius of the Oscoda AFB extending 5 miles either side of the ILS localizer course to a point 10 miles southwest of the ILS outer marker compass locator, excluding the portion which overlaps restricted areas.

§ 601.2311 *San Antonio, Tex., control zone.* Within a 5-mile radius of Kelly AFB and within 5 miles either side of a direct line from the Kelly AFB through the Leon nondirectional radio beacon extending from the AFB to a point 2½ miles northwest of the Leon non-directional radio beacon.

§ 601.2312 *Columbus, Ind., control zone.* Within a 5-mile radius of Atterbury AFB and within 2 miles either side of a line bearing 44° True from the Atterbury AFB to a point 10 miles northeast excluding the portion which overlaps restricted areas.

§ 601.2313 *Pittsburgh, Pa., control zone.* Within a 5-mile radius of Greater Pittsburgh Airport, within 2 miles either side of the Greater Pittsburgh Airport ILS localizer southeast course extending southeastward from the ILS localizer to the boundary of the Allegheny County Airport control zone, and within 2 miles either side of bearings of 90° True and 270° True from the Greater Pittsburgh Airport extending through the Greater Pittsburgh nondirectional radio beacon to a point 10 miles east of the radio beacon and through the Clinton nondirectional radio beacon to a point 10 miles west of the radio beacon.

§ 601.2314 *Bryan, Tex., control zone.* Within a 5-mile radius of Bryan AFB including a 3-mile radius of Easterwood Airport, College Station, Tex., within 2 miles either side of the northwest course of the Bryan radio range extending from the radio range station to a point 10 miles northwest, and within 2 miles either side of the 107°–287° True radials of the College Station omnirange extending from the Easterwood Airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2315 *San Bernardino, Calif., control zone.* Within a 5-mile radius of Norton Air Force Base and within 2¼ miles either side of a line bearing 248° True extending from the Norton AFB to the centerline of the northwest course of the Riverside, Calif., radio range.

§ 601.2316 *Marianna, Fla., control zone.* Within a 5-mile radius of the Marianna Airport and within 2 miles either side of the 130° True radial of the Marianna omnirange extending from the omnirange station to a point 10 miles southeast.

§ 601.2317 *Tuscaloosa, Ala., control zone.* Within a 5-mile radius of the Van De Graaff Airport and within 2 miles either side of the 60° True radial of the Tuscaloosa omnirange extending from the omnirange station to a point 10 miles northeast.

§ 601.2318 *Myrtle Beach, S. C., control zone.* Within a 5-mile radius of the Myrtle Beach Municipal Airport and within 2 miles either side of the 47° True radial of the Myrtle Beach omnirange extending from the omnirange station to a point 10 miles northeast, and within 2 miles either side of a line bearing 198° True extending from the Myrtle Beach nondirectional radio beacon to a point 10 miles southwest.

§ 601.2319 *Malden, Mo., control zone.* Within a 5-mile radius of the Malden Airport and within 2 miles either side of the 300° and 120° True radials of the Malden omnirange extending from the airport to a point 10 miles southeast of the omnirange station.

§ 601.2320 *Midland, Tex., control zone.* Within a 5-mile radius of Midland Air Terminal, within 2 miles on the southeast side and 4 miles on the northwest side of the southwest course of the Midland ILS localizer extending from the localizer to a point 15 miles southwest, and within 2 miles either side of the 011.5° True radial of the Midland omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2321 *Oxnard, Calif., control zone.* Within a 5-mile radius of Oxnard

AFB and within 2 miles on the north side and 5 miles on the south side of a line bearing 271° True from the center of Oxnard AFB extending from the 5-mile radius control zone to the southwestern boundary of Amber civil airway No. 8.

§ 601.2322 *Fort Worth, Tex., control zone.* Within a 5-mile radius of Amon Carter Field, Fort Worth, Tex., within 2 miles either side of the Amon Carter ILS localizer northwest course extending from the localizer to the Amon Carter ILS outer marker, within 2 miles either side of a 180°–360° True track through the Grand Prairie, Tex., nondirectional radio beacon (located at Lat. 32°44'05", Long. 97°02'45") extending from Amon Carter Field to a point 5 miles south of the Grand Prairie nondirectional radio beacon, within 3 miles either side of a direct line from the center of Amon Carter Field to the center of Love Field, Dallas, Tex., extending from Amon Carter Field to the boundary of the Dallas control zone, and within 3 miles either side of a direct line from the center of Amon Carter Field to the center of Meacham Field, Fort Worth, Tex., extending from Amon Carter Field to the boundary of the Meacham Field control zone.

§ 601.2323 *Grand Prairie, Tex., control zone.* All that airspace surrounding Hensley Field, Grand Prairie, Tex., bounded on the west, north and east by the boundaries of the Amon Carter Field, Fort Worth, Tex., control zone and Dallas, Tex., control zone, and on the south by a line extending from the southeastern corner of the Amon Carter Field control zone to the southwestern corner of the Dallas control zone.

§ 601.2324 *New Bern, N. C., control zone.* Within a 6-mile radius of Simmons-Nott Airport and within 2 miles either side of a line bearing 265° True extending from the New Bern nondirectional radio beacon to a point 10 miles west of the radio beacon, excluding the portion which overlaps Cherry Point Restricted Area R–123; excluding the portion above 11,000 feet MSL during the period from sunset to sunrise lying within the confines of Amber civil airway No. 9 and excluding the portion above 5,500 feet MSL during the period from sunset to sunrise lying west of Amber civil airway No. 9, in order to avoid conflict with Cherry Point night Restricted Area R–125 published in § 608.41 of this chapter.

§ 601.2325 *Hyannis, Mass., control zone.* Within a 3-mile radius of Barnstable Airport, Hyannis, Mass., and within 2 miles either side of a line bearing 48° True extending from the airport to a point 10 miles northeast, excluding the portion which lies beyond the shoreline.

§ 601.2326 *Martha's Vineyard, Mass., control zone.* Within a 3-mile radius of Martha's Vineyard Airport and within 2 miles either side of a line bearing 180° True from the Martha's Vineyard Airport extending from the airport to a point 10 miles south.

§ 601.2327 *Baton Rouge, La., control zone.* Within a 5-mile radius of Harding Field, within a 3-mile radius of East Baton Rouge Parish Airport, within 2 miles either side of the northwest course of the Baton Rouge radio range extending from the radio range station to a point 10 miles northwest, within 2 miles either side of a 314°–134° True track through the Baton Rouge ILS outer marker compass locator extending from the Harding Field control zone to a point 10 miles northwest of the outer marker compass locator, and within 2 miles either side of the 72°–252° True radials of the Baton Rouge omnirange extending from the Harding Field control zone to a point 10 miles southwest of the omnirange station.

§ 601.2328 *Manchester, N. H., control zone.* Within a 5-mile radius of Grenier Air Force Base and within 2 miles either side of lines bearing 337° True and 157° True from the Manchester nondirectional radio beacon extending from the 5-mile radius zone to a point 10 miles southeast of the nondirectional radio beacon.

§ 601.2329 *Gage, Okla., control zone.* Within a 5-mile radius of Gage Airport and within 2 miles either side of the 299°–119° True radials of the Gage omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2330 *Alexandria, La., control zone.* Within a 5-mile radius of Alexandria AFB, within 2 miles either side of the northwest and southeast courses of the Alexandria radio range extending from the AFB control zone to a point 10 miles southeast of the radio range station, and within 2 miles either side of the 156°–336° True radials of the Alexandria omnirange extending from the AFB control zone to a point 10 miles southeast of the omnirange station.

§ 601.2331 *Lake Charles, La., control zone.* Within a 5-mile radius of the Lake Charles Air Force Base; within 2 miles either side of the south course of the Lake Charles radio range extending from the radio range station to a point 10 miles south; within 2 miles either side of the 334° True and 154° True radials of the Lake Charles omnirange extending from the Air Force Base control zone to a point 10 miles southeast of the omnirange station, and within 2 miles either side of a direct line extending from the Air Force Base through the Lake Charles AFB nondirectional radio beacon to a point 10 miles northwest of the nondirectional radio beacon.

§ 601.2332 *Beaumont, Tex., control zone.* Within a 5-mile radius of Jefferson County Airport, Beaumont, Tex., within 2 miles either side of the north course of the Beaumont radio range extending from the radio range station to a point 10 miles north, and within 2 miles either side of the 248°–68° True radials of the Beaumont omnirange extending from the airport control zone to a point 10 miles southwest of the omnirange station.

§ 601.2333 *Palacios, Tex., control zone.* Within a 3-mile radius of Palacios Airport and within 2 miles either side of the 305°–125° True radials of the Palacios omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2334 *Alice, Tex., control zone.* Within a 5-mile radius of Alice Airport and within 2 miles either side of the west course of the Alice radio range extending from the radio range station to a point 10 miles west.

§ 601.2335 *Eau Claire, Wis., control zone.* Within a 5-mile radius of the Eau Claire, Wis., Airport and within 2 miles either side of the 04° True radial of the Eau Claire omnirange extending from the omnirange station to a point 10 miles north.

§ 601.2336 *Green Bay, Wis., control zone.* Within a 5-mile radius of the Austin-Straubel Airport, Green Bay, Wis., and within 2 miles either side of the 322° True radial of the Green Bay omnirange extending from the airport control zone to a point 10 miles northwest of the omnirange station.

§ 601.2337 *Wausau, Wis., control zone.* Within a 5-mile radius of Alexander Airport, Wausau, Wis., and within 2 miles either side of the 166°–346° True radials of the Wausau omnirange extending from the airport control zone to a point 10 miles southeast of the omnirange station.

§ 601.2338 *Phoenix, Ariz., control zone.* Within a 5-mile radius of Sky Harbor Municipal Airport, Phoenix, Ariz., and within 2 miles either side of the east course of the Phoenix radio range extending from the radio range station to a point 10 miles east.

§ 601.2339 *Douglas, Ariz., control zone.* Within a 5-mile radius of the Douglas-Bisbee International Airport and within 2 miles either side of the 311° True radial of the Douglas omnirange extending from the omnirange station to a point 10 miles northwest.

§ 601.2340 *Sanford, Fla., control zone.* Within a 5-mile radius of the Naval Auxiliary Air Station, Sanford, Fla., within 2 miles either side of a 270° True bearing extending from the Sanford Navy nondirectional radio beacon to a point 10 miles west, and within 2 miles either side of a 190° True bearing extending from the Sanford Navy nondirectional radio beacon to the Orlando, Fla., control zone.

§ 601.2341 *Utica, N. Y., control zone.* Within a 5-mile radius of Oneida County Airport, Utica, N. Y., excluding the portion which overlaps the Griffis AFB control zone.

§ 601.2342 *Ardmore, Okla., control zone.* Within a 5-mile radius of Ardmore Air Force Base and within 2 miles either side of the 54° True radial of the Ardmore omnirange extending from the AFB control zone to the omnirange station.

§ 601.2343 *Pine Bluff, Ark., control zone.* Within a 3-mile radius of Grider Field, within 2 miles either side of a line bearing 177° True extending from the Pine Bluff nondirectional radio beacon to a point 5 miles south, and within 2 miles either side of the 186° True and 006° True radials of the Pine Bluff omnirange extending from Grider Field to a point 5 miles north of the omnirange station.

§ 601.2344 *Gulfport, Miss., control zone.* The airspace within a 3-mile radius of the Gulfport Municipal Airport and within 3 miles either side of a direct line extending from the Gulfport Municipal Airport to the Keesler Air Force Base, Biloxi, Miss., excluding the portion which overlaps the Biloxi control zone, shall be designated a control zone during the period beginning at 0001 c. s. t. June 1 to 2400 c. s. t., September 15, 1955, and annually thereafter.

§ 601.2345 *Calverton, N. Y., control zone.* Within a 5-mile radius of Grumman-Peconic River Airport and within 2 miles either side of a line bearing 46° True from the airport to a point 10 miles northeast of the Riverhead omnirange station excluding the airspace which overlaps the Suffolk County AFB control zone, Westhampton Beach, Long Island, N. Y.

§ 601.2346 *Guam Island control zone.* All of the airspace from the surface upward within a radius of 5 nautical miles of Anderson Air Force Base, centered at Lat. 13°35'00" N., Long. 144°55'00" E.

§ 601.2347 *Guam Island control zone.* All of the airspace from the surface upward within a radius of 5 nautical miles of Agana Naval Air Station, centered at Lat. 13°29'00" N., Long. 144°47'00" E.

§ 601.2348 *Midway Island control zone.* All of the airspace from the surface upward within a radius of 5 nautical miles of Midway Naval Station, centered at Lat. 28°12'00" N., Long. 177°22'00" W.

§ 601.2349 *Kwajalein Island control zone.* All of the airspace from the surface upward within a radius of 5 nautical miles of Kwajalein Naval Station, centered at Lat. 8°45'00" N., Long. 167°45'00" E.

§ 601.2350 *Childress, Tex., control zone.* Within a 3-mile radius of Childress Airport and within 2 miles either side of the 02° and 182° True radials of the Childress omnirange extending from the 3-mile radius zone to a point 10 miles south of the omnirange station.

§ 601.2351 *Cotulla, Tex., control zone.* Within a 3-mile radius of Cotulla Airport, within 2 miles either side of a line bearing 320° True extending from the Cotulla nondirectional radio beacon to a point 10 miles northwest, and within 2 miles either side of the 265° True and 85° True radials of the Cotulla omnirange extending from the 3-mile radius zone to a point 10 miles east of the omnirange station.

§ 601.2352 *Dalhart, Tex., control zone.* Within a 3-mile radius of Dalhart Municipal Airport, within 2 miles either side of a line bearing 132° True extending from the Dalhart nondirectional radio beacon to a point 10 miles southeast and within 2 miles either side of the 184° and 04° True radials of the Dalhart omnirange extending from the airport to a point 10 miles north of the omnirange station.

§ 601.2353 *Lufkin, Tex., control zone.* Within a 3-mile radius of Angelina Airport, Lufkin, Tex., within 2 miles either side of a line bearing 157° True extending from the airport to a point 14 miles southeast, and within 2 miles either side of a line bearing 304° True extending from the Lufkin nondirectional radio beacon to a point 10 miles northwest.

§ 601.2354 *Texarkana, Ark., control zone.* Within a 5-mile radius of the Texarkana Municipal Airport, within 2 miles either side of the 332° True radial of the Texarkana omnirange extending from the omnirange station to a point 10 miles northwest and within 2 miles either side of the north course of the Texarkana radio range extending from the radio range station to a point 10 miles north.

§ 601.2355 *Walnut Ridge, Ark., control zone.* Within a 3-mile radius of Walnut Ridge Airport and within 2 miles either side of the 244° True radial of the Walnut Ridge omnirange extending from the omnirange station to a point 10 miles southwest.

§ 601.2356 *Hobart, Okla, control zone.* Within a 3-mile radius of Hobart Airport and within 2 miles either side of a line bearing 183° True extending from the airport to a point 12 miles south.

§ 601.2357 *Brunswick, Ga., control zone.* Within a 5-mile radius of NAAS Glynco, Brunswick, Ga., and within 2 miles either side of the northeast course of the Glynco (Navy) radio range extending from the radio range station to a point 10 miles northeast excluding the portion which overlaps the McKinnon Airport control zone, Brunswick, Ga.

§ 601.2358 *Clovis, N. Mex., control zone.* Within a 5-mile radius of the Clovis Air Force Base and within 2 miles either side of a line bearing 222° True extending from the Air Force Base to a point 7½ miles southwest of the Air Force Base.

§ 601.2359 *Victoria, Tex., control zone.* Within a 5-mile radius of Foster Air Force Base, Victoria, Tex., within 1 mile either side of a direct line extending from Foster AFB to and including a 5-mile radius of Victoria County Airport and within 2 miles either side of a line extending from Foster AFB through the Foster AFB nondirectional radio beacon to a point 2 miles northwest of the nondirectional radio beacon.

§ 601.2360 *South Weymouth, Mass., control zone.* Within a 4-mile radius of the South Weymouth Naval Air Station and within 1½ miles east of and 2½ miles west of and parallel to a line bearing 155° True extending from the Naval Air Station to a point 10 miles southeast of the South Weymouth nondirectional radio beacon.

§ 601.2361 *Grosse Ile, Mich., control zone.* That airspace over United States territory within a 3-mile radius of the Grosse Ile, Mich., Naval Air Station and within 2 miles either side of a line bearing 209° True extending from the Naval Air Station to a point 10 miles southwest of the Grosse Ile nondirectional radio beacon.

§ 601.2362 *Merced, Calif., control zone.* Within a 5-mile radius of Castle Air Force Base, Merced, Calif., including the airspace within that portion of a circle of a 16-mile radius centered on Castle AFB bounded on the northeast by a line 2 miles northeast of and parallel to a line drawn from the AFB through the Castle AFB omnirange station and bounded on the west by a line 2 miles west of and parallel to a line drawn from the AFB through the Bear Creek nondirectional radio beacon.

§ 601.2363 *Elizabeth City, N. C., control zone.* Within a 3-mile radius of CGAS Elizabeth City, N. C., and within 2 miles either side of the southeast course of the Weeksville, N. C., Navy radio range extending to a point 8 miles southeast of the radio range station.

§ 601.2364 *Hopkinsville, Ky., control zone.* Within a 5-mile radius of Campbell AFB, Hopkinsville, Ky., within 2 miles either side of the 224° True and 44° True radials of the Campbell AFB omnirange extending from the five-mile radius zone to a point 10 miles northeast of the omnirange station, and within 2 miles either side of a 224° True bearing extending from the five-mile radius zone through the Campbell AFB nondirectional radio beacon to a point 10 miles southwest of the nondirectional radio beacon, excluding the portions which overlap Campbell Restricted Area R–63.

§ 601.2365 *Salem, Oreg., control zone.* Within a 3-mile radius of McNary Airport and within 2 miles either side of a line bearing 150° True extending from the airport to a point 5 miles southeast.

§ 601.2366 *Riverside, Calif., control zone.* Within a 5-mile radius of March AFB and within 2 miles either side of a line extending from March AFB through the Riverside omnirange station to a point 5 miles southeast of the omnirange station.

§ 601.2367 *Fort Bragg, N. C., control zone.* Within a 5-mile radius of Pope AFB and within 2 miles either side of a line bearing 49° True extending from the Air Force Base to a point 7 miles northeast, excluding the portion which overlaps the Fort Bragg Restricted Area R–115.

§ 601.2368 *Sault Ste. Marie, Mich., control zone.* That airspace over United States territory within a 5-mile radius of the Sault Ste. Marie Municipal Airport and within 2 miles either side of the southeast course of the Sault Ste. Marie radio range extending from the radio range station to a point 12 miles southeast.

§ 601.2369 *Sacramento, Calif., control zone.* Within a 5-mile radius of Mather Air Force Base, Sacramento, Calif., and within 2 miles either side of a line extending from the Mather AFB to the Mather nondirectional radio beacon.

SUBPART E—COLORED CIVIL AIRWAY REPORTING POINTS

DESIGNATION OF REPORTING POINTS

§ 601.4001 *Designation of reporting points.* The locations described in Sub-

part E and Subpart G are designated as reporting points.

GREEN CIVIL AIRWAYS

§ 601.4011 *Green civil airway No. 1 (Patricia Bay, British Columbia, to United States-Canadian Border via Millinocket, Maine).* Millinocket, Maine, radio range station.

§ 601.4012 *Green civil airway No. 2 (Seattle, Wash., to Boston, Mass.).* Seattle, Wash., radio range station; Ellensburg, Wash., radio range station; Ephrata, Wash., radio range station; Spokane, Wash., radio range station; Mullan Pass, Mont., radio range station; Missoula, Mont., radio range station; Drummond, Mont., radio range station; Helena, Mont., radio range station; Bozeman, Mont., radio range station; Livingston, Mont., radio range station; Billings, Mont., radio range station; Miles City, Mont., radio range station; Dickinson, N. Dak., radio range station; Bismarck, N. Dak., radio range station; Jamestown, N. Dak., radio range station; Fargo, N. Dak., radio range station; Alexandria, Minn., radio range station; Minneapolis, Minn., radio range station; La Crosse, Wis., radio range station; the intersection of the southeast course of the La Crosse, Wis., radio range and the west course of the Madison, Wis., radio range; Milwaukee, Wis., radio range station; Muskegon, Mich., radio range station; Grand Rapids, Mich., radio range station; Lansing, Mich., radio range station; Detroit, Mich., radio range station; Buffalo, N. Y., radio range station; the intersection of the east course of the Buffalo, N. Y., radio range and the southwest course of the Rochester, N. Y., radio range; Rochester, N. Y., radio range station; Syracuse, N. Y., radio range station; Albany, N. Y., radio range station; Westfield, Mass., radio range station; the intersection of the northeast course of Hartford, Conn., radio range and the southeast course of the Westfield, Mass., radio range; Boston, Mass., radio range station.

§ 601.4013 *Green civil airway No. 3 (San Francisco, Calif., to New York, N. Y.).* San Francisco, Calif., radio range station; Oakland, Calif., radio range station; Bay Point, Calif., fan type radio marker station; Sacramento, Calif., radio range station; Reno, Nev., radio range station; Humboldt, Nev., radio range station; Elko, Nev., radio range station; Lucin, Utah, radio range station; Ogden, Utah, radio range station; Fort Bridger, Wyo., radio range station; Rock Springs, Wyo., radio range station; Sinclair, Wyo., radio range station; the intersection of the east course of the Sinclair, Wyo., radio range and the northwest course of the Laramie, Wyo., radio range; Cheyenne, Wyo., radio range station; North Platte, Nebr., radio range station; Grand Island, Nebr., radio range station; Omaha, Nebr., radio range station; Des Moines, Iowa, radio range station; Moline, Ill., radio range station; the intersection of the southeast course of the Rockford, Ill., radio range and the west course of the Chicago, Ill., radio range; Goshen, Ind., radio range station; Toledo, Ohio, radio range station; the intersection of the southeast course of the Detroit, Mich., radio range and the west course of the Cleveland, Ohio, radio range; Cleveland, Ohio, radio range station; Youngstown, Ohio, radio range station; Brookville, Pa., non-directional radio marker beacon; Phillipsburg, Pa., radio range station; Selinsgrove, Pa., non-directional radio beacon; Allentown, Pa., radio range station; the intersection of the east course of the Allentown, Pa., radio range and the southwest course of the Newark, N. J., radio range; New York (La Guardia), N. Y., radio range station.

§ 601.4014 *Green civil airway No. 4 (Los Angeles, Calif., to Philadelphia, Pa.).* The intersection of the southwest course of the Newhall, Calif., radio range and the northwest course of the Burbank, Calif., radio range; the intersection of the north course of the Los Angeles, Calif., radio range and the southwest course of the Palmdale, Calif., radio range or the Newhall, Calif., radio range station; Palmdale, Calif., radio range station; Daggett, Calif., radio range station; Needles, Calif., radio range station; Prescott, Ariz., radio range station; Winslow, Ariz., radio range station; Zuni, N. Mex., radio range station; Albuquerque, N. Mex., radio range station; the intersection of the east course of the Otto, N. Mex., radio range and the southwest course of the Las Vegas, N. Mex., radio range; Tucumcari, N. Mex., radio range station; Amarillo, Tex., radio range station; Gage, Okla., radio range station; Wichita, Kans., radio range station; the intersection of the southwest course of the Kansas City, Mo., radio range and the southeast course of the Forbes AFB, Kans., radio range; Kansas City, Mo., radio range station; Columbia, Mo., radio range station; St. Louis, Mo., radio range station; Effingham, Ill., radio range station; Terre Haute, Ind., radio range station; Indianapolis, Ind., radio range station; the intersection of the west course of the Columbus, Ohio, radio range and a line bearing 327° True from the Tipp City, Ohio, nondirectional radio beacon; Columbus, Ohio, radio range station; the intersection of the east course of the Columbus, Ohio, radio range and the southwest course of the Akron, Ohio, radio range; Wheeling, W. Va., nondirectional radio beacon; Pittsburgh, Pa., radio range station; New Alexandria, Pa., nondirectional radio beacon; Altoona, Pa., radio range station; the intersection of the southwest course of the Allentown, Pa., radio range and the east course of the Harrisburg, Pa., radio range; Philadelphia, Pa., radio range station.

§ 601.4015 *Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.).* Riverside, Calif., radio range station; the intersection of the east course of the Riverside, Calif., radio range and the southeast course of the Daggett, Calif., radio range; Blythe, Calif., radio range station; Phoenix, Ariz., radio range station; the intersection of the south course of the Phoenix, Ariz., radio range and the northwest course of the Tucson, Ariz., radio range; Tucson, Ariz., radio range station; Cochise, Ariz., radio range station; Columbus, N. Mex., radio range station; Wink, Tex., radio range station; Big Spring, Tex., radio range station; Abilene, Tex., radio range station; Fort Worth, Tex., radio range station; Texarkana, Ark., radio range station; Pine Bluff, Ark., nondirectional radiobeacon; Memphis, Tenn., radio range station; Jackson, Tenn., radio range station; Nashville, Tenn., radio range station; Smithville, Tenn., radio range station; Knoxville, Tenn., radio range station; Tri-City, Tenn., radio range station; Roanoke, Va., radio range station; Gordonsville, Va., radio range station; Quantico, Va. (Navy), radio range station; Andrews, Md., radio range station; the intersection of the south course of the New Castle, Del., radio range and the southwest course of the Millville, N. J., radio range; Millville, N. J., radio range station; the intersection of the northeast course of the Millville, N. J., radio range and the southeast course of the McGuire AFB, N. J., radio range; the intersection of the east course of the New York, N. Y. (La Guardia), radio range and the northeast course of the Mitchel Field AFB radio range; the intersection of the southwest course of the Boston, Mass., radio range and the southeast course of the Hartford, Conn., radio range; the intersection of the west course of the Providence, R. I., radio range and the southwest course of the Boston, Mass., radio range.

§ 601.4016 *Green civil airway No. 6 (Laredo, Tex., to Norfolk, Va.).* Laredo, Tex., radio range station; Alice, Tex., radio range station; Corpus Christi, Tex., radio range station; Palacios, Tex., radio range station; the intersection of the northeast course of the Galveston, Tex., radio range and the south course of the Beaumont, Tex., radio range; Lake Charles, La., radio range station; Lafayette, La., nondirectional radio beacon; New Orleans, La., radio range station; Bay Minette, Ala., nondirectional radio beacon; Maxwell AFB, Ala., radio range station; Atlanta, Ga., radio range station; Spartanburg, S. C., radio range station; Greensboro, N. C., radio range station; Blackstone, Va., radio range station; Richmond, Va., radio range station; Norfolk, Va., radio range station.

§ 601.4017 *Green civil airway No. 7 (Nome, Alaska, to Fairbanks, Alaska).* Moses Point, Alaska, radio range station; the intersection of the east course of the Moses Point, Alaska, radio range and the north course of the Unalakleet, Alaska, radio range; Galena, Alaska, radio range station; the intersection of the east course of the Galena, Alaska, radio range and the southwest course of the Tanana, Alaska, radio range; the intersection of the southeast course of the Tanana, Alaska, radio range and the west course of the Fairbanks, Alaska, radio range; the intersection of the west course of the Fairbanks, Alaska, radio range and the northwest course of the Nenana, Alaska, radio range; Fairbanks, Alaska, radio range station.

§ 601.4018 *Green civil airway No. 8 (Cold Bay, Alaska, to Northway, Alaska).* King Salmon, Alaska, radio range station; the intersection of the northeast course of the King Salmon, Alaska, radio range and the southwest course of the Iliamna, Alaska, radio range; the intersection of the southeast course of the Iliamna, Alaska, radio range and the west course of the Homer, Alaska, radio range; the intersection of the southwest course of the Kenai, Alaska, radio range and the west course of the Homer, Alaska, radio range; Kenai, Alaska, radio range station; the intersection of the northeast course of the Kenai, Alaska, radio range and the west course of the Anchorage (Merrill), Alaska, radio range; the intersection of the northeast course of the Anchorage, Alaska, radio range and the southeast course of the Skwentna, Alaska, radio range; Gulkana, Alaska, radio range station; Northway, Alaska, radio range station.

§ 601.4019 *Green civil airway No. 9 (Hawaiian Islands).* The intersection of the south course of the Port Allen, T. H., radio range and the southwest course of the Honolulu, T. H., radio range; the intersection of the southeast course of the Port Allen, T. H., radio range and the southwest course of the Honolulu, T. H., radio range; Honolulu, T. H., radio range station; the intersection of the northeast course of the Honolulu, T. H., radio range and the north course of the Maui, T. H., radio range; the intersection of the northeast course of the Honolulu, T. H., radio range and the north course of the Hilo, T. H., radio range.

§ 601.4020 *Green civil airway No. 10 (United States-Canadian Border to Denver, Colo.).* The Bellingham, Wash., radio range station; Everett, Wash., radio range station; Pendleton, Oreg., radio range station; Baker, Oreg., radio range station; Boise, Idaho, radio range station; Gooding, Idaho nondirectional radio beacon; Burley, Idaho, radio range station; Laramie, Wyo., radio range station.

AMBER CIVIL AIRWAYS

§ 601.4101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska).* San Diego, Calif., radio range station; the intersection of the northwest course of the San Diego, Calif., radio range and the southeast course of the Long Beach, Calif., radio range; Long Beach, Calif., radio range station; Los Angeles, Calif., radio range station; Bakersfield, Calif., radio range station; Fresno, Calif., radio range station; Merced, Calif., (Castle) radio range station; the intersection of the east course of the Stockton, Calif., radio range and the southeast course of the Sacramento, Calif., radio range; Williams, Calif., radio range station; Red Bluff, Calif., radio range station; Fort Jones, Calif., radio range station; Medford, Oreg., radio range station; Eugene, Oreg., radio range station; Portland, Oreg., radio range station; Toledo, Wash., radio range station; McChord AFB radio range station, Tacoma, Wash.; the intersection of the northwest course of the Seattle, Wash., radio range and the south course of the Patricia Bay, B. C., radio range; Sitka (Biorka Island), Alaska, radio range station; the intersection of the northwest course of the Sitka (Biorka Island), Alaska, radio range and the southwest course of the Gustavus, Alaska, radio range; Yakutat, Alaska, radio range station; the intersection of the northwest course of the Yakutat, Alaska, radio range and the south course of the Yakataga, Alaska, radio range; the intersection of the east course of the Hinchinbrook, Alaska, radio range and the southeast course of the Cordova, Alaska, radio range; Hinchinbrook, Alaska, radio range station; the intersection of the northwest course of the Hinchinbrook, Alaska, radio range and the southeast course of the Anchorage, Alaska, radio range; the intersection of the northeast course of the Kenai, Alaska, radio range and the northwest course of the Anchorage, Alaska, radio range; Skwentna, Alaska, radio range station; Puntilla Lake, Alaska, nondirectional radio beacon; Farewell, Alaska, radio range station; McGrath, Alaska, radio range station; Unalakleet, Alaska, radio range station; the intersection of the northwest course of the Unalakleet, Alaska, radio range and the south course of the Moses Point, Alaska, radio range; Nome, Alaska, radio range station.

§ 601.4102 *Amber civil airway No. 2 (Long Beach, Calif., to Point Barrow, Alaska).* The intersection of the southwest course of the Long Beach, Calif., radio range and the south course of the Los Angeles, Calif., radio range; Las Vegas, Nev., radio range station; Enterprise, Utah, radio range station; Delta, Utah, radio range station; Salt Lake City, Utah, radio range station; Malad City, Idaho, radio range station; Pocatello, Idaho, radio range station; DuBois, Idaho, radio range station; Dillon, Mont., radio range station; Whitehall, Mont., radio range station; the intersection of the north course of the Helena, Mont., radio range and the southwest course of the Great Falls, Mont., radio range; Great Falls, Mont., radio range station; Cut Bank, Mont., radio range station; Big Delta, Alaska, radio range station; the intersection of the northwest course of the Big Delta, Alaska, radio range and the east course of the Fairbanks, Alaska, radio range; Bettles, Alaska, radio range station.

§ 601.4103 *Amber civil airway No. 3 (El Paso, Tex., to Great Falls, Mont.).* Truth or Consequences, N. Mex., radio range station; Las Vegas, N. Mex., radio range station; Trinidad, Colo., radio range station; Pueblo, Colo., radio range station; Colorado Springs, Colo., radio range station; Denver, Colo., radio range station; Casper, Wyo., radio range station; Sheridan, Wyo., radio range station; Lewistown, Mont., radio range station.

§ 601.4104 *Amber civil airway No. 4 (Brownsville, Tex., to Minot, N. Dak.).* Brownsville, Tex., radio range station; the intersection of the south course of the Alice, Tex., radio range and the southwest course of the Corpus Christi, Tex., radio range; the intersection of the south course of the San Antonio, Tex., radio range, the 104° True bearing from the Somerset, Tex., nondirectional radio beacon and the southeast course of the Kelly, Tex., radio range; San Antonio, Tex., radio range station; Cibolo, Tex., fan type radio marker station or the intersection of the north course of the San Antonio, Tex., radio range and the southwest course of the Austin, Tex., radio range; Austin, Tex., radio range station; Waco, Tex., radio range station; the intersection of the south course of the Fort Worth, Tex., radio range and the west course of the Dallas, Tex., radio range; the intersection of the south course of the Oklahoma City, Okla., radio range and a line bearing 259° True from the Ardmore, Okla., nondirectional radio beacon; Oklahoma City, Okla., radio range station; Tulsa, Okla., radio range station; Chanute, Kans., radio range station; Sioux City, Iowa, radio range station; Sioux Falls, S. Dak., radio range station; Huron, S. Dak., radio range station; Aberdeen, S. Dak., radio range station; Minot, N. Dak., radio range station.

§ 601.4105 *Amber civil airway No. 5 (Grand Isle, La., to Milwaukee, Wis.).* Jackson, Miss., radio range station; Greenwood, Miss., radio range station; Advance, Mo., radio range station; Springfield, Ill., radio range station; the intersection of the east course of the Peoria, Ill., radio range and the southwest course of the Joliet, Ill., radio range; Joliet, Ill., radio range station.

§ 601.4106 *Amber civil airway No. 6 (Jacksonville, Fla., to United States-Canadian Border).* Jacksonville, Fla., radio range station; Alma, Ga., radio range station; Macon, Ga., radio range station; Chattanooga, Tenn., radio range station; Bowling Green, Ky., radio range station; Louisville, Ky., radio range station.

§ 601.4107 *Amber civil airway No. 7 (Key West, Fla., to United States-Canadian Border).* Key West, Fla., radio range station; the intersection of the northeast course of the Key West, Fla., radio range and the southwest course of the Homestead, Fla., radio range; Miami, Fla., radio range station; West Palm Beach, Fla., radio range station; Melbourne, Fla., radio range station; Daytona Beach, Fla., radio range station; Brunswick, Ga., radio marker beacon; Savannah, Ga., radio range station; Charleston, S. C., radio range station; Florence, S. C., radio range station; Lumberton, N. C. nondirectional radio beacon; Raleigh, N. C., radio range station; the intersection of the northeast course of the Raleigh, N. C., radio range and the south course of the Blackstone, Va., radio range; the intersection of the southwest course of the Washington, D. C., radio range and the southeast course of the Quantico, Va., radio range; Washington, D. C., radio range station; the intersection of the northeast course of the Washington, D. C., radio range and the west course of the Baltimore, Md., radio range; Newark, N. J., radio range station; Hartford, Conn., radio range station; Portland, Maine, radio range station; Augusta, Maine, radio range station; the intersection of the southwest course of the Millinocket, Maine, radio range and the northwest course of the Bangor, Maine, radio range; Presque Isle, Maine, radio range station.

§ 601.4108 *Amber civil airway No. 8 (Los Angeles, Calif., to Ellensburg,*

Wash.). The intersection of the west course of the Los Angeles, Calif., radio range and the southeast course of the Camarillo, Calif., radio range; Camarillo, Calif., radio range station; Santa Barbara, Calif., radio range station; the intersection of the northwest course of the Santa Barbara, Calif., radio range and the southwest course of the Fresno, Calif., radio range; the intersection of the northwest course of the San Francisco, Calif., radio range and the southwest course of the Travis AFB, Calif., radio range; the intersection of the southwest course of the Travis AFB, Calif., radio range and the northwest course of the Oakland, Calif., radio range; Travis AFB, Calif., radio range station; Whitmore, Calif., radio range station; Klamath Falls, Oreg., radio range station; Redmond, Oreg., radio range station; The Dalles, Oreg., radio range station; Yakima, Wash., radio range station.

§ 601.4109 *Amber civil airway No. 9 (Charleston, S. C., to Norfolk, Va.).* Myrtle Beach, N. C., nondirectional radio beacon; Wilmington, N. C., nondirectional radio beacon; New Bern, N. C., nondirectional radio beacon; Williamston, N. C., VHF VAR radio range station; the intersection of the north course of the Williamston, N. C., VHF VAR radio range and the southwest course of the Norfolk, Va., radio range.

§ 601.4110 *Amber civil airway No. 10 (Hawaiian Islands).* Intersection of the south course of the Honolulu, T. H., radio range and the west course of the Hilo, T. H., radio range.

§ 601.4111 *Amber civil airway No. 11 (Hawaiian Islands).* Intersection of the south course of the Maui, T. H., radio range and the west course of the Hilo, T. H., radio range.

§ 601.4112 *Amber civil airway No. 12 (Hawaiian Islands).* Hilo, T. H., radio range station; the intersection of the east course of the Maui, T. H., radio range and the north course of the Hilo, T. H., radio range.

RED CIVIL AIRWAYS

§ 601.4202 *Red civil airway No. 2 (Sheridan, Wyo., to Rapid City, S. Dak.)* Rapid City, S. Dak., radio range station.

§ 601.4203 *Red civil airway No. 3 (Philipsburg, Pa., to Hartford, Conn.).* No reporting point designation.

§ 601.4204 *Red civil airway No. 4 (Las Vegas, N. Mex., to Tucumcari, N. Mex.).* No reporting point designation.

§ 601.4205 *Red civil airway No. 5 (Sioux Falls, S. Dak., to St. Paul, Minn.).* No reporting point designation.

§ 6014206 *Red civil airway No. 6 (Denver, Colo., to Omaha, Nebr.).* Akron, Colo., radio range station; Lincoln, Nebr., radio range station.

§ 601.4207 *Red civil airway No. 7 (Atlanta, Ga., to Greensboro, N. C.)* Greenville, S. C., radio range station; Charlotte, N. C., radio range station; the intersection of the north course of the Charlotte, N. C., radio range and the southwest course of the Greensboro, N. C., radio range.

§ 601.4208 *Red civil airway No. 8 (Dayton, Ohio, to Newark, N. J.).* The intersection of the east course of the Wright-Patterson, Ohio, AFB radio range and the south course of the Columbus, Ohio, radio range; Bergholz, Pa., nondirectional radio beacon; Williamsport, Pa., radio range station; the Crystal Lake, Pa., nondirectional radio beacon; the intersection of the northeast course of the Allentown, Pa., radio range and the northwest course of the Newark, N. J., radio range.

§ 601.4209 *Red civil airway No. 9 (San Diego, Calif., to Casa Grande, Ariz.).* El Centro, Calif., radio range station; Yuma, Ariz., radio range station; Gila Bend, Ariz., radio range station.

§ 601.4210 *Red civil airway No. 10 (Amarillo, Tex., to Charleston, S. C.).* Wichita Falls., Tex., radio range station; Dallas, Tex., radio range station; the intersection of the north course of the Tyler, Tex., radio range and the west course of the Shreveport, La., radio range; Shreveport, La., radio range station; Monroe, La., radio range station; Meridian, Miss., radio range station; Birmingham, Ala., radio range station; Augusta, Ga., radio range station.

§ 601.4211 *Red civil airway No. 11 (Enid, Okla., to Boston, Mass.).* Springfield, Mo., radio range station; Vichy, Mo., nondirectional radio beacon; the intersection of the northeast course of the Westover AFB, Chicopee, Mass., radio range and the west course of the Boston, Mass., radio range.

§ 601.4212 *Red civil airway No. 12 (Joliet, Ill., to Erie, Pa.).* South Bend, Ind., radio range station; the intersection of the east course of the South Bend, Ind., radio range and the south course of the Battle Creek, Mich., radio range; the intersection of the southeast course of the Lansing, Mich., radio range and the west course of the Detroit, Mich., radio range.

§ 601.4213 *Red civil airway No. 13 (Wheeling, W. Va., to Boston, Mass.).* Westover, Pa., nondirectional radio beacon; Wilkes-Barre, Pa., radio range station; Poughkeepsie, N. Y., radio range station; Providence, R. I., radio range station.

§ 601.4214 *Red civil airway No. 14 (Lone Rock, Wis., to Louisville, Ky.).* Rockford, Ill., radio range station; Chicago, Ill., radio range station; the intersection of the east course of the Harvey, Ill, radio range and the southeast course of the Chicago, Ill., radio range.

§ 301.4215 *Red civil airway No. 15 (Reno, Nev., to Phoenix, Ariz.).* The intersection of the southeast course of the Las Vegas, Nev., radio range and the north course of the Needles, Calif., radio range.

§ 601.4216 *Red civil airway No. 16 (Tallahassee, Fla., to Florence, S. C.).* Albany, Ga., radio range station; Columbia, S. C., radio range station.

§ 601.4217 *Red civil airway No. 17 (St. Louis, Mo., to Baltimore, Md.).* Scott AFB, Belleville, Ill., radio range station; Fort Wayne, Ind., radio range station; Findlay, Ohio, nondirectional radio beacon; Mansfield, Ohio, nondirectional radio beacon; the intersection of the northeast course of the Arcola, Va., radio range and the west course of the Baltimore, Md., radio range; Baltimore, Md., radio range station.

§ 601.4218 *Red civil airway No. 18 (Indianapolis, Ind., to Washington, D. C.).* Cincinnati, Ohio, radio range station; Huntington, W. Va., nondirectional radio beacon; Charleston, W. Va., radio range station; Elkins, W. Va., radio range station; Front Royal, Va., radio range station.

§ 601.4219 *Red civil airway No. 19 (Traverse City, Mich., to Norfolk, Va.).* The Saginaw, Mich., nondirectional radio beacon.

§ 601.4220 *Red civil airway No. 20 (Lansing, Mich., to Washington, D. C.).* Akron, Ohio, radio range station; the intersection of the south course of the Youngstown, Ohio, radio range and the northwest course of the Pittsburgh, Pa., radio range; the intersection of the northwest course of the Washington, D. C., radio range and the east course of the Martinsburg, W. Va., radio range.

§ 601.4221 *Red civil airway No. 21 (New York, N. Y., to Boston, Mass.).* The intersection of the southeast course of the Hartford, Conn., radio range and the southwest course of the Quonset Point, R. I., (Navy) radio range; the intersection of the southwest course of the Providence, R. I., radio range and the southwest course of the Quonset Point, R. I., (Navy) radio range.

§ 601.4222 *Red civil airway No. 22 (Mount Clemens, Mich., to Albany, N. Y.).* The intersection of the northeast course of the Buffalo, N. Y., radio range and the northwest course of the Rochester, N. Y., radio range; Utica, N. Y., radio range station.

§ 601.4223 *Red civil airway No. 23 (United States-Canadian Border to New York, N. Y.).* The Houghton, Mich., radio range station; Sault Ste. Marie, Mich., radio range station; Elmira, N. Y., radio range station; the intersection of the northeast course of the Allentown, Pa., radio range and the northwest course of the New York (La Guardia), N. Y., radio range; the Paterson, N. J., nondirectional radio beacon.

§ 601.4224 *Red civil airway No. 24 (Amarillo, Tex., to Oklahoma City, Okla.).* No reporting point designation.

§ 601.4226 *Red civil airway No. 26 (Petersburg, Va., to Corapeake, N. C.).* Waverly, Va., radio range station.

§ 601.4227 *Red civil airway No. 27 (Atlanta, Ga., to Detroit, Mich.).* Corbin, Ky., radio range station.

§ 601.4228 *Red civil airway No. 28 (Rockford, Ill., to Detroit, Mich.).* The intersection of the east course of the Rockford, Ill., radio range and the northwest course of the Chicago, Ill., radio range; the intersection of the northeast course of the Chicago, Ill., radio range and the north course of the South Bend., Ind., radio range.

§ 601.4229 *Red civil airway No. 29 (Elmira, N. Y., to Baltimore, Md.).* No reporting point designation.

§ 601.4230 *Red civil airway No. 30 (Shreveport, La., to Jacksonville, Fla.).* Alexandria, La., radio range station; Baton Rouge, La., radio range station; Keesler AFB, Biloxi, Miss., radio range station; Crestview, Fla., radio range station; Tallahassee, Fla., radio range station; the intersection of the east course of the Tallahassee, Fla., radio range and a line bearing 182° True from the Valdosta, Ga., nondirectional radio beacon.

§ 601.4231 *Red civil airway No. 31 (Cheyenne, Wyo., to La Crosse, Wis.).* Scottsbluff, Nebr., radio range station; Pierre, S. Dak., radio range station.

§ 601.4232 *Red civil airway No. 32 (Laredo, Tex., to Houston, Tex.).* Kelly, Tex., radio range station.

§ 601.4233 *Red civil airway No. 33 (Norfolk, Va., to Boston, Mass.).* Arcola, Va., radio range station; the intersection of the northeast course of the Arcola, Va., radio range and the south course of the Harrisburg, Pa., radio range.

§ 601.4234 *Red civil airway No. 34 (Charleston, W. Va., to Weeksville, N. C.).* Pulaski, Va., radio range station.

§ 601.4235 *Red civil airway No. 35 (Pueblo, Colo., to St. Joseph, Mo.).* La Junta, Colo., radio range station; Garden City, Kans., radio range station; Hutchinson, Kans., radio range station; Forbes AFB, Topeka, Kans.

§ 601.4236 *Red civil airway No. 36 (Rochester, Minn., to La Crosse, Wis.).* Rochester, Minn., radio range station.

§ 601.4237 *Red civil airway No. 37 (Tyler, Tex., to Gordonsville, Va.).* Tyler, Tex., radio range station; Little Rock, Ark., radio range station; Lynchburg, Va., radio range station.

§ 601.4238 *Red civil airway No. 38 (Big Spring, Tex., to San Antonio, Tex.).* San Angelo, Tex., radio range station; the intersection of the northwest course of the Kelly, Tex., radio range and the west course of the San Antonio, Tex., radio range.

§ 601.4239 *Red civil airway No. 39 (Bethel, Alaska, to Fairbanks, Alaska).* Bethel, Alaska, radio range station; Aniak, Alaska, radio range station; Minchumina, Alaska, radio range station; Nenana, Alaska, radio range station.

§ 601.4240 *Red civil airway No. 40 (Kodiak, Alaska, to Anchorage, Alaska).* Kodiak, Alaska, radio range station; Shuyak, Alaska, nondirectional radio beacon; Homer, Alaska, radio range station; the intersection of the east course of the Kenai, Alaska, radio range and the southwest course of the Anchorage, Alaska, radio range; Anchorage, Alaska, radio range station.

§ 601.4241 *Red civil airway No. 41 (Yakutat, Alaska, to Gustavus, Alaska).* No reporting point designation.

§ 601.4242 *Red civil airway No. 42 (Milwaukee, Wis., to Aurora, Ill.).* No reporting point designation.

§ 601.4243 *Red civil airway No. 43 (Chicago, Ill., to Lafayette, Ind.).* No reporting point designation.

§ 601.4244 *Red civil airway No. 44 (Bellingham, Wash., to United States-Canadian Border).* No reporting point designation.

§ 601.4245 *Red civil airway No. 45 (Blackstone, Va., to Willow Grove, Pa.).* Manakin, Va., non-directional radio beacon.

§ 601.4246 *Red civil airway No. 46 (United States-Canadian Border to Jamestown, N. Dak.).* No reporting point designation.

§ 601.4247 *Red civil airway No. 47 (Tampa, Fla., to Daytona Beach, Fla.).* Orlando, Fla., radio range station.

§ 601.4248 *Red civil airway No. 48 (Helena, Mont., to Livingston, Mont.).* No reporting point designation.

§ 601.4249 *Red civil airway No. 49 (Elko, Nev., to Fort Bridger, Wyo.).* Wendover, Utah, radio range station.

§ 601.4250 *Red civil airway No. 50 (Galena, Alaska, to Fairbanks, Alaska).* Tanana, Alaska, radio range station.

§ 601.4251 *Red civil airway No. 51 (Blackstone, Va., to Norfolk, Va.)* No reporting point designation.

§ 601.4252 *Red civil airway No. 52 (Memphis, Tenn., to Birmingham, Ala.).* Muscle Shoals, Ala., radio range station.

§ 601.4253 *Red civil airway No. 53 (Portland, Oreg., to Spokane, Wash.).* Walla Walla, Wash., radio range station.

§ 601.4254 *Red civil airway No. 54 (Burley, Idaho, to Salt Lake City, Utah).* No reporting point designation.

§ 601.4255 *Red civil airway No. 55 (Chicago, Ill., to Columbus, Ohio).* No reporting point designation.

§ 601.4256 *Red civil airway No. 56 (Red Bluff, Calif., to Whitmore, Calif.).* No reporting point designation.

§ 601.4257 *Red civil airway No. 57 (Des Moines, Iowa, to Youngstown, Ohio).* Battle Creek, Mich., radio range station.

§ 601.4258 *Red civil airway No. 58 (Augusta, Maine, to United States-Canadian Border).* Bangor, Maine radio range station.

§ 601.4259 *Red civil airway No. 59 (Garden City, Kans., to Oklahoma City, Okla.).* No reporting point designation.

§ 601.4260 *Red civil airway No. 60 (Oakland, Calif., to Stockton, Calif.).* Stockton, Calif., radio range station.

§601.4261 *Red civil airway No. 61 (Butler, Pa., to Washington, D. C.).* The intersection of the northwest course of the Arcola, Va., radio range and the west course of the Martinsburg, W. Va., radio range.

§ 601.4262 *Red civil airway No. 62 (Pittsburgh, Pa., to Altoona, Pa.).* No reporting point designation.

§ 601.4263 *Red civil airway No. 63 (Battle Creek, Mich., to United States-Canadian Border).* No reporting point designation.

§ 601.4264 *Red civil airway No. 64 (United States-Canadian Border to Annette Island, Alaska).* No reporting point designation.

§ 601.4265 *Red civil airway No. 65 (Los Angeles, Calif., to Hayfield Lake, Calif.).* No reporting point designation.

§ 601.4266 *Red civil airway No. 66 (Santa Barbara, Calif., to Los Angeles, Calif.).* The intersection of the east course of the Santa Barbara, Calif., radio range and the northeast course of the Camarillo, Calif., radio range.

§ 601.4267 *Red civil airway No. 67 (Crestview, Fla., to Atlanta, Ga.).* Dothan, Ala., radio range station.

§ 601.4268 *Red civil airway No. 68 (Midland, Tex., to Shreveport, La.).* Midland, Tex., radio range station.

§ 601.4269 *Red civil airway No. 69 (Midland, Tex., to Big Spring, Tex.).* No reporting point designation.

§ 601.4270 *Red civil airway No. 70 (Midland, Tex., to Lubbock, Tex.).* No reporting point designation.

§ 601.4271 *Red civil airway No. 71 (El Paso, Tex., to Lubbock, Tex.).* Roswell, N. Mex., radio range station; Lubbock, Tex., radio range station.

§ 601.4272 *Red civil airway No. 72 (Millville, N. J., to Paterson, N. J.).* Willow Grove, Pa. (Navy), radio range station.

§ 601.4273 *Red civil airway No. 73 (Baltimore, Md., to Millville, N. J.).* No reporting point designation.

§ 601.4274 *Red civil airway No. 74 (Louisville, Ky., to Cincinnati, Ohio).* No reporting point designation.

§ 601.4275 *Red civil airway No. 75 (United States-Canadian Border, Vancouver, B. C., to United States-Canadian Border, Abbotsford, B. C.).* No reporting point designation.

§ 601.4276 *Red civil airway No. 76 (Williams, Calif., to Auburn, Calif.).* No reporting point designation.

§ 601.4277 *Red civil airway No. 77 (Greensboro, N. C., to Atlantic City, N. J.).* No reporting point designation.

§ 601.4278 *Red civil airway No. 78 (Medford, Oreg., to Klamath Falls, Oreg.).* No reporting point designation.

§ 601.4279 *Red civil airway No. 79 (Neah Bay, Wash., to Everett, Wash.).* No reporting point designation.

§ 601.4280 *Red civil airway No. 80 (Helena, Mont., to Miles City, Mont.).* No reporting point designation.

§ 601.4281 *Red civil airway No. 81 (Lansing, Mich., to Detroit, Mich.).* No reporting point designation.

§ 601.4282 *Red civil airway No. 82 (Skwentna, Alaska, to Anchorage, Alaska).* No reporting point designation.

§ 601.4283 *Red civil airway No. 83 (Gila Bend, Ariz., to Tucson, Ariz.).* No reporting point designation.

§ 601.4284 *Red civil airway No. 84 (Meridian, Miss., to Columbus, Ga.).*

Craig AFB radio range station, Selma, Ala.; Columbus, Ga., radio range station.

§ 601.4285 *Red civil airway No. 85 (Akron, Ohio, to Altoona, Pa.)* Butler, Pa., nondirectional radio beacon.

§ 601.4286 *Red civil airway No. 86 (Millinocket, Maine, to Houlton, Maine).* No reporting point designation.

§ 601.4287 *Red civil airway No. 87 (Hawaiian Islands).* Intersection of the northwest course of the Port Allen, T. H., radio range and a point 100 miles northwest of the Port Allen, T. H., radio range station; Port Allen, T. H., radio range station; Maui, T. H., radio range station; intersection of the east course of the Maui, T. H., radio range and the east course of the Hilo, T. H., radio range.

§ 601.4288 *Red civil airway No. 88 (Albuquerque, N. Mex., to Hobbs, N. Mex.).* Hobbs, N. Mex., radio range station.

§ 601.4289 *Red civil airway No. 89 (Quincy, Ill., to Peoria, Ill.).* Peoria, Ill., radio range station.

§ 601.4290 *Red civil airway No. 90 (Oxnard, Calif., to Burbank, Calif.).* No reporting point designation.

§ 601.4291 *Red civil airway No. 91 (Dunkirk, N. Y., to Syracuse, N. Y.).* No reporting point designation.

§ 601.4292 *Red civil airway No. 92 (Sault Ste. Marie, Mich., to United States-Canadian Border).* No reporting point designation.

§ 601.4293 *Red civil airway No. 93 (Lincoln, Nebr., to Omaha, Nebr.).* No reporting point designation.

§ 601.4294 *Red civil airway No. 94 (Providence, R. I., to Hyannis, Mass.).* The intersection of the east course of the Providence, R. I., radio range and the northeast course of the Quonset Point, R. I., (Navy) radio range.

§ 601.4295 *Red civil airway No. 95 (Elmira, N. Y., to Utica, N. Y.).* The intersection of the south course of the Syracuse, N. Y., radio range and the northeast course of the Elmira, N. Y., radio range.

§ 601.4296 *Red civil airway No. 96 (Palacios, Tex., to Baton Rouge, La.).* The intersection of the southwest course of the Houston, Tex., radio range and the southeast course of the Richmond, Tex., radio range; Houston, Tex., radio range station; Beaumont, Tex., radio range station.

§ 601.4297 *Red civil airway No. 97 (United States-Canadian Border near Lakehead, Ontario, Canada, to United States-Canadian Border near Sault Ste. Marie, Mich.).* No reporting point designation.

§ 601.4298 *Red civil airway No. 98 (Vichy, Mo., to Belleville, Ill.).* No reporting point designation.

§ 601.4299 *Red civil airway No. 99 (Iliamna, Alaska, to Homer, Alaska).* The Iliamna, Alaska, radio range station.

§ 601.4300 *Red civil airway No. 100 (South Bend, Ind., to Battle Creek, Mich.).* No reporting point designation.

§ 601.4302 *Red civil airway No. 102 (Louisville, Ky., to Huntington, W. Va.).* Lexington, Ky., nondirectional radio beacon.

§ 601.4303 *Red civil airway No. 103 (Kenai, Alaska, to Middleton Island, Alaska).* No reporting point designation.

§ 601.4304 *Red civil airway No. 104 (Greensboro, N. C., to Raleigh, N. C.).* No reporting point designation.

§ 601.4305 *Red civil airway No. 105 (Wichita, Kans., to Neosho, Mo.).* No reporting point designation.

§ 601.4306 *Red civil airway No. 106 (Scottsbluff, Nebr., to North Platte, Nebr.).* No reporting point designation.

§ 601.4307 *Red civil airway No. 107 (Stanton, Minn., to Red Wing, Minn.).* No reporting point designation.

§ 601.4308 *Red civil airway No. 108 (Promontory Point, Utah to Fort Bridger, Wyo.).* No reporting point designation.

§ 601.4309 *Red civil airway No. 109 (Portland, Oreg., to Spokane, Wash.).* No reporting point designation.

BLUE CIVIL AIRWAYS

§ 601.4601 *Blue civil airway No. 1 (Miami, Fla., to Tampa, Fla.).* The intersection of a line bearing 45° True from the Fort Myers, Fla., nondirectional radio beacon and the southeast course of the Tampa, Fla., radio range.

§ 601.4602 *Blue civil airway No. 2 (Montgomery, Ala., to Erie, Pa.).* Erie, Pa., radio range station.

§ 601.4603 *Blue civil airway No. 3 (Miami, Fla., to Sault Ste. Marie, Mich.).* Fort Myers, Fla., nondirectional radio beacon; Tampa, Fla., radio range station; Cross City, Fla., radio range station; Traverse City, Mich. radio range station; Pellston, Mich., nondirectional radio beacon.

§ 601.4604 *Blue civil airway No. 4 (Boston, Mass., to United States-Canadian Border).* Concord, N. H., radio range station; the intersection of the southeast course of the Burlington, Vt., radio range and the southwest course of the Montpelier, Vt., radio range; Burlington, Vt., radio range station.

§ 601.4605 *Blue civil airway No. 5 (Galveston, Tex., to Wichita, Kans.).* Galveston, Tex., radio range station; the intersection of the northwest course of the Houston, Tex., radio range and the northeast course of the Richmond, Tex., radio range; Bryan, Tex., radio range station.

§ 601.4606 *Blue civil airway No. 6 (Abilene, Tex., to Muskegon, Mich.).* No reporting point designation.

§ 601.4607 *Blue civil airway No. 7 (Hollister, Calif., to Williams, Calif.).* No reporting point designation.

§ 601.4608 *Blue civil airway No. 8 (Fargo, N. Dak., to United States-Canadian Border).* Grand Forks, N. Dak., radio range station; Pembina, N. Dak., radio range station.

§ 601.4609 *Blue civil airway No. 9 (Springfield, Mo., to United States-Canadian Border).* Duluth, Minn., radio range station.

§ 601.4610 *Blue civil airway No. 10 (Fresno, Calif., to Williams, Calif.).* Los Banos, Calif., fan type radio marker station or the intersection of the northwest course of the Fresno, Calif., radio range and the south course of the Stockton, Calif., radio range; Evergreen, Calif., non-directional radio marker beacon.

§ 601.4611 *Blue civil airway No. 11 (Findlay, Ohio, to Dunkirk, N. Y.).* No reporting point designation.

§ 601.4613 *Blue civil airway No. 13 (Houston, Tex., to Des Moines, Iowa).* Lufkin, Tex., non-directional radio beacon; Fort Smith, Ark., non-directional radio beacon.

§ 601.4614 *Blue civil airway No. 14 (El Centro, Calif., to Sacramento, Calif.).* The intersection of the northwest course of the Riverside, Calif., radio range and the southeast course of the Palmdale, Calif., radio range.

§ 601.4615 *Blue civil airway No. 15 (Huntington, W. Va., to Youngstown, Ohio).* No reporting point designation.

§ 601.4616 *Blue civil airway No. 16 (Waverly, Va., to Tappahannock, Va.).* No reporting point designation.

§ 601.4617 *Blue civil airway No. 17 (Bangor, Maine, to Presque Isle, Maine).* Houlton, Maine, radio range station.

§ 601.4618 *Blue civil airway No. 18 (Philadelphia, Pa., to United States-Canadian Border).* No reporting point designation.

§ 601.4619 *Blue civil airway No. 19 (Key West, Fla., to Orlando, Fla.).* The intersection of the north course of the Miami, Fla., radio range and the west course of the West Palm Beach, Fla., radio range.

§ 601.4620 *Blue civil airway No. 20 (Millville, N. J., to Allentown, Pa.).* No reporting point designation.

§ 601.4622 *Blue civil airway No. 22 (Memphis, Tenn., to Wichita, Kans.).* No reporting point designation.

§ 601.4623 *Blue civil airway No. 23 (Norfolk, Va., to Chincoteague, Va.).* No reporting point designation.

§ 601.4625 *Blue civil airway No. 25 (Cordova, Alaska, to Big Delta, Alaska).* The intersection of the northeast course of the Hinchinbrook, Alaska, radio range and the south course of the Gulkana, Alaska, radio range.

§ 601.4626 *Blue civil airway No. 26 (Anchorage, Alaska, to Nenana, Alaska).* The intersection of the north course of the Anchorage, Alaska (Merrill), Localizer radio range and the southeast course of the Skwentna, Alaska, radio range; Talkeetna, Alaska, non-directional radio beacon; Summit, Alaska, radio range station.

§ 601.4627 *Blue civil airway No. 27 (Kodiak, Alaska, to Kotzebue, Alaska).* The intersection of the west course of the Kodiak, Alaska, radio range and the southeast course of the King Salmon, Alaska, radio range; Kotzebue, Alaska, non-directional radio beacon.

§ 601.4628 *Blue civil airway No. 28 (Charleston, S. C., to Bulls Gap, Tenn.).* The intersection of the northwest course of the Spartanburg, S. C., radio range and a line bearing 57° True from the Asheville, N. C. (Hendersonville), non-directional radio beacon.

§ 601.4629 *Blue civil airway No. 29 (Raleigh, N. C., to Lynchburg, Va.).* The intersection of the northeast course of the Greensboro, N. C., radio range and the southeast course of the Lynchburg, Va., radio range.

§ 601.4630 *Blue civil airway No. 30 (Brownsville, Tex., to Pueblo, Colo.).* Junction, Tex., nondirectional radio beacon; Dalhart, Tex., nondirectional radio beacon; the intersection of the southwest course of the La Junta, Colo., radio range and the northeast course of the Trinidad, Colo., radio range.

§ 601.4631 *Blue civil airway No. 31 (Burlington, Iowa, to Madison, Wis.).* No reporting point designation.

§ 601.4632 *Blue civil airway No. 32 (Skwentna, Alaska, to Talkeetna, Alaska).* No reporting point designation.

§ 601.4633 *Blue civil airway No. 33 (Lansing, Mich., to Saginaw, Mich.).* No reporting point designation.

§ 601.4634 *Blue civil airway No. 34 (Terre Haute, Ind., to Peoria, Ill.).* No reporting point designation.

§ 601.4635 *Blue civil airway No. 35 (Oxnard, Calif., to Bakersfield, Calif.).* Lebec, Calif., fan marker.

§ 601.4636 *Blue civil airway No. 36 (Akron, Colo., to Kimball, Nebr.).* No reporting point designation.

§ 601.4637 *Blue civil airway No. 37 (Casper, Wyo., to Rapid City, S. Dak.).* No reporting point designation.

§ 601.4638 *Blue civil airway No. 38 (Five Finger, Alaska, to United States-Canadian Border).* Five Finger, Alaska, nondirectional radio beacon; the intersection of the southeast course of the Gustavus, Alaska, radio range and the northeast course of the Sitka, Alaska, radio range; Gustavus, Alaska, radio range station.

§ 601.4639 *Blue civil airway No. 39 (Savannah, Ga., to Elmira, N. Y.).* The Paynesville, W. Va., nondirectional radio beacon; Morgantown, W. Va., radio range station; the intersection of the southeast course of the Pittsburgh, Pa., radio range and the northeast course of the Morgantown, W. Va., radio range.

§ 601.4640 *Blue civil airway No. 40 (Concord, N. H., to Burlington, Vt.).* Montpelier, Vt., radio range station.

§ 601.4641 *Blue civil airway No. 41 (Hartford, Conn., to United States-Canadian Border).* No reporting point designation.

§ 601.4642 *Blue civil airway No. 42 (Goshen, Ind., to Saginaw, Mich.).* No reporting point designation.

§ 601.4643 *Blue civil airway No. 43 (Delta Island, Alaska, to Willow, Alaska).* No reporting point designation.

§ 601.4644 *Blue civil airway No. 44 (Indianapolis, Ind., to United States-Canadian Border).* Kokomo, Ind., nondirectional radio beacon; the intersection of the northeast course of the Fort Wayne, Ind., radio range and the east course of the Goshen, Ind., radio range.

§ 601.4645 *Blue civil airway No. 45 (Greenfield, Mass., to Newport, Vt.).* No reporting point designation.

§ 601.4646 *Blue civil airway No. 46 (Memphis, Tenn., to Paducah, Ky.).* Dyersburg, Tenn., nondirectional radio beacon; Paducah, Ky., nondirectional radio beacon.

§ 601.4647 *Blue civil airway No. 47 (Blackstone, Va., to Dunkirk, N. Y.).* The intersection of the south course of the Altoona, Pa., radio range and the southeast course of the Pittsburgh, Pa., radio range; Bradford, Pa., nondirectional radio beacon.

§ 601.4648 *Blue civil airway No. 48 (New York, N. Y., to Poughkeepsie, N. Y.).* No reporting point designation.

§ 601.4649 *Blue civil airway No. 49 (Atlantic City, N. J., to Philadelphia, Pa.).* No reporting point designation.

§ 601.4651 *Blue civil airway No. 51 (Wendover, Utah, to Dubois, Idaho).* No reporting point designation.

§ 601.4652 *Blue civil airway No. 52 (Paso Robles, Calif., to Fresno, Calif.).* No reporting point designation.

§ 601.4653 *Blue civil airway No. 53 (Providence, R. I., to Hartford, Conn.).* No reporting point designation.

§ 601.4654 *Blue civil airway No. 54 (Evergreen, Calif., to Hamilton AFB, Calif.).* No reporting point designation.

§ 601.4655 *Blue civil airway No. 55 (Crestview, Fla., to Montgomery, Ala.).* No reporting point designation.

§ 601.4656 *Blue civil airway No. 56 (Elizabeth City, N. C., to Washington, D. C.).* Langley, Va., AFB radio range station; the intersection of the southeast course of the Andrews, Md., radio range and the northeast course of the Tappahannock, Va., radio range.

§ 601.4657 *Blue civil airway No. 57 (Elko, Nev., to Burley, Idaho).* No reporting point designation.

§ 601.4658 *Blue civil airway No. 58 (Nantucket, Mass., to Squantum, Mass.).* No reporting point designation.

§ 601.4659 *Blue civil airway No. 59 (Pensacola, Fla., to Goodway, Ala.).* Pensacola, Fla., radio range station.

§ 601.4660 *Blue civil airway No. 60 (Sunnyvale, Calif., to Stockton, Calif.).* No reporting point designation.

§ 601.4661 *Blue civil airway No. 61 (Springfield, Mo., to Kansas City, Mo.).* No reporting point desgnation.

§ 601.4663 *Blue civil airway No. 63 (Concord, N. H., to Berlin, N. H.).* No reporting point designation.

§ 601.4664 *Blue civil airway No. 64 (Wink, Tex., to Hobbs, N. Mex.).* No reporting point designation.

§ 601.4665 *Blue civil airway No. 65 (Shuyak, Alaska,, to Homer, Alaska).* No reporting point designation.

§ 601.4666 *Blue civil airway No. 66 (Bridgeport, Conn., to Poughkeepsie, N. Y.).* Bridgeport, Conn., radio range station.

§ 601.4667 *Blue civil airway No. 67 (Yuma, Ariz., to Las Vegas, Nev.).* No reporting point designation.

§ 601.4668 *Blue civil airway No. 68 (Midland, Tex., to Hobbs, N. Mex.).* No reporting point designation.

§ 601.4669 *Blue civil airway No. 69 (St. Louis, Mo., to Quincy, Ill.).* Quincy, Ill., nondirectional radio beacon.

§ 601.4670 *Blue civil airway No. 70 (Waco, Tex., to Tulsa, Okla.).* Ardmore, Okla., nondirectional radio beacon.

§ 601.4671 *Blue civil airway No. 71 (Toledo, Wash., to Seattle, Wash.).* Shelton, Wash., radio range station.

§ 601.4672 *Blue civil airway No. 72 (Enid, Okla., to Wichita, Kans.).* Vance AFB radio range station.

§ 601.4674 *Blue civil airway No. 74 (Willard, N. Mex., to Otto, N. Mex.).* No reporting point designation.

§ 601.4675 *Blue civil airway No. 75 (Cleveland, Ohio, to United States-Canadian Border).* No reporting point designation.

§ 601.4676 *Blue civil airway No. 76 (Sinclair, Wyo., to Casper, Wyo.).* No reporting point designation.

§ 601.4678 *Blue civil airway No. 78 (Spring Bay, Utah, to Malad City, Idaho).* No reporting point designation.

§ 601.4679 *Blue civil airway No. 79 (Annette Island, Alaska, to United States-Canadian Border).* Annette Island, Alaska, radio range station; Petersburg, Alaska, radio range station; the intersection of the northeast course of the Sitka, Alaska, radio range and the northwest course of the Petersburg, Alaska, radio range; Haines, Alaska, nondirectional radio beacon.

§ 601.4680 *Blue civil airway No. 80 (Unalakleet, Alaska, to Moses Point, Alaska).* No reporting point designation.

§ 601.4681 *Blue civil airway No. 81 (Charleston, W. Va., to Akron, Ohio).* No reporting point designation.

§ 601.4684 *Blue civil airway No. 84 (Augusta, Maine, to Millinocket, Maine).* No reporting point designation.

§ 601.4685 *Blue civil airway No. 85 (Hutchinson, Kans., to Wichita, Kans.).* No reporting point designation.

§ 601.4686 *Blue civil airway No. 86 (Goshen, Ind., to Fort Wayne, Ind.).* No reporting point designation.

§ 601.4687 *Blue civil airway No. 87 (Lexington, Ky., to Dayton, Ohio).* No reporting point designation.

OTHER REPORTING POINTS

§ 601.5001 *Other reporting points.* Whidbey Island, Wash.; Navy Radio Range; Farallon Island, Calif., nondirectional radio beacon.

Anchorage-Sandspit route: The Middleton Island, Alaska, nondirectional radio beacon.

Bass Intersection: The intersection of the southeast course of the Weeksville, N. C. (Navy) radio range and the western boundary of the New York Oceanic Control Area.

Bon Secour Intersection: The intersection of the southeast course of the Mobile, Ala., radio range and the west course of the Pensacola, Fla., radio range.

Carp Intersection: The intersection of a line bearing 133° True from the Wilmington, N. C., omnirange station and the western boundary of the New York Oceanic Control Area.

Cod Intersection: The intersection of a Great Circle course between the Nantucket, Mass., nondirectional radio beacon and the Azores Santa Maria nondirectional radio beacon and the western boundary of the ICAO Control Area at Lat. 41°29'00" N., Long., 68°00'00" W.

Azalea Intersection: Intersection of the southeast course of the Charleston, S. C., radio range and the centerline of the Wilmington, N. C.-West Palm Beach, Fla., Domestic control area.

Snapper Intersection: Intersection of the northeast course of the Melbourne, Fla., radio range and the centerline of the Wilmington, N. C.-West Palm Beach, Fla., Domestic control area.

East Nantucket Intersection: Intersection of a line bearing 77° True from the Nantucket, Mass., nondirectional radio beacon and the southeast course of the Squantum, Mass. (Navy), radio range.

East Norfolk Intersection: Intersection of the east course of the Norfolk, Va. (Navy) radio range and the northeast course of the Weeksville, N. C. (Navy) radio range.

Eel Intersection: Intersection of the southeast course of the Boston, Mass., radio range and the western boundary of the New York Oceanic control area.

Gateway Intersection: Intersection of the east course of the Jacksonville, Fla., radio range and the centerline of the Wilmington, N. C.-West Palm Beach, Fla., Domestic Control area.

Granite Intersection: The intersection of a line bearing 118° True from the Homer, Alaska, radio range station with the northwestern boundary of the Anchorage Oceanic Control Area.

Gulfstream Intersection: The intersection of the southeast course of the Miami, Fla., radio range and the northeast course of the Key West, Fla., radio range.

Marble Intersection: The intersection of a line bearing 107° True from the Kodiak, Alaska, radio range station with the northwestern boundary of the Anchorage Oceanic Control Area.

North Nantucket Intersection: Intersection of the east course of the Boston, Mass., radio range and the centerline of the Nantucket, Mass.-Yarmouth, N. S., domestic control area.

Shad Intersection: Intersection of the southeast course of the Millville, N. J., radio range and the western boundary of the New York Oceanic control area.

Seal Intersection: The intersection of a rhumb line between the Nantucket, Mass., nondirectional radio beacon and the Kindley AFB Bermuda radio range station and the western boundary of the ICAO Control Area at Lat. 39°50'00" N., Long. 69°16'00" W.

South Bangor Intersection: Intersection of the southeast course of the Bangor, Maine, radio range and the centerline of the Nantucket, Mass.-Yarmouth, N. S., Domestic control area.

South Island Intersection: Intersection of the southeast course of the Newark, N. J., radio range and the northeast course of the Atlantic City, N. J. (Navy) radio range.

South Millville Intersection: Intersection of the southeast course of the Millville, N. J., radio range and the southeast course of the Atlantic City, N. J. (Navy) radio range.

South Portland Intersection: Intersection of the southeast course of the Portland, Maine, radio range and the centerline of the East Boston, Mass.-Yarmouth, N. S., Domestic control area.

Smelt Intersection: Intersection of the southeast course of the Charleston, S. C., radio range and the western boundary of the New York Oceanic control area.

Trout Intersection: Intersection of the east course of the Jacksonville, Fla., radio range and the western boundary of the New York Oceanic control area.

Tuna Intersection: Intersection of the southeast course of the Newark, N. J., radio range and the western boundary of the New York Oceanic control area.

Domestic Annette Intersection: The intersection of the southwest course of the Annette, Alaska, radio range and the centerline of the Anchorhage-Sandspit route.

Domestic Sitka Intersection: The intersection of the southwest course of the Sitka, Alaska, radio range and the centerline of the Anchorage-Sandspit route.

Domestic Gustavis Intersection: The intersection of the southwest course of the Gustavus, Alaska, radio range and the centerline of the Anchorhage-Sandspit route.

Domestic Yakutat Intersection: The intersection of the southwest course of the Yakutat, Alaska, radio range and the centerline of the Anchorage-Sandspit route.

Domestic Yakataga Intersection: The intersection of the centerline of the Anchorage-Sandspit route and a line bearing 90° therefrom and lying over the Yakataga, Alaska, radio range station.

SUBPART F—VOR CIVIL AIRWAY CONTROL AREAS

DOMESTIC VOR CIVIL AIRWAY CONTROL AREAS

§ 601.6001 *VOR civil airway No. 1 control areas (Charleston, S. C., to New York, N. Y.).* All of VOR civil airway No. 1.

§ 601.6002 *VOR civil airway No. 2 control areas (Seattle, Wash., to Boston, Mass.).* All of VOR civil airway No. 2 including north and south alternates, excluding the airspace between the south alternate from the Alexandria, Minn., omnirange station to the La Crosse, Wis., omnirange station and the main airway.

§ 601.6003 *VOR civil airway No. 3 control areas (Key West, Fla., to Presque Isle, Maine).* All of VOR civil airway No. 3 including north and south alternates, but excluding all the airspace between the main airway and its west alternate extending from the Miami, Fla., omnirange station to the Vero Beach, Fla., omnirange station, and excluding all the airspace between the main airway and its west alternate extending from the Florence, S. C., omnirange station to the Raleigh, N. C., omnirange station.

§ 601.6004 *VOR civil airway No. 4 control areas (Seattle, Wash., to Washington, D. C.).* All of VOR civil airway No. 4 including north and south alternates, but excluding the airspace between the main airway and its south alternate between the Seattle, Wash., omnirange station and the Yakima, Wash., omnirange station and excluding the airspace between the main and its south alternate between the Topeka, Kans., omnirange station and the Columbia, Mo., omnirange station.

§ 601.6005 *VOR civil airway No. 5 control areas (Jacksonville, Fla., to Cleveland, Ohio).* All of VOR civil airway No. 5 including east and west alternates, but excluding the airspace between the main airway and its west alternate from the Alma, Ga., omnirange station to the Atlanta, Ga., omnirange station, and also excluding the airspace between the main airway and its east alternate from the Bowling Green, Ky., omnirange station to the Louisville, Ky., omnirange station.

§ 601.6006 *VOR civil airway No. 6 control areas (Oakland, Calif., to New York, N. Y.).* All of VOR civil airway No. 6, including north and south alternates.

§ 601.6007 *VOR civil airway No. 7 control areas (Miami, Fla., to Green Bay, Wis.).* All of VOR civil airway No. 7 including east and west alternates, but excluding all that airspace below 2,000 feet above mean sea level which lies beyond the continental limits of the United States and also excluding the airspace between the main airway and its west alternate between the Marianna, Fla., omnirange station and the Montgomery, Ala., omnirange station.

§ 601.6008 *VOR civil airway No. 8 control areas (Long Beach, Calif., to Washington, D. C.).* All of VOR civil airway No. 8 including north and south alternates.

§ 601.6009 *VOR civil airway No. 9 control areas (New Orleans, La., to Milwaukee, Wis.).* All of VOR civil airway No. 9 including an east alternate and west alternates.

§ 601.6010 *VOR civil airway No. 10 control areas (Pueblo, Colo., to New York, N. Y.).* All of VOR civil airway No. 10 including north and south alternates, excluding the airspace between the north alternate from the Dodge City, Kans., omnirange station to the Hutchinson, Kans., omnirange station and the main airway.

§ 601.6011 *VOR civil airway No. 11 control areas (Houston, Tex., to Detroit, Mich.).* All of VOR civil airway No. 11 including east and west alternates, but excluding the airspace between the main airway and its west alternate extending from the Fort Wayne, Ind., omnirange station to the Salem, Mich., omnirange station.

§ 601.6012 *VOR civil airway No. 12 control areas (Santa Barbara, Calif., to Philadelphia, Pa.).* All of VOR civil airway No. 12 including north and south alternates.

§ 601.6013 *VOR civil airway No. 13 control areas (Houston, Tex., to Duluth, Minn.).* All of VOR civil airway No. 13 including east and west alternates, excluding the airspace between the west alternate from the Mason City, Iowa, omnirange station to the Minneapolis, Minn., omnirange station and the main airway.

§ 601.6014 *VOR civil airway No. 14 control areas (Roswell, N. Mex., to Boston, Mass.).* All of VOR civil airway No. 14 including north and south alternates.

§ 601.6015 *VOR civil airway No. 15 control areas (Galveston, Tex., to Minot, N. Dak.).* All of VOR civil airway No. 15 including east and west alternates.

§ 601.6016 *VOR civil airway No. 16 control areas (Los Angeles, Calif., to Boston, Mass.).* All of VOR civil airway No. 16 including north and south alternates but excluding the airspace between the main airway and its south alternate from the Graham, Tenn., omnirange station to the Crossville, Tenn., omnirange station, and also excluding the airspace between the main airway and its north alternate from the Knoxville, Tenn., omnirange station to the Pulaski, Tenn., omnirange station.

§ 601.6017 *VOR civil airway No. 17 control areas (Laredo, Tex., to Goodland, Kans.).* All of VOR civil airway No. 17 including east and west alternates.

§ 601.6018 *VOR civil airway No. 18 control areas (Dallas, Tex., to Charleston, S. C.).* All of VOR civil airway No. 18 including north and south alternates, but excluding the airspace between the main airway and its south alternate from the Anniston, Ala., omnirange station to the Augusta, Ga., omnirange station.

§ 601.6019 *VOR civil airway No. 19 control areas (El Paso, Tex., to Sheridan, Wyo.).* All of VOR civil airway No. 19 including east alternates.

§ 601.6020 *VOR civil airway No. 20 control areas (Laredo, Tex., to Richmond, Va.).* All of VOR civil airway No. 20 including a north alternate and a south alternate, but excluding the airspace between the main airway and the north alternate airway from the Atlanta, Ga., omnirange station to the Spartanburg, S. C., omnirange station.

601.6021 *VOR civil airway No. 21 control areas (Long Beach, Calif., to United States-Canadian Border).* All of VOR civil airway No. 21, including an east and a west alternate.

§ 601.6022 *VOR civil airway No. 22 control areas (New Orleans, La., to Jacksonville, Fla.).* All of VOR civil airway No. 22, including a north alternate, but excluding the airspace between the main airway and its north alternate.

§ 601.6023 *VOR civil airway No. 23 control areas (San Diego, Calif., to Bellingham, Wash.).* All of VOR civil airway No. 23 including an east and west alternates but excluding the airspace between the main airway and its west alternate between the Portland, Oreg., omnirange station and the Seattle, Wash., omnirange station.

§ 601.6024 *VOR civil airway No. 24 control areas (Aberdeen, S. Dak., to Redwood Falls, Minn.).* All of VOR civil airway No. 24 including north alternates.

§ 601.6025 *VOR civil airway No. 25 control areas (Los Angeles, Calif., to Ellensburg, Wash.).* All of VOR civil airway No. 25.

§ 601.6026 *VOR civil airway No. 26 control areas (Cherokee, Wyo., to Cleveland, Ohio).* All of VOR civil airway No. 26, including north and south alternates.

§ 601.6027 *VOR civil airway No. 27 control areas (Los Angeles, Calif., to Seattle, Wash.).* All of VOR civil airway No. 27, including east and west alternates.

§ 601.6028 *VOR civil airway No. 28 control areas (Oakland, Calif., to Reno, Nev.).* All of VOR civil airway No. 28.

§ 601.6029 *VOR civil airway No. 29 control areas (Salisbury, Md., to United States-Canadian Border).* All of VOR civil airway No. 29.

§ 601.6030 *VOR civil airway No. 30 control areas (Milwaukee, Wis., to Nantucket, Mass.).* All of VOR civil airway No. 30 including a south alternate, but excluding all the airspace below 2,000 feet above mean sea level which lies beyond the continental limits of the United States.

§ 601.6031 *VOR civil airway No. 31 control areas (Baltimore, Md., to Rochester, N. Y.).* All of VOR civil airway No. 31.

§ 601.6032 *VOR civil airway No. 32 control areas (Battle Mountain, Nev., to Fort Bridger, Wyo.).* All of VOR civil airway No. 32, including a north alternate.

§ 601.6033 *VOR civil airway No. 33 control areas (Baltimore, Md., to Buffalo, N. Y.).* All of VOR civil airway No. 33.

§ 601.6034 *VOR civil airway No. 34 control areas (Rochester, N. Y., to Wilton, Conn.).* All of VOR civil airway No. 34.

§ 601.6035 *VOR civil airway No. 35 control areas (Tallahassee, Fla., to Syracuse, N. Y.).* All of VOR civil airway No. 35, including an east alternate from the Elmira, N. Y., omnirange station to the Syracuse, N. Y., omnirange station but excluding the airspace between the main airway and this east alternate airway.

§ 601.6036 *VOR civil airway No. 36 control areas (Buffalo, N. Y., to New York, N. Y.).* All of VOR civil airway No. 36.

§ 601.6037 *VOR civil airway No. 37 control areas (Elkins, W. Va., to Erie, Pa.).* All of VOR civil airway No. 37.

§ 601.6038 *VOR civil airway No. 38 control areas (Chicago, Ill., to Elkins, W. Va.).* All of VOR civil airway No. 38, including a south alternate.

§ 601.6039 *VOR civil airway No. 39 control areas (South Boston, Va., to Kennebunk, Maine).* All of VOR civil airway No. 39.

§ 601.6040 *VOR civil airway No. 40 control areas (Cleveland, Ohio, to Pittsburgh, Pa.).* All of VOR civil airway No. 40.

§ 601.6041 *VOR civil airway No. 41 control areas (Pittsburgh, Pa., to Youngstown, Ohio).* All of VOR civil airway No. 41.

§ 601.6042 *VOR civil airway No. 42 control areas (Detroit, Mich., to Washington, D. C.).* All of VOR civil airway No. 42.

§ 601.6043 *VOR civil airway No. 43 control areas (Columbus, Ohio, to Erie, Pa.).* All of VOR civil airway No. 43.

§ 601.6044 *VOR civil airway No. 44 control areas (Louisville, Ky., to Baltimore, Md.).* All of VOR civil airway No. 44.

§ 601.6045 *VOR civil airway No. 45 control areas (Lexington, Ky., to Lansing, Mich.).* All of VOR civil airway No. 45.

§ 601.6048 *VOR civil airway No. 46 control areas (New York, N. Y., to Nantucket, Mass.).* All of VOR civil airway No. 46 including a south alternate and the airspace between the main airway and this south alternate, but excluding the airspace below 2,000 feet above mean sea level which lies beyond the continental limits of the United States. The airspace between the main airway and the south alternate below 7,950 feet above mean sea level which lies within the confines of the Montauk Point Restricted Area (R–487) and the Montauk Point Warning Area (W–487) (published in § 608.40 of this chapter) shall be used only after obtaining prior approval from the Civil Aeronautics Administration Air Traffic Control.

§ 601.6047 *VOR civil airway No. 47 control areas (Louisville, Ky., to Detroit, Mich.).* All of VOR civil airway No. 47 including west alternates.

§ 601.6048 *VOR civil airway No. 48 control areas (Burlington, Iowa, to Pontiac, Ill.).* All of VOR civil airway No. 48.

§ 601.6049 *VOR civil airway No. 49 control areas (Dillon, Mont., to Great Falls, Mont.).* All of VOR civil airway No. 49.

§ 601.6050 *VOR civil airway No. 50 control areas (St. Joseph, Mo., to Minneapolis, Ind.).* All of VOR civil airway No. 50, including a south alternate.

§ 601.6051 *VOR civil airway No. 51 control areas (Miami, Fla., to Chicago, Ill.).* All of VOR civil airway No. 51 including east and west alternates, but excluding the airspace between the main airway and its west alternate from the Alma, Ga., omnirange station to the Atlanta, Ga., omnirange station.

§ 601.6052 *VOR civil airway No. 52 control areas (Des Moines, Iowa, to St. Louis, Mo.).* All of VOR civil airway No. 52 including north and south alternates.

§ 601.6053 *VOR civil airway No. 53 control areas (Charleston, S. C., to Milwaukee, Wis.).* All of VOR civil airway No. 53 including west alternates.

§ 601.6054 *VOR civil airway No. 54 control areas (Texarkana, Ark., to Charlotte, N. C.).* All of VOR civil airway No. 54 including north alternates.

§ 601.6055 *VOR civil airway No. 55 control areas (Dayton, Ohio, to Green Bay, Wis.).* All of VOR civil airway No. 55 including a west alternate.

§ 601.6056 *VOR civil airway No. 56 control areas (Montgomery, Ala., to Florence, S. C.).* All of VOR civil airway No. 56 including north alternates, but excluding the airspace between the main airway and its north alternate between the Columbia, S. C., omnirange station and the Florence, S. C., omnirange station.

§ 601.6057 *VOR civil airway No. 57 control areas (Graham, Tenn., to Chicago, Ill.).* All of VOR civil airway No. 57.

§ 601.6058 *VOR civil airway No. 58 control areas (Pittsburgh, Pa., to Hartford, Conn.).* All of VOR civil airway No. 58.

§ 601.6059 *VOR civil airway No. 59 control areas (Evansville, Ind., to Moline, Ill.).* All of VOR civil airway No. 59 including an east alternate.

§ 601.6060 *VOR civil airway No. 60 control areas (Albuquerque, N. Mex., to Tucumcari, N. Mex.).* All of VOR civil airway No. 60 including a south alternate.

§ 601.6061 *VOR civil airway No. 61 control areas (Fort Worth, Tex., to Lawton, Okla.).* All of VOR civil airway No. 61 including a west alternate.

§ 601.6062 *VOR civil airway No. 62 control areas (Santa Fe, N. Mex., to Anton Chico, N. Mex.).* All of VOR civil airway No. 62.

§ 601.6063 *VOR civil airway No. 63 control areas (McAlester, Okla., to Milwaukee, Wis.).* All of VOR civil airway No. 63, including west alternates.

§ 601.6064 *VOR civil airway No. 64 control areas (Long Beach, Calif., to Blythe, Calif.).* All of VOR civil airway No. 64.

§ 601.6065 *VOR civil airway No. 65 control areas (Bonner Springs, Kans., to St. Joseph, Mo.).* All of VOR civil airway No. 65.

§ 601.6066 *VOR civil airway No. 66 control areas (San Diego, Calif., to Midland, Tex.).* All of VOR civil airway No. 66 including north alternates.

§ 601.6067 *VOR civil airway No. 67 control areas (Waterloo, Iowa, to Rochester, Minn.).* All of VOR civil airway No. 67 including a west alternate.

§ 601.6068 *VOR civil airway No. 68 control areas (Albuquerque, N. Mex., to Brownsville, Tex.).* All of VOR civil airway No. 68 including north and south alternates.

§ 601.6069 *VOR civil airway No. 69 control areas (Little Rock, Ark., to Chicago, Ill.).* All of VOR civil airway No. 69.

§ 601.6070 *VOR civil airway No. 70 control areas (Corpus Christi, Tex., to Baton Rouge, La.).* All of VOR civil airway No. 70.

§ 601.6071 *VOR civil airway No. 71 control areas (Pine Bluff, Ark., to Kansas City, Mo.).* All of VOR civil airway No. 71 including a west alternate.

§ 601.6072 *VOR civil airway No. 72 control areas (Vichy, Mo., to Albany, N. Y.).* All of VOR civil airway No. 72.

§ 601.6073 *VOR civil airway No. 73 control areas (Tulsa, Okla., to Salina, Kans.).* All of VOR civil airway No. 73.

§ 601.6074 *VOR civil airway No. 74 control areas (Anthony, Kans., to Little Rock, Ark.).* All of VOR civil airway No. 74 including a north alternate and south alternates.

§ 601.6075 *VOR civil airway No. 75 control areas (Richmond, Va., to Cleveland, Ohio).* All of VOR civil airway No. 75.

§ 601.6076 *VOR civil airway No. 76 control areas (Lubbock, Tex., to Galveston, Tex.).* All of VOR civil airway No. 76 including a north and a south alternate, but excluding the airspace between the main airway and its south alternate.

§ 601.6077 *VOR civil airway No. 77 control areas (San Angelo, Tex., to Des Moines, Iowa).* All of VOR civil airway No. 77 including east alternates and a west alternate.

§ 601.6078 *VOR civil airway No. 78 control areas (Huron, S. Dak., to Minneapolis, Minn.).* All of VOR civil airway No. 78, including a south alternate.

§ 601.6079 *VOR civil airway No. 79 control areas (Culberson, Tex., to Lubbock, Tex.).* All of VOR civil airway No. 79.

§ 601.6080 *VOR civil airway No. 80 control areas (Sioux Falls, S. Dak., to Redwood Falls, Minn.).* All of VOR civil airway No. 80 including a south alternate.

§ 601.6081 *VOR civil airway No. 81 control areas (Midland, Tex., to Amarillo, Tex.).* All of VOR civil airway No. 81 including an east alternate.

§ 601.6082 *VOR civil airway No. 82 control areas (Minneapolis, Minn., to La Crosse, Wis.).* All of VOR civil airway No. 82 including south alternates.

§ 601.6083 *VOR civil airway No. 83 control areas (Carlsbad, N. Mex., to Santa Fe, N. Mex.).* All of VOR civil airway No. 83 including an east alternate.

§ 601.6084 *VOR civil airway No. 84 control areas (Bradford, Ill., to Flint, Mich.).* All of VOR civil airway No. 84.

§ 601.6085 *VOR civil airway No. 85 control areas (Rock River, Wyo., to Casper, Wyo.).* All of VOR civil airway No. 85 including an east alternate.

§ 601.6086 *VOR civil airway No. 86 control areas (Butte, Mont., to Bozeman, Mont.).* All of VOR civil airway No. 86.

§ 601.6087 *VOR civil airway No. 87 control areas (Gila Bend, Ariz., to Hassayampa, Ariz.).* All of VOR civil airway No. 87.

§ 601.6088 *VOR civil airway No. 88 control areas (Tulsa, Okla., to Mansfield, Ohio).* All of VOR civil airway No. 88, including a north alternate.

§ 601.6089 *VOR civil airway No. 89 control areas (Cheyenne, Wyo., to Rapid City, S. Dak.).* All of VOR civil airway No. 89 including east alternates.

§ 601.6091 *VOR civil airway No. 91 control areas (New York, N. Y., to Plattsburg, N. Y.).* All of VOR civil airway No. 91.

§ 601.6092 *VOR civil airway No. 92 control areas (Chicago, Ill., to Washington, D. C.).* All of VOR civil airway No. 92.

§ 601.6093 *VOR civil airway No. 93 control areas (Washington, D. C., to Presque Isle, Maine).* All of VOR civil airway No. 93.

§ 601.6094 *VOR civil airway No. 94 control areas (Salt Flat, Tex., to Hobbs, N. Mex.).* All of VOR civil airway No. 94.

§ 601.6095 *VOR civil airway No. 95 control areas (Phoenix, Ariz., to Winslow, Ariz.).* All of VOR civil airway No. 95.

§ 601.6096 *VOR civil airway No. 96 control areas (Lafayette, Ind., to Detroit, Mich.).* All of VOR civil airway No. 96.

§ 601.6097 *VOR civil airway No. 97 control areas (Miami, Fla., to Minneapolis, Minn.).* All of VOR civil airway No. 97 including east and west alternates, but excluding all the airspace below 2,000 feet above mean sea level which lies beyond the continental limits of the United States and also excluding the airspace between the main airway and its east alternate between the Tampa, Fla., omnirange station and the Tallahassee, Fla., omnirange station.

§ 601.6098 *VOR civil airway No. 98 control areas (Fort Wayne, Ind., to Erie, Pa.)* All of VOR civil airway No. 98.

§ 601.6101 *VOR civil airway No. 101 control areas (Ogden, Utah, to Burley, Idaho).* All of VOR civil airway No. 101.

§ 601.6102 *VOR civil airway No. 102 control areas (Lubbock, Tex., to Wichita Falls, Tex.).* All of VOR civil airway No. 102.

§ 601.6103 *VOR civil airway No. 103 control areas (Elkins, W. Va., to Cleveland, Ohio).* All of VOR civil airway No. 103.

§ 601.6104 *VOR civil airway No. 104 control areas (United States-Canadian Border to Plattsburg, N. Y.).* All of VOR civil airway No. 104.

§ 601.6105 *VOR civil airway No. 105 control areas (Phoenix, Ariz., to Las Vegas, Nev.).* All of VOR civil airway No. 105.

§ 601.6106 *VOR civil airway No. 106 control areas (Charleston, W. Va., to Kennebunk, Maine).* All of VOR civil airway No. 106, including a north alternate.

§ 601.6107 *VOR civil airway No. 107 control areas (Los Angeles, Calif., to Red Bluff, Calif.).* All of VOR civil airway No. 107.

§ 601.6109 *VOR civil airway No. 109 control areas (Paso Robles, Calif., to Fresno, Calif.).* All of VOR civil airway No. 109.

§ 601.6110 *VOR civil airway No. 110 control areas (San Francisco, Calif., to Altamount, Calif.).* All of VOR civil airway No. 110.

§ 601.6111 *VOR civil airway No. 111 control areas (Salinas, Calif., to Los Banos, Calif.).* All of VOR civil airway No. 111.

§ 601.6112 *VOR civil airway No. 112 control areas (Portland, Oreg., to Spokane, Wash.).* All of VOR civil airway No. 112.

§ 601.6113 *VOR civil airway No. 113 control areas (Paso Robles, Calif., to Reno, Nev.).* All of VOR civil airway No. 113.

§ 601.6114 *VOR civil airway No. 114 control areas (Pueblo, Colo., to New Orleans, La.).* All of VOR civil airway No. 114, including north alternates.

§ 601.6115 *VOR civil airway No. 115 control areas (Crestview, Fla., to Charleston, W. Va.).* All of VOR civil airway No. 115.

§ 601.6116 *VOR civil airway No. 116 control areas (Kansas City, Mo., to New York, N. Y.).* All of VOR civil airway No. 116.

§ 601.6117 *VOR civil airway No. 117 control areas (El Centro, Calif., to Daggett, Calif.).* All of VOR civil airway No. 117.

§ 601.6118 *VOR civil airway No. 118 control areas (Rock River, Wyo., to Cheyenne, Wyo.).* All of VOR civil airway No. 118.

§ 601.6119 *VOR civil airway No. 119 control areas (Huntington, W. Va., to Bradford, Pa.).* All of VOR civil airway No. 119.

§ 601.6120 *VOR civil airway No. 120 control areas (Mullen Pass, Mont., to Miles City, Mont.).* All of VOR civil airway No. 120.

§ 601.6121 *VOR civil airway No. 121 control areas (North Bend, Oreg., to Eugene, Oreg.).* All of VOR civil airway No. 121.

§ 601.6122 *VOR civil airway No. 122 control areas (Crescent City, Calif., to Klamath Falls, Oreg.).* All of VOR civil airway No. 122.

§ 601.6123 *VOR civil airway No. 123 control areas (Newport, Oreg., to Newberg, Oreg.).* All of VOR civil airway No. 123.

§ 601.6124 *VOR civil airway No. 124 control areas (Burley, Idaho, to Pocatello, Idaho).* All of VOR civil airway No. 124.

§ 601.6125 *VOR civil airway No. 125 control areas (Anthony, Kans., to Hutchinson, Kans.).* All of VOR civil airway No. 125.

§ 601.6126 *VOR civil airway No. 126 control areas (Chicago, Ill., to New York, N. Y.).* All of VOR civil airway No. 126.

§ 601.6127 *VOR civil airway No. 127 control areas (Livingston, Mont., to Helena, Mont.).* All of VOR civil airway No. 127.

§ 601.6128 *VOR civil airway No. 128 control areas (Chicago, Ill., to New Bern, N. C.).* All of VOR civil airway No. 128 including a north alternate and south alternates.

§ 601.6129 *VOR civil airway No. 129 control areas (Dixon, Ill., to Eau Claire, Wis.).* All of VOR civil airway No. 129.

§ 601.6130 *VOR civil airway No. 130 control areas (Albany, N. Y., to Providence, R. I.).* All of VOR civil airway No. 130.

§ 601.6131 *VOR civil airway No. 131 control areas (Ponca City, Okla., to Topeka, Kans.).* All of VOR civil airway No. 131.

§ 601.6132 *VOR civil airway No. 132 control areas (Cheyenne, Wyo., to Hutchinson, Kans.).* All of VOR civil airway No. 132.

§ 601.6133 *VOR civil airway No. 133 control areas (Parkersburg, W. Va., to Flint, Mich.).* All of VOR civil airway No. 133.

§ 601.6134 *VOR civil airway No. 134 control areas (Evergreen, Ala., to Atlanta, Ga.).* All of VOR civil airway No. 134.

§ 601.6135 *VOR civil airway No. 135 control areas (Yuma, Ariz., to Las Vegas, Nev.).* All of VOR civil airway No. 135.

§ 601.6136 *VOR civil airway No. 136 control areas (Pulaski, Va., to Raleigh, N. C.).* All of VOR civil airway No. 136.

§ 601.6137 *VOR civil airway No. 137 control areas (San Bernardino, Calif., to Salinas, Calif.).* All of VOR civil airway No. 137.

§ 601.6138 *VOR civil airway No. 138 control areas (Rock River, Wyo., to Sidney, Nebr.).* All of VOR civil airway No. 138.

§ 601.6139 *VOR civil airway No. 139 control areas (Norwich, Conn., to Boston, Mass.).* All of VOR civil airway No. 139.

§ 601.6140 *VOR civil airway No. 140 control areas (Amarillo, Tex., to New York, N. Y.).* All of VOR civil airway No. 140, including north alternates and a south alternate.

§ 601.6141 *VOR civil airway No. 141 control areas (Nantucket, Mass., to Plattsburg, N. Y.).* All of VOR civil airway No. 141.

§ 601.6142 *VOR civil airway No. 142 control areas (Buffalo, N. Y., to Rochester, N. Y.).* All of VOR civil airway No. 142.

§ 601.6143 *VOR civil airway No. 143 control areas (Charlotte, N. C., to Washington, D. C.).* All of VOR civil airway No. 143, including a west alternate, but excluding the airspace between the main airway and the west alternate.

§ 601.6144 *VOR civil airway No. 144 control areas (Chicago, Ill., to Washington, D. C.).* All of VOR civil airway No. 144.

§ 601.6145 *VOR civil airway No. 145 control areas (Utica, N. Y., to the United States-Canadian Border).* All of VOR civil airway No. 145.

§ 601.6146 *VOR civil airway No. 146 control areas (Poughkeepsie, N. Y., to Woodstock, Conn.).* All of VOR civil airway No. 146.

§ 601.6147 *VOR civil airway No. 147 control areas (Philadelphia, Pa., to Rochester, N. Y.).* All of VOR civil airway No. 147.

§ 601.6148 *VOR civil airway No. 148 control areas (Thurman, Colo., to North Platte, Nebr.).* All of VOR civil airway No. 148.

§ 601.6149 *VOR civil airway No. 149 control areas (Allentown, Pa., to Utica, N. Y.).* All of VOR civil airway No. 149.

§ 601.6150 *VOR civil airway No. 150 control areas (Sacramento, Calif., to Reno, Nev.).* All of VOR civil airway No. 150.

§ 601.6151 *VOR civil airway No. 151 control areas (Woonsocket, R. I., to Keene, N. H.).* All of VOR civil airway No. 151.

§ 601.6152 *VOR civil airway No. 152 control areas (Tampa, Fla., to Daytona Beach, Fla.).* All of VOR civil airway No. 152 including a north and a south alternate.

§ 601.6153 *VOR civil airway No. 153 control areas (New York, N. Y., to Wilkes-Barre, Pa.).* All of VOR civil airway No. 153.

§ 601.6154 *VOR civil airway No. 154 control areas (Meridian, Miss., to Macon, Ga.).* All of VOR civil airway No. 154, including a north alternate.

§ 601.6155 *VOR civil airway No. 155 control areas (Gordonsville, Va., to Front Royal, Va.).* All of VOR civil airway No. 155.

§ 601.6156 *VOR civil airway No. 156 control areas (Elkins, W. Va., to Gordonsville, Va.).* All of VOR civil airway No. 156.

§ 601.6157 *VOR civil airway No. 157 control areas (Wilmington, N. C., to Richmond, Va.).* All of VOR civil airway No. 157.

§ 601.6158 *VOR civil airway No. 158 control areas (Iowa Falls, Iowa, to Waterloo, Iowa).* All of VOR civil airway No. 158.

§ 601.6159 *VOR civil airway No. 159 control areas (Miami, Fla., to Albany, Ga.).* All of VOR civil airway No. 159.

§ 601.6160 *VOR civil airway No. 160 control areas (Denver, Colo., to Sidney, Nebr.).* All of VOR civil airway No. 160.

§ 601.6161 *VOR civil airway No. 161 control areas (Tulsa, Okla., to Minneapolis, Minn.).* All of VOR civil airway No. 161.

§ 601.6162 *VOR civil airway No. 162 control areas (Harrisburg, Pa., to Allentown, Pa.).* All of VOR civil airway No. 162, including a south alternate.

§ 601.6163 *VOR civil airway No. 163 control areas (Waco, Tex., to Oklahoma City, Okla.).* All of VOR civil airway No. 163 including an east alternate.

§ 601.6164 *VOR civil airway No. 164 control areas (Bradford, Pa., to New York, N. Y.).* All of VOR civil airway No. 164 including south alternate, but

excluding the airspace between the main airway and the south alternate.

§ 601.6165 *VOR civil airway No. 165 control areas (Long Beach, Calif., to Palmdale, Calif.).* All of VOR civil airway No. 165.

§ 601.6166 *VOR civil airway No. 166 control areas (Martinsburg, W. Va., to Philadelphia, Pa.).* All of VOR civil airway No. 166.

§ 601.6167 *VOR civil airway No. 167 control areas (New York, N. Y., to Hartford, Conn.).* All of VOR civil airway No. 167.

§ 601.6168 *VOR civil airway No. 168 control areas.* (Unassigned.)

§ 601.6169 *VOR civil airway No. 169 control areas (Sidney, Nebr., to Rapid City, S. Dak.).* All of VOR civil airway No. 169 including an east alternate.

§ 601.6170 *VOR civil airway No. 170 control areas (Erie, Pa., to Philadelphia, Pa.).* All of VOR civil airway No. 170.

§ 601.6171 *VOR civil airway No. 171 control areas (Louisville, Ky., to Madison, Wis.).* All of VOR civil airway No. 171.

§ 601.6172 *VOR civil airway No. 172 control areas (Iowa City, Iowa, to Chicago, Ill.).* All of VOR civil airway No. 172 including a north alternate.

§ 601.6173 *VOR civil airway No. 173 control areas (Springfield, Ill., to Chicago, Ill.).* All of VOR civil airway No. 173.

§ 601.6174 *VOR civil airway No. 174 control areas (St. Louis, Mo., to Washington, D. C.).* All of VOR civil airway No. 174.

§ 601.6175 *VOR civil airway No. 175 control areas (Vichy, Mo., to Columbia, Mo.).* All of VOR civil airway No. 175.

§ 601.6176 *VOR civil airway No. 176 control areas (Centralia, Ill., to Scotland, Ind.).* All of VOR civil airway No. 176.

§ 601.6177 *VOR civil airway No. 177 control areas (Chicago, Ill., to Janesville, Wis.).* All of VOR civil airway No. 177.

§ 601.6178 *VOR civil airway No. 178 control areas (Farmington, Mo., to Paducah, Ky.).* All of VOR civil airway No. 178 including a south alternate.

§ 601.6179 *VOR civil airway No. 179 control areas (Paducah, Ky., to Centralia, Ill.)* All of VOR civil airway No. 179.

§ 601.6180 *VOR civil airway No. 180 control areas (Lansing, Mich., to Selfridge, Mich.).* All of VOR civil airway No. 180.

§ 601.6181 *VOR civil airway No. 181 control areas (Sioux Falls, S. Dak., to Watertown, S. Dak.).* All of VOR civil airway No. 181.

§ 601.6182 *VOR civil airway No. 182 control areas (Portland, Oreg., to Baker, Oreg.).* All of VOR civil airway No. 182.

§ 601.6183 *VOR civil airway No. 183 control areas (Santa Barbara, Calif., to Bakersfield, Calif.).* All of VOR civil airway No. 183.

§ 601.6184 *VOR civil airway No. 184 control areas (Erie, Pa., to Philipsburg, Pa.).* All of VOR civil airway No. 184.

§ 601.6185 *VOR civil airway No. 185 control areas (Augusta, Ga., to Knoxville, Tenn.).* All of VOR civil airway No. 185, including an east and a west alternate, but excluding the airspace between the main airway and its west alternate airway from the Augusta, Ga., omnirange station to the Asheville, N. C., omnirange station and also excluding the airspace between the main airway and its east alternate from the Asheville, N. C., omnirange station to the Knoxville, Tenn., omnirange station.

§ 601.6186 *VOR civil airway No. 186 control areas (St. Louis, Mo., to Scotland, Ind.).* All of VOR civil airway No. 186.

§ 601.6187 *VOR civil airway No. 187 control areas (Chicago, Ill., to Milwaukee, Wis.).* All of VOR civil airway No. 187.

§ 601.6188 *VOR civil airway No. 188 control areas (Detroit, Mich., to New York, N. Y.).* All of VOR civil airway No. 188.

§ 601.6189 *VOR civil airway No. 189 control areas (Pittsburgh, Pa., to Brookville, Pa.).* All of VOR civil airway No. 189.

§ 601.6190 *VOR civil airway No. 190 control areas (Grants, N. Mex., to Evansville, Ind.).* All of VOR civil airway No. 190.

§ 601.6191 *VOR civil airway No. 191 control areas (Walnut Ridge, Ark., to Chicago, Ill.)* All of VOR civil airway No. 191.

§ 601.6192 *VOR civil airway No. 192 control areas (Grant, N. Mex., to Tucumcari, N. Mex.).* All of VOR civil airway No. 192.

§ 601.6193 *VOR civil airway No. 193 control areas (Grand Rapids, Mich., to Traverse City, Mich.).* All of VOR civil airway No. 193.

§ 601.6194 *VOR civil airway No. 194 control areas (Royston, Ga., to Norfolk, Va.).* All of VOR civil airway No. 194.

§ 601.6195 *VOR civil airway No. 195 control areas (Oakland, Calif., to Red Bluff, Calif.).* All of VOR civil airway No. 195 including west alternates.

§ 601.6196 *VOR civil airway No. 196 control areas (Rock River, Wyo., to Chadron, Nebr.).* All of VOR civil airway No. 196.

§ 601.6197 *VOR civil airway No. 197 control areas (Toledo, Ohio, to Detroit, Mich.).* All of VOR civil airway No. 197.

§ 601.6198 *VOR civil airway No. 198 control areas (San Antonio, Tex., to Galveston, Tex.).* All of VOR civil airway No. 198 including a north alternate.

§ 601.6199 *VOR civil airway No. 199 control areas (San Francisco, Calif., to Fresno, Calif.).* All of VOR civil airway No. 199.

§ 601.6200 *VOR civil airway No. 200 control areas (Ukiah, Calif., to Reno, Nev.).* All of VOR civil airway No. 200 including a south alternate, but excluding the airspace between the main airway and this south alternate.

§ 601.6201 *VOR civil airway No. 201 control areas (Los Angeles, Calif., to Pasadena, Calif.).* All of VOR civil airway No. 201.

§ 601.6202 *VOR civil airway No. 202 control areas (Tucson, Ariz., to Cochise, Ariz.).* All of VOR civil airway No. 202.

§ 601.6203 *VOR civil airway No. 203 control areas (Albany, N. Y., to Massena, N. Y.).* All of VOR civil airway No. 203.

§ 601.6204 *VOR civil airway No. 204 control areas (Hoquiam, Wash., to Olympia, Wash.).* All of VOR civil airway No. 204.

§ 601.6205 *VOR civil airway No. 205 control areas (Springfield, Mo., to Kansas City, Mo.).* All of VOR civil airway No. 205.

§ 601.6206 *VOR civil airway No. 206 control areas (Blue Springs, Mo., to Kirksville, Mo.).* All of VOR civil airway No. 206.

§ 601.6207 *VOR civil airway No. 207 control areas (Denver, Colo., to Egbert, Wyo.).* All of VOR civil airway No. 207.

§ 601.6208 *VOR civil airway No. 208 control areas (Thermal, Calif., to Needles, Calif.).* All of VOR civil airway No. 208.

§ 601.6209 *VOR civil airway No. 209 control areas (Los Angeles, Calif., to Paso Robles, Calif.).* All of VOR civil airway No. 209.

§ 601.6211 *VOR civil airway No. 211 control areas (Cotulla, Tex., to Junction, Tex.).* All of VOR civil airway No. 211.

§ 601.6213 *VOR civil airway No. 213 control areas (Rocky Mount, N. C., to Boykins, Va.).* All of VOR civil airway No. 213.

§ 601.6223 *VOR civil airway No. 223 control areas (Herndon, Va., to Harrisburg, Pa.).* All of VOR civil airway No. 223.

HAWAIIAN VOR CIVIL AIRWAY CONTROL AREAS

§ 601.6401 *Hawaiian VOR civil airway No. 1 control areas.* All of Hawaiian VOR civil airway No. 1.

§ 601.6402 *Hawaiian VOR civil airway No. 2 control areas.* All of Hawaiian VOR civil airway No. 2, including south alternates.

§ 601.6403 *Hawaiian VOR civil airway No. 3 control areas.* All of Hawaiian VOR civil airway No. 3.

§ 601.6404 *Hawaiian VOR civil airway No. 4 control areas.* All of Hawaiian VOR civil airway No. 4.

§ 601.6405 *Hawaiian VOR civil airway No. 5 control areas.* All of Hawaiian VOR civil airway No. 5.

§ 601.6406 *Hawaiian VOR civil airway No. 6 control areas.* All of Hawaiian VOR civil airway No. 6.

§ 601.6407 *Hawaiian VOR civil airway No. 7 control areas.* All of Hawaiian VOR civil airway No. 7.

§ 601.6408 *Hawaiian VOR civil airway No. 8 control areas.* All of Hawaiian VOR civil airway No. 8.

§ 601.6409 *Hawaiian VOR civil airway No. 9 control areas.* All of Hawaiian VOR civil airway No. 9.

§ 601.6410 *Hawaiian VOR civil airway No. 10 control areas.* All of Hawaiian VOR civil airway No. 10.

SUBPART G—VOR CIVIL AIRWAY REPORTING POINTS

§ 601.7001 *Domestic VOR reporting points.*

Aberdeen, S. Dak., omnirange station.
Abilene, Tex., omnirange station.
Adamsville Intersection: The intersection of the Columbus, Ohio, omnirange 082° True and the Mansfield, Ohio, omnirange 149° True radials.
Akron, Colo., omnirange station.
Albany, Ga., omnirange station.
Albany, N. Y. omnirange station.
Albuquerque, N. Mex., omnirange station.
Alexandria, La., omnirange station.
Alexandria, Minn., omnirange station.
Allentown, Pa., omnirange station.
Alma, Ga., omnirange station.
Altoona Intersection: The intersection of the Johnstown, Pa., omnirange 092° True and the Philipsburg, Pa., omnirange 202° True radials.
Amarillo, Tex., omnirange station.
Andrews Intersection: The intersection of the Baltimore, Md., omnirange 196° True and the Washington, D. C., terminal omnirange 140° True radials.
Animas Intersection: The intersection of the Douglas, Ariz., omnirange 063° True and the Columbus, N. Mex., omnirange 277° True radials.
Anniston, Ala., omnirange station.
Anthony, Kans., omnirange station.
Anton Chico, N. Mex., omnirange station.
Arcola Intersection: The intersection of the Houston, Tex., omnirange 226° True and the Galveston, Tex., omnirange 286 True radials.
Ardmore, Okla., omnirange station.
Ashville, N. C., omnirange station.
Atlanta, Ga., omnirange station.
Augusta, Ga., omnirange station.
Augusta, Maine, omnirange station.
Atwater Intersection: The intersection of the Youngstown, Ohio, omnirange 231° True and the Cleveland, Ohio, omnirange 116° True radials.
Austin, Tex., omnirange station.
Baker, Oreg., omnirange station.
Bakersfield, Calif., omnirange station.
Bangor, Maine, omnirange station.
Baltimore, Md., omnirange station.
Baton Rouge, La., omnirange station.
Battle Mountain, Nev., omnirange station.
Bay Point Intersection: The intersection of the Oakland, Calif., omnirange 039° True and the Modesto, Calif., omnirange 292° True radials.
Beaumont, Tex., omnirange station.
Belle Glade Intersection: The intersection of the Vero Beach, Fla., omnirange 192° True and the Miami, Fla., omnirange 338° True radials.
Bellingham, Wash., omnirange station.
Benito Intersection: The intersection of the Salinas, Calif., omnirange 109° True and the Paso Robles, Calif., omnirange 335° True radials.
Bergholz Intersection: The intersection of the Pittsburgh, Pa., Omnirange 291° True and the Youngstown, Ohio, omnirange 195° True radials (or ADF passing indication over the Bergholz, Ohio, nondirectional radio beacon).
Big Spring, Tex., omnirange station.
Billings, Mont., omnirange station.
Binghamton, N. Y., omnirange station.
Birmingham, Ala., omnirange station.
Bismarck, N. Dak., omnirange station.
Blythe, Calif., omnirange station.
Boise, Idaho, omnirange station.
Boston, Mass., omnirange station.
Bowling Green, Ky., omnirange station.
Bozeman, Mont., omnirange station.
Bradford, Ill., omnirange station.
Bradford, Pa., omnirange station.
Bradley Intersection: The intersection of the Poughkeepsie, N. Y., omnirange 079° True radial and the 225° True course of the Windsor Locks, Conn., Bradley Field ILS localizer.
Branchville Intersection: The intersection of the Stroudsburg, Pa., omnirange 055° True and the Wilkes-Barre, Pa., omnirange 117° True radials.
Brownsville, Tex., omnirange station.
Brunswick, Ga., omnirange station.
Bryce Canyon, Utah, omnirange station.
Burley, Idaho, omnirange station.
Burlington, Iowa, omnirange station.
Buffalo, N. Y., omnirange station.
Butler, Mo., omnirange station.
Butte, Mont., omnirange station.
Campbell Intersection: The intersection of the San Francisco., Calif., omnirange 141° True and the Modesto, Calif., omnirange 242° True radials.
Carleton, Mich., omnirange station.
Carlsbad, N. Mex., omnirange station.
Casper, Wyo., omnirange station.
Catalina Intersection: The intersection of the Los Angeles, Calif., omnirange 185° True radial, the Long Beach, Calif., omnirange 220° True radial and a straight line bearing 099° True to the Oceanside, Calif., nondirectional radio beacon.
Centralia, Ill., omnirange station.
Chadron, Nebr., omnirange station.
Charleston, S. C., omnirange station.
Charleston, W. Va., omnirange station.
Charlotte, N. C., omnirange station.
Chattanooga, Tenn., omnirange station.
Cheyenne, Wyo., omnirange station.
Chicago Heights, Ill., omnirange station.
Childress, Tex., omnirange station.
Cincinnati, Ohio, omnirange station.
Clam Intersection: The intersection of the Cross City, Fla., omnirange 242° True and the Tallahassee, Fla., omnirange 151° True radials.
Cleveland, Ohio, omnirange station.
Coalinga, Calif., omnirange station.
Cochise, Ariz., omnirange station.
Coldwater Intersection: The intersection of the Dayton, Ohio, omnirange 324° True and the Findlay, Ohio, omnirange 250° True radials.
College Station, Tex., omnirange station.
Columbia, Mo., omnirange station.
Columbia, S. C., omnirange station.
Columbus, Ga., omnirange station.
Columbus, N. Mex., omnirange station.
Columbus, Ohio, omnirange station.
Concord, N. H., omnirange station.
Colt Intersection: The intersection of the Memphis, Tenn., omnirange 276° True and the Walnut Ridge, Ark., omnirange 171° True radials.
Corbin, Ky., VAR station.
Corono, N. Mex., omnirange station.
Corpus Christi, Tex., omnirange station.
Cotulla, Tex., omnirange station.
Crescent City, Calif., omnirange station.
Crestview, Fla., omnirange station.
Cross City, Fla., omnirange station.
Crossville, Tenn., omnirange station.
Crystal Lake Intersection: The intersection of the Allentown, Pa., omnirange 329° True and the Wilkes Barre-Scranton, Pa., omnirange 224° True radials.
Culberson, Tex., omnirange station.
Cut Bank, Mont., omnirange station.
Daggett, Calif., omnirange station.
Dayton, Ohio, omnirange station.
Daytona Beach, Fla., omnirange station.
Dalhart, Tex., omnirange station.
Dallas, Tex., omnirange station.
Delta, Utah, omnirange station.
Denver, Colo., omnirange station.
Des Moines, Iowa, omnirange station.
Detroit, Mich., omnirange station.
Dickinson, N. Dak., omnirange station.
Dillon, Mont., omnirange station.
Dodge City, Kans., omnirange station.
Douglas, Ariz., omnirange station.
Douglas, Wyo., omnirange station.
Drummond, Mont., omnirange station.
Duluth, Minn., omnirange station.
Dyersburg, Tenn., omnirange station.
Eau Claire, Wis., omnirange station.
Edgerton Intersection: The intersection of the Fort Wayne, Ind. omnirange 037° True and the Goshen, Ind., omnirange 092° True radials.
El Dorado, Ark., omnirange station.
Elkins, W. Va., omnirange station.
Ellensburg, Wash., omnirange station.
Elmira, N. Y., omnirange station.
El Monte Intersection: The intersection of the Ontario, Calif., omnirange 292° True and the Long Beach, Calif., omnirange 357° True radials.
El Paso, Tex., omnirange station.
Emporia, Kans., omnirange station.
Ephrata, Wash., omnirange station.
Erie, Pa., omnirange station.
Eugene, Oreg., omnirange station.
Evansville, Ind., omnirange station.
Evergreen, Ala., omnirange station.
Fargo, N. Dak., omnirange station.
Farmington, Mo., omnirange station.
Fayetteville, Ark., omnirange station.
Findlay, Ohio, omnirange station.
Flat Rock, Va., omnirange station.
Fort Jones, Calif., omnirange station.
Fort Myers, Fla., omnirange station.
Fort Smith, Ark., omnirange station.
Fort Wayne, Ind., omnirange station.
Fort Worth, Tex., omnirange station.
Flint Intersection: The intersection of the Lansing, Mich., omnirange 068° True and the Salem, Mich., omnirange 342° True radials.
Flintstone Intersection: The intersection of the Front Royal, Va., omnirange 335° True and the Martinsburg, W. Va., omnirange 398° True radials.
Flippin, Ark., omnirange station.
Florence, S. C., omnirange station.
Fresno, Calif., omnirange station.
Front Royal, Va., omnirange station.
Gage, Okla., omnirange station.
Galveston, Tex., omnirange station.
Garden City, Kans., omnirange station.
Gardner, Mass., omnirange station.
Gila Bend, Ariz., omnirange station.
Golden Gate Intersection: The intersection of the Oakland, Calif., omnirange 274° True and the San Francisco, Calif., omnirange 304° True radials.
Goodland, Kans., omnirange station.
Gordonsville, Va., omnirange station.
Gore Intersection: The intersection of the Culbertson, Tex., omnirange 012° True and the Salt Flat, Tex., omnirange 085° True radials.
Goshen, Ind., omnirange station.
Graham, Tenn., omnirange station.
Grand Island, Nebr., omnirange station.
Grand Junction, Colo., omnirange station.
Grants, N. Mex., omnirange station.
Grantsburg, Wis., omnirange station.
Great Falls, Mont., omnirange station.
Green Bay, Wis., omnirange station.
Gregg County, Tex., omnirange station.
Greenwood, Miss., omnirange station.
Greensboro, N. C., omnirange station.
Guthrie, Tex., omnirange station.
Half-Moon Bay Intersection: The intersection of the Oakland, Calif., omnirange 217° True, the Salinas, Calif., omnirange 319° True and the San Francisco, Calif., omnirange 281° True radials.
Harrelsville Intersection: The intersection of the Williamston, N. C., VAR north course and the Rocky Mount, N. C., omnirange 064° True radial.
Harrisburg, Pa., omnirange station.

Hartford, Conn., omnirange station.
Helena, Mont., omnirange station.
Hassayampa, Ariz., omnirange station.
Herndon, Va., omnirange station.
Highway Intersection: The intersection of the Nashville, Tenn., omnirange 059° True and the Crossville, Tenn., omnirange 347° True radials.
Hill City, Kans., omnirange station.
Hobart, Okla., omnirange station.
Hobbs, N. Mex., omnirange station.
Homer Intersection: The intersection of the Norcross, Ga., omnirange 054° True and the Royston, Ga., omnirange 270° True radials.
Honea Intersection: The intersection of the Royston, Ga., omnirange 078° True radial and the Greensville, S. C., ILS localizer south course.
Hope Intersection: The intersection of the Rochester, Minn., omnirange 275° True and the Minneapolis, Minn., omnirange 179° True radials.
Hoquiam, Wash., omnirange station.
Houston, Tex., omnirange station.
Hudspeth, Tex., omnirange station.
Huron, S. Dak., omnirange station.
Hutchinson, Kans., omnirange station.
Imperial, Nebr., omirange station.
Indianapolis, Ind., omnirange station.
Iowa City, Iowa, omnirange station.
Jackson, Miss., omnirange station.
Jackson, Tenn., omnirange station.
Jacksonville, Fla., omnirange station.
Jamestown, N. Dak., omnirange station.
Janesville, Wis., omnirange station.
Joliet, Ill., omnirange station.
Junction, Tex., omnirange station.
Kansas City, Mo., omnirange station.
Kennebunk, Maine, omnirange station.
Key West, Fla., omnirange station.
Kirksville, Mo., omnirange station.
Knoxville, Tenn., omnirange station.
Kokomo Intersection: The intersection of the Indianapolis, Ind., omnirange 021° True and the Lafayette, Ind., omnirange 079° True radials.
Kremmling, Colo., omnirange station.
La Belle Intersection: The intersection of the Miami, Fla., omnirange 316° True and the Fort Myers, Fla., omnirange 035° True radials.
La Crosse, Wis., omnirange station.
Lafayette, Ind., omnirange station.
Lafayette, La., omnirange station.
La Grange, Ga., omnirange station.
Lake Charles, La., omnirange station.
Lakeland, Fla., omnirange station.
Lamar, Colo., omnirange station.
Lamoni, Iowa, omnirange station.
Lancaster Intersection: The intersection of the Harrisburg, Pa., omnirange 108° True and the Allentown, Pa., omnirange 228° True radials.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10648

RESTORING CERTAIN LANDS COMPRISING PORTIONS OF THE FORT RUGER MILITARY RESERVATION TO THE JURISDICTION OF THE TERRITORY OF HAWAII

WHEREAS certain lands at Kapahulu, Honolulu, Island of Oahu, Territory of Hawaii, which form a part of the public lands ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750, were reserved for military purposes of the United States and constitute a part of Tract No. 1 of the Fort Ruger Military Reservation, described by Executive Order No. 6408 of November 7, 1933, as modified by Executive Orders No. 6468 of November 29, 1933, No. 10268 of July 5, 1951, No. 10453 of May 18, 1953, and No. 10496 of October 14, 1953; and

WHEREAS portions of such lands are needed by the Territory of Hawaii for National Guard, Air National Guard, and civil-defense purposes; and

WHEREAS present military requirements are sufficiently provided for by the terms and provisions of this order; and

WHEREAS it is deemed advisable and in the public interest that Parcels 1 to 6 inclusive, hereinafter described, comprising portions of Tract No. 1, referred to in the first paragraph of this order, be restored to the possession, use, and control of the Territory of Hawaii, subject to the limitations hereinafter set forth:

NOW, THEREFORE, by virtue of the authority vested in me by section 91 of the act of April 30, 1900, 31 Stat. 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 447, it is ordered as follows:

PART I

The following-described parcels of land, located at Kapahulu, Honolulu, Island of Oahu, Territory of Hawaii, comprising portions of Tract No. 1 of Fort Ruger Military Reservation, are hereby restored to the possession, use, and control of the Territory of Hawaii (hereinafter referred to as the Territory), subject to the limitations hereinafter set forth:

PARCEL 1

Beginning at concrete monument No. 1–J (brass plate set in coral) of Fort Ruger Military Reservation, at the northeast corner of this parcel of land, being also the initial point of Land Court Application 1453 and located on the boundary of B. P. Bishop land (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6–1–25 F. 33, Case A"), the coordinates of the said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 1205.18 feet North and 6915.49 feet East, thence running by azimuths measured clockwise from True South:

1. 32° 09′ 10″ 197.98 feet along B. P. Bishop land to concrete monument No. 1–H;
2. 347° 49′ 45″ 70.77 feet along B. P. Bishop land to concrete monument No. 1–G;
3. 8° 09′ 20″ 129.93 feet along B. P. Bishop land to concrete monument No. 1–F;
4. 27° 35′ 30″ 239.96 feet along B. P. Bishop land to concrete monument No. 1–E;
5. 65° 29′ 35″ 64.63 feet along B. P. Bishop land to concrete monument No. 1–D;
6. 53° 03′ 50″ 428.92 feet along B. P. Bishop land to concrete monument No. 1–C;
7. 64° 14′ 50″ 434.68 feet along B. P. Bishop land to concrete monument No. 1–B;
8. 346° 49′ 30″ 141.43 feet along B. P. Bishop land to concrete monument No. 26–Q, from which the true azimuth and distance to a concrete monument known as secondary triangulation Station "KUPIKIPIKIO", established by the Department of Engineer's Office, is 346° 49′ 30″ 171.42 feet and from said "KUPIKIPIKIO" Station, the true azimuths and distances to Government Survey Triangulation Stations are as follows:
   (a) to "LEAHI" 91° 26′ 51″ 5975.54 feet;
   (b) to "KALEPEAMOA" 192° 21′ 06″ 14504.89 feet;
9. 77° 43′ 45″ 402.95 feet along the north side of Kahala Avenue to concrete monument No. 26–P;
10. 78° 51′ 20″ 981.50 feet along the north side of Kahala Avenue to concrete monument No. 26–O;

Thence along the north side of Diamond Head Road for the next fourteen (14) courses, described as follows:

11. 76° 37′ 00″ 378.94 feet to concrete monument No. 26–N;
12. Thence on a curve to the left having a radius of 603.69 feet, the chord azimuth and distance being: 64° 57′ 00″ 244.15 feet to concrete monument No. 26–M;
13. 53° 17′ 00″ 318.61 feet to concrete monument No. 26–L;
14. Thence on a curve to the right having a radius of 686.78 feet, the chord azimuth and distance being: 61° 32′ 27″ 197.29 feet to concrete monument No. 26–K;
15. 69° 47′ 55″ 558.20 feet to concrete monument No. 26–J;

(Continued on p. 9289)

16. 65° 38′ 33″ 1067.58 feet to concrete monument No. 26–I;
17. Thence on a curve to the right having a radius of 543.69 feet, the chord azimuth and distance being: 76° 15′ 07″ 200.20 feet to concrete monument No. 26–H;
18. 86° 51′ 41″ 285.85 feet to concrete monument No. 26–G;
19. Thence on a curve to the right having a radius of 686.78 feet, the chord azimuth and distance being: 93° 35′ 48″ 161.08 feet to concrete monument No. 26–F;
20. 100° 19′ 55″ 1319.22 feet to a 1½-inch galvanized iron pipe marking concrete monument No. 26–E;
21. Thence on a curve to the left having a radius of 603.69 feet, the chord azimuth and distance being: 91° 31′ 46″ 184.77 feet to concrete monument No. 26–D;
22. 82° 43′ 36″ 206.27 feet to concrete monument No. 26–C;
23. Thence on a curve to the right having a radius of 380.28 feet, the chord azimuth and distance being: 96° 57′ 30″ 186.97 feet to concrete monument No. 26–B;
24. 111° 11′ 24″ 22.75 feet to concrete monument No. 26–A;
25. 124° 30′ 00″ 635.89 feet along reservation boundary to concrete monument No. 26;
26. 213° 18′ 10″ 200.69 feet along reservation boundary to concrete monument No. 25;
27. 212° 00′ 00″ 269.00 feet along reservation boundary to concrete monument No. 24;
28. 307° 00′ 00″ 610.00 feet along Parcel 6;
29. 280° 00′ 00″ 1290.00 feet along Parcel 6;
30. 271°00′ 00″ 1410.00 feet along Parcel 6;
31. 250° 00′ 00″ 680.00 feet along Parcel 6;
32. 241° 00′ 00″ 320.00 feet along Parcel 6;
33. 231° 00′ 00″ 320.00 feet along Parcel 6;
34. 216° 00′ 00″ 1482.80 feet along Parcel 6;
35. 287° 20′ 00″ 212.50 feet along Parcel 6;
36. 305° 25′ 00″ 640.00 feet along Parcel 6;
37. 300° 00′ 00″ 280.00 feet along Parcel 6;
38. 240° 00′ 00″ 540.00 feet along Parcel 6;
39. 226° 00′ 00″ 140.00 feet along Parcel 6;
40. 205° 00′ 00″ 480.00 feet along Parcel 6;
41. 119° 00′ 00″ 580.00 feet along Parcel 6;
42. 208° 00′ 00″ 620.00 feet along Parcel 6;
43. 303° 04′ 00″ 1110.00 feet to the point of beginning; and containing an area of 87.143 acres.

Excepting and reserving to the United States of America Easement A, described in Part II of this order.

PARCEL 2

Beginning at the northerly corner of this parcel of land, the true azimuth and distance from concrete monument No. 10 of Fort Ruger Military Reservation (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6–1–25 F. 33, Case "A") being 41° 08′ 50″ 9.50 feet, and the coordinates of the said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3004.21 feet North and 565.87 feet East, thence running by azimuths measured clockwise from True South:

1. 320° 52′ 00″ 51.38 feet along Diamond Head Reservoir Lot (restored to the Territory by Presidential Executive Order No. 6468, dated November 29, 1933);
2. 320° 52′ 00″ 25.00 feet along former right-of-way for pipeline and roadway purposes (designated as Parcel No. II in Presidential Executive Order No. 10453, dated May 18, 1953, which restored such parcel to the Territory);
3. 320° 52′ 00″ 14.92 feet along Diamond Head Reservoir Lot (restored to the Territory by Presidential Executive Order No. 6468, dated November 29, 1933);
4. 41° 08′ 50″ 130.00 feet along same;
5. 311° 08′ 50″ 430.00 feet along same;
6. 234° 49′ 13″ 318.81 feet along same;
7. 333° 08′ 40″ 80.00 feet along Tract 1–C;
8. 57° 16′ 00″ 1100.42 feet along Parcel 6;
9. 37° 30′ 00″ 900.00 feet along Parcel 6;
10. 30° 00′ 00″ 1590.00 feet along Parcel 6;
11. 40° 14′ 00″ 312.27 feet along Reservoir Site (restored to the Territory by Executive Order No. 1377, dated June 26, 1911);
12. 130° 14′ 00″ 81.46 feet along land designated as Tract No. 1 in Presidential Executive Order No. 10268, dated July 5, 1951 (which restored such tract to the Territory) to concrete monument No. 18;
13. 162° 31′ 20″ 364.95 feet along reservation boundary to concrete monument No. 12–B;
14. 209° 57′ 20″ 705.81 feet along reservation boundary to concrete monument No. 12–A;
15. 207° 13′ 00″ 1072.00 feet along reservation boundary to concrete monument No. 12;
16. 224° 30′ 00″ 931.86 feet along reservation boundary to concrete monument No. 11;
17. 221° 18′ 50″ 841.34 feet along reservation boundary to the point of beginning; and containing an area of 35.553 acres.

PARCEL 3

Beginning at concrete monument No. 8 of Fort Ruger Military Reservation, at the northwest corner of this parcel of land (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6–1–25 F. 33, Case "A"), the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3666.64 feet North and 1374.85 feet East, thence running by azimuths measured clockwise from True South:—

1. 264° 38′ 50″ 894.58 feet along reservation boundary;
2. 359° 00′ 00″ 191.09 feet along Parcel 6;
3. 90° 27′ 00″ 361.62 feet along Tract 1–C;
4. Thence along Tract 1–C on a curve to the right having a radius of 2090.00 feet, the chord azimuth and distance being: 94° 43′ 30″ 311.59 feet;
5. 99° 00′ 00″ 195.85 feet along Tract 1–C;
6. 149° 35′ 30″ 56.17 feet along reservation boundary to the point of beginning; and containing an area of 2.716 acres.

Excepting and reserving to the United States of America Easements B, C, and D, described in Part II of this order, and further reserving to the United States of America a right-of-way along the south boundary of Parcel 3 for ingress to and egress from the tracts remaining in Fort Ruger Military Reservation (Part III of this order) until such time as the strip of land along the said south boundary shall be constituted a public street.

PARCEL 4

Beginning at concrete monument No. 3 of Fort Ruger Military Reservation at the north corner of this parcel of land, located on the west corner of the intersection of Puu Panini Avenue (formerly known as Diamond Head Avenue) and 18th Avenue (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6–1–25 F. 33, Case "A"), the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 2,918.41 feet North and 4,284.06 feet East, thence running by azimuths measured clockwise from True South:—

1. 303° 04′ 00″ 56.26 feet along the southwest side of Puu Panini Avenue (formerly known as Diamond Head Avenue);
2. 28° 30′ 00″ 136.81 feet along Track 1–D;
3. Thence along Tract 1–D on a curve to the left having a radius of 72.86 feet, the chord azimuth and distance being: 352° 36′ 00″ 85.45 feet;
4. Thence along Parcel 6 on a curve to the left having a radius of 974.74 feet, the chord azimuth and distance being: 132° 12′ 30″ 152.67 feet;
5. 127° 43′ 00″ 16.09 feet along Parcel 6;
6. Thence along Parcel 6 on a curve to the left having a radius of 50.00 feet, the chord azimuth and distance being: 258° 06′ 30″ 76.16 feet;
7. 208° 30′ 00″ 122.40 feet along Parcel 6 to the point of beginning; and containing an area of 0.270 acres.

Excepting and reserving to the United States of America Easement E, described in Part II of this order.

PARCEL 5

Beginning at the northwest corner of this parcel of land, the west corner of the intersection of 22nd Avenue and Puu Panini Avenue (formerly known as Diamond Head Avenue), the true azimuth and distance from concrete monument 1–J (brass plate set in coral) of Fort Ruger Military Reservation (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6–1–25 F. 33, Case "A") being 123° 04′ 00″ 1729.34 feet, and the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 2148.73 feet North and 5466.24 feet East, thence running by azimuths measured clockwise from True South:—

1. 303° 04′ 00″ 50.16 feet along the southwest side of Puu Panini Avenue (formerly known as Diamond Head Avenue);
2. 28° 30′ 00″ 754.26 feet along Parcel 6;
3. Thence along Parcel 6 on a curve to the left having a radius of 50.00 feet, the chord azimuth and distance being: 2° 20′ 00″ 44.10 feet;
4. 156° 10′ 00″ 189.50 feet along Parcel 6;
5. Thence along Parcel 6 on a curve to the left having a radius of 50.00 feet, the chord azimuth and distance being: 272° 20′ 00″ 89.75 feet;
6. 208° 30′ 00″ 642.46 feet along Parcel 6 to the point of beginning; and containing an area of 0.929 acre.

Excepting and reserving to the United States of America Easement F, described in Part II of this order.

PARCEL 6

Beginning at the northeast corner of this parcel of land, the true azimuth and dis-

tance to concrete monument 1–J (brass plate set in coral) of Fort Ruger Military Reservation (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File No. 6–1–25 F. 33, Case "A") being 303° 04' 1110.00 feet, and the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 1810.81 feet North and 5985.27 feet East, thence running by azimuths measured clockwise from True South:—

1. 28° 00' 00" 620.00 feet along Parcel 1;
2. 299° 00' 00" 580.00 feet along Parcel 1;
3. 25° 00' 00" 480.00 feet along Parcel 1;
4. 46° 00' 00" 140.00 feet along Parcel 1;
5. 60° 00' 00" 540.00 feet along Parcel 1;
6. 120° 00' 00" 280.00 feet along Parcel 1;
7. 125° 25' 00" 640.00 feet along Parcel 1;
8. 107° 20' 00" 212.50 feet along Parcel 1;
9. 36° 00' 00" 1482.80 feet along Parcel 1;
10. 51° 00' 00" 320.00 feet along Parcel 1;
11. 61° 00' 00" 320.00 feet along Parcel 1;
12. 70° 00' 00" 680.00 feet along Parcel 1;
13. 91° 00' 00" 1410.00 feet along Parcel 1;
14. 100° 00' 00" 1290.00 feet along Parcel 1;
15. 127° 00' 00" 610.00 feet along Parcel 1 to concrete monument No. 24;
16. 115° 35' 00" 222.00 feet along reservation boundary to concrete monument No. 23;
17. 205° 21' 35" 195.54 feet along Reservoir Site (restored to the Territory by Part II of Presidential Executive Order No. 1377, dated June 26, 1911) to concrete monument No. 22;
18. 116° 32' 40" 280.34 feet along same to concrete monument No. 21;
19. 210° 00' 00" 1590.00 feet along Parcel 2;
20. 217° 30' 00" 900.00 feet along Parcel 2;
21. 237° 16' 00" 1100.42 feet along Parcel 2;
22. 252° 00' 00" 790.00 feet along Tract 1–C;
23. 264° 30' 00" 780.00 feet along Tract 1–C;
24. 148° 00' 00" 480.00 feet along Tract 1–C;
25. 145° 20' 00" 204.04 feet along Tract 1–C;
26. 90° 27' 00" 46.93 feet along Tract 1–C;
27. 179° 00' 00" 191.08 feet along Parcel 3;
28. 264° 38' 50" 649.78 feet along reservation boundary to concrete monument No. 7;
29. 303° 02' 50" 1636.30 feet along Tract 1–A to concrete monument No. 3;
30. 28° 30' 00" 122.40 feet along the northwest side of Parcel 4;
31. Thence along the north side of Parcel 4 on a curve to the right having a radius of 50.00 feet, the chord azimuth and distance being: 78° 06' 30" 76.16 feet;
32. 307° 43' 00" 16.09 feet along the southwest end of Parcel 4;
33. Thence along the southwest end of Parcel 4 on a curve to the right having a radius of 974.74 feet, the chord azimuth and distance being: 312° 12' 30" 152.67 feet;
34. 316° 42' 00" 377.00 feet along Tract 1–D;
35. 221° 30' 00" 293.42 feet along Tract 1–D;
36. 303° 04' 00" 878.65 feet along the southwest side of Puu Panini Avenue (formerly known as Diamond Head Avenue);
37. 28° 30' 00" 642.46 feet along the northwest side of Parcel 5;
38. Thence along the north side of Parcel 5 on a curve to the right having a radius of 50.00 feet, the chord azimuth and distance being: 92° 20' 00" 89.75 feet;
39. 336° 10' 00" 189.50 feet along the southwest end of Parcel 5;
40. Thence along the east side of Parcel 5 on a curve to the right having a radius of 50.00 feet, the chord azimuth and distance being: 182° 20' 00" 44.10 feet;
41. 208° 30' 00" 754.26 feet along the southeast side of Parcel 5;
42. 303° 04' 00" 569.18 feet along the southwest side of Puu Panini Avenue (formerly known as Diamond Head Avenue) to the point of beginning.

Excluding, however, Tract 1–B, described in Part III of this order, leaving an area in Parcel 6 of 470.246 acres (the gross area incompassed within the metes and bounds of courses 1–42 being 473.187 acres and the area of Tract 1–B being 2.941 acres, leaving a net area of 470.246 acres).

Excepting and reserving to the United States of America rights-of-way crossing Parcel 6 at such locations as shall be mutually agreed upon between the Commanding General, United States Army of the Pacific, and the Adjutant General of the Territory or other head of the territorial department having the principal use and control of Parcel 6, for cable lines, for utilities of the United States of America or its licensees serving the tracts remaining in Fort Ruger Military Reservation (Part III of this order), and for ingress to and egress from the said tracts.

Provided, that until and unless otherwise permitted by the Department of the Army, Parcel 6 shall be used for National Guard, Air National Guard, or civil-defense purposes only. If without such permission Parcel 6 shall be used for other purposes, in whole or in part, and such other use shall continue for a period of sixty days after notice to cease and desist therefrom, then Parcel 6, or the portion thereof in such other use, as the case may be, shall revert to the jurisdiction and control of the Department of the Army.

PART II

1. There are reserved and set aside to the United States of America rights-of-way as follows:

EASEMENT A

Being a strip of land five (5.00) feet wide crossing Parcel 1, and extending two and one-half (2.50) feet on each side of the following-described centerline:

Beginning at the south end of this centerline, on the north side of Kahala Avenue, the true azimuth and distance from concrete monument No. 26–Q at the end of Course No. 8 of the description of Tract I being: 77° 43' 45" 9.21 feet and running by azimuths measured clockwise from True South:—

1. 166° 15' 00" 103.01 feet;
2. 169° 44' 00" 148.68 feet;
3. 167° 37' 00" 112.62 feet;
4. 166° 37' 00" 18.36 feet;
5. 163° 29' 00" 28.34 feet to the north end of this centerline at the easterly boundary of Parcel 6; and containing an area of 2055 Square Feet or 0.047 acre.

EASEMENT B

Being a strip of land ten (10.00) feet wide crossing Parcel 3, and extending five (5.00) feet on each side of the following-described centerline:

Beginning at the west end of this centerline, on the south side of Parcel 3, the coordinates of the said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3565.18 feet North and 1805.19 feet East, thence running by azimuths measured clockwise from True South:—

1. 262° 39' 00" 5.76 feet;
2. 264° 26' 00" 158.53 feet;
3. 270° 58' 00" 159.84 feet;
4. 272° 30' 50" 140.27 feet to the east boundary of Parcel 3; and containing an area of 0.107 acre.

EASEMENT C

Being a strip of land five (5.00) feet wide crossing Parcel 3, and extending two and one-half (2.50) feet on each side of the following-described centerline:

Beginning at the west end of the centerline, on the south side of Parcel 3, the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3566.18 feet North and 1788.70 feet East, thence running by azimuths measured clockwise from True South:—

1. 260° 30' 00" 210.84 feet;
2. 275° 36' 00" 273.27 feet to the east boundary of Parcel 3; and containing an area of 0.056 acre.

EASEMENT D

Being a strip of land ten (10.00) feet wide crossing Parcel 3, and extending five (5.00) feet on each side of the following-described centerline:

Beginning at the west end of this centerline, on the south side of Parcel 3, the coordinates of the said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3567.16 feet North and 1774.36 feet East, thence running by azimuths measured clockwise from True South:—

1. 189° 55' 00" 37.77 feet;
2. 270° 32' 00" 442.50 feet;
3. 270° 27' 00" 44.80 feet to the east boundary of Parcel 3; and containing an area of 0.121 acre.

EASEMENT E

Section 1—Being a strip of land ten (10.00) feet wide crossing Parcel 4, and extending five (5.00) feet on each side of the following-described centerline:

Beginning at the north end of this centerline, on the northwest side of Parcel 4, the true azimuth and distance from concrete monument No. 3 at the initial point of the above-described Parcel 4 being: 28° 30' 00" 110.74 feet and running by azimuths measured clockwise from True South:—

1. 355° 40' 00" 100.35 feet to the northerly side of Parcel 6; and containing an area of 0.023 acre.

Section 2—Being a strip of land ten (10.00) feet wide crossing Parcel 4, and extending five (5.00) feet on each side of the following-described centerline:

Beginning at the east end of this centerline, on the southwest side of Puu Panini Avenue (formerly known as Diamond Head Avenue), the true azimuth and distance from concrete monument No. 3 at the initial point of the above-described description being: 303° 04' 00" 13.20 feet and running by azimuths measured clockwise from True South:—

1. 39° 45' 00" 67.44 feet to the northwest side of Parcel 4; and containing an area of 0.015 acre.

EASEMENT F

Being a strip of land ten (10.00) feet wide crossing Parcel 5, and extending five (5.00) feet on each side of the following-described centerline:

Beginning at the west end of this centerline, on the northwest side of Parcel 5, the true azimuth and distance from the initial point of the above-described Parcel 5 being: 28° 30' 00" 75.40 feet and running by azimuths measured clockwise from True South:—

1. 332° 42' 00" 3.06 feet;
2. 289° 14' 00" 48.10 feet to the southeast side of Tract V; and containing an area of 0.012 acre.

2. The premises above described as "Easement A" and "Easement C" shall be used only for underground cable lines for the Signal Corps, the premises above described as "Easement B" shall be used only for underground water lines serving Tract 1–C, described in Part III of this order, and the premises above described as "Easement E" and "Easement F" shall be used only for underground sewer lines serving the tracts remaining in Fort Ruger Military Reservation (Part III of this order), including in each case the construction, use, inspection, maintenance, replacement and removal thereof and of necessary facilities therefor.

3. The Territory of Hawaii and the City & County of Honolulu, or either of them, shall have the right to relocate the aforesaid cable lines, water lines, sewer lines and facilities at no cost to the United States of America, provided that such relocation shall be acceptable to the Commanding General, United States Army of the Pacific, and that the United States of America shall be furnished a map showing the new location of the lines and facilities, whereupon Easement A, Easement B, Easement C, Easement E, or Easement F, as the case may be, shall be deemed to be re-established at such new location.

4. In the event the enjoyment of Easement A, B, C, E, or F by the United States requires excavation or other disturbance of the surface, the premises shall, so far as and as soon as possible, be restored by the United States to the condition in which they existed prior to the commencement of such work.

5. The Territory of Hawaii and the City & County of Honolulu, or either of them, shall have the right to improve and use the surface of the premises above described as "Easement A", "Easement B", "Easement C", "Easement E", and "Easement F", as and for public roads, and if heretofore or hereafter so improved and so used the United States of America shall comply with all laws, regulations and ordinances of the Territory of Hawaii and City & County of Honolulu relating to excavation or other disturbance of the surface of a public road unless in conflict with the laws of the United States, and the United States of America shall plan any such excavation or other disturbance so as to cause a minimum amount of interference with traffic on the road.

6. The premises above described as "Easement D" shall be used only for overhead electric-light and power lines serving Tract 1–C, including the construction, use, inspection, maintenance, replacement and removal thereof, and of necessary facilities therefor, by the United States of America or its licensees.

7. The facilities of the United States of America and its licensees, installed or maintained in the enjoyment of Easement D, shall be so placed and regulated that at no cost to the Territory of Hawaii or City & County of Honolulu there shall be an unobstructed strip of land forty feet wide lying along the south boundary of Parcel 3, for use as a public street.

8. The Territory of Hawaii and the City & County of Honolulu, or either of them, shall have the right to relocate the electric-light and power lines and facilities installed or maintained in the enjoyment of Easement D, which relocation shall, save in case of non-compliance with paragraph 7, be at no cost to the United States of America and be acceptable to the Commanding General, United States Army of the Pacific. In the event of such relocation the United States of America shall be furnished a map showing the new location of the electric-light and power lines and facilities, whereupon Easement D shall be deemed to be re-established at such new location.

9. Save as required for the enjoyment of the easements reserved and set aside to the United States of America by this order, the premises above described as "Easement A" shall form a part of Parcel 1, the premises above described as "Easement B", "Easement C", and "Easement D" shall form a part of Parcel 3, the premises above described as "Easement E" shall form a part of Parcel 4, and the premises above described as "Easement F" shall form a part of Parcel 5.

PART III

The true intent and meaning of this order are that, after restoring to the Territory of Hawaii Parcels 1 to 6 inclusive, there shall remain of the land reserved for military purposes, described by Executive Order No. 6408 of November 7, 1933, as modified by Executive Orders No. 6468 of November 29, 1933, No. 10268 of July 5, 1951, No. 10453 of May 18, 1953, and No. 10496 of October 14, 1953, the following constituting the Fort Ruger Military Reservation:

1. Portions of Tract No. 1 (so designated and described by Executive Order No. 6408 of November 7, 1933), located at Kapahulu, Honolulu, Island of Oahu, Territory of Hawaii, and described as follows:

TRACT 1–A

Being the area bounded by Makapuu, Kilauea, and 18th Avenues and the south side of Diamond Head Avenue (abandoned). Being all of the lands conveyed to the United States of America as follows: (a) Blocks 68, 69, 75, 81, 82, 88, 89, 95, 96, and 97, Waialae Tract (recorded in the Bureau of Conveyances at Honolulu in Liber 235, Pages 251–252) conveyed by a deed of Arthur A. Wilder, dated November 29, 1904, recorded in the Bureau of Conveyances at Honolulu in Liber 264, Pages 209–211, by a deed of A. B. Gear and wife and T. F. Lansing and wife, dated November 26, 1904, recorded in the Bureau of Conveyances at Honolulu in Liber 264, Pages 212–214, and by a deed of Gear, Lansing & Co. by Trustees, dated November 26, 1904, recorded in the Bureau of Conveyances at Honolulu in Liber 264, Pages 215–218; (b) Diamond Head Avenue (abandoned) was conveyed by a deed of Trent Trust Company, Limited, dated December 17, 1910, recorded in the Bureau of Conveyances at Honolulu in Liber 352, Pages 7–10.

Beginning at concrete monument No. 5 of Fort Ruger Military Reservation, at the north corner of this parcel of land, located on the south corner of Kilauea and Makapuu Avenues' intersection (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6–1–25 F. 33, Case "A"), the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 4,942.81 feet North and 3768.39 feet East, thence running by azimuths measured clockwise from True South:—

1. 298° 31' 30" 1418.85 feet along Kilauea Avenue to concrete monument No. 4, located on the west corner of Kilauea and 18th Avenues' intersection;
2. 28° 29' 20" 1532.40 feet along 18th Avenue to concrete monument No. 3, located on the west corner of the intersection of 18th Avenue and Puu Panini Avenue (formerly known as Diamond Head Avenue);
3. 123° 02' 50" 1636.30 feet along Parcel 6 to concrete monument No. 7;
4. 211° 43' 00" 53.30 feet across Alohea Avenue to concrete monument No. 6, located on the corner of Makapuu and Alohea Avenues' intersection;
5. 217° 18' 00" 1636.18 feet along Makapuu Avenue to the point of beginning; and containing an area of 51.628 acres.

TRACT 1–B

Being an area within Parcel 6, portion of the land conveyed to the Minister of Interior by the Trustees of William C. Lunalilo Estate by deed dated June 17, 1884, recorded in the Bureau of Conveyances at Honolulu in Liber 88, Pages 223 and 224 (Land Office Deed 136), and being a part of the public lands ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750.

Beginning at the most northerly corner of this parcel of land, the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3312.97 feet North and 3410.17 feet East, thence running by azimuths measured clockwise from True South:—

1. On a curve to the left having a radius of 766.16 feet, the chord azimuth and distance being: 303° 09' 20" 169.62 feet;
2. 296° 48' 00" 21.40 feet;
3. Thence on a curve to the right having a radius of 945.23 feet, the chord azimuth and distance being: 305° 38' 00" 290.30 feet;
4. 314° 28' 00" 156.74 feet;
5. Thence on a curve to the left having a radius of 867.85 feet, the chord azimuth and distance being: 311° 05' 30" 102.18 feet;
6. 307° 43' 00" 181.12 feet;
7. Thence on a curve to the right having a radius of 934.74 feet, the chord azimuth and distance being: 312° 12' 30" 146.41 feet;
8. 316° 42' 00" 91.03 feet;
9. Thence on a curve to the right having a radius of 30.00 feet, the chord azimuth and distance being: 2° 51' 00" 43.27 feet;
10. 49° 00' 00" 35.27 feet;
11. Thence on a curve to the right having a radius of 30.00 feet, the chord azimuth and distance being: 92° 02' 00" 40.95 feet;
12. 135° 04' 00" 78.52 feet;
13. Thence on a curve to the left having a radius of 250.00 feet, the chord azimuth and distance being: 126° 42' 00" 72.75 feet;
14. 118° 20' 00" 157.09 feet;
15. Thence on a curve to the right having a radius of 230.00 feet, the chord azimuth and distance being: 131° 19' 00" 103.35 feet;
16. 144° 18' 00" 100.72 feet;
17. Thence on a curve to the left having a radius of 850.00 feet, the chord azimuth and distance being: 129° 36' 00" 431.39 feet;
18. 114° 54' 00" 120.47 feet;
19. Thence on a curve to the right having a radius of 345.00 feet, the chord azimuth and distance being: 122° 27' 00" 90.66 feet;
20. 220° 00' 00" 118.59 feet to the point of beginning; and containing an area of 2.941 acres.

TRACT 1–C

Being a portion of the land conveyed to the Minister of Interior by the Trustees of William C. Lunalilo Estate by deed dated June 17, 1884, recorded in the Bureau of Conveyances at Honolulu in Liber 88, Pages 223 and 224 (Land Office Deed 136), and being a part of the public lands ceded and trans-

ferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750.

Beginning at the northwesterly corner of this parcel of land, being the end of Course No. 1 of the area that was restored to the possession, use, and control of the Territory of Hawaii as Parcel No. 1 of Executive Order No. 10453, dated May 18, 1953, the true azimuth and distance to concrete monument No. 10 of Fort Ruger Military Reservation (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation", dated June 25, 1933, File Number 6-1-25 F. 33, Case "A") being 63° 08' 40" 468.40 feet, and the coordinates of the said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 3222.96 feet North and 990.00 feet East, thence running by azimuths measured clockwise from True South:—

1. 243° 08' 40" 557.55 feet along reservation boundary to concrete monument No. 9;
2. 149° 35' 30" 166.23 feet along reservation boundary;
3. 279° 00' 00" 195.85 feet along Parcel 3;
4. Thence along Parcel 3 on a curve to the left having a radius of 2090.00 feet, the chord azimuth and distance being: 274° 43' 30" 311.59 feet;
5. 270° 27' 00" 408.55 feet along Parcel 3 and along Parcel 6;
6. 325° 20' 00" 204.04 feet along Parcel 6;
7. 328° 00' 00" 460.00 feet along Parcel 6;
8. 84° 30' 00" 780.00 feet along Parcel 6;
9. 72° 00' 00" 790.00 feet along Parcel 6;
10. 153° 08' 40" 80.00 feet along Parcel 6;
11. 153° 08' 40" 361.00 feet along Diamond Head Reservoir Lot (restored to the Territory by Executive Order No. 6468, dated November 29, 1933);
12. 223° 58' 40" 9.80 feet along the area restored to the Territory as Parcel No. 1 of Executive Order No. 10453, dated May 18, 1953;
13. Thence along same on a curve to the left having a radius of 119.00 feet, the chord azimuth and distance being: 198° 03' 40" 104.00 feet;
14. 172° 08' 40" 58.70 feet along same to the point of beginning; and containing an area of 22.591 acres.

TRACT 1-D

Being a portion of the land conveyed to the Minister of Interior by the Trustees of William C. Lunalilo Estate by deed dated June 17, 1884, recorded in the Bureau of Conveyances at Honolulu in Liber 88, Pages 223 and 224 (Land Office Deed 136), and being a part of the public lands ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750.

Beginning at the north corner of this parcel of land, at the south corner of the intersection of 18th Avenue and Puu Panini Avenue (formerly known as Diamond Head Avenue), the true azimuth and distance from concrete monument No. 3 of Fort Ruger Military Reservation, located on the west corner of the intersecion of Puu Panini Avenue (formerly known as Diamond Head Avenue) and 18th Avenue (as shown on map by Department Engineer's Office, entitled "Fort Ruger Military Reservation" dated June 25, 1933, File Number 6-1-25 F. 33, Case "A"), being 303° 04' 00" 56.26 feet, and the coordinates of said point of beginning referred to Government Survey Triangulation Station "LEAHI" being 2887.71 feet North and 4331.21 feet East, thence running by azimuths measured clockwise from True South:—

1. 303° 04' 00" 475.75 feet along the southwest side of Puu Panini Avenue (formerly known as Diamond Head Avenue);
2. 41° 30' 00" 293.42 feet along Parcel 6;
3. 136° 42' 00" 377.00 feet along Parcel 6;
4. Thence along the east side of Parcel 4 on a curve to the right having a radius of 72.86 feet, the chord azimuth and distance being: 172° 36' 00" 85.45 feet;
5. 208° 30' 00" 136.81 feet along the southeast side of Parcel 4 to the point of beginning; and containing an area of 2.461 acres.

2. Tract 5, so designated and described by Executive Order No. 6408 of November 7, 1933, containing an area of 2.735 acres, being land acquired by the United States (pursuant to authority of the act of January 31, 1922, 42 Stat. 360, as amended by the act of March 3, 1925, 43 Stat. 1115) by exchanging for privately-owned lands a part of the public lands ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750, and reserved for military purposes by executive orders of the President.

3. Easements A, B, C, D, E, and F, as described and set forth in Part II of this order.

4. Rights-of-way crossing Parcels 3 and 6, as set forth in Part I of this order.

5. Control over the use of Parcel 6 and the right to cause it to revert to the jurisdiction and control of the Department of the Army in case the land is used for purposes other than those authorized, as set forth in Part I of this order.

DWIGHT D. EISENHOWER

THE WHITE HOUSE,
December 8, 1955.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 3—NONCOMPETITIVE ACQUISITION OF COMPETITIVE STATUS

OVERSEAS POSITIONS

Section 3.101 is amended as set out below.

§ 3.101 *Incumbents of positions brought into the competitive service.* • • •

(b) In order to acquire a competitive status under this section an employee must:

(1) Be recommended by the agency in which employed prior to June 15, 1956, or within six (6) months after the date the position is brought into the competitive service, whichever is later. Where it is necessary for the Commission to determine that this section applies to a group of positions the recommendation must be submitted within six (6) months after the agency is advised of the Commission's determination.

(2) Have rendered six (6) months of satisfactory service in a position (or positions) brought into the competitive service or in the civilian executive branch of the Government immediately prior to the date his position was brought into the competitive service, unless the Commission excepts particular types of cases from this requirement. The types of cases which the Commission excepts from this requirement shall be published in the Federal Personnel Manual.

• • • • •

(d) A former incumbent of a position which has been brought into the competitive service who left such position in order to perform active military service after June 30, 1950, may acquire a competitive status provided: • • •

(3) He is recommended for reinstatement prior to June 15, 1956, or within six (6) months after discharge from the military service under honorable conditions (or after hospitalization continuing after discharge for not more than one year), whichever is later; and

• • • • •

(e) Any person who occupied a continuing position on the date it was brought into the competitive service and who was separated thereafter, may acquire a competitive status provided:

(1) He is recommended for reinstatement within the time limits prescribed in paragraph (b) (1) of this section.

(2) He meets the requirements of paragraph (b) (2), (3) and (4) of this section.

(f) If the Commission disapproves a recommendation for acquisition of status under this section the agency or the person concerned may request the Commission to review its action within six (6) months after the date of the Commission's disapproval.

(g) The time limits prescribed in this section may be extended in the discretion of the Commission upon a showing by the agency that circumstances beyond its control prevented it from recommending the person within such time limits.

(R. S. 1753; sec. 2, 22 Stat. 403, as amended; 5 U. S. C. 631, 633)

UNITED STATES CIVIL SERVICE COMMISSION,
[SEAL] WM. C. HULL,
Executive Assistant.

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter E—Account Servicing

[FHA Instruction 451.1, Administration Letter 318 (450)]

PART 361—ROUTINE

SUBPART A—ACCOUNT SERVICING POLICIES

Subpart A of Part 361, Title 6, Code of Federal Regulations (19 F. R. 2757) is revised to read as follows:

Sec.
361.1 General.
361.2 Definition of types of payments on all loan accounts.
361.3 Distribution of collections when a borrower owes both real estate and operating loans to the Farmers Home Administration.
361.4 Application of payments on Operating loan accounts.
361.5 Application of payments on Farm Ownership, Soil and Water Conservation (except Water Facilities loans coded J), Farm Housing, and Other Real Estate loan accounts.
361.6 Application of payments on Water Facilities loan accounts coded J.
361.7 Changes in the application of direct loan payments.
361.8 Other account servicing information on Farm Ownership, Soil and Water Conservation, Other Real Estate, and Farm Housing accounts.
361.9 Miscellaneous servicing on Operating loan accounts.

AUTHORITY: §§ 361.1 to 361.9 issued under R. S. 161, 5 U. S. C. 22. Statutes giving special authority and statutes interpreted or applied are cited to text in parentheses.

§ 361.1 *General.* Borrowers will be required to pay their debts to the Farmers Home Administration in accordance with their agreements and their ability to pay and will be encouraged to pay ahead of schedule to an extent consistent with sound farming and money management. When borrowers have acted in good faith and have exercised due diligence in an effort to pay their indebtedness but cannot pay on schedule because of circumstances beyond their control, future servicing actions will be consistent with the best interests of the borrower and the Government. County Supervisors will be responsible for servicing all Farmers Home Administration accounts as prescribed by this part and under the general guidance and supervision of State Office personnel.

(a) *Accounts of borrowers who are receiving supervision.* For those borrowers receiving supervision, the foundation for proper and timely debt payment is sound farm and home planning, including plans for debt payments, supplemented by effective follow-up supervision. Account servicing, therefore, must begin with initial planning and must be an integral part of year-end analysis and subsequent planning, as well as follow-up supervision.

(b) *Accounts of borrowers who are not receiving supervision.* For those borrowers not receiving supervision, account servicing will be directed toward collecting the loan and protecting the Government's security during the period of the loan. The borrower must be fully informed with respect to his obligations as to payment of the loan and protection of the Government's financial interests. Generally, account servicing will be limited to collection activities. These activities will include collection letters, office visits, and telephone calls, and, in cases involving real estate security, tax and insurance servicing letters. Farm visits will also be made in selected cases for such purposes as the following:

(1) To ascertain the progress being made in the farming operation and to offer such assistance in farm practices as may be necessary for the protection of the Government's financial interest. Assistance in farm practices will be limited generally to that required to meet emergency situations. However, such assistance may, when warranted, include advice on how to correct clearly unsound farm practices which endanger the borrower's farming operations and which he may be able to improve without follow-up supervision.

(2) To inspect security property to ascertain whether it is being maintained adequately to protect the Government's interests or to inspect loss or damage to security property.

(3) When necessary to effect collection of the loan.

(c) *Accounts of collection-only borrowers.* Collection-only borrowers are expected to make final settlements of their debts to the Farmers Home Administration to the extent of their ability to pay. This objective will be accomplished by collecting in full the amounts owed by these borrowers or, in appropriate cases, by the application of the established debt settlement policies.

(d) *Subsequent servicing.* If a borrower fails to make a payment as agreed upon, the County Supervisor will write or otherwise contact the borrower or request him to make the payment or request him to come to the office to discuss the reasons why the payment was not made and to develop specific plans for making the payment. In the event the borrower refuses to make the payment when he has the income, or it is determined that his farming operations will not permit him to make the payment in a reasonable length of time, as well as make future payments, action will be taken to protect the Government's security interest.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 510 (g), 63 Stat. 438, 42 U. S. C. 1480 (g); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); sec. 6 (3), 50 Stat. 870, 16 U. S. C. 590w (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x-3 (a) (7). Interprets or applies sec. 1 (a), 50 Stat. 522, sec. 5, 60 Stat. 1072, 7 U. S. C. 1001 (a); sec. 3, 62 Stat. 534, 7 U. S. C. 1005b (e); sec. 2, 64 Stat. 98, 40 U. S. C. 440 (f); secs. 501 (a), 503, 63 Stat. 432, 434, 42 U. S. C. 1471, 1473; sec. 2 (3), 50 Stat. 869, 16 U. S. C. 590s (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x-2, 590x-3; sec. 21, 50 Stat. 524, sec. 4, 60 Stat. 1071, sec. 2, 65 Stat. 197, 7 U. S. C. 1007; sec. 1, 63 Stat. 43, 67 Stat. 558, 12 U. S. C. 1148a-1 (a); sec. 1 (a), 64 Stat. 414, 12 U. S. C. 1148a-1 (a); sec. 2, 63 Stat. 44, sec. 1, 67 Stat. 150, sec. 1, 69 Stat. 263, 12 U. S. C. 1148a-2 (a); sec. 1, 67 Stat. 149, sec. 2, 69 Stat. 263, 12 U. S. C. 1148a-2 (b); sec. 1, 67 Stat. 149, 69 Stat. 366, 12 U. S. C. 1148a-2 (c); sec. 2 (a) (2), 60 Stat. 1062, 7 U. S. C. 1001, note; 68 Stat. 999, 69 Stat. 223, sec. 3, 69 Stat. 263, 12 U. S. C. 1148a-1, note; 62 Stat. 1038, 63 Stat. 82)

§ 361.2 *Definition of types of payments on all loan accounts.*—(a) *Regular payments.* Regular payments will be all payments other than extra payments and refunds. Usually regular payments will be derived from regular farm income, that is, farm income not including proceeds from the sale of basic security, but they will include also payments derived from off-farm income, sale or lease of real estate security property which is of a nondepleting nature, inheritances, life insurance, contributions made on Section 503 Farm Housing loans, and so forth.

(b) *Extra payments.* Extra payments will be payments derived from (1) sale of basic chattel security, (2) refinancing of the real estate debt, (3) sale of all or any part of the mortgaged real estate, (4) mineral royalties, (5) leases which depreciate the value of the security, or (6) cash proceeds of real property insurance.

(c) *Refunds.* Refunds will be payments derived from the return of all or a part of a loan advance.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 510 (g), 63 Stat. 438, 42 U. S. C. 1480 (g); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); sec. 6 (3), 50 Stat. 870, 16 U. S. C. 590w (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x-3 (a) (7). Interprets or applies sec. 1 (a), 50 Stat. 522, sec. 5, 60 Stat. 1072, 7 U. S. C. 1001 (a); sec. 3, 62 Stat. 534, 7 U. S. C. 1005b (e); sec. 2, 64 Stat. 98, 40 U. S. C. 440 (f); secs. 501 (a), 503, 63 Stat. 432, 434, 42 U. S. C. 1471, 1473; sec. 2 (3), 50 Stat. 869, 16 U. S. C. 590s (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x-2, 590x-3; sec. 21, 50 Stat. 524, sec. 4, 60 Stat. 1071, sec. 2, 65 Stat. 197, 7 U. S. C. 1007; sec. 1, 63 Stat. 43, 67 Stat. 558, 12 U. S. C. 1148a-1 (a); sec. 1 (a), 64 Stat. 414, 12 U. S. C. 1148a-1 (a); sec. 2, 63 Stat. 44, sec. 1, 67 Stat. 150, sec. 1, 69 Stat. 263, 12 U. S. C. 1148a-2 (a); sec. 1, 67 Stat. 149, sec. 2, 69 Stat. 263, 12 U. S. C. 1148a-2 (b); sec. 1, 67 Stat. 149, 69 Stat. 366, 12 U. S. C. 1148a-2 (c); sec. 2 (a) (2), 60 Stat. 1062, 7 U. S. C. 1001, note; 68 Stat. 999, 69 Stat. 223, sec. 3, 69 Stat. 263, 12 U. S. C. 1148a-1, note; 62 Stat. 1038, 63 Stat. 82)

§ 361.3 *Distribution of collections when a borrower owes both real estate and operating loans to the Farmers Home Administration.*—(a) *Collections from income other than from sale of basic chattel security or sale or rental of real estate security.* In those cases where a borrower owes both real estate loans (Farm Ownership, Soil and Water Conservation, including those secured by chattels, Farm Housing, and Other Real Estate) and Operating loans (Production and Subsistence, Production and Economic Emergency, and so forth) to the Farmers Home Administration, collections received from each crop year's income, other than from the sale of basic chattel security or from the sale or rental of real estate security, will be distributed in an equitable manner so as to maintain the accounts in balance with respect to maturities and to protect the interests of the Government. Collections received during the first five years of the Farm Housing loan from section 503 Farm Housing borrowers who also owe Operating loans will be distributed in accordance with §§ 361.101 to 361.104.

(b) *Income from sale of basic chattel security or sale or rental of real estate*

security. Collections derived from the sale of basic chattel security and those from the sale of real estate security or rental of any real estate security will be applied in accordance with applicable provisions of §§ 361.4 to 361.6.

(c) *Application of collections.* After the decision is reached as to the amount of each collection that is to be distributed to the operating and real estate accounts, application of the collection will be governed by §§ 361.4 to 361.6.

C. 1148a–1, note; 62 Stat. 1038, 63 Stat. 82)

§ 361.4 *Application of payments on Operating loan accounts.* Payments received on Operating loan accounts will be applied to the proper account or accounts selected in accordance with the provisions of this section, first to the unpaid interest on the selected account or accounts, as shown on the latest Form FHA–646, "Statement of Account," in the County Office, and then to the unpaid principal on such account or accounts, except that for 1934–35 Drought Feed loans, collections will be applied to principal only until all principal has been repaid. Refunds will be applied to principal only. Exceptions may be made to the policy of applying payments to interest first when (1) the unpaid interest on the selected account or accounts, as shown on Form FHA–646, is not due under the provisions of the note or notes and the borrower requests that his payment be applied to principal only, or (2) a large amount of unpaid interest has accumulated and the borrower requests in writing that his payment be applied to principal first, stating that he will make the payment only if his request is granted. If the borrower agrees to make subsequent payments only on condition that they be applied to principal first, the information will be incorporated in a written agreement.

(a) *Selection of accounts.* Except for total loan refunds as provided in subparagraph (1) (i) of this paragraph, payments, regardless of source, will be applied first to any recoverable costs which have been charged to the borrower's account, after which the following rules will govern the selection of accounts and installments to which payments will be applied.

(1) Payments derived from the sale of mortgaged property representing normal farm income or from assignments of income will be applied first to accounts with small balances for the purpose of removing such accounts from the records. Any balance of the remittance will be applied on debts secured by the mortgage in the following order:

(i) To amounts due or falling due on loans made in connection with the current year's operations. However, when installments on loans previously made fall due early in the year and prior to the installment on the loan for the current year's operations or when such loans are delinquent and it is anticipated that sufficient income will be received to meet the installment on the current year's operations when due, collections may be applied first to installments on loans made in previous years.

(ii) To accounts having the oldest delinquencies, or if no delinquencies, to the oldest unpaid account.

(2) Payments derived from the sale of basic security, including real estate security, will be applied to the earliest account secured by the earliest mortgage covering such basic security. The amount to be applied to principal will be applied to the final unpaid installment(s). When the amount of such payment is large and the sale of the basic security, including real estate security, will result in a change in the farming operation which will reduce the annual repayment ability of the borrower, it may be prorated to more than one installment.

(3) Partial loan refunds wil be applied to the final unpaid installment(s) on the note(s) which evidences such advance(s), except: (i) When such refund represents an advance for current farm and home expenses repayable within the year, it may be applied to the first unpaid installment on such note, in which case it will be treated as a regular payment; and (ii) when such refund is large and results from a change in the farming operations which will reduce the annual repayment ability of the borrower, it should be prorated to more than one installment.

(4) Total refunds of loan advances will be applied to the notes which evidence such advances.

(5) In applying payments from sources other than those in subparagraphs (1) to (4) of this paragraph, the borrower has the right of election as to the Operating loan account(s) on which such payments will be applied. In the absence of the borrower's election, such payments generally will be applied in the following order:

(i) To accounts with small balances.

(ii) To accounts with the oldest unsecured note(s).

(iii) To accounts with the oldest delinquencies.

(iv) To accounts with the oldest secured note(s).

(6) When a borrower owes both Farmers Home Administration and State Rural Rehabilitation Corporation loan accounts, payments described in subparagraph (5) of this paragraph, in the absence of the borrower's election and any balances remaining after payments are made under subparagraphs (1) and (2) of this paragraph, will be prorated between Farmers Home Administration and the State Rural Rehabilitation Corporation loan accounts on the basis of the total balances (including principal and interest) owed to each. The portions thus prorated will be applied respectively to the Farmers Home Administration and State Rural Rehabilitation Corporation loan accounts as prescribed in subparagraph (5) of this paragraph.

(7) When the Government has advanced funds to complete State Rural Rehabilitation Corporation commitments, any payment that normally would be applied to any of the borrower's State Rural Rehabilitation Corporation accounts will be applied to the account until it is paid.

(8) Application of payments to notes within loan-type accounts will be made in accordance with the general rules set forth in subparagraphs (1) to (7) of this paragraph. County Supervisors are authorized to apply payments to specific notes within loan-type accounts according to the rules of application prescribed in this paragraph when the need for such application arises.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); Interprets or applies sec. 21, 50 Stat. 524, sec. 4, 60 Stat. 1071, sec. 2, 65 Stat. 197, 7 U. S. C. 1007; sec. 1, 63 Stat. 43, 67 Stat. 558, 12 U. S. C. 1148a–1 (a); sec. 1 (a), 64 Stat. 414, 12 U. S. C. 1148a–1 (a); sec. 2, 63 Stat. 44, sec. 1, 67 Stat. 150, sec. 1, 69 Stat. 263, 12 U. S. C. 1148a–2 (a); sec. 1, 67 Stat. 149, sec. 2, 69 Stat. 263, 12 U. S. C. 1148a–2 (b); sec. 1, 67 Stat. 149, 69 Stat. 366, 12 U. S. C. 1148a–2 (c); sec. 2 (a) (2), 60 Stat. 1062, 7 U. S. C. 1001, note; 68 Stat. 999, 69 Stat. 223, sec. 3, 69 Stat. 263, 12 U. S. C. 1148a–1, note; 62 Stat. 1038, 63 Stat. 82)

§ 361.5 *Application of payments on Farm Ownership, Soil and Water Conservation (except Water Facilities loan accounts coded J), Farm Housing, and Other Real Estate loan accounts.* If a borrower owes more than one of the above loan accounts, including Water Facilities loan accounts coded J, payment on such accounts should be applied so as to maintain the accounts in balance at the end of the year with respect to installments due on the notes and other charges.

(a) *Regular payments*—(1) *Direct loan accounts.* Regular payments on direct loan accounts will be applied first to interest accrued on the note to the date of the receipt of payment, and second to the principal balance on the note.

(2) *Insured loan accounts.* All regular payments on insured loan accounts will be applied first to any unpaid balance of the insurance account including accrued interest on advances from the insurance fund computed to the date of the receipt of payment, and second to interest accrued on the note as of the date of the U. S. Treasury check issued to the holder. Any remainder will be applied to the principal balance on the note.

(b) *Extra payments*—(1) *Direct loan accounts.* Extra payments on direct loan accounts will be applied first to interest accrued on the note to the date of the receipt of payment, and second to the principal balance on the note. Extra payments will not affect the schedule status of a borrower with a direct loan, except when reamortization is involved as provided in paragraph (h) of § 361.8.

(2) *Insured loan accounts.* Extra payments on insured loan accounts will be applied first to interest accrued on the note as of the date of the U. S. Treasury check issued to the holder, and the remainder will be applied to the principal balance on the note. Extra payments will not affect the schedule status of a borrower with an insured loan or relieve him from paying the amount due the insurance account each year.

(c) *Refunds on direct and insured loan accounts.* All refunds on direct and insured loan accounts will be applied entirely to the principal balance on the note. Refunds will not affect the schedule status of a borrower with a direct or insured loan, except when reamortization is involved as provided in paragraph (h) of § 361.8. A refund will not relieve a borrower with an insured loan from paying the amount due the insurance account each year.

(d) *Finance Office handling*—(1) *Direct loan accounts.* The application of principal and interest on direct loan accounts will be reflected in the record of accounts maintained by the Finance Office, as indicated on the yellow copy of Form FHA–37 returned to the County Supervisor. Amounts paid on direct loan accounts will be credited on the Finance Office records as of the date of Form FHA–37. Collections received from borrowers who have both initial and subsequent direct Farm Ownership loans bearing different rates of interest will be applied by the Finance Office in the following order of priority to:

(i) Unpaid accrued interest on the initial loan.

(ii) Unpaid accrued interest on the subsequent loan(s).

(iii) Unpaid principal behind schedule on the initial loan.

(iv) Unpaid principal behind schedule on the subsequent loan(s).

(v) Unpaid principal balances on the initial and subsequent loans, prorated on the ratio between the annual installments.

(2) *Insured loan accounts.* The Finance Office will distribute the payments between the insurance account and the note account in accordance with paragraph (a) (2) of this section.

(i) *Insurance account.* Amounts distributed to the insurance account will be credited on the Finance office records as of the date of Form FHA–37.

(ii) *Note account.* When distributing a payment to the borrower's note account, the Finance Office will apply it first to interest accrued to the date of the U. S. Treasury check issued to the holder and any remainder to principal. Form FHA–282 will be sent to the U. S. Treasury Regional Disbursing Office for inclusion in the envelope containing the check to be sent to the holder. Such amounts will be credited on the Finance Office records as of the date of the U. S. Treasury check issued to the holder.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 510 (g), 63 Stat. 438, 42 U. S. C. 1480 (g); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c);

sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–3 (a) (7). Interprets or applies sec. 1 (a), 50 Stat. 522, sec. 5, 60 Stat. 1072, 7 U. S. C. 1001 (a); sec. 3, 62 Stat. 534, 7 U. S. C. 1005b (e); sec. 2, 64 Stat. 98, 40 U. S. C. 440 (f); secs. 501 (a), 503, 63 Stat. 432, 434, 42 U. S. C. 1471, 1473; sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–2, 590x–3)

§ 361.6 *Application of payments on Water Facilities loan accounts coded J*—(a) *Regular payments.* Regular payments on Water Facilities loan accounts coded J will be applied first to any unpaid balance of interest accrued on the account as of the latest Form FHA–646, "Statement of Account," in the County Office and the remainder will be applied to the principal balance on the account.

(b) *Extra payments.* Extra payments on Water Facilities loan accounts coded J will be applied first to any unpaid balance of interest accrued on the account as of the latest Form FHA–646 in the County Office and the remainder will be applied to the final unpaid principal installment(s) on the account.

(c) *Refunds.* Refunds on Water Facilities loan accounts coded J will be applied entirely to the final unpaid installment(s).

(Sec. 6, (3), 50 Stat. 870, 16 U. S. C. 590w (3). Interprets or applies sec. 2 (3), 50 Stat. 869, 16 U. S. C. 590s (3))

§ 361.7 *Changes in the application of direct loan payments*—(a) *Authority to State Directors.* State Directors are hereby authorized to approve requests for changes in the application of payments between Operating loan accounts and other direct loan accounts when payments have been applied in error and such requests conform to applicable policies.

(b) *Authority to County Supervisors.* County Supervisors are hereby authorized to approve requests for changes in the application of payments within and between Operating loan accounts when payments have been applied in error and such requests conform to applicable policies.

(c) *Form FHA–238, "Request for Change in Application."* Requests for changes in application of payments will be made on Form FHA–238 which will be prepared by the County Supervisor and signed by the State Director or the County Supervisor, whichever is authorized.

(d) *Notifying borrowers.* County Supervisors will inform borrowers of any reapplication between Operating loan accounts and other direct loan accounts, and of any other reapplication of a significant amount.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 510 (g), 63 Stat. 438, 42 U. S. C. 1480 (g); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); sec. 6 (3), 50 Stat. 870, 16 U. S. C. 590w (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–3 (a) (7). Interprets or applies sec. 1 (a), 50 Stat. 522, sec. 5, 60 Stat. 1072, 7 U. S. C. 1001 (a); sec. 501 (a), 63 Stat. 432, 42 U. S. C. 1471; sec. 2 (3), 50 Stat. 869, 16 U. S. C. 590s (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–2; sec. 21, 50 Stat. 524, sec. 4, 60 Stat. 1071, sec. 2, 65 Stat. 197, 7 U. S. C. 1007; sec. 1, 63 Stat. 43, 67 Stat. 558, 12 U. S. C. 1148a–1 (a); sec. 1 (a), 64 Stat. 414, 12 U. S. C. 1148a–1 (a); sec. 2, 63 Stat. 44, sec. 1, 67 Stat. 150, sec. 1, 69 Stat. 263, 12 U. S. C. 1148a–2 (a); sec. 1, 67 Stat. 149, sec. 2, 69 Stat. 263, 12 U. S. C. 1148a–2 (b); sec. 1, 67 Stat. 149, 69 Stat. 366, 12 U. S. C. 1148a–2 (c); sec. 2 (a) (2), 60 Stat. 1062, 7 U. S. C. 1001, note; 68 Stat. 999, 69 Stat. 223, sec. 3, 69 Stat. 263, 12 U. S. C. 1148a–1, note; 62 Stat. 1038, 63 Stat. 82)

§ 361.8 *Other account servicing information on Farm Ownership, Soil and Water Conservation, Other Real Estate, and Farm Housing accounts*—(a) *Installment on note and other charges*—(1) *Direct loan accounts.* For a borrower with a direct loan, the term "installment on note and other charges," as used in this subpart, will be the sum of the following:

(i) The annual installment for the year as provided in his promissory note(s).

(ii) Any recoverable cost charges paid for the borrower during the year, such as taxes and insurance.

(2) *Insured loan accounts.* For a borrower with an insured loan, the term "installment on note and other charges," as used in this subpart, will be the sum of the following:

(i) The annual installment for the year as provided in his promissory note.

(ii) The annual insurance charge.

(iii) Any recoverable cost charges paid for the borrower during the year, such as taxes and insurance.

(iv) Any accrued interest on advances made out of the insurance fund.

(b) *Insurance account.* The term "insurance account" applies only to a borrower with an insured loan. The insurance account for such a borrower is a combination of the following items:

(1) The annual insurance charge.

(2) Any advances made out of the insurance fund to meet defaulted payments of principal and interest, or to pay recoverable cost charges, such as taxes and insurance.

(3) Any accrued interest on advances made out of the insurance fund.

(c) *Schedule status.* For direct and insured loans, a borrower will be on schedule when the sum of his regular payments through the last preceding due date of the note equals the sum of "installments on his note and other charges" due through the same date. Such a borrower will be ahead of schedule or behind schedule when the sum of such regular payments is larger or smaller, respectively, than the sum of such "installments on his note and other charges."

(d) *Notice to holders of defaulted payment on insured Farm Ownership note.* (1) When an advance is made from the insurance fund to pay the holder all or any part of an installment that a borrower is in default on his insured Farm Ownership note, the Finance Office will include the blank space at the bottom of Form FHA–282 the following statement:

> You are hereby notified that the borrower is in default on his installment which was due ---------- 19----- The above-mentioned Treasury check constitutes payment by the Government for the account of the borrower of the unpaid amount of such installment.

(2) The Director, Finance Office, will notify the holder when such a default is corrected.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 510 (g), 63 Stat. 438, 42 U. S. C. 1480 (g); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); sec. 6 (3), 50 Stat. 870, 16 U. S. C. 590w (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–3 (a) (7). Interprets or applies sec. 1 (a), 50 Stat. 522, sec. 5, 60 Stat. 1072, 7 U. S. C. 1001 (a); sec. 501 (a), 63 Stat. 432, 42 U. S. C. 1471; sec. 2 (3), 50 Stat. 869, 16 U. S. C. 590s (3); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–2; sec. 21, 50 Stat. 524, sec. 4, 60 Stat. 1071, sec. 2, 65 Stat. 197, 7 U. S. C. 1007; sec. 1, 63 Stat. 43, 67 Stat. 558, 12 U. S. C. 1148a–1 (a); sec. 1 (a), 64 Stat. 414, 12 U. S. C. 1148a–1 (a); sec. 2, 63 Stat. 44, sec. 1, 67 Stat. 150, sec. 1, 69 Stat. 263, 12 U. S. C. 1148a–2 (a); sec. 1, 67 Stat. 149, sec. 2, 69 Stat. 263, 12 U. S. C. 1148a–2 (b); sec. 1, 67 Stat. 149, 69 Stat. 366, 12 U. S. C. 1148a–2 (c); sec. 2 (a) (2), 60 Stat. 1062, 7 U. S. C. 1001, note; 68 Stat. 999, 69 Stat. 223, sec. 3, 69 Stat. 263, 12 U. S. C. 1148a–1, note; 62 Stat. 1038, 63 Stat. 82)

(e) *Farm Ownership payments.* Farm Ownership borrowers will generally be encouraged to establish a prepayment reserve by paying their Farm Ownership indebtedness in accordance with the terms of agreements entered into and their ability to pay. The agreements of most borrowers provide a system of variable payments which permits paying more than the scheduled installment on the note in good years and using the excess over-scheduled installments to reduce the amount to be paid in poor years. The prepayment reserve which can be established under this system contributes to the security of the borrower's farm ownership by serving as a cushion against the many hazards with which farmers are confronted. The borrower who pays in accordance with his agreements and his ability to pay, operates his farm efficiently, and acts in good faith with respect to other mortgage covenants will enjoy reasonable security in the ownership of his farm.

(1) *Payment requirements.* (i) Farm Ownership borrowers whose loans were approved prior to November 1, 1946, and are repaying their loans under variable payment agreement Forms FSA–LE–228 or FSA–550, will be required, subject to the terms of the agreement, to pay each year the amount which will be determined by the County Supervisor as being within their ability to pay.

(ii) Any borrower whose agreement calls only for fixed payments may make only such payments, but will be encouraged to make additional payments in accordance with his ability in years of normal or above-normal income.

(iii) All other Farm Ownership borrowers will be required to pay one scheduled installment on the note and other charges each year (including, in the case of any insured loan borrower for whom an advance has been made from the insurance fund, a sufficient amount to cover any interest which will accrue on the advance from the fund) plus any amount the borrower was behind schedule as of the previous installment date, plus any additional amount agreed to by the borrower and the County Supervisor, except that, any such borrower who was ahead of schedule as of the previous installment date and whose income for the year is below normal, will be required to pay an amount sufficient to place him on schedule.

(2) *Determination of normal or above normal, or below normal, income for the year.* (i) A borrower's income will be considered normal or above normal when it is equal to or exceeds an amount sufficient to pay usual family living and reasonable farm operating expenses, make normal capital replacements (kept within reasonable conformance to the Farm and Home Plan), and make a scheduled payment on his Farm Ownership note, including other charges, for the year.

(ii) It will be necessary to make the determination as to whether the borrower's income for the year was normal or above normal, or below normal, only in the cases covered by subparagraph (1) (iii) of this paragraph and only for each borrower in that group who was ahead of schedule as of the last preceding installment due date and has not paid an amount equal to the installment due on his note plus other charges for the year. The County Supervisor will make such determination sufficiently in advance so that the borrower may receive notice of the amount due at least ten days prior to the due date of the next annual installment. Wherever possible, the year-end analysis will provide the basis for this determination. However, if the year-end analysis has not been made at such time, the determination of normal or above-normal, or below-normal, income will be made on the estimate of such income as compared with the items described in subdivision (i) of this subparagraph. The County Supervisor will estimate the income on the basis of the information concerning the borrower's production for the year as compared with the production of other borrowers in the area and as compared with the approved expenditures under the Farm and Home Plan. The County Supervisor may take into consideration factors which would probably affect the borrower's income, such as drought, hail, insects, and so forth, prevalent in the area or county and on the borrowers' farm; the prevailing level of commodity prices as compared with the costs which were probably encountered by the borrower in his particular type of farming system; and any relevant information acquired by the County Supervisor during the year from farm visits and personal interviews.

(3) *Notification of borrowers; use of Form FHA–908, "Notice of Required Farm Ownership Payment."* (i) Each borrower should receive written notice on Form FHA–908 of the amount he is required to pay for the year, unless he has already paid during the year the amount he is required to pay or pays the amount he is required to pay at the time of the year-end analysis, or has paid such amount when a determination is made whether income for the year was normal or above normal, or below normal, prior to the year-end analysis as provided in subparagraph (2) (ii) of this paragraph.

(ii) For borrowers who are in the group specified in subparagraph (1) (iii) of this paragraph and are ahead of schedule, Form FHA–908 should also show whether the borrower's income for the year was normal or above normal, or below normal.

(iii) Form FHA–908 should reach the borrower at least ten days prior to the annual due date of the note, so that the borrower will have reasonable time in which to respond to the notice.

(f) *Farm Housing payments.* (1) A borrower may make payments ahead of schedule at any time. He may later use such ahead-of-schedule payments to forego payments or to supplement the amount available during any year for application on the annual installment payable on his note. All borrowers should be encouraged to establish prepayment reserves.

(2) One scheduled annual installment on his note and other charges will become due each year, except for any part thereof paid ahead of schedule and, in the case of a section 503 borrower, any contribution made by the Government during the first five years.

(g) *Soil and Water Conservation payments.* (1) A borrower may make payments at any time to get ahead of schedule on principal and interest on his note. All borrowers should be encouraged to establish prepayment reserves.

(2) A borrower may not pay ahead of schedule on his insurance account. His annual insurance charge is computed on the basis of the principal obligation remaining unpaid as of the date on which each annual note installment is due, and such charge is due and payable in advance when billed. All payments in excess of the amount owed the insurance account are applied on the note account.

(3) One scheduled annual installment on his note and other charges will become due each year, except for any part thereof paid ahead of schedule.

(h) *Reamortizing direct Farm Ownership and Farm Housing accounts.* (1) Direct Farm Ownership accounts will be reamortized when required by § 333.4 of this chapter in connection with making a subsequent Farm Ownership loan when a borrower whose loan was approved prior to November 1, 1946, and who signed Form FSA–LE–228 has such agreement canceled unless immediate foreclosure proceedings are recommended or the borrower was on or ahead of schedule as of the previous installment due date and is not obtaining a subsequent direct loan, and when a borrower who is not behind schedule and has made extra principal payments and refunds totaling 10 percent or more of his Farm Ownership loan, executes Form FHA–176, "Request for Reamortization of Farm Ownership Loan," and the State Director determines that the borrower is likely to have difficulty in meeting his obligations unless his account is reamortized. The unpaid principal, and future interest thereon at the rate specified in the note(s), will be reamortized so as to retire the debt in equal annual installments from the date of reamortization to the maturity date of the note(s). The unpaid accrued interest as of the date of reamortization will be divided into the same number of equal annual installments as indicated in the previous sentence. The revised annual installment will be the sum of the two annual installments mentioned in the two preceding sentences. However, each payment on such reamortized account will be applied first to unpaid interest and second to principal. The borrower's account will be on schedule as of the last installment due date preceding the date of reamortization. The installment due date will be March 31 for borrowers whose entire Farm Ownership indebtedness is based on notes with December 31 due dates with 90 day grace periods, and borrowers who have an outstanding Farm Ownership note with March 31 due dates. The installment due date for other borrowers will be January 1. When the revised amortization schedule has been calculated, the Finance Office will notify the County Supervisor, who will notify the borrower of the change. It will not be necessary to obtain a new note(s) or to change the face value of the original note(s).

(2) Farm Housing accounts will be reamortized when a borrower who is not behind schedule and has made extra principal payments and refunds totaling 10 percent or more of his Farm Housing loan, requests reamortization on Form FHA–176, and the State Director determines that the borrower is likely to have difficulty in meeting his obligations unless his account is reamortized. Reamortization of Farm Housing accounts will be calculated in accordance with subparagraph (1) of this paragraph. The borrower's account will be on schedule as of the last December 31 preceding the date of reamortization. When the revised amortization schedule has been calculated, the Finance Office will notify the County Supervisor, who will make a notation thereof on the back of the original note, change the amount of the annual installment appearing in the heading of Form FHA–473B, and notify the borrower of the change. It will not be necessary to obtain a new note or to change the face value of the original note.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 510 (g), 63 Stat. 438, 42 U. S. C. 1480 (g); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–3 (a) (7). Interprets or applies sec. 1 (a), 50 Stat. 522, sec. 5, 60 Stat. 1072, 7 U. S. C. 1001 (a); sec. 3, 62 Stat. 534, 7 U. S. C. 1005b (e); secs. 501 (a), 503, 63 Stat. 432, 434, 42 U. S. C. 1471, 1473; sec. 1 (4), 68 Stat. 735, 16 U. S. C. 590x–2, 590x–3)

§ 361.9 *Miscellaneous servicing on Operating loan accounts*—(a) *Borrower moving to new location.* When a borrower is moving to a new location and intends to move security property, he is required to apply for permission to move such property. Form FHA–544, "Application to Move Security Property and Verification of Address," will be used, County Supervisors are authorized to approve applications for moves of security property.

(b) *Final payments on operating loan accounts and surrender of notes.* When final payments on operating loan accounts have been made, the Finance Office will return the paid notes to the county office when either of the conditions set forth below have been met.

(1) When a borrower pays a loan account in full within 30 days of the date of the latest Form FHA–646, such payment must include all of the unpaid principal and all unpaid interest shown on such Form FHA–646, but no additional interest subsequent to the date of the latest Form FHA–646 need be computed or paid unless the total unpaid principal balance on the loan account(s) being paid in full exceeds $2,000.

(2) When a borrower pays a loan account in full more than 30 days after the date of the latest Form FHA–646, or when the total unpaid principal balance on the loan account(s) being paid in full exceeds $2,000, such payment must include all of the unpaid principal and unpaid interest shown on the latest Form FHA–646 plus interest accrued since the date of Form FHA–646 as computed by the official who made the collection.

(c) *Surrender of notes.* When a note (or loan-type account) has been paid in full, the note(s) will be returned to the borrower immediately except:

(1) When the final payment is made in a form other than currency and coin, Treasury check, cashier's check, certified check, Postal or bank money order, or bank draft, the note(s) will not be surrendered until 30 days after the date of final payment, and

(2) When the notes are needed in making marginal releases or satisfactions of security instruments, the notes will be held until the instruments are to be satisfied.

(d) *Surrender of notes to effect collection.* (1) In individual cases, State Directors are authorized to request the Finance Office to furnish County Supervisors with promissory notes, together with a statement of the amount due under such notes, when the surrender of the notes is necessary to effect final collection.

(2) County Supervisors are authorized to surrender notes to borrowers in such cases when final payments of the amounts due are made in the form of currency and coin, Treasury check, cashier's check, certified check, Postal or bank money order, or bank draft.

(e) *Lost notes.* If notes, paid-in-full or otherwise satisfied, cannot be found, State Directors may authorize County Supervisors to execute appropriate affidavits regarding lost notes, in cases in which such affidavits are requested by borrowers.

(f) *Return of notes after satisfaction of judgments.* Notes which have been reduced to judgment are a part of the court records and ordinarily cannot be withdrawn and returned to the borrower even after satisfaction of the judgment. Therefore, no effort will be made to obtain and return such notes except upon the written request of the judgment debtor or his attorney.

(Sec. 41 (1), 60 Stat. 1066, 7 U. S. C. 1015 (1); sec. 4 (c), 64 Stat. 100, 40 U. S. C. 442 (c); sec. 6 (3), 50 Stat. 870, 16 U. S. C. 590w (3). Interprets or applies sec. 21, 50 Stat. 524, sec. 4, 60 Stat. 1071, sec. 2, 65 Stat. 197, 7 U. S. C. 1007; sec. 1, 63 Stat. 43, 67 Stat. 558, 12 U. S. C. 1148a–1 (a); sec. 1 (a), 64 Stat. 414, 12 U. S. C. 1148a–1 (a); sec. 2, 63 Stat. 44, sec. 1, 67 Stat. 150, sec. 1, 69 Stat. 263, 12 U. S. C. 1148a–2 (a); sec. 1, 67 Stat. 149, sec. 2, 69 Stat. 263, 12 U. S. C. 1148a–2 (b); sec. 1, 67 Stat. 149, 69 Stat. 366, 12 U. S. C. 1148a–2 (c); sec. 2 (a) (2), 60 Stat. 1062, 7 U. S. C. 1001, note; 68 Stat. 999, 69 Stat. 223, sec. 3, 69 Stat. 263, 12 U. S. Chapter IV—Commodity Stabilization Service and Commodity Credit Corporation, Department of Agriculture

Subchapter B—Loans, Purchases, and Other Operations

[1955 C. C. C. Grain Price Support Bulletin 1, Supp. 1 (Rev.), Amdt. 1, Rice]

PART 421—GRAINS AND RELATED COMMODITIES

SUBPART—1955-CROP RICE LOAN AND PURCHASE AGREEMENT PROGRAM

The regulations issued by the Commodity Credit Corporation and the Commodity Stabilization Service, published in 20 F. R. 8031, and 8211 and containing the specific requirements for the 1955-Crop Rice Price Support Program are hereby amended to clarify the provisions pertaining to location differentials and to establish a price location differential for rice produced in St. Charles County, Missouri.

Section 421.1344 (c) is amended to read as follows:

§ 421.1344 *Support rates.* • • •

(c) *Location differentials.* For rice produced in the following areas, discounts for location (to adjust for transportation costs of moving the rice to an area where competitive milling facilities are available) shall be applied to the basic support rate determined under paragraph (a) of this section and shall be in addition to any adjustment in accordance with paragraph (b) of this section: *Provided, however,* That such location differentials shall not apply to rice produced in these areas if the rice is transported to a rice producing area where no location differential is applicable and is there placed under loan or delivered to CCC under a purchase agreement:

Area	Discount per 100 pounds
State of Florida	$0.82
States of South Carolina and North Carolina	.77
Counties of Lafayette, Little River and Miller in Arkansas; Bowie in Texas; McCurtain in Oklahoma; and Bossier Parish in Louisiana	.30
Imperial County, California and adjacent counties in Arizona and California	.96
Counties of Holt, Lincoln, Marion, Pike, and St. Charles in Missouri, and Adams in Illinois	.43

(Sec. 4, 62 Stat. 1070 as amended; 15 U. S. C. 714b. Interprets or applies sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. 714c, 7 U. S. C. 1421, 1441)

Issued this 8th day of December 1955.

[SEAL] EARL M. HUGHES,
Executive Vice President,
Commodity Credit Corporation.

PART 421—GRAINS AND RELATED COMMODITIES

PART 474—FARM-STORAGE FACILITIES

STORAGE PAYMENTS EARNED BY BORROWERS UNDER PRICE SUPPORT OR RESEAL PROGRAMS

The notice published in 20 F. R. 8536 is amended to read as follows:

Notwithstanding the provisions of CCC Grain Price Support Bulletins (1950–1955) 15 F. R. 3147, 16 F. R. 1987, 17 F. R. 3521, 18 F. R. 1960, 19 F. R. 867, and 20 F. R. 3017, the provisions of Farm Storage Facility Loan Program Bulletins 14 F. R. 5587, 15 F. R. 4867; 16 F. R. 6492, and 20 F. R. 5115, and the provisions of the Mobile Drying Equipment Loan Program Bulletin 20 F. R. 5113 (which provide for the application of farm storage payments by CCC to the accelerated reduction of loans made respectively under the Farm Storage Facility Loan Program and the Mobile Drying Equipment Loan Program), any payments for storage of commodities in farm storage structure under a price support or reseal program due from Commodity Credit Corporation to a borrower shall be applied (1) to any delinquent amount(s), and, (2) to the borrower's storage facility loan installment or mobile drying equipment loan installment which is due and payable when the storage payment is due, and (3) to any extended installment(s), each including interest. This notice shall be effective with regard to any storage payments disbursed subsequent to November 18, 1955. The provisions of any CCC Grain Price Support Bulletin, Farm Storage Facility Loan Bulletin, or Mobile Drying Equipment Loan Bulletin which are inconsistent with the provisions of this notice are hereby modified accordingly.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b)

NOTE: This notice effects §§ 421.10, 421.660, 421.1510, 421.410, 421.1010, 474.106 (c), 474.140 (c), 474.506 (c), and 474.431 (c).

Issued this 8th day of December 1955.

[SEAL] EARL M. HUGHES,
Executive Vice President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders), Department of Agriculture

[Navel Orange Reg. 63, Amdt. 1]

PART 914—NAVEL ORANGES GROWN IN ARIZONA AND DESIGNATED PART OF CALIFORNIA

LIMITATION OF HANDLING

Findings. 1. Pursuant to the marketing agreement, as amended, and Order No. 14, as amended (7 CFR Part 914; 19 F. R. 2941), regulating the handling of navel oranges grown in Arizona and designated part of California, effective September 22, 1953, under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Navel Orange Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such navel oranges, as hereinafter provided, will tend to effectuate the declared policy of the act.

2. It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this amendment until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restrictions on the handling of navel oranges grown in Arizona and designated part of California.

Order, as amended. The provisions in paragraph (b) (1) (i) of § 914.363 (Navel Orange Regulation 63; 20 F. R. 8871) are hereby amended to read as follows:

(i) District 1: Unlimited movement;

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. 608c)

Dated: December 8, 1955.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Division, Agricultural Marketing Service.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 1]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 600 is amended as follows:

1. Section 600.15 *Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.)* is amended between the Nashville, Tenn., radio range station and the Knoxville, Tenn., radio range station to read: "Nashville, Tenn., radio range station; the intersection of the northeast course of the Nashville radio range and a line bearing 297° True from the Smithville, Tenn., nondirectional radio beacon; Smithville, Tenn., nondirectional radio beacon; the intersection of a line bearing 112° True from the Smithville, Tenn., nondirectional radio beacon and the west course of the Knoxville, Tenn., radio range; Knoxville, Tenn., radio range station;".

2. Section 600.225 is added to read:

§ 600.225 *Red civil airway No. 25 (United States-Canadian Border to Bangor, Maine).* That airspace over United States territory from the Quebec, Canada, radio range station via the intersection of the northwest course of the Bangor, Maine, radio range and the west course of the Millinocket, Maine, radio range to the intersection of the northwest course of the Bangor, Maine, radio range and the southwest course of the Millinocket, Maine, radio range.

3. Section 600.603 *Blue civil airway No. 3 (Miami, Fla., to Sault Ste. Marie, Mich.)* is amended by deleting the facility which reads: "Cadillac, Mich., nondirectional radio beacon;".

4. Section 600.674 *Blue civil airway No. 74 (Willard, N. Mex., to Otto, N. Mex.)* is revoked.

5. Section 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)* is amended by changing the portion which reads: "Des Moines, Iowa, omnirange station, including a south alternate;" to read: "Des Moines, Iowa, omnirange station;".

6. Section 600.6008 *VOR civil airway No. 8 (Long Beach, Calif., to Washington, D. C.)* is amended by changing the portion between the Omaha, Nebr., omnirange station and the Naperville, Ill., omnirange station to read: "Omaha, Nebr., omnirange station, including a north and a south alternate; Des Moines, Iowa, omnirange station; Iowa City, Iowa, omnirange station, including a south alternate via the intersection of the Des Moines omnirange 112° True and the Iowa City omnirange 252° True radials; Moline, Ill., omnirange station, including a south alternate; Naperville, Ill., omnirange station;".

7. Section 600.6011 is amended to read:

§ 600.6011 *VOR civil airway No. 11 (Memphis, Tenn., to Detroit, Mich.).* From the Memphis, Tenn., omnirange station via the intersection of the Memphis omnirange 345° True and the Dyersburg omnirange 230° True radials; Dyersburg, Tenn., omnirange station, including an east alternate from the Memphis omnirange station to the Dyersburg omnirange station via the intersection of the Memphis omnirange 360° True and the Dyersburg omnirange 215° True radials; Paducah, Ky., omnirange station; Evansville, Ind., omnirange station; Scotland, Ind., omnirange station, including an east alternate via the intersection of the Evansville omnirange 049° True and the Scotland omnirange 188° True radials; Indianapolis, Ind., omnirange station, including an east alternate via the intersection of the Scotland omnirange 041° True and the Indianapolis omnirange 185° True radials, and a west alternate via the intersection of the Scotland omnirange 011° True and the Indianapolis omnirange 232° True radials; intersection of the Indianapolis omnirange 021° True and the Fort Wayne omnirange 226° True radials; Fort Wayne, Ind., omnirange station; intersection of the Fort Wayne omnirange 037° True and the Salem omnirange 227° True radials; to the Salem, Mich., omnirange station.

8. Section 600.6012 *VOR civil airway No. 12 (Santa Barbara, Calif., to Philadelphia, Pa.)* is amended by changing the portion between the St. Louis, Mo., omnirange station and the Terre Haute, Ind., omnirange station to read: "St. Louis, Mo., omnirange station, including a north and a south alternate; Vandalia, Ill., omnirange station; Terre Haute, Ind., omnirange station;".

9. Section 600.6014 *VOR civil airway No. 14 (Roswell, N. Mex., to Boston, Mass.)* is amended by changing the portion which reads: "the Lubbock omnirange 276° True radials;" to read, "the Lubbock omnirange 277° True radials;".

10. Section 600.6025. *VOR civil airway No. 25 (Los Angeles, Calif., to Ellensburg, Wash.)* is amended by changing all before the Red Bluff, Calif., omnirange station to read: "From the Camarillo, Calif., MF radio range station via the Santa Barbara, Calif., omnirange station; Paso Robles, Calif., omnirange station; intersection of the Paso Robles omnirange 335° True and the San Francisco omnirange 141° True radials; San Francisco, Calif., omnirange station; intersection of the San Francisco omnirange 304° True and the Point Reyes omnirange 155° True radials; Point Reyes, Calif., omnirange station; point of intersection of the Point Reyes omnirange 352° True and the Ukiah, Calif., omnirange 147° True radials; Red Bluff, Calif., omnirange station;".

11. Section 600.6027 is amended to read:

§ 600.6027 *VOR civil airway No. 27 (Los Angeles, Calif., to Seattle, Wash.).* From the Camarillo, Calif., MF radio range via the Santa Barbara, Calif., omnirange station; Paso Robles, Calif., omirange station, including a west alternate via the intersection of the Santa Barbara omnirange 304° True and the Paso Robles omnirange 169° True radials; intersection of the Paso Robles omnirange 335° True and the Salinas omnirange 134° True radials; Salinas, Calif., omnirange station; intersection of the Salinas omnirange 319° True and the Point Reyes omnirange 155° True radials; Point Reyes, Calif., omnirange station, including a west alternate from the Salinas omnirange station via the intersection of the Salinas omnirange 300° True and the Point Reyes omnirange 155° True radials; intersection of the Point Reyes omnirange 352° True and the Ukiah omnirange 147° True radials; Ukiah, Calif., omnirange station; Fortuna, Calif., omnirange station; Crescent City, Calif., omnirange station; North Bend, Oreg., omnirange station; Newport, Oreg., omnirange station; Hoquiam, Wash., omnirange station; to the Seattle, Wash., omnirange station, excluding the portion above 14,500 feet above mean sea level which lies beneath, and which conflicts with, the Olympic restricted area (R–241).

12. Section 600.6037 is amended to read:

§ 600.6037 *VOR civil airway No. 37 (Savannah, Ga., to Erie, Pa.).* From the Savannah, Ga., omnirange station via the Columbia, S. C., omnirange station to the Charlotte, N. C., omnirange station. From the Elkins, W. Va., omnirange station via the Morgantown, W. Va., omnirange station; Pittsburgh, Pa., omnirange station; to the Erie, Pa., omnirange station.

13. Section 600.6065 is amended to read:

§ 600.6065 *VOR civil airway No. 65 (Kansas City, Mo., to Lamoni, Iowa).* From the point of intersection of the Kansas City, Mo., omnirange 231° True and the St. Joseph, Mo., omnirange 178° True radials via the St. Joseph, Mo., omnirange station; to the Lamoni, Iowa, omnirange station.

14. Section 600.6154 is amended to read:

§ 600.6154 *VOR civil airway No. 154 (Meridian, Miss., to Savannah, Ga.).* From the Meridian, Miss., omnirange station via the intersection of the Meridian omnirange 084° True and the Montgomery omnirange 282° True radials; Montgomery, Ala., omnirange station; Columbus, Ga., omnirange station, including a north alternate via the intersection of the Montgomery omnirange 049° True and the Columbus omnirange 270° True radials; intersection of the Columbus omnirange 020° True and the Macon omnirange 272° True radials; Macon, Ga., omnirange station; to the Savannah, Ga., omnirange station. The portions of this airway which conflict with the Fort Benning Restricted Area (R–129) are excluded.

15. Section 600.6172 is amended to read:

§ 600.6172 *VOR civil airway No. 172 (Omaha, Nebr., to Chicago, Ill.).* From the Omaha, Nebr., omnirange station via the intersection of the Omaha omnirange 095° True and the Des Moines omnirange 247° True radials; Des Moines, Iowa, omnirange station; intersection of the Des Moines omnirange 071° True and the Polo omnirange 268° True radials; Polo, Ill., omnirange station, including a south alternate from the point of intersection of the Des Moines omnirange 071° True and the Polo omnirange 268° True radials to the Polo omnirange station via the Moline, Ill., omnirange station; intersection of the Polo omnirange 085° True and the Chicago Midway Airport terminal omnirange 294° True radials; to the Chicago, Ill., Midway Airport terminal omnirange station.

16. Section 600.6185 is amended to read:

§ 600.6185 *VOR civil airway No. 185 (Savannah, Ga., to Knoxville, Tenn.).* From the Savannah, Ga., omnirange station via the intersection of the Savannah omnirange 320° True and the Augusta omnirange 157° True radials; Augusta, Ga., omnirange station; Spartanburg, S. C., omnirange station; Asheville, N. C., omnirange station, including a west alternate from the Augusta omnirange station to the Asheville omnirange station via the intersection of the Augusta omnirange 345° True radials and the Greenville ILS localizer south course, the Greenville, S. C., ILS localizer, and the intersection of the Greenville ILS localizer north course and the Asheville omnirange 189° True radial; intersection of the Asheville omnirange 300° True and the Knoxville omnirange 069° True radials; to the Knoxville, Tenn., omnirange station, including an east alternate from the Asheville omnirange station to the Knoxville omnirange station via the intersection of the Asheville omnirange 329° True and the Knoxville omnirange 069° True radials. The portion of this airway below 5500 feet above mean sea level which overlaps the Camp Gordon Restricted Area (R–124) is excluded.

17. Section 600.6193 is amended to read:

§ 600.6193 *VOR civil airway No. 193 (Pullman, Mich., to Traverse City, Mich.).* From the Pullman, Mich., omnirange station via the Grand Rapids, Mich., ILS outer marker; White Cloud, Mich., omnirange station; to the Traverse City, Mich., LF radio range station.

18. Section 600.6195 is amended to read:

§ 600.6195 *VOR civil airway No. 195 (Oakland, Calif., to Red Bluff, Calif.).* From the Oakland, Calif., omnirange station via the Sacramento, Calif., omnirange station; Williams, Calif., omnirange station, including a west alternate from the Oakland omnirange station to the Williams omnirange station via the point of intersection of the Sacramento omnirange 218° True and the Williams omnirange 167° True radials; to the Red Bluff, Calif., omnirange station.

19. Section 600.6199 is amended to read:

§ 600.6199 *VOR civil airway No. 199 (Fresno, Calif., to Ukiah, Calif.).* From the Fresno, Calif., omnirange station via the intersection of the Fresno omnirange 287° True and the San Francisco omnirange 111° True radials; San Francisco, Calif., omnirange station; intersection of the San Francisco omnirange 304° True and the Ukiah omnirange 172° True radials; to the Ukiah, Calif., omnirange station.

20. Section 600.6200 is amended to read:

§ 600.6200 *VOR civil airway No. 200 (Ukiah, Calif., to Reno, Nev.).* From the Ukiah, Calif., omnirange station via the Williams, Calif., omnirange station; intersection of the Williams omnirange 061° True and the Reno omnirange 268° True radials; to the Reno, Nev., omnirange station.

21. Section 600.6210 is added to read:

§ 600.6210 *VOR civil airway No. 210 (Los Angles, Calif., to Daggett, Calif.).* From the Los Angeles, Calif., omnirange station via the intersection of the Los

Angeles omnirange 057° True and the Daggett omnirange 235° True radials; to the Daggett, Calif., omnirange station.

22. Section 600.6212 is added to read:

§ 600.6212 *VOR civil airway No. 212 (Ukiah, Calif., to Reno, Nev.).* From the Ukiah, Calif., omnirange station via the intersection of the Ukiah omnirange 172° True and the Williams omnirange 241° True radials; Williams, Calif., omnirange station; point of intersection of the Williams omnirange 104° True and the Sacramento, Calif., omnirange 055° True radials; point of intersection of the Sacramento omnirange 055° True and the Reno omnirange 230° True radials; to the Reno, Nev., omnirange station.

23. Section 600.6214 is added to read:

§ 600.6214 *VOR civil airway No. 214 (Muskegon, Mich., to Saginaw, Mich.).* From the Muskegon, Mich., omnirange station to the Saginaw, Mich., nondirectional radio beacon.

24. Section 600.6215 is added to read:

§ 600.6215 *VOR civil airway No. 215 (Muskegon, Mich., to White Cloud, Mich.).* From the Muskegon, Mich., omnirange station to the White Cloud, Mich., omnirange station.

25. Section 600.6221 is added to read:

§ 600.6221 *VOR civil airway No. 221 (Fort Wayne, Ind., to Detroit, Mich.).* From the Fort Wayne, Ind., omnirange station via the Litchfield, Mich., omnirange station; to the Salem, Mich., omnirange station.

(Sec. 205, 52 Stat. 984, amended; 49 U. S. C. 425. Interpret or apply sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t., January 12, 1956.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-9952; Filed, Dec. 12, 1955; 8:45 a. m.]

[Amdt. 1]

PART 601—DESIGNATION OF CONTROL AREAS CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Panel, and are adopted to become effective when indicated in order to promote safety. Compliance with the notice, procedures, and effective date provisions of Section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required.

Part 601 is amended as follows:

1. Section 601.225 is added to read:

§ 601.225 *Red civil airway No. 25 control areas (United States-Canadian Border to Bangor, Maine).* All of Red civil airway No. 25.

2. Section 601.674 *Blue civil airway No. 74 control areas (Willard, N. Mex., to Otto, N. Mex.)* is revoked.

3. Section 601.1002 is amended to read:

§ 601.1002 *Control area extension (Austin, Tex.).* That airspace within a 40-mile radius of the Austin radio range station, excluding the portion which overlaps restricted area (R-343).

4. Section 601.1036 *Control area extension (West Palm Beach, Fla.)* is amended by changing last portion to read: "The airspace which lies within Patrick AFB warning area (W-497-B) and Miami warning area (W-171) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control."

5. Section 601.1389 *Control area extension (Miami, Fla.)* is amended by adding the following phrase to present control area extension: "The airspace which lies within Patrick AFB warning area (W-497-B) and Miami warning area (W-171) shall be used only after obtaining prior approval from Civil Aeronautics Administration Air Traffic Control."

6. Section 601.1393 is added to read:

§ 601.1393 *Control area extension (Roswell, N. Mex.).* That airspace within 5 miles either side of the 40° True radial of the Roswell omnirange extending from the omnirange station to a point 25 miles northeast.

7. Section 601.1394 is added to read:

§ 601.1394 *Control area extension (Williams, Calif.).* That airspace southwest of Williams, Calif., bounded on the north by VOR civil airway No. 212, on the east by Blue civil airway No. 10 and on the southwest by VOR civil airway No. 107, and the airspace south of Williams, Calif., bounded on the west by Blue civil airway No. 10, on the east by Blue civil airway No. 7 and on the southeast by the Fairfield, Calif., control area extension.

8. Section 601.2124 is amended to read:

§ 601.2124 *Roswell, N. Mex., control zone.* Within a 15-mile radius of the Roswell radio range station and within 2 miles either side of the 220° True and 297° True radials of the Roswell omnirange extending from the omnirange station to points 10 miles southwest and northwest.

9. Section 601.2146 *Greenwood, Miss., control zone* is amended by changing last portion to read: "and within 2 miles either side of the 066° True and 246° True radials of the Greenwood omnirange extending from the airport to a point 10 miles southwest of the omnirange station."

10. Section 601.2229 is amended to read:

§ 601.2229 *Fairfield, Calif., control zone.* Within a 5-mile radius of Travis Air Force Base, within 2 miles either side of the southwest course of the Travis AFB radio range extending from the Air Force Base to a point 20 miles southwest of the AFB, and within 3 miles either side of the southwest and northeast courses of the radio range extending from the Air Force Base to a point 15 miles of northeast of the AFB.

11. Section 601.4015 *Green civil airway No. 5 (Los Angeles, Calif., to Boston, Mass.)* is amended by changing "Smithville, Tenn., radio range station;" to read: "Smithville, Tenn., nondirectional radio beacon;".

12. Section 601.4225 is added to read:

§ 601.4225 *Red civil airway No. 25 (United States-Canadian Border to Bangor, Maine).* No reporting point designation.

13. Section 601.4674 *Blue civil airway No. 74 (Willard, N. Mex., to Otto, N. Mex.)* is revoked.

14. Section 601.6011 is amended to read:

§ 601.6011 *VOR civil airway No. 11 control areas (Memphis, Tenn., to Detroit, Mich.).* All of VOR civil airway No. 11 including east alternates and a west alternate.

15. Section 601.6037 is amended to read:

§ 601.6037 *VOR civil airway No. 37 control areas (Savannah, Ga., to Erie, Pa.).* All of VOR civil airway No. 37.

16. Section 601.6065 is amended to read:

§ 601.6065 *VOR civil airway No. 65 control areas (Kansas City, Mo., to Lamoni, Iowa).* All of VOR civil airway No. 65.

17. Section 601.6154 is amended to read:

§ 601.6154 *VOR civil airway No. 154 control areas (Meridian, Miss., to Savannah, Ga.).* All of VOR civil airway No. 154, including a north alternate.

18. Section 601.6172 is amended to read:

§ 601.6172 *VOR civil airway No. 172 control areas (Omaha, Nebr., to Chicago, Ill.).* All of VOR civil airway No. 172 including a south alternate.

19. Section 601.6185 is amended to read:

§ 601.6185 *VOR civil airway No. 185 control areas (Savannah, Ga., to Knoxville, Tenn.).* All of VOR civil airway No. 185 including an east and a west alternate, but excluding the airspace between the main airway and its west alternate airway from the Augusta, Ga., omnirange station to the Asheville, N. C., omnirange station and also excluding the airspace between the main airway and its east alternate from the Asheville, N. C., omnirange station to the Knoxville, Tenn., omnirange station.

20. Section 601.6193 is amended to read:

§ 601.6193 *VOR civil airway No. 193 control areas (Pullman Mich., to Traverse City, Mich.).* All of VOR civil airway No. 193.

21. Section 601.6195 is amended to read:

§ 601.6195 *VOR civil airway No. 195 control areas (Oakland, Calif., to Red Bluff, Calif.).* All of VOR civil airway No. 195 including a west alternate.

22. Section 601.6199 is amended to read:

§ 601.6199 *VOR civil airway No. 199 control areas (Fresno, Calif., to Ukiah, Calif.).* All of VOR civil airway No. 199.

23. Section 601.6200 is amended to read:

§ 601.6200 *VOR civil airway No. 200 control areas (Ukiah, Calif., to Reno, Nev.).* All of VOR civil airway No. 200.

24. Section 601.6210 is added to read:

§ 601.6210 *VOR civil airway No. 210 control areas (Los Angeles, Calif., to Daggett, Calif.).* All of VOR civil airway No. 210.

25. Section 601.6212 is added to read:

§ 601.6212 *VOR civil airway No. 212 control areas (Ukiah, Calif., to Reno, Nev.).* All of VOR civil airway No. 212.

26. Section 601.6214 is added to read:

§ 601.6214 *VOR civil airway No. 214 control areas (Muskegon, Mich., to Saginaw, Mich.).* All of VOR civil airway No. 214.

27. Section 601.6215 is added to read:

§ 601.6215 *VOR civil airway No. 215 control areas (Muskegon, Mich., to White Cloud, Mich.)* All of VOR civil airway No. 215.

28. Section 601.6221 is added to read:

§ 601.6221 *VOR civil airway No. 221 control areas (Fort Wayne, Ind., to Detroit, Mich.).* All of VOR civil airway No. 221.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. January 12, 1956.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-9953; Filed, Dec. 12, 1955; 8:45 a. m.]

[Amdt. 145]

PART 608—RESTRICTED AREAS

ALTERATION

The restricted area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Panel and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedure and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.21, a Savanna, Illinois, temporary area (R-498), is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Controlling agency
SAVANNA (R-498) (Dubuque).	All that area within a circle whose radius is 1,500 feet and whose center is located at latitude 42°13'15", and longitude 90°21'24".	Surface to 1,900 feet mean sea level.	Unlimited from Dec. 20, 1955, through July 15, 1956.	Commanding Officer, Savanna Ordnance Depot, Savanna, Ill.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on December 20, 1955.

[SEAL] F. B. LEE,
Administrator of Civil Aeronautics.

[F. R. Doc. 55-9971; Filed, Dec. 12, 1955; 8:46 a. m.]

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53969]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

PERFUMES

It has been determined that shipments valued not over $1 should not be excluded from the administrative exemption from duty and tax under the provisions of section 321 (a) (2) (C), Tariff Act of 1930, as amended, by reason of their containing perfume made in part of alcohol. Accordingly, § 8.3 (d) (5) of the Customs Regulations is amended to read as follows:

(5) No alcoholic beverage, perfume containing alcohol (except where the aggregate value of all merchandise contained in the shipment does not exceed $1), or tobacco product shall be exempted from the payment of duty and tax under this section.

(Sec. 624, 46 Stat. 759; 19 U. S. C. 1624. Interprets or applies sec. 7, 52 Stat. 1081, as amended; 19 U. S. C. 1321)

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 7, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[T. D. 53970]

PART 18—TRANSPORTATION IN BOND AND MERCHANDISE IN TRANSIT

ELIMINATION OF CORDING AND SEALING OF BAGGAGE SHIPPED IN BOND

The cording and sealing of baggage shipped in bond to a port of entry other than the port of first arrival or shipped in transit through the United States to foreign countries are hereby eliminated and §§ 18.13 and 18.14 of the Customs Regulations are hereby amended to provide therefor as follows:

Section 18.13 (a) is amended by deleting "under cord and seal and" from the first sentence and substituting "with the use of a".

Section 18.13 (b) is amended by deleting "placed on the cords back of the seal" from the second sentence and substituting "securely attached by wire or cord to the baggage".

The second sentence of § 18.14 is amended to read: "Such baggage shall be shipped under the regulations prescribed in the preceding section, except that the card or paster shall be printed on yellow paper and shall read 'Baggage in bond for export.'"

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624. Interpret or apply secs. 498, 552, 553, 742, as amended; 19 U. S. C. 1498, 1552, 1553)

A notice of proposed rule making was published in the FEDERAL REGISTER of September 29, 1955 (20 F. R. 7257). No written data or views having been submitted, the above regulations have been adopted.

[SEAL] RALPH KELLY,
Commissioner of Customs.

Approved: December 7, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[T. D. 53967]

PART 23—ENFORCEMENT OF CUSTOMS AND NAVIGATION LAWS

FINES, PENALTIES, AND FORFEITURES

It has become evident that collectors of customs and their staffs are conversant with the standards whereby relief has been afforded or denied by the Bureau of Customs as to certain fines, penalties, and forfeitures incurred under the customs or navigation laws administered by the Bureau and that a delegation of authority to take final action in the field is warranted as to certain of such cases. Therefore, to serve the public more effectively by promoting the prompt disposition of selected fines, penalties, and forfeitures arising under certain of the customs or navigation laws, Part 23 of the Customs Regulations is amended as follows:

1. The first sentence of § 23.24 (a) is amended to read as follows: "Any petition for the remission or mitigation of a fine, penalty, or forfeiture incurred under any law administered by the Bureau of Customs or for the restoration of the proceeds of a sale of property forfeited under the customs laws shall be addressed to the Commissioner of Customs, unless final action thereon may be taken by the collector of customs, in which event it shall be addressed to the collector concerned, and shall be signed by the petitioner and filed with the collector of customs of the district in which the

property was seized or the fine or penalty imposed."

2. Section 23.25 (a) is amended to read as follows:

(a) Fines, penalties, and forfeitures incurred under any law administered by the Bureau of Customs may be mitigated or remitted by the collector of customs concerned in the following cases on such terms and conditions as, under the law and in view of the circumstances, he shall deem appropriate:

(1) Fines and other pecuniary penalties aggregating less than $100 in respect of any one offense.

(2) Penalties of $500 each imposed under the Air Commerce Act of 1926, as amended, for failure to manifest merchandise or for landing merchandise without a permit (see § 6.11 of this chapter), provided the value of the merchandise does not exceed $100.

(3) When imported merchandise or the value thereof has become subject to forfeiture and the duty is $100 or less, or the merchandise is nondutiable and valued at $500 or less.

(4) When merchandise, other than imported merchandise, has become subject to forfeiture, is valued at $500 or less, and no liability outside the purview of any subdivision of this paragraph (a) has been incurred in connection with the same offense.

(5) The collector of customs at the port of New York may remit or mitigate penalties incurred in his district under section 453 or 584, Tariff Act of 1930, provided the aggregate of the penalties incurred under either or both sections by the offender in the case under consideration does not exceed $1,000.

(6) Fines or other pecuniary penalties, aggregating not more than $2,000 in respect of any one offense, as follows:

TARIFF ACT OF 1930

Section		
436	Failure to report arrival or enter	Master; $1,000.
439	Failure to transmit or deliver copy of manifest	Master; $500.
440	Failure to make or transmit or deliver post entry	Master; $500.
445	Violation of residue cargo procedures	Master; $500.

TITLE 46, UNITED STATES CODE

22	Master's oath of citizenship false	Master; $1,000.
23	Failure surrender register when vessel lost, captured, broken up or sold foreign.	Master or owner; $500.
30	Failure to surrender temporary register granted upon change of vessel ownership.	Master and owner; $100.
32	Failure to surrender temporary register granted upon purchase of vessel through an agent.	Master and owner; $100.
37	Failure to surrender temporary register granted in lieu of one lost or destroyed.	Master; $100.
38	Failure to surrender outstanding register when re-registration required.	Owner; $500.
40	Failure to report change of master	Master; $100.
45	Failure to mark official number	Owner; $30 each vessel arrival.
46	Failure to mark name and home port	Owner; $10 each name.
77	Failure to mark net tonnage	Owner; $30 each vessel.
91, 95	Clearance violation	Master; $500–$1,000. Bond; up to $1,000.
92, 95	Clearance violation	Bond; up to $1,000.
101	Failure to report consular fees paid	Master; $50.
152	Improper berths for steerage passengers	Master; $5 each passenger.
153	Improper lighting, air, etc	Master; $250.
155	Lack of hospital, surgeon, medicine	Master; $250.
156	Failure to keep discipline, cleanliness, etc	Master; $250.
159	Failure to pay passenger death fee	Master or consignee; $50 each passenger.
265	Failure to surrender temporary register or enrollment upon arrival home port.	Master; $100.
267	Failure to deliver license for renewal or surrender	Master; $10.
276	Failure to report change of master, licensed vessel	Master; $10.
277	Failure to exhibit marine document to inspecting officer	Master; $100.
289	Foreign vessel transporting passengers in coastwise trade	Owner; $200 each passenger.
315	Foreign vessel violating coastwise manifesting and permit procedures.	Master; $100.
316 (a)	Foreign vessel engaging in coastwise towing	Owner and master $250–$1,000 each: $50/ton vessel towed.
319	Fishing or trading coastwise without license	Owner; $30 each arrival.
323	Alteration of vessel papers	Violator; $500.
493	Failure to mark steam vessel name on pilot house	Owner; $10 each name omitted.

(7) Forfeitures of merchandise under section 883, title 46, United States Code, illegally transported coastwise, when the merchandise subject to forfeiture is valued at not more than $2,000, or without regard to value if the violation occurred as the direct result of an arrival of the transporting vessel in distress.

(8) Penalties and forfeitures, aggregating under $20,000 in any one case and incurred under section 460, Tariff Act of 1930, as amended, for failure to report as required by section 459, Tariff Act of 1930, as amended, in the following cases:

(i) Violations due to ignorance of the reporting requirements or to inadvertence and either no merchandise, or only typical personal or souvenir merchandise which would have been free of duty, if entered, is carried in the vessel or vehicle, or

(ii) Where the violation is the first offense, although not due to ignorance or inadvertence, and no intended commercial use or threat to the revenue is involved, or

(iii) Pedestrians carrying merchandise of nominal value and no intended commercial use is involved.

3. Section 23.25 (d) is amended to read as follows:

(d) If the interested party is not satisfied with the collector's decision, he may file a supplemental petition with the collector to be forwarded to the Bureau for reconsideration of the case. A statement to that effect shall be contained in each notification to an interested party of the collector's action on any petition for relief.

(Sec. 618, 46 Stat. 757, sec. 1, 40 Stat. 223, as amended; 19 U. S. C. 1618, 22 U. S. C. 401, 26 U. S. C. 3726)

(R. S. 161, 251, sec. 624, 46 Stat. 759; 5 U. S. C. 22, 19 U. S. C. 66, 1624)

RALPH KELLY,
Commissioner of Customs.

Approved: December 5, 1955.

DAVID W. KENDALL,
Acting Secretary of the Treasury.

[F. R. Doc. 55-9979; Filed, Dec. 12, 1955; 8:48 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter V—Department of the Army

Subchapter B—Claims and Accounts

PART 533—GRATUITY UPON DEATH

MISCELLANEOUS AMENDMENTS

Subparagraph (6) is added to § 533.1 (b); paragraph (a) of § 533.4 is revised; and paragraph (f) is added to § 533.12, as follows:

§ 533.1 *General.* • • •

(b) *Statutory authority.* • • •

(6) Section 5, act April 3, 1939 (53 Stat. 557), as amended by act July 25, 1939 (53 Stat. 1079), and act December 10, 1941 (55 Stat. 796).

• • • • • •

§ 533.4 *Six months' gratuity payable to beneficiaries of other than Regular Army members.* • • •

(a) All officers, warrant officers, and enlisted members of the Army of the United States (other than the officers and enlisted members of the Regular Army) who:

(1) If called or ordered into the active military service by the Federal Government for extended military service in excess of 30 days, suffer death in line of duty from disease while so engaged; or

(2) If called or ordered by the Federal Government to active military service or to perform active duty for training or inactive duty training for any period of time suffer death in line of duty from injury while so engaged.

• • • • • •

§ 533.12 *Special determinations.* • • •

(f) *Death occurred not in line of duty but not result of member's own misconduct.* The provisions of section 5, act April 3, 1939 (53 Stat. 557), as amended, extend to designated beneficiaries of all officers and enlisted members of the Army of the United States on active duty (except officers and enlisted members of the Regular Army), the right to receive the 6 months' death gratuity benefits the same as applicable to beneficiaries of members of the Regular Army, provided by the act of December 17, 1919 (41 Stat. 367), as amended, when death of such members occurs in line of duty. The gratuity thus authorized may be paid without regard to whether death occurred in line of duty if there be met the condition of the act of December 17, 1919, that death shall not have occurred as the result of the member's own misconduct. See 22 Comp. Gen. 37.

Chapter XI—National Guard and State Guard, Department of the Army

PART 1101—NATIONAL GUARD REGULATIONS

ENLISTED MEN

Sections 1101.14, 1101.15, and 1101.16 are revised and § 1101.17 is revoked, as follows:

§ 1101.14 *Qualifications for enlistment or reenlistment*—(a) *Applicability.* Within the regulations of §§ 1101.14 to 1101.16 the term "National Guard" shall be construed as applying to the federally recognized National Guard of any State, Territory, Commonwealth of Puerto Rico, or the District of Columbia, and the standards of enlistment set forth shall be the qualifications required of enlisted personnel of units inspected for Federal recognition.

(b) *Citizenship.* Applicants who are otherwise qualified may be enlisted if they are:

(1) Citizens of the United States.

(2) Aliens who can present written evidence that they have made legal declaration of their intention to become citizens of the United States. Only those declarant citizens who can present the duplicate or triplicate copy of declaration of intention (United States Department of Justice; Immigration and Naturalization Service Form N-315, duly authenticated by a Federal district court, are eligible for enlistment in the National Guard. Title 18, U. S. C., section 1426 (h), prohibits the reproduction of a declaration of intention to become a citizen, or certificate of naturalization. Under no circumstances will these forms be reproduced.

(c) *Age requirements.* The age requirements for enlistment or reenlistment are:

(1) 18 through 35 years, except as provided in this paragraph.

(i) Any applicant may be accepted for enlistment who is 17 years of age but who has not reached his 18th birthday provided he furnishes written consent of his parents or guardian on DD Form 373 (Consent, Declaration of Parent or Legal Guardian), before enlistment is effected. If the applicant has neither parents nor guardian, a statement to that effect will be typed on the enlistment record, in space reserved for remarks, by the enlisting officer. This entry will be read to the applicant and initialed by him.

(ii) DD Form 373:

(a) Will be signed by both parents or guardian and witnessed by a commissioned, warrant, or noncommissioned officer of the National Guard or a Notary Public However, the consent of one parent may be accepted if the other parent has been or is to be absent for an extended period of time. In case of such absence the one parent signing the consent agreement will also add in his or her own handwriting in the space provided for the signature of the other parent: "Not available for signature."

(b) Will not be accepted if either parent objects.

(c) Need not be verified unless required by State military authorities.

(iii) DD Form 373 will be prepared and signed in quadruplicate. A copy will be fastened to the original and each copy of the enlistment record.

(2) The maximum age limit of 35 years applies only to persons without prior service. A person who is otherwise qualified and meets the criteria shown below may be enlisted or re-enlisted in the National Guard: *Provided*, That no term of enlistment will extend beyond his sixtieth birthday: *And provided further*, That he has had total active service in the federally recognized National Guard since June 15, 1933, the Regular Army, Army of the United States, United States Air Force, United States Navy, United States Marine Corps, or any reserve component thereof, equal to or exceeding that shown in the following table:

Age:	*Prior service required*
36 and 38	1 year.
38 under 41	2 years.
41 and over	2 years plus the number of years applicant is over age of 40.

(3) Applicants who have been awarded decorations of the Silver Star, or higher, will be accepted for enlistment or reenlistment without regard to age limitations provided that no term of enlistment will extend beyond his 60th birthday

(4) Applicants who have reached their 36th and have not reached their 45th birthday at time of application for enlistment may be accepted for original enlistment and service in nondivisional AAA units of the National Guard. Such individuals are limited in assignment to such units and for service only within the continental United States. Under "Remarks" section of the enlistment record, qualification record, and service record the following entry will be made:

By policy of the Department of the Army, individual will not be employed in the service of the United States outside the continental United States without his consent.

(5) Applicants who have reached their 45th and have not reached their 55th birthday at time of application for enlistment or reenlistment may be accepted for service in nondivisional AAA units provided they have served at least 1 year in an Armed Force of the United States, or a reserve component thereof. The same limitation of assignment contained in subparagraph (4) of this paragraph, is applicable and the same entry will be made on the enlistment record, qualification record, and service record.

(6) Applicants possessing technical skills needed by the National Guard who have reached their 36th and have not reached their 45th birthday, may, when specifically authorized by the Adjutant General of the State, Territory, Commonwealth of Puerto Rico, or the District of Columbia, be accepted for enlistment and service in State Headquarters and Headquarters Detachments. A person in this category will not be transferred to another unit unless he fulfills the age criteria for enlistment therein and is qualified for general military service.

(d) *United States civilian officials and employees.* (1) The following will be enlisted or reenlisted only upon written request signed by the applicant prior to enlistment in which he specifically states that he desires to waive his exemption from "militia" duty.

(i) Officers, judical and executive, of the Government of United States and of the several States;

(ii) Customhouse clerks;

(iii) Persons employed by the United States in the transmission of the mails;

(iv) Artificers and workmen employed in Government armories, Arsenals, and Navy Yards;

(v) Pilots and mariners actually employed in the sea service of any citizen or merchant within the United States.

(2) A civilian official or employee of the United States or of the District of Columbia, including postal employees, and artificers or workmen employed in Government armories, Arsenals, or Navy Yards, will not be enlisted or reenlisted in the National Guard without the written consent of the local head of the Department or service in which he is employed. Such consent will be obtained prior to enlistment or reenlistment.

(e) *Dependency and hardship.* (1) A person who was previously discharged from one of the Armed Forces of the United States for hardship or dependency may not be accepted for enlistment (or reenlistment) unless it has been determined by investigation, conducted by the enlisting officer, that the reasons for which discharged no longer exist. An affidavit giving reasons for discharge, how they have been overcome, and that he will be available and not request discharge on account of dependency or hardship in the event of an emergency, will be obtained from the applicant.

(2) Any other person with four or more dependents may not be accepted for enlistment (or reenlistment) unless it has been determined by investigation that applicant will be available and will not request discharge on account of dependency or hardship in the event of an emergency and an affidavit to this effect is obtained from the applicant.

(3) Affidavits mentioned in subparagraphs (1) and (2) of this paragraph, will be obtained prior to administering the oath and a copy thereof will be securely attached to each copy of the enlistment record.

(f) *Waiver of benefits.* (1) As used herein the term "benefits" pertains to a pension, retirement pay, disability allowance, disability compensation or retired pay from the Government of the United States by virtue of prior military service.

(2) Applicants for enlistment who are entitled to the above benefits, except those retired for physical disability, age, and enlisted men retired under the provisions of Public Law 190, 79th Congress (59 Stat. 538) are eligible for enlistment and reenlistment in the National Guard provided:

(i) They are otherwise qualified in all respects.

(ii) They waive, for the remainder of the current fiscal year and upon commencement of each fiscal year thereafter, either that portion of their benefits for the days for which they receive Federal pay for services as members of the Federally recognized National Guard, or their National Guard pay and allowances.

(3) The above waiver of dual payment will be prepared in duplicate by the applicant and addressed to the appropriate office having jurisdiction over his claim, e. g., Veterans Administration or Retired Pay Branch, Finance Center, United States Army, Indianapolis, Indiana. (If National Guard training pay is waived, the form will be modified accordingly, prepared in original only, filed in the individual's personnel records jacket, and the remark "Waived National Guard training duty pay" entered on each payroll on which the individual is shown.)

(g) *Residence.* An applicant for enlistment will not be accepted unless he lives within such distance of the home station of the unit in which he desires to enlist that he can properly perform his military duties.

(h) *Physical qualification*—(1) *General.* All applicants for enlistment will appear before an authorized medical examiner for physical examination in accordance with the standards prescribed for the National Guard. Final determination of physical eligibility of all applicants will be subject to review by the Chief, National Guard Bureau.

(2) *Report of physical examination.* The medical examiner will check for any history of previous rejection or discharge for physical reasons, and will note in "Remarks" whether or not the physical disability still exists or has been corrected. If the applicant is acceptable for enlistment from a physical standpoint, such fact will be indicated in item 77 of Standard Form 88 (Report of Medical Examination).

(i) *General examination of applicants*—(1) *General.* An officer of the National Guard will examine each applicant for enlistment, asking the questions contained on the enlistment record to determine whether the applicant fills the requirements for enlistment. If any statement of the applicant indicates a cause for rejection, the officer will inform the applicant that he is not eligible for enlistment, or if appropriate, not acceptable unless waiver is secured, and make notation accordingly on the enlistment record.

(2) *Evidence of character.* The enlisting officer to whom appliction is made for enlistment in the National Guard will require any evidence of good character as may be desirable. If the applicant has prior service an instrument of discharge (DD Form 214 (Report of Separation) or other similar document) will be presented to the enlisting officer for verification after which it will be returned to the applicant.

(j) *Loyalty certificates.* (1) Each applicant for enlistment or reenlistment in the National Guard will accomplish a DD Form 98 (Loyalty Certificate for Personnel of the Armed Forces) and, where applicable, DD Form 398 (Statement of Personnel History), prior to enlistment or reenlistment.

(2) Each applicant is subject to the provisions of paragraph 14, AR 604–10 (pertaining to personnel security clearance), and in addition to accomplishing the DD Form 98, is required to accomplish and initial the following certificate in item 38 of DD Form 4 (Enlistment Record):

I have read or had explained to me paragraph 13, AR 604–10 as sets forth the criteria (reasons) for discharge and types of discharge, and certify that I ( ) have ( ) have never engaged in disloyal or subversive activities as defined therein.

(3) If the applicant for enlistment or reenlistment refuses to sign the DD Form 98, or to initial the loyalty certificate in item 38 of DD Form 4, he will not be accepted. If the applicant is a member of another reserve component, the National Guard Bureau will be notified of his refusal to sign the DD Form 98 so that his reserve component can be informed.

(4) If the applicant for enlistment or reenlistment completes the DD Form 98 with qualifications, or entries are made thereon which provide reasons for belief that his enlistment or reenlistment is not clearly consistent with National Guard security, the following will apply:

(i) The enlistment or reenlistment will be held in abeyance pending specific approval of the Chief, National Guard Bureau.

(ii) DD Form 98 together with DD Form 398 (in triplicate) will be forwarded to the Chief of National Guard Bureau.

(k) *Classes ineligible unless waiver is authorized by the Chief, National Guard Bureau.* The following classes of applicants are ineligible for enlistment or reenlistment unless waiver is authorized by the Chief, National Guard Bureau, pursuant to paragraph (m) of this section.

(1) A person who has been discharged from active Federal service, whose total time lost under 41 Stat. 809, as amended by section 6 (a), 64 Stat. 145, was 60 days or more during his last period of enlistment or period of active duty.

(2) Applicants for initial enlistment who have been tried, convicted, or imprisoned under sentence of a civil court for other than a felony, and those who have a record of an adverse adjudication by a juvenile court. (Applicants with record of minor offenses including minor traffic violation, single cases of drunkenness, vagrancy, truancy, peace disturbance, etc., for which no type of civil restraint exists, may be enlisted without waiver.

(3) Applicants for reenlistment in the National Guard who are discharged and apply for reenlistment without a break in National Guard service, who are on parole, probation or suspended sentence by reason of conviction for a misdemeanor by a civil court or adverse adjudication by a juvenile court.

(4) Applicants with prior service in any of the Armed Forces who fail to meet the prescribed physical standards, and those applicants last separated by reason of physical disability (even though they currently meet the prescribed physical standards). This includes personnel whose report of separation contains the following notation: "SR 600–450–10, for the convenience of the Government—Disability existing prior to active service and not aggravated by military service," or "Medical disqualification EPTS, SR 600–450–10."

(5) Applicants classified IV-F by Selective Service.

(6) Applicants last discharged by reason of any of the following regulations or conditions:

(i) Applicants last discharge from the Army under AR 615–364 (dishonorable and bad conduct), AR 615–366, (misconduct), AR 615–368 (unfitness), or AR 635–209 (inaptitude or unsuitability), and applicants last discharged by similar authority from the other services.

(ii) Applicants whose DD Form 214 (Report of Separation from the Armed Forces of the United States) or similar document includes the following: "EM does not meet prescribed requirements for retention;" "Adjudged a Youthful offender" or AFR 39–14, and ltr AFPMP–4h, 20 March 1950, subject: Discharge of Physically Disqualified Airmen for Convenience of the Government."

(iii) Applicants whose DD Form 214 or similar document includes the following statement under item 38: "Par. 11, SR 615–105–1, applies," or "Par. 9, AR 615–120 applies."

(iv) Former commissioned officers or warrant officer last separated from any of the Armed Forces, whether as a direct result of trial by courts-martial, reclassification, or elimination proceedings or by resignation in lieu thereof, and former officers and warrant officers last separated under SR 605–200 (demotion and elimination).

(l) *Classes ineligible; waivers not authorized.* The following classes of applicants are ineligible for enlistment or reenlistment and no waivers will be authorized:

(1) Persons convicted of felonies, persons who have felonious charges filed and pending against them; and persons on parole, probation or suspended sentence of any civil court for any offense, except as indicated in paragraph (k) (3) of this section.

(2) Persons who are intoxicated, insane, not of good character and temperate habits, or who have a record of emotional instability.

(3) Persons who claim prior honorable service but who are unable to produce written evidence of such service (DD Form 214 or similar document) will not be enlisted until official verification of service is received.

(4) Persons whose last report of separation shows that severance pay was received.

(5) Persons who do not speak, read and write English, except where the language used is predominantly other than English.

(6) Deserters from any of the Armed Forces of the United States.

(7) An alien who has not filed his legal declaration to become a citizen of the United States. (See paragraph (b) (2) of this section.)

(8) Applicants under 17 and those who have passed the 36th anniversary of their birth, except as authorized in paragraph (c) of this section.

(9) Persons who draw a disability pension, disability allowance, or disability compensation from the Government of the United States unless waived pursuant to paragraph (f) of this section.

(10) Persons who draw retirement pay from the Government of the United States where retirement has been made on account of physical disability or age.

(11) A person who is a member of the Regular Army, Navy, Air Force, United States Marine Corps, United States Coast Guard, Coast and Geodetic Survey.

(12) A person who is a member of any reserve component of the Armed Forces other than enlisted members of the Army Reserve unless conditional release from such membership from the appropriate discharge authority is presented.

(13) Persons who are bonafide members of the Navy ROTC or the Advanced Air Force ROTC.

(14) Applicants who admit participation or whose available records show that they have at any time engaged in disloyal or subversive activities, applicants who refuse to sign the Loyalty Certificate for Personnel of the Armed Forces (DD Form 98), and applicants who sign the certificate and claim Federal constitutional privileges under the Fifth Amendment or Article 31, Uniform Code of Military Justice, except when authorized under the provisions of paragraph (j) of this section.

(15) A person who is a conscientious objector. If an individual has been a conscientious objector, he will be required to furnish an affidavit which will express his abandonment of such beliefs and principles so far as they pertain to his willingness to bear arms and to give full and unqualified military service to the United States; and where appropriate, he must have demonstrated that he has changed his views by subsequent military service. An affidavit will be prepared in quadruplicate and copy attached to each copy of the enlistment record.

(16) Cadets, United States Military Academy; Midshipmen, United States Naval Academy, Cadets, United States Coast Guard Academy, Aviation Cadets, United States Air Force, and Cadets, United States Air Force Academy.

(17) Selective Service registrants who have received orders from their local board to report for preinduction physical and mental examination, or to report for induction, unless the order has been cancelled and release is obtained from the local Selective Service Board.

(18) Retired enlisted persons who are members of other reserve components of the Armed Forces.

(19) Applicants separated from their last period of active service in any of the Armed Forces under any of the regulations and/or conditions prescribed in AR 615–120 (Qualifications for enlistment or reenlistment in Regular Army).

(m) *Waivers.* (1) Recommendations for waiver will be submitted by the unit commander, through normal channels, on applicants who fail to meet qualifications for enlistment under paragraph (k) of this section. Recommendation will contain the following data:

(i) One copy of the Enlistment Record completed except for oath and signature; one copy of Standard Form 88 (Report of Medical Examination); and one copy of Standard Form 89 (Report of Medical History).

(ii) Verified statement of all prior service to include dates of service, grades held, position or Military Occupational Specialty, and branch in which duty was performed.

(iii) A statement outlining proposed use of the applicant, TOE position vacancy, and the Military Occupational Specialty applicable.

(iv) Unit designation for which duty assignment is contemplated.

(v) Recommendation of commanding officer of each forwarding headquarters.

(2) Recommendations for waiver of disqualifications in either paragraph (k) (2) or (3) of this section, in addition to the above, must contain the following:

(i) Statement from civil authorities as to the offense committed with results of adjudication; to include nature of restraint with dates.

(ii) Statements from a minimum of three reliable citizens who have known the applicant for at least a year as to his character, habits, reputation, and employment.

In the event that civil authorities decline to furnish information pertaining to juvenile or youthful offender records, the burden of obtaining it is upon the applicant.

§ 1101.15 *Enlistments*—(a) *Grades.* (1) Applicants without prior service will be enlisted in grade of Pvt–E–1.

(2) Persons with prior service, of the type and in the amount prescribed below, may be enlisted in a higher grade, provided TOE vacancy exists, as follows:

(i) Persons who have 4 months or more creditable service for pay purposes and who do not meet the requirements for enlistment in a higher grade, may be enlisted in grade of Pvt–E–2.

(ii) Persons may be enlisted in a grade (NCO, Specialist, or Private 1st Class) equivalent to the grade held in the Army of the United States, United States Air Force, United States Marine Corps, or a reserve component thereof, at the time of last release or discharge.

(iii) Persons who entered the active military service of the United States with the National Guard on or subsequent to 16 September 1940 and who reenlist therein subsequent to release or discharge from such service, may be reenlisted in a grade (NCO, Specialist, or Private 1st Class) equivalent to their former National Guard grade.

(iv) Persons may be reenlisted in the National Guard in a grade (NCO, Specialist, or Private 1st Class) equivalent to the grade held at time of last discharge from the National Guard.

(b) *Periods of enlistment.* (1) Applicants without prior service in the National Guard will be enlisted for a period of 3 years.

(2) Applicants with prior service in the National Guard will be enlisted for a period of either 1 or 3 years.

(c) *Enlistment and administration of oath*—(1) *General.* If an applicant has successfully passed the screening required or received an approved waiver of any disqualification, an officer will read to him the oath of enlistment and explain to him the term of service, the responsibilities he assumes, the service obligation he acquires, if applicable, the possible active duty service and the pay and allowances to which he will be entitled. The officer will then complete the enlistment by administering the above mentioned oath and requiring the enlisted person to sign all copies of the enlistment record. The officer will then sign the certificate of enlistment on all copies of the enlistment record.

(2) *Who may administer the oath.* Any commissioned officer of the National Guard so authorized by the laws of the State may administer the oath. Oaths of enlistment may not be administered by warrant officers. Federal inspectors also may administer oaths under the provisions of National Guard Regulations.

§ 1101.16 *Date of enlistment and recognition.* (a) The date on which the oath is administered is the date of enlistment. Retroactive enlistments are not authorized.

(b) If enlisted person has already qualified by taking the required oath as a member of a National Guard unit not yet Federally recognized, his own recognition becomes effective on the date his unit is recognized.

(c) If a person enlists in a Federally recognized unit of the National Guard, the date on which he takes and subscribes to the oath of enlistment is the date of his recognition.

(d) Regardless of whether or not the unit for which a person is enlisted is Federally recognized, the period of enlistment commences on the date of taking and subscribing to the oath of enlistment, and ends 1 year or 3 years later unless sooner terminated or extended.

§ 1101.17 *Recognition of enlisted personnel.* [Revoked.]

[NGR 25–1, 16 September 1955] (Sec. 118, 39 Stat. 213; 32 U. S. C. 17)

[SEAL] JOHN A. KLEIN,
Major General, U. S. Army,
The Adjutant General.

[F. R. Doc. 55–9970; Filed, Dec. 12, 1955; 8:46 a. m.]

TITLE 43—PUBLIC LANDS: INTERIOR

Chapter I—Bureau of Land Management, Department of the Interior

[Circular 1946]

PART 202—RIGHTS-OF-WAY FOR PIPE LINES ON THE OUTER CONTINENTAL SHELF

A new part 202 is added, reading as follows:

Sec.
202.1 Purpose and authority.
202.2 Definitions.
202.3 Application.
202.4 Persons qualified to acquire and hold rights-of-way.
202.5 Consent of or notice to lessee of leased area crossed by right-of-way.
202.6 Terms and conditions.
202.7 Approval of right-of-way.
202.8 Terms of grant.
202.9 Proof of construction.
202.10 Assignment of right-of-way.
202.11 Advance permission to commence construction.
202.12 Penalty for failure to comply with the act, regulations, or any conditions imposed under either.
202.13 Appeals.

AUTHORITY: §§ 202.1 to 202.13 issued under sec. 5, 67 Stat. 464; 43 U. S. C. 1334.

§ 202.1 *Purpose and authority.* Section 5 (c) of the Outer Continental Shelf Lands Act of August 7, 1953 (67 Stat. 464), authorizes the Secretary of the Interior to grant rights-of-way for pipeline purposes for the transportation of oil and gas. The purpose of the regulations in this part is to set forth the rules governing the granting and administration of such rights-of-way. The inclusion of this part in this title shall not be construed as an interpretation that the laws and regulations pertaining to public lands or to rights-of-way thereon are applicable to the submerged lands of the outer Continental Shelf.[1]

§ 202.2 *Definitions.* (a) "Secretary" means Secretary of the Interior.

(b) "Director" means Director, Bureau of Land Management.

(c) "Manager" means the officer in charge of the local office of the Bureau of Land Management.

(d) "Right-of-way" includes the site on which the pipe line and associated structures are situated which shall not exceed 200 feet in width for pipe lines and be limited to the area reasonably necessary for pumping stations or other accessory structures. It does not include gathering lines and associated structures constructed for the purpose of conveying production for gathering, storage, or treating of the production from a lease or leases.[2]

[1] Compliance with the regulations of this part does not obviate the necessity of compliance with requirements and regulations of the Department of the Army and the Coast Guard with respect to prevention of obstruction to navigation, lights, and warning devices, and other matters relating to safety of life and property, as authorized by section 4 of the act.

[2] The construction of gathering lines may be approved by the Oil and Gas Supervisor in accordance with the provisions of 30 CFR 250.18 and 250.68.

§ 202.3 *Application.*—(a) *Form and requirements.* No special form of application is required. The application should be filed in duplicate and should be in typewritten form or legible handwriting. It must specify that it is made pursuant to the act and these regulations and that applicant agrees that the right-of-way if approved will be subject to the terms and conditions of the regulations in this part. It should also state the primary purpose for which the right-of-way is to be used. The application must be filed in duplicate at the office of the Manager. If the right-of-way has been utilized prior to the time the application is made, the application must state the date such utilization commenced and by whom, and the date applicant obtained control of the improvements. A filing fee of $10 and the rental required herein under § 202.6 (e) must accompany the application.

(b) *Map showing survey.* Each copy of the application must be accompanied by a map, showing the center line of the right-of-way, properly identified so that the right-of-way may be accurately located by a competent engineer. The map should comply with the following requirements:

(1) The scale shall be at least 1:160,000.

(2) Courses and distances of the center line of the right-of-way shall be given either on the margin of the map or on an attached sheet or sheets with the courses referred to the true or grid meridian, either by deflection from a line of known bearing or by independent observation and calculated distances in feet and decimals.

(3) The total distance and width of the right-of-way shall be given, and the diameter of the pipe line specified.

(4) The initial and terminal points of the right-of-way shall be accurately located by latitude and longitude or by grid references.

(5) Each copy of the map shall bear upon its face a statement of the engineer who made the map that the right-of-way is accurately represented upon the map.

§ 202.4 *Persons qualified to acquire and hold rights-of-way.* (a) Applications may be filed by citizens of the United States, associations of such citizens, and by corporations organized under the laws of the United States or of any State or Territory thereof.

(b) An individual and each member of an association applying for a right-of-way must state in the application whether he is a native-born or naturalized citizen of the United States.

(c) (1) A private corporation must file a certified copy of its charter or articles of incorporation.

(2) A corporation other than a private one must file a copy of the law under which it was organized and proof of its organization.

(3) A copy of the resolution or by-laws of the corporation authorizing the filing of the application or a certificate of the Secretary or an assistant Secretary of the Corporation under the corporate seal certifying that the officer executing the application has authority to do so, must be filed. If the application is filed by an attorney-in-fact a certified copy of the resolution of the Board of Directors authorizing his appointment and an executed copy of the power of attorney must be filed.

(4) If the corporation has previously filed any or all of the papers required in subparagraphs (1), (2), and (3), of this paragraph, specific reference to such filing giving date, place, and case number will be accepted as full compliance with such requirements.

§ 202.5 *Consent of or notice to lessee of leased area crossed by right-of-way.* An applicant must show the extent to which the right-of-way applied for invades or crosses mineral leases or rights-of-way other than his own and must submit with his application either the written consent of each lessee or right-of-way holder whose lease or right-of-way is so affected or a statement that he has delivered to each lessee whose lease is so affected personally or by registered or certified mail a copy of the application and map. If the statement is filed no final action will be taken on the right-of-way application until 15 days have elapsed after the last date of service of such papers, in order to afford the parties concerned ample opportunity to file protests against the granting of the right-of-way.

§ 202.6 *Terms and conditions.* An applicant, by accepting a right-of-way grant, agrees and consents to comply with and be bound by the following terms and conditions, excepting those which the Secretary may waive in a particular case:

(a) To comply with all existing regulations and with all existing and future regulations which the Secretary determines to be necessary and proper in order to provide for the prevention of waste and conservation of the natural resources of the outer Continental Shelf, and the protection of correlative rights therein.

(b) To pay the United States, or its lessee, as the case may be, the full value for all damages to the property of the United States or its said lessee, and to indemnify the United States against any and all liability for damages to life, person, or property arising from the occupation and use of the area covered by the right-of-way.

(c) To keep the Director informed at all times of his address, and, if a corporation, of the address of its principal place of business and the name and address of the officer or agent authorized to receive service of notice. That in the construction, operation, and maintenance of the project, he shall not discriminate against any employee or applicant for employment because of race, creed, color, or national origin and shall require an identical provision in all subcontracts.

(d) That the allowance of the right-of-way shall be subject to the express condition that the rights granted will not prevent or interfere in any way with the management, administration of, or the granting either prior or subsequent to the right-of-way grant of other rights by the United States in, the submerged lands affected thereby, and that he agrees and consents to the occupancy and use by the United States or its lessees of any part of the right-of-way not actually occupied or necessarily incident to its use for any necessary operations involved in such management, administration or the enjoyment of such other granted rights. Subject to the consent of the applicant, the Manager may approve the use of the right-of-way for other pipe lines for oil or for gas.

(e) To pay for the first calendar year or fraction thereof, and thereafter annually in advance an annual rental of $5 for each mile or fraction thereof traversed by the right-of-way and $50 for each area applied for as the site for a pumping station or other accessory to the right-of-way. Payments required herein may be annual, for a 5-year period or for multiples of such period.

(f) That upon revocation or termination of the right-of-way, unless the requirement is waived in writing by the Manager, he shall, so far as reasonably possible, restore the area of the right-of-way to its original condition.

§ 202.7 *Approval of right-of-way.* If the application and other required information are found to be in compliance with the law and regulations and the consents required by § 202.5 have been obtained or any protests filed as therein provided have been rejected, the right-of-way will be granted. If the right-of-way as applied for would cross any area withdrawn from disposal or restricted from exploration and operation it will be rejected unless the Federal agency in charge of withdrawn or restricted area shall give its consent to the granting of the right-of-way, but in such case the applicant upon request filed within 30 days after receipt of the rejection notice will be allowed an opportunity to file an amended application rerouting the proposed right-of-way so as to eliminate the conflict.

§ 202.8 *Term of grant.* Any right-of-way granted hereunder shall be for so long as the pipe line is maintained and used for the purpose for which the grant was made, unless otherwise expressly stated in the grant. Cessation of use temporarily shall not terminate the grant, but if the purpose of the grant ceases to exist or use of the pipe line is permanently discontinued for any reason the grant shall be subject to forfeiture.

§ 202.9 *Proof of construction.* Failure to construct the pipe line within 5 years from the date of the grant shall be deemed to be an abandonment of the grant which will be forfeited by an appropriate proceeding. Proof of construction shall be submitted to the Manager. Such proof shall consist of a statement by the holder of the right-of-way that the pipe line has been laid and is in operation. If there is any deviation from the right-of-way as shown on the original map, the unused portion of the grant must be relinquished and maps in duplicate of the location of the right-of-way as constructed, prepared in accordance with § 202.3 must be furnished as soon as possible after the deviation is determined to be necessary or advisable. Any deviation made prior to approval of such supplemental plat will be at the risk of the right-of-way holder.

§ 202.10 *Assignment of right-of-way.* Assignment may be made of a right-of-way in whole or as to any lineal segment thereof after construction subject to the approval of the Manager. Any such assignment must be filed in duplicate accompanied by an application for approval in which the assignee must make the showing required by § 202.4 and agree to the terms and conditions prescribed in § 202.6. No assignment shall be effective to transfer any rights until it is approved. A fee of $10 must accompany the application for the approval of an assignment.

§ 202.11 *Advance permission to commence construction.* Upon a satisfactory showing of the need therefor, the Director may grant permission to commence construction of a pipe line in advance of any grant of the right-of-way but such permission is not a commitment that the right-of-way will be approved and all work done thereunder prior to the granting of the right-of-way will be at the applicant's risk. No advance permission will be granted for an area or areas not subject to a right-of-way grant.

§ 202.12 *Penalty for failure to comply with the act, regulations, or any conditions imposed under either.* As provided in the act, failure to comply with the act, regulations or any conditions prescribed by the Secretary as to the application therefor and the survey, location and width thereof and upon the express condition that such oil or gas pipe lines shall transport or purchase without discrimination, oil or natural gas produced from said submerged lands in the vicinity of the pipe line in such proportionate amounts as the Federal Power Commission, in the case of gas, and the Interstate Commerce Commission, in the case of oil, may, after a full hearing with due notice thereof to the interested parties, determine to be reasonable, taking into account, among other things, conservation and the prevention of waste, be grounds for forfeiture of the grant in an appropriate, judicial proceeding instituted by the United States in any United States District Court having jurisdiction under the provisions of section 4 (b) of the act. Upon relinquishment of any right-of-way or forfeiture of the grant, the right-of-way owner will be required to remove his improvements within one year from the effective date of such relinquishment or forfeiture unless otherwise provided by law or in the decree of forfeiture.

§ 202.13 *Appeals.* Any person aggrieved by any action taken by the Manager, under this part has the right of appeal to the Secretary in accordance with the provisions and limitations provided in §§ 221.73 to 221.76 of this chapter. Nothing contained in this part shall be construed to prevent any interested party from seeking judicial review as authorized by law.

DOUGLAS MCKAY,
Secretary of the Interior.

DECEMBER 7, 1955.

[F. R. Doc. 55-9976; Filed, Dec. 12, 1955; 8:47 a. m.]

TITLE 45—PUBLIC WELFARE

Subtitle A—Department of Health, Education, and Welfare, General Administration

PART 13—ALLOCATION AND UTILIZATION OF SURPLUS PERSONAL PROPERTY FOR EDUCATIONAL PURPOSES AND PUBLIC HEALTH PURPOSES

Part 13 of Title 45 CFR is hereby amended to read as follows:

Sec.
13.1 Definitions.
13.2 Basic policy.
13.3 Geographic scope.
13.4 Allocation of donable property.
13.5 Donations of personal property.
13.6 Terms and conditions of donations, transfers, or retransfers.

AUTHORITY: §§ 13.1 to 13.6 issued under sec. 203, 63 Stat. 385, as amended; 69 Stat. 83; 40 U. S. C. 484.

§ 13.1 *Definitions.* (a) "Act" means the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress (63 Stat. 377), as amended (40 U. S. C. 471 et seq.). Terms defined in the Act and not defined in this section, shall have in this part the meaning given to them in the act.

(b) "Accredited" means approval by a recognized accreditation board or association on a Regional, State, or National level such as a State Board of Education or Health, State University, National Association of Universities and Colleges, American Hospital Association, etc. A college may be said to be accredited if its credits are accepted for transfer purposes by other colleges or universities not connected or associated with it.

(c) "Approved" means the recognition or approval by the State Department of Education, State Department of Health, or other appropriate authority in charge of educational or health activities in the State.

(d) "Clinic" means an approved facility organized and operated for the primary purpose of providing out-patient health services and includes the customary related facilities such as laboratories, treatment rooms, etc.

(e) "College" means an approved or accredited institution of higher learning offering organized study courses and credits leading to the baccalaureate or higher degrees.

(f) "Department" means the Department of Health, Education, and Welfare.

(g) "Donable property" means surplus equipment, materials, books, or other supplies under the control of any executive agency (including surplus property in working capital funds established pursuant to section 405 of the National Se-

curity Act of 1947, as amended, or in similar management-type funds) except:

(1) Such property as may be specified from time to time by the Administrator of General Services Administration;

(2) Surplus agricultural commodities, food, and cotton or woolen goods determined from time to time by the Secretary of Agriculture to be commodities requiring special handling in order to assist him in carrying out his responsibilities with respect to price support or stabilization;

(3) Property in the custody of an agency or an organizational unit thereof which is subject to the Government Corporation Control Act (59 Stat. 597; 31 U. S. C. 841);

(4) Property in trust funds.

(h) "Donated property" means equipment, materials, books and other personal property transferred to eligible institutions pursuant to the provisions of section 203 (j) of the act and implementing regulations.

(i) "Donee" means an eligible applicant who is a recipient of donable property.

(j) "Educational institution" means an approved or accredited tax-supported or non-profit school system, school, college or university.

(k) "Eligible applicant" means an approved or accredited tax-supported medical institution, hospital, clinic, health center, school, school system, college, university or non-profit medical institution, hospital, clinic, health center, school, college or university.

(l) "Health Center" means an approved facility utilized by a health unit for the provision of public health services, including related facilities such as laboratories and clinics.

(m) "Hospital" means an approved or accredited institution providing health services primarily for in-patient medical or surgical care of the sick or injured and includes related facilities such as laboratories, out-patient departments, training facilities, central service facilities, and staff offices which are an "integral part" of the hospital. The term "hospital" does not include institutions whose primary purpose is the furnishing of domiciliary care.

(n) "Medical institution" means an approved or accredited institution, facility, entity or organization which has for its primary function the provision of medical services, or the promotion of health through the conduct of research, investigations, experiments, training and demonstrations, relating to causes, prevention, and methods of diagnosis and treatment of diseases or injuries; the term includes hospitals, clinics, research and health centers, laboratories, medical, dental, and nursing schools, and similar institutions, but does not include those primarily engaged in domiciliary care.

(o) "Motor vehicles" means any vehicles subject to State licensing for travel on highways.

(p) "Need" means the lack or inadequacy of anything usable and necessary by eligible applicants in the conduct of educational or public health activities.

(q) "Net proceeds" means the revenues realized by authorized disposal of donated personal property less (1) the certified expenses of the donee in initially acquiring the property, and (2) the authorized costs of disposal. The Secretary may under exceptional circumstances authorize additional deductions.

(r) "Non-profit institution" used in connection with a medical institution, hospital, clinic, health center, school, college or university means one which is operated by one or more non-profit corporations or associations, no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual, and which has been held by the Internal Revenue Service to be tax-exempt under either the provisions of section 101 (6) of the 1939 Internal Revenue Code, or section 501 (c) (3) of the 1954 Internal Revenue Code.

(s) "Personal property" means surplus property of any kind or any interest therein, except: Real property, records of the Federal Government and naval vessels of the following categories: Battleships, cruisers, aircraft carriers, destroyers and submarines; and merchant vessels of 1,500 gross tons or more subject to disposal by the U. S. Maritime Commission.

(t) "School" means an approved or accredited organizational entity devoted primarily to approved academic, vocational, or professional study and instruction, which operates primarily for educational purposes on a full-time basis for the minimum school year required for approval by the State Department of Education and employs a full-time staff of qualified instructors.

(u) "Secretary" means the Secretary of Health, Education, and Welfare.

(v) "School system" means a group of approved or accredited tax-supported schools operated under one administrative organization.

(w) "State Agency or official" means that State Department of Health or Education or such other State agency or official designated by State law or executive order to make the certifications concerning and distribution of donable property to eligible applicants within the State as provided for in section 203 (j) (2) of the act.

(x) "State" means a state of the United States, Alaska, Hawaii, District of Columbia, Puerto Rico, or the Virgin Islands.

(y) "Tax-supported Institution" used in connection with a medical institution, hospital, clinic, health center, school, school system, college or university means one which receives a major portion of its financial support from moneys derived from State or local government revenues.

(z) "University" means an approved or accredited institution for instruction and study in the higher branches of learning and which is empowered to confer degrees in special departments or colleges.

§ 13.2 *Basic policy.* It is the policy of the Department to strengthen and encourage the development and expansion of educational and public health programs by the equitable allocation among the States of donable property and the assuring thereafter of its maximum utilization for these purposes.

§ 13.3 *Geographic scope.* This part is applicable to donable personal property located, needed and usable within the continental United States, Alaska, Hawaii, District of Columbia, Puerto Rico, and the Virgin Islands.

§ 13.4 *Allocation of donable property.* Allocations of donable property will be made on the basis of need and usability of the property. The following factors will be taken into consideration in effecting equitable allocation of property:

(a) Population;

(b) States in greatest need for the type of property to be allocated;

(c) Extraordinary health and educational needs occasioned by emergencies such as fire, floods and other disasters;

(d) Location, condition, and transportability of property;

(e) Ability of the eligible applicant or State Agency to meet transportation requirements for accepting the property;

(f) Availability of funds to the eligible applicant or State Agency to accept, pick up and transport the property and in case of a State Agency to warehouse, distribute, care for and handle the property if necessary;

(g) The quantity of property of a given type which has already been received by or is potentially available to an eligible applicant or a State Agency.

§ 13.5 *Donations of personal property.* (a) Donations of personal property are made by or pursuant to delegations from the Administrator of General Services upon certification by the Department and by the appropriate State Agency or official that the property applied for is usable and necessary for educational or public health purposes, including research, and upon a finding that the applicant is eligible to receive such property under the act and regulations issued pursuant thereto.

(b) Donable property will be made available to eligible applicants through the appropriate State Agency or official. Applications for donable property shall be made only on Form HEW 135, "Application for Surplus Property—Federal Property and Administrative Services Act of 1949, as amended." State agencies shall distribute donable property to eligible applicants in accordance with the criteria and provisions established in this part and shall require the authorized representative of each such applicant to sign a currently applicable Form HEW 135 or a warehouse issue sheet or other State Agency document or form containing the equivalent certifications and the same terms and conditions as are set forth in the Form HEW 135.

(c) Retransfers of donable property by donees or State Agencies to other donees or eligible applicants shall be made upon the same terms and conditions as are set forth in § 13.6.

§ 13.6 *Terms and conditions of donations, transfers or retransfers.* (a) All right, title and interest in donable property, except the right to possession, shall remain in the United States until the eligible applicant has executed the application and certifications provided for in § 13.5 (b) and has taken possession of the property. State agencies shall not acquire any title to donable property except where State licensing laws require that title pass in order that State licensing or registration of the property may be effected.

(b) Property acquired by a donee pursuant to this part shall be on an "as is," "where is" basis without warranty of any kind.

(c) Donable property having a single item acquisition cost of $2,500 or more shall be subject to the following additional terms and conditions:

(1) There shall be a period of restriction which will expire after the property has been used for educational or public health purposes for a period of four years, except that the period of restriction will expire on motor vehicles after a period of two years of use for educational or public health purposes.

(2) Such property shall be placed in use for educational purposes or public health purposes, including research, no later than twelve months after acquisition thereof. In the event such property is not placed in use within twelve months of receipt, the donee shall promptly notify the Department in writing through the appropriate State Agency. Title and right to the possession of such property not so placed in use within the above mentioned period shall at the option of the Department revert to the United States of America, and upon demand the donee shall release such property to such person as the Department or its designee shall direct.

(3) Such property acquired by a donee shall be used only for educational purposes or public health purposes, including research, and for no other purpose.

(4) The donee shall not sell, trade, lease, or otherwise dispose of or encumber this property or remove it for use outside the State without prior approval of the Department. Any sale, trade, lease, or other disposal of said property, when such action is authorized by the Department, shall be for the benefit and account of the United States of America and the net proceeds of such sale, lease, or other disposal or encumbrance shall be received and held in trust for the United States of America and shall be paid promptly to the Department.

(5) Donees shall make reports on the use, condition, and location of such property and on other pertinent matters as the Department and/or the State Agency may from time to time require.

(6) In the event the property is sold, traded, leased, or otherwise disposed of or encumbered during the period of restriction without prior approval, the donee, at the option of the Department, shall be liable for the reasonable value of the property at the time of such sale, trade, lease, or other disposal, as determined by the Department, in lieu of being liable for the net proceeds of the disposal, as set forth in subparagraph (4) of this paragraph.

(7) During the period of restriction, property which is not suitable, usable or further needed by the donee for the purposes for which obtained shall be subject to retransfer as authorized or directed by the Department or State Agency; or, if such property is not retransferred it shall be sold upon authorization by the Department for the benefit and account of the Government. Net proceeds from such sales shall be made payable to and remitted to the Department, except in those instances in which the Department determines that the Government's administrative costs in connection with receipt thereof will exceed such net proceeds. At the option of the Department, the donee may abrogate the restrictions set forth in subparagraphs (1) through (7) of this paragraph by payment of an amount as determined by the Department.

(d) No donable property will be transfered until the Secretary has determined that the State Agency or appropriate official has conformed to minimum standards of operation prescribed by the Secretary for the disposal of surplus property.

(e) Donable property received in State Agency warehouses shall be distributed promptly to eligible applicants within the State, or shall be reallocated to another State Agency by the Department. Property not distributed within a twelve month period shall be reported to the Department for redisposal instructions.

(f) State Agencies shall make such reports on the use, condition, and location of donated property and on other pertinent matters as the Department may from time to time require.

(g) So long as title to donable property remains in the United States, State Agencies shall be responsible, as bailees for mutual benefit, for such property from the time the property is released to such State Agencies, or their agents, or to a transportation agency designated by such State Agencies; and that in the event of any loss of or damage to any or all of such property, they shall file such claim and/or institute and prosecute to conclusion such proceedings as may be necessary to recover, for the account of the United States of America, the fair value of such property lost or damaged.

(h) The Secretary may also prescribe such other terms and conditions as are deemed necessary or desirable.

Dated: December 7, 1955.

[SEAL] M. B. FOLSOM,
Secretary.

[F. R. Doc. 55-9975; Filed, Dec. 12, 1955; 8:47 a. m.]

PART 14—MINIMUM STANDARDS OF OPERATION FOR STATE AGENCIES FOR SURPLUS PROPERTY AND APPROPRIATE STATE OFFICIALS

Sec.
14.1 Definitions.
14.2 Basic policy.
14.3 Geographic scope.
14.4 Organization.
14.5 Plan of operation.
14.6 Books and records.
14.7 Service charges and funds.
14.8 Audits.
14.9 Handling of property.
14.10 Assistance to the department.
14.11 Nonconformance.
14.12 Amendments.

AUTHORITY: §§ 14.1 to 14.12 issued under sec. 203, 63 Stat. 385, as amended, 69 Stat. 83; 40 U. S. C. 484.

§ 14.1 *Definitions.* (a) "Act" means the Federal Property and Administrative Services Act of 1949, Public Law 152, 81st Congress (63 Stat. 377), as amended (40 U. S. C. 471 et seq.). Terms defined in the act and not defined in this section shall have in this part the meaning given to them in the act.

(b) "Accredited screener" means a person employed by a State Agency for the purpose of soreening personal property, who has been certified by the Department to visit specified installations, and who has been issued an appropriate identification card.

(c) "Department" means the Department of Health, Education, and Welfare.

(d) "Donable property" means surplus equipment, materials, books or other supplies under the control of any executive agency (including surplus property in working capital funds established pursuant to section 405 of the National Security Act of 1947, as amended, or in similar management-type funds) except:

(1) Such property as may be specified from time to time by the Administrator of General Services Administration;

(2) Surplus agricultural commodities, food, and cotton or woolen goods determined from time to time by the Secretary of Agriculture to be commodities requiring special handling in order to assist him in carrying out his responsibilities with respect to price support or stabilization;

(3) Property in the custody of an agency or an organizational unit thereof which is subject to the Government Corporation Control Act (59 Stat. 597; 31 U. S. C. 841);

(4) Property in trust funds.

(e) "Need" means the lack or inadequacy of anything usable and necessary by eligible applicants in the conduct of educational or public health activities.

(f) "Non-profit institution" used in connection with a medical institution, hospital, clinic, health center, or other health facility, or a school, college, university, or other educational facility, means one which is operated by one or more non-profit corporations or associations, no part of the net earnings of which inures or may lawfully inure to the benefit of any private shareholder or individual, and which has been held by the Internal Revenue Service to be tax-exempt under either the provisions of section 101 (6) of the 1939 Internal Revenue Code or section 501 (c) (3) of the 1954 Internal Revenue Code.

(g) "Overage" means the excess occurring upon the receipt of a larger number of a specific item or a larger number of items than either (1) requested on an "Application for Surplus Property" (Form HEW 135), or (2) listed on a shipping document.

(h) "Screening" means the act of reviewing and inspecting property which is surplus or which is expected to become surplus for the purpose of determining whether or not such property is usable and necessary for health or educational purposes.

(i) "Service charge" means the fee or charge made by a State Agency to the donee when distributing surplus property under section 203 (j) of the act.

(j) "Shortage" means the deficiency occurring upon the receipt of a smaller number of a specific item or a smaller number of items than either (1) requested on an "Application for Surplus Property" (Form HEW 135), or (2) listed on a shipping document.

(k) "State Agency" means that State Department of Health or Education or such other State agency or official designated by State law or executive order to make the certifications concerning donable property and distribution of such property to eligible applicants within the State as provided for in section 203 (j) (2) of the act.

(l) "Tax-supported institution" used in connection with a medical institution, hospital, clinic, health center, school, school system, college or university, means one which receives a major portion of its financial support from moneys derived from State or local government revenues.

§ 1.42 *Basic policy.* It is the policy of the Department to strengthen and promote the improvement of operations of State Agencies so as to achieve maximum efficiency, responsibility and equity in the distribution and utilization of surplus property for health and educational purposes.

§ 14.3 *Geographic scope.* This part is applicable to states within the continental United States, and to the District of Columbia, Alaska, Hawaii, Puerto Rico, and the Virgin Islands.

§ 14.4 *Organization.* (a) Each State Agency shall be administered under the direction and supervision of a chief executive officer who shall be responsible for carrying out all phases of the State's program in accordance with the approved Plan submitted pursuant to § 14.5.

(b) Each State Agency shall maintain a staff adequate to enable it to carry out the program as set forth in its approved Plan of Operation.

§ 14.5 *Plan of operation.* (a) Each State Agency shall, within 90 days after promulgation of this part, submit to the appropriate regional office of the Department two signed copies of its new Plan of Operation which conforms to the provisions of this part. Unless a Plan is approved by the Department within 180 days after the effective date of this part, no further allocations of donable property will be made to such State Agency under section 203 (j) (2) of the act, until a Plan is approved. Notice of the Department's approval or disapproval of the Plan, together with a statement of the respects in which it is deficient, in the event of disapproval, shall be given to the State Agency as promptly as practicable. No subsequent amendments to or modifications of approved Plans shall be placed in effect without prior approval of the Department.

(b) The State Agency Plan of Operation shall be supported by satisfactory evidence establishing its authority to:

(1) Acquire, warehouse, and distribute donable personal property to eligible tax-supported and non-profit institutions under section 203 (j) of the act; and

(2) Execute the certifications and agreements required by section 203 (j) of the act and the Federal Government.

(c) The evidence required by (b) above shall include copies of State Statutes or Executive Orders. Where express statutory authority does not exist or is ambiguous, or where the authority exists by virtue of Executive Order, the State Agency shall furnish the opinion of the States Attorney General as to the existence of such authority.

(d) The State Agency Plan of Operation shall include, in the following order:

(1) The provisions and procedures for attaining fair and equitable distribution of surplus property to eligible health and educational institutions.

(2) Assurance that all warehousing and distributive functions are a direct part of the State Agency's operation and are under the direction and control of its chief executive officer.

(3) A schedule of service charges or an explanation of the method used in determining service charges, if such charges are made.

(4) Procedures for:

(i) Ascertaining the eligibility of an applicant and the authority of its representative to receive property on its behalf.

(ii) Determining the actual need and usability of donable property.

(iii) Screening surplus property at Federal installations by accredited screeners, when this function is contemplated.

(iv) Spot check inspections to determine that property donated is actually put to use in accordance with the donee's certification.

(v) Redistribution of donated property not being used.

(vi) Reporting surplus property that has been in the custody of the State Agency for over twelve months.

(5) Provisions for obtaining certification of eligibility from institutions in connection with each transfer of donable property.

(6) Provisions for obtaining certification by donee institutions of need and usability in connection with each transfer of property.

(e) The Plan of Operation shall be accompanied by samples of the State Agency forms used.

§ 14.6 *Books and records.* (a) The accounting system of the State Agency shall conform to generally accepted accounting principles and practices including an inventory record system which, in the absence of written approval by the State Auditor or other State official responsible for this phase of State fiscal policy, must be approved by the Department.

(b) Financial records and all other books and records of the State Agency shall be subject to inspection by authorized representatives of the Department. Annual financial statements (including a balance sheet and a statement of receipts and disbursements or income and expense) shall be furnished to or made available for inspection by the appropriate regional office of the Department.

(c) Each State Agency shall maintain accurate records of all donable property received and distributed. Records of distribution of all single items having an acquisition cost of $2,500 or more shall be kept separate from those of lesser amount.

(d) All single items or units of measure having a fair value of $35.00 or more, as determined by the State Agency, must be identified by the State serial number on the "Application for Surplus Property," Form HEW–135, under which the items were received, so long as the items are in the custody of the State Agency, and records must be kept to show ultimate delivery of the items to the eligible applicant.

(e) All official records and correspondence of the State Agency shall be kept for a minimum period of five years.

§ 14.7 *Service charges and funds.* (a) Service charges, as a whole, for handling donable surplus property shall be limited to the amount necessary to pay actual expenses of current operations and purchase necessary equipment, plus the accumulation and maintenance of a working capital reserve.

(b) A working capital reserve shall be computed, as of the end of the State Agency's fiscal year, as follows:

(1) Add together the following items of current assets:

(i) Cash on hand and in bank;

(ii) Accounts receivable;

(iii) Costs of acquiring surplus property inventory on hand.

(2) Deduct from the total of current assets:

(i) An appropriate allowance for uncollectible accounts receivable;

(ii) Liabilities, including any obligation represented by funds not accumulated from handling charges and which are to be returned eventually to the source from which they were derived.

(c) The working capital reserve shall not exceed an amount equivalent to the estimated cost of operation during one year in the immediate future. Under exceptional circumstances a larger reserve may be retained with the approval of the Department.

(d) Accounting records shall be maintained in such manner as to identify and separately account for funds accumulated from the assessment of service charges against donee institutions. Integrity of these funds shall be maintained, and they shall be used for promotion and extension of the program and shall not be available for other State purposes.

(e) The service charge assessed by a State Agency for the transfer of any single item of donable surplus property shall be reasonable in relation to the costs incident to the transfer.

(f) A State Agency shall accept payment of a service charge only in the form of a warrant, check, or other official instrument drawn or issued by an authorized representative of the donee institution.

(g) Any funds accumulated by a State Agency from service charges against donee institutions, over and above the working capital reserve as provided for in this part, shall be refunded to donee institutions (1) on a pro-rata basis (based upon total charges collected during the preceding fiscal year) or (2) reduced handling charges during the current and the next ensuing fiscal year.

(h) When surplus property in the custody of a State Agency is sold for the benefit and account of the U. S. Government, the State Agency will be permitted to retain from the proceeds of the sale the costs of advertising and costs of preparation for sales (including transportation costs incurred in recovering property from institutions). Under exceptional circumstances additional proceeds may be retained upon approval by the Department.

§ 14.8 *Audits.* The operations and financial affairs of the State Agency shall be audited by an appropriate State authority or by a recognized auditing firm. Such audits shall conform to State laws, rules and regulations, fiscal policies and practices, and to any applicable State limitations. An audit shall be made at least every two years by a recognized auditing firm, where State law or regulations do not, as a minimum, require biennial audits. Copies of the reports of the audits of the State Agencies shall be forwarded to or made available for review by the appropriate regional office of the Department.

§ 14.9 *Handling of property.* (a) Donable surplus property shall be inventoried immediately upon receipt, and any shortage or overage shall be reported within 30 days to the donor holding agency with a copy to the appropriate regional office of the Department.

(b) State Agencies shall maintain adequate provision for protecting property in their custody including reasonable protection against the hazards of fire, theft, vandalism and weather.

§ 14.10 *Assistance to the department.* (a) Each State Agency shall assist the Department in effecting utilization and compliance by donee institutions with the terms and conditions established for any single item of property having an acquisition cost of $2,500 or more.

(b) Each State Agency shall cooperate with the Department by releasing property from its custody upon request, and will assist the Department in obtaining voluntary release by donee institutions of property needed for defense or emergency use.

§ 14.11 *Nonconformance.* If the Department determines that a State Agency is not operating in accordance with its previously approved Plan of Operation and these Minimum Standards, allocation of property to the State Agency may be suspended until the nonconformance is corrected to the satisfaction of the Department.

§ 14.12 *Amendments.* The Department reserves the right at any time to modify or amend these Minimum Standards. Upon issuance of amendments hereto requiring State Agencies to modify their operations, reasonable opportunity will be afforded the State Agencies to conform their operations to such amended standards.

Dated: December 7, 1955.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Agricultural Marketing Service

[7 CFR Part 52]

INSPECTION AND CERTIFICATION OF PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED PRODUCTS [1]

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the revision of existing regulations (7 CFR Part 52) governing the inspection and certification of processed fruits and vegetables, processed products thereof, and certain other processed food products, issued pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.). The proposed revision will implement Public Law 272, 84th Congress, 1st Session, approved August 9, 1955, amending the aforesaid act, by designating the certificates, memoranda, marks and other identifications and devices for making such marks or identifications, with respect to inspection, class, grade, quality, size, or condition, that are official for the purpose of said act. The proposed revision also sets forth the regulations governing the use of official marks and identifications.

All persons who desire to submit written data, views, or arguments in connection with the proposed revision should file the same in duplicate with the Chief, Processed Products Standardization and Inspection Branch, Fruit and Vegetable Division, Agricultural Marketing Service, United States Department of Agriculture, Washington 25, D. C., not later than 10 days after publication hereof in the FEDERAL REGISTER.

The proposed revision is as follows:

1. Insert new § 52.3a as follows:

§ 52.3a *Designation of official certificates, memoranda, marks, other identifications, and devices for purposes of the Agricultural Marketing Act.* Subsection 203 (h) of the Agricultural Marketing Act of 1946, as amended by Public Law 272, 84th Congress, provides criminal penalties for various specified offenses relating to official certificates, memoranda, marks or other identifications, and devices for making such marks or identifications, issued or authorized under section 203 of said act, and certain misrepresentations concerning the inspection or grading of agricultural products under said section. For the purposes of said subsection and the provisions in this part, the terms listed below shall have the respective meanings specified:

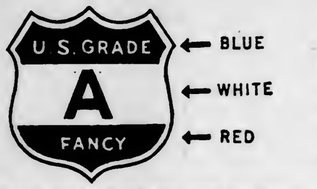
(a) "Official certificate" means any form of certification, either written or printed, including those defined in § 52.3, used under this part to certify with respect to the inspection, class, grade, quality, size, quantity, or condition of products (including the compliance of products with applicable specifications).

(b) "Official memorandum" means any initial record of findings made by an authorized person in the process of grading, inspecting, or sampling pursuant to this part, any processing or plant-operation report made by an authorized person in connection with grading, inspecting, or sampling under this part, and any report made by an authorized person of services performed pursuant to this part.

(c) "Official mark" means the grade mark, inspection mark, combined form of inspection and grade mark, and any other mark, or any variations in such marks, including those prescribed in § 52.53, approved by the Administrator and authorized to be affixed to any product, or affixed to or printed on the packaging material of any product, stating that the product was graded or inspected or both, or indicating the appropriate U. S. grade or condition of the product, or for the purpose of maintaining the identity of products graded or inspected or both under this part.

(d) "Official identification" means any United States (U. S.) standard designation of class, grade, quality, size, quantity, or conditon specified in this part or any symbol, stamp, label, or seal indicating that the product has been graded or inspected and/or indicating the class, grade, quality, size, quantity, or condition of the product approved by the Administrator and authorized to be affixed to any product, or affixed to or

[1] Among such other processed food products are the following: Honey; molasses, except for stock feed; nuts and nut products, except oil; sugar (cane, beet, and maple); sirups (blended), sirups, except from grain; marine food products, except oil.



printed on the packaging material of any product.

(e) "Official device" means a stamping appliance, branding device, stencil, printed label, or any other mechanically or manually operated tool that is approved by the Administrator for the purpose of applying any official mark or other identification to any product or the packaging material thereof.

2. Renumber §§ 52.53; 52.55; 52.56; and 52.57 to 52.54; 52.55; 52.56; and 52.57, respectively.

3. Insert new § 52.53 as follows:

§ 52.53 *Approved identification*—(a) *Grade marks.* The approved grade mark or identification may be used on containers, labels or otherwise indicated for any processed product that (1) has been packed under continuous inspection as provided in this part to assure compliance with the requirements for wholesomeness established for the raw product and of sanitation established for the preparation and processing operations, and (2) has been certified by an inspector as meeting the requirements of such grade, quality or classification. The grade marks approved for use shall be similar in form and design to the examples in Figures 1 through 5 of this section.

Shield using red, white, and blue background or other colors appropriate for label.

(c) *Combined grade and inspection marks.* The grade marks set forth in paragraph (a) of this section and the inspection marks set forth in paragraph (b) of this section may be combined into a consolidated grade and inspection mark for use on processed products that have been packed under continuous inspection as provided in this part.

(d) *Products not eligible for approved identification.* Processed products which have not been packed under continuous inspection as provided in this part shall not be identified by grade or inspection marks, but such products may be inspected on a lot inspection basis as provided in this part and identified by an authorized representative of the Department by stamping the shipping cases and inspection certificate(s) covering such lot(s) with an officially drawn sample mark similar in form and design to the example in Figure 9 of this section.

[Docket No. AO-101-20]

MILK IN CHICAGO, ILL., MARKETING AREA

NOTICE OF EXTENSION OF TIME FOR FILING EXCEPTIONS TO RECOMMENDED DECISION WITH RESPECT TO PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT, AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and orders (7 CFR Part 900), notice is hereby given that the time for filing exceptions to the recommended decision with respect to proposed amendments to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Chicago, Illinois, marketing area, which was issued November 29, 1955 (20 F. R. 8854), is hereby extended (1) to December 12, 1955 with respect to proposed changes in bases assigned for March, April, May and June, 1956 to new producers and to producers who relinquish earned bases, and rules governing holding, transfer, and relinquishment of bases; and (2) to January 9, 1956 with respect to all other matters.

Dated: December 8, 1955.

[SEAL] F. R. BURKE,
Acting Deputy Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 41, 42, 43]

VARIATION OF AIRCRAFT MAXIMUM WEIGHT WITH ALTITUDE

NOTICE OF PROPOSED RULE MAKING

Pursuant to authority delegated by the Civil Aeronautics Board to the Bureau of Safety Regulation, notice is hereby given that the Bureau will propose to the Board the adoption of amendments to Parts 40, 41, 42, and 43 of the Civil Air Regulations which will provide that no transport category airplane shall take off or land at an airport located at an elevation outside the altitude range for which maximum take-off and landing weights have been determined, and, further, that the weight of the airplane at take-off and landing shall not exceed the authorized maximum take-off and landing weights for the elevation of the airport at which the take-off or landing is made.

Interested persons may participate in the making of the proposed rules by submitting such written data, views, or arguments as they may desire. Communications should be submitted in duplicate to the Civil Aeronautics Board, attention Bureau of Safety Regulation, Washington 25, D. C. In order to insure their consideration by the Board before taking further action on the proposed rules, communications must be received by February 10, 1956. Copies of such communications will be available after February 14, 1956, for examination by interested persons at the Docket Section of the Board, Room 5412, Department of Commerce Building, Washington, D. C.

It has been brought to the attention of the Bureau that certain difficulties have been encountered with the Civil Air Regulations with respect to variation of weight with altitude for transport category airplanes. The presently effective provisions of Parts 40, 41, and 42 of the Civil Air Regulations prohibit take-offs and landings, of large transport category airplanes in passenger service, at airports at elevations outside the altitude range for which maximum take-off and landing weights have been determined, and, further, provide that the weight of the airplane at take-off and landing shall not exceed the authorized maximum take-off and landing weights for the elevation of the airport at which the take-off or landing is made. There are no similar provisions, however, in these same parts, or elsewhere in the regulations, applicable to airplanes in cargo operation, or to transport category airplanes being operated in accordance with Part 43 of the Civil Air Regulations.

There is provision, however, in the airworthiness certification requirements, contained in Part 4b of the Civil Air Regulations, permitting the establishment of maximum weights for all aircraft for each altitude and for each practically separable operating condition, e. g., take-off, en route, landing, with the election as to the altitude at which maximum weights are to be established resting with the applicant for type certification. Therefore, an applicant may request certification of an airplane at sea level only or at any altitude above that he might choose.

Part of the difficulty we have encountered is that, in some instances, an applicant has elected to certificate a transport category airplane at sea level only, or, for operations at relatively low airport elevations, but has later requested approval to operate it at altitudes above that for which his airplane was certificated, without getting the airplane certificated for the higher altitude. In this situation, if the transport category airplane were in passenger service operating under Part 40, 41, or 42, the provisions of the applicable part would limit operations to the altitude for which maximum weights have been established. If, however, in the same situation, the airplane were in cargo service, or operated in accordance with Part 43, the present construction of the regulations in Parts 40, 41, and 42 could be interpreted to permit take-offs and landings at airports at any elevation, since none of these three parts contain provisions limiting operations to altitudes for which maximum weights have been established for aircraft in cargo service, or operated under Part 43, as they do for transport aircraft in passenger service.

The absence of pertinent regulations, therefore, with respect to transport category airplanes in cargo service or for such airplanes operating in accordance with Part 43, has permitted this unintended result. It is believed that such a condition whereby some transport category airplanes may operate at high altitude airports at weights found by the airworthiness parts of the Civil Air Regulations to be appropriate only at lower altitudes is not consistent with safe practice, and it is our intent to limit airplanes in this class expressly to the same limitations as apply to transport category airplanes in passenger service. Accordingly, it is proposed to amend present regulations to prohibit all transport category airplanes, certificated under the provisions of Part 4a or 4b, or recertificated in accordance with Special Civil Air Regulation No. SR-406 or SR-407, from operating at altitudes exceeding the altitude for which maximum certificated weights have been established.

In view of the foregoing, notice is hereby given that it is proposed to amend Parts 40, 41, 42, and 43 of the Civil Air Regulations to include a variation of weight with altitude for transport category airplanes certificated under the provisions of Part 4a or 4b, or recertificated in accordance with Special Civil Air Regulation No. SR-406 or SR-407 substantially as follows:

The provisions of §§ 40.71, 41.28, and 42.71 which are now applicable to transport category airplanes in passenger service shall be made applicable to all transport category airplanes regardless of the type of service in which they are used.

A new provision will be added to Part 43 to read substantially as follows:

(a) No transport category airplane shall be taken off from any airport located at an elevation outside of the altitude range for which maximum take-off weights have been determined, and no transport category airplane shall depart for an airport of intended destination or have any airport specified as an alternate which is located at an elevation outside of the altitude range for which maximum landing weights have been determined.

(b) The weight of the airplane at take-off shall not exceed the authorized maximum take-off weight for the elevation of the airport from which the take-off is made.

(c) The weight at take-off shall be such that, allowing for normal consumption of fuel and oil in flight to the airport of intended destination, the weight on arrival will not exceed the authorized maximum landing weight for the elevation of such airport.

These regulations are proposed under the authority of Title VI of the Civil Aeronautics Act of 1938, as amended. The proposal may be changed in the light of comments received in response to this notice of proposed rule making.

(Sec. 205 (a), 52 Stat. 984, 49 U. S. C. 425 (a). Interpret or apply secs. 601, 603, 604, 52 Stat. 1007, 1009, 1010, as amended, 49 U. S. C. 551, 553, 554)

Dated at Washington, D. C., December 5, 1955.

By the Bureau of Safety Regulations.

[SEAL] JOHN M. CHAMBERLAIN,
Director.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ALASKA

NOTICE OF PROPOSED WITHDRAWAL AND RESERVATION OF LANDS

DECEMBER 6, 1955.

The Department of the Army has filed an application, Serial No. Fairbanks 012203, for the withdrawal of the lands described below, from all forms of appropriation including the mining and mineral leasing laws. The applicant desires the land for training site.

For a period of 60 days from the date of publication of this notice, persons having cause may present their objections in writing to the undersigned official of the Bureau of Land Management, Department of the Interior, Box 480, Anchorage, Alaska.

If circumstances warrant it, a public hearing will be held at a convenient time and place, which will be announced.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

The lands involved in the application are:

FORT GREELY, TRACT "F"

A parcel of land situated approximately 2.5 miles southeast of Delta Junction in the Fourth Judicial Division, Territory of Alaska, being located between the Richardson and Alaska Highways and more particularly described as:

Beginning at a point 1.08 miles, plus or minus, east of U. S. C. & G. S. Station "Pillsbury", Lat. 63°47'00.309" North, Long. 145°47'24.713" West, said point of beginning being 150' east of the centerline of the Richardson Highway, thence due east approximately 4.15 miles to the west bank of Granite Creek; thence in a generally northeasterly direction approximately 11.83 miles to a point which is situated on the west bank of Granite Creek and further identified as being situated one mile southerly at right angles to the centerline of the Alaska Highway; thence northwesterly, parallel with and one mile southerly at right-angles to the centerline of the Alaska Highway to a point situated approximately 1,394 feet due south of the southeast corner of Section 13, T. 11 S., R. 11 E., S. M. (preliminary plat); thence north approximately 1,394 feet to said southeast corner of Section 13, T. 11 S., R. 11 E., F. M.; thence west 1 mile, north 1 mile, west 2 miles, north 1 mile, west 1 mile, and north 1 mile following the south and west boundaries of Sections 13, 11, 10, and 4, T. 11 S., R. 11 E., F. M.; thence west 1 mile along the south boundary of Section 32, T. 10 S., R. 11 E., F. M. (preliminary plat); thence west 1,172.8 feet approximately along the south boundary of Section 31, T. 10 S., R. 11 E., F. M., to a point on the east boundary of a parcel of land reserved by Public Land Order No. 255, which point is situated approximately 7,062 feet due south of the centerline of the Alaska Highway; thence due south approximately 8,628 feet to the point of intersection of the north line bounding a 160 acre parcel of land reserved by Public Land Order No. 1153 for the use of the Department of the Army; thence east along the north line of said parcel 1,000 feet; thence south along the east line of said parcel 7,000 feet; thence west along the south line of said parcel 1,000 feet to the point of intersection of said boundary with the east boundary of the parcel of land reserved by P. L. O. No. 255; thence south along said east boundary 6,000 feet; thence west along the south boundary of said reserve approximately 2.74 miles (14,479 feet) to the northeast corner of Section 27, T. 11 S., R. 10 E., F. M. (preliminary plat); thence south 2 miles along the east boundary of Sections 27 and 34, T. 11 S., R. 10 E., F. M.; thence south 2 miles, east 1 mile, and south 2 miles along the east boundaries of Sections 14 and 23, of T. 12 S., R. 10 E., F. M. (preliminary plat); thence west approximately .75 mile to a point which is situated 150' easterly at right-angles from the centerline of the Richardson Highway; thence southerly parallel to and 150' easterly from the centerline of the Richardson Highway approximately 4.75 miles to the Point of Beginning and containing approximately 51,750 acres.

ROGER ROBINSON,
Operations Supervisor.

DEPARTMENT OF AGRICULTURE

Commodity Credit Corporation

SALES OF CERTAIN COMMODITIES

DECEMBER 1955 MONTHLY SALES LIST

Pursuant to the policy of Commodity Credit Corporation issued October 12, 1954 (19 F. R. 6669), and subject to the conditions stated therein, the commodities listed below are available for sale in the quantities stated and on the price basis set forth. The Commodity Credit Corporation will entertain offers from prospective buyers for the purchase of any such commodity.

The Commodity Credit Corporation reserves the right, before making any sale, to define or limit export areas. Announcements containing the contractual terms and conditions of sale for the respective commodities will be furnished upon request. For ready reference a number of these announcements are identified by code number in the following list. Commodity Credit Corporation also reserves the right to amend, from time to time, any of its announcements, which amendments shall be applicable to and be made a part of the sales contracts thereafter entered into.

DECEMBER 1955 MONTHLY SALES LIST

Commodity and approximate quantity available (subject to prior sale)	Sales price or method of sale
Dairy products	Domestic prices apply "in store" [1] at location of stocks. Export prices apply f. a. s. U. S. port of export or in store at location of stocks at f. a. s. price less export freight rate to agreed port of export. Available through Cincinnati and Portland CSS Commodity Offices for domestic sale, and through the Livestock and Dairy Division, CSS, USDA, Washington 25, D. C., for export sale.
Nonfat dry milk solids (in carloads only), spray, 6,600,000 pounds; roller, as available.	Domestic, unrestricted use: Spray process, U. S. Extra Grade, in barrels and drums, 17 cents per pound; in bags, 16.15 cents per pound. Roller process, U. S. Extra Grade, in barrels and drums, 15.25 cents per pound; in bags 14.40 cents per pound. Domestic, restricted use (animal and poultry feed): 11½ cents per pound delivered under the terms and conditions of Announcement LD-14 and Supplements. Export, unrestricted use: Spray process, U. S. Extra Grade, in barrels and drums, 11.75 cents per pound; in bags, 10.90 cents per pound. Roller process, U. S. Extra Grade, in barrels and drums, 10 cents per pound; in bags, 9.15 cents per pound. Special export: Competitive bid on 9,600,000 pounds spray and roller process and under the terms and conditions of Announcement LD-5 and amendments. Offers to be considered daily until this quantity is sold or program is terminated.
Salted creamery butter (in carloads only), 110,000,000 pounds.	Domestic, unrestricted use: U. S. Grade A and higher, 61.25 cents per pound, New York, New Jersey, Pennsylvania, New England, and other States bordering the Atlantic Ocean and Gulf of Mexico. All other States 60.5 cents per pound. U. S. Grade B, 2 cents per pound less than Grade A prices. Domestic, restricted use: Competitive bid and under the terms and conditions of Announcement DA-111 and supplements for use as an extender for cocoa butter in the manufacture of chocolate. Export, unrestricted use: U. S. Grade A, 41 cents per pound; U. S. Grade B, 39 cents per pound. Export, restricted use: Competitive bid (1) under the terms and conditions of Announcement DA-111 and supplements for use (a) in recombining with U. S. produced nonfat dry milk solids into liquid milk and evaporated milk, and (b) in making butter oil or ghee; and (2) under the terms and conditions of Announcement LD-19 and supplements for industrial uses. Special export: Competitive bid on 6,500,000 pounds butter and under the terms and conditions of Announcement LD-7. Offers to be considered daily until this quantity is sold or program is terminated.
Cheddar cheese, cheddars, flats, twins and rindless blocks (standard moisture basis in carloads only) 279,000,000 pounds.	Domestic: U. S. Grade A and higher, 36¼ cents per pound for New York, New Jersey, Pennsylvania, New England, and other States bordering the Atlantic and Pacific Ocean and Gulf of Mexico. All other States 35¾ cents per pound. U. S. Grade B, 1 cent per pound less than Grade A prices. Export: U. S. Grade A, 25.5 cents per pound, basis port of export. U. S. Grade B, 24.5 cents per pound, basis port of export. Special export: Competitive bid on 15,000,000 pounds under the terms and conditions of Announcement LD-5 as amended and supplemented. Bids to be received daily through December, or until the 15,000,000 pounds have been sold, whichever is earlier. Cheese prices are subject to usual adjustments for moisture content.
Wool, shorn and pulled grease (including small quantities of scoured) 146,000,000 pounds.	Domestic or export: Limited quantities (not more than 6,250,000 pounds in December) on competitive bid each Tuesday under terms and conditions as announced. Additional quantities at prices basis exwarehouse where stored as determined by the Boston CSS Commodity Office, reflecting not less than 103 percent of the 1954 schedule of loan rates per pound plus an allowance for sales commission, Boston basis, adjusted for net freight on wool stored outside the Boston storage area.
Cotton, Upland and Extra Long Staple.	Domestic or export: Competitive bid and under the terms and conditions of Announcements NO-C-5 as amended (Upland) and NO-C-6 (Extra Long Staple), but not less than the higher of (1) 105 percent of the current support price plus reasonable carrying charges, or (2) the domestic market price as determined by CCC. A catalog showing quantities, qualities, and locations may be obtained for a nominal fee from the New Orleans CSS Commodity Office.[2]
Cotton linters	Domestic or export: Competitive bid and under the terms and conditions of Announcement NO-CL-5 in carlot quantities as follows: (a) First Cut Linters and Mill Run Linters catalogued on U. S. Grades, (b) Second Cut and Mill Run Linters and hull fiber catalogued on cellulose content, and will be sold on basis of 73 percent cellulose, with premiums and discounts of .04 cents per pound, fractions in proportion, for each 1 percent of cellulose above or below 73 percent. A catalogue showing quantities, qualities, and locations may be obtained for a nominal fee from the New Orleans CSS Commodity Office.
Cottonseed oil, refined	Domestic: Limited quantities on competitive bid but not less than the market price on date of sale f. o. b. tankcars or tankwagons at points of storage locations, under the terms and conditions of Announcement NO-CS-12. Available New Orleans CSS Commodity Office and Oils and Peanut Division, CSS, USDA, Washington 25, D. C. Export: Competitive bid on limited quantities as announced by the New Orleans CSS Commodity Office, under the terms and conditions of Announcement NO-CS-12.[2]
Linseed oil	Domestic: Market price on date of sale but not less than equivalent of the 1955 support price for flaxseed, under the terms and conditions of Announcement CT-OP-9. Available Cincinnati CSS Commodity Office. Export: Competitive bid as announced by the Cincinnati CSS Commodity Office, under the terms and conditions of Announcement CT-OP-9.
Tung oil	Domestic or export: Competitive bid, limited quantity monthly under the terms and conditions of Announcement CT-OP-8 and amendments thereto. Available Cincinnati CSS Commodity Office.

See footnotes at end of table.

DECEMBER 1955 MONTHLY SALES LIST—Continued

Commodity and approximate quantity available (subject to prior sale)	Sales price or method of sale			
Grain sorghums, bulk	Domestic: Market price, basis in store,[1] but not less than the legal minimum price (1955 loan rate) for class, grade, quality and location plus 29 cents per hundredweight (100 pounds). Example of minimum price per hundredweight: Kansas City, No. 2 or better, $2.51. Available Dallas, and Kansas City CSS Commodity Offices. Export: Competitive bid as announced by the Dallas CSS Commodity Office.			
Rice, rough 1,500,000 hundredweight.	Domestic or export: Market price on date of sale. Limited quantities available Chicago, Kansas City, and Minneapolis CSS Commodity Offices in store. On all other storable lots market price on date of sale, but not less than the 1955 support price. Domestic: On LCL lots, market price on date of sale, but not less than the 1955 loan rate basis point of production plus 5 cents per hundredweight.) Domestic, restricted use (for feed only): Competitive bid basis by Dallas CSS Commodity Office. Export, unrestricted use: 1955 support rates f. a. s. West Gulf ports (port at option of CCC). Where deliveries are made at points other than ports, deductions will be made for inland freight charges to port. Export, restricted use: Competitive bid basis by Dallas CSS Commodity Office. Available Dallas CSS Commodity Office for domestic or export sale.[2]			
Rice, milled, 1,000,000 hundredweight.	Domestic: For U. S. No. 2 (4 percent brokens), the market price but not less than the legal minimum price (the equivalent loan rate for rough rice by varieties plus 5 percent, adjusted for milling, plus 36 cents per hundredweight). Examples of minimum prices of milled rice per hundredweight, at mills:			
		Head U. S. No. 2 (4 percent brokens)	U. S. No. 5 (35 percent brokens)	Second Heads U. S. No. 3
	Bluebonnet	$11.27	$9.11	$6.50
	Zenith	9.55	7.34	6.00
	Export: A schedule of prices as announced by Dallas CSS Commodity Office.			
	Examples of prices of milled rice per hundredweight, f. a. s. West Gulf ports (port at option of CCC):			
		Head U. S. No. 2 (7 percent brokens)	U. S. No. 5 (35 percent brokens)	Second Heads U. S. No. 3
		1954	1953	
	Bluebonnet	$10.20	$7.80	$4.45
	Zenith	8.70	6.49	4.30
	Pearl	8.70	6.49	4.30
Rice, broken (as available domestic sales for feed only).	1953 crop rice (U. S. No. 5, 35 percent brokens) is available f. o. b. Texas-Mexican border points at same price as at West Gulf ports. Specific prices and quantities may be obtained from Dallas CSS Commodity Office.[2]			
Dry edible beans (bagged)	Domestic or export: Competitive bid as announced by the Dallas CSS Commodity Offices. Prices for domestic sale are for U. S. No. 1, f. o. b. indicated points of production. Amount of paid-in freight to be added as applicable. For other grades of all beans, adjust by market differentials.			
Pinto beans, 1954 crop, 800,000 hundredweight.	Domestic: Market price but not less than $6.06 per 100 pounds, points of production, Denver rate area. For other areas sold by the 1955 support price differentials. Available Minneapolis, Kansas City, Dallas, and Portland CSS Commodity Offices.			
Small red beans, 1954 crop, 200,000 hundredweight.	Export: Competitive bid as announced by the Kansas City CSS Commodity Office. Domestic: Market price but not less than $7.53 per 100 pounds, Washington-Idaho points. Available Portland CSS Commodity Office. Export: Competitive bid as announced by the Portland CSS Commodity Office.			

DECEMBER 1955 MONTHLY SALES LIST—Continued

Commodity and approximate quantity available (subject to prior sale)	Sales price or method of sale
Farmers' stock peanuts (for crushing).	Domestic or export: Competitive bid on limited quantities as may be announced by the Peanut Cooperative Associations. Terms and conditions of sale will be announced at the time of or prior to the initial offering. Available Dallas CSS Commodity Office.
Soybeans, bulk (domestic sales for crushing only).	Domestic or export: Market price on date of sale. Limited quantities available Chicago, Kansas City, and Minneapolis CSS Commodity Offices in store. On all other storable lots market price on date of sale, but not less than the 1955 support price.
Flaxseed, bulk (as available domestic sales for crushing only).	Domestic: On LCL lots, market price on date of sale, but not less than the 1955 loan rate basis point of production plus 5 cents per hundredweight.) Domestic, restricted use (for feed only): Competitive bid basis by Minneapolis CSS Commodity Offices. Export, unrestricted use: 1955 support rates f. a. s. West Gulf ports (port at option of CCC). Where deliveries are made at points other than ports, deductions will be made for inland freight charges to port. Export, restricted use: Competitive bid basis by Minneapolis CSS Commodity Office.
Corn, bulk 50,000,000 bushels	Domestic or export: Commercial corn-producing area: Market price, basis in store,[1] but not less than the legal minimum price (1955 loan rate) basis point of production for class, grade, and quality, plus handling average paid-in freight. Examples of minimum prices per bushel, including average paid-in freight: Chicago, No. 3 yellow, $1.62; Minneapolis, No. 3 yellow, $1.83; Kansas City, No. 3 yellow, $1.91; Portland, No. 3 yellow, $2.04. Noncommercial corn-producing area: Market price, basis in store,[1] but not less than the 133 percent of applicable 1955 loan rate, plus 15 cents per bushel. Available Chicago, Dallas, Kansas City, Minneapolis, and Portland CSS Commodity Offices.
Wheat	Domestic, unrestricted use: Commercial wheat producing area: Market price, but not less than the legal minimum price (1955 loan rate for class, grade, quality, and location, plus 24 cents per bushel). Examples of minimum price per bushel: Chicago, No. 1 HW, $2.62; Minneapolis, No. 1 DNS, $2.65; Kansas City, No. 1 HW, $2.62. Noncommercial wheat producing area: Market price, basis in store,[1] but not less than 133 percent of applicable 1955 county loan rate plus 24 cents per bushel. Domestic, restricted use (for feed only): Small quantities in Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, New Jersey, North Carolina, Pennsylvania, South Carolina, Tennessee, and West Virginia. Market price for feed, basis in store. Available Dallas and Chicago CSS Commodity Offices. Export: Under the terms and conditions of Announcements GR-212, GR-261 and GR-262 and supplements as announced daily. Export may be made either as wheat or flour.[2]
Oats, bulk	Available Dallas, Chicago, Minneapolis, Kansas City, and Portland CSS Commodity Offices for export or domestic sale. Domestic, unrestricted use: Market price, basis in store,[1] but not less than the legal minimum price (1955 loan rate) basis point of production for class, grade, and quality plus 12 cents per bushel including average paid-in freight. Example of minimum price per bushel including average paid-in freight: Chicago, No. 3 oats or better, $0.86; Minneapolis, No. 3 oats or better, $0.81. Domestic, restricted use (for feed only): Small quantities in states of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Mississippi, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia. Competitive bid as announced by Chicago and Dallas CSS Commodity Offices.
Barley, bulk	Export: Price as determined by CCC. Offerings also on competitive bid as announced by the Minneapolis, Kansas City, Chicago, Kansas City, Portland, or Dallas CSS Commodity Offices.[2] Available at the above offices for export or domestic sale. Domestic, unrestricted use: Market price, basis in store,[1] but not less than the legal minimum price (1955 applicable loan rate for class, grade, quality, and location plus 16 cents per bushel). Example of minimum price per bushel: Minneapolis, No. 2 barley, $1.30. Domestic, restricted use (for feed only): Small quantities in states of Alabama, Arkansas, Delaware, Florida, Georgia, Kentucky, Louisiana, Maryland, Mississippi, Missouri, Mississippi, New Jersey, New York, North Carolina, Pennsylvania, South Carolina, Tennessee, Virginia, and West Virginia. Market price for feed, basis in store. Available Chicago and Dallas CSS Commodity Offices.
Rye, bulk	Export: Price as determined by CCC. Offerings also on competitive bid as announced by the Minneapolis, Kansas City, Chicago, Dallas, or Portland CSS Commodity Offices.[2] Available at the above offices for domestic or export sale. Domestic, unrestricted use: Market price, basis in store,[1] but not less than the legal minimum price (1955 applicable loan rate for class, grade, quality and location plus 18 cents per bushel). Example of minimum price per bushel: Minneapolis, No. 2 or better, $1.57. Domestic, restricted use (for feed only): Market price for feed, competitive bid basis by Minneapolis, Kansas City, Dallas, Chicago, and Portland CSS Commodity Offices. Available at above offices for domestic or export sale.

See footnotes at end of table.

DECEMBER 1955 MONTHLY SALES LIST—Continued

Commodity and approximate quantity available (subject to prior sale)	Sales price or method of sale
Hay and pasture seeds (bagged)...	F. o. b. point of production plus any paid-in freight as applicable basis current freight rate at time of sale. Premiums and discounts may be obtained from the commodity offices for qualities above or below basic specification. Offers will not be accepted for less than warehouse receipt lot or minimum weight carlot as prescribed by railroad carrier's regulation at point of storage.
Birdsfoot Trefoil seed, 878 hundredweight.	Domestic: $65 per 100 pounds. Available Portland CSS Commodity Office. Export: Competitive bid as announced by Portland CSS Commodity Office.
Alfalfa seed, Northern, 47,000 hundredweight.	Domestic: $35 per 100 pounds. Available Minneapolis and Portland CSS Commodity Offices.[4] Export: Competitive bid as announced by Portland CSS Commodity Office.
Alfalfa seed (certified), Ladak, 2,500 hundredweight; Buffalo, 22,000 hundredweight; Grimm, 198 hundredweight.	Domestic: $40 per 100 pounds. Ladak available Portland and Kansas City, Buffalo and Grimm available Portland CSS Commodity Offices.[4] Export: Competitive bid as announced. Ladak by Kansas City, Buffalo and Grimm by Portland CSS Commodity Offices.
Tall fescue seed (common), 22,000 hundredweight.	Domestic: $18 per 100 pounds. Available Portland, Dallas, Chicago CSS Commodity Offices.[4] Export: Competitive bid as announced by Chicago CSS Commodity Office.
Tall fescue seed (certified), 88,000 hundredweight.	Domestic: $20 per 100 pounds. Available Portland, Dallas, and Chicago CSS Commodity Offices.[4] Export: Competitive bid as announced by Portland CSS Commodity Office.
Gum rosin (in galvanized metal drums averaging 517 pounds net).	Domestic or export: Offer and acceptance, "as is" in the stated quantities at the designated storage yards, subject to the prices, terms, and conditions of Announcement LD-21 and Supplements issued not more often than weekly by the American Turpentine Farmers' Association Cooperative, Valdosta, Ga.
Gum turpentine (bulk in tanks)..	Domestic or export: Offer and acceptance, "as is" in the stated quantities in the designated storage tanks, subject to the prices, terms, and conditions of Announcement TH-21 and Supplements issued not more often than weekly by the American Turpentine Farmers' Association Cooperative, Valdosta, Ga.

[1] At the processor's plant or warehouse but with any prepaid storage and outhandling charges for the benefit of the buyer.
[2] Sales of grains made under Title I, Public Law 480, may be made on terms and conditions of GR-301 revised and GR-302. Other commodities under the announcement indicated.
[3] In those counties in which grain is stored in CCC bin sites, delivery will be made f. o. b. buyer's conveyance at bin site without additional cost; sales will also be made in store approved warehouses in such county and adjacent counties at the same price, provided the buyer makes arrangements with the warehousemen for storage documents.
[4] Prices for basic specifications will not be reduced through the period ending June 30, 1956.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. 714b. Interpret or apply sec. 407, 63 Stat. 1055; 7 U. S. C. 1427, sec. 208, 63 Stat. 901)

Issued: December 7, 1955.

[SEAL] WALTER C. BERGER,
Acting Executive Vice-President,
Commodity Credit Corporation.

GENERAL SERVICES ADMINISTRATION

[Complaint Docket Nos. 16535 and 16,537]

SECRETARY OF DEFENSE

DELEGATION OF AUTHORITY TO REPRESENT THE INTERESTS OF THE FEDERAL GOVERNMENT

1. Pursuant to the provisions of sections 201 (a) (4) and 205 (d) and (e) of the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, authority to represent the interests of the executive agencies of the Federal Government in the matter of Riverton Consolidated Water Company, Increase in Rates, Complaint Docket No. 16,535 and Complaint Docket No. 16,537, before the Pennsylvania Public Utility Commission, is hereby delegated to the Secretary of Defense.

2. The Secretary of Defense is hereby authorized to redelegate any of the authority contained herein to any officer, official or employee of the Department of Defense.

3. The authority conferred herein shall be exercised in accordance with the policies, procedures and controls prescribed by the General Services Administration and shall further be exercised in cooperation with the responsible officers' officials and employees of such Administration.

4. This delegation of authority shall be effective November 10, 1955.

Dated: December 7, 1955.

EDMUND F. MANSURE,
Administrator.

[F. R. Doc. 55-10035; Filed, Dec. 9, 1955; 5:06 p. m.]

INTERDEPARTMENTAL COMMITTEE ON TRADE AGREEMENTS

TRADE-AGREEMENT NEGOTIATIONS WITH GOVERNMENTS WHICH ARE CONTRACTING PARTIES TO GENERAL AGREEMENT ON TARIFFS AND TRADE PROPOSED IN NOTICE OF SEPT. 21, 1955, AND PUBLISHED SEPT. 23, 1955

POSSIBLE ADJUSTMENT IN PREFERENTIAL RATES ON CUBAN PRODUCTS: SUPPLEMENTARY NOTICE

Pursuant to section 4 of the Trade Agreements Act, approved June 12, 1934, as amended (48 Stat. 945, ch. 474; 65 Stat. 73, ch. 141) and to paragraph 4 of Executive Order 10082 of October 5, 1949 (3 CFR, 1949 Supp., p. 126), further notice is hereby given by the Interdepartmental Committee on Trade Agreements supplementary to the notice by the Committee dated September 21, 1955, and published September 23, 1955 (20 F. R. 7140), as corrected September 29, 1955, and published October 1, 1955 (20 F. R. 7345), relating to trade-agreement negotiations with foreign governments which are contracting parties to the General Agreement on Tariffs and Trade. In the notice of September 21, 1955, it was stated that no tariff concessions would be considered on any article which did not appear in the list annexed to that notice unless a supplementary list is published and an opportunity is given for further supplementary hearings.

There is annexed hereto a list, supplementary to the list annexed to the notice by the Committee dated September 21, 1955, and published September 23, 1955 (20 F. R. 7140), as corrected, of articles imported into the United States to be considered for possible modification of duties and other import restrictions, imposition of additional import restrictions, or specific continuance of existing customs or excise treatment in the trade agreement negotiations of which notice has been given as stated above.

The additional articles proposed for consideration in the negotiations are identified in the annexed list by specifying the numbers of the paragraphs in tariff schedules of Title I of the Tariff Act of 1930, as amended, in which they are provided for together with the language used in such tariff paragraphs to provide for such articles, except that where necessary the statutory language has been modified by the omission of words or the addition of new language in order to narrow the scope of the original language. Where no qualifying language is used with regard to the type, grade, or value of any listed articles, all types, grades, and values of the article covered by the language used are included.

In the case of each article in the list with respect to which the corresponding product of Cuba is now entitled to preferential treatment, the negotiations referred to will involve the elimination, reduction, or continuation of the preference, perhaps in some cases with an adjustment or specification of the rate applicable to the product of Cuba.

No article will be considered in the negotiations for possible modification of duties or other import restrictions, imposition of additional import restrictions, or specific continuance of existing customs or excise treatment unless it is included, specifically or by reference, in the list annexed to the notice by the Committee of September 21, 1955, and published September 23, 1955 (20 F. R. 7140), as corrected, or in the list annexed hereto, or unless it is subsequently included in a further supplementary public list. Except where otherwise indicated in the list, only duties imposed under the paragraphs of the Tariff Act of 1930 specified in the list with regard to articles described therein and import taxes, if any, imposed on such articles under the Internal Revenue Code of 1954, as amended, will be considered for a possible decrease, but additional or separate duties or taxes on such articles imposed under any other provisions of law may be bound against increase as an assurance that the concession under the listed paragraph or section will not be nullified. In addition, any action which might be taken with respect to basic duties on products may involve action with respect to compensatory duties imposed on manufactures containing such products.

In the event that an article which as of July 1, 1955, was regarded as classifiable under a description included in the list is excluded therefrom by judicial decision or otherwise prior to the conclusion of the trade-agreement negotiations, the list will nevertheless be considered as including such article.

Pursuant to section 4 of the Trade Agreements Act, as amended, and paragraph 5 of Executive Order 10082 of October 5, 1949, information and views as to any aspect of the proposals, including the list of articles, announced in this supplementary notice may be submitted to the Committee for Reciprocity Information in accordance with the announcement of this date issued by that Committee.[1] Persons interested in exports may present their views regarding any tariff or other concessions that might be requested of foreign governments with which negotiations are to be conducted. Any other matters appropriate to be considered in connection with the negotiations proposed above may also be presented.

Public hearings in connection with the "peril point" investigation of the United States Tariff Commission in connection with the articles included in the annexed list, pursuant to section 3 of the Trade Agreements Extension Act of 1951, as amended, are the subject of an announcement of this date issued by that Commission.[2]

By direction of the Interdepartmental Committee on Trade Agreements this 9th day of December 1955.

CARL D. CORSE,
Chairman,
Interdepartmental Committee
on Trade Agreements.

SUPPLEMENTAL LIST OF ARTICLES IMPORTED INTO THE UNITED STATES PROPOSED FOR CONSIDERATION IN TRADE AGREEMENT NEGOTIATIONS

Those items in the list which include articles to which, on the basis of preliminary calculations in general considering the calendar year 1954 as a representative period, the authority under clause (ii) of paragraph (2) (D) of subsection (a) of section 350 of the Tariff Act of 1930, as amended (authority to decrease down to 50 percent ad valorem or the equivalent thereof), is applicable have been identified by an asterisk. The use of the asterisk in such cases shall not prejudice the subsequent final determination that such authority is or is not applicable to any article in the list, whether or not the item in which the article is included is identified by an asterisk, nor shall it prejudice use of the authority under clause (i) of paragraph (2) (D) (authority to decrease down to 15 percent below the rate existing on January 1, 1955) applicable to any article in the list, whether or not the item in which the article is included is identified by an asterisk. The ad valorem rate or equivalent below which the authority under clause (i) of paragraph (2) (D) authorizes a greater decrease than that under clause (ii) falls between 58 percent and 59 percent ad valorem.

Information and views may be presented by interested parties with respect to the applicability of the authority under clause (ii) of paragraph (2) (D) to any article in the list, whether or not such article is contained in an item identified by an asterisk, and with respect to the period which is representative for the purposes of clause (ii) of paragraph (2) (D) or of paragraph (3) (D) of subsection (a) of section 350 (authority for simplification of computation) in the case of any article in the list subject to a specific rate of duty (or to a combination of rates including a specific rate).

[2] See F. R. Doc. 55-9963, *infra*.

Par.	*Tariff Act of 1930, Title I—Dutiable List*
5	All chemical elements, all chemical salts and compounds, and all combinations and mixtures of any of the foregoing, all the foregoing obtained naturally or artificially and not specially provided for: Chlorine.
5	Medicinal preparations, obtained naturally or artificially and not specially provided for (except preparations of animal or vegetable origin).
28 (a)	Photographic chemicals and 5-Ethyl-5-phenyl-hexahydropyrimidine-4:6-dione, when obtained, derived, or manufactured in whole or in part from any of the products provided for in paragraph 27 or 1651, Tariff Act of 1930.
67	Barytes ore, crude or unmanufactured.
75	Spirit varnishes containing less than 5 per centum of methyl alcohol.
76	Cuprous oxide.
214	Earthy or mineral substances wholly or partly manufactured and articles, wares, and materials (crude or advanced in condition), composed wholly or in chief value of earthy or mineral substances, not specially provided for, whether susceptible of decoration or not, if not decorated in any manner: Witherite.
228 (a)	Spectrographs.
302 (n)	Columbium or niobium.
302 (n)	Alloys not specially provided for of one or more of the metals barium, boron, calcium, columbium or niobium, strontium, tantalum, thorium, titanium, vanadium, or zirconium with one or more of the metals aluminum, chromium, cobalt, copper, manganese, nickel, or silicon (except calcium silicon and zirconium silicon).
307	Boiler or other plate iron or steel, except crucible plate steel and saw plate steel, not thinner than 10%1000 of 1 inch, cut or sheared to shape or otherwise, or unsheared, valued at over 3 cents per pound.
353	Articles having as an essential feature an electrical element or device, and parts thereof, finished or unfinished, wholly or in chief value of metal, and not specially provided for: Adding machines and parts thereof.
372	Machines, finished or unfinished, not specially provided for, and parts thereof wholly or in chief value of metal or porcelain, not specially provided for: Adding machines, and parts thereof.
397	Articles or wares not specially provided for, if composed wholly or in chief value of bronze, but not plated with platinum, gold, or silver, or colored with gold lacquer, whether partly or wholly manufactured.
397	Articles or wares not specially provided for, if composed wholly or in chief value of iron or steel, but not plated with platinum, gold, or silver, or colored with gold lacquer, whether partly or wholly manufactured, *except the following*: Blow torches and incandescent lamps, designed to be operated by compressed air and kerosene or gasoline; builders' hardware (other than hinges and hinge blanks); carriages, drays, trucks, and other vehicles, and parts thereof; cases and sharpening devices for safety razors; cooking and heating stoves and parts thereof; fittings for baby carriages; golf club heads; illuminating articles, and parts thereof; luggage hardware; malleable cast-iron pipe fittings; manufactures of wire; parts of carbonated water siphons; parts of typewriters; railway cars and parts thereof; screws having shanks or threads not exceeding 24/100 of one inch in diameter; slide fasteners and parts thereof; styluses; and tricycles and velocipedes and parts thereof.
502	Molasses and sugar sirups, not specially provided for and not containing soluble nonsugar solids (excluding any foreign substance that may have been added or developed in the product) equal to more than 6 per centum of the total soluble solids.
746	Mangoes.
751	Jellies, jams, marmalades, and fruit butters (except cashew apple (*anacardium occidentale*), currant and other berry, guava, mamey colorado (*calocarpum mammosum*), mango, papaya, pineapple, sapodilla (*sapota achras*), soursop (*annona muricata*), sweetsop (*annona squamosa*), and quince jellies, jams, marmalades and butters; and except orange marmalade).
762	Soybeans for seed purposes.
806 (a)	Fruit juices, not specially provided for, containing less than one-half of 1 per centum of alcohol: Pineapple juice, packed in air-tight containers.
1109 (a)	Woven fabrics, weighing more than four ounces per square yard, wholly or in chief value of wool: Woven green billiard cloths, in the piece, weighing over 11 but not over 15 ounces per square yard, wholly of wool.
1114 (b)	Hose and half-hose, finished or unfinished, wholly or in chief value of wool, valued at more than $1.75 per dozen pairs.
1402	Paper board, wallboard, and pulpboard, not plate finished, supercalendered or friction calendered, laminated by means of an adhesive substance, coated, surface stained or dyed, lined or vatlined, embossed, printed, decorated or ornamented in any manner, nor cut into shapes for boxes or other articles and not specially provided for: Beer mat board.
1410	Unbound books of all kinds, bound books of all kinds except those bound wholly or in part in leather, all the foregoing not specially provided for, if other than of bona fide foreign authorship (not including diaries, music in books, pamphlets, prayer books, or tourist literature).
1510	Buttons not specially provided for: Buttons wholly or in chief value of compounds of casein known as galalith or by any other name, valued at more than 60 cents per gross; buttons commonly known as Roman pearl; fancy buttons with a fish-scale or similar to fish-scale finish; and buttons wholly or in chief value of horn or composition horn.

Tariff Act of 1930, Title I—Dutiable List—Continued

Par.	
*1514	**Emery, corundum, garnet, and artificial abrasives, in grains, or ground, pulverized, refined, or manufactured; emery wheels, emery files, and manufactures of which emery, corundum, garnet or artificial abrasive is the component material of chief value, not specially provided for; and all papers, cloths, and combinations of paper and cloth, wholly or partly coated with artificial or natural abrasives, or with a combination of natural and artificial abrasives; all the foregoing, if containing more than 1/10 of one per centum of vanadium, or more than 3/10 of one per centum of tungsten, molybdenum, boron, tantalum, columbium or niobium, or uranium, or more than 3/10 of one per centum of chromium.**
1516	**Matches, friction or lucifer, of all descriptions, in boxes containing not more than 100 matches per box.**
*1526 (a)	**Hats, caps, bonnets, and hoods, other than for men's or boys' wear, trimmed or untrimmed, including bodies, hoods, plateaux, forms, or shapes, for hats or bonnets not for men's or boys' wear, composed wholly or in chief value of fur of the rabbit, beaver, or other animals, valued at more than $9 and not more than $30 per dozen.**
*1527 (b)	**Rope, curb, cable, and fancy patterns of chain not exceeding ½ inch in diameter, width, or thickness, valued above 30 cents per yard, of metal other than gold or platinum, whether or not plated with gold or platinum.**
*1527 (c)	**Articles valued above 20 cents per dozen pieces, designed to be worn on apparel or carried on or about or attached to the person, such as and including buckles, cardcases, chains, cigar cases, cigar cutters, cigar holders, cigar lighters, cigarette cases, cigarette holders, coin holders, collar, cuff, and dress buttons, combs, match boxes, mesh bags and purses, millinery, military and hair ornaments, pins, powder cases, stamp cases, vanity cases, watch bracelets, and like articles; all the foregoing and parts thereof, finished or unfinished:** **(2) composed wholly or in chief value of metal other than gold or platinum (whether or not enameled, washed, covered, or plated, including rolled gold plate), or (if not composed in chief value of metal and if not dutiable under clause (1) of subparagraph (c) of paragraph 1527, Tariff Act of 1930) set with and in chief value of precious or semiprecious stones, pearls, cameos, coral, amber, imitation precious or semiprecious stones, or imitation pearls:** **Valued not over $5 per dozen pieces or parts:** **Cigarette cases, compacts, powder cases, vanity cases, and parts thereof.**
*1529 (a)[1]	******
[6]	**Articles not described elsewhere in this subparagraph:** **Wholly or in chief value of vegetable fiber:** **Pillowcases, sheets, and damask napkins and table cloths, not wholly or in chief value of cotton.** ***Other (except articles wholly or in chief value of cotton).*** **Other.**
[7]	***Gloves and mittens, embroidered in any manner, wholly or in chief value of wool.***
	******
[14]	**In part of machine-made lace and not described elsewhere in this subparagraph:** **Wearing apparel.** ***Other, wholly or in chief value of vegetable fiber other than cotton.***
	******
[28]	***Lace window curtains wholly or in chief value of rayon or other synthetic textile.***
1531	**Bags, baskets, belts, satchels, cardcases, pocketbooks, jewel boxes, portfolios, and other boxes and cases, not jewelry, wholly or in chief value of reptile leather, and manufacturers of reptile leather, or of which reptile leather is the component material of chief value, not specially provided for (not including any of the foregoing permanently fitted and furnished with traveling, bottle, drinking, dining or luncheon, sewing, manicure, or similar sets, and except women's and children's handbags and pocketbooks).**
1536	**Manufactures of wax, or of which wax is the component material of chief value, not specially provided for (except ski wax and manufactures wholly or in chief value of beeswax).**
1539 (b)[2]	
1558	**Raw or unmanufactured articles not enumerated or provided for:** **Frogs (not including live frogs) and frog legs.**

[F. R. Doc. 55–9961; Filed, Dec. 12, 1955; 8:45 a. m.]

[1] The listing of articles under paragraph 1529 (a) of the Tariff Act of 1930 is made by setting forth the pertinent subdivisions of paragraph 1529 (a), as set forth in "United States Import Duties (1952)", and italicizing the language of such subdivision which covers the items listed, appropriately modified when necessary.

[2] No articles additional to those included under paragraph 1539 (b) in the list appended to the public notice of September 21, 1955, are listed herein. However, the previous listing under paragraph 1539 (b) contained a typographical error, in that the first word of the descriptive language was written "Laminating" instead of "Laminated". Any persons who feel that this typographical error caused them to misunderstand the scope of the listing under paragraph 1539 (b) and who desire to submit written statements or desire to be heard in the light of the intended scope of the listing, may submit such statements or requests to be heard as though the previous listing under paragraph 1539 (b) was included in this list in correct form.

COMMITTEE FOR RECIPROCITY INFORMATION

TRADE-AGREEMENT NEGOTIATIONS PROPOSED IN NOTICE OF SEPTEMBER 21, 1955 AND PUBLISHED SEPTEMBER 23, 1955

POSSIBLE ADJUSTMENT IN PREFERENTIAL RATES ON CUBAN PRODUCTS; SUPPLEMENTAL NOTICE

Submission of Information to the Committee for Reciprocity Information.

Closing date for application to be heard, January 6, 1956.

Closing date for submission of briefs by those desiring to be heard, January 6, 1956.

Closing date for submission of briefs by those not desiring to be heard, January 6, 1956.

Public hearings open January 17, 1956.

The Interdepartmental Committee on Trade Agreements has issued on this day[1] a notice supplementing the notice dated September 21, 1955 and published September 23, 1955 (20 F. R. 7140) as corrected September 29, 1955 and published October 1, 1955 (20 F. R. 7345) relating to trade-agreement negotiations with foreign governments which are contracting parties to the General Agreement on Tariffs and Trade.

Annexed to the supplementary notice of the Interdepartmental Committee on Trade Agreements is a list of articles imported into the United States to be considered in trade-agreement negotiations of which notice has been given as stated above; this list supplements the list annexed to the notice by that Committee of September 21, 1955, and published September 23, 1955 (20 F. R. 7140), as corrected. The Committee for Reciprocity Information hereby gives notice that all applications for oral presentation of views in regard to any aspect of the proposals announced in the supplementary notice shall be submitted to the Committee for Reciprocity Information not later than 12:00 noon, January 6, 1956. Such applications must indicate the product or products on which the individuals or groups desire to be heard, and an estimate of the time required for such presentation. Persons who desire to be heard in regard to the foregoing proposals shall also submit written statements to the Committee for Reciprocity Information not later than 12:00 noon, January 6, 1956. Written statements of persons who do not desire to be heard shall be submitted not later than 12:00 noon, January 6, 1956. Such communications shall be addressed to "Committee for Reciprocity Information, Tariff Commission Building, Washington 25, D. C." Fifteen copies of written statements, either typed, printed, or duplicated shall be submitted, of which one copy shall be sworn to.

Written statements submitted to the Committee, except information and business data proffered in confidence, shall be open to inspection by interested persons. Information and business data proffered in confidence shall be submitted on separate pages clearly marked "For official use only of Committee for Reciprocity Information."

[1] See F. R. Doc. 55–9961, *supra*.

Public hearings will be held before the Committee for Reciprocity Information, at which oral statements will be heard. The first hearing will be at 2:00 p. m., on January 17, 1956, in the Hearing Room in the Tariff Commission Building, Seventh and E Streets NW., Washington 25, D. C. Witnesses who make application to be heard will be advised regarding the time and place of their individual appearances. Appearances at hearings before the Committee may be made only by or on behalf of those persons who have filed written statements and who have within the time prescribed made written application for oral presentation of views. Statements made at the public hearings shall be under oath.

Persons or groups interested in import products may present to the Committee their views concerning possible tariff concessions by the United States on any product, whether or not included in the list annexed to the supplementary notice. However, as indicated in said notice, no tariff reduction or specific continuance of customs or excise treatment will be considered on any product which is not included in the list annexed to the public notice by the Interdepartmental Committee on Trade Agreements of September 21, 1955, and published September 23, 1955 (20 F. R. 7140), as corrected, the list annexed to the supplementary notice issued by said Committee on this date, or in a further supplementary public list.

The United States Tariff Commission has today announced[2] public hearings on the import items appearing in the list annexed to the supplementary notice to run concurrently with the hearings of the Committee for Reciprocity Information. Oral testimony and written information submitted to the Tariff Commission will be made available to and will be considered by the Interdepartmental Committee on Trade Agreements. Consequently, those whose interests relate only to import products included in said list, and who appear before the Tariff Commission, need not, but may if they wish, appear also before the Committee for Reciprocity Information.

Persons interested in exports may present their views regarding any tariff or other concessions that might be requested of the foreign governments with which negotiations are to be conducted. Any other matters appropriate to be considered in connection with the proposed negotiations may also be presented.

Copies of the list attached to the supplementary notice may be obtained from the Committee for Reciprocity Information at the address designated above and may be inspected at the field offices of the Department of Commerce.

All communications regarding this notice, including requests for appearance at hearings before the Committee for Reciprocity Information, should be addressed to the Secretary, Committee for Reciprocity Information, Tariff Commission Building, Washington 25, D. C.

By direction of the Committee for Reciprocity Information this 9th day of December 1955.

EDWARD YARDLEY,
Secretary,
Committee for
Reciprocity Information.

[F. R. Doc. 55–9962; Filed, Dec. 12, 1955; 8:45 a. m.]

UNITED STATES TARIFF COMMISSION

INVESTIGATION AND HEARINGS IN CONNECTION WITH PROPOSED TRADE AGREEMENT NEGOTIATIONS WITH GOVERNMENTS WHICH ARE CONTRACTING PARTIES TO THE GENERAL AGREEMENT ON TARIFFS AND TRADE

Public notice of investigation and hearings under section 3 of the Trade Agreements Extension Act of 1951, as amended, and section 332 of the Tariff Act of 1930, as follows: Investigation No. 4—Supplement A. Supplemental list of articles for consideration in proposed trade agreement negotiations with contracting parties of GATT.

1. The final date for filing requests to testify at Tariff Commission public hearings is January 6, 1956.

2. The final date for filing written statements with the Tariff Commission is January 6, 1956.

3. Tariff Commission public hearings will begin on January 17, 1956.

4. Public announcements relating to supplemental listings in connection with proposed trade agreement negotiations previously announced have also been issued by the Interdepartmental Committee on Trade Agreements[1] and the Committee for Reciprocity Information,[2] and appear concurrently with this notice in the FEDERAL REGISTER.

The Interdepartmental Committee on Trade Agreements this day issued a supplemental announcement concerning proposed trade agreement negotiations. On the same day, in accordance with section 3 of the Trade Agreements Extension Act of 1951, as amended, the President furnished to the United States Tariff Commission a supplemental list (hereinafter referred to as the "President's supplemental list") of articles imported into the United States to be considered in proposed negotiations, and requested the Tariff Commission to make a "peril point" investigation and report with respect to each such article, as provided in said section 3 of the Trade Agreements Extension Act of 1951, as amended. A copy of the President's supplemental list is attached to the announcement of the Interdepartmental Committee on Trade Agreements published in the FEDERAL REGISTER concurrently with this notice.

A. *Investigation instituted.* Pursuant to section 3 of the Trade Agreements Extension Act of 1951, as amended, and under the authority of section 332 of the Tariff Act of 1930, the United States Tariff Commission has this day instituted a supplemental investigation with respect to the articles included in the President's supplemental list.

B. *Purpose of investigation.* The purpose of the supplemental investigation is to obtain the facts necessary to enable the Tariff Commission to formulate findings (known as "peril point" findings) for inclusion in a report to the President with respect to each article included in the President's supplemental list as to (1) the limit to which the modification of duties and other import restrictions, imposition of additional import restrictions, or specific continuance of existing customs or excise treatment may be extended in order to carry out the purpose of section 350 of the Tariff Act of 1930, as amended (Trade Agreements Act), without causing or threatening serious injury to the domestic industry producing like or directly competitive articles, and (2) if increases in duties or additional import restrictions are required to avoid serious injury to the domestic industry producing like or directly competitive articles, the minimum increases in duties or additional import restrictions required.

C. *Written statements and public hearings.* Parties interested will be given opportunity to present their views with respect to the subject matter of the investigation either by submission of written statements or by oral testimony at public hearings, or both. In order to permit, within the limited time and resources available, all interested parties to present information and views concerning the articles in the President's supplemental list in an orderly manner and with the least possible inconvenience to all concerned, the Commission has established the following procedure for submission of written statements and the conduct of hearings:

1. *Written statements in lieu of appearance at hearings.* Interested parties are urged to present their information and views through the submission of written statements in lieu of appearances at the public hearings. Such statements must be under oath and will be given the same consideration as oral testimony presented at the hearings, and, except for information submitted and accepted in confidence, will be made available for inspection by interested parties. Twenty copies of written statements shall be submitted, only one of which need be sworn to. Such statements should be submitted as early as possible, but not later than January 6, 1956.

2. *Scope of written statements and oral testimony.* Written statements and oral testimony must relate to articles included in the President's supplemental list, and must be confined to matters relevant to the purpose of the investigation as stated in B, above. At the beginning of any written statement that is read at the hearings, or any oral testimony given at the hearings, the article and tariff paragraph number to which

[1] See F. R. Doc. 55–9961, *supra*.
[2] See F. R. Doc. 55–9962, *supra*.

the testimony relates should be specifically identified.

3. *Submission of information in confidence.* Information pertinent to the subject matter of the investigation which interested parties desire to submit in confidence may be submitted with written statements or at the time testimony is given at the hearings, on separate sheets, each clearly marked "Submitted in confidence."

4. *Appearance at public hearings.* The following information and instructions should be carefully studied by all persons interested in appearing at the public hearings in this investigation.

a. Requests to appear at the public hearings must be filed in writing (by letter separate from any written statement or brief) with the Secretary of the Commission on or before January 6, 1956. Such requests must contain the following information:

(1) The tariff paragraph number and a description of the article or articles on which testimony will be presented.

(2) The name and organization of the witness or witnesses who will testify, and the name, address, telephone number, and organization of the person filing the request.

(3) A brief indication of the position to be taken concerning the customs treatment of the articles affected.

(4) A careful estimate of the time desired for presentation of oral testimony by all witnesses for whom the request is filed.

NOTE. *The Commission reserves the right to limit the time assigned to witnesses.* In this connection, experience in similar previous hearings has indicated that in most cases the essential information can be effectively summarized in an oral presentation of 15 to 30 minutes. Because of the limited time available, parties desiring an allowance of time in excess of this amount should set forth any special circumstances in support of such request. Witnesses, may, of course, supplement their oral testimony with written statements of any desired length.

b. The Secretary of the Commission should be promptly notified of any changes in the request for appearance as originally filed.

c. It is suggested that parties who have a common interest in one or more of the articles listed endeavor, wherever possible, to arrange for a consolidated presentation of their views.

5. *Date and conduct of hearings.* a. The public hearings in this investigation will commence at 10:00 o'clock a. m. on Tuesday, the 17th day of January 1956, in the Hearing Room of the Tariff Commission Building, Eighth and E Streets NW., Washington, D. C. The hearings will be held each day from 10:00 a. m. to about 1:00 p. m., and are scheduled to be concluded not later than Friday, January 20, 1956.

b. Parties who have properly entered their appearance by January 6, 1956, as indicated under paragraph C, 4, above, will be individually notified of the date on which they are scheduled to appear. Such notifications will be sent as soon as possible after the closing date for requests to appear (January 6, 1956).

c. Questioning of witnesses will be limited to members of the Commission.

6. *Related hearings before the Committee for Reciprocity Information.* Published concurrently with this notice is an announcement by the Committee for Reciprocity Information regarding public hearings to be held by that Committee on the articles included in the President's Supplemental list, and on other matters, to begin on January 17, 1956. Arrangements will be made to permit persons desiring to appear at both Tariff Commission and Committee for Reciprocity Information hearings to do so without conflict in scheduling, and, where possible, to present their testimony at both hearings on the same day. Oral testimony and written statements of interested parties received by the Tariff Commission in connection with this investigation will be made available by the Tariff Commission to the Committee for Reciprocity Information. Accordingly, as stated in the Committee for Reciprocity Information notice, appearance before the Committee for Reciprocity Information for the purpose of submitting the same information, although permissible, will not be necessary.

Likewise, oral or written statements presented to the Committee for Reciprocity Information will be made available to, and carefully considered by, the Tariff Commission, and need not be separately presented to the latter agency.

E. *Communications to be addressed to Secretary.* All communications regarding the Tariff Commission investigation, including requests for appearance at the Tariff Commission hearings, should be addressed to the Secretary, United States Tariff Commission, Washington 25, D. C.

By direction of the United States Tariff Commission.

[SEAL] DONN N. BENT,
Secretary.

COMMISSIONER OF CUSTOMS

DELEGATION OF AUTHORITY TO TAKE FINAL ACTION IN CERTAIN PENALTY CASES

DECEMBER 5, 1955.

By virtue of the authority vested in me by Reorganization Plan No. 26 of 1950 (3 CFR, 1950 Supp. Ch. III), it is hereby ordered that subparagraph (h) of paragraph 1 of Treasury Department Order No. 165, Revised, issued on November 2, 1954 (T. D. 53654; 19 F. R. 7241), is amended by substituting a comma for the period at the end thereof and adding: "except that such approval shall not be required with respect to any forfeiture incurred under section 27, Merchant Marine Act, 1920, as amended (46 U. S. C. 883), if it is determined by the Commissioner of Customs or a subordinate in the Bureau of Customs designated by the said Commissioner that the violation occurred as a direct result of an arrival of the transporting vessel in distress."

B. H. MOONEY ET AL.

ORDER AFTER PREHEARING CONFERENCE AND CONTINUANCE

In re application of Jane F. Mooney, B. H. Mooney, Jr., and J. F. Mann, co-executors of the estate of B. H. Mooney, deceased (transferor) and Burgett H. Mooney, Jr. (transferee), Docket No. 11484, File No. BTC-1954; for consent to transfer of control of News Publishing Company, licensee of Station WLAQ Rome, Georgia.

In re application of News Publishing Company, Docket No. 11485, File No. BR-1512; for renewal of license of Station WLAQ, Rome, Georgia.

Appearances. Mr. Marcus Cohn of Washington, D. C., on behalf of all applicants, and Mr. Ray Paul of Washington, D. C., on behalf of the Chief, Broadcast Bureau, Federal Communications Commission.

1. An informal prehearing conference was conducted on November 30, 1955, in which counsel for the applicants and for Bureau participated as indicated in the above statement of appearances. A memorandum of the matters discussed in conference has been provided to each attorney. The agreements that were reached and the matters that were settled in conference are set out herein.

2. Counsel for the parties will confer before the hearing in order to agree upon factual statements and stipulations to be incorporated into the hearing record; the agreements will embrace such facts and information in the Commission's files and records as pertain to the hearing issues, and all other undisputed evidentiary material.

3. Applicants expect at the hearing to offer oral testimony by the individual who has been the most active of the various officers, directors and stockholders in the applicant licensee since the time the application for construction permit was filed; in addition, the applicants will have available for cross-examination the proposed transferee.

4. At the further informal conference between counsel consideration will be given to defining or limiting the scope of the evidence to be offered, including, but not limited to, a statement of position concerning the materiality or probative value of evidence upon the character qualifications of the principals involved in this proceeding.

5. It was agreed that the date for the commencement of the hearing should be changed from Monday, December 19, 1955, to Tuesday, December 20, 1955, so as to accommodate the mutual conveniences of counsel and of the Hearing Examiner.

It is ordered, This 5th day of December 1955, that the hearing to be held in this proceeding shall be governed by the provisions hereinabove stated to the extent of their applicability; and

It is further ordered, That the hearing date is continued from Monday, December 19, 1955, to Tuesday, December 20, 1955.

Released: December 6, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

HARRY LAURENCE HILL AND ARLINE S. HODGINS

ORDER CONTINUING HEARING

In re applications of Harry Laurence Hill, Fort Lupton, Colorado, Docket No. 11503, File No. BP-9842, Arline S. Hodgins, Brighton, Colorado, Docket No. 11504, File No. BP-9885, for construction permits.

The Hearing Examiner having under consideration an oral request for a continuance of this proceeding;

It appearing that an informal prehearing conference pursuant to section 1.813 of the rules was held on December 5, 1955, at which time counsel for Arline S. Hodgins requested a continuance and other parties to the case concurred in the request; and

It further appearing that good cause exists for granting of the continuance;

It is ordered, This 5th day of December 1955, that the date for exchanging exhibits is continued from December 7 to January 5, 1956, and the date upon which the hearing will commence is continued from December 19 to February 20, 1956.

[Docket No. 11569; FCC 55-1206]

WILLIAMSPORT RADIO BROADCASTING ASSOCIATES, INC. (WARC)

MEMORANDUM OPINION AND ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In re application of Williamsport Radio Broadcasting Associates, Inc. (WARC); Milton, Pennsylvania, Docket No. 11569, File No. BP-9856; for construction permit.

1. The Commission has before it for consideration separate protests filed on November 4, 1955, by the Lycoming Broadcasting Company, licensee of Station WLYC, Williamsport, Pennsylvania (1050 kc, 1 kw, Day), and John S. Booth, permittee of Station WMLP, Milton, Pennsylvania (1570 kc, 1 kw Day), pursuant to section 309 (c) of the Communications Act of 1934, as amended, protesting the Commission's action of October 5, 1955 (released October 6, 1955), granting without hearing the above-entitled application of Williamsport Radio Broadcasting Associates, Inc., for a construction permit for a new standard broadcast station, WARC, to operate on 1380 kilocycles with a power of 1 kilowatt, daytime only, at Milton, Pennsylvania; and an opposition to the said protests filed on November 21, 1955, by Williamsport Radio Broadcasting Associates, Inc. The applicant is licensee of Station WWPA, Williamsport, Pennsylvania (1340 kc, 250 w, Unl.). The city of Williamsport, with a population of 45,047, is located approximately 17 miles northwest of Milton, Pennsylvania, which has a population of 8,578.

2. John S. Booth claims that he is a party in interest within the purview of section 309 (c) of the Communications Act of 1934, as amended, because he is permittee of Station WLMP, which has "commenced operation" in Milton, Pennsylvania, where the applicant proposes to operate, and that both stations will be in direct competition for listeners and advertising revenues. The Lycoming Broadcasting Company claims that it is a party in interest under 309 (c) because "further competition would result from a grant of the pending application • • • and it will suffer economic injury in its operation of Station WLYC". In support of their respective protests, Stations WMLP and WLYC contend that field intensity measurements show that the 0.5 mv/m contours of WARC and WWPA overlap in an area which constitutes about 50 percent of the WWPA service area; that the 0.5 mv/m contour of WARC encompasses and extends beyond Williamsport, Pennsylvania; that the 2 mv/m contours of WARC and WWPA overlap in an area of 20.3 square miles with a population of 798 people; that the 0.5 mv/m contours and not the 2 mv/m contours must be controlling for purposes of interpreting section 3.35 (a); that "further" concentration of control of media of mass communication in the Milton-Williamsport area would result from a grant because parties to the applicant own WWPA and have substantial interests in The Grit, the "only Sunday newspaper published in the Williamsport area", and in the Rialto Theatre, Williamsport, which "also disseminates entertainment, and news and information to the public in the Williamsport area"; that there is grave doubt that WARC will provide a local broadcast service to Milton since the stockholders are all residents of Williamsport and that WARC and WWPA will have the same manager and program director, both of whom will presumably live in Williamsport; that WARC will be only a "satellite" of WWPA; that Milton will receive adequate service from WMLP; and that a full evidentiary hearing is necessary to determine the above matters.

3. In its above-described opposition, Station WARC concedes that both WMLP and WLYC are "parties in interest" within the meaning of section 309 (c) of the Communications Act but contends that "their allegations in regard to overlap of contours and concentration of control of mass communication media do not show that if established at a hearing the grant [of WARC] contravened the public interest, convenience and necessity" and that the protestants' erroneous conclusion that WARC will be operated as a satellite station of WWPA is not supported by the facts given, and, accordingly the protests should not be granted.

4. In view of the facts that John S. Booth is the permittee of standard broadcast station WMLP in Milton, Pennsylvania, where the applicant proposes to operate and that both will be in direct competition; that the Lycoming Broadcasting Company is licensee of Station WLYC, Williamsport, Pennsylvania, and will compete with the applicant's proposed station for advertising revenues; and that each protestant has alleged that it will suffer economic injury as a result of the grant complained of, we find that each of the above-named protestants is a "party in interest" within the meaning of section 309 (c) of the Communications Act of 1934, as amended. T. E Allen and Sons, Inc., 9 Pike and Fischer RR 197; Federal Communications Commission v. Sanders Brothers Radio Station, 309 U. S. 407 (9 Pike and Fischer RR 2008). We find further that the facts, matters and things relied upon by each of the protestants have been specified with sufficient particularity to warrant designating the above-entitled application for hearing.

5. In view of the foregoing: *It is ordered,* That, pursuant to section 309 (c) of the Communications Act of 1934, as amended, effective immediately, the effective date of the grant of the above-entitled application is postponed pending a final determination by the Commission in the hearing described below with respect to the protests of John S. Booth and the Lycoming Broadcasting Company; and that the above-entitled application is designated for hearing at the offices of the Commission in Washington, D. C., on the following issues:

1. To determine whether the proposed operation will be consistent with section 3.35 of the Commission's Rules and Regulations.

2. To determine whether, in view of the ownership interests of the officers, directors and stockholders of applicant, a grant of the application would result in an undue concentration of control of media of mass communication in the Williamsport-Milton, Pennsylvania, area.

3. To determine whether the proposed station at Milton, Pennsylvania, will be operated as a truly local broadcast facility designed to serve the needs and expressions of the community in which it is located rather than the larger adjoining community of Williamsport.

4. To determine whether, on the basis of the evidence adduced at the above hearing, the grant of the above-entitled application should be set aside.

The burden of proof as to each of the above issues shall be on each of the protestants.

It is further ordered, That each of the protestants and the Chief, Broadcast Bureau, are hereby made parties to the above-described proceeding and that:

(a) The hearing on the above issues shall commence at 10:00 a. m. on January 23, 1956, before an Examiner of the Commission; and

(b) The parties to the proceeding herein shall have fifteen (15) days after the issuance of the Examiner's decision to file exceptions thereto and seven (7) days thereafter to file replies to any such exceptions; and

(c) The parties intending to participate in the hearing herein shall file their appearances not later than December 27, 1955.

Adopted: December 5, 1955.

Released: December 6, 1955.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] MARY JANE MORRIS,
Secretary.

FEDERAL POWER COMMISSION

[Docket Nos. G-4558, G-9031]

NELSON BUNKER HUNT TRUST ESTATE

NOTICE OF APPLICATIONS AND DATE OF HEARING

DECEMBER 7, 1955.

Take notice that Nelson Bunker Hunt Trust Estate (Applicant), a Texas trust estate and independent producer with its principal place of business in Dallas, Texas, filed on October 25, 1954, as supplemented June 13, 1955, an application in Docket No. G-4558 for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing the acts or operations hereinafter described.

In the first transaction, Applicant produces natural gas from acreage located in the East Haynesville Field, Claiborne Paris, Louisiana, and delivers and sells such gas to Arkansas Louisiana Gas Company under the terms of a contract dated July 19, 1950, as amended. The price of such gas as of June 7, 1954, was 10.346 cents per Mcf. with average daily deliveries of approximately 2,000 Mcf. In the second transaction, Applicant produces casinghead gas from acreage located in the Starr County Northeast Field, Starr County, Texas and such gas is delivered and sold to Transcontinental Gas Pipe Line Company (Transcontinental) by Sun Oil Company (Sun) under the terms of a contract between Transcontinental and Sun dated September 24, 1947, as amended. Applicant is not a party to the contract between Transcontinental and Sun. Sun, operator of a processing plant, disposes of Applicant's residue gas under the terms of two contracts. One contract, a processing agreement dated May 23, 1951, as amended, is concerned with casinghead gas produced from the B. P. Gonzales lease. The other involves disposition of casinghead gas produced by the M. Pena Unit, and in which Sun is designated unit operator. Under both agreements Sun must dispose of Applicant's interest in the residue gas in the absence of an election by Applicant to take in kind or separately sell such gas. The total amount of residue gas attributable to Applicant's interests is less than 1,000 Mcf. a day, and the price paid by Transcontinental is approximately 7 cents per Mcf.

On June 13, 1955, Applicant filed Amendment No. 1 to its application stating that its application was limited to a request for authorization to "• • • sell natural gas to Transcontinental Gas Pipe Line Corporation until July 15, 1955, and not afterwards, • • •"

Take notice that Applicant filed, on June 13, 1955, an application in Docket No. G-9031 for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act, authorizing delivery and sale of natural gas to Tennessee Gas Transmission Company (Tennessee), under the terms of a contract dated April 5, 1955. The source of the gas proposed to be sold to Tennessee is the same as that now purchased by Transcontinental in Docket No. G-4558, as heretofore described.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a formal hearing be held on January 4, 1956, at 10:00 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved and the issues presented by the applications in Docket Nos. G-4558 and G-9031.

Protest or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1955. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY,
Secretary.

[F. R. Doc. 55-9982; Filed, Dec. 12, 1955; 8:48 a. m.]

[Docket No. G-8530]

MORRIS MIZEL ET AL.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 7, 1955.

In the matters of Morris Mizel, Herman Sanditen, Mary Kurtz Sanditen and Isabel R. Sanditen.

Take notice that Morris Mizel, individually and representing Herman Sanditen, Mary Kurtz Sanditen and Isabel R. Sanditen, all individuals whose addresses are Kennedy Building, Tulsa, Oklahoma, hereinafter referred to as Applicant, filed, on February 28, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of 640 acres, Hugoton Field, Finney County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Tuesday, January 17, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1955. Failure of any party to appear at and participate in the hear-

ing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 55-9983; Filed, Dec. 12, 1955; 8:48 a. m.]

[Docket No. G-8874]

ANDERSON-PRICHARD OIL CORP.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 7, 1955.

Take notice that Anderson-Prichard Oil Corporation (Applicant), a Delaware corporation whose address is Liberty Bank Building, Oklahoma City, Oklahoma, filed on May 9, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of a dually completed well on the 40 acre Holdsclaw-Ross Unit Lease and the underlying 80 acre Hart Sand Unitized Tract, Golden Trend Field, Garvin County, Oklahoma, to Warren Petroleum Corporation, Cities Service Oil Company, Kerr-McGee Oil Industries, Inc., Oklahoma Natural Gas Company and The Texas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 16, 1956, at 9:30 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9477]

JOHN B. HAWLEY, JR.

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 7, 1955.

Take notice that John B. Hawley, Jr. (Applicant), an individual whose address is % Northern Pump Company, Columbia Heights P. O., Minneapolis 21, Minnesota, filed on October 13, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of 40 acres of the 160 acres of the Ockuly No. 1 Gas Unit, Hugoton Gas Field, Grant County, Kansas, to Colorado Interstate Gas Company for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 16, 1956, at 9:40 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

[Docket No. G-9481]

EDWARD C. BOLTON

NOTICE OF APPLICATION AND DATE OF HEARING

DECEMBER 7, 1955.

Take notice that Edward C. Bolton (Applicant), an individual whose address is P. O. Box 2448, Waco, Texas, filed on October 13, 1955, an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing Applicant to render service as hereinafter described, subject to the jurisdiction of the Commission, all as more fully represented in the application which is on file with the Commission and open for public inspection.

Applicant proposes to sell natural gas in interstate commerce from production of the 320 acre E. C. Bolton Lease West Panhandle Field, Hutchinson County, Texas, to Frank C. Henderson Trust No. 2 and Elizabeth P. Henderson Trust No. 2 for resale.

This matter is one that should be disposed of as promptly as possible under the applicable rules and regulations and to that end:

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing will be held on Monday, January 16, 1956, at 9:50 a. m., e. s. t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, D. C., concerning the matters involved in and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, dispose of the proceedings pursuant to the provisions of section 1.30 (c) (1) or (c) (2) of the Commission's rules of practice and procedure. Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before December 28, 1955. Failure of any party to appear at and participate in the hearing shall be construed as waiver of and concurrence in omission herein of the intermediate decision procedure in cases where a request therefor is made.

SMALL BUSINESS ADMINISTRATION

[Declaration of Disaster Area 76]

VIRGINIA

DECLARATION OF DISASTER AREA

Whereas it has been reported that during the month of August 1955, because of the disastrous effects of floods in the Rappahannock River caused by hurricanes, damage resulted to oyster beds located in certain areas in the State of Virginia; and

Whereas the Small Business Administration has investigated and has received other reports of investigations of conditions in the areas affected; and

Whereas after reading and evaluating reports of such conditions, I find that the conditions in such areas constitute a catastrophe within the purview of the Small Business Act of 1953, as amended;

Now, therefore, as Administrator of the Small Business Administration, I hereby determine that:

1. Applications for disaster loans under the provisions of section 207 (b) (1) of the Small Business Act of 1953, as amended, may be received and considered by the Office below indicated from oyster growers whose property situated in the following counties (including any areas adjacent to the counties below named) suffered damage or other destruction as a result of the catastrophe above referred to:

Counties of: Essex, Lancaster, Middlesex, Richmond.

Small Business Administration Regional Office, 900 North Lombardy Street, Richmond 20, Virginia.

2. A special field office to receive such applications will not be established at this time.

3. Applications for disaster loans under the authority of this Declaration will not be accepted subsequent to May 31, 1956.

Dated: November 18, 1955.

WENDELL B. BARNES, *Administrator.*

TITLE 3—THE PRESIDENT

PROCLAMATION 3121

UNITED NATIONS HUMAN RIGHTS DAY, 1955

BY THE PRESIDENT OF THE UNITED STATES OF AMERICA

A PROCLAMATION

WHEREAS December 10, 1955, marks the seventh anniversary of the proclaiming of the Universal Declaration of Human Rights by the General Assembly of the United Nations as a common standard of achievement for all nations and all peoples, and will be observed by the members of the United Nations as Human Rights Day; and

WHEREAS December 15, 1955, marks the one hundred and sixty-fourth anniversary of the adoption of our Bill of Rights as the first ten Amendments to the Constitution of the United States; and

WHEREAS the great fundamental of our national life is our common belief that every human being is divinely endowed with dignity and worth and with inalienable rights, and that to grow and flourish people must be free; and

WHEREAS one of the great purposes of our Government is to maintain freedom and justice among ourselves and to champion them for others so that we may work effectively for enduring peace:

NOW, THEREFORE, I, DWIGHT D. EISENHOWER, President of the United States of America, do hereby proclaim December 10, 1955, as United Nations Human Rights Day. I do call upon the people of the United States to celebrate this day by the study and reading of the Universal Declaration of Human Rights proclaimed by the United Nations, and the Bill of Rights in the Constitution of the United States, that we may strengthen our determination that every citizen of the United States shall have the opportunity to develop to his fullest capacity in accord with the faith which gave birth to this nation, and may realize more fully our obligation to labor earnestly, patiently, and prayerfully for peace, freedom, and justice throughout the world.

IN WITNESS WHEREOF, I have hereunto set my hand and caused the Seal of the United States of America to be affixed.

DONE at the City of Washington this Eighth day of December in the year of our Lord nineteen hundred and [SEAL] fifty-five, and of the Independence of the United States of America the one hundred and eightieth.

DWIGHT D. EISENHOWER

By the President:

JOHN FOSTER DULLES,
Secretary of State.

TITLE 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 47—RULES OF PRACTICE UNDER THE PERISHABLE AGRICULTURAL COMMODITIES ACT

OFFICIAL NOTICE; ISSUANCE OF ORDER

By virtue of the authority vested in the Secretary of Agriculture by the Perishable Agricultural Commodities Act, 1930, as amended (46 Stat. 531; 7 U. S. C. 499a et seq.), the rules of practice issued thereunder (7 CFR Part 47) are hereby amended as follows:

1. In § 47.32 (e) (7) *Official notice* strike from the proviso the parenthetical phrase "(except where official notice is taken, for the first time in the proceeding, in the final order)."

2. In § 47.41 (b) *Issuance of order* strike the language immediately preceding the proviso and insert in lieu thereof the following: "The order shall be issued and filed with the Hearing Clerk who shall serve it forthwith upon the parties as the final order in the proceeding:".

(Sec. 15, 46 Stat. 537, as amended; 7 U. S. C. 499o)

Done at Washington, D. C., this 9th of December 1955, to be effective upon publication in the FEDERAL REGISTER.

[SEAL] FRANK E. BLOOD,
Acting Deputy Administrator, Agricultural Marketing Service.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

PART 9—AVIATION SERVICES

In the matter of revision of Part 9 of the Commission's rules and regulations to effect certain editorial changes therein.

The Commisson having under consideration the desirability of making certain editorial changes in Part 9 of its rules and regulations; and

It appearing that the amendments adopted herein are editorial in nature, and, therefore, prior publication of notice of proposed rule making under the provisions of section 4 of the Administrative Procedure Act is unnecessary, and the amendments may become effective immediately; and

It further appearing that the amendments adopted herein are issued pursuant to authority contained in sections 4 (i), 5 (d) (1) and 303 (r) of the Communications Act of 1934, as amended, and section 0.341 (a) of the Commission's Statement of Organization, Delegations of Authority and Other Information;

It is ordered, This 8th day of December 1955, that, effective December 14, 1955, Part 9—Aviation Services, of the Commission's rules and regulations is revised as set forth below:
